and interesting meetings for young people of the church.

A panel consisting of Mr. Herbert Staley, Frederick; Mrs. Ellsworth Lambert, Taneytown; and Miss Sharon Young, Hagerstown; with Mr. Roderick Wagner, Frederick, as Mod-erator, discussed the subject, "A Vital Youth Meeting." Much discussion and nany questions followed. A mock business meeting and an imaginative worship program were presented afterwhich a sharing session took place. Mr. Dave Ridenour, Hagerstown, a member of the National Coordinating Youth Council, led the dis-cussion on "Essentials of a Business Meeting," while Miss Lois Koppelman, Hagerstown, presided over the 'Devotions" discussion. Following the business meeting

presided over by the president, Miss Sue Eyster, Frederick, during which time a newsletter for sharing time thoughts and high-lights and ideas was discussed, Potomac Synod Slides, "This Is Your Synod," were shown with Paul Andreas, projectionist, as-sisted by Victor Welty while Joyce Yeager read the script, were shown. These were most revealing and quite informative to the young element of the church.

The closing worship, held in the sanctuary, under the leadership of the Rev. Mr. Robert Welsh, Hagerstown, was a recommitment worship town, was a recommitment worship as the youths were inspired to red-dicate their hearts and efforts to the challenge that even though "they challenge that even though "they said, 'it couldn't be done'," youth has done it in making for itself a more interesting and gripping program in the church as youths have found that the church has a place for them and they need the church. Mrs. Romaine Motter served as the organist and pianist of the day.

Refreshments were served by the host church in the dining room under the direction of Mrs. Harry Clingan and Mrs. Marian Rue.

Vicki Lambert and Mrs. Ralph Stonesifer, Taneytown, are secretary and adult advisor, respectively, of the Regional Youth Fellowship.

Here is a little inter-esting story of my own which you may like to know. My wedding ring has been used for three generations. My Grandmother, My Mother and for me. It was a very wide band (as you may realize) and very heavy and a very fine Jeweler on Charles Street by the name of Horvat (who has since passed away) cut it in twosince passed away) cut it in two-covering one with Platinum and the other into the plain yellow narrow band and yet I did not like my hus-band to wear or that added to the ceremony for him. Somehow, I just gaze upon it now and then as it is just as a new one in the little original box in which Mr. Horvat placed it! There is much sentiment attached to it which you may realize. Your Observer. Dear Observer:- I am engaged to

one of the finest young men and have no engagement ring as we desired to save every cent toward our home which is being built and we have selected all the furniture for it and we are paying for it which will be all cleared by the time we are to be mar-ried. Many girls whom I know are ried. Many girls whom I know can-not understand about the ring and I get tired of telling people when they ask me. Why is it that so many think ask me. Why is it that so many think you just can't be engaged if you do not have a ring? Of course, like any other girl I would have liked to have a ring but I prefer the planning of what we are doing right now. How in the world can I keep those tongues from wagging? Gratefully. B.L.D. Dear B.L.D. All I can say to you is this you both have very level heads Dear B.L.D. All I can say to you is this-you both have very level heads and I think and know your marriage will last and last and last! Getting a substantial man, a home and all the furniture complete is wonderful these days. You can always purchase a diamond ring later on and think of the thrill then when you know you can afford it. Good luck! And always ignore any type of gossip. In the end you and this fine young man will laugh last and I think you know just what I mean. Your Observer. Time magazine poses some cogent questions concerning the Khruscchev visit: "Is he seeking a genuine thaw in the cold war that might lead to forms of peace? Is he seeking an American acceptance of the status quo of Communist conquests, a softening-up of American will? Is he trying to shore up his own status in Communism's labyrinthine society, and if so against whom-against an aggressive Communist China, against restless captive peoples, against hostile Kremlin cliques? Is the sum of Khrushchev's intentions that he means to show that his is the face of the future?"

# IS MOTHER'S DAY

#### (AND DOES SHE HATE IT!)

Yes, Monday is Mother's Day ... Every Monday, Mother knows that it's *her* day to do the family laundry ... and does she hate it!

Well, does she hate it in your home?

She won't if she knows that the family's clothes will be washed without her having to slop around in dirty water!

Take away this mess and you take the "blues" out of washday for Mom. An *automatic* electric washer *does* take the mess and work out of washdays, you know.

Mother just pops the clothes into the machine, sets one dial and then just "sets."

All the dirty clothes are soon fresh and clean and Mother has found extra time to be with her family.

Go on, turn Mondays into fun days for Mother ... Take another step into the All-Electric Future and get an automatic washer from your local electric appliance dealer or the

THE CARBOLL RECORD. TANEYTOWN, MARYLAND

# TO ALL DAIRY FARMERS

Recently there appeared, in a number of county papers, an advertisement designed to split dairy farmers into two camps—those for and those against a Federal Milk Marketing Order.

The Maryland Cooperative Milk Producers Inc., an organization which has represented milk producers shipping to Baltimore since 1919 (the Maryland State Dairymen's Association prior to 1935) requested the Federal Milk Marketing Order.

It did so to stabilize a chaotic situation in the Baltimore milk market.

Chaos was brought about by dealers persuading producers to sell their milk "on the blend" or below the Cooperative's Class 1 price. Had all dairy farmers demanded and received the Class 1 price set by the MCMP, producers income would have remained at the 1956 level—and a Federal Order, which fixes a minimum Class 1 price for all dealers would not have been necessary.

#### THE ADVERTISEMENT REPORTED:

The statement "The recommended Order will cost us 5c per cwt. out of our present checks just to pay for administration of the order."

THE FACT: Milk dealers are assessed full cost of administration. The 5c per cwt. is assessed on producers not receiving weights and butterfat tests and market information from a qualified Cooperative. This 5c pays for such services. MCMP supplies these to its members, who will have no such payment. The statement "The recommended Order provides for market-wide Pooling. Why should Pennsylvania *Prducers* be allowed to lower our blend prices whenever it's to their advantage to do so?"

- Kimme - & with

THE FACT: MCMP market-wide pool already carries milk reserve. The Order will stop dealers now pocketing the difference between the blend and Class 1—no matter where producers live—Pennsylvania, or Minnesota.

The statement "The recommended Order ties us to Philadelphia, New York and Chicago pricing. Because of their excess surplus, this has to lower our prices, unless we have an individual handler pool."

THE FACT: Only Class 1 prices are tied to Class 1 prices in Philadelphia, New York and Chicago. Surplus in those markets and individual-handler pool has nothing to do with that part of the Order.

The statement "The Maryland Cooperative Milk Producers, Inc. in their exceptions to the recommended Order has asked for provisions for new producers in the area. DON'T WE HAVE ENOUGH SURPLUS ALREADY?"

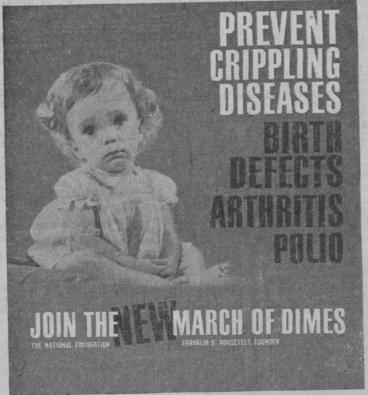

THE FACT: An Order cannot stop new producers from coming into the market. The MCMP's exception seeks only to clarify a recommended Order omission in providing a fair admission of such producers.

The statement "We have asked the COOP for a list of their shippers but they have refused to submit such a list. What is the COOP trying to hide?"

Mary Beth Py-on, 2, daughter of Mr. and Mrs. James T. Pyron of Florence, Ala., has just been chosen national poster girl for the New March of Dimes 1960 campaign in January. Her picture will appear on millions of posters (above), canisters and coin collectors in every town and village of the country, symbolizing the New March of Dimes attack on crippling birth defects, arthritis and polio, diseases that affect one in every four U. S. families. Mary Beth was born with an open spine and water on the brain. Medical science knows no way of helping her. Hope lies in scientific research supported by the New March of Dimes. Mary Beth is a sunny, affectionate child and loves to ride her new walking horse (left). Her brother Tommy, 4, is a normal child. The statement "The recommended Order will eliminate all can shippers—everyone will be forced to go to bulk tank shipments."

THE FACT: MCMP will continue to market can milk. Order minimum prices apply to can and tank milk without distinction.

#### **God First** Lesson for November 8, 1959

"WE MUST OBEY God rather W than men." So said the Apostles long ago. It is one of the famed quotations from the Bible Is this just something from "Bible

times" or does it mean something today? "In God We Trust" is a motto

everybody has seen on his money. But how many

people do trust in God more than in money? They say that the difference between North and South America is that the Europeans who came to

settle South America came to Dr. Foreman

find gold, but those who came to North America came to find God. Is this true? And if it is, could you guess it from what North Americans spend their time running after?

#### What Kind of Gou?.

"Everybody talkin' about heaven ain't goin' there," an old "spiritual" sings. You might add, "Everybody talkin' about God aln't his real friend." With better grammar we might say that there is a lot of talk about God, in magazines and clubs and newspapers and even in the church, that is no more than talk. It does not go deep and it means very little. But even when it does go deep and mean something, does it mean the right thing? We don't want to be pessimistic about this. We don't mean to accuse the whole population of being hypocrites. Nevertheless there is an appalling lot of loose talk (set to music sometimes) about God. "GOD FIRST" is a noble motto. A God who is not first is no God. But "God first" is noble only if it means the right kind of God—or in other words the true God, for the true God is the only right kind of God there is.

Therefore all wrong kinds of God are actually no gods at all,

only make-believe images carves out in the minds of mistaken people. For instance, if people sing about "the Man upstairs," they may think they are singing about God, but they are not. God is not a man, not even an enormous, skyfilling man.

The true test of a good homemaker hides behind her closet doors, and it's a wise housewife who fits regular closet-cleaning into her cleaning schedule. Stem-to-stern closet-cleaning is a sem.-annual chore, done most conveniently at the change of seasons. Now that summer clothes are being put away, and fall and winter clothes being brought into circulation, a complete closet overhauling is in order. Here are tips to make the job easier, from the Singer Vacuum Cleaner Research Division. First gather together all your equip-ment: your Golden Glide vacuum cleaner with its attachments, sponges and cleaning cloths, and a bucket of water with detergent. Then remove all clothes stored in garment bags, and vacuum bags thoroughly. Use the dusting brush for all flat surfaces, and the crevice tool for corners. Sponge bag and hang it to dry. Then

heart puts first, that is God for. him. Religious people sing, "Praise God from whom all blessings flow." But if we may judge people's true opinions by their actions, we may have to conclude that some people, if they were absolutely frank about it, would prefer another doxology. They would have a revised version. It would be "Praise Wealth from which all blessings flow." Not only wealth, but public opinion, security, power, success (measured by height of tailfins and horsepower in the motor) may likewise be as God to those who expect all blessing from such things. Now a doll is perfectly harmless, indeed it may be a pretty toy, so long as it is only a doll. But if some one gets hold of a doll and sets it up as a god and prays to it, that is idolatry and it is bad. So wealth and success and security are good things; it is when they are set up as rivals to the true God that they become symbols of sin.

#### Loyalty Oath

We hear a good deal about loy-alty oaths. The fact is, every one who is a professed Christian has made a public vow of loyalty to God, when he has taken his stand as a member of the church of God. Now what? If that is the end of it, if he is seldom if ever seen in the church again, if he can never be counted on to share in any good work, if he cannot spare even a tenth of his income for the Kingdom of God, then what did his loyalty oath amount to? This is Temperance Sunday, and the essence of temperance, of the Christian sort, is living with consideration for others, not selfishly for your own comforts. A church 'member" who habitually spends on luxuries (whether liquor or whatever) for himself, what he might be sharing for the help of the needy (in mind, body and spirit) through all the world, is a member in name only. If we really mean "God First," we mean we intend to obey God first. To live for oneself alone shows that God is, after all, a stranger.

the crevice tool for corners. Sponge bag and hang it to dry. Then remove all other items, and dust closet thoroughly. Vacuum floor.

Tendove all other items, and dust closet thoroughly. Vacuum floor. Use damp sponge to go lightly over woodwork. Clean shoeboxes and hatbags with vacuum cleaner attachments. Be sure summer clothes are clean before replacing in closet. With occasional straightening-up-and-clearing out sessions between sea-sons, your closets will show off your homemaking abilities all year round

New Uses For Vacuums

Vacuum cleaner attachments are the most versatile cleaning aids a homemaker can own. If you've been using the upholstery brush just for upholstery, or the floor brush just for floors, you've been missing some good bets.

Here are tips on other uses for your attachments, from the Singer Vacuum Cleaner Research Division:

1. The dusting brush: cleaning ashtrays, fireplaces, machines such as sewing machines and typewriters, phonograph records, books, picture frames, lampshades, telephone dial, leaves of indoor plants, carved surfaces.

2. The crevice nozzle: most often used for cleaning between radiator sections; also useful for cleaning inside toasters, radiator and television sets, handbags, and corners of drawers and cabinets.

3. The upholstery brush: besides upholstery, use it to clean draperies and mattresses, stair carpeting, clothing, hats, hi-fi and stereo speakers, filters of air conditioners, woven reed blinds.

4. Floor-wall brush: use on attic and basement rafters, tapestries, terraces, patios, rug pads.

5. Revolving brush: for any napped surface which accumulates difficult litter such as threads or pet hairs. Use on carpet, clothing, upholstery, or the dog's bed.
