Taneytown Cards Baseball

The Taneytown Cards scored a 9-5 victory over the New Windsor Little League team on Tuesday evening to the New 15th thought the second team of the State of the New 15th thought the New 15th the New 15 ning to tie with them for first place in the league. The visitors got off to a 2-0 lead by the end of the second, and scored 2 more in the third, but the Cards bounced back in their half of the third with walks to Brett Fleagle and Bill Shorb, singles by Ronnie Brown and Pat Gartrell and a three-run homer by Donnie Bol-linger. In the fourth, New Windsor went scoreless, but 10 Cards came to bet and 5 more runs scored Buddy bat and 5 more runs scored. Buddy Nusbaum, Brett Fleagle, Bill Shorb, Ronnie Brown, Donnie Bollinger and David Shorb all singled, Bobby Howarth doubled and Pat Gartrell drove in 3 runs with a triple. This proved to be the ball game, as the fifth and sixth innings were scoreless. Buddy Nusbaum pitched, chalking up 8 strike-outs. The New Windsor team is the only team thus far that has defeated the Taneytown Cards. In their last contest on August 3, they defeated the home team 8 - 5, in spite of home runs by Donnie Bollinger and Buddy Nusbaum.

Buddy Nusbaum.

The two games last week were both played on the Union Bridge diamond. In Tuesday's game with Bobby Howarth pitching, the Cards scored an 18-3 victory over the Union Bridge Orioles. Last Friday night, Taneytown won 13-8 over the Union Bridge Brayes Brett Fleagle Union Bridge Braves. Brett Fleagle pitched the first four innings and Buddy Nusbaum came on in relief in the fifth. Pat Gartrell led the Card hitters with a three run homer, a triple and an automatic double. Nine year old Denny Bollinger played second base and also bounced one over the fence for an automatic double. In the sixth inning, 13 Cards batted with 8 runs crossing the plate.

One more league game remains with Woodsboro and will be played this Friday, August 18 on the home diamond, beginning at 6 p. m.

"PARENTS ARE URGED TO HAVE CHILDREN REGISTER FOR OPENING OF SCHOOL"

Parents of Junior and Senior High School age children, new to our community, are asked to have their children come to the school for registration purposes. This can be done any weekday between the hours of 8:30 a.m. and 3:30 p.m. If registration is made before the opening of school, better assurance can be given for proper placement and proper selection of courses. It will be help-

ful if the student brings his last report card with him.

Students entering the 7th grade from Taneytown Elementary and Uniontown Elementary need not register prior to the opening of school, September 5th.

The listing of names in homeroom sections will be published in the Carroll Record, August 24th.

JAYCEE PICNIC

The annual family picnic of the Taneytown Jaycees was held at Memorial Park last Thursday evening, August 10th. The picnic was arranged by Robert Bowers consisting of a softball game and refreshments and was enjoyed by all. Afterwards, the monthly business meeting was conducted by James Fair, the newly elected president and the program for the new year was accepted by the membership. Important events for August and September are the Carroll County Hospital Tour, Aug. 31st, Oriole Ballgame, Sept. 2nd and the Miss Maryland Dance, Sept 30th.

SUPERB PRODUCTION

"Ben Hur" the most stupendous film in the history of motion pictures will play nightly at our local theatre, Monocacy Drive-In Theatre, between Taneytown and Emmitsburg for one full week from August 17th thru August 23rd.

The masterful production adapted from the famous Gen. Lew Wallace novel, is an unforgettable experience and will certainly endure as a screen classic to be seen over and over again through the years. More than a spectacle, it is superb exciting human drama that touches the emotions of each viewer. Filmed in Italy on a lavish scale, its breathtaking sets portray ancient Rome and Jerusalem, with such exciting moments as the great chariot race, 9 laps lasting over twenty minutes and a scene where a crowd gathers to listen to Jesus as He delivers the Sermon on the Mount.

Most acclaimed motion picture ever made, the William Wyler presentation "Ben Hur" won 11 Academy Awards, including the 'Oscar" for the Best Picture of the Year.

FUND DRIVE

The annual fund raising campaign of the Carroll County Association for Retarded Children, Inc., will be conducted throughout Carroll County during the period of September 6 through 16. Since the inception of the county organization, it has been shown that retarded children can be helped when given the special classes, training, and other assistance they require. One of the services maintained for the retarded in Carroll County, whose handicap is so severe that they are unable to attend the Board of Education's Special Classes, is the Baile Hall Care Center. Here they receive the training and education which will see them throughout their lives; they are provided training in discipline and getting along with others. Much has been done to provide them their chance, but much more remains to be done to insure the continuance of the services provided for these youngsters. Volunteers are still needed in all areas of the county for the fund campaign. offer your services, contact either Mrs Virginia Blizzard or Mrs. David G. Yingling, Sr., the county co-chairmen of the fund drive.

MEETING OF FIRE COMPANY

At the recently held Monthly Meetng of the Taneytown Volunteer Fire Company the ambulance committee reported 11 calls for the past months. The chief reported 4 fire calls for the same period. All members present stood for a minute of silence in respect for Bernard J. Arnold who passed away this past week end. August 27 all fire companies of Carroll County will participate in the burning of three old buildings on the Klees Mill Road between Westminster and Eldersburg. Bills were read and ordered paid to the amount of \$4,704.22 with the receipts for the past month at \$1227.70. The annual Firemen's Picnic will be held on August 31 at Big Pipe Creek Park near town. All members who desire to take a Fire Training Course this Fall are to sign up with the chief.

FARMERS SHOULD CLAIM GAS TAX REFUNDS NOW

Executive Secretary C. E. Wise, Jr., of Maryland Farm Bureau, has issued a reminder to all member-farmers that the time is growing short to apply for a Federal tax refund of 4 cents per gallon on all gasoline used for farming purposes during the twelve months ended June 30, 1961.

"Refund claims must be filed before September 30, with the District Director, Internal Revenue Service,

Baltimore, Maryland", Wise said.
"Farmers who filed forms for this refund last year receive forms in the mail. New farmers and others who do not receive blanks by mail may obtain such forms from their County Agents' offices," Wise advised.

"A refund cannot be claimed on gasoline used for trucks or cars driven on public roads even though driven on farm business. When custom work is done on the farm, the refund is claimed by the farmer who hires the work done, not by the custom operator, whose charges include the entire cost of gasoline", Wise conclu-

ELEMENTARY SCHOOL TO OPEN SEPT. 5

Registration of New Pupils Tuesday, August 29th

The Taneytown Elementary School will open its doors to approximately 460 pupils on Tuesday September 5. Families new to the school district may register children on Tuesday, August 29, from 9:00 a.m.-3:00 p.m and from 6:30—7:30 p.m. Children entering grade one must present a birth certificate and vaccination record. Others should present a report or transfer card indicating proper grade placement. It is anticipated that the opening enrollment in September will be about the same as the closing enrollment in June. Class lists of grades one and two will be published in a later edition of the paper.

Building

During the summer months the school's interior has been painted in attractive colors. Sometime in the fall the exterior will, likewise, be painted. The addition of four classrooms and cafeteria will not be completed, as anticipated, for the opening of school. This will necessitate the continued presence of a classroom in the library and continued operation of the library in two small rooms ad-jacent to the auditorium stage. Just when added facilities will be available is not known. A tentative date of Oct. 15 has been set; however, this may be premature. In addition to classrooms and cafeteria, a sewer line connecting the school to town facilities is planned, as is additional hardtopping. The latter will likely not be completed before spring.

Two changes have been made in the faculty. Mrs. Louise Riffle will replace Mrs. Mary Jane Smith in grade three and Mrs. Constance Lee of Gettysburg will assume the fourth grade position vacated by Mrs. Faye Snyder. The resignations of both Mrs. Smith and Mrs. Snyder are regretted; however, reasons were beyond control of the administration.

Mrs. George Shower who taught one of the first grade sections last year will teach a combination first and second grade class during the oncoming year.

Insurance

Accident insurance will again be available through the Pilot Life Insurance Company. Cost to parents will be \$1.75 per pupil and registration forms will be sent home on the first day of school.

Cafeteria

Lunches will be served in the old cafeteria on the first day of school. Cost of the complete lunch will be twenty-five cents and individual ½ wints of milk may be purchased for pints of milk may be purchased for three cents. Lunch tickets good for five lunches may be purchased for \$1.25. Menu for the first day of school will include barbecue sandwich, peanut butter crackers, buttered green beans, fruit, and ½ pint of milk.

Photographs

Photographs of each child in the school will be taken on Tuesday, Sep-tember 12. Pictures will be taken by Mealey, the same photographer as in past years.

Organizations

Parents are cordially invited to attend all meetings of the Parent-Teacher Association which meets on the third Tuesday of every month. Officers of the association are Mr. Glenn Bollinger, President; Mrs. Robert Clingan, Vice-President; Mrs. Melvin Utermahlen, Secretary; and Mrs. Adelia Nusbaum, Treasurer.

Mothers are also invited to assist the Parent-Study Group which during the past year has helped the school greatly by mending library books and in other ways. This year the group plans an activity, in collab-oration with pupils and teachers, to finance the purchase of additional books for the library. Mrs. Arthur Garvin Jr. is chairman of the group and can furnish any information de-

Each future day and in some way—help to bring you happiness!

Vacationing at home is truly the word as to relaxation and quietness. Plus being in one's own bed for comfort each night. Taking off the shoes and stockings and walking on the cool grass allowing my feet to breathe! Try it once daily, Folks and especially toward evening as you sit out on the Porch or Patio.

Attending the Music Fete on July 28 at the Memorial Stadium was a real treat and all for free and more real treat and all for free and more so enjoyable taking my neighbor along who had never been in the Stadium. (She is from Penna.) The Estelle Dennis Dance Ballet Company was included in the evening entertainment and that was sweet and winsome and all the dancers were 'tops'! One number of a Mexican dance was most clever and received much applause. There were four Soloists and also a Quartet and several selections from "Roberta" and "Carousel". The conductor of the orchestra, Mr. Gearld Eyth aims to please and is one of the most

I visit there and she expects guests for a few days, she will tell me not to use the special guest towels (which are beautiful) and which she has placed there on the racks. I feel hurt at this and am wondering what you think. I feel like an outsider when I go there. Signed—Mothersin-Law Mother-in--Law. Dear Mother-In-Law: You should not be hurt but glad that your daughter desires to dress up the bathroom for special guests. Think of THE WHITE HOUSE! They bring forward the Gold Set and much else

when company is expected! Obs. Dear Observer:- We live on a farm and have city relatives and when they arrive with the children, those children do a great deal of damage and I dread them coming. How can I

tame them down upon arrival? Signed Farm Wife.

Dear Farm Wife:- I recall of one visit which I never will forget as the city teen-agers—(not mere child-ren) were visiting me and acted as though they were left out of jaila swing was broken, the Gladiolas broken down which were in full bloom as they ran like wild over the place. Much else was destroyed and frankly, I never invited them back Perhaps you can talk to the parents

upon arrival. Your Obs.

Dear Observer: Are you so old fashioned that you will not accept slacks or Bermudas? Everyone wears them nowadays. We want to know why? Signed, Twins.

Dear Twins:- I do not object to the dress of which you have written but do think everything has its place and I state again only on special ocassions and in the right places they should be worn and never, never, never if you are tubby fat and I think you know just what I mean and especially matured we-men. Your Obs.

Dear Obs:- I work in a big office in Baltimore and have very nice clothes but I wear the oldest things have and someone said to me that I was wrong about this. Kindly let me know what you think? Thank you! Office girl.

Dear Office Girl:- If I were you, I

would wear the most appropriate outfit for all week and change three times a week and wear the best and by that I do not mean frills. You are seen every day of the week and that is very important and you should appear beautifully groomed each day. Your. Obs.

GRASS ROOTS OPINIONS

PLAINFIELD, IND., MESSEN GER: "If proposals to provide medical services to persons drawing social security benefits is carried out as proposed the possibility of taxing people for other services seems unlimited. This is a far different thing than a pension. If workers are to be taxed regardless for health insurance, why ean't they be taxed for housing insurance? Certainly the guarantee of a place to live is just as important as paying the doctor. How about another quarter of one percent to guarantee 'grocery care'? Some oldsters get involved in litigation. Who's going to pay the lawyer?

"The point is that freedom of choice about personal matters is basic to our

CANTON, MASS., JOURNAL "Some people think that just because a company is big, it has all the money it needs and can help support any cause, activity or government program that comes along.

"The money that keeps all these wheels turning doesn't grow on trees. It comes from human effort—human effort that is put to profitable use. We all depend on each other."

TONASKET, WASH., TRIBUNE: "If today's taxpayers had some of the gumption of their forefathers who made history with the Boston tea party, it wouldn't take long to call a halt to the wasteful and extravagant spending by governments which grow | bigger and bigger and which exact manner and bigger and which exact manner and bigger and bigger and which exact more and more taxes to sustain their constantly expanding operations."

FOUNTAIN, COLO., ADVERTI-SER: "In his speech commemorating the 40th anniversary of the Soviet Union...Nikita Krushchev emphasized the success so far of Russia, but demanded that the people 'work, work, work' for further success.

"Work alone is the source of the wealth of society and the wealth of every man', he declared.

"Now we dislike everything about the Communist's line of chatter, but believe the group in this country which seeks shorter hours, less production, higher wages, higher unemployment benefits, etc., would do well to think over his ending phase."

ANTIGO, WISC., DAILY JOUR-NAL: "Equal educational opportunity for all is an absolutely asinine statement,' said Prof. John Guy Fowlkes, former dean of the University of Wisconsin School of Education in a recent address to educators at Madison. He said this slogan should be replaced by 'equal educational opportunity for all in terms of ability and industriousness or application. Going to college is a privilege to be exercised, and not a right to be abused."

BEAVER FALLS, PA., NEWS-TRIBUNE: "In a recent address in Chicago, John G. Tower, history's first popularly elected Republican senator from Texas or any other former confederate state, has something to say that should be repeated often.

"Said Tower: 'Capitalism is not a dirty word....The men who built the railroads and banks and insurance companies and industries that have made the American people the most productive, the most comfortable, the most resourceful and most reliable in the world were not do-gooders. They were capitalists."

FRANKLIN, N. C., PRESS: "If federal-aid to education is not necessary, and if it is not the most economical way to finance the schools, why take a chance—even a remote chance-on federal control? The truth is, the whole concept of federal aid to education betrays a lack in faith in democratic processes. It is a vote of 'no confidence' in the intelligence and the integrity of the average citizen."

It's the savingest time of the year on the trucks with the workingest ways

SAVE! You just can't beat August buys for saving. It's the time of year when Chevrolet dealers traditionally pull all the stops. You'll find sweeter-than-ever savings waiting for you on every '61 Chevy truck-from the nimble Corvair 95's, right up to the mighty medium- and heavy-duty jobs. Come in and save a bundle!

SAVE! You just can't beat Chevy trucks for working. With Chevy's easier riding Independent Front Suspension, loads ride easier, drivers stay fresher, the truck lasts longer. You get more work, more hauls, for your truck dollars!

SAVE! And for the frosting on the cake—you just can't beat Chevy trucks at trade-in time, either. Latest official industry reports prove that Chevrolet trucks lead in trade-in value, week after week, over every major competitor in Chevy's price range.* *Based on official figures from Automotive Market Report.

HOW TWO MEN AND THIS TELEPHONE SAVED A LIFE

It was 8:45 A.M. Clyde Taylor, telephone maintenance man, worked at his test desk trying to trace the cause of a continuous busy signal on one of the telephones in his exchange. As Clyde ran a series of trouble checks, he suddenly thought he heard a low moaning sound.

He immediately dispatched one of his repairmen, George Daniels, to the home where the telephone was located. When no one answered the doorbell, Mr. Daniels looked inside the house through a window. Lying prostrate on the floor was an elderly man. Beside him on a table was his telephone, the receiver hanging off the hook.

Later, at the hospital, authorities said that the quick action of this telephone maintenance team saved this heart attack victim's life.

We're happy that the desire of telephone people to be of service so often results in even more than good telephone service.

Why fish won't bite is a problem that regularly assails one out of every four men in the United States, according to statistics. Those are the fellows who are out in search of sport and fun fishing the waters of this country, constantly seeking to find the answer.

Do they solve the problem? Yes and no, depending upon time and circumstance. And perhaps it is this "never-neverland" atmosphere to the thing that draws fishermen back time and again to a quest that has no real solution.

Periodically a fisherman will, in his secret heart, shout "Eureka" and proclaim to himself that he has found the answer, that fish bite because he is using the right bait and the right method and is fishing at the right time of the day.

WHA HOPPEN?

But then he and his Mercury outboard come back again; he repeats the exact formula and finds to his shock that what was one day a smashing success is the next day a quite dismal failure. Why? What carries his fishing to such heights of happiness and then dashes it to bits on a rock wall of frustration? Is it the way he holds his mouth? Is it the fish? Or just what?

A partial answer is probably the best we'll ever have, and some fish management biologists in Minnesota have offered that. They found that catches by anglers are directly related to the fishes' available food supply.

Low food supply meant many bites. High food supply - few bites. In this particular study the catch of bluegills fell off as the summer advanced because the food supply for the little darlings built up during this period.

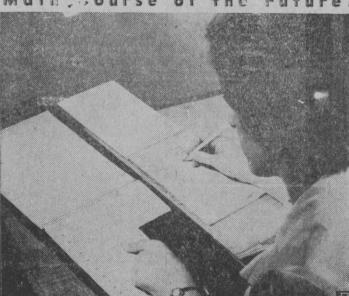

STRUGGLE ONWARD

The conclusion was that the bluegills had so much salad by late summer that they turned the cold shoulder to the angler's entree - the worm. Nobody carries a sandwich to a banquet, and the same is true in fish land, to the dismay of anglers who yearn for a trophy

to gather dust over the mantle. But perverse people that fishermen are, they continue cranking up their Mercury out-boards and struggling against they know not what. And, luckily for them and for the just as often as not they'll run into a cranky bass with indigestion who will strike a lure out of spite, even though he

is crammed with food. And home they come, holding the prize on high, convinced they have solved the problem of why fish won't bite.

Math Course of the Future?

WILMETTE, ILL.—One of the most significant developments underway in education is the introduction of "programmed" learning materials in mathematics, languages and other areas. These materials will be used in the 1961-1962 school year by more than 400 school systems, colleges and universities, according to Encyclopaedia Britannica Films, a

The high school student above is working on first year algebra, using programmed materials contained in a hard cover binder. The plastic slider at the right of the binder conceals the answers until she has worked them out in her notebook. Then she moves the slider down to reveal the answer and check her response. Thus, she benefits from immediate "reinforcement" or knowledge of results. In the normal classroom procedure, she might not know until end of the class period, or perhaps days later, if her answer was correct. Immediate reinforcement strengthens learn-

Homes Built in '46 Boom Celebrating 15th Birthdays

More than a half-million homes built during the first wave of the post-war building boom in 1946 will be 15 years old this year.

Ance of a house is paramount, since the roof color is the key to choosing other exterior colors for siding, trim, and accents.

Improvements in materials during the past decade and a half offer the possibility of keeping a house up to date in appearance and design.

The roof is a case in point. Fifteen years ago, practicely all roofing materials were dark in color. Since that time, new manufacturing technology has given birth to asphalt shingles in a host of lighter colors that have become a distinguishing feature of contemporary design.

Today's Building Materials Result of Constant Research

Today's home buyer gets a better house dollar for dollar and pound for pound than his father did, thanks to constant research to improve building materials and construction techniques. Scientific research has resulted

in such things as better interior and exterior paints that go on easier and last longer, and modern siding that never needs painting. Wood subject to weathering is treated chemically to make it more durable. Hardware operates better and lasts as long as the house itself.

Particularly important to the home buyer—or the home owner intent on remodeling—is the research that the asphalt roofing industry has carried on for dec-

These stabilizers—finely divided bits of blue-black slate, mica, talc, oyster shells, or other platelike materials—permit the use of more durable, softer asphalts for coatings, and improve durabil—mineral stabilizers.

Asphalt can be compared in certain ways to pure gold. Gold, when it comes out of the mine, is too soft to be used for any purpose. But alloyed with other metals, it makes lifetime wedding rings and watches. In the same way, asphalt makes better roofing when it is "alloyed" with mineral stabilizers.

Prepared by American Foundation for Animal Health

A fatal disease which often strikes down the best-fed lambs will again threaten danger to sheep producers' profits this fall.

Most farmers know it as "overeating disease"; veterinarians know it as "enterotoxemia." Chief victims are lambs which are on or approaching, full feed.

Overeating disease varies its attack. Sometimes the owner will come out in the morning and find several of his best lambs dead without warning. At other times there will be warning signs, such as nervousness, staggering, pushing against objects, or circling. If such symptoms are noticed,

Overeating disease sometimes kills the best fed lambs in the

Actually, the best way to avoid overeating disease deaths through prevention. Weapon No. 1 is vaccination ahead of the heavy feeding season. By having a veterinarian vaccinate with protective bacterin, the owner can be reasonably sure his lambs will be safe from enterotoxemia for 5 or 6 months.

There are also several other wise preventive steps which owners can take: 1) When ration changes are made, the change should be gradual. 2) Animals should always have plenty of water. 3) Those which appear overgreedy should have their feeding checked, because these ar- the most likely victims.

Overeating diseas bacteria in the lamb's digestive tract. They do no harm, there, under normal conditions. But when the lamb overeats and the system becomes overloaded, these becteria grow quickly and are triggered to produce powerful poisons. Then, when these poisons are absorbed into the blood stream, enterotoxemia results.

This is a potent, killing disease. We are now entering a season when it seems to strike hardest. and the wise feeder will take every possible measure against it.

Ladies be beautiful AND safe!

Lovelier hair colors, gayer lipsticks, more fragrant per fumes and deodorants all await milady's choice.

But besides being chic, the

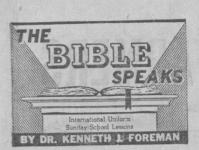

American housewife wants to be safe, too. One Missouri lady became seriously ill from the hair dye she used. Another housewife in New York discovered she was allergic to an ingredient in the deodorant she was using to keep her fresh in

the wilting summer heat. The National Association of Claimants' Counsel of America. a national group of 9,000 trial lawyers who have inaugurated a new program of consumer protection throughout the U.S. points out that manufacturers have a clear legal 'duty to warn' and in addition, that warning must be complete and

adequate.

The mere fact that only a small percentage of those who use face powder or lipstick may turn out to be allergic to them doesn't lessen the seller's res ponsibility, explains NACCA. Buyers should know about "warranty", which is the legal idea that products sold to the public must be fit for the use for which they're intended.

So be alert that the maker of your best new perfume is doing his duty, gals, and the old wives' tales about green hair and purple nail polish won't plague the pretty -- and safe - American house frau;

Second Fiddle

Lesson for August 20, 1961

S OME people are born to be second fiddles. This is no disgrace. In an orchestra it is no disgrace to play with the second violins. Every symphony is written for all instruments, not the first violins only. The second vio-

violins went on strike, the or-Dr. Foreman chestra would have to fold up till they came back again.

So it is with the people who, so to speak, play second fiddles all their lives. They may not sit in the front row and they may not play the principal melody, but we cannot do without them. The true music of life must have them.

-and Silas . . . Silas and . . .

* There was a man named Silas, who is mentioned a number of times in the New Testament; but never mentioned alone. He is always somebody's companion, always a member of a team. It is "Paul and Silas," "Judas and Silas," "Silas and Timothy" ("Silvanus" in 1 Thess. 1:1 is the same name, like William and Bill); even when Silas is mentioned alone, as he is by Saint Peter, he is helping some one else. Apparently you never thought of Silas without thinking of some one else too. Now this is nothing against him. He was simply a second-fiddle man. He was no soloist, but the music the early church played, so to speak, would have missed something of importance if he had not been playing. Sometimes football or other athletic teams will vote for the player "most valuaba to the

team." This one is very seldom the man the public watches for and hears most about.

Hero and Leader

Being second-fiddle, or supporting actor, or team-mate or whatever you call it, does not mean that one leaves great accomplishments to others. The sec dle's work is cut out for him and the conductor of the orchestra expects to hear him. So it was with this Silas. The early Christians recognized him as a leader; indeed that is the way he is introduced at the first mention of his name. Furthermore, he was called a "prophet," which does not mean a reader of tea leaves or crystal balls, it means an inspired preacher. Other men learned the will of God through listening to him. Besides this, he could be a hero when the time came. His name will always be remembered alongside that of Paul in the incident at Phillipi, when they were both beaten and thrown into jail; it was no solo the prisoners heard at midnight, it was a duet. Paul and Silas both, in the midst of that ugly place, sang their hymns together.

Indispensable Man

In one sense, nobody is indispensable. Everybody dies sooner or later, therefore those who are left behind can, if they have to, get along without him. But when we speak of indispensable men we mean men we don't intend to get along without, unless we have to. When Barnabas and Paul split up, Paul had to have some one, he needed a helper. If Silas was less impressive than Barnabas (as he was, to be sure, for nobody ever mistook Silas for the king of the gods, as they mistook Barnabas once) at any rate Paul needed him. On one occasion Paul simply would go no farther on his important journey until Silas and Timothy could eatch up with him and they could all go on together. When Saint Peter set out to write a letter he needed some one to help him, and Silas was the man. Peter did not have to mention Silas' name, but he wanted all his readers to know it was Silas who helped him. So the reader of the Bible who is helped by this first letter of Peter may be thankful for the man Silas; the same thing is true of 1 Thessalonians. For the obscure who help the great, let us give thanks!

NOW'S THE TIME TO MAKE DANISH PASTRY

If you've never tried your hand at making Danish Pastry, now's the time to do so, for the recipe below is as simple as a true Danish Pastry recipe can be. If you've lots of experience at it, then you'll enjoy making it. Developed in the Fleischmann's Yeast Kitchens, it's a no-knead refrigerator dough that takes less than an hour to rise once the pastries are

The secret of the flakiness is the rolling in of the margarine between layers of dough. Have the dough well chilled, and the margarine soft enough to spread but not melted, and the rolling will proceed easily; work quickly so the dough stays cold.

3/4 cup milk 1/3 cup sugar 2 teaspoons salt

2 teaspoons sait
1/4 cup (1/2 stick) Fleischmann's
Margarine
1/3 cup very warm water
1/2 packages or cakes Fleischmann's
Yeast, active dry or compressed

Marg
Preserv
1 egg w
Sugar

DANISH JAM TURNOVERS 3 eggs, beaten 4½ cups sifted flour 1 cup (2 sticks) soft Fleischmann's Margarine Preserves egg white, slightly beaten

Scald milk; stir in sugar, salt and ½ cup margarine; cool to lukewarm. Measure very warm water into mixing bowl. Sprinkle or crumble in Fleischmann's Yeast; stir to dissolve. Stir in lukewarm milk mixture and eggs. Gradually add flour, beating smooth after each addition. Refriger-

ate 2 hours.

Roll chilled dough on lightly floured board to make rectangle 12 x 16 inches. Spread ½ cup of soft margarine on ½ of dough surface. Fold unspread portion of dough over ½ of spread portion. Fold third section over first two. Roll dough to original size and repeat this process twice using remaining margarine. Refrigerate, covered, overnight.

When ready to make turnovers, divide dough in half, returning one-half to refrigerator. Roll dough lengthwise into a 15 x 12 inch rectangle. Cut dough into 3-inch squares. Put 1 teaspoon preserves on center of each square; fold each into a triangle and pinch edges to seal. Place on greased baking sheets. Brush tops with egg white and sprinkle with sugar. Repeat with remaining half. Let rise in warm place, free from draft, until doubled in bulk, about 30 minutes. Bake in moderate oven (375° F.) 10 to 12 minutes. Cool. If desired, frost with confectioners' sugar frosting. Makes 40.

Many farm ponds and slowmoving streams this summer way be harboring a \$100 million Marmat to cattle and swine . . . and a potent hazard to human

The threat is the disease known as leptospirosis-"lepto" for short. It is now costing cattle raisers an estimated \$112,000,000 a year in losses. Swine producers are experiencing heavy losses

Why are ponds and slow moving streams such key factors in spreading this disease? The answer is that "spreader" animals which have leptospirosis organisms in their systems "shed"

often pick up leptospiropends or slow-moving

these organisms through their urine. The organisms live on in the streams and ponds, and can thereby infect both livestock and human beings.

This is why authorities urge farmers to bar off such water sources to prevent their contamination by carrier animals. Farmers should also note that leptospirosis can be spread by body contact, too

One of the big problems about leptospirosis is that it may look like several other diseases. So, livestock owners should become aware of some of its symptoms so that at the first warning signs a veterinarian can check and advise. In cattle, "lepto" occurs in both the "mild" and the "severe" form. The mild form causes cows to lose their calves and to show loss of appetite, difficult breathing, reduced milk flow, or milk may be thickened. Semetimes urine is tinged dark brown. The severe form also causes loss of calves, scouring and jaundice . . and in calves it causes stunting and chronic ill health.

Fortunately, leptospirosis can be prevented both in susceptible cattle and hogs by vaccination. should be left up to the veteri-narian, after he has examined the animals. Vaccination is a in any area where this discount has

Other preventive steps include cilities, keeping livestock out of damp, low pastures, and having replacement stock blood-tested.

THERE'S just no denying it-once spring sunshine comes peering through your windows, dust and dirt is bound to show its ugly face. Time, then, to bring out the cleaning equipment - window washing aids, furniture polish, floor wax and, by all means, don't forget a box of oval blue soap pads for shining pots, pans, oven and electrical appliances. It's the easy way of cleaning and so easy on the hands, too!

SPEED UP dish washing chores by using a little plas-tic mesh ball, Tuffy, for stuck-on foods. It harms neither china nor silver.

BRIGHTEN UP the cookie sheet with a quick wash-up and some easy rubbing with an oval blue soap pad.

PLAN a simple supper after that first day of spring cleaning. An oven broiled steak, baked potatoes, salad, baked apples and lots of good coffee will feed a'plenty. Remember to use the plastic mesh ball to clean potatoes and apples in no time flat.

Men will keep going on their nerve or their head, but you cannot ride a horse when he's dead.
