Everyone has probably wanted a pen pal sometime in his life. This year at T.H.S. the students may have as many pen pals as they wish. They are available from many countries around the world. These countries are: Japan, Wales, Canada, Sweden, New Zealand, Scotland, England, Germany, South Africa, India, Greece, Ceylon, Italy, Pakistan, Switzerland, Yugoslavia, Philippines, Hawaii, Latin American countries, Spain, Chile, Cuba, Puerto Rico, France, Belgium, Morocco, Ireland, Austria, Australia, Holland, Finland, Denmark, Iceland, Norway, and Turkey.

In the letters to our pen pals we can tell them about our country and send snap shots of historical and picturesque spots of our United States. Our pals can tell us about their countries. In this way we can develop a better understanding of each other's countries.

A new all-time high in the nation's mail volume was reached during fiscal year 1960 ending June 30, which continued the steady upward trend of the past seven years at a rate exceeding even the population growth, according to advance information from the Annual Report of the Post Office Department which has been made available to Postmaster. Although subject to last minute revisions, the year's total has been estimated as 63.6 billion pieces of mail, which includes about one billion pieces of parcel post. It was stated that this would mean an increase of nearly 25 per cent over the corresponding figures for 1953 when the annual volume was 50.9 billion pieces.

During this same period, it was pointed out, the revenue of the Department also has shown an impressive gain with an increase from \$2,091,714,000 in fiscal year 1953 to \$3,276,800,000 for fiscal year 1960.

"SPICE 'N' EVERYTHING NICE"

With all my heart, I wish you every morning
A smile that shall last until the next day's dawning.
I wish you health—life's greatest blessing,
I wish you always near so that I may help
to cheer
Each future day and in some way—help to
bring you happiness!

Well, Ladies it is truly PURPLE all the way for Fall clothing regardless of the attire, suits, dresses, coats, skirts, shoes, hats and bags! And if you do not want to get real stout do not attempt to eat TV. snacks at any time. And thinking of reducing be most careful just what you take and ask the advise of your M.D. first. A little child of 5 years of age swallowed 4 of her Mother's reducing pills and died! So you see what contents there is in many of those so called reducing pills.

Recently an 85 year old Mother passed away and she did not have any friends. Her daughter was most devoted and supported her widowed Mother. She said to me "Oh, it would be just awful if there were no flowers!" That day came when she was viewed by all of Mary's friends and she appeared as a Queen and as to the flowers—all of Mary's friends sent the most beautiful ones and as to the Mother? Well, she lay there with flowers surrounding and all over the room!

In Woolworth's down town, I noticed a crowd at the candy counter. I went over to investigate and this is what I read—"Pick 'n' mix"—"Guess a pound and get it free"—"If you don't you must pay me!" I saw one lady with a pound! Cute? Now, Stewart's is selling the Diamond-like "Empralite" but I still prefer the ZIRCONS!

Last Sunday morning, I heard my Minister state in his Sermon just this, "The BIBLE is the biggest seller of any book yet it is the least read!"

Last Tuesday morning, it was the Jewish New Year's and so many of the Jewish people remained at home and then went to their Synagogue. As I walked on Lexington street—the atmosphere seemed so sad, gloomy and depressing! Two ladies approached me and said, "What is wrong? So few people are down town and scarcely anyone in the department stores purchasing. It seems as though a War had struck the town! What is it?" I listened as I felt the same way and then replied, "It is the Jewish New Year!" And then as I walked slowly along, I thought of the poem by Longfellow, "AH! WHAT WOULD THIS WORLD BE IF YOU WERE NO MORE—I SHOULD DREAD THE DESERT BEHIND ME WORSE THAN THE DARK BEFORE!"

Well, folks I do hope you did not miss the debate on T.V. of the two men who are running for the great job in the world—THE PRESIDENCY OF THESE UNITED STATES!

First of all, I was so surprised that Kennedy had to be told to stand

FACTS TO PONDER

It is estimated that three million Americans living today would have been dead if the nation's death rate had remained at its 1937 level. Between 1930 and 1958, the death rate was reduced 57 percent for infants under one year of age, 80 percent for children one to four years old, and 71 percent for children aged five to fourteen years. During the years from 1930 to 1934, one of every 157 mothers died in childbirth. From 1954 to 1958, the mortality rate declined to one in every 2,222. Today, many of the medical miracles performed for the ill are but the fulfillment of dreams, the accom-

plishment of ideas, and the realization of the research which occurred in the pharmaceutical industry yesterday. Modern drugs have helped reduce the incidence of complications of infectious conditions, have made possible surgery that could not have been undertaken in earlier years, and have made people happier and more socially effective than ever before. The greatest return from the dollar expenditure for medicine is a life saved, an illness prevented, or intense pain relieved. The most expensive drug in the world is the drug which was NOT available when and where it was needed to save just one life.

A VOICE FROM CARROLL

The United States is noted for its beautiful girls but not for its beautiful women. Just why can a female look lovely in her twenties and not so lovely in her thirties? The answer is simple. Too much fat. Half the women are either on a diet or going on one to lose those extra pounds that cause them to look sloppy, feel depressed and act like a crabby cat. Just why a woman changes from a slim young thing into a baggy old thing almost overnight can easily be explained in three words... boredom, laziness and over-eating. Any woman can keep a normal weight if she has will-power, a zest for living and a job that keeps her busy and interested in things other than food.

A woman should plan her day so that when she tends to feel bored and turns to food to quiet the unrest within her, she makes herself instead go for a walk, write letters or work at a hobby. If she can make herself do this, she has conquered the one thing that puts the most weight on a person. To get a true picture of how American women look to a visitor stand on any small town street corner and watch them on their way to shop or to work. An extra pound they carry around with them makes them look tired and old and by the expression on their face, mad at the whole wide world. This shouldn't happen to the beautiful American girls who start out so breath-taking lovely.

The Carroll County Tuberculosis Association will hold its annual "Kick-off" dinner October 17 in the Agricultural Center, Westminster. The guest speaker will be Dr. Patrick B. Storey, who is a member of the teaching staff at the University of Maryland School of Medicine. An unusual program has been arranged by the committee to interest the volunteer workers in the coming Christmas Seal Sale. Preston G. Coffman is chairman of the Seal sale and will be assisted by the Board members and volunteers.

The Supreme Court began its new term Monday and this session of the Court should be of special interest to all Marylanders. Up before the Justices is the law requiring all officers in Maryland to declare a belief in God. Whether or not this is constitutional will be decided by the Court. We suppose that the purpose behind the Maryland law was the belief that if a person didn't believe in God he wouldn't have much of a conscience and therefore would be a poor risk as a public servant. Opponents of the law think that it is infringing on personal liberties to require a citizen to take such an oath. They point out that most people sitting in our jails profess to believe in God but that didn't keep them from breaking the law. Many people squirm in rebellion when they are asked "Are you a Christian or do you believe in God?" They think its too personal to talk about and deeply resent any probing into this sacred area either by curiosity or by the law. We will await the decision of the Court with interest.

The performance at the United Nations these past two weeks leaves most people shocked and more confused than ever. It takes a great knowledge of history and a degree in political science to even begin to understand what goes on behind the tirades of the neutral countries by all of the big powers. There is no doubt that Russia wants the Congo and so does some other powers, although they are more subtle about it. One of the biggest blunders the secretary general made was when he recalled Ralph Bunche from the Congo and appointed General Van Horn to succeed him. Van Horn's sympathy lies with the Belgians the former rulers of the Congo. The Congolese are caught in a nice squeeze and its no wonder they do not know who is their real friend and will have to depend entirely on their own cunning to survive.

Its difficult enough for a father to stand the expense of one wedding but think what it would cost to marry off three daughters at one time. Jeppie Layton, of Norfolk, Va. did just that, but after he saw his three girls off on a honeymoon, he packed his own bags and took off on a much needed rest.

Again we are being warned about the continued rising birth-rate but all the evidence points to the fact that no one is listening. The population of the world now totals nearly 3 billion and is growing at the rate of 50 million a year. All kinds of problems arise but mainly there are two... where to put the people and what to feed them. There are others of course, like class rooms and teachers to educate them, jobs for them to earn a decent living and space to live. But the world seems willing to leave it all to fate and hope that it will solve itself.

We have a nice story to tell. Its about youth and the coming election. Two young citizens not quite old enough to vote are so enthused about politics and the coming election that they went down to their adopted party's headquarters and volunteered their services. Naturally they were accepted. One is working for the Democrats, the other for the Republicans. Both go to school and hold down a job too, and both have given up their social life to work for the

party of their choice not for money but for experience. They belong to the age group that are often called many names and some of them not nice. But we are certain that their generation will do a much better job politically than we have done, because they will be better informed.

The Fred Astaire T.V. show last week was the best entertainment we have seen for a very long time. It was original, fresh as October and clean as a Tide wash, with the dancing gay and perfect.

A teen-ager was telling her mother the difficulty girls her age face. "As soon as boys get old enough to quit acting silly," she wailed "they get interested in the space age."

RUTH ROELKE

"SPICE 'N' EVERYTHING NICE"

(Continued from first page) instead of sitting there in his chair! It has shown me as to Nixon even more than ever of the qualifications that a President should have as the following—WE NEED A PRESIDENT WHO KNOWS THE JOB and Nixon does know that from his eight years of experience! In these times of Crisis there's no time for 'on the job' training a new President. As all of you know that instant decisions are called for the instant he takes office.

Only Richard Nixon already has the knowledge and skill required, based on eight years of direct experience! He has given Vice-Presidency new significance, vice importance. He helps guide domestic policy as a member of the Cabinet, is the first Vice President to reside in the President's absence. He helps determine defense programs and foreign policy as a member of the National Security Council, presiding in the President's absence. There is no man in history of America who has had such a careful preparation as has Vice President Nixon for carrying out the duties of the Presidency. He has traveled the world--5 continents and 54 countries--winning friends for these United States. He knows the need of other nations, the attitudes of their peoples, the thinking and personalities of their leaders. Foreign statesmen have learned to have the greatest respect for him. Firm asserting America's position yet skilled in negotiating, Dick Nixon by his wonderful judgement and coolheadedness in crisis has proved himself able to make the right decisions for America! There is so much more to say and write about the most competent man for the big job ahead.

NIXON WILL BE IN THE WHITE HOUSE LEADING ALL AMERICA AND MUCH MORE! What a lovely letter from the Executive Director of The Miss America Pageant-- Miss Lenora S. Slaughter!

The 34 Annual Pilgrimage for The Maryland Odd Fellows Home in Frederick, Md. will be on Sunday October 9th, 1960. It will be a wonderful Home coming for Odd Fellows and Rebekahs. Have a grand week end, Folks. Be careful when you drive. Until next week end, D.V.

Improved Social Security

According to L. J. Gillespie, Social Security Field Representative, President Eisenhower has just signed into law the Social Security Amendments of 1960. These amendments mark another forward step in improving the social security system for the American people. The law brings additional economic help to millions of Americans.

The new law makes these primary changes in the Old-Age, Survivors and Disability Insurance Program:

It eliminates the 50-year age limitation for disability benefits. This means that disabled workers and their dependents no longer have to wait for the severely disabled worker to become 50 years of age to receive insurance benefits. An estimated 125,000 disabled workers--plus about 125,000 dependents--will now qualify for disability benefits.

It liberalizes the retirement test. At present a worker receiving benefits can earn up to \$1,200 a year without loss of any benefits. Instead of having one month's benefit withheld for every \$80 above \$1,200, the new law provides that \$1 in benefits will be withheld for every \$2 of earnings between \$1,200 and \$1,500, and \$1 in benefits for each \$1 in earnings above \$1,500. This provision becomes effective in January 1961.

It increases benefits for about 400,000 children.

It increases the ceilings in the amounts authorized to be appropriated annually for maternal and child health services, crippled children's services, and child welfare services.

It liberalizes work requirements which determine eligibility under the program. This means that about 400,000 additional people-workers and their dependents and survivors will become eligible for monthly benefits for October 1960.

It permits payments of benefits to survivors of workers who had acquired six quarters of coverage and who died before 1940. About 25,000 persons--most of them widows--became eligible for benefits by this change.

In addition to the changes in the Old-Age, Survivors and Disability Program, the amendments provide additional Federal aid for medical care of the needy aged and a new program of Federal-State assistance for the aged who do not receive Old-Age assistance, but who are unable to pay medical bills.

sidered, with the assistance of the auditor, Mr. Paul Wooden, the budget requests to be made for 1961. After approval the budget items were to be used by the superintendent and Mr. Wooden in the preparation of the budget for 1961 which includes part of the school year 1961-62. Certain items connected with the organization of county office and the responsibilities of the personnel were considered and acted upon, as well as, consideration of a current report on insurance coverage from Mr. Edward O. Bollinger, Insurance Coordinator for the Board of Education. In connection, the discussion was carried on regarding school bus coverage, general insurance coverage, and fidelity bonds. The board was advised of the successful settlement of the claims related to the completion of the Mt. Airy School building. Negotiations had recently been completed for the settlement of these claims with Allen E. Reeser, contractor. The following graduation dates for county senior high schools were approved: Thursday, June 8 - Francis Scott Key; Friday, June 9 - Westminster and Robert Moton, Monday, June 12 - North Carroll and Mount Airy, Tuesday, June 13 - Sykesville and Taneytown. Consideration was given for the purchase of a postage meter for use by the county office but this item was tabled after consideration. The Board approved the publication of the annual report for the 1959-60 school year as soon as materials can be assembled. The Board took action to reaffirm its action in opposition to the proposed plan for the removal of the state teachers colleges as teachers colleges and their cooperation as inter-units of the University of Maryland. The Board directed that publicity was to be given to its stand in this matter, and that proper communication be made with those involved, requesting the state to continue to support the teachers colleges as teacher training institutions as an important means of providing the necessary teachers for the staffing of the schools in the county and in the state. Board heard brief reports on the matters connected with the building additions and modifications of Hampstead and Taneytown and approved miscellaneous items related to extra costs at these projects. The Board also gave consideration to the proposed building to be located on the grounds of the Westminster Junior High School and to be devoted to upper elementary grade education. Mr. Locke of the architectural firm of Locke and Jackson appeared before the Board to discuss the building

Amendments to the Maryland Constitution Explained

This is the second in a series of articles intended to give the voters of Carroll County an opportunity to consider the proposed Constitutional Amendments to be voted upon on Election Day, Tuesday, November 8, 1960.

Question No. 3—Tax Anticipation Borrowing by State: This Amendment is to Section 34 of Article 3 of the Constitution. It is intended to permit tax anticipation borrowing by the State.

The present Constitution authorizes the General Assembly, without laying a tax, to borrow an amount never to exceed fifty thousand dollars to meet temporary deficiencies in the Treasury.

The proposed change would eliminate this power directly held by the General Assembly, and would substitute in its place a provision that the General Assembly may authorize the Board of Public Works to direct the State Treasurer to borrow in anticipation of taxes. The sum or sums to be borrowed would be as necessary to meet temporary deficiencies in the Treasury, to preserve in the best interest of the State in the conduct of the various State institutions, departments, bureaus and agencies. Subject to the approval of the Board of Public Works, and as authorized by law, the Treasurer would be authorized to make and sell short-term notes for temporary emergencies, but such notes could only be made to provide for appropriations already made by the General Assembly.

This Amendment was proposed by Chapter 234 of the Acts of the Maryland General Assembly of 1959.

Question No. 4—Municipal Court in Baltimore City: This Amendment proposes to add a new Section 41c to Article 4 of the Constitution. It would create a Municipal Court for Baltimore City, to take the place of the present Police Courts and the traffic Court.

At the present time, a number of the justices of the peace in Baltimore City who are appointed by the Governor every two years are designated as Police Magistrates, to sit in the several District Police Courts. Similarly, another group of justices of the peace are appointed as magistrates of the traffic court. These two types of court, and these magistrates, handle criminal jurisdiction in Baltimore City on the judicial level of justices of the peace.

The proposed Municipal Court would have all this criminal jurisdiction in the future. Initially, it would have eleven judges, to serve full time. Following an original set of staggered terms, they would have ten-year terms of office. The offices would be elective, other than for the filling of certain vacancies.

This Amendment was proposed by Chapter 373 of the Acts of the Maryland General Assembly of 1959.

Next week we will discuss Urban Renewal Projects and People's Court of Baltimore.

E. O. WEANT, JR.,
State Senator for Carroll County.

EARLY SCHOOL-AGE CHILDREN MOST LIKELY TO CATCH COLDS

Early school-age children catch many more colds than their elders. Public health experts do not know exactly why, but they note that the tendency to catch colds drops with increasing age.

About 284 million colds and other respiratory ailments serious enough to warrant calling a doctor were reported by the National Health Survey during the 12 months ending in June, 1958.

Almost everyone suffers from at least one cold a year; some catch two, three or more. "Younger children have more colds than adults. As we grow older, we seem to catch fewer colds," says the U. S. Department of Health, Education and Welfare.

This was confirmed in studies by Dr. John H. Dingle, M.D., Department of Preventive Medicine at western Reserve University of Cleveland. Dr. Dingle found that young school children had the most colds, with those under 6 most plagued of all.

Changes in a child's eating habits and tastes, say nutrition experts, can easily result in unnoticed vitamin deficiencies, which affect both health and school work.

For example: A deficiency of vitamin A can impair vision; a shortage of vitamin C lowers resistance to infection; and a lack of vitamin B-6 may make a child more irritable.

Vitamins in themselves will neither prevent nor cure a cold. They do, however, help to maintain basic good health and thus lessen susceptibility to respiratory ills.

In order to make sure that children get their vitamins regularly, many parents use vitamin syrups or drops with appealing flavors. Others keep a bottle of multiple vitamins like Unicap on the breakfast table and make them available to the whole family.

Proper intake of vitamins each day is important since many of these essential nutrients are not stored in the body and must be replaced. Vitamin C and several of the B group are in this category.

When a child catches cold in spite of all precautions, the Department of Health, Education and Welfare offers these tips to parents:

—Put him to bed and keep him warm and comfortable, protected from drafts and changing temperatures.

—Give him plenty of liquids—water, soups, milk and fruit juices.

—Tell him to blow his nose gently to avoid forcing infection into the sinuses and the canals which lead to the ears.

—Put a supply of paper tissues by the bed and give him a paper bag in which to drop them when used.

—By all means, be watchful for any signs of ear discomfort and get prompt medical attention if and when it develops. This should save the child from difficulties in later years.

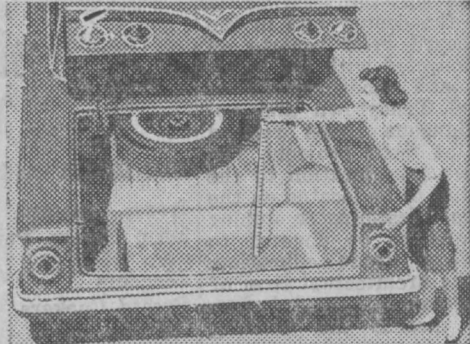

Remember, there's no cure for a cold. If the child seems to need medication, don't rely on your own judgment or the advice of well-meaning friends. Let the doctor prescribe.

FRIDAY! THE GREATEST SIXTY-ONE DERFUL CHEVROLET

Here's the car that reads you loud and clear—the new-size, you-size '61 Chevrolet. Chevy's new trunk is something else that will please you hugely—what with its deep-well shape and bumper-level loading it holds things you've never been able to get in a trunk before.

Yet, generously endowed as this car is with spaciousness and clean-etched elegance, it holds steadfastly to all the thrifty, dependable virtues Chevrolet buyers have come to take for granted. Your dealer's the man to see for all the details.

There's never been a trunk like it before! The floor's recessed more than half a foot and the loading height is as much as 10 1/2 inches lower.

And our new wagons? You'll love them—think they're the greatest thing for families since houses. The Lakewood Station Wagon does a man-sized job with cargo, up to 68 cubic feet of it. The Greenbrier Sports Wagon you're going to have to see—it gives you up to 175.5 cubic feet of space for you and your things.

Corvair's whole thrifty lineup gets its pep from a spunkier 145-cu.-in. air-cooled rear engine. Same rear-engine traction, same smooth 4-wheel independent-suspension ride. See the polished and refined 1961 Corvair first chance you get at your Chevrolet dealer's.

Spare tire is in the rear in coupes and sedans—leaving more luggage space up front.

Even middle-seat passengers sit pretty, thanks to Corvair's practically flat floor.

Now in production—the GREENBRIER SPORTS WAGON with up to twice as much room as ordinary wagons (third seat optional at extra cost).

We Worship God

Lesson for October 9, 1960

WHAT does "worship" mean? We hear or read the word on all sides. We speak of "Public Worship;" some churches have what is called a "Directory for Worship," a manual telling how it should be done. Some churches have books called a "Book of Common Worship." Exactly what is worship?

Let us write-off two common uses of the word. One is any use of it that has to do with human beings only, as when we say that a mother worships her child, or a girl worships her lover. This has some meaning, but not what we are after. We also put aside a notion of worship that thinks of it as just the same as what is done in a church between (say) 11 and 12 on Sunday mornings.

Dr. Foreman

What Worship Is Not

What does it mean to worship God? It does not mean to say nice things about him, or to pay him compliments, though this (on a high level) may be a part of worship. There used to be a popular, but irreverent, song, including the words "God is a livin' doll." Now that was a compliment, or intended as such, but it was a long way from worship. For the compliment was a cheap one, and the mood was flip-pant. The greatness of God was left clear out of sight. Worship, again, is not just the same thing as prayer, although all true worshippers pray. (These lessons will consider prayer in particular in November.) Further, worship is not just reverent thoughts about God. One may think good thoughts about a God one never expects to meet, and never tries to meet.

Worship is the response of a human being (or, we may add, an angel) who feels himself to be in the presence of God. What a man does under those circumstances is called an "act of worship." Such an act can be saying something (such as prayer, or the exclamation "Hallelujah!"), or it can be doing something (such as making an offering, or taking the Sacrament). If the words are said, or the act is done, carelessly and without thought of God, with no sense of his nearness and greatness, then there is no worship, there is only an empty form.

A famous 19th-century writer once pointed out two opposite elements in worship. One is attraction and one is fear. The worshipper seeks to be close to God, yet he also cannot help a kind of dread. The Old Testament expression used to be, "Fear God," as well as "Love God." The name for this combination of desire-and-fear is called Awe.

Bible Worship

The 24th Psalm is a good example of an expression of worship, as a long-ago saint experienced it. This Psalm was, of course, first of all a thought, or thoughts, in someone's mind. Then it got written down, and it was sung at Temple services, and in some form or other it has long been read, said and sung in the Christian church. Who knows how many persons have been helped in their own worship by this ancient poem? You will notice (verses 1, 2) a short meditation about God, whose greatness is shown in his created universe. Then (vs.) 3-6 there is a meditation on the kind of person who can truly worship. And finally there is a great welcome-song for the Almighty, the "King of Glory."

The sentence from Ephesians (3: 14-21) bring out Christian worship. For Christian worship is in a class by itself because the Christian understanding of God is, we believe, not only unique but right. God here is acknowledged not only as King and Creator, for Paul as a Jew would take that for granted, but as Father, the Father. Here is prayer, in the form of adoration; here is prayer in the form of request. But note what it is Paul prays for; nothing cheap, nothing selfish, nothing small! Above all, this prayer is for the "fullness of God." But the Christian understands what the "fullness of God" is: it is to know in all its tremendous glory the love of Christ. So for the Christian, to worship Christ is to worship God.

THE FLEAGLE REUNION

The Fleagle Reunion, discontinued of recent years, because of the depleted numbers of the previous generation, was held at Baust's Recreation Hall, Sept. 24, 1960. In size and attendance the group differed widely from the former large attendance but did not lack for interest, enthusiasm and loyalty in their traditional kinship.

Because of the lack of recent or-

ganization there was not a fully prepared program as of old but this was made up for by reorganizing and re-viving plans for the future. Old ties were renewed and all generally enjoyed the good fellowship of the occasion. After lunch and the business meeting there was music and hymn singing. True to former years, where a Fleagle family met there was singing.

A discussion followed of the Fleagle gealogy and the coat-of-arms re-

search now in process by some members of the family now in Germany and Switzerland. The graves of their great-great-grandparents, John and Margaret Fleagle in the adjoining cemetery were visited and decorated by those interested.

Z Those present, represented the areas of Taneytown, Mayberry, Baltimore, Washington, Westminster, and Harrisburg, Pa. The 1961 officers elected were as follows: Vice-Pres., Mrs. Emma Myers Read; Treas., Ston-

er Fleagle; Secretary, Miss Mildred Fleagle; Historian, Mrs. Miriam Linker and Program chairman, Miss Janette Fleagle, of Catonsville and Baltimore, Md.

After refreshments were served the meeting adjourned with the singing of "Blest Be the Tie that Binds" and the announcement to meeting again the fourth Saturday of June, 1961.
