SPECIAL MEETING OF **MAYOR & CITY COUNCIL**

Plans Made for the Erection of New Water Tower

A special meeting was held by the Mayor and City Council, Monday eve-

The meeting was held for the puroose of acquiring land for the erection of a water tower at the East End of Taneytown.

A letter was read by President Geo. Motter from W. Wilson Utz, informing the Council that they will deed over to Taneytown a plot of ground on their property for the erection of the new water tower. After some discussion the Council

accepted W. Wilson Utz's proposal.

The tank is to arrive in Taneytown the second week in September, so time was of the essence.

The Council is now advertising for bids to drill a ten inch well approxi-mately to sea level at this time. Authorization was granted to the Mayor to buy 10" cast iron water pipe for the end of the present system on East Baltimore Street to the new

tank site. Bids to be requested of two contractors to install the base for the new water tank. Bids to be in by September 5th.

As this was a special session of the Council, no further business was at-

Regulations for Carroll **County Schools**

The Carroll County school administration announces that principals will have continued authorization, as of the opening of school on September 8, to enforce appropriate regulations related to pupil dress and appearance. These policies have been used in the county schools, and by request of the principals, it is felt that a general statement will be helpful to pupils and parents in cooperating with the regulations. It should be noted that the reguations exist and will be enforced by reason of the fact that it is the unanimous opinion of school officials that such regulations are needed and will be of benefit to pupils, who are affected by the regulations, as well as all of pupils and teachers with whom they are associated. Eyperience has indicated that unusual and extreme appearance or dress interferes with regular conduct of classes, and works out to the detriment of the educational program. The cooperation of pupils and parents s requested. Lack of observance of the regulations and standards will result in disciplinary action and total disregard will result in removal from school. Most county schools have regulations of their own with respect most cases pupil organizations such as student council have assisted in preparing the standards adopted as

General regulations to be used may be briefly outlined somewhat as fol-

lows: 1. "Drape", "ducktail", "beatnik" styles in haircuts as well as "Indian" styles will not be tolerated.

The growing of "beards', "sideburns", etc., or other unusual departures from normal facial appearance will not be acceptable.

The wearing of leather boots or hobnailed shoes while in school is discouraged. Heel plates, which are noisy and destructive of floors, are also prohibited.

4. Leather jackets as classroom attire will not be acceptable. Any clothing fitting with "undue, unnecessary or immodest tight-

ness" will not be acceptable. Slacks or "jeans" for boys will be expected to be adjusted properly to waistline and to be belted. Boys' shirts must be appropriately buttoned

and shirt tails must be confined. Clothing for girls will be expected to be appropriate; with teachers and school officials to expect adherence to acceptable standards.

School authorities will make every effort to be just and reasonable regarding enforcement of the regula-

World Newsman Ernest A. Kehr to Speak

Few journalists have traveled as extensively and continuouly as Ern-est A. Kehr, member of the editorial staff of the New York Herald-Tribune who speaks here on Thursday, September 3, at 9:00 A. M. in the Francis Scott Key High School, Uniontown, under the auspices of the Carroll County Board of Education. He has reported from five continents — Europe, Asia, Africa and North and South America — and knows all

ERNEST A. KEHR

Kehr's global travels began early. Born in Switzerland, he was brought to the U.S. at the age of one. His father, who believed in travel, sent him alone to Europe at the age of 11. He made his way through Germany, Switzerland, France, Italy, England and Belgium, developing a penchant for travel that has stayed with him. Three years later, he made

his first trip to North Africa.

Educated in New York City, Mr.

Kehr was planning to teach after receiving his M.A. from New York University. Instead, he decided he wanted to work on a newspaper. Walking into the New York World-Telegram one day, he informed the startled editor that the newspaper needed a hobby column and that he was prepared to handle it. He got the job on trial — and stayed to become the Hobby News Editor. When he demonstrated an exceptional reporting ability on a chance assignment, he was sent out on many regular stories and in 1938 covered North Africa for the

In 1939 Mr. Kehr joined the edi-torial staff of the New York Herald-Tribune. During World War II he was assigned to the strategic area of Alaska, which played such an important role as supply base, troop training ground and sea and air route to the East. From the Caribbean area, which he covered from 1944 to 1946, he was sent to report on Europe and North and West Africa. South America came next - and with it one of his outstanding scoops view with Juan Peron and his late wife, Eva. During the past year, Mr. Kehr has been to Africa and the Mid-

dle East, Europe and Asia.

Because of his knowledge of so many countries, Kehr is not limited to any specific assignment. He contributes to the editorial, travel and news pages, is on the Sunday Feature Staff, and is also Stamp Editor. Called on to write about any one of the many world spots in the news on a moment's notice, he specializes in interpreting the policies of countries involved in U.S. policy from their own

point of view. Mr. Kehr has the distinction, rare among journalists, of having received awards and decorations from three foreign areas — the "Academico de Honor" title from the Ibero-American Academy of History: the Great Cross. Order of Merit from West Germany; and was made "Knight, Order of Orange-Nassau" by Queen Juliana of Holland. All cite the contributions he has made in helping to develop good relations between those countries and the United States through his perceptive news interpretation.

A frequent contributor to leading national magazines such as Life. This Week. Saturday Evening Post, Reader's Digest, Think and many others. he has also been a guest on many radio and television programs.

From his wide range of reporting experence and travel, Mr. Kehr will speak on Pan American Paradox when he appears here. Mr. Kehr will give a first-hand report on the Nixon tour and its after-effects. In the light of recent developments in Cuba and the Dominican Republic and the plenary session of the Inter-American Foreign Minister's Conference, Mr. Kehr's address should prove to be enlightening and interesting. Kehr also ably sums up dictatorship, democrary and communism in Argentina, Cuba, Do-minican Republic. Guatemala, and all others. National jealousies vs. hemispheric solidarity; U.S. partnership or European propoganda. Kehr's revelations are based on 20 years of intimate knowledge of our Latin neighbors and the personalities who rule them.

The public is cordially invited to attend.

ELEMENTARY SCHOOL AT PEAK ENROLLMENT

450 Pupils Expected to Enter Tuesday, Sept. 8

Taneytown Elementary School will open its doors to approximately 450 pupils on opening day, Sept. 8. This represents the largest number ever enrolled as the school begins its tenth year of operation. Twenty-three new pupils were enrolled on registration day, August 24. It is hoped that the school will be informed of any new arrivals not, thus far, enrolled so that adequate classroom desks and cafe-teria stools and tables may be set up prior to opening day.

Faculty

Two changes have been made on the faculty both, however, involving teachers who have taught in the school previously. Diane Perry, former fourth grade teacher, will teach the third grade class taught by Esther Koutz until her operation last year. Mrs. Koutz has not sufficiently recovered from her illness to resume teaching at this time. Dale Leese will return to his sixth grade classroom following an absence of several months. Other staff assignments will remain the same as in past years.

Pupils

Pupils of last years classes will remain with their groups and pro-gress as follows: Mrs. Gass' class to gress as follows: Mrs. Gass' class to Mrs. Phillips, Mrs. Stonesifer's class to Mrs. Mohney, Mrs. Phillips' class to Mrs. Smith Mrs. Mohney's class to Mrs. Perry, Mrs. Smiths class to Miss Jordan, Mrs. Koutz's class to Mrs. Alexander, Miss Jordan's class to Mrs. Lanier, Mrs. Alexander's class to Miss Shreeve, Mss Shreeve's class to Mrs. Wareny, and Mrs. class to Mrs. Wargny, and Mrs. Lanier's class to Mr. Leese.

Assignment of beginners to first grade classes will remain as indicated prior to the closing of school.

First Grade Dismissal

Beginners in grade one will be dismissed at 2 p. m. from Sept. 8 through September 25. Parents may call for them at that time. Children whose parents do not call for them and bus pupils will be kept at the school until regular dismissal time.

Cafeteria

Lunches will be served on the first day of school as usual. Cost of the complete plate lunch including milk will be 25 cents. Pupils in the first grade who are buying lunch will be helped with their trays by upper grade children. The school is again participating in a special milk program sponsored by the federal government whereby individual half pints of milk may be purchased for cents. Parents are urged to avail themselves of either the plate lunch or special milk program. Weekly lunch tickets may be purchased for \$1.25. Mrs. Shorb lists the menu for Tuesday, Sept. 8, as follows: Barbeque sandwiches, buttered green beans, cheese-potato sticks, peaches, half pint

Accident Insurance

Accident insurance will again be available through the Pilot Life Insurance Co. Because of rising costs of claims throughout the county, the rate has been increased to \$1.75 per pupil. We have been informed that other counties throughout the state were paying \$1.75 last year.

Photographs

All children or the school will be photographed on Monday, Sept. 14. Pictures will not include the booklet as heretofore but will be in color.

Polio Shots

It has been noticed through advanced registration that some of our children have not been immunized against With protection against this dread disease within our grasp, all parents should assmue responsibility for proper immunization of children through either the family physician or the county health clinic.

Organizations

Parents are cordially invited to attend all meetings of the Parent-Teacher Association which meets on the third Tuesday of every month and the Parent-Study Group which meets quarterly throughout the year.

Child Development

While the prime effort of the school is directed toward academic profi-ciency, a good school must take cog-nizance of the fact that poor scholastic performance is frequently the result of emotional problems existing within the child and seek through whatever means are possible to overcome them. Perhaps because the story was quite different bring-ing a tear now and then and yet there was plenty of music. The story was based on the career of Loring "Red" Nichols. The time was the "Roaring Twenties" when the young man with his horn picks up from his country home out wast and heads for the his home out west and heads for the big city of New York. He lands on top in no time having many noted players in his band which is filed with real J A Z Z. Suddenly at the height of his career his little daughter is felled by polio and that is where the picture goes sentimental. The young Band Leader puts aside his career and you see where he actually throws his trumpet into San Francisco Bay. He gets a job in a shipyard so as he can be right near to help his little girl back to health. It is most interesting to see all the efforts of the young to see all the efforts of the young couple working together for the uplift of their only child. Their patience is rewarded as the child fights its way to victory over that dreaded desease of Polio. His little girl then begs her father to again buy a trumpet and start anew. All ends happily especially when the child comes forward without aid to meet her father ward without aid to meet her father on the stage. I am sure you will like this Movie from start to finish. NEWSPAPERS AND TV

Last year was a very bad year in the U.S. automobile industry. Sales were far under both past and anticipated levels. There was but one exception-American Motors, with its Rambler car, whose sales zoomed an astonishing 80%.

So something reported by Editor & Publisher in a late issue is of great

world for their advertising medium. But American Motors, in setting its 1958 record, spent more than twothirds of its \$6 million advertising budget in newspapers, and absolutely nothing on TV.

The other makes all spent large parts of their ad budgets on TV. Editor & Publisher says: "It will

be argued, of course, that 1958 was an unusual year, that too many other factors enter into automobile sales, and that these figures are meaningless. We disagree.

"It seems to us that the coincidence -the manufacturer placing the largest percentage of his advertising appropriation in television and having the largest percentage drop in sales together with the fact that the only manufacturer who spent no money in TV but had the only increase in sales-is too great to ignore."

TV is a great medium but nothing can supplant the newspaper.

-Industrial News Review EISENHOWER'S ADVICE

TO YOUTH

Eleven years ago, General Eisenhower, then president of Columbia University, found himself swamped with appeals from young people for advice on whether to stay in school or to get a job and come to grips at once with the realities of life.

Thus, to declare himself to all young America, the General wrote "An Open Letter to America's Students", which appeared in the October 1948 issue of Reader's Digest. Recently, former President Herbert P. Mitchell, in his self-appointed role and so it appears in the September strike found a whole mess of facts -1959 issue as the nation's youth again and had them neatly incorporated infaces this perennial problem - at least for another year.

PRAYERS, NOT CHEERS

Nikita Khruschev's 12 day itinerary in the US appears already to have been worked out in considerable detail - with official Washington taking the brunt of it and the only other cities to be infected being New York, Pittsburgh, Los Angeles and San Francisco. The Soviets themselves have turned down more elaborate and extensive inspection of the nation for the fairly obvious reason that they do not wish to be obligated to show President Eisenhower very much of the "people's paradise".

And yet . . there are those who nope that a mighty public protest against the visit may still cause its 'indefinite postponement", plus vague reports from behind the Iron Curtain that Red forces are opposed to the exchange of visits and may persuade Khrush to stay home.

More realistic, perhaps, is the thinkng and planning of Admiral Ben Moreell, USN (Ret), who, as chairman of Americans for Constitutional Action, is urging that the blight of the Khruschev visit be offset by

In a letter to churchmen, Admiral Moreell reported that he had invited members of 19 patriotic organizations representing ten million Americans to discuss with them "an appropriate posture" regarding the Khrushchev visit.

"There was general agreement," The television people claim the he wrote, "that . . since we are a people whose trust is in God, . . the moral implications of the visit far outweigh all the others.

"The question arises then whether, by inviting this visitor to our shores, we give implied moral sanction to his past record and . . whether, by our action, we endorse the extreme cruelties visited by the Soviet Union on enslaved peoples . .

"In light of these thoughts, there was general concensus that, while we should refrain from any demonstrations of hostility, it would be right and proper that Mr. Khrushchev's arrival . . be set aside as a day of prayer in all the churches of the land. . . In like manner, special church services should be conducted in each city on the day of Mr. Khruschev's visit."

Swift approval of the Moreell Plan came from Evangelist Billy Graham who said: "I heartily endorse Admiral Moreell's proposal that Premier Khruschhev's day of arrival should occasion a day of prayer on the part of the Nation. . . May this be an occasion that we conform our national life with our usual boast that God is our trust."

And finally, may those who love heir country and detest the things Khrush stands for, do their very best to see that this ogre is paraded through empty streets.

VOICE FROM CARROLL COUNTY

It was almost like a county fair in Union Bridge Saturday, August 22, when the personal property of the late Dr. Stouffer was sold at public auction. The sale began at 9 a. m. and lasted until 6 p m. During that time there was no break in the bidding as two auctioneers, Roop and kept up a continuous call for bids and more bids. The crowd of over 600 responded eagerly and by the bidding indicated that they appreciated the very fine antiques being offered for their selection. Adam's chairs sold for \$47.00 each; a grandfather's clock for \$600.00; a Windsor chair for \$110.00; one dozen daisy and button tumblers for \$52.00 and a shaving stand with mirror for \$37.00. The other articles sold for similar prices. It was not a sale for bargains. The things were beautiful and, old and the buvers appreciated them and were willing to pay for them.

"Water, water everywhere, but not a drop to drink, is a line from the Ancient Mariner which may well be come the wailing cry of every American if we don't learn to conserve water. We have been the most wasteful nation in the world of our natural resources and are just beginning to pay for our folly. Private citizens and industrial plants have taken for granted that our water supply is unlimited and now they find out that it The water table is gradually diminishing and that is why at cer-tain localities digging wells and finding water is so difficult. It is no use blaming anyone thing for this condition for we are all equally guilty of using too much water. Just doing the American laundry takes a staggering amount of water plus

Mr. and Mrs. John Frock visited went out with the old tin tub. If the went out with the old tin tub. If the amount of rainfall nature bestows on mother earth continues to diminish it may well be necessary to forego some of the pleasures we now enjoy with water. Unless we can tap the sea as a source of water our increasing population will force us on a water ration quicker than we believe now. History shows that some cities in the past were completely evac-uated and lost for lack of water. History could very easily repeat itself

in the 20th century.

Tourists use to come to Gettysburg to see the battlefields. Then they came to see Ike, but now they come to see Charley Weaver of T.V. fame. Two weeks ago we took some guests of ours to visit the famous landmarks of the battlefields and ran into the largest group of tourists we have ever seen in Gettysburg. Nearly all of them were heading for Charley's museum to see Charley. But he wasn't there and one irate tourist was quite noisy with indignation. He said: "And to think I came all the way from Georgia just to see Charley and he isn't even here". In case you haven't been to Charley's place yet, it is an opinion that it looks exactly like Charley. An old building too well kept with a wistful about its windows and a doorway that needs a good scrubbing with Lestoil. Inside one room is devoted to the usual cheap souvenirs while the other room houses Charley's soldiers which are really works of art. How long the museum continues to attract tourists depends upon the continued popularity of Charley Weaver on television. Knowing how fickle the public is the attraction may fade by next

A missionary was hurrying along a jungle trail in Africa when rounding a bend he came face to face with a lion. Thinking his last moment had arrived, the missionary sank to his knees and started to pray. He was surprised but pleased when the lion got down on his knees and prayed too. "Oh, lion" he said, "just a minute ago I thought you were going to eat me, but now we are praying together. "Shut up" growled the lion,

'I'm saying grace" To those who have decided that the American people do not understand how desperate these times are, the answer may be that death hanging in the balance they trust their experience. They have never seen yesterday win over tomorrow. They be-lieve history is on their side and that they are on the side of the future.

From where we are sitting now we can see the new Francis Scott Key It is an impressive building and it costs a million dollars. It's purpose is to educate young boys and girls so that they will be equipped to meet the challenge of the space age. Whether this will be done is not the duty of the building but is rather the primary objective of teachers and pupils working together harmoniously and diligently. A senior high school student should put aside his childish habits and work hard for an education, for although its free to him, it costs the taxpayers a goodly sum. The teacher must bear the responsibility of doing her best work and seeing that each student is encouraged to do his best work. The Francis Scott Key must build a reputation. It is new, without tradition or precedent to go on. Beginning this year the teachers and pupils will give it its standards. We hope they will set them high in both a scholastic rating and a discipline rating. The eyes of the county are on this school. It bears a proud and honored name. Let

neither student nor teacher debase it. The Rockefeller-Rasmussen wedding had all the world interested because it had all the makings of a fairy-tale story. And like the story we hope they live happily forever after.

August was the month the rains ame down and they came down to the tune of over ten inches around Uniontown. But rainfall for the calendar year is way below normal. be exact 12 inches below normal. So between now and December we must get a lot of rain or snow to bring our

supply up to average.

The prospect for some kind of zoning law has been given a boost with the revival of the Carroll zoning commission. Sentiment in Carroll is growing for some restriction on building on a hit and miss basis. Educating the people on the need for zoning is under way by various groups and the effect of their spade work will event-ually be felt by the commission. Keep Carroll County beautiful by wise planning .- Ruth Roelke.

CARD OF THANKS

I wish to thank my neighbors and friends for the cards, letters, flowers, visits and many kindnesses shown me during my recovery from the unfortunate accident. Every kindness and especially Mrs. Ritter's untiring care of my garden, was especially appreicated.

"SPICE 'N' EVERYTHING NICE"

(Continued from first page) course there was Armstrong himself right there!

How nice it was to hear from a man named "Nixon" keeping his promise to send to me upon his return from Russia all of his speeches! Betcha in 1960 the two Mates to be running will be Nixon and Stevenson

Seeing the Orioles lose to Washington with the score of 7-3 was shocking for the audience. The game was not a bit exciting as those previous I attended.

A sweet little boy of about 9 right there had his arm in a sling and somehow we struck up an interesting conversation starting with—"Did you break your arm." I asked. He looked at me with gratitude in his voice and said, "No, it is'nt broken but the ligaments are torn." "Well!" said I, "Sometimes that is more severe as to pain than a broken bone as I had the same thing happen to my leg a few years ago!" We talked on and on about things and when it was time for me to leave he surprised me with this, "It was so nice meeting you and I hope I see you again sometime! It is wonderful tohear a beautifully mannered child these days. What say

The Public surely is going mad about those "Lucky Bucks" in the Baltimore News-Post and in the downtown sections that paper is sold out quickly.

Here's to the many inquiries about the "Virgo" sign—from Aug. 20 to Sept. 20. People born under this sign as a rule are marked by several very distinct characteristics and tendencies. Perhaps the most prominent of these are their orderly and methodical tastes and habits. They are naturally neat, precise, accurate and discriminating and this natural tendency is manifested in various phases of their character. Mercury is the ruling planet of this sign which gives these people much wit and ingenious minds. They are fond of poetry, music and mathe matics and take great delight in the study of chemistry and the sciences. These people are graceful and charming and usually have well proportioned figures. Their complexion is excellent and the skin texture so fine that they choose and their cosmetics. They nevmust be very careful in the soaps they when mated properly are delightful companions. They delight in giving council to their friends. They ale always most refined and genteel. In fact have a most retiring manner. There are so many fine things about the Virgo born vet there is one thing of which they must be careful and that of being rather tight-stingy in other words but they can easily overcome this. Usually they are not friendly with a member or two of their family. They are extremely sensitive which they must learn to overcome. Many times they have a secret in their lives.

"Viewing Holiday on Ice"! -Being one of the first nighters at the Stadium and sitting up in the "Bleachers' was one experience I never will forget and also those who attended with me. First of all through delay of the scenery, the show did not start until almost 10 o'clock! The audience became restless and of course impatient and then started Boo-ing with stamping feet and that certain kind of clapping of hands which meant, "When will it start?" Frankly, I could not praise that show one bit for it is nothing to compare to the grand, "Ice Capades" I predicted as soon as I saw the ice that there would be many falls and sure nuff! The opening number was the only one which was quite glamorous with the accent on "Ice' so if you missed it, Folks just wait until the Mr. Harris Show comes of "ICE CAPADES!" Truly there is no comparison. See you next week D.V. Have a grand week end. Until then.

Pen-Mar League **Arranges Games**

The Pen-Mar Sandlot Baseball League set up plans to straighten out its Shaughnessy playoff align-ment during a meeting of team rep-

resentatives last night at the Emmits-burg VFW home.

Two games were programmed for Sunday afternoon, Fairfield facing Hanover's Eagles at Willow Beach, and Blue Ridge Summit tackling Taneytown at Memorial Park, Taney-

Fairfield and Hanover are battling for runnerup honors. If the Eagles win Sunday, they will nail down sec-ond. Should Fairfield emerge victorious, the same teams tangle again Sept. 6, at Fairfield.
Fourth place is at stake in the Blue

Ridge-Taneytown tussle. By winning Sunday, the Summitteers would gain a playoff berth. A Taneytown triumph would force a second meeting Sept. 6, at Blue Ridge.

Taneytown, apparently out of the Shaughnessy picture, got its second chance when league officials announced that a 6-2 decision scored by Blue Ridge at the expense of Boonsboro, Aug. 16 has been declared a forfeit because the Summit nine used an ineligible player. The revised Standings:

Emmanuel's United Church of Christ News

The Women's Guild and Men's Brotherhood held their monthly meeting at the home of Rev. Ed Hamme, Union Mills, Maryland Sunday evening, Aug. 16. About 50 people were present. A program was enjoyed on the lawn. The subject was "Health". Mr. Atlee Wampler had been secured as the speaker. He spoke on the Carroll County Hospital. Following the program, refreshments were enjoyed.

On Saturday, August 16, the Youth Fellowship chartered a bus and took a trip to the Gettysburg Battlefield. About 35 young people and adults made the trip. The battlefield was toured and places of interest visited.

The Consistory of Emmanuel's Unit-ed Church of Christ will meet on Tuesday, September 1 at 8 p. m. in the parsonage. The Aid Society neet at the same time in the Parish House.

Carroll County's Largest Supermarket Opens in Westminster Aug. 31

On Monday, August 31st, West-minster will boast the largest super-market in Carroll County when the new CO-OP opens its doors at Englar Road on U.S. Route 140 in the Westminster Shoping Center.

Up-to-the-minute in every respect, the new CO-OP Supermarket has a selling area of almost 12,000 sq. ft. tripling the size of its former store at

8 Locust Street.
Features of the air-conditioned store emphasize convenience and comfort in shopping. These include "Magic Carpet" doors; a waiting lounge; a separate rest-room for patrons; and wide (11 ft.), uncluttered aisles. The self-service meat department is backed by a "look-in" meat work room so that the entire meat-cutting and wrapping operation is within view of the customers. The extensive meat, fresh produce, and frozen foods departments - largest in the County and larger than most city stores will offer a variety of choice never before available in the area.

Time-saving "one-stop" shopping is made possible by the addition of a complete "Variety Department" which will include everything from yard goods and ready-to-wear to hardware and heapty and toilst supplies ware and beauty and toilet supplies.

A parcel pick-up system enables customers to drive past the store and have their purchases loaded into their car for them. For added conveneince. a trained hostess will be on hand during the opening few weeks to greet and assist patrons and to help them 'know" the store.

The Westminster CO-OP is 20 years old. Started in the home of one of its founders, Mrs. Ruth Rinehart, it has since moved four times to keep pace with its growth. In 1956, the Westminster society affiliated with Greenbelt Consumer Services of Greenbelt, Md., a consumer cooperative operating 8 shopping centers in Maryland and Virginia. S. L. Hoke, a well known Carroll County agricultural leader, serves on the Board of Directors of G. C. S., and John J. Bixler heads the Westminster delegation to the GCS CO-OP Congress. Paul T. Fritz, chairman of the Westhas since moved four times to keep Paul T. Fritz, chairman of the Westminster CO-OP's Promotion Committee, was in charge of the activitie introducing the new operation to the community.

The Westminster CO-OP is owne and controlled by its more than 1000 rural and urban members. Membership is open, and "anyone can shop CO-OP".

The store will be managed by John Brown, a long time Westminster resident who has been manager of the present Westminster CO-OP and who successfully managed Puerto Rico's first CO-OP — pjart of that Island's outstanding selfhelp program. His assistant is Richard Yingling, a lifelong Carroll County resident.

LETTER TO THE EDITOR

Dear Editor. There is still a chance that public indignation may force the Khrushchev visit to be "postponed indefinitely".
Or, if it can't be stopped, that, as Admiral Ben Moreell had suggested.
we set aside the day of K's arrival as "a day of prayer in all the churches of the land", and that local citizens do likewise again during the churches do likewise again during the visit of this monster in any American city. Still another suggestion comes from Herbert (I lived Three Lives) Phil-brick who says: "The streets along

the route of the Khrushchev tour should be completely abandoned. Buildings, if draped at all, should be draped in black."

We would like especially to quote from the open letter to President is being circulated. From the open letter to resident Eisenhower, that is being circulated for public signature by the Committee Against Summit Entanglements of which Robert Welch, Belmont 78, Mass., is chairman. The letter very generously suggests that Ike could

not have known:

About "the unrivalled blood-letting of Nikita Khrushchev . . The 95 mass graves at Vinnitsa, containing nearly 10,000 corpses of fully-dressed victims - many of whom, both men and women, are shown by the evidence to have been alive and gasping for breath when they were buried - is merely a typical example of the horrible fate which Khrushchev inflicted on literally millions of residents of

order which sent Soviet tanks, manned by Mongolian crews, rolling into Budapest to crush the Hungarian fighters for freedom." Or that: "In Khrushchev's case it seems entirely probable that the piles of corpses due directly to his personal orders were larger than for any other human being (if he can be called one) who ever lived. Nikita Khrushchev almost certainthe title of the archmurderer of all recorded history."
But the letter contends that "it is but the letter contends that bumenity for our holds the record, and deserves

a crime against humanity for our Government to receive Nikita Khrushchev as an honored guest . . it is inexcusable for our Government to give Khrushchev the undeserved prestige and the propaganda triumph of

President of the United States. ...
"There is no possible question but that the royal reception planned for him by our Government will, at this stage of the struggle, give immense aid and comfort to the most vicious and most danger ous enemies our country has ever faced. And the Constitution of the US, Article III, Section 3, defines the giving of aid and comfort to our enemies as treason. There is no other word to describe the actions of those who, behind the scenes, are pushing you into the course which has been announced."

These brief excerpts, out of two solid pages, will indicate why the letter prays that the President will reconsider his invitation - and should indicate why millions of citizens will want to sign it and send it to him.

It is a very moving letter and we hope someone in the Palace Guard allows the President to see it - even to know how many signers there are And we hope millions of others write their own letters saying, in their own words: "Don't let that red-handed thug in our country.'

GET EXPERIENCE-

God saw ages ago what inexperience will do-(For that reason He requires experience of you); So, unless a man has had it, some writers say, He should not advise others to do things his way.

Experience is one thing which God requires—
(It seems to stand first among His desires);
That is why He sends us back birth after birth— We must be made perfect here on earth.

If you have had experience, the right thing to do, Is for those you admonish to listen to you; But, the average fellow goes his own way, In spite of what his elders have to say.

The prodigal son, in the Bible, proved what I say;
He packed his trunk, and; went far away;
Far off fields, they tell us, to him looked green;
But all of the cattle he saw were lean.

And, that is the experience of many in our day; Until we learn the truth, we go the wrong way; The "rounders" all seem to think they know best; But, one cannot go east by walking west.

God sent Jesus as a Baby to teach us His plan To make a perfect woman and a perfect man; Jesus, too, said to all peoples: "I am the way"; So, follow Him, and do as the Scriptures say.

We have many examples in this modern day Which show what happens when we go our own way; Jesus told about the "Prodigal Son", they say, To show what happens when we go our way.

Experience is the guardian angel of every race—
(It points to the pitfalls in every place!);
Those who have had it all seem to know Just how to do, and, the right way, to go.

So, take my advice; and, do it to-day;
Always listen to others as you go your way;
Advice costs us nothing; but, sometimes, they say,
To a long happy life, it opens the way.

God also sent Jesus as a pattern to let us all know Just how to live and the right way to go; So listen to Him, do as the Scriptures say— Jesus said to all peoples: "I am the way".

Just how to do, or how to go; So, listen to others; and follow God's plan To make of you what God calls a man.

This poem is short; but, it shows the way God wants us to do on earth each day; God wants us all here to learn of His plan To make the whole earth a heaven for man.

So, get experience—(there is no other way By which to be a leader in our day); We all come here to learn God's way; And, to put in practice what the Scriptures say.

God has planted sign posts along the way To show how we must go to-day; That, they tell us, is His plan To make a perfect earth, woman and man.

If I had more space, I would like to tell About some who came here to dwell; God sends us all here like Him to learn to be For, through us, He shall reign in eternity.

How many dreams will 43 billion dollars buy?

As of today, on the 18th Anniversary of U. S. Savings Bonds, Americans have more money tucked away in U. S. Saving's Bonds than ever before in history.

43 BILLION DOLLARS' WORTH

There are people who look at this simply as one huge block of money. Others think of it in terms of belief in America—nearly 43 billion dollars' worth. Still others see a neat row of figures on a page, adding up to eleven figures at the bottom.

But we like to think of it in terms of dreams...

Thanks to Bonds, a mother's dream of medical school for her son is coming true in New York. A young couple has the down payment for a home in Minnesota. A farmer is ready to buy more land in Colorado. A girl is becoming a nurse in Alabama. There's a new car in a family's garage out in Montana. A retired Indiana couple is planning to go South. A salesman in California is starting his own busi-

These are just a few of the nearly 43 billion dollars' worth of dreams wrapped up in U.S. Savings Bonds today. Dreams coming true because someone wanted them enough to buy -and hang on to-Bonds.

What's your dream?

What do you want, that's so important you're willing to work and save for it? Whatever you want, you'll find there is no safer, easier way to save for it than by buying U.S. Savings Bonds.

Buy them automatically, through Payroll Savings. You'll be surprised how fast they add up!

Buy them regularly at your bank. (Nice thing about Bonds: you can buy them wherever you are-cash them at any bank.)

An investment in dreams - and security, too.

So many of our dreams depend on peace, it's good to know every dollar you put into Bonds helps strengthen America's Peace Power. Peace costs money: for military and industrial strength to keep the peace; science and education to help make peace lasting; and economic strength to keep our country sound. So-the dollars you save help make your dreams come true . . . while they help protect your family's future!

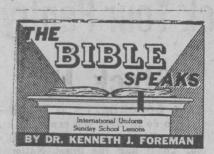

What are your dreams?

Was there ever a better time to start doing something about them? Or a sounder, surer way to do it?

Help Strengthen America's Peace Power

God for Everyone

Lesson for August 30, 1959

THERE IS A serious mistake into which most religions fall, and even Christian people have been known to fall into the trap. It is the mistake of fancying that religion is so difficult, or so sacred, or so something-or-other, that it can't be left to the common man.

Religion is for spiritual aristocrats, religion is for the very few, religion is for professional religionists. It is for a sort of Religious Union, and people who want have to deal with the Union Dr. Foreman

or they dont get it. The Bible gives no sort of comfort or support to this twaddle. The Bible teaches, both directly and indirectly, from end to end, that religion is for everybody. No one has a copyright on it, no one and no union has a right to build a fence around it and charge admission. Religion is absolutely just as much the concern of the man in

the street as it is of the man be-

hind the stained glass. **Everybody Needs God**

The Protestant form of the Christian religion, being based directly on the Bible, high-lights a doctrine called "the priesthood of all believers." For many Protestants today this expression has very little meaning. They don't know much about priests and they don't want to know more. And the last thing they want is to be priests. But still it is an important doctrine. Because once you forget it, you are all set to slip back into leaving religion to the preacher, or to your grandmother, or to old people and children, or to religious specialists of some kind.

The Bible on the other hand teaches that true religion is for everybody on the same basis. There are three important points here One: Everybody needs God. The

prophet Joel saw this, so did all the prophets. The same disasters, the same temptations, the same troubles and trials, the same hopes and disappointments, come in varied forms to be sure, but at the center of life there are always these needs and troubles.

Where is the Road to God?

We were thinking last week about refugees. Literally millions of them dream of just one thing: a passport. A passport to some where, anywhere awas from the bloody prison that their old country has become. All the refugees in one barracks may need passports; but not all can get them. Is religion like this? It is true, all men need God. But suppose the road to God is barricaded with difficulties and technicalities and requirements without number, like the road to citizenship in a free country? Suppose the road to God has a secret gate? Happily, this is not the case. The road to God is in the heart. "Return to me with all your heart," the prophet Joel says for God; no technicalities, no elaborate ritual or rule-book.

"My Spirit on All"

So-every one needs God; every one can find the road to God, for it is within him, it is the road of the repentant returning heart. But there is a third point equally important, and also a part of this priesthood of all believers." The third point is that God's ideal world, the world he will surely bring to pass, is one in which God's spirit will be poured out on all persons, all humanity (which is what "all flesh" means). In Old Testament times, most good people thought of the Holy Spirit as destined only for the distinguished few. God's Spirit would come to a Moses or a Joshua, to a King like David or a prophet like Samuel. But not, oh never, to the common man or woman. Spirit-filled people were a small and rare company. The rank and file might obey God from a respectful distance. The ordinary believer no more expected his God to live with him than the private expects the general to be sitting next him at chow time. The New Testament shows a different picture: the prophecy of Joel is being fulfilled. "Spiritual" people in God's church and kingdom, are not a tight little elite. Every one whose heart's prayer is "Come, O Holy Spirit," will be the Spirit's

BUILD A BRIGHTER FUTURE WITH U.S. SAVINGS BONDS

Will your kids be able to go to college? If they make the grades, will you have the money? How can you make sure you can finance their education? One of the best ways is through U.S. Savings Bonds. Bought regularly, through the Payroll Savings Plan where you work, or from your bank, your Bonds will add up in a hurry. And while they're earning interest for you, you'll have the security of knowing that there's absolutely no safer way to save. Unlike cash, if your Bonds should be lost or destroyed, the Treasury replaces them free. So why not let U.S. Savings Bonds start working now to help you put your kids through college?

According to Webster's Dictionary, the word

"emergency" means "an unforeseen combination of circumstances which calls for immediate action." And if the emergency is a traffic accident, or a fire, or an illness in the family, sometimes the "immediate action" means money. Are you ready to face such emergencies? You can be —if you buy U. S. Savings Bonds regularly. Bonds are actually money that's available when you need it, because you can cash them at any bank. And, of course, while you're buying Bonds, they're earning interest for you, increasing their value each year. Buy Savings Bonds-buy them regularly.

There's no feeling quite like a feeling of security. That's the reason over 40 million Americans own U. S. Savings Bonds. They know that cash value of Bonds can't drop; it can only grow. (The U.S. Government guarantees it.) They know that every Bond they buy increases their security. Chances are, if you start buying Bonds regularly now, you'll have a tidy nest egg by the time retirement rolls around. Why not check into Bonds today, with a Payroll Savings Plan representative where you work, or at your bank?

"I could have gotten in on that," the fellow said, referring to a big business success, "but I didn't have the ready cash." Most of us have heard that statement at one time or another. Maybe you've even made it yourself. If so, you know that ready cash can be a tremendous help in getting ahead in this world of ours. Where to get it? One good way is to start buying—and holding on to -U. S. Savings Bonds. Just put a small amount away toward a Bond every payday-and you'll be amazed how fast your money mounts up. (Remember, your Bonds are earning interest for you, too.) And when opportunity knocks, your Bonds

will help you open the

A red-letter day in any family's life is the day they move into a new home. And no wonder-with a workshop for Dad, a bright, new kitchen for Mom, a big back yard for the kids—a new home is truly a part of the American dream. It's a dream you can help along by buying U. S. Savings Bonds. Because Bonds are just about the easiest way to save ever devised. Buy them automatically, through the Payroll Savings Plan; or where you bank; or through Savings Stamps (even the kids can help out this way, at school). The important thing is to keep buying Bond s- and hang on to them. They help make dreams come true.

A Motor Trip Across North Carolina and Virginia Into West Virginia and Maryland

Vacations are wonderful, but oh, the return home! Frequently, it has off Route 15 on Hardman Farm, on been said, returning home is the nicest SAT. SEPT. 5 part of a vacation.

For a week Eloise (my wife) and I motored through North Carolina and Virginia, and into West Virginia and Maryland. Some of the more important places visited were Mt. Airy, N. C., Harrisonburg and Winchester, tant places visited were Mt. Airy, N. C., Harrisonburg and Winchester, Va., Harpers Ferry, W. Va., and Frederick, Maryland. We put-up at motels in Mt. Airy, Gay Lee (in the Shenandoah Valley), Harrisonburg, and near Warrenton, Va. In the main rates were reasonable, accommodations splendid, and services very good. The weather was perfect; motels numerous. Tourists were from many states, and ours was not the only car hear. and ours was not the only car bearing North Carolina tag. Traffic was very heavy. New roads are under construction, and many old roads are under repair. Yet all this did not delay us on our journey. A few school lay us on our journey. A few school
