HIGH SCHOOL HIGHLIGHTS

The regular March meeting of the PTA will be held March 9 in the high school auditorium at 8 p. m. Parents may confer with teachers in their rooms at 7:30 p. m.

The skit "Parents Can Be Problems" will be presented in addition to the regularly scheduled program of a panel discussion on the topic, "Are Our Teen-Agers Growing Up Too Fast?"

The Student Council members who will appear in the skit are: Elaine Welty, Gherrie Shearer, Victor Welty, Paul Andreas, Ronald Hopkins, Allen Baumgardner, Anna May Haycraft, and Loretta Lieb.

The panel will be composed of the following: Mrs. Stanley Jennings, Mr. Murray Baumgardner, Elaine Welty and Ronald Hopkins. Mrs. Delmar Riffle will be the moderator.

Members of the Taneytown Key Club will attend a convention at the Southern Hotel in Baltimore on Mar. 6, 7, and 8. The group will be accompanied by Mr. Ned Musser, club advisor, and Mr. John McCormick.

Delegates to the convention will represent Maryland, Delaware, Virginia, West Virginia and the District of Columbia. The purpose of the convention is to exchange ideas for making the individual clubs successful.

March 15-21 has been designated as World Clothing Week. During this week an appeal will be made to the students of Taneytown for clean, wearable clothing for all ages. Sheets, blankets and pillow cases are also needed. The material will be distributed to neglected children and needy adults in 37 countries, including the United States.

The Student Council sponsored a clean-up day on Mar. 5. Each student cleaned his own locker and in addition was given some special cleaning job in his homeroom.

Thirty-seven members of the Future Nurses' Club visited Frederick Memorial Hospital and Nurses' Home on Feb. 25. Following a tour of the buildings and a movie on nursing education, the group had an opportunity to talk with student nurses and with Miss Daisy Darnier, who is the Director of Nursing Education. While the members enjoyed refreshments hospital personnel answered questions which helped to give everyone an inside look at a training school.

The club has been quite active in the few months since its establishment. The members have enjoyed many movies on medical subjects. They have also heard one speaker, Mrs. May Teeter of Taneytown, who emphasized the field of missionary work. Mrs. Teeter is a graduate of Johns Hopkins.

Plans are now progressing which will make the Taneytown chapter a member of the state Future Nurses' League.

The club has been successful in interesting young women in a medical career. Approximately four senior class students expect to enter schools of nursing next fall.

Myra Lieb, who will enter Church Home Hospital soon, is club president.

Dr. Crapster Addresses Men's Brotherhood and Guests

Members of the United Presbyterian Churches of Emmitsburg and Taneytown were guests of the Men's Brotherhood in the Taneytown Church on Tuesday night.

The feature of the evening was an address by Dr. Basil Crapster, professor of History at Gettysburg College. His subject was "Living in England". Just before Christmas, Dr. Crapster arrived home from England where he had spent several months in research in the modern history of England. He and his family had lived during those months in a suburb of London. Dr. Crapster is a native of Taneytown, being the son of Mr. and Mrs. B. Walter Crapster of East Baltimore Street.

Dr. Crapster's remarks noted the many contrasts between the customs and practices in daily living in England and the United States of America. He noted that the English prefer fire places in each room rather than central heating systems as here. The rooms are generally small and this makes for a coziness which is their preference.

He stated that the Englishman is by nature timid and therefore is not aloof as many would think. Television is commonly known as 'tele' rather than TV. 'Radio' is becoming more and more the word to use to replace 'wireless'. Radio is operated by the government but television is operated privately.

There are no supermarkets. Each store is a kind of specialist. Due to lack of good refrigeration, housewives shop every day and these types of stores necessitates many stops in the daily round of shopping.

Dr. Crapster's remarks were very interesting and well presented. After the program in the Church, the guests retired to the Manse for a time of refreshments and fellowship. Last November, there was similar occasion when the Brotherhood entertained at a Hallowe'en Party.

Some men rush through life as though they are afraid they won't be on time for their own funeral. Ironically, they are always referred to as "late" by the time they get there!

SENATOR WEANT'S LEGISLATIVE REPORT

Bills Introduced in Senate, 376; In House of Delegates, 481

Just as a matter of general interest, I would like to point out that at the time of this writing, there have been introduced for consideration by the House of Delegates some 481 bills and for consideration by the Senate some 376 bills. Of course, all bills must pass both houses before being sent to the Governor for final approval. The last day for the introduction of bills will be Tuesday, March 17, as Section 27 of Article 3 of the Constitution of Maryland provides that no bill shall originate in either House during the last twenty calendar days of a regular session in odd years, unless two-thirds of the members elected thereto shall so determine by yeas and nays. It appears that many more bills will be introduced prior to the cut-off date.

According to our investigation, there is no penalty for the violation of the Federal Law prohibiting the flying of the National Flag after sunset. For this reason, we are introducing a bill to make it a misdemeanor in the State of Maryland for those exhibiting the National Flag after sunset, except on certain occasions. We trust that this will correct certain flagrant violations of the Flag Law which have been brought to our attention.

Consideration is being given to the authorizing of the County Commissioners to appoint an executive or administrative assistant to help in the performance of the duties of the County Commissioner's office. It is felt by many that such an assistant would allow the Commissioners to spend more time in studying the problems of the County and the solutions thereto rather than on the time-consuming, run-of-the-mill, routine duties.

We have also been requested by the County Commissioners to study the problem of raising more funds for the operation of County government. It has been pointed out by the Commissioners that approximately 77% of our tax dollar is now going towards the operation of the schools and that future needs of the County will call for an expanded budget. It is hoped that we can arrive at some solution to this problem that will be as painless as possible to our taxpayers.

We have been asked to comment on House Bill 414. This bill would add Article 64-B to the Maryland Code to provide for a Commission for the regulation and control of the production, distribution and sale of milk and milk products and to provide for the regulation of prices of milk to be sold. This bill has not as yet been printed at the time of this writing and we are therefore unable to say anything in this regard at present. The Ways and Means Committee will get this bill for consideration and will no doubt have a public hearing on same.

Senate Bill 273, relating to the right to vote at 18 years of age, is now under consideration by the Senate Judicial Proceedings Committee. This bill will be given a public hearing on Thursday, March 5, at 11:00 A.M. but it is doubtful that final action will be taken by the committee at that time.

A bill to exclude paper caps and sparklers from the definition of fire works has been introduced as Senate Bill 317 and will be the subject of a public hearing on Tuesday, March 10, at 11:00 A.M. by the Senate Judicial Proceedings Committee.

Wednesday, March 11, at 11:00 A.M. will bring a joint hearing by the Senate Judicial Proceedings Committee and the House Judiciary Committee in the Senate Chamber on Senate Bills 309, 310 and 311. All of these relate to insanity in criminal cases.

Edward O. Weant, Jr. State Senator

The Taneytown Farm Bureau Planning Group

The Taneytown Farm Bureau Planning Group met on Friday evening, Feb. 27, at the home of Mr. and Mrs. Hubert J. Null, with twelve members present and two absent. The topic for discussion for the evening, as suggested for us, was "Farm Bureau's Platform for Prosperity on the Farm."

The official voting delegates of the American Farm Bureau, representing 1,623,222 families, met in national convention, and after debating material, adopted many policies on national issues. Farm Bureau members, from coast-to-coast, use a set of principles as a basis for finding solutions to problems. These principles are expressed in this "We Believe":

1. In the American competitive enterprise system.
2. That man's search for progress should be encouraged by maintenance of opportunity, not hindered by illusions of security.
3. That a person should be rewarded in accordance with his productive contribution to society.
4. That every man is entitled to own property, earn money honestly, save, invest and spend as he chooses.
5. That property rights cannot be taken away without infringing on rights guaranteed by the constitution.
6. That the constitution is the basic law of the land, and that its interpretation should be in accordance with the intent of its authors.
7. That government should operate impartially in the interest of all.
8. That government's regulatory functions should be based on law.
9. That government should provide only minimum controls and aids.
10. That government should stimulate, not discourage, individual initiative.
11. That propagandizing by government is dangerous to the maintenance of self-government.
12. That monopoly, whether by government, industry, labor, or agriculture, is dangerous.
13. That voluntary cooperation is a part of the American system.
14. That all candidates for public office should state their beliefs with respect to communism, socialism, and capitalism.

All these ingrained by our Christian Faith the Platform:

1. Remove the roadblocks to earning a high net income.
 2. Get our income in sound dollars.
 3. Halt threats to individual freedom.
 4. Strengthen ourselves for peace to prevent the disaster of war.
 5. Build a better America with opportunities for all.
- Our Planning Group is asked to express an opinion as to how this platform can be carried out.
- Other policies for which the Farm Bureau stands, is as follows:
1. Encouraging high employment.
 2. Promoting more and better research.
 3. Expanding agricultural extension and education.
 4. Improving soil fertility.
 5. Keeping price supports that will let prices help guide production and consumption.
 6. A relatively stable price level.
 7. Keeping gov. spending in line with income.
 8. All groups sharing in efforts to balance the federal budget.
 9. Creating conditions that will enable farmers to earn a high net income.
 10. Placing more responsibility in the states and counties.
 11. Adequate electric power on the farm at reasonable prices.
 12. Selling power produced by publicly owned power plants to private enterprise, including co-ops, for distribution.
 13. Buying more from abroad in order to sell more in foreign markets.
 14. Adjusting the size of the agricultural plant to effective market demands.
 15. Using government surpluses to make payments under the "Surplus Reduction—Soil Bank" Plan.
 16. Solving farm problems economically rather than politically.

The Farm Bureau Planning Groups have been asked to decide which of the above in their opinions, are most important.

The meeting was adjourned, and refreshments were served by the host and hostess. The next meeting will be held at the home of Mr. and Mrs. Emanuel Overholzer, on a date to be decided later.

4-H Club News

The Piney Creek Boy's 4-H Club met February 25 at Barbara and John Rinehart's home. The meeting was opened by the 4-H Pledge and roll call, followed by the secretary and treasurer's report. Barbara Rinehart is the only one interested in entering the Jr. Broiler Contest. John Rinehart is preparing his speech for the Public Speaking Contest March 26. Douglas Gunther and Barbara were asked to make tape recordings, to be played during National 4-H Club Week, February 28 - March 7. Barbara made two tape recordings: one on the Broiler Program and the other on Achievement Night. Douglas spoke on the Mc Donough School Fair. To conclude the meeting Barbara lead a discussion on Water Safety and John gave a demonstration on trimming cow's hoofs.

Following the adjournment, the committee met to make final plans for the window display. The display will be placed in the Reindollar Feed Company window March 2, for National 4-H Club Week.

Refreshments and a social followed the committee meeting.

POST OFFICE TO MOVE TO NEW QUARTERS

Postmaster James F. Burke announced today that confirmation has been received from the Post Office Department in Washington for the Taneytown Post Office to move to its new location during the week of March 9, 1959. It is expected that operations in the new building will commence on or about Wednesday, March 11. The new quarters located at 11 Middle Street is a part of the Post Office Department's Program to provide better means of handling the increasing volume of mails and to more adequately serve the public. It symbolizes a new era in communications in this community, and will be more pleasant for our postal patrons to do business here, the Postmaster added.

The new facility is 44 ft. x 66 ft. and will have 3,018 sq. ft. of floor space in addition to a platform of 12 ft. x 35 1/2 ft. providing 426 sq. ft. A paved maneuvering area at the rear of building of 46 ft. x 60 ft. provides sufficient space for exchanging mails.

Taneytown is very fortunate in obtaining this much needed new postal facility. It is an indication that our community is keeping abreast with the Postal modernization program throughout our country.

Kiwanis News

Tom Albaugh, the vice president of the Taneytown Kiwanis Club, called the regular meeting of the club to order on March 4. He introduced Key Clubbers, Geary Myers and Howard Green, and presented Norman Graham, chairman of the Agricultural Conservation committee. He, in turn, presented Mr. Hubert Null, the local leader of the Taneytown Agricultural 4-H. Mrs. Joyce Hawkins, Associate Home Demonstration Agent was also introduced.

Five 4-H members of the Taneytown area clubs who were on the panel discussing 4-H were Merle Weant-Harney club; John Rinehart-Piney Creek Club; Clarence Thomas-Taneytown Agricultural Club; Mary Ellen Stonesifer-Taneytown Girls Club; and Vesta Null-former member of the Taneytown Agricultural Club.

The panel told the Kiwanis Club that young people can be a member of a 4-H club from ages 10 through 21. The panel also explained that 4-H clubs are entirely a volunteer organization. 4-H offers many projects so the members can get training for their future roll in life.

Community organizations, such as the Kiwanis Club, can help 4-H by encouraging young people to join. The Kiwanis club was reminded that 4-H clubs help to produce good citizens.

To close the meeting, the Kiwanis members joined the 4-H'ers in a Candle Lighting Service.

CITY COUNCIL MEETS

The Mayor and City Council held their regular meeting Mon. Mar. 2. The meeting was conducted by President George Motter.

The Clerk-Treasurer read a letter from the U.B. Church, for the release of the lot behind the church. They anticipate possibly to build in the near future. Release was granted. The Council instructed the Mayor to provide a temporary road to the new home being built by Dean Brown, on the Maurice Feeser addition to Taneytown.

The clerk was instructed to write a letter to the Potomac Edison, authorizing the installation of three new street lights, one at the extreme end of George Street, one at Kenneth Davidson-Marshall Dupre Property, one at John Chenoweth - Glenn Bollinger property.

The Council spent some time discussing the improvement to our water system. The Clerk was instructed to write a letter to the engineers, asking them to be up at our next meeting. Clerk Henry Reindollar gave his financial statement as follows: Receipts \$3,979.98, Expenditures \$2,101.80, Balance general account, \$12,936.27, Balance parking meter fund \$3,610.76.

Chief Emory Hahn gave his report as follows: 33 parking tickets, 5 outstanding parking tickets, and directed traffic for 5 funerals.

To Make the Best Better Through 4-H

From February 28 through March 7, two million 4-H club members are observing National 4-H Club Week, which has a theme entitled "Salute to 4-H Alumni."

There are better than 90,000 organized clubs in the United States. Maryland has approximately 10,000 club members; approximately 840 of these members are in the 20 boys clubs and the 23 girls clubs of Carroll County. These 43 clubs are led actively by 80 local leaders.

4-H'ers from Carroll County are eligible to attend most of the fairs and shows offered in the state of Maryland.

4-H clubs of our county participate in community development projects such as the March of Dimes, the Red Cross, etc.

For individual club projects we have participated in parades, put displays in several store windows, held calf raffles, and have exhibited some of our booths in the county fair.

On Rural Life Sunday, the club members attend one of the community's churches as a body.

The County Agents office also makes it possible for club members who have a common interest to join a club, such as a dairy club, a beef club, etc.

Through 4-H work, anyone should be able to choose their career for later life as many of the Alumni have done. Some fields they have chosen vary from farming and industrial work to leading, serving their country, and D.H.A. work as they learned by the 4-H motto - "To Make the Best Better".

"SPICE 'N' EVERYTHING NICE"

With all my heart, I wish you every morning
A smile that shall last until the next day's dawning.
I wish you health—life's greatest wealth!
I wish you always near so that I may help to cheer
Each future day and in some way—help to bring you happiness!

It was, "Ohs..s and Ah's" everyone heard stepping off or out of the elevator at Hochschild's last Monday and Tuesday on the 6th floor to view the Maryland Orchid Show. This is the 4th annual and it appeared more glamorous than previous years. The entrance was decorated beautifully with soft ferns built high with twilight blue ceiling. There were more-both of Orchids exhibited this year and as one went around from booth to booth there was a feeling that no other flower can compare. The designs and arrangements were truly beautiful and the vivid colors of both the small and large assortment were lovely.

Although, the "Miltonia Var Red Velvet" by Dr. G. Schultz, "Governor's Award" was large along with the Mayor's nevertheless there were quite a few small booths that fascinated this Columnist more so. For instance, there was one with a very large ornament in the shape of a huge oyster shell open with small Orchids inside, then there was the large and fancy old fashioned bouquet made up of small orchids displayed with a blue evening clutch bag and long gold evening gloves.

There was a silver picture frame with a spray of silver which held orchids all on a blue background. Simplicity was the word. It was truly "Moonlight and Orchids" and the crowd was larger than I have ever seen in the 4 annual affairs. If you missed it, folks remember it for next year. It will linger long in your memory!

So much was going on that day in that department store.
The Minister's Wives and Widow's meeting and luncheon with Mrs. Eleanor Arnett Nash as the speaker and the title was "Have more fun!" (She told of the things which happened in her life which brought a laugh when she was a young girl!)

In the evening at 6 was the "fashion show" plus that delicious Buffet dinner of which I have written about in a previous Column. No dinner in any hotel in any city can top it. Convince yourself of the fact one Monday evening, folks. You will enjoy it more than any meal you have ever had and I have seen quite a number go back for seconds especially the men!

In the meantime, I quickly went down to see the wonderful show at "The Town" called "Separate Tables" with David Niven and Deborah Kerr. David Niven was never any finer as to his acting. Superb! It was all about lonely people living in a seaside resort in England—all adults in fact it is what I call an adult picture. Other actresses played parts well. There is Rita Hayworth, Burt Lancaster as her husband whom she divorced, Wendy Hiller, Gladys Cooper, Cathleen Nesbitt and Felix Aylmer.

"Separate Tables" was at Ford's a few years ago but I understand the movie is finer than the show at Ford's. The characters have secret fears and cannot adjust themselves to life as it really is. I need not write more, folks but don't miss that one.

A lady called me on the phone to tell me that she emptied the ash tray in a waste basket which was plastic and then went down stairs to wash TV. She and her husband kept smelling smoke and as they went to the stairway a terrific high blaze was in full force upstairs! So be sure, Mrs. Housekeeper if you do use those sort of plastic baskets that you empty the ash receiver in the garbage pail instead. The plastic melted down to the floor and ruined the floor of a brand new house!

The Fashion for this Spring is as I stated in a previous Column large stand up collars on dresses, suits and coats. Dresses are really to the knees and as to those dresses they are about divided as to the tight skirts and the full ones. One as popular as the other. A lovely letter arrived from Elizabeth Taylor who will be in a brand new show soon.

No doubt, many of you saw Your Observer on the T.V. show on Feb. Friday 13 at 1 o'clock on Channel 11, "What Do You Think?" It was fascinating. They ask questions to those sitting in the audience and by those answers that is the manner in which they select the panel for the Show. The rizer (electric) which was one of the prizes will go to that nice young boy next door who is just a son to Your Observer.

Faithfully,
YOUR OBSERVER.

"THE TOTAL SELLING MEDIUM"

How valuable is newspaper advertising to the retail merchant? Here's what the president of a Montana department store has to say: "If I were suddenly restricted to one and only one advertising medium, I would board up the display windows, discontinue all interior and departmental selling displays, eliminate all informative show cards, discontinue all sales meetings and sales incentives, stop all telephone selling — and continue an aggressive business-building advertising investment in the newspapers."

TEACHER'S PET OF 1959

The more we think about it, the more we wonder how we ever got through school (in those unenlightened days of our youth) without being a blind and hopeless cripple with more need for a tincup than a diploma.

We learn today, for instance, that the typical student spends 15,000 hours sitting down in the schoolroom from kindergarten through college; that unless his seat is properly designed and constructed his spine will suffer; and unless his desk-top is made of the right kind of material, and has just the right degree of slope, his vision will suffer.

In all seriousness, we are doing a lot better for our kids today. And the latest and most amazing development in school-room furniture is a unitary seat-desk by American Seating that is known as a Study-Center. Perhaps its most remarkable feature is the fact that the youngsters and the school boards are equally impressed.

Unlike the old-fashioned school desks and seats, this new model is not fastened to the floor but remains movable so that new "group seating" arrangements are now possible. Seats are not only orthopedically correct for young, growing bodies, and adjustable to size, but any teacher will be happy to know they are squirm-proof. Molded from a remarkable new plastic called Amerflex that conforms to the body as the student sits down, seats also swivel right and left.

The plastic-covered desk top is hinged to the steel book-box so that it may be used flat or at just the proper angle for different types of work. It has no inkwell, however, for pigtail-tipping, and provides no initial-cutting inspiration for the boy with a jack-knife. But progress has always entailed some sacrifice.

Most exciting, perhaps, to the taxpayer is the pleasant discovery that Study-Centers save 25 percent of classroom space, making the school that much bigger - with ample room for 25 percent more pupils - at no construction expense! For the community that is bursting at the seams, this is the invention of the century! —U. S. Press Association

"GRASS ROOTS OPINIONS"

ALTOONA, PA., MIRROR: "The budget is for \$77 billion. That's a lot of cash. Just what a billion dollars is can be illustrated best by com-

parisons. If it cost \$4,000 for a college education, one billion dollars would pay for 200,000 students for the entire four years. In a washer or other household machine costing \$200, one billion dollars would buy 5,000,000 of 'em. But Uncle Sam isn't going to buy that many machines. It's for other spending."

MOUNT OLIVE, N. C., TRIBUNE: "We wish the AMA all success in its . . . efforts to avoid socialization in its field, and it should receive the support of all who might ever need medical care. For, under that system, both the doctor and his patient would be the losers, as well as the entire nation for having taken one more step toward full socialism."

BURLINGTON, WIS., STANDARD-PRESS: "While dining at a local pub the other night a lovely local woman came over to our table and told us that Editor Branen was hated by many for his editorials, but she, (bless her, loved him and he should continue his fight. . . . Is telling the truth a fight nowadays? Can't men speak from the shoulder without fear of being hated, banned, or banished? Freedom of man's thoughts is America's only asset to fame, and I certainly wouldn't let a few people change my ideas on that."

SOUTH BOSTON, VIRGINIA, THE HALIFAX GAZETTE: "It is in character that a majority of our government school supporters will do almost anything in their power rather than permit private schools to flourish, as they should. Consequently, they are about the business of increasing taxes and building new and bigger school buildings from dawn to dusk. And it is self-evident that if the American people are going to be robbed in advance by the tax collector, they will have less of their own substance to bestow upon a truly free and non-political school system."

PORT HURON, MICH., TIMES HERALD: "As long as the public demonstrates casual indifference to new taxes, the lawmakers can saddle us with any taxes they see fit to levy."

ELSINORE, CALIF., LEADER-PRESS: "Governments are no different than individuals in money matters. If the individual fails to practice thrift, if he continually spends more than he earns, he's headed for trouble. So with a government. It may get by longer than the individual but there's always a day of reckoning."

"So we can no longer afford mere talk about economy. We must insist that our lawmakers really practice it. 'Sound as a dollar' once meant something. We must see that it means something again."

QUINCY, MASS., PATRIOT LEDGER: "If President Eisenhower wants to halt inflation, he will have to call for strong government action. He will have to ask for enough taxes to balance the budget. He will have to take issue directly with American business and union leaders even to the point of threatening wage and price controls. . . . To get the American people to discipline themselves in a fight on inflation calls for extraordinary leadership. . . ."

TALLASSEE, ALABAMA, TRIBUNE: "There are legitimate magazine subscription solicitors but when they are on the up and up they do not mind going by city hall to pick up a license and by the Chamber of Commerce office to obtain a permit card for solicitation. And the best thing our readers can bear in mind is that they are probably being taken for a ride unless the solicitor can produce either one or both of those permits."

PORT GIBSON, MISS., REVUEILLE: "It is stated in the daily press that the New Testament is being translated into 'native idiom and current usage' in England. Maybe it won't be long before the Bible will be translated into modern-day slang. If it's all the same with the learned translators, why not use all power possible to raise the lives of people up to the high standards of the words of the King James' translation, rather than whittle that great translation down to the talk of the street?"

FACTS AND OPINIONS

In the view of Publisher Tom Anderson of Farm and Ranch Magazine: "Ever since there's been a farm program the rich have gotten the gravy—because when the government gravy bowl runs over the rich have spoons and the poor have forks. The farm program is for everybody except the little family farmer it ought to be for."

Raymond Moley writes in Newsweek: "Those who are advocating greater and greater government spending should realize the simple facts of economic life. For every billion appropriated by Congress beyond a reasonable expectation of income from taxation must be supplied

by selling Federal securities. If people are doubtful about buying, interest rates on these securities must rise and ultimately add to the burden on the budget. The end result must be that a spending Congress will burn its own household. For when the nation's credit falters, an embittered public will fall upon those who have destroyed public credit."

The Chicago parochial school fire which took the lives of 93 children horrified the nation. Yet, in the two months following it, more than four times as many children were burned to death in their own homes. According to an authority, the deadliest fire traps today are not schools, but single family private residences.

More than one and one-third billion dollars was spent for chain-store construction and modernization in 1958, an all-time high, according to a Chain Store Age survey. The expected figure for the current year is larger still—one and one-half billions.

J. Edgar Hoover of the FBI has been made an honorary member of the Brotherhood of Locomotive Engineers—one of the few times this distinction has been bestowed in the union's long history. In presenting the award, Grand Chief Engineer Brown said it was made " . . . in recognition of your great contributions to humanity and your great services to our country. We deeply appreciate the magnificent work you have done and are continuing to do in defending the civil liberties and protecting the rights of the average citizen and the laboring man of this country."

Writing in National Review Bulletin, Norvin R. Greene says that labor cost is the largest expense of business. According to him, approximately 75 per cent of the selling price of the goods we buy represents labor content.

By the time the current fiscal year ends next June 30, the Tax Foundation finds, total spending for all units of government may reach \$145 billion. This will represent a new high of \$2,700 per family. By comparison, as recently as 1948, the burden per family was \$1,250.

From the Portland Oregonian: "The new mortality table compiled for insurance companies and comparisons with the previous one issued 18 years ago and with statistics on life expectancy for 1868 show the tremendous progress which has been made in stamping out death-causing childhood diseases."

"Ninety years ago an infant at birth could expect to live 41.5 years. By 1941, this expectancy had been stretched to 62.3 years and since then another six years has been added. The average life span of a newborn child thus has been increased by 27 years in less than a century."

LETTER TO THE EDITOR

Dear Editor, "The Mangled Math Department is back on duty with 'how big our national budget is,' reports Editor W. M. Courtney of THE WYNNE (Ark.) PROGRESS in his (not so) CASUAL CHAT column:

"Load each of 212 big trucks with five tons of dollar bills," he continues, "and you've got a billion bucks. Lay those bills end-to-end and they'd circle the earth four times, but we're sending it overseas faster than that."

"That truck caravan is hauling only ONE billion dollars. We are spending ten times that much every year ABOVE what we take in."

"To haul the entire Federal budget for one year in dollar bills would take 16,536 five-ton trucks loaded to capacity."

"On a ton-mile basis, it would take around 1,654 gallons of gasoline to move this load one mile."

"A dollar bill doesn't weigh much, but the Federal budget in dollars would weigh 82,650 tons, or 165,360,000 pounds."

And as long as we are on the subject, we might also quote from an article by Frank L. Remington, in a recent issue of ETHYL NEWS, published by the Ethyl Corporation and edited by Richard F. Cook:

"Just how much is a million? "Since it takes 1,000 millions to make one billion, don't get the idea that one million must be a measly amount: only three quarters of a million days have passed since Julius Caesar ruled the Roman Empire."

" . . . Try counting a million-dollar bill, and you'll really appreciate what a huge chunk of cash it is. Tallying at the rate of 60 bills a minute for a full eight-hour day, five days a week, it would take almost seven weeks to do the job."

Mr. Remington asks us to bear in mind that a billion dollars (which comes next on "astronomical figures tour") is only one-seventieth of the present annual budget and one two-hundred-and-eightieth-part of the national debt.

And, if you are not yet dizzy - and a little scared - we might as well give up at this point.

Sincerely,
BOB TAYLOR
*The latest estimate we have seen places actual expenditures for fiscal 1960 at nearly \$81 billions.

Safe At Home? Only In Baseball

Here's good ammunition for anyone who doesn't like to cook. The most dangerous room in the house is the kitchen. It is responsible for more than one-third of the total number of home accidents. And, as modernity of the kitchen increases, so do its hazards.

Electrical outlets and appliances, sharp instruments, burners, poisons — all conspire to make a housewife's job more treacherous than that of a stock-pleck. Small children, too, are frequently the victims of accidents that occur in the kitchen.

Only constant vigilance and precaution will keep the natural perils of your culinary workshop under control. Be sure that sockets are located where toddlers can't insert pins or other current conducting articles in them. Extension cords should be tacked to the baseboard or hung where no one can trip over them.

Keep electrical appliances away from the sink, so they cannot come in contact with water. Knives, scissors — all sharp instruments — should be handled carefully and stored well out of the youngsters' reach when not in use.

Turn the handles of pots used for cooking toward the back of the stove. Identify all poisons clearly and place them on the highest shelves or lock them up. Never use discarded food containers for poisons.

Your doctor of chiropractic recommends that a first aid kit be standard equipment for every kitchen.

Lenten Meditation

"THE CHALLENGE OF CHRIST'S CROSS"
by Rev. Morgan R. W. Andreas, Minister of Grace United Church of Christ
(This is the first of a series of 4 Lenten Meditations prepared especially for The Carroll Record by the members of the Taneytown Ministerium)

In the midst of all the noise and rush of life some go through this world unnoticed and so many are indifferent to them. A blind man was making his way toward the intersection of the town by tapping his cane lightly upon the pavement. He had to walk a lot slower than those who had their sight, and occasionally someone would bump into him in the rush, and pause only a moment to recover his former pace. As the blind man sensed he was approaching this busy intersection he halted and listened most intently in an attempt to determine when he could cross the street in safety. He stood at the curb helplessly, because with the noisy confusion it seemed almost impossible for him to sense when would be the right time to cross.

In a moment of silence, just as the lights had changed and the cars came to a momentary stop, he heard the voice of a young boy call out, "Sir, can I help you across the street?" Those who had heard the boy turned to look back as the two walked side by side across the street; but they ignored the blind man because of indifference; it was the young boy who had for a moment, at least, awakened us from our indifference? With all the hurrying, rush, excitement and press of life, we find ourselves too often letting the important things pass by unnoticed. We are somewhat like the priest and the Levite who passed by on the other side when they came near to the robbed and beaten man left to die in the gutter. As the people walked by the blind man without offering aid or showing concern for his welfare, so we so often let the important things pass by us unnoticed. And yet we would be guilty of committing spiritual suicide when we would be indifferent toward those things which should be of paramount and primary concern to us. Thus, always, but especially during the Lenten Season, we as Christians should be touched and challenged by the cross of Jesus Christ.

The Cross of Christ challenges us to a keener awareness of God. For too many life is a constant, meaningless, mad rush without God. They have forced Him out of their lives because of their indifference. But the cross reminds us of the fact that God is mindful of all of us because over and above all else we are His children. The cross shows that there is some real value to each man, woman and child. It reveals that we mean enough to God that we worth dying for, and that no matter how low we may fall there always remains something within us so worthy that it merits the agony of blood and nails on a cross.

The Cross of the Son of God challenges us to a more earnest affection of Christ. Christ was God, but he was also man who sought to touch and quicken men's spirits with his words and his example. He, therefore, suffered on the cross in our behalf. Shouldn't this call us to deep humility and hearty repentance? In the cross we should see that we are restored to our highest and noblest humanity, namely, sonship with God. Because of Christ's dying on the cross each and every one of us is recast in the image of the Divine. The only begotten Son of God is the answer to the deepest cry of men as they rush through life.

The Cross of our Saviour challenges us to a firmer loyalty to the Church. Just as Christ's concern for us was by no means lukewarm or half-hearted, so also should we show forth the same spirit and regard toward his Church and our congregations. It is in our constant and unquestionable relationship to the church - as we worship regularly, support it generously, bear witness fearlessly and undergo its program wholeheartedly - that we are found reaping for ourselves an abundance of immeasurable blessings. Therefore, the admonition - "don't wait until Easter to go to Church, but go NOW" - has a call to all of us. You are the Church, Christ's body.

The Cross of the Master of men challenges us to a warmer recognition of our fellowmen. We seem to have difficulties at times in understanding our neighbors - our Christian brethren. We do not want them to have more or better things and comforts than what we can claim. Yet it was not this spirit that possessed our Lord as he went to the cross so unselfishly. He went forward steadfastly determined that whatever the cost and sacrifice to himself he would give himself a ransom for many. In this manner he overcame all obstacles and drew men unto himself so that today he reigns majestically in the hearts of all those who treasure the life abundant.

And the Cross of our Redeemer challenges us to a fuller understanding of ourselves. It declares unto us that we are created for greater ends than can ever be fulfilled in this vain world of unstable and insubstantial material things. The Roman spear that lifted the sponge to Jesus' lips seemed to be the symbol of the greatest power in the world at that time. But now the spear lies broken and crushed in the dust and the cross remains as the symbol of the greatest power of the ages. We are not here to serve the kingdoms of this world, but rather to establish the eternal kingdom of God and His Christ who died on the glorious and radiant cross.

May we - each one of us - sense the divine challenge of the cross and not whisper "I'm too busy" or "I haven't got the time" but rather boldly affirm "Call me and I'll hear; challenge me and I'll respond."

Church before Easter
If you're a Christian at all, you'll be sensitive to the charge of "Easter Christian." You'll want to be in church during Lent, before Good Friday, before Easter.
Jesus Christ felt a longing to be with the believers before His death. "With desire I have desired to eat this passover with you before I suffer." (St. Luke 22:15) He told His disciples before their last supper together. It was at this meal, He gave them the Sacrament of His Body and Blood and told them, "Take eat, take drink. Do this in remembrance of Me."
The Lutheran church in your neighborhood urges you to be in the church before Easter. There is much more involved here than coming to a service of worship. Jesus Christ wants to give you His spirit to bring you into a living communion with Him. He wants to enter your life and give you His forgiveness and His victory! He wants you to be a member of His holy Christian Church.
Call our pastor today. He wants to be of service to you in being in the church this Easter.

Reports from public sales still continue good, especially for good live stock, while implements are bringing fair prices.

Messrs. R. S. McKinney, Harry L. Baumgardner, Maurice C. Duttera and J. William Hull attended the inauguration on Thursday.

The principalship of the Taneytown High School has been given to a Prof. Kolb, who is said to have had considerable experience and is well qualified.

The weather on Wednesday which turned into a snow storm at night, gave us about the worst dose of the winter, drifting up the muddy roads and making travel in many directions next to impossible, insuring worse than had roads for a week to come.

Mr. and Mrs. J. T. Shriner, Mr. and Mrs. Jacob Shriner and grand-son, Harvey; Misses Maggie and Nellie Shriner and Gussie Crabbs, spent Tuesday with Mr. and Mrs. Newton Hahn and Wednesday with Mr. and Mrs. Tolbert Shorb.

The President's Salary—Washington, March 3.—The salary of the President of the United States has been definitely fixed at \$75,000 per annum without any additional allowances for traveling expenses.

Judge Taft Inaugurated. Snow storm interferes with the ceremony. Big parade through slush. Washington, March 4.—The Chief Executive to take the oath of office in the chamber of the Senate in seventy-six years, William Howard Taft, today became President of the United States. Accompanied to the Capitol by President Roosevelt and a guard of honor through a swirl of blinding snow, Mr. Taft returned to the White house just as the sun began to force its way through the thinning clouds of gray.

Tyrone—Moving will soon be the order of the day. Jesse Stonesifer will move beyond Mayberry, on Jesse Myers' farm; Jacob Marquet of White Hall, to the farm which he bought vacated by Mr. Stonesifer; Guy Haines to the house vacated by Sterling Myerly; Wm. Arthur to Westminster; Jonas Lippy to the farm he bought, vacated by Mr. Arthur; Chas. Koontz to Copperville; Harry Myers to the farm vacated by Mr. Koontz and Ernest Myers of Taneytown to the farm vacated by his brother, Harry.—Joseph Formwalt spent last Friday in Baltimore attending the meeting of the Good Roads Commission.

WITH OUR ARMED FORCES

SAN DIEGO, Calif. (FHTNC)—John G. Poland, seaman apprentice, USN, son of Mr. and Mrs. Arthur R. Luhn of 3 Ward Ave., Westminster, Md., aboard the anti-submarine aircraft carrier USS Princeton, took part in an anti-submarine warfare exercise from Feb. 16-19, off the coast of Southern California.

"Skynet", formed of vessels of the U. S. First Fleet and several units of the Naval Reserve, was divided into two teams: the "Blue" defenses and the "Purple" aggressors.

The Blue surface and air forces were seeking to prevent the Purple force submarines from breaking through a 600-mile seaward barrier off the coast.

The exercise was conducted under the operational control of Vice Admiral R. E. Libby, the Commander of the First Fleet.

WITH OUR ARMED FORCES

CAMP LEJEUNE, N. C. (FHTNC)—Marine Pvt. Roland W. Broadfoot, son of Mrs. Laura M. Broadfoot of Rt. 2, Barrett Rd., Sykesville, Md., took part in the 18th anniversary celebration of the 2nd Marine Division, Feb. 2, at Camp Lejeune, N. C. Formed in San Diego, Calif., Feb. 1, 1941, the Division, during the week, held day-long activities highlighted with a full scale parade and special meals in the messhall. The parade's Reviewing Officer was Lt. Gen. E. A. Pollock, USMC, Commanding General, Fleet Marine Force, Atlantic. The Division, which trains year-round to fulfill its role as a force-in-readiness, has been based at Camp Lejeune since 1946.

Last Sunday morning at Emmanuel Baust Lutheran Church, the flowers on the altar were in honor of the forty-third wedding anniversary of Mr. and Mrs. Martin Myers. Congratulations Martin and Elsie, may you live to enjoy many more happy anniversaries.

At this writing we are having spring-like weather, by the time you read this it could be snowing. Last year it started snowing Wednesday, March 19, and snowed for three days. A clipping from the Hanover Evening Sun, has this to say. Hundreds of thousands of homes and offices were left without electricity for long periods, transportation was badly snarled, if not halted completely. Stores and schools were closed at many places. Office workers encountered extreme difficulties getting to their jobs. In some cases the havoc was worsened by hurricanes of recent years. The snow in places was more than 27 inches deep. We are hoping not to have another snow storm like that, anymore this Spring.

C. E. Wise, Jr., says we don't have a Big Ben in America, but we do have a lot of Big Bills.

The dull brown earth is waking from months of languor deep, Awaking as a tired child Arouses from its sleep. Within the earth's deep bosom Each tiny seed has heard The soft low call of springtime. And at her spoken word. 'Tis thrust out clinging fingers And grasped a dull brown clod, Then burst in sudden beauty To glorify the sod.

And when, as changing seasons March down the years of Time The blossoms of the earth awake In every land and clime. We know God's human flowers From their long sleep shall rise To bloom in fadeless beauty In His fair Paradise. And as in matchless splendor The seasons roll along Each spring morn proclaims anew The resurrection song.

FEESERSBURG

(A Voice from Carroll)

Tuned to the needs of crippled children and adults, the 1959 Easter Seal Campaign in Maryland and the National opened this week and will continue through Easter Sunday, March 29. The Easter Seals will reach more than 500,000 homes in Maryland during the traditional 30 pre-Easter days this year. Contributions in Carroll County will be used to maintain and expand services at the Western Maryland Easter Seal treatment center in Frederick. What kind of services does the Frederick Center offer to crippled children and adults? There are three, namely, Occupational, physical and speech therapy. Occupational therapy is a method of treatment designed to increase muscle strength, joint motion and improve coordination by carefully chosen activities. Treatment is geared to individual patient needs as indicated by a physician. Physical therapy is the

treatment of injury and disease by the use of physical agents such as heat, light and water. Speech therapy is treatment to correct or improve abnormal speech from physical and emotional problems. Treatment varies according to the cause and age of the handicapped individual. Both children and adults work closely with the therapist and since speech problems are the most urgent the individual requires two periods each week with the therapist. At the present time the Frederick center could use another speech therapist because Carroll County does not have a speech therapist in its public schools. Children handicapped with speech problems must go to the center for treatment. It is surprising to learn how many children do require professional help with speech handicaps. As a non-profit organization, the Easter Seal Society assumes the responsibility of maintaining this community program. The treatment of patients unable to pay for professional help is made possible by funds obtained during the Easter Seal campaign. If you know someone that is handicapped and needs treatment don't hesitate to tell them about Easter Seal center in Frederick. All that is required, that they be recommended for treatment by a physician. The Easter Seal center is open Monday through Friday from 9 a. m. to 5 p. m.

We were happy to see the letter from David White printed in the Pilot last week, and we hope many people read it. For it is about time the American people got to hear the true story of the Cuban Revolution. From the very beginning the majority of American newspapers slanted the news against Castro and reporters try to write the truth unless they are pressured into distortion. Many American firms have large sums of money invested in the Batista regime. Naturally they wanted to maintain him in power to protect their money even if he murdered half the Cuban population. Castro is a very popular man in Cuba and if helped by America instead of hindered he will in time make Cuba a model democracy. We agree with Mr. White that unnecessary killing is repulsive but when a country is goaded to desperation by cruelty and torture by one of its supposed leaders, then revenge is justified. We, in our country have been spared a true revolution and have no idea what one is like to live through. We should withhold our judgment until we can learn the facts, but until the newspapers live up to their heritage of printing the truth or at least both sides of a story we can't conceive of the American people ever arriving at a just conclusion about anything.

Congratulations to the 4-H clubs every where! This week has been set aside to salute these young people from town and country who do so much for their community and country. No other group does so much to emphasize the importance of home-making and farming as the 4-Hers. They stress family life and the fun in belonging to a constructive group of young people. They have done much in bringing dignity and pride to the farming industry and made our nation aware of the talented boys and girls that live in small towns and rural communities. To their leaders go a special word of recognition. They give their time and talent to encourage the young people into worthwhile work and the only reward they receive is seeing them finally mature into individuals able to meet the responsibility of adulthood. The Nation is proud of its 4-H clubs and its leaders for on them depend so much of its future.

Security is mostly a superstition. It does not exist in nature, nor do the children of men as a whole experience it. Avoiding danger is no safer than outright exposure. Life is either a daring adventure, or nothing. Serious harm, I am afraid has been wrought to our generation by fostering the idea that they would live secure in a permanent order of things. They have expected stability and find none within themselves or in their universe. Before it is too late they must learn and teach others that only by brave acceptance of change and crisis can they rise to the height of responsibility. —Helen Keller.

Paper cups were first introduced in 1908. They replaced the old tin dipper at public drinking fountains.

When a woman ends a meal with all the emboard doors open, sink and stove overflowing with pots and pans and nearly every dish in the house dirty she is one of three things: a career woman, a bad housekeeper or an extra good cook.

A mother who wanted to help her ten year old daughter with her reading was told flatly by the girl's teacher: "You'll only retard her progress if you teach her yourself." "Perhaps," replied the mother. "But will it be all right for me to read her diploma to her when she graduates?" Ruth Roelke

Electrical Contractors Meet

Electrical contractors, building contractors and representatives of banks and lending institutions from throughout this area will again meet this year with representatives of the Potomac Edison Company in the 14th annual series of Contractor's Meetings.

The meeting for this area will be held on Tuesday, March 10 at 6:30 p. m. in the Eagles' Club in Frederick.

Features of this year's meetings will include: a progress report on 1958 activities in the Certified Wiring field; a discussion on the Potomac Edison System's policy regarding the installation of standby generators; presentation of revised specifications for Certified Wiring and Full Housepower; discussion of a new Medalion Home brochure; progress report on residential electric heating; and a dramatic presentation on certified wiring and electric heating.

The session will be conducted by E. A. Roof, Wiring Promotion Specialist for the utility company, and J. H. Reddig, Electric Space Heating Supervisor for P. E. R. L. Itnyre, District Commercial Manager of the Potomac Edison Company, will preside at the dinner-meeting.

These meetings were initiated 14 years ago for the exchange of ideas and information related to electrical contracting in building, and to keep electrical contractors and builders acquainted with the various changes in wiring codes, inspection requirements, equipment development, and the future potential of this industry.

Keyville ULCW Meets

The ULCW met Monday evening with Mrs. Dharis Fleharty and Mrs. Marion Ausherman discussing the topic, "Faith—The Answer To Fear". The group was divided into four sections for a buzz session. One from each section reported the things most feared and why. Quite a number of the group discussed Bible characters whose experience were similar to our experiences. They used the power of faith to drive out fear; we can do likewise. Mention was also made of people about us who know fear but do not have faith.

The special numbers consisted of a violin solo by Miss Eleanor Clabaugh accompanied at the piano by her mother, Mrs. Anna Clabaugh. Her numbers were, "Faith Of Our Fathers", "Blest Be The Tie", "Come, Thou Almighty King", and "The Village Green".

Miss Darlene Bowers, Miss Shirley Keiholtz and Miss Linda Schaffer played on their flutes the following numbers "Blue Bells of Scotland", "America" and "All Through The Night". So nice to hear from our young folks.

Mrs. Edith Wilhide gave the meditation and Mrs. Elizabeth Myers the prayer. The meeting closed by all singing, "How Firm A Foundation" and the benediction.

Mrs. Helen Dougherty conducted the regular business meeting. Mention was made of the spring meeting April 23 at Elias Lutheran, Emmitsburg. It was decided to get one unit and make some clothing as a special aids project.

Those in charge of the social period were Mrs. Luella Feeser, Mrs. Clara Clabaugh and Mrs. Anna Clabaugh. The decorations and refreshments were in keeping with St. Patrick's Day. Lime jello, white cake with green coconut, coffee, nuts and mints were served. The attendance at our meetings is most gratifying. Can it be the good weather or renewed enthusiasm? Whichever the case may be, will be looking for you next meeting night. The leaders will be Mrs. Anna Mae Trout and Mrs. Virgie Ohler.

ENGAGEMENT ANNOUNCED

Mr. and Mrs. Leroy W. Myers, Taneytown, announce the engagement of their daughter Carol to A/3c Richard D. Davidson, son of Mr. and Mrs. Kenneth Davidson, Taneytown, Md. Miss Myers is in Nurses Training at Church Home and Hospital Baltimore, Md. Airman Davidson has just completed training as a Medical Specialist at Lackland Air Force Base, Tex.

Girl Scout Week

During Girl Scout Week more than 900 girl scout troops in the Baltimore Area will be busy selling cookies. The sale begins March 6 and continues through March 21.

The girl scouts have set a goal of over one-half million boxes. Proceeds of the sale will be used for further development of the Council's five camp sites, to provide more camperships, and to help send 42 girl scouts to Colorado Springs in June for a nation-wide Roundup.

Mr. Albert S. Mullican, Jr., Cookie Sale Chairman for Carroll District, is convinced that girl scouts develop good business practices in taking and filling orders for cookies, making change, meeting the promise and laws of courtesy, loyalty, usefulness and helpfulness. Through continued confidence in the girls, the community will aid in strengthening its youth.

As Girl Scout Week opens on Sunday, March 8, girl scouts everywhere will be wearing the girl scout uniform. March 12 will mark the 47th birthday of the girl scout organization.

Harney Boys 4-H News

The Harney Boys 4-H club meeting was held at the home of Merle Weant on February 24, with 12 members present. The meeting was called to order by the Vice President Carroll Hahn. The meeting was opened by repeating the 4-H pledge. The minutes and treasurer's report were given.

The Assistant County Agent, John Seibert, gave a report on the hog judging contest which took place Saturday February 21st, at the Frederick Fair Grounds. He also told of the Spring Hog Show, Mar. 10 and 11th at the Baltimore Union Stockyards. Several of the club members plan to exhibit at this show. The meeting was adjourned and refreshments were served.

There were three new members present. Merle Weant gave a demonstration, "Building a self feeder for swine". Mr. Seibert showed the movie entitled "Green Gold" which was on grassland farming.

The next meeting will be Parents' night.

FAIR COMMENT

"Is it true that it's good luck for a black cat to follow you?" asked a wife of her husband. "Depends on whether you're a man or a mouse", was the reply.

HOME OWNERS' QUESTION BOX

Q—In cold weather, water droplets form on our window frames and the material around the glass (I guess you'd call this the sash). The water runs down over the wall, and after awhile ruins paint and wallpaper. It has even damaged our carpeting in the living room. What can we do to stop this? We have storm windows.

A—Pardon the pun, but I'm afraid you'll just have to "sweat it out," unless you can afford to install new wood windows all around. What happens is the material your windows are made of conducts heat rapidly, like a wire conducts electricity. As a result, the frames and sash are always cold in winter, because the cold goes all the way through the wall and isn't protected by the storm sash. Windows of ponderosa pine (most quality wood windows are made of this material) won't form moisture on interior frames and sash, because wood is a natural insulator. Regardless of the cold

outside, the interior surface of ponderosa pine remains at room temperature.

Q—Can I paint over rust?

A—Yes, if you buy one of the new paints available especially for rust. Scrape all the old scale off first.

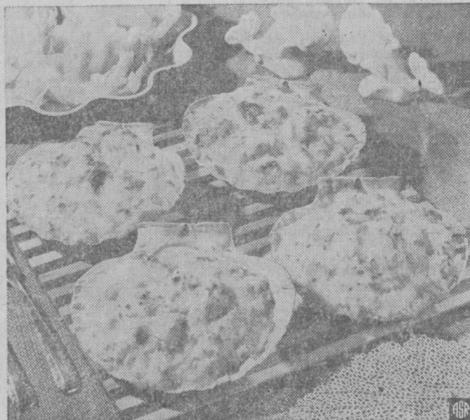

Q—My daughter has a toy electric organ that operates on two flashlight batteries. Is there any way to convert this to house current?

A—It's tricky, but it can be done. Well-stocked radio supply stores will sell you a small transformer for about \$2 that will reduce the current to the correct amperage. Ask a radio technician or electrician to draw a simplified wiring diagram for you.

Q—What kind of paint should I use to paint a brick fireplace?

A—Most any flat interior paint will do the job. Generally, however, it's best to use an exterior flat finish designed for masonry.

Lenten Meal with Enjoyment

"Crab Meat au Gratin" is a delicious entree you'll want to serve often throughout the Lenten season. For an added plus in nourishment, packaged pre-cooked rice is included in the crab mixture . . . and for pretty service this specialty is baked in individual sea shells.

Crab Meat au Gratin

2 tablespoons butter
 1 1/2 cups Minute Rice
 1 can condensed cream of mushroom soup
 2 cups milk
 1/2 teaspoon salt

Dash of pepper
 1/4 teaspoon Worcestershire sauce
 1 cup (6- to 7-ounce can) crab meat, drained and flaked
 3/4 cup grated sharp Cheddar cheese

Melt butter in skillet. Add packaged pre-cooked rice and sauté over medium heat until golden brown, stirring constantly. Add soup, milk, salt, pepper, and Worcestershire sauce. Mix well. Bring mixture to a boil. Cover and simmer for 5 minutes. Then add crab meat, mix lightly, and heat thoroughly. Turn mixture into individual baking dishes, or into a 1-quart baking dish. Sprinkle cheese over top. Place under broiler for about 5 minutes, or until lightly browned. Makes 4 cups, or 4 servings.

Masterful Claims of Jesus

These claims are given in language which a child can understand, but whose depths philosophers have never fully fathomed. Simplicity of language is a mark of greatness.

Jesus said "I AM."

"Before Abraham was, I am," John 8:58

"I am the bread of life," John 6:35

"I am the living bread which came down from heaven," John 6:51

"I am the light of the world," John 8:12

"I am the door," John 10:9

"I am the good shepherd," John 10:11

"I am the resurrection and the life," John 11:25

"You call me Teacher and Lord . . . for so I am," John 13:13

"I am the way, and the truth, and the life," John 14:6

"I am the vine, you are the branches," John 15:5

"The Father is in me and I am in the Father," John 10:38

"I am the Son of God," John 10:36

Thy Will Be Done

Lesson for March 8, 1959

A STRANGER to the Christian religion would be struck by two things. One is that the church cherishes much that she does not understand; and the other is that the church loves to remember what the stranger would think we should wish to forget.

The story of Gethsemane is one that every Christian knows. The first three gospels all tell it in some detail. Every communion service begins with the words, "The Lord Jesus, the same night in which he was betrayed..."

Dr. Foreman

The Gethsemane story is one of anguish of mind and soul, a story of Jesus offering an unanswered prayer—"let this cup pass."

There is no doubt about Jesus' distress in Gethsemane. Matthew, Mark and Luke all testify to it. Mark says that Jesus "began to be greatly distressed and troubled." The word Mark uses which is translated "greatly distressed" in Mark 14:33 is the same word he uses in 9:15 to describe the crowd's astonishment when they saw him after the Transfiguration. It is the same word also in 16:5 and 6, speaking of the amazement of the women at the tomb when they saw the white-robed angel.

"Not What I Will—" There is a darker shadow than this. You would think, if you were a stranger to the Christian faith, that if ever there had been a time when Jesus felt his own will and his Father's will were not the same, the church would prefer to forget that fact.

No—if the church had been inventing the story, they would probably have invented it just that way. But the church was dealing with facts, not fancies. And in this story of Gethsemane we are further mystified by hearing Jesus say, "Not what I will, but what Thou wilt." Any one who thinks he knows exactly what Jesus meant by that, is guessing.

Yet immediately, in the same breath, Jesus cries out "what thou wilt." Jesus was not at that moment giving a lesson in prayer. Nevertheless that is the most profound lesson in prayer which we can learn. We all know by heart the prayer which Jesus taught us, and we rattle it off easily enough. But every phase of it is hard to say honestly, and none harder than this: "Thy will be done."

That is just fine when we think God wants what we want, and is sitting up there in the sky like a heavenly Fixer, arranging for all our sweet dreams to come true. That is fine too even when we can see God is not going to let our dreams come true, provided we can see that God has a better plan and we know what the plan is. But what about it, if we become sure that God is against our own plans, that God is not "fixing things" for us, and yet we cannot see why? What about it if our knowing what God's will is, brings us also to cries and tears, to amazement and distress? Well... then we can find light in dark Gethsemane.

Next 20,000 gallons @ 50c per 1000 gallons
Next 30,000 gallons @ 40c per 1000 gallons
Over 60,000 gallons @ 25c per 1000 gallons

Minimum: \$3.00 per quarter

All service furnished outside of corporate limits @ 60c per 1000 gallons.

SERVICE CONNECTION CHARGES

Service Connection Charge for 3/4 inch pipe \$ 50.00
Service Connection Charge for 1 inch pipe 75.00
Service Connection Charge for 1 1/2 inch pipe 100.00
Service Connection Charge for 2 inch pipe 150.00

SECTION II: That the rules relating to water service furnished by the Mayor and City Council of Tanetown shall be as follows:

RULES

These rules shall be a part of the contract with every customer.

1. DEFINITIONS

a. The word "Corporation" shall mean the Mayor and City Council of Tanetown or its duly authorized officers or agents.
b. The word "Customer" shall mean the applicant for service, receiving water at one household or place of business.
c. The word "Main" shall mean the Corporation owned piping and fixtures in or along public highways and streets, or along privately-owned right-of-way, used for the transmission or distribution of water to customers.

2. APPLICATIONS FOR SERVICE

a. All applications for water service must be made in writing.
b. No application for service will be accepted by the Corporation until the applicant has paid, or made satisfactory arrangements to pay, all arrears and charges due by the applicant for water service used at any premises now or heretofore occupied by him in the area served by the Corporation.
c. The accepted application shall constitute a contract between the Corporation and the applicant, obligating the applicant to pay to the Corporation its rates as established from time to time and to comply with the rules of the Corporation.
d. Applications for service installations will be accepted subject to there being an existing main in a right-of-way abutting on the premises to be served.
e. When a prospective customer has made application for a new service or has applied for the reinstatement of an existing service, it is assumed that the piping and fixtures on the applicant's premises are in good condition and the Corporation will not be liable in any case for any accident, breaks, or leakage arising in any way in connection with the supply of water or failure to supply same, or the freezing of water pipes or fixtures of the customer, nor for any damage to the property which may result from the usage or non-usage of water supplied to the premises.

3. SERVICE CONNECTIONS

a. The Corporation will furnish and install the following equipment: corporation stop, service pipe to the property line, curb stop and box; except that the Customer shall bear the expense of digging and properly backfilling the trench for the service pipe.
b. Title to all services from main to property line, are vested in, and the same shall at all times remain the sole property of the Corporation, and shall not be trespassed upon or interfered with in any respect. This property shall be maintained by the Corporation.
c. The service pipe from the property line to the building shall be installed at the expense of the owner of the premises. For this installation the owner or applicant shall employ a competent plumber to do the work. The minimum size and cover shall be the same as that used from the main to the property line. Materials and method of construction shall be approved by the Corporation, and if the service pipe has not been installed in accordance with the Corporation's requirements, water will not be turned on until such the building and all piping and fixtures on or in the building of the owner or applicant, shall be maintained by him and the work performed by a competent plumber in a manner satisfactory to the Corporation.
d. All service pipes to the building shall have a minimum cover of three feet. Service pipe shall be "K" type copper tubing. All service pipes shall be at least three-fourths inch (3/4") inside diameter.
e. No service pipes shall be laid in the same trench with gas pipe, sewer pipe or any other facility of a public service company, nor within three feet of any open excavation or fault.
f. Every service pipe must be provided with a stop and waste cock on the inside of the cellar or foundation wall adjacent to the location where the pipe passes through it, easily accessible, fully protected from freezing, and all pipes in the building must be laid in such a way that they can be fully drained by that waste cock.

4. METERED SERVICE

a. All meters will be furnished by and remain the property of the Corporation, which reserves the right to stipulate the size, type and make of meter to be used, as well as the location of the setting.
b. When possible, the meter will be set at the property line or some other location designated by the Corporation on the delivery side of the curb cock. In the event the customer desires any change in the location or position of the meter, meter box or vault, such change in location shall be made by the Corporation at the expense of the customer.

5. PAYMENT OF BILLS

a. If payment in full is not made within thirty (30) days after date of bill, the Corporation reserves the privilege, after five (5) days' written notice, to discontinue rendering service.
b. Whenever a customer desires to have his service contract terminated or his water service discontinued, he shall so notify the Corporation in writing. Until such notice is received by the Corporation, the customer shall be responsible for the payment for all service rendered by the Corporation. A reasonable time after the receipt of such notice shall be allowed the Corporation to take a final reading of the meter or meters and to discontinue service.

6. DISCONTINUANCE OF SERVICE

a. Service may be discontinued for any one of the following reasons:
1. Misrepresentation in applications.
2. Wilful waste of water.
3. Failure to comply with restrictions imposed under Rule 7-e.
4. Molesting Corporation property or seals on meter or piping.
5. For vacancy.
6. Non-payment of bills when due.
7. For cross-connecting the Corporation's service pipe with any other supply source.
8. Refusal of reasonable access to property.
b. When water has been turned off from any premises for any of the above reasons, or for any other violation of the Corporation's Rules, a charge

will be made for restoring service in the amount of the actual cost of turning on the water, except, however, that the minimum charge shall be two dollars (\$2.00).

7. GENERAL

a. Curb stops shall not be used by the customer or his agent for turning on or shutting off the water supply. The control of the water supply by the customer shall be by means of a separate stop, located just inside the building wall. Curb stops are for the exclusive use of the Corporation.
b. No water will be furnished to any premises where any possibility exists of the mingling of the water furnished by the Corporation with water from any other source. Nor will the Corporation permit its mains or service pipes to be connected to any piping or apparatus containing any substance which may flow back into the Corporation's service pipes or mains.
c. The customer shall not permit anyone, except an agent of the Corporation or someone otherwise lawfully authorized to do so, to remove, inspect, or tamper with the meter or other property of the Corporation on his premises. The customer shall notify the Corporation, as soon as it comes to his knowledge, of any injury to the Corporation's property.
d. The authorized agents of the Corporation shall have the right of access to the premises supplied with water, at all reasonable hours, for the purpose of reading meters, examining fixtures and pipes, observing the manner of using water, and for any other purpose which is proper and necessary in the conduct of the Corporation's business.
e. The Corporation reserves the right to impose reasonable restrictions on the use of water during periods of shortage of supply, excessive demand or other difficulty which results in the impairment of normal service to any group of customers.
f. The Corporation reserves the right to place restrictions on customers who consume large quantities of water (swimming pools, etc.) and thereby create conditions which prevent the Corporation from supplying satisfactory service to that customer, or to other customers.

8. MAIN EXTENSIONS

a. The Corporation will extend its mains in the public streets and highways a maximum distance of sixty (60) feet for each new applicant for water service provided that said applicant shall have first assured the Corporation that he will be a reasonably permanent customer.
b. Whenever service to an applicant involves the extension of a main for a distance in excess of sixty (60) feet, the customer shall deposit with the Corporation the estimated cost of such part of the extension as exceeds the sixty (60) feet allowance. The Corporation reserves the right to determine the size of pipe necessary in making such extensions, but in no case will pipe smaller than two (2) inch be laid, nor shall any customer be required to deposit a sum in excess of the estimated cost of four (4) inch pipe. If the Corporation deems it advisable to install pipe larger than four (4) inch, the excess cost of the larger pipe will be borne by the Corporation. Deposits covering main extensions will not bear interest. Title to, and ownership of, all main extensions made under this rule shall be vested in the Corporation.
c. When additional customers attach directly to an extension of main upon which one or more deposits are held by the Corporation, refunds will be made as follows:
1. A connection charge of one hundred and fifty dollars (\$150) will be collected by the Corporation from each additional customer and refunded to the depositors, except that if the additional customer can be served from that portion of the main which has been acquired by the Corporation through the free extension, allowances then the connection charge will not be collected.
2. In addition to the amount under (1) above, for each additional customer the Corporation will refund to the depositors an amount equal to the original cost of sixty (60) feet of the main.
When the unrefunded deposits of the original depositors have been reduced to one hundred and fifty dollars (\$150) each, then all those who have paid connection charges will be considered as depositors and subsequent refunds will be divided among all depositors. Refunds will be made to each depositor in proportion to the unrefunded amount of his deposit, and no depositor will have refunded to him an amount in excess of the amount of his original deposit. Any amount remaining unrefunded at the end of ten (10) years from the date the deposit was received by the Corporation will be retained by the Corporation.
d. When a new extension is added to an extension upon which there is an unrefunded deposit, the new customers will be required to deposit the entire estimated cost of the further extension. The new customers must also pay the connection charge specified in (b) above which will be used to make refunds to the depositors on the first extension, except that if the amount of the unrefunded deposits on the first extension are less than one hundred and fifty dollars (\$150) each then the new customers will not be required to pay the connection charge.
9. In case of accidents, break-downs, shortage of water supply, or any causes beyond its control, or because of any act or omission on the part of the public authorities, or their agents, or any of them, or in case of the making of repairs, renewals or replacements, the Corporation reserves the right to shut-off the water supply, from any one or any number of premises, without notice, and shall in no manner be held responsible for any consequences of such shut-off.
10. The Corporation will give notice, in the manner deemed in its discretion to be most effective, of any shut-off of the water supply, wherever and whenever the giving of such notice is practicable, but nothing in these rules contained shall be construed to require the giving of such notice under any circumstances.
11. Nothing in these rules contained shall be construed as a guarantee or covenant or agreement of the Corporation to give such continuous and uninterrupted service.
12. The Corporation in no manner guarantees to furnish a proper quantity of water for fire protection, nor does it undertake to guarantee anything relative to any service, but it will make every effort to maintain the efficiency of its service under all conditions. The Corporation will not be responsible in any manner for failure of its water supply during a fire, or at any other time.
13. All fire hydrants or plugs, whether installed by the Corporation or otherwise, are to be used for fire protection purposes exclusively. All use of fire hydrants or plugs for sprinkling, sewer flushing, filling, sprinkling, watering or other carts or receptacles, for fire drills or fire company testing, other than for strictly fire protection is prohibited, unless any such other use is permitted by the Corporation as evidenced by a written permit signed by its President, which permit shall be exhibited to any and all employees of the Corporation at their request.
14. Permits for use of water from fire hydrants or plugs for any purposes other than for fire protection, will not be granted by the Corporation except in cases where such use is deemed by the Corporation to be urgent and other means of obtaining water are not available; but all permits so granted shall be revocable at the pleasure of the Corporation in every instance and without regard or reference to any terms or provisions in such permits to the contrary.

SECTION III: And be it enacted and ordained that any person who shall, without written permission, open any main or service pipe owned by the Corporation, or damage or open any fire hydrant except for its intended purpose, shall be subject to a fine of not less than Fifty Dollars (\$50.00) nor more than Two Hundred and Fifty Dollars (\$250.00).

SECTION IV: And be it further enacted and ordained that this Ordinance shall be and become effective on the first day of April, 1959. Enacted and ordained by the Mayor and City Council of Tanetown, Maryland, this 2nd day of February, 1959.

HENRY I. REINDOLLAR, JR., Clerk.
RAYMOND J. PERRY, Mayor.

Approved this 16th day of Feb., 1959.

THE BIRNIE TRUST COMPANY ANNUAL MEETING

The annual meeting of the Stockholders of The Birnie Trust Company will be held at the office of the Company in Tanetown, Maryland, on Monday, March 9, 1959 between the hours of 9 and 10 o'clock A. M. (E.S. T.) for the following purposes:

- 1. The election of eleven directors to serve for the term of one year, and until their successors are elected and qualified.
2. To consider and act upon the question of changing the time of the annual election of the directors from the Second Monday in March to the Second Monday in January, by amending Section 4, of the Articles of Incorporation, by striking out the first sentence of said Section down to and including the word "May", and substituting in lieu of said first sentence down to and including the word "March", the following: "And be it enacted, That the directors shall be elected annually by the stockholders on the Second Monday in January." Said Section 4 in all other respects to remain unchanged.
3. The transaction of such other business as may properly come before the meeting.

Scholarship Fund's First Memorial Gift Honors Miss Carmen Delaplaine, Teacher

The first memorial contribution was announced at a recent meeting of the Carroll County Scholarship Fund, Inc. The Board of Directors and delegates from various schools who were present at the meeting heard Elwood Baumgardner, treasurer, state that a check of \$15.00 has been received in honor of Miss Carmen Delaplaine.

Miss Delaplaine, a resident of Detour, and a former teacher and vice-principal in Carroll County schools was, at the time of her death, supervisor in the Howard County School system. A tragic accident at an intersection two years ago caused Miss Delaplaine's death. Her car and a truck collided because of slippery road conditions.

The contribution sent to the Scholarship Fund as a memorial to Miss Delaplaine by a former pupil of hers, who is now serving in the armed forces, was given "in honor of a splendid teacher."

Mrs. Wm. Culwell, Scholarship Fund president, was encouraged by the recognition of a teacher who had dedicated her life to education, and through this memorial gift would continue to benefit mankind.

The \$15.00 gift has initiated a scholarship memorial in Miss Delaplaine's name. Additional contributions to this fund will enable any qualified person interested in becoming a teacher to realize a life's ambition, who would otherwise be financially unable to do so.

An annual scholarship is in the amount of \$325. Any business firm or individual wishing to contribute the entire amount or part of a scholarship should address the contribution to Elwood Baumgardner, treasurer, Carroll County Scholarship Fund, Inc., Taneytown, Md.

Carroll County Hospital News

On Thursday, February 22, Mr. Atlee W. Wampler, Jr., F. Kale Mathias, Dr. Charles L. Billingslea, A. Earl Shipley and Howard E. Koontz, Jr. all members of the Board of Directors of the Carroll County Hospital went to see Miss Bertha Adkins, The Under Secretary of Health, Education and Welfare, Washington, D.C.

Miss Adkins is well known in Westminster and while she was Dean of Women at Western Maryland College. Miss Adkins is a native of Salisbury. The nature of their visit to Miss Adkins was to discuss pertinent consideration, relative to the utilization of Hill-Burton or federal hospital funds which are administered by her department.

The Committee was most graciously received and the Under Secretary is intensely interested in the Carroll County Hospital Project.

The Carroll County General Hospital Auxiliary will hold their next meeting on Monday, March 9, 1959 at 8 p.m. in the Carroll County Medical Center, Gist Road, Westminster, Md.

Several items of discussion are to be brought up before the group.

Mrs. Doris Pinckney, First Vice-President from Reisterstown is in charge of the program and Mrs. Pinckney will have Mrs. Clark Smith, President of the Annie M. Warner Hospital Auxiliary of Gettysburg, Penna. as the guest speaker for the evening.

The membership is still open for charter Members so bring your friends along.
