GRASS ROOTS OPINIONS

AUXVASSE, MO., REVIEW: "Of each automobile owning and operating dollar, Mr. Average Motorist spends 88 cents for his vehicle and 12 cents for the road in the form of state and federal gasoline taxes, registration fees and all other automotive taxes."

TENINO, WASHINGTON, INDEPENDENT: "If you want your father to take care of you, that's PATER-NALISM."

"If you want your mother to take care of you, that's MATERNALISM."

"If you want Uncle Sam to take care of you, that's SOCIALISM."

"If you want your comrades to take care of you, that's COMMUNISM."

"BUT—if you want to take care of yourself, that's AMERICANISM!"

WEST CONCORD, MINN., ENTERPRISE: "Any government with the power to give you anything that you want, is strong enough to take everything you have."

NEWBERRY, S. C., OBSERVER: "Small businesses are a vital segment of our national economy. While we are campaigning for new industries to strengthen our economy, it is important that we not overlook the many small businesses which daily add to our present economic stability."

"Without them, Newberry could not survive. Neither could South Carolina—or the nation....."

AGAWAM, MASS., INDEPENDENT: "The government's money can't buy excellence in learning."

"And federal aid to education would lead to control by Uncle Sam—distorting and devaluing the educative process."

RUTHERFORD, N. J., NEWS: "The two-party system of our politics has been the bulwark of democracy in the United States. But, it is meaningless, if we allow policy to be determined by bureaus rather than those chosen by ballot."

"Bureaus frequently are frozen into permanency by Civil Service regulations and, therefore, are beyond the reach of any election."

LENNOX, S. DAK., INDEPENDENT: "As we take a good look at the whole social security program we can't help but feel that it has the characteristics of an overdecorated Christmas tree that is precariously weaving back and forth. With each new Congress, someone tries to hang some more 'junk' on this tree in the form of so-called additional benefits and amendments."

HUNTINGTON, N. Y., TIMES: "One of the best bits of advertising these days is the one dealing with the gasoline tax situation which, briefly stated, is that 10 gallons of this vital commodity yields the state and federal governments \$1, of five times as much as the impost on diamonds. No wonder diamonds are the girls' best friend, and that mink coats are a close second. Isn't it a queer formula that assesses a necessity so much higher than a luxury?"

NORFOLK, VA., THE TIME ADVOCATE: "We may well ponder the prophetic warning voiced by Thomas Jefferson, long ago, when he said: 'When all government, domestic and foreign, in little or great things, shall be drawn to Washington as the center of all power, it will render powerless the checks provided of one government on another. And will become as vernal and oppressive as the government from which we separated.'"

SELDEN, KANS., ADVOCATE: "Here's what the American Bankers Magazine, a publication which represents a traditionally hard-headed profession, has to say:

"No business man or woman in any town should allow a newspaper to go to press without his or her name and business being mentioned somewhere in its columns."

PIERRE L. HARE
R. F. D. No. 1
Manchester, Maryland
Complainant

vs.
BARBARA A. HARE
Box 751
Antioch, Illinois
Respondent

In The Circuit Court For
Carroll County

ORDER OF PUBLICATION

The object of this suit is to procure a divorce a Mensa et Thoro, by the Complainant, Pierre L. Hare, from the Respondent Barbara A. Hare.

The Bill recites the marriage of the parties on February 26, 1955 at Frederick, Maryland, by a regularly ordained Minister of the Gospel. That the Complainant has been a resident of the above address and of Carroll County for more than one year immediately prior to the filing of this bill of a Mensa et Thoro. That no children have been born as a result of this marriage. That ever since the said marriage the Complainant has always conducted himself as a faithful, affectionate and dutiful husband toward the Respondent and his conduct has been above reproach. That on or about January 20, 1961, the Respondent without just cause or reason, together with her cruelty of treatment toward the Complainant, did then and there desert and abandon him and that this was the deliberate and final act of the Respondent. That the Complainant has lived separate and apart from the Respondent ever since. That a reconciliation between the parties is without hope or reasonable expectation thereof.

It is thereupon, this 17th day of June 1961, by the Circuit Court for Carroll County.

Ordered that the Complainant, Pierre L. Hare, by causing a copy of this order to be inserted in some weekly newspaper, printed and published in Carroll County, once a week for four successive weeks before the 24th day of July 1961, to give notice to the absent non-resident Respondent, Barbara A. Hare, of the object and substance of this Bill of Complaint and warning her to be and appear in this Honorable Court in person or by Solicitor on or before the 9th day of Aug. 1961, next, and file a Plea, answer or other defense within fifteen days thereafter, showing cause, if any, why a decree ought not to be passed as prayed.

G. Bucher John
Clerk of the Circuit Court
for Carroll County

I hereby certify that on this 17th day of June 1961, a copy of the above order of publication was, by way of registered mail, sent to the Respondent at the address aforesaid.

Let's Go Fishin'

BY BOB BREWSTER
Outdoor Editor, Mercury Outboards

It has long been an accepted fact that truth is stranger than fiction.

But when the two are scrambled together, with no more hope of separating them than starting a snowball factory in Florida, that is when really "strange" facts are found.

Who hasn't heard, for example, the old outdoorsman's tale of the rattlesnake mates that hunted together, and when one was killed the other would return to the spot to seek revenge.

True or false?

TRUTH OR NOT?

Or how about the real oldie about the crippled diving duck that goes to the bottom and clamps on to a weed and expires? Just a story, or the truth? Almost every duck hunter has had this story told to him, but none I've talked to have actually seen the duck do it.

Or the mountain lion stories that occur in Iowa, Missouri and Nebraska with regularity—can a mountain lion live in those states? Numerous people have reported seeing them, yet to date no pictures have been taken of them and none have been shot. But it could be true.

Then there's the antique explanation of why pike and pickerel seem to pass up fishermen in mid-summer.

"No doubt about it," and old timer will say, "they are shedding their teeth and their mouths are sore."

SPRAY JOB

Will a skunk really be unable to spray the woodsman who picks him up by the tail and keeps the skunk's hind feet off the ground? Or can he?

And another that refuses to stay dead is the story that wild animals, much like their civilized brothers, frequently have a taste for the grape and

go on prolonged "binges" from eating fermented fruit. A lot of people believe this.

Actually, even if all these are old wives' tales and miles from the truth, isn't it a lot more interesting to sort of go along and semi-believe? It's well and good to be a scoffer, but there are a lot of people who find their lives are spiced by these and other "mysteries" of the wild.

HARD TO SCARE

Fishermen who worry about "scaring" the fish with the disturbance of their outboard motor could well take a page

from the book of a fisherman in southwest Iowa whose favorite lake was a mass of weeds.

Fish, sure, lots of them, but so many weeds that pretty near everybody else stayed away from the little weedy gem.

Not this boy. He would trailer out to the lake, launch his boat and crank up his Mercury outboard. Then he would whiz around in tight circles until the churning propeller had cleared a sizable spot, anchor and light his pipe, and in 15 minutes (time for the debris to settle) start catching fish.

Then somebody saw him and the fat was in the fire. Now everybody's doing it and he's looking for more weedy lakes where his 22-horse Merc 200 can improve the fishing.

Notice of Hearing

The County Commissioners of Carroll County will meet in the Agricultural Center on Smith Avenue, Westminster on Friday afternoon, July 21, 1961 at 1:30 P. M. to hear any comments relative to the proposed interior zoning ordinance as recommended for adoption by the Carroll County Planning and Zoning Commission.

PLAN ON CATERING TO A CROWD? SERVE TEMPTING, HOMEMADE DISHES

Bake sales, fund-raising dinners and buffets are just a few of many ways your group can combine money-making projects and appetizing, homemade food. Who can resist contributing to a worthy cause when he can earn something good to eat at the same time—like this chocolatey-royal brownie pudding, for example.

Royal Brownie Pudding is a suggested dessert in the "Money-Maker" section of a new booklet on serving food to large groups, entitled "Catering to a Crowd" and published by Standard Brands Incorporated. This colorful booklet offers ideas and advice to both the club organizing an event by committees and to the homemaker putting on a big party herself.

Interesting menus, time-saving recipes, and handy buying guides are included for more than 20 different occasions—from a church supper to a children's birthday party. A special feature of "Catering to a Crowd" allows the homemaker to sample these recipes before preparing them in quantity. It gives two listings for each dish—one with a family-size yield of six servings, and one to serve 25 or more.

Individual copies of the booklet may be obtained by sending 25 cents for each booklet to: "Catering to a Crowd," Standard Brands Incorporated, Box 77, Trenton, New Jersey.

As listed in the booklet, here is the six-serving recipe for Royal Brownie Pudding:

- ROYAL BROWNIE PUDDING
- 1/2 package chocolate cake mix
- 2 tablespoons Fleischmann's Margarine
- 1 package Royal Chocolate Pudding
- 2 1/2 cups boiling water
- 1/2 cup heavy cream OR
- 1 pint vanilla ice cream

Prepare chocolate cake according to package directions. Pour into ungreased pan. Dot top with margarine. Sprinkle Royal Chocolate Pudding mix on surface. Pour boiling water over pudding mix, moistening thoroughly. Bake in moderate oven (350° F.) for 45 minutes. Serve warm. If desired, serve topped with whipped cream or vanilla ice cream.

YOUNG IDEAS
For Polly Ponds

"I have very fine thin hair and I thought if I grew it long it would look thicker—and it only looks messy. Could you tell me what I could do about it?"

A: Unfortunately, length often accents the thinness of hair instead of making it seem thicker. This is especially true if it's fine and has a tendency to straggle.

Your most attractive hairdo would be short and head-hugging. It will look tidier, less meager and will be easier to maintain.

Show it in its prettiest light by making it shine. To do this, shampoo at least once a week—add a tablespoon of vinegar or lemon juice to the rinsing water. Then brush your hair until it's dry. For extra sheen, wrap a nylon stocking around the brush bristles and give it another fifty strokes. When hair is attractively styled, shining and clean, its thickness and texture is only incidental.

**CURRENT EVENTS
FIFTY YEARS AGO**

The one leading topic of the week has been the fearful heat, beginning with last Sunday and continuing every day during the week, with the mercury around the hundred mark in the shade.

S. Galt Birnie of Philadelphia is paying Taneytown his customary visit during the summer.

Rev. Seth Russell Downie, George H. Birnie, Carroll C. Hess and Harry I. Reindollar, are attending the C. E. Convention at Atlantic City.

The union service will be held this Sunday evening in the Reformed church, the sermon being by Rev. L. B. Hafer, of the Lutheran church.

F. M. Yount and wife, have been spending a vacation with their daughter, Mrs. Charles B. Kephart, of this district. Miss Nellie Yount of Devon, Pa. came Wednesday evening for a week's visit.

Governor Crothers and a party of four paid Taneytown another brief visit last Friday afternoon, presumably on the road subject. As the Governor becomes familiar with the lay of things, it is difficult to see how he can overlook the fact that the Westminster-Taneytown road ought to be a State road.

The Fourth of July demonstration in Taneytown was largely a failure due to the intense heat. The parade in the afternoon consisted of the Taneytown Band, the Fire Company, the "kid" company, three handsomely decorated autos and a goat team. The Hagerstown baseball team failed to put in an appearance, but the Midway, Pa. club made up for the disappointment and the baseball fans were made happy.

Don't miss "Miss Fearless & Co." on Saturday night at the Opera House given by the A.D.M. Club, composed of young ladies of Taneytown. Cast of Characters: Margaret Henly, Roberta Roelky; Euphemia Addison, Elizabeth Annan, Sarah Jane Lovejoy, Anna Galt, Kate O'Connor, Eleanor Birnie, Barbara Livingstone, Ellen Crapster, Bettie Cameron, Margaret Englar, Marion Reynolds, Clara Brining, Just Lizzie, Mary Reindollar, Miss Alias Amelia Annan, Miss Alibi, Eliza Birnie.

RED CROSS SWIMMING PROGRAM

Red Cross Swimming Instructions will be conducted again this year for the children of the Taneytown Area at Meadowview Pool, July 24 through Aug. 4. Children between the ages of 8 and 17 are eligible. The Carroll County Office, Red Cross, informs us that plenty of excellent instructors and aides will be available this year. The Taneytown Jaycees will again be assisting in arrangements, transportation, and promotion of this fine program as another of their youth projects.

Arrangements have been made for a bus to provide safe and adequate transportation. The bus will leave town at 8:30 each morning and return at approximately 10:45. Cost will be \$2.00 per child for the two-week period. Chaperones will be provided.

A small charge of \$1.00 for the use of the pool is made by the pool owners. This fee is also due the first morning.

Parents are urged to have their child avail himself of this splendid opportunity to learn water-safety. We also urge those who have passed their beginners' tests and can now swim, to continue instructions and become really expert swimmers.

The blank appearing below this article should be completed and returned immediately to your school. During the month of July an official application form will be sent to all those who expressed their desire to attend these swimming sessions; so hurry and get this blank in quickly. Also reservations will be accepted on a "first-come, first-served" basis until bus capacity.

If there are any questions you may call PL 6-6765 or the Red Cross office, TI 8-4334.

Thank you,
THE TANEYTOWN JAYCEES

Seth S. Hester, pastor.

When your little boy flies out of bed two hours earlier than you could pull him out all winter...When the Sandpile set gathers to build its daily quota of mountains of tunnels and sun-baked sugar cookies...When the sprinklers whirring, the lawn mowers sputter, and the ice cream man rings magic Pied Piper's bell...When the nights are sweet and the charcoal smoke swirls from the barbecue and the darkness is punctuated with the golden lanterns of fireflies...When Old Glory waves in the breeze and sparklers and the breath-taking burst of skyrockets give you a tingling feeling down your spine...When Dad trades his business suit for a pair of rumpled shorts and loads up the car for the family vacation, and mom's all set in her smart bermudas and pixie sunglasses...Then it's July! The livin' may not be easy, but it sure is wonderful!

\$1,793 Collected in Mental Health Drive

The Bell Ringer Campaign for Mental Health, just concluded, was a success, according to Paul H. Smith, chairman of the Carroll County Mental Health Campaign. Reports indicate that a total of \$1,793.59 was solicited by volunteers throughout the County.
The fact that Carroll County just this year joined the ranks of the nationwide Bell Ringers' March for Mental Health is proof that the County, as a whole, recognizes that the fight against mental illness must be stepped-up.

In closing the campaign Mr. Smith would like to thank all who participated in the Drive and all who contributed to its success. Our greatest satisfaction is the knowledge that we are helping the eleven thousand mentally ill in our Maryland State Hospitals to speed their return to families and communities. These funds make it possible to also carry on the study of research and further the educational program for the public. "It's the way so many dread diseases have been conquered or brought under control. And it's the way we can conquer the scourge of mental illness, too."

Rules for Raising Delinquent Children

- 1. Begin with infancy to give the child everything he wants. In this he will grow up to believe the world owes him a living!
 - 2. When he picks up bad words, laugh at him. This will make him think he's cute. It will also encourage him to pick up "cuter" phrases!
 - 3. Never give him any spiritual training. Wait until he is 21 and then let him decide for himself!
 - 4. Avoid use of the word "wrong". It might develop a guilt complex!
 - 5. Pick up everything he leaves lying around—books, shoes, clothes. Do everything for him so that he will be experienced in throwing all responsibility on others!
 - 6. Let him read any printed matter he can get his hands on. Be careful that silverware and drinking glasses are sterilized, but let his mind feed on garbage!
 - 7. Quarrel frequently in the presence of your children. In this way they will not be shocked when the home is broken up later!
 - 8. Give the child all the spending money he wants. Never let him earn his own. Why should he have things as tough as you did!
 - 9. Satisfy his every craving for food, drink and comfort. See that every sensual desire is gratified. Denial may lead him to harmful frustration!
 - 10. Take his part against neighbors, teachers and policemen. They are all prejudiced against your child!
 - 11. When he gets into real trouble, apologize for yourself by saying, "I never could do anything with him."
 - 12. Prepare for a life of grief. You will be likely to have it!
- Houston, Texas, Police Department.

Air Conditioners Accurately Rated by BTU Capacity

The easiest surest way to obtain the right-sized room air conditioner for any room is to provide an appliance dealer with enough information to prescribe the "Btu" capacity needed for maximum comfort. Btu's—British therman units—are used today by manufacturers to describe the cooling capacities of modern air conditioners. Old "horsepower" and "ton" designations have been abandoned in favor of this more accurate method of measuring the amount of heat a cooling unit can handle.

One Btu per hour is roughly the amount of heat generated by a kitchen match if it were to burn an hour. An air conditioner labeled 12,000 Btu's for example would remove the heat of approximately 12,000 matches.

Here's the basic information the appliance dealer will need to help choose an air conditioner for a given room:

1. Size of room and what it's used for, such as living room, bedroom or family room.

2. Exposure of its outside walls—south, north, east, or west—and the number of windows facing south or west.

3. Its location in relation to other areas of the house: under roof, un-insulated attic, or occupied room.

4. Electric circuits available: 115, 230, or 208 volts.

A wide selection of room air conditioners now is available, including window units, models that install permanently through a wall, and units that provide year round comfort—cool in summer, heat in winter.

Standards of the National Electrical Manufacturers Association now provide that a room air conditioner's cooling capacity in Btu's per hour is imprinted on the data plate.

LETTER TO THE EDITOR

Mr. C. L. Stonifer
Carroll Record
Taneytown, Maryland
Dear Mr. Stonifer:

On behalf of the Publicity Committee for the 1961 Cancer Crusade, I wish to express our sincere appreciation for the wonderful cooperation extended during the annual Education—Fund-raising Campaign.

The extensive coverage in the form of news articles, pictures, fillers, etc., was most generous and undoubtedly contributed greatly to the success of the Crusade.

The staff joins the Committee in this expression of gratitude.

Sincerely,
Edward J. Hyde,
Ass't Executive Director

WITH OUR ARMED FORCES

GROTON, CONN. (FHTNC)—"Do your job well, qualify in submarines, qualify thoroughly and qualify rapidly", a navy commander told the 115 graduates of the enlisted basic submarine class, June 14, at the New London Naval Submarine Base, Groton, Conn.

Among the graduates was Bradley E. Vosburgh, torpedoman's mate seaman apprentice, USN, son of Mrs. Iva E. Vosburgh of 10 New Westminster rd., Westminster, Md.

"We cannot run a professional organization with amateurs," Cdr. Lando W. Zech, Jr., commanding officer of the nuclear-powered submarine USS Nautilus, emphasized. Continuing, he pointed out that the designers and builders of submarines, and both navymen and civilians, and submarine maintenance and operational personnel are professionals.

The speaker told the graduates of the eight-week course that the Submarine Service needs more than ability, emphasizing "dedicated people with an unselfish goal."

Most of the graduates have reported to operational submarines on either the East or West Coast. Once aboard they must qualify fully as submariners before they may wear the silver dolphins clasp, symbol of the Submarine Service.

CALIFORNIA (FHTNC)—Jerry W. Bowers, fireman apprentice, USN, son of Mr. and Mrs. Woodrow W. Bowers of 197 1/2 E. Main Street, Westminster, Md., is serving aboard the dock landing ship USS Alamogordo participating in Phase III of "Exercise Green Light" off the Coast of California.

Scheduled from May 8 to June 8, this phase of the exercise involves Navy and Marine Corps undersea, surface, air and ground forces, supported by minesweepers of the Royal Canadian Navy.

Highlight of the operation will be a large scale amphibious landing by the First Marine Division in the Camp Pendleton, Calif., area. The landing force will be supported by an amphibious task force and aircraft.

SEVENTH U. S. ARMY, GERMANY (AHTNC)—PFC Bruce W. Albin, son of Mr. and Mrs. Elwood D. Albin, Route 1, Littlestown, Pa., participated with other personnel from the Seventh U. S. Army's 92d Artillery in April Shower, a command post exercise in Germany which ended June 9.

The exercise was designed as a study of organization, displacement of units, communications and logistics. All U. S. corps and divisions within the Seventh Army participated at command levels.

During April Shower control staffs fed problems and situations involving the activities of a simulated aggressor force to the participating commands. These units then took the necessary action.

Albin is a cannoneer in the artillery's Battery B, which is regularly located in Giessen. He entered the Army in July 1960 and completed basic training at Fort Dix, N. J.

WESTERN PACIFIC (FHTNC)—Once the troops splash ashore, the next job of the ships of the amphibious force is to start the supplies flowing in—the gas, guns and grub that keep the assault forces moving toward their objectives.

Serving aboard the attack cargo ship USS Tulare, a unit of Amphibious Squadron Three in the Far East, is Herbert E. Michaels Jr., chief engineer, USN, son of Mr. and Mrs. Herbert E. Michaels Sr. of 12 Whyte St., Union Bridge, Md.

The Tulare, like other attack cargo ships, "assault-loads" its combat cargo so that the most vital material is right on top, ready to go ashore as soon as possible.

This type of ship, the chief cargo carrier for amphibious operations, carries nearly 20 landing craft of various sizes to speed these supplies ashore where and when they are needed.

HOT WEATHER DRIVING

If you plan many miles of turnpike driving, increase air pressure in your tires first... four pounds over normal starting pressure. And never reduce pressure when tires are hot.

Overheated engines are the bane of summer drivers in stop-and-go traffic. To keep an idling engine cooler... place the transmission in neutral and race the engine several times for 30 seconds, at 2-minute intervals.

Careful! If your ventilator draws air from the front of the car... shut it off in heavy traffic. Damaged or clogged evaporator tubes could be shown in shop at your local American Oil Company service station for additional hot weather driving tips.

M-M-M, DELECTABLE

"Summertime and the livin' is easy" is a lyric from Gershwin's Porgy and Bess that makes a lot of sense. The living can be really easy when a modern gas refrigerator is used to help prepare hot weather dining.

In the new RCA Whirlpool shown here, many foods can be quick-chilled on the new Jet Cold Shelf, or kept frozen in the generous zero-degree freezer compartment. The magic ice maker automatically manufactures a ready supply of ice crescents to garnish platters and for ice cold drinks.

The refrigerator can be put to excellent use with this delectable hot-weather dessert, preparing it ahead of time, then refrigerating it until ready to serve. The recipe was created by Elsie Masterston, author of the best-selling **Blueberry Hill Cookbook**. Mrs. Masterston is equally well known for her fabulous meals at Blueberry Hill Farm in Brandon, Vermont, where guests come from all over the U.S.

STRAWBERRY MOUSSE

Prepare this in the cool of the evening for the next day. It's easier to do than it sounds; beautiful to see, too. It will keep its shape for hours if set on the table over a plate of ice. As for the taste—it's divine, that's all. Serves 8.

Slice 1 qt. fresh strawberries (save 8 or 10 choice ones for decorating later) into a 2 qt. bowl with 1½ cups superfine sugar. If you can't get fresh berries, use 2-10 oz. boxes of frozen and omit the

sugar. Add to the berries 2 tbs. lemon juice. Set aside. Beat 2 egg whites until stiff, but not dry. Set them aside. Beat 1 cup heavy cream until stiff. Stir in 1 tbs. vanilla. Soak 2 envelopes unflavored gelatin in ¾ cup cold water for 5 minutes. Set cup in boiling water until gelatin is completely dissolved, then let it cool to room temp. Rub a 1½ qt. mold very, very lightly with a vegetable oil.

Now quickly (because the gelatin will start to set any minute) pour the gelatin over the sliced berries and stir thoroughly. Add the egg whites, folding from the bottom up until well blended. Fold in the whipped cream, distributing the berries into every part of the mousse. Pour into the greased mold. Refrigerate for at least 3 or 4 hrs.

When ready to serve, dip the mold into hot water to loosen it. Pipe some whipped cream around the plate, decorate with strawberries.

Blankets Now Welcome Soap and Water

AFTER A SIEGE OF COLDS OR VIRUS, it's a good feeling to know that everything in the sickroom is spick and span again. The wise homemaker includes her blankets in this soap-and-water spree, especially if they are easy-care blankets of "Orlon" acrylic fiber.

Washing the family blankets—a once-a-year chore in grandmother's day—is as easy as making the bed today, with modern laundry equipment and fiber-sealed blankets of "Orlon." The most washable blankets ever, they go right into the washing machine and dryer, and come out fresh, soft and fluffy, without shrinking. Because they resist matting and fuzzing, they retain the soft bulk that means warmth in blankets. Beacon makes them in white and eight flower colors that keep their bloom through laundering.

Let's Go Fishin'

BY BOB BREWSTER
Outdoor Editor, Mercury Outboards

There are a great number of fishermen in the United States who couldn't care less about what is the newest and hottest lure at a particular lake. While others go wild over new lures, buying at a great rate, they sit back with a detached air and chuckle in their sleeves.

The reason? They've never bought a lure in their lives and never intend to—they're bait fishermen, pure and simple, and intend to remain so.

1. Threaded on — used primarily by kids and bullhead fishermen who want a bait to stay on the hook in the face of strong nibbling by a fish that is slow to swallow the hook.

2. Looped on — used by more advanced fishermen who want the worm to look more natural and therefore hook him once or twice through the body to hang in loops from the hook. Good method for trout or big bass.

3. Tipped — used by those who search for panfish, the "brim" of the South. Put a small bit of worm on the tip of the hook. Murder for bluegills.

4. Draped on — method of hooking about ten worms on the lure to attract walleyes and big trout. Hook them on the last treble hook on the lure (Warning — not "pure bait fishing because of the lure.)

MORE VARIATIONS

And if possible the minnow-dunkers use more variations than those who try to drown worms. They hook minnows everywhere but in the ear. Favorite spots are through the lips (for trolling, so the minnow will move through the water head first), through the tail head first), through the tail or back (for fishing with a bobber, so the minnow will be able to swim freely and look natural to the fish), or through the head (for ice fishing in the northern tier of states, where the light nibbles of perch will strip a minnow from the hook before the fisherman knows he has a visitor).

And although it is true that oftentimes the "lure" fishermen look down their noses at the "bait" men, there is little reason for this, the Mercury outboard people claim.

For one thing, the bait men were here first. And for another, a five-pound bass tastes just as good when caught on a minnow as he does falling for an artificial bait.

Electricity Starts Outdoor Barbecue

The toil and frustration of starting charcoal in the barbecue that has always plagued the family patio chef in the past, can now be forgotten with an electric charcoal lighter designed by Chromalox electric heat engineers. The lighter element, which is safely enclosed, is placed directly on a layer of charcoal, then more pieces added on top. Just plug it in and presto... in shortly over five minutes you have hot coals without papers, fuels, flames or false starts! It's so easy, even a youngster can safely start the barbecue.

Fisher Of Men
Lesson for July 9, 1961

IT TAKES all kinds of people to make a church. When a congregation becomes known as a "middle-class church" or a "Catholic church" or by any name that suggests there is only one kind of persons who would be interested in joining, that is a dangerous sign. "They are not our kind of people" is a phrase that can wreck a church. If people had been kept out of church because they don't fit the pattern of the people already in it, there never would have been a church. There never would have been the Twelve Apostles.

Man In A Bright Shadow

One striking fact about Jesus was the variety of his friendships. He had a drawing power for all sorts and conditions of men. Now you might have thought that Jesus would perhaps have no objection to all kinds of persons in his general following; but wouldn't he select for the "hard core" of his new movement men who were so much alike that they really would go "each for all and all for each"? Men so well fitted for one another that quarrels would never arise? On the contrary, Jesus chose his inner circle from men so different from one another that up to the very eve of Calvary they were quarreling among themselves. Each wanted to be top man. Now there was one natural top man in the group. His name was Simon but Jesus gave him a nickname that stuck longer than the name his parents gave him. This was Peter, a natural leader if ever there was one. Two booming bright big brothers are not always easy to live with. Many a younger brother without the strength or abilities of some older brother

has acquired an inferiority complex. Simon Peter had a brother, however, who never seemed to be dazzled by living in the bright shadow of his older brother. His name was Andrew, and he lived his own life in his own right, a man less able than Peter but not at all cast down by that fact.

Man Of Action

Andrew's name was Greek. Were there Greeks in his family? We do not know. We do know enough about his life to form a shadowy picture of a man who was certainly much more substantial than a shadow. We know, for example, that he was a fisherman by trade. A man who lives by fishing, you may count on it, is a brave man, used to emergencies and not scared by them. He will be a man of muscle too if he goes out seining as we know Andrew did. He was not poverty-stricken, but he was not rich. He is first seen mending his net, he had to make that net do as long as he could. He could not be extravagant and buy a new net every time his old one got torn.

We also know that Andrew was one of those people, found everywhere, who "almost make it" but never quite. Jesus had a circle within the circle of the Twelve, — Peter, James and John. James and John were brothers, so were Peter and Andrew. If Jesus was a special friend of both sons of Zebedee, why not both sons of Jonas? This sort of thing again tends to throw some people into a tallsipin. "If I can't be corn I don't want to be shucks" is what some people say. But Andrew was not cut down by this at all.

He Knew About People

Andrew was a man of direct action. He never wrote a gospel nor any other kind of book. All the pictures we have of him—"snapshots" only—show him going somewhere. He is not noted for any profound remarks, he never even asked Jesus an important question, as his brother Peter did. This plain ex-fisherman seems to have been a man of one talent, but that one was important. It was the talent of knowing people. In John's story, Andrew was the first man to make Peter acquainted with Jesus. He was the man who in a vast crowd found a boy with a lunch, and somehow persuaded the boy to come along and share his bread and

Tasty Dessert

Searching for a new dessert idea? This is it—a delicious Polka Dot Cobbler that is just the dessert to be served warm with lots of ice cream adorning each serving. The pastry top is fork tender and has a surprise ingredient—corn meal. The corn meal gives it a wonderful flavor and such an interesting texture. Make this cobbler for supper tonight—or tomorrow night for sure!

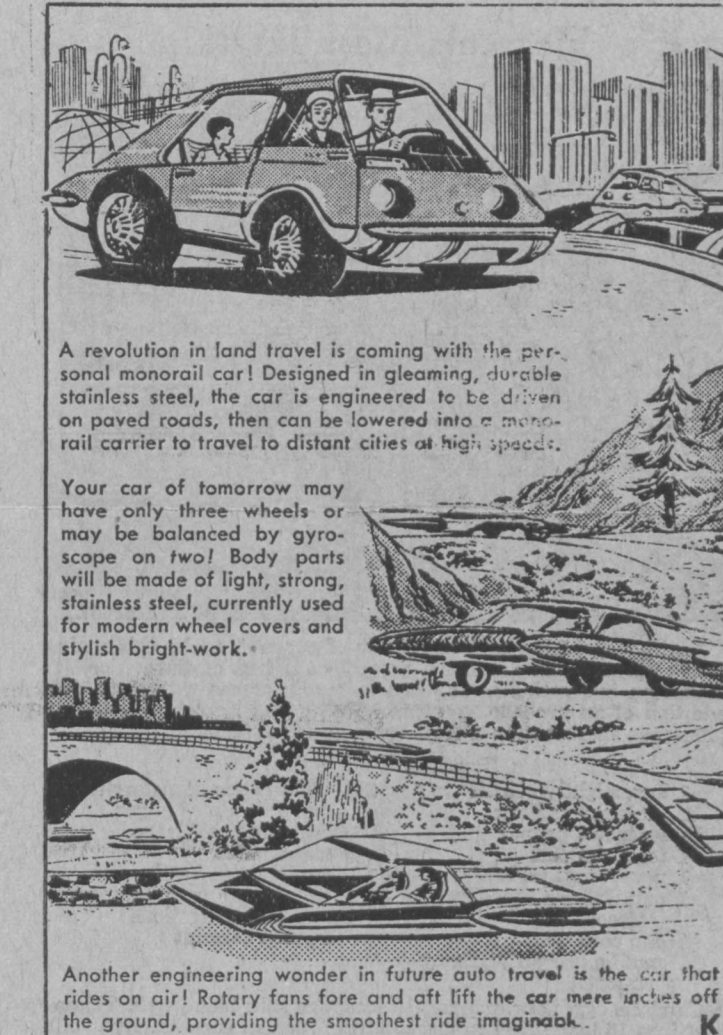

POLKA DOT COBBLER
Makes 6 servings

Base:
One 1 lb. 13-oz. can sliced peaches
1½ cups peach syrup
2 tablespoons cornstarch
¼ cup maraschino cherry halves, drained
¼ teaspoon almond extract

Pastry:
¾ cup sifted all-purpose flour
¼ cup enriched corn meal
¼ teaspoon salt
¼ cup shortening
2 to 3 tablespoons cold water

Heat oven to hot (425°F.). For base, drain peaches, reserving syrup. Combine 1½ cups peach syrup and cornstarch in saucepan; cook until thickened, stirring constantly. Stir in peaches, cherries and extract. Heat thoroughly. Pour into 8-inch square baking dish. For pastry, sift together dry ingredients into bowl. Cut in shortening until mixture resembles coarse crumbs. Add water, a tablespoon at a time, stirring until pastry can be formed into a ball. Turn out on lightly floured board or canvas. Roll dough to form 9-inch square; place over hot peach mixture; turn edges under and flute with fork. Prick top with tines of fork to allow steam to escape. Bake in preheated hot oven (425°F.) 12 to 15 minutes. Serve warm, topped with ice cream.

A Look To The Future

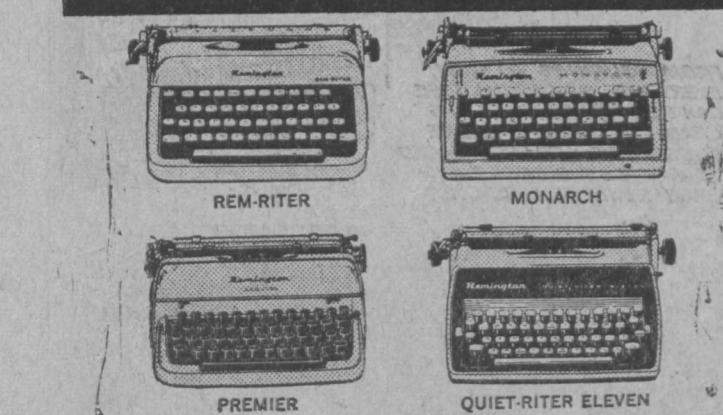

A revolution in land travel is coming with the personal monorail car! Designed in gleaming, durable stainless steel, the car is engineered to be driven on paved roads, then can be lowered into a monorail carrier to travel to distant cities at high speeds.

Your car of tomorrow may have only three wheels or may be balanced by gyro-scope on two! Body parts will be made of light, strong, stainless steel, currently used for modern wheel covers and stylish bright-work.

Another engineering wonder in future auto travel is the car that rides on air! Rotary fans fore and aft lift the car mere inches off the ground, providing the smoothest ride imaginable.

Counting Calories? Don't Feel Blue. Venus De Milo Should Have, Too!

by WILMA DOBIE

Fads in female anatomy over the years have not been as frequent as fashions, but they have been almost as frivolous. The late H. L. Mencken dourly observed that American women at one time were shaped like a drunken dollar-bill sign.

Wasp waists and full hips were once all the fashion. Lillian Russell, the famed Gay Nineties beauty, tipped the scales at 165 yet was considered the glamour girl of her day! Her curves would now be considered not only very unglamorous, but her family physician might rightly put her on a strict reducing diet. Even the world-renowned beauty, Venus de Milo, might find herself counting calories in today's world. Her measurements are a hefty: 48-39-51, but, of course, she is over 6½ feet tall!

Counting calories preoccupies the minds of almost half of America's adult population. Recently, one eager-beaver for statistics estimated that the aggregate overweight of all American adults amounts to a fantastic \$90,000,000 pounds.

Vanity is probably the chief incentive in causing women to reduce. However, there is a more urgent and serious reason to guard against overweight. Doctors and medical authorities warn us that excess pounds are a definite health hazard. It is of primary concern in the study of the high frequency of heart disease, the No. 1 killer in the United States, particularly among men.

Men have not done as good a job as women in controlling their weight. Women of all ages today weigh less than their mothers, while men are generally heavier than their fathers.

Unlike the common cold, something can be done about overweight. The modern reducer is fortunate in having available a wide variety of tasty dietetic foods at the nearest grocery store and it is not unusual now for most res-

"Goodie! Now the nation is only 499,999,999 pounds overweight!"

taurants to feature a special menu for the caloric counter.

Many major food companies are acutely aware of the national concern over obesity and are spending millions of dollars in research to develop delicious, low calorie food products at moderate prices. One such company is Wish-Bone, famous for its tasty and popular salad dressings. Wish-Bone has now introduced nationally two new low calorie dressings that give dieters an opportunity to enjoy any salad without paying the piper in calories.

The new Wish-Bone Low Calorie Italian Dressing contains just one (1) calorie per teaspoon (less than the caloric content of a teaspoon of fresh lemon juice!) and Wish-Bone Low Calorie French Style Dressing has a mere two (2) calories per teaspoon.

Salads supply essential vitamins, and also can be a bright addition to diet fare. A salad can be easily prepared and served as a satisfying meal in itself. Either way, they are the dieter's best friend, especially when the salad is tossed with a flavorful, low caloric dressing.

"Carroll County Day" Orioles

Sunday, July 9th has been proclaimed "Carroll County Day" at Memorial Stadium in Baltimore when the Baltimore Orioles and the Theo. Hamm Brewing Co., which sponsors all Oriole Games on television and radio, will salute the County during the telecast of the Baltimore-Kansas City game.

The Carroll County Commissioners issued the proclamation late last month.

The salute, which will take the form of a picturization and narration dealing with the historical and present-day significance of Carroll County, will take place during the telecast of the game which can be viewed locally over WJZ-TV (Channel 13).

Either Bob Murphy or Herb Carneal will handle the narration. "Dutch" Bankert, distributor for Hamm's beer in Carroll County, said that the salute is one of several scheduled by the Orioles as well as the Hamm Brewing Co. during the 1961 baseball season. He said it represents an attempt on the part of both the Orioles and Hamm's to express their appreciation to the thousands of fans throughout the County who support the Orioles.

Heavenly Meat Treat!

Fruits, vegetables, and two kinds of coconut, make this main dish unusual—and excellent. Served on a bed of fluffy rice, it makes an interesting meal when company comes, with just the addition of an avocado-Romaine salad, garlic French bread and pineapple sherbet atop a fruit compote for dessert.

Hawaiian Meat Balls

- 1 egg, slightly beaten
- 2 tablespoons flour
- 1/8 teaspoon pepper
- 1 teaspoon salt
- 1 pound ground beef
- 1 cup Baker's Fine-Grated Coconut
- 1/4 cup corn oil
- 1 small clove garlic, finely minced
- 2 1/2 tablespoons cornstarch
- 1/2 cup granulated sugar
- 1 tablespoon soy sauce
- 1/2 cup vinegar
- 1 cup chicken broth
- 2 cups sliced green peppers
- 1 cup orange sections
- Flaked coconut

Combine egg, flour, pepper, 1/2 teaspoon salt; blend well. Shape beef into 16 balls. Roll in egg mixture; then in coconut. Heat oil in a large skillet. Add garlic. Then add meat balls and brown lightly on all sides.

Combine cornstarch, sugar, 1/4 teaspoon salt, soy sauce, vinegar, and chicken broth. Add to meat balls in skillet, stirring until sauce is thickened. Add green peppers. Cover and simmer over low heat 8 to 10 minutes, or until peppers are almost tender. Stir in orange sections. Serve with rice and flaked coconut. Makes about 5 servings.
