### ANNUAL REPORT OF MARCH OF DIMES

### Figures Released This Week by Local Treasurer

A total of \$4972.79 was spent during 1957 directly to aid polio victims in Carroll County. This figure was released this week in an annual financial report of the Carroll County Chapter of The National Foundation Chapter of The National Foundation for Infantile Paralysis. Mrs. E. R. Griffin, Treasurer of the local polio group announced that the chapter netted \$8223.77 from the 1957 March of Dimes. A like sum sent to the organization's national headquarters represented the county's contribution to the National Foundation's Research, Professional Education and other programs.

DON'T FORGET PARCEL POST

Most of the extensive discussion over proposed increases in postal charges has dealt with the first, second and third class mail service. Comparatively little attention has been given to the fourth class category, which is parcel post.

Actually, the case for increasing parcel post charges to the point where they meet all the direct and indirect costs of providing the service, and eliminate the heavy taxpayer borne deficits that have been accumulating during most of parcel post's history, is an extremely compelling one. When Congress authorized the service, in 1913, it was specified that it should pay its own way and not unnecessarily compete with private parcel carriers. Those stipulations have not been followed-as the Hoover Commission and other bodies have made abundantly clear.

The regular mails are not competitive with private business. Parcel post is-and unfairly-competitive due to the subsidies it receives. The regular mails serve as a necessary means of providing the people with education, information and entertainment. Parcel post, on the other hand is purely commercial, and if it went out of business tomorrow taxpaying private commercial parcel-carrying enterprises would take over the

Parcel post charges should be adjusted upward to where those who want and use the service pay the full bill-and don't look to everyone else to pay a part of it for them-Indusvews Review.

### FACTS AND OPINIONS

Editor John Fischer of Harper's Magazine tells of the policy certain California judges have adopted toward litterbugs: "When a culprit is hailed into their courts for littering the roadside with beers cans, sandwich wrappers and similar debris, these judges do not impose a fine. Instead they sentence the guilty motorist to a term-ranging from a

Between December 1 and Christmas the "iron reindeer" of the nation's railroads will transport more than 250,000,000 gift parcels and greeting cards each day.

The city of San Francisco operates three municipal utility services-a street railway, an airport, and a bureau of heat, light and power. During the last fiscal year these operated at a loss of nearly \$6 million, which was made up by the taxpayers.

Max Ascoli, editor of The Reporter, writes ". . . there is something ominous and somewhat alarming in the current conception of war. Instead of of being, as Clausewitz put it, 'a mere continuation of policy by other means,' it is now centered on the means themselves and on their use. Thus strategy, the science of war, is reduced to weaponry, while diplomacy is reduced to something very close to propaganda."

Director Brundage of the Bureau of the Budget has instructed all executive agencies to prepare the specific legislative proposals required to establish an equitable and uniform government-wide policy on charges and fees for certain government services and property. The purpose is to recover full costs for services which provide special benefits to individuals or groups, and to obtain a fair market value for the use or sale

Readers of a California newspaper were asked if they believed the paper should print the names of juveniles who commit serious offenses. The result: 58 per cent voted "yes", 27 per cent voted "no", and 15 per cent gave no opinion.

Columnist Robert S. Allen writes that an attempt will be made to prune \$1,813,000,000 from the budges of certain government activities in order to make up for increased military spending. Heaviest cuts, he continues, will be in agriculture, veterans administration and defense stockpiling, in that order.

Publisher Tom Anderson of Farm and Ranch quips: "The Russians may beat us to the moon with a Sputnik. But I'll bet we get there first with Foreign Aid."

An article by F. A. Harper in The Freeman says that federal grants to the states this year will amount to about \$80 per family, as against \$30 per family 10 years ago.

Take It Easy On Ice, Snow

By Jeanne Smith, Dodge Safety Consultant

"WINTERIZING" your driving habits as well as your automobile is the secret to safe driving on

Here are five i m portant winter driving recommended by the Committee on Winter Driving Hazards of the National Safety Coun-

Miss Smith 1. When pavements are slippery, take it easy while accelerating, braking and turning. Drive at a steady pace and get the "feel" of the road. To find out if the pavement is slick, try your brakes occasionally while driving slowly, away from traffic.

2. On snow or ice, stay well behind the car ahead. To avoid a rear collision, the distance between cars must be considerably greater than when the pavement is dry.
3. If you have to stop sudden-

ly on ice, don't panic and jam or "freeze" on brakes. This may send your car into an uncontrollable skid. The best way to maintain full control of your car during a sudden stop is a fast up and down pumping of the brakes. If the rear starts to swing, release the brakes and steer in the direction of the skid.

4. Keep windshield wipers

4. Keep windshield wipers, heaters and defrosters in good working condition. You must see danger to avoid it.

5. Replace worn or smooth tires. Special snow tires are help-ful and, for the worst ice and snow conditions, reinforced tire chains are necessary.

From Warm Springs, Georgia, last week came a reminder that there are some persons in the world working for a better place for humans instead of working for a means of destruc-tion of the entire human race. At the 20th anniversary observance of the National Foundation for infantile pasatisfaction from acquiring knowledge to serve suffering humanit and from the creation of beautiful things. One of the most critical problems today is the adjustment tween society and science. There seems to be a wide gap between those who create for the enrichment of all manufacture things solely for comfort and profit. It may be that the coming year will see American re-arrange their set of values. Already physics and the humanities. The sputniks have made everyone aware that though money can buy almost anything it cannot buy knowledge. That is one thing that everyone must dig for with his own ability and with his own sweat. It must give those who have fought so long and hard for better teachers and for more respect for the teaching profession to see this sudden shift in the public attitude toward education and the educated. ### Easy Casseroles Will Help Stretch **Family Food Budget**

STEAKS and chops for barbecueing may have left the food budget in sad straits, but casseroles coming to the rescue can fix that problem in a hurry. Casseroles are a wonderful time

saver, too, on those days when you have to be out of the home or really busy. Prepare the dish the evening before or in the morning, refrigerate, and then bake while you're setting the table.

Here's one with eggs which is good to have in case the family doesn't show much interest in eggs at breakfast time:

Egg-Olive Casserole

(Serves 6) 6 hard-cooked eggs, halved

lengthwise 2 tablespoons mayonnaise

2 tablespoons butter 2 tablespoons chopped chives

2 tablespoons flour 1/8 teaspoon pepper

1½ cups milk 2 cups grated processed Swiss cheese 1/3 cup pimiento-stuffed olives

6 slices buttered toast Remove yolks from eggs. Combine yolks, mayonnaise and blend.

A new way to serve eggs uses chive-deviled egg halves on toast with an olive-cheese sauce. Canned apricots spiced with cloves and stick cinnamon go deliciously with the eggs.

Pile lightly into whites. Melt butter, add chives and saute for 5 minutes. Add flour and blend. Gradually add milk, stirring and

cook gently until thickened. Add cheese and olives and cook until cheese melts. Arrange eggs on toast in casserole. Top with sauce. Place in moderate oven to keep warm or to reheat if the casserole

has been refrigerated. Tuna Bake (Serves 4)

2 tablespoons butter 21/2 tablespoons flour 34 cup evaporated milk

1/4 cup water

1 7-ounce can tuna

11/4 cups canned peas, drained 1 cup grated American cheese Melt butter, stir in flour and salt. Add milk and water; cook and stir until thickened. Blend in tuna, peas and 34 cup cheese. Turn into 1-quart casserole and sprinkle with remaining cheese. Bake in moder-

# Comfort in Fashions

ate (350°F.) oven about 20 min-

Featured for Fall Smart, comfortable fashions are in sight for this Fall. Women will appreciate the relaxed, carefree silhouette which is now being shown because it spells ease in wearing the clothes whether you're a homemaker, career woman or

traveler. Headlining the collections are the gently bloused dress and the jacket which have a feeling of casualness and comfort. Waistlines are undefined and the skirts are slim but mobile and figureflattering.

Middies, Jackets

The "30's" look continues to hold sway, bringing with it the return of the middy top which is ensembled with skirts and dresses. Sailor ties, collars and the official look of brass buttons gives the nautical theme lots of color and spirit. A typical nautical ensemble features a sheath dress and middy jacket.

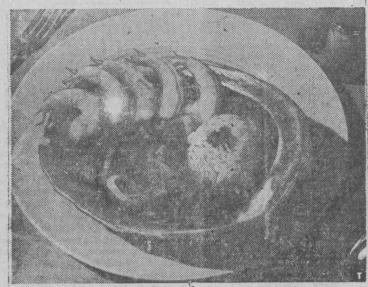

Girls will take their cue from men in choosing stripes in conservative or bold patterns. They seem to like the white collars and cuffs, too. Little boy jackets are still popular, with the latest ones the most brief of all.

### Prints, Knits

Prints are important in the fashion hit parade with foulard prints and paisleys done in brilliant or subdued jewel tones. These are styled in many ways and relaxed shapes.

Cotton knits are more popular than ever and will glide into Fall very readily. Ribs, novelty patterns and herringbones add texture interest to wardrobes.

### A TEMPTING CREOLE FOR SHRIMP FIESTA

A gay fiesta deserves a gay dish, and that's just what this Shrimp Creole is—developed by the Shrimp Association of the Americas for the Shrimp Fiesta, September 18-28. It's in the Fall that the shrimp catches are heaviest and millions of pounds of shrimp are sold fresh or canned or frozen for good eating all year 'round.

FIESTA SHRIMP CREOLE

4 tablespoons cooking oil 2 medium onions, sliced I green pepper, sliced 2 tablespoons flour

½ teaspoon salt

1/4 teaspoon pepper 1 teaspoon oregano (optional) 1 No. 2 can solid pack tomatoes

1 small can tomato sauce 1 pound uncooked shrimp, fresh or frozen

Heat oil in frying pan. Add onion and pepper rings and cook until tender. Sprinkle flour in pan, stirring until it is blended in. Add salt, pepper, oregano, tomatoes and tomato sauce. Cook over very low heat while you prepare shrimp. Clean shrimp and cook it by boiling 2 to 5 minutes. Reserve a few whole shrimp to use as garnish. Chop remaining shrimp. Just before serving, add chopped shrimp to sauce and heat. Serve with rice. Garnish with whole shrimp. Makes 4 servings.

### Lemon Pie In An Instant

MANGY LEMON PIE—made even more intriguing by a crust of crushed gingersnaps—will please appetites sharpened by the crisp weather of early fall. Whole gingersnaps are tucked in the filling to give a festive touch.

The filling is made with the popular lemon instant pudding which requires no cooking. Just beat it slowly with an egg beater and pour directly into the pie shell. The whole pie can be made in advance or an hour before serving-just leave time for it to set.

LEMON GINGERSNAP CREAM PIE

2 cups milk 1 package lemon instant pudding mix

1 cooled baked 8-inch Gingersnap Crust 5 whole gingersnaps

Pour milk into mixing bowl. Add pudding mix and beat slowly with egg beater just until well mixed, about 1 minute. Do not overbeat; mixture will be thin. Pour at once into pie shell. Let stand 15 minutes. Use whole gingersnaps for garnish.

GINGERSNAP CRUMB CRUST

1 cup fine gingersnap 2½ tablespoons sugar cooky crumbs

3 tablespoons melted butter

Combine crumbs and sugar. Add melted butter. Mix well. Press firmly with back of spoon on bottom and sides of 8-inch pie pan. Bake in moderate oven (375° F.) 5 to 8 minutes. Cool before filling.

### These Baked Apples Go Glamorous!

In the time it takes to say to unexpected guests, "Stay for supper," you can change plain baked apples to a glamorous dessert with a quick 'n' easy topping! This same simple flaked coconut and cream mixture would be equally delicious on applesauce, or on a wedge of apple pie. The topping can be added just before serving; or, if there's time, chilled in advance, as the recipe suggests. Coconut Baked Apples

6 tert apples, cored 12 cup water % cup sugar

cup Baker's Angel

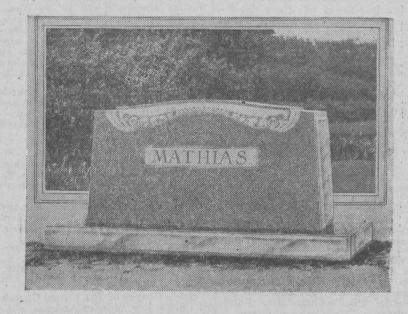

Flake Coconut

2 tablespoons sugar 1/2 teaspoon orange extract or grated orange rind

1/2 cup cream, whipped

Place apples in baking dish, add water, and sprinkle with % cup sugar Bake in hot oven (400°F.) 45 minutes, or until done. Cool. Foid 1/2 cup of the coconut, 2 tablespoons sugar, and orange extract into whipped cream. Top apples with the mixture Garnish with remaining coconut. Chill before serving. Makes 6 servings.

### The Church's Power

Lesson for January 12, 1958

WHEN is a church not a church? asks Dr. W. M. Horton. Answer: When it has lost the Holy Spirit. In this all Christian thinkers will agree with him. At least they will agree this far: a church is not a living church, it has lost its power, if the Holy

Spirit is not in it. A church may be a true church, or (we had better say) truly a church, i.e. not a club, not a gang. but a church with a correct creed and a leadership absolutely

apostolic, - and Dr. Foreman still not be a live church. The church, like a corpse, needs lifeforce. And suspended animation may be about the same as death. The church was never expected by our Lord just to sit there with folded hands waiting for the skies to open. "You shall receive power," He said, "when the Holy Spirit has come upon you." A powerless church might as well be no church. What Kind of Power?

Churches have sometimes coveted the wrong kind of power. They have become power-systems for their own benefit. For instance, there is political power. On the one hand, political activity is part of a Christian's service to his community, and alerting its members to any moral issues involved in political issues may well be a proper duty of the church's leaders. But when the church itself becomes a kind of political party, it is reaching for the kind of power which, if it acquires, will kill it off. Imagine, if you can, a preacher or a bishop going to the local political boss and saying, "Boss, I have 500 Presbyterian (or Methodist or what not, as the case may be) votes that I can deliver next Tuesday. Let's have it on the line: How much are these votes worth to you?" If that could be done (and it cannot)

the church would have stopped be-

ing a church. It would be nothing but a political party at best, a cheap mess of men for sale at the worst. Closely kin to this is another wrong kind of power which can be called compulsive. Sometimes a church has not only made herself a partner of the State; she has become, practically, the State itself. A church can, as in the Spanish Inquisition, come to have life-and-death power enforced by the state, killing or exiling everyone who ventures to question the church's words or ways. But this again is fatal to the church's true life. A third wrong kind of power is braking power, where the church becomes a drag on mankind's progress, hobbling and crippling every forward step, becoming a self-appointed guardian of Things As They Used to Be. But it is not power to hold back, it is power to go forward that the church needs.

Power for What?

What the church needs is spiritual power, that is, power in its own spirit, power to move the spirits of men. It needs power to win men and women and children; to stir the indifferent, to challenge the cynical, to reclaim the wasted life. It needs power, in short, to win men to Christ. To win them all the way, not to stop at the threshold of decision but to enter deeply into the life and spirit of the Master. The church does not herself change lives. She is not God, she is not divine. But under God the church can bring men into the presence of the Divine Spirit, who alone can change the heart. The Christian church moreover needs power to become the conscience of society. And all the grey compromises of the world, the church at her best has the clear vision that sees black, black, and white, white. A starvation diet will sometimes produce blindness; and a church starved for the Spirit will be a blind leader of the blind. The church, in a word, needs power to be the body of Christ, seeing with his eyes, working with his hands, feeling with his heart.

How Does Power Come? The kind of power the church needs can come only through God's Spirit, who is also the Spirit of Christ. And the Spirit comes not always in the spectacular way celebrated in the book of Acts, but more often in quiet and at first unnoticed ways. The Spirit comes only to a church that prays, a church that expects, and a church that obeys. It was so in the beginning; and so it will always be. God is always willing to send his Spirit; but not to a church, or a man, that does not desire, or will misuse, this great gift.

### Chilly Fall Days Make Soup Tureen **Family Favorite**

As soon as the weather starts to cool, you'd better do well to get out the soup tureen and plan soup for supper or lunch. For appetites that have been nipped by the chilly Fall days, there's noth-ing nicer than a bowl of hot, homemade soup.

To start things off, try a Shrimp Gumbo. In the West Indies, okra is "gobbo" which became gumbo; hence we get the name of this

> Shrimp Gumbo (Serves 4-6)

1 pound shrimp, fresh or frozen 2 16-ounce cans tomatoes

1 package frozen okra 6 to 8 dashes tabasco 1/2 teaspoon black pepper Pinch of dried thyme

Shell and devein shrimp. Cook 3 to 5 minutes in boiling, salted water until shrimp turns pink. Do not overcook it. Place remaining ingredients in saucepan. Cook until okra is done, about 7 to 10 min-

It's time to get that soup tureen off the highest shelf and bring it down to the table for hearty soup suppers. Substantial soup served with crusty rolls or freshly baked bread and fruit makes a wellbalanced meal.

utes. Add cooked shrimp. Serve in soup bowls.

Dutch Vegetable Soup (Serves 10) 1 large soup bone Cold water 2 cups tomatoes 2 cups dried lima beans

2 cups kernel corn 2 cups chopped cabbage 1 large turnip, sliced 1 carrot, diced 1 onion, sliced Salt and pepper

1 teaspoon flour

½ cup milk Wash soup bone thoroughly. Cover with cold water and boil slowly for several hours. Skim off fat and add vegetables. Season to taste. Mix flour with milk and stir into soup. Cook for an hour.

### Laundry Problems Yield to Care

"I love to do laundry, but there seem to be so many little things which I can't solve by just washing," says a young homemaker. These little things usually include stiff bath towels, streaked dark clothes or linty socks or dingy synthetic clothing.

There's a solution to everyone, and most of the times it's very simple. With all the new things coming to the fore so rapidly, it's simply a matter of know-how catching up with you.

The problem of synthetics looking dingy can be handled in any number of ways. One is to use 1/4 cup of bead bluing with the washing water whether in the washer or a basin of water.

Cleaner Clothes To get clothes cleaner, water for washing should be soft. If you live in a hard water area, it's best to condition the water by adding a packaged water conditioner in the amount recommended on the package.

Measure the soap or detergent for the washing machine. Heavy suds will cushion the clothes and interfere with washing action. Low sudsing cleaners will do a better job, used in the recommended amount.

Heavily soiled clothes should be pre-treated before washing if you expect to get them clean. That means making a paste out of detergent and water and scrubbing it on stains or soiled cuffs and collars. It's well worth the effort.

Special Helpers Towels and underwear too stiff to be comfortable. Use a softening preparation in the final rinse to fluff out those clothes which are going to be next to the skin.

This includes underwear, towels, knitwear, baby clothes and diapers. This solution removes wrinkles on clothes, eliminates static electricity and makes ironing

For woolens use a new type cleaner which will not only get them clean but mothproof them at the same time they're launEARTH AND HEAVEN ARE ONE-JESUS IS OUR KING (MY CHRISTMAS STORY)

Jesus was the Pattern which God gave to man-God sent Him, as a Baby, to tell of His plan); He grew up, in wisdom and stature, for us to see How, in Eternity, we all must be.

Solomon's reign, in Time, typed how things shall be When Jesus is our King in Eternity;
All peoples shall live in peace; and, sing!—
And the bells of peace shall forever ring!

So, at Christmas, we celebrate when God became man, When He came to tell of His marvelous plan To make the whole earth a heaven to be Through all the long years of Eternity.

600 years before Jesus came, the records all say
Isaiah, the Prophet, told of the first Christmas day
When He, who is called "Wonderful", would visit earth;; And, make it the place of His Royal birth.

The half has never been told about our Great God Who made this earth; and, on it once trod; The God who, with us, always shall be, Both now, and through all Eternity.

There are many things I should like to tell About our Great God who came here to dwell; But, that story is too long for one like me; So, we all shall tell it in Eternity.

The whole thing is "Greek", to a fellow like me!
Every place I look, God's glory, I see!
Earth, has a thousand tongues, they say,
Which tell of His goodness day after day.

Of all our great writers, not one, they say,
Seemed to know as well who he was as do many to-day;
Everyone of them thought his physical body was he;
So, they all told the people about the physical me.

But, our body is only a Temple, (don't you see?)
In which God dwells with you and me;
God brings us all here to get perfect, they say;
And, to make us fit for the "Thousand Year Day."

So, mortal man, awake!; I mean all on the sod!
Our bodies of clay, they tells us, all belong to God;
So, always try to keep them in good repair;
For, in them, over "terra firma", we go everywhere.

What I say is a truth we all must learn
Before the fires of hell shall cease to burn;
For here, in a body of clay, God trains you to be
A god among gods in Eternity.

This poem tells who and what you shall be
At the time of the end; and through all Eternity;
So, read it with care; and, study God's plan
To make of you a perfect man.

Before Jesus came, mortal man lived in fear; (He could not imagine why he was here! They did not then know how God had planned To make Jesus Ruler over sea and land.

Jesus came to tell us death is not the end
When a few short years on earth we spend;
"Take up the cross", said He; "and follow me!"
I shall show you the way to Eternity.

The chief objective of Christmas, it seems to me, To show how, in Eternity, things shall be When all men are brothers; and, learn of God's plan To make the whole earth a heaven for man.

So, I say, Rejoice! Let us shout and sing!, Let halleluas make the welkin ring! Jesus said to Pilate: "I was born to be a King;

In the heavens above us, many stars I see;
But, of all the millions, none, like Earth, seem to be;
Like the moon, some have little air and no sea;
So, they are not yet like God wants them to be.

But, when man and this earth perfect shall be, God's dreams of a Paradise we all shall see; Then all peoples shall know of God's plan To make Earth a heaven and a home for man.

People had different views when our land was new;
But, how to make themselves happy, they knew what to do;
It seemed like God led them day after day; So, they did not want to change their way

"Me for the old fashioned Christmas! oldsters say;
People were happier than they are to-day;
"Things may have been static; but, we had fewer laws"

When we all believed in a Santa Claus. Some still say: "The auto is fine; but, give be a sleigh! "(If you want fun, that is the way!)"
"Modern innovations are a nuisance, they say;
And, we all were happy when we went the old way".

In the boyish ear, no music equals the jingle of bells. When the bells jingle, the boyish heart swells! Then, too, the animals all love it, the story books say, And the beasts of the jungle give up their pray.

Many changes have been made since yesterday, When all went to church and parties in a sleigh; Even the seasons are not like they used to be; And, the same is true of both you and me!

That this is a mental world, few persons knows. (That is why so many drugs act slow!) So always listen, they say, to the real you It is he who tells you the right thing to do.

God sends us here to build for ourselves a home, (A perfect body in which to roam!)—
"As face answers to face in a glass" is the way
Our two bodies must be in the endless day.

Many of our worries on earth in this modern day Are caused by what others think, do, and say; We imitate—(do not originate), so we go their way; And, never listen, to what the real you has to say.

So, until you do, you are not a real man, (You are out of tune with God's great plan!)
So, always be what God tells you to be;
And, another real you, we soon shall see.

Jesus knew what I say is true, the Scriptures, say; So, He put it in practice day after day; And, that is something we all must learn to do To make the physical body like the real you.

Your body, now, is God's body; and, always shall be, How else could one live in Time or Eternity? We are God's feet, His eyes, and His hands; So, it is through us He carries out His plans.

That is something we all must learn to know; (It is God who tells us all how to go!); So, until we do as the Scriptures say)
The heaven we seek is far, far away.

Take God out of my body; and, what do you see?
Physiology says; "A very little me",
Nine-tenths of it are water and bone;
So, God would be standing there alone.

That is the keynote on God's great plan—
The secret of how to make a perfect man?
Jesus knew what I say is true, the Scriptures say; So, He preached perfection from day to day.

"The Lord is in His Holy Temple", the Scriptures also say—
(That is another proof of what I say!);
And, why am I commanded, "Silent" to be,
If God is not the principal part of me?

That our body is God's Holy Temple, we must agree; He dwells in it with the real you and me; That is a truth we all shall know When we learn who we are; and, how to go.

There are many things we all must do
To make the physical body like the real you;
So, read your Bible; and, study God's plan
To make of you a perfect man. In my dreams of the future, my thoughts revert to the past; For, they all, together, as one thought are classed; "Lo, I am with you always", the Scriptures say; So, the whole earth shall be a heaven some day.

A single rat on a farm can cost the farmer \$20 a year! A pair of rats can eat 54 pounds of food in the amount they eat! Rats annually destroy as much food in the United States as one out of every 25 farms produce. Contamination of grain by rodent dropination of grain by rodent dropination. every 25 farms produce. Contamination of grain by rodent droppings, hairs and urine has cost the farmer thousands of dollars through down-grading from grain suitable for human food to that usable only as animal feed. Mouse contamination of grain is increasingly becoming important in many areas where rat popula-tions have been drastically re-duced and the mouse population is growing. Such are the alarming, but true statistics furnished by the United States Fish and Wildlife Service and compiled in a brochure published by the Wisconsin Alumni Research Foundation of Madison, Wisconsin.

It is obvious in the face of facts available that some constructive action must be taken to fight an enemy that last year alone de-

as he was ten years ago. In addition to the traditional defensive measures, he can now actively fight this menace with the proveneasy-to-use rat and mouse killer, warfarin. Discovered in the labo-

Foundation.

Warfarin kills rodents by thinning their blood until they die of internal hemorrhage, over a period of 5 to 14 days. It is not a "quick kill" poison and there is no bait shyness. The rodents simply eat warfarin containing baits until they die.

Warfarin is comparatively safe when there are children about, because it is slow acting and usually mixed with unappetizing cereal baits to be fed to the rats and mice.

The entire community, working together, can win the war against rodents, a campaign that is bound to add up to a cleaner neighborhood, a safer community and the prevention of waste. A few basic steps to remember
