That man named Sherman—well you know what he said about WAR? You won't see or think that when you sit and view the lovely Todd-ao production at The New Theatre, "South Pacific"! That is in the very beginning. Before the curtains part the lovely numbers are played as to all the song hits and then it is shown on that wide, wide screen which means three cameras The love story throughout is quite touching and as to the love-making-well- it will linger in your memory and you will be singing those song hits of "One Enchanting Evening" "I'm going to Wash that Man right out of my Hair" and that ever catching tune—"I'm in Love with a Wonderful Guy!" Plus "There as Nothing Likes Dars"!! The scars is Nothing Like a Dame"!! The scenery is worth the price of your ticket, the acting is great as to all the Stars and it really will cause you to desire to see it again. I leave the rest to you but don't miss it!

I was amazed to learn after the show that three of the actors whom I thought were singing—it meant just their lips moving to the words for instance— Brazzi's lips were moving in the song which was sung by Giorgai in the song which was sung by Giorgai in the song which was sung by Giorgoi Tozzi of The Metropolitan Opera. What I thought was the voice of Juanita Hall was that of Muriel Smits and the song which seemed to come from John Kerr really came from Bill Lee! But don't let that dampen you for this part you will really want to see and hear. The stage show could not hegin to touch it In show could not begin to touch it. In the second part there were parts of the War—thanks to Uncle Sam! (That is loaning our Service Men for this

Masterpiece). Masterpiece).

Do you think it strange that a man should cry or do you think he should not cry? You will get your real answer in April Coronet. Have you seen any man cry? I have—once when a man who loved his devoted sister wept history when he heard the news of bitterly when he heard the news of her sudden death. The second one was my Beloved Father when sight was restored to me and the third was my Minister coming into my bedroom when I was quite sick with the Flu and that was just before he hearens and that was (just before he became ill) and he broke down and said, "Please don't die and leave me!" Why should not a man cry? They have feelings as well as women and children and it is good to release the emotions. The article in the magneemotions. The article in the magazine goes on to tell that Jesus Wept! You won't think it weakness when a man cries after reading the article by Bob Prichard.

A letter arrived from "A Daughter" signing her name—

Dear Observer:- My two sisters and I and also a brother support my aged Parents. We give them all told about \$15.00 a week for food as they have a little house all paid for. They are both 80 years of age. My sister told me that Mother spends the fifa bake sale Friday, May 2, 1958, in the Taneytown Firemen's building. A motion was made and passed for the P.-T. A. to sponsor a new troop of intermediate Girl Scouts, now being formed in Taneytown.

The program for the evening was selling her home to buy a little place in the country. All this has us wor-ried terribly and yet we do not like to say anything for it would cause

shirth played three clarinet numbers with a record accompaniment. A group of 6th grade boys and girls sang several numbers.

Mr. Wargny introduced the speaker, Mr. Andrew Mason, principal of the Taneytown Jr.-Sr. High School, who work the transfer of the several numbers bitter words. Can you offer a suggestion? Thank you!

The Answer—Daughters and Son:

—Do' I understand that between four people you only give your parents \$15.00 weekly? That really would mean each one contributing only a mean each one contributing only little more than four dollars! She did without some food perhaps to buy those candleholders but why should you care or your sisters and your brother? If that made her happy that is all that matters. I hope that you do not remind your parents that they are growing old. It would be wonderful to have many aged people with the thoughts of your parents as I know many people who have aged in years as that old saying goes—Aging is an act of one's mind! Thank God for your parents and if I were you, I would surely increase that tiny in-

And another-My daughter age 46 has really fallen in love with a young man of 25. She has never had a boy friend before in fact never bothered about any young or man of her own age. It seems she won't reason and I can't talk with her about it as all she tells me is she is her own boss and she is over 21. What can be

done? Signed Worried Mother.

Answer-Well, your daughter twice 21 and then a few years older. Maybe she is acting like a Mother to this young lad and there is no need to worry. If he has not proposed marriage, there won't be a wedding day so stop worrying, Mother and laugh it off for it is too ridiculous to

never be sorry tomorrow what you have done today! I am,
Faithfully,

A study made in 1954 by the Committee for Economic Development, which is composed of 150 leading businessmen and educators, came to the conclusion that it is in the national interest of the United States to reduce our tariffs and other barriers to foreign trade on a gradual and selective basis. A Committee spokesman says that this need is even more

compelling now than it was then, a major reason being the Soviet economic offensive.

Dr. John R. Heller, director of the National Cancer Institute, states that research scientists are on the verge of major break-throughs in the war against cancer. One may be a vaccine producing immunization.

If Administration proposals are accepted by Congress, federal employes will receive pay increases aggregating well over \$1 billion a year. The largest part will go to officers and enlisied men in the military services.

Damon Stetson of the New York Times reports that "The automobile ndustry is facing a period of crucial lowing decisions." There are three main reasons why: the growing popularity of the small economy car, a trend which may force the Big Three to enter this field; lagging new-car sales; the wage and other demands which Walter Reuther's UAW will make on the companies during new contract negotia-

George F. Kennan, considered by many to be the foremost American authority on Soviet affairs, writes: 'Krushchev has now offended and estranged from the central political process, one by one, the intelligentsia, the industrial managers and a portion of the officers corps of the armed services. He has now achieved the pinnacle of power which he apparently wanted, but I suspect that he is rather isolated up there, and that the winds around him are becoming increasingly chilly".

Skiing is the perfect exercise for French Premier, in the view of former Premier Mendes-France- because it teaches him how to fall.

Writing in National Review, Russell Kirk, the distinguished teacher and writer, finds this central fallacy n the federal-aid-to-education plan: 'It isn't money that we need for the mprovement of instruction in science, or in anything else. For already we spend far more on schools than any nation ever has before in all history -far more, than the Russians do. One crouble is that we are not obtaining value for our expenditures." As Dr. Kirk sees it, too much money goes for non-essential frills, and not enough for real education.

#### BOARD OF EDUCATION

(Continued from page 1)

The Board was advised that progress was reported from Frederick county school authorities in connec-tion with the building of school facili-ties in the eastern end of the county, to accommodate Frederick county

The Board gave approval to the recommendations of the principals and superintendents regarding the making up of lost time due to snow storms. This approval involved holding, regular school sessions on May ing regular school sessions on May 30, shortened session on June 12 and 13, and a closing session of school on Saturday, June 14, when schools will be dismissed prior to lunch and pnpils will receive their reports. The superintendent was directed to take whatever administrative measures are nec essary in connection with the attendance of pupils on the dates mentioned, requiring pupils who absent them-selves to submit evidence of approval by their parents and, if necessary, to 12 | make up work missed.

Resignations were accepted from certain members of the teaching staff to be effective at the end of the current school year.

The Board devoted some time to consideration of bids submitted on new school furniture for new build-ings: Westminster Jr. High and Fran-cis Scott Key High. After consideration and examination of samples the Board recommended that the superintendent make recommendations at a regular meeting on May 6, basing the recommendations on quality price, and uses to which furniture will put. It is expected that orders

will be issued for the furniture follow-ing the May 6 meeting.

The Board heard opinions and recommendations from a committee which had earlier been asked to participate in consideration of problems connected with the purchase of furni-

The Board also approved, after having bids submitted, the purchase of a number of items of equipment for the new building including kitchen equipment, science equipment, and specialized equipment for special classrooms.

The Board was given a brief report on the outcome of the teacher education scholarship examinations and certain statistics resulting from a study under way in the State Dept. of Education regarding school enrollment. Copies were also available of results in connection with state-wide study of high school graduates.

The superintendent was directed to continue to negotiate for the ser-

vices of additional teachers needed for the 1958-59 school year. The Board met jointly with the County Commissioners for considera-Center.

As a recruit petty officer he will wear a miniature rating insigne as a high school in Westminster. This joint meeting included consideration tion of some aspects related to the badge of authority during the remainder of his nine weeks of "Boot of the issue regarding teachers' salaries in Carroll County for 1958-59. After consideration, agreement was reached with the County Commissioners to support a beginning salary of \$3,900.00 for degree teachers in the first year of experience and a maximum of \$5,700.00 for teachers in the thirteenth (13) year of experience and beyond. The Board directed that the new State salary schedule be used in computing salaries and that notice be given to individul teachers in due time regarding the individual salary to be paid for all degrees of teacher

qualification. The Board was given copies of current studies of withdrawals and en-

rollment. The Board heard a brief report from staff mer attended national and other conventions.

Some time was given to consideration of personal problems related to the operation and maintenance of schools during the coming year. Authority was given to the superintendent to make arrangements for certain major items of maintenance and repair.

The Board was advised that principals and supervisors had been asked to make recommendations regarding teachers and their work to assist the county staff in arranging for staffing the schools in 1958-59.

The Board directed that a state ment be issued regarding the continued policy of the Carroll County
Board of Education in connection with school integration as follows. The Carroll County Board of Education on April 15, 1958, approved the issuance of an additional statement in connection with school integration in compliance with generally announced policies in Maryland and with the Supreme Court interpretation of May Supreme Court interpretation of May 1954. The Board deems it wise to re-state the position of the Carroll County Schools as follows: (a) Following our policy of 1955, 1956, and 1957, the Board directs that the dates June 9, 10, and 11, be designated as the 1958 period during which the second country of the 1958 period during which the second country of the second country the 1958 period during which appli-cations will be received involving the transfer of pupils to schools oth er than those attended in 1957-58. The Board proposes further: (a) To continue to maintain and operate existing schools in present locations for as long as need for such facilities exist. (b) To continue school transportation of present routes to existing schools for as long as period as need for such transportation continues to exist. The continued cooperation of parents, pupils, and citizens, in connection with the issue of integration is urged. It seems reasonable to expect that,in accordance with above policies, integra-tion will occur in any county schools for which applications in good order are properly submitted on the above dates, to the executive officials of the school system. Such applications should be made personally by the parents of pupils involved in the office of the Superintendent of Schools, County Office Building, Westminster, Md.

The Board approved a leave of ab-sence for Charles Foreman for the school year 1958-59 to permit Mr. Foreman to accept a science teacher scholarship for study at Syracuse University.

The Board adjourned at 4 p. m.

## In God's School

Lesson for April 20, 1958

VOU can study for almost any profession you choose, - business, farming, medicine, law, the ministry; all except one. As a college president said once: "There are no courses leading to the presidency of a college." Where are the doctors of tomorrow? Look in the

medical schools. Where are the ministers? Look for them in the seminaries. Where are the college presidents? Almost anywherein business, in graduate school,

Learning by Failure

practicing law, Dr. Foreman preaching. They don't realize they are being prepared for a big job. but they are. This is true of all sorts of leaders. Man can prepare professionals; but only God can prepare a leader.

What we call "Providence," God's ordering and controlling the circumstances of life, becomes his way of preparing and educating those whom he raises up to be leaders. The story of Moses is a case in point. There was one unique feature of his education that was peculiar to his case. Perhaps it has happened to no one else in the history of the world. Thanks to his mother and the Egyptian princess together, he not only had the best of education in the capital of the world's then greatest civilization, but he also was brought up to know the true God. Secular education and religious education: he enjoyed, free, the best of each. Not many leaders have been so . fortunate

But Moses shaled with most men who have risen to leadership an educative experience very hard to take at the time, namely the experience of failure. He must have learned by it, for he never tried it again. In his eagerness to help his fellow-Hebrews he committed a murder. He thought it the perfect crime, no doubt. for "he

Aooked this way and that, and saw . no man." But it was known, all the same, and he had to leave Egypt. The point is, he learned by that tragedy that simple blind brute force is not the way to change a bad situation. The power of leadership does not depend on. power of killing. The most violent man is seldom the most valued

Learning by Familiarity

The forty years Moses spent in the wilderness, as Jethro's hired man and son-in-law, were a complete contrast to all his earlier life. No doubt Moses must have acquired what nowadays is called an inferiority complex. We do know that when God called him, he put up a number of excuses. But in those long years "behind the beyond," Moses was learning everything about the wilderness of Sinai. The whole region was home to him. He knew the hard life of the desert tribesman, he knew every little creek and water-hole, he knew which plants could be eaten and which were poison, he knew the friendly tribes and the treacherous ones. What he did not realize at the time was that God was seeing to it that he became familiar with the details of the scenes of his great life-work.

Learning by Hardship

One difference between a good leader and a "phony" one is that the false one demands much in return, - wealth, comforts, luxuries, adulation, fame. He does not care much about the people he leads, indeed he despises them; but he cares a great deal about himself. The true leader, be he a Garibaldi or a Saint Paul, does not ask others to do what he will not do himself, and he is willing to suffer a great deal if only his people can win through.

Moses also, though brought up in luxury, was a poor man when he set out to lead Israel to the Promised Land; and he died just as poor. His salary during all the long years when he was Israel's leader was just nothing at all. They lived hard and he lived hard. The point is, God was preparing him for that, by his long hard years as Jethro's sheep-herder. He was learning that a man can live on little, and like it. Every hardship and privation which he experienced in the back country-and it all must have been specially hard for a man of his lush background -was just another lesson in the Course in Hardship, a required course in the University of Hard Knocks. Not every one knows what Moses did: the head of that school

"The man who leads a double life When mobile camera crews of the United Nations showed this photograph of their skyscraper headquarters on the East River in New York to desert tribesmen in Iran and Irap, they found that no one there actually believed it could possibly be a building-because they had never seen one or more than two stories high. Having heard about ships (but never yet seen one), they argued that it must be some strange sort of vessel, and afloat. 'Anyone can see," they insisted, "that it is on the water."
