The "1812 Overture" was written in 1880 to commemorate the fighting between the Russians and Napoleon's forces. It was first played on the 70th anniversary of the burning of Moscow, by its Russian patriots. The music was very moving and ended with the victorious roaring of cannons and ringing of the church bells while the Russian national anthem was played.

## SOCIAL SECURITY

Some self-employed farmers believe that they do not have to file a federal income tax return if they do not owe any income tax. Mr. L. J. Gillespie, Field Representative of the Baltimore (North) District Social Security Office, reminds farmers that this belief is incorrect. He emphasizes that if a farmer's net profit amounts to \$400 or more in a taxable year, the farmer must file a federal income tax return and pay the social security self-employment tax due on his net profit.

We know that some farmers in this area are failing to take advantage of optional methods of filing their income tax returns, which are provided by the Internal Revenue Code and Social Security Act. If a farmer's net profit from his farm is less than \$400 for a taxable year and he has gross receipts from sale of farm products in amounts of from \$600 to \$1800 he may elect to pay self-employment tax on two-thirds of the gross amount. He will thus obtain retirement and disability and survivors insurance for himself and eligible members of his family.

Mr. Gillespie also said that if a farmer's gross receipts are over \$1800 and his net profit is less than \$1200 he may use the option of reporting \$1200 as his net profit and obtain better social security insurance protection for himself and his family.

Quite a number of younger farmers have lost valuable insurance that they may have qualified for. For example, I talked with a farmer last week who became disabled because of a heart attack in September 1961. He could have used the optional method of reporting for each taxable year from 1955 through 1960 (even though his net income was less than \$400, he had a gross of more than \$600, but had not filed a tax return for any year. Since he is now barred by a statute of limitations from getting credit for any year prior to 1958, it is impossible for him to have the five years social security coverage necessary to qualify for disability benefit payments for himself, his wife and three small children.

None of us know when death or disability may strike us and insurance benefits are likely to be of vital importance. We urge everyone who has questions or desires information about his social security to contact the District Social Security Office at 3107 Greenmount Avenue, Baltimore 18, Maryland.

## "SPICE 'N' EVERYTHING NICE"

With all my heart, I wish you every morning  
A smile that shall last until the next day's dawn  
I wish you health—life's greatest wealth;  
I wish you always near so that I may help to cheer  
Each future day and in some way—help to bring you happiness!

It surely describes the title of "STARS AND CARS" for there are so many Stars suspended from the ceiling of the 5th Regiment Armory for the Auto Show. This year it all appears more spacious unless there are not as many cars shown as the last few years but one could even see the glamorous Oriental Rugs to a better advantage on which the cars stood. And they do add a certain oomph! I saw only one black car in the show as all are of the pastel colors but yet not as vivid as other years—sort of toned down to a certain degree. All the cars are lovely but somehow that "OLDS" stands out as the saying, "There's Nothing Like an OLDS!" The one that left a lasting impression upon me was the beautiful "Wedgewood Mist Blue" F-85 Cutlass Convertible. Simply a DREAM! There was a very old affair there—a Cadillac of the year of 1902 and the price, believe it or not \$25,000! It appeared as though it had been shined constantly all down through the years. That company holds it as something very special. One car of the future called the "Corvette" which is something very unusual and appears low and squat with glass all top and built like a plane—an experimental future car and that surely did draw the crowds. All in all, it is just another automobile Show which seems to fascinate every individual no matter whether you are in the market for one or are just looking but it does give you ideas! Nuff Sed! The lighting of this glamorous affair was fascinating as the stars even in the ceiling glittered beautifully.

Walking down Howard Street stopped in to look and browse around the Antiques in what I call "Antique Row" as I have been trying to locate for a number of years a little glass cabinet to hold and keep in safety the "Memories" I possess. And there was one exactly as I desired. I brought it home and gave it a top coat of "Gold Leaf" and it appears as though it stepped out of a parlor of many years ago! It has a mirrored back and glass shelves, French legs and all gilt. It is a most unusual piece although small.

Almost forgot to mention that the Ford in the Co. in Randallstown which had a real padlock on the wheel was finally opened by a gentleman on Friday to whom a key was sent and therefore believe it or not he was presented with the shiny new car! Of course, your observer had a try with a key sent to her, too!

Have written to "DuPont" dear readers, requesting the most wonderful show as a repeater called, "Wuthering Heights" with the Star, Julie Harris. This is the T. V. show I have written in this Column of last year. Will surely let you know in my next Column of the reply's contents.

The "new" look at Hochschild's on the first floor seems to be progressing very rapidly. The store windows are just full of brides with their beautiful bridal gowns and every one entirely different. So if you are a bride to be, better make the special trip and see just what is being worn today.

Sometime back I wrote about the grand Vacuum cleaner of the "Singer" company I have had the one eight years and is still as good as the day I bought it. The other day the little belt came off of the brush which revolves and I phoned down to their company on Lexington Street. Folks, it is truly the service that counts every time for the man was up here the following day and in a minute the belt was placed back again. That's "SINGER" for you! Truly, that is how they built their name! I still say no other make Vacuum or Sewing machine can compare with this make! The young man, Mr. Kramer as all their mechanics are tops!

When it comes to "Second Time Around" at the New Theatre with Debbie Reynolds, Andy Griffith and Steve Forrest, you will enjoy every minute of it. Frankly, I never liked Debbie Reynolds as much as in this picture. She is even more beautiful since her "Second Time Around"! It is a lively comedy all the way through but the audience was surprised as to the ending. I think that Steve Forrest steals the show from Andy Griffith. The theatre was crowded. Don't miss it!

Mrs. Housewife, you will never purchase a box cake when you make a "Hot Milk Cake"—so easy. Beat 4 eggs with the mixer (not separated) for five minutes add 2 cups of sugar, 2 cups flour, 2 teaspoons of baking powder, 1 cup hot milk with ¼ pound butter or margarine, a pinch of salt and one teaspoon vanilla. Blend all together and you will say, "Mmmmm Good!" Top it off with a favorite icing and the lemon icing is really what gives it that sort of twang flavor. 400° oven!

I'll close for this time Folks, and like that song do, "Make Someone Else Happy and you will be happy, too!" Until next week, D. V.

The trailer is to be removed from the premises.

Mr. Wayne K. Wantz received approval of a request for a trailer location on Maryland Route 194, approximately 300 yards south of the Maryland-Pennsylvania line. The Board indicated this location was in a sparsely populated rural area, an expressed a feeling that a trailer location here may not have any adverse effect on the surrounding community.

**POLITICS BLOCKS RATE REDUCTIONS**

Down in the Southeast, a major railroad has proposed to reduce the rates charged for carrying grain—a step that would give poultrymen and livestock raisers a break they sorely need. Also, the reduced rates would lower the cost of certain basic foods to the consumer.

But the Tennessee Valley Authority, which wants the grain to move by water, has protested and is attempting to block the reduced rates. TVA has made a number of statements which spokesmen for the railroad have refuted out of hand, based on compelling evidence.

This aside, we see here an excellent example of how government and government agencies—at various levels—have made a policy of blocking the ability of the railroads to compete for business, and to provide the best of service at the lowest possible cost.

Water carriers around the country have been especially active in attempting to stop railroads from competitively pricing their transportation service. They have claimed that the rails intend to haul the traffic at less than cost. This is absurd on the face of it—for, as one railroad leader has put it, "As financially hard-pressed as they are, the railroads are in no position to carry freight at a loss."

Railroads ask the right to compete, and to be treated with equality under law—nothing more. Only Congress can provide that. So far it has failed miserably.

**FACTS AND OPINIONS**

Columnist George Sokolsky writes: "Considering the serious problems that face the President and the Secretary of state, neither should be burdened with the little scandals that arise out of the maneuvers of lower officials to manipulate policy by day by day action. It is natural for insecure men to seek power and to grow up on it, but the country ought not to be burdened by such trivialities which grow into nuisances. The only way to safeguard the United States from such situations is to form policy at the very top and to insist that all secondary officials conform to major decisions; that those in secondary offices who are by doctrine or emotions incapable of conforming to top decisions be summarily dismissed...."

Assistant Vice President Douthat of the National Association of Manufacturers lists some of the highly controversial issues that the new Congress must consider. These include federal subsidies for schools; health benefits to the aged under the Social Security System, to be financed by higher Social Security taxes; taxation of income earned abroad even though it is not brought into this country, and the creation of a new cabinet Department of Urban Affairs and Housing, to deal with problems hitherto regarded as local.

An event designed to change the image of atomic energy from that of a force of destruction to that of a benefactor of mankind will be held in New York, June 4-7. Known as the 1962 Nuclear Congress and International Atomic Exposition, it will be the largest demonstration ever held under one roof of the peacetime uses of atomic energy by the nations and industries of the free world.

In a report to Attorney General Kennedy, J. Edgar Hoover announces that significant increases were recorded in several major categories of FBI accomplishments last year. There were more convictions and more apprehensions of fugitives. Fines, savings, and recoveries totaled some \$150 million—an amount far exceeding the FBI's operating budget.

An abnormal brain pattern has been found among a significant number of adolescents who commit murder and other acts of violence, according to a psychiatrist writing in the Archives of General Psychiatry, an American Medical Association publication. While the exact role of this organic factor has not been determined, he says, the phenomena "is linked far more than by chance to the occurrence of aggression and violence by children and adolescents."

President David Rockefeller of the Chase Manhattan Bank states: "Our success in this huge effort to expand the economies of the Free World will depend in the final analysis on the contribution of private business. While it is currently fashionable to characterize Western economies as 'mixed', it is sometimes forgotten that the mixture consists of four-fifths private enterprise and around one-fifth government. The Free World's private businesses are producing goods and services at an annual rate of more than \$700 billion, at least double the total production of the Communist bloc where state enterprise is all-encompassing."

Robert G. Dunlop, president of the Sun Oil Company, recently stressed his "faith in the common sense of the American people to preserve private property—and freedom to compete and to choose—as the dominant principles of American life—not to be lured backward by the false notion that others somehow have the magic to protect us from work and to provide us with 'the good life' for the asking."

Columnist Sylvia Porter writes: "Today, France trades in francs, Britain trades in pounds, West Germany trades in marks, Holland trades in guilders—and so it goes across the map of Europe. For centuries, this is the way it has been.... Tomorrow, it's probable—not just possible, but probable—that a united Europe will have a common currency backed by a common monetary reserve, representing & protecting all the member nations. While each nation will continue to have its own currency, they will trade with each other in terms of the common money."

Barry Goldwater says: "When liberals talk loosely about this country's lost purpose, I suggest they might remember that one of our Republic's purposes is freedom and that we have remained free for nearly two centuries; and that we have, must be listed as one of the great achievements of history."

**Juicy Purple Plums Enhance Dessert**

It's hard to find a better—or more inexpensive—treat than "Society Dessert" to serve at a club meeting in your home. If there's any left over, the family will go for it, too.

Graham cracker crumbs form the base and topping for a filling of canned purple plums, chopped pecans and whipped evaporated milk in a lemon gelatin mixture. A luscious purple plum half atop each chilled serving provides an elegant touch.

Rich-looking canned purple plums, which have been scarce for the last two years, are now available in good supply in grocery stores to add delightful flavor to many desserts and entrees.

**Society Dessert**

1 can (14½ oz.) evaporated milk	¼ cup fresh lemon juice
1 can (1 lb. 15 oz.) purple plums in extra heavy syrup	1 tablespoon grated lemon rind
½ cup chopped pecans	1 cup sugar
2 packages lemon gelatin	1½ cups graham cracker, ginger or vanilla candy crumbs
3 cups hot water	

Pour evaporated milk into refrigerator tray; chill until icy cold and partially frozen. Drain plums. Pit and cut into small pieces. Add nuts. Dissolve gelatin in hot water and chill until partially set. Whip until light and fluffy. Add lemon juice, rind and sugar. Whip chilled milk and fold into gelatin mixture. Line bottom of 13 x 9-inch pan with crumbs, reserving ¼ cup for top. Pour in half of gelatin mixture. Arrange plum mixture over it. Spoon in remaining gelatin and sprinkle with remaining crumbs. Chill until firm. Cut into squares to serve. Garnish with purple plum half, if desired. Makes 15 servings.

**This Groundhog's A Veteran Speleologist!**

**LURAY, VIRGINIA:—**  
Ever wonder where a groundhog spends the winter? Known for many years to guides and personnel at the Beautiful Caverns of Luray, Virginia, as "Old Cave Man", this particular groundhog roams Cave Hill and feeds on apples and leafy vegetables.

The question of where he hibernates was solved recently when he was discovered deep down among the stalagmites of these world-famous caverns. Evidently "Old Cave Man", like their hundreds of thousands of annual human visitors, enjoys the air-conditioned comfort of the year-round 54° temperature!

THE BLOODIEST DAY OF THE CIVIL WAR — Historians have called the Battle of Antietam the bloodiest day of the Civil War. This battle which was fought on September 17, 1862 near the quiet town of Sharpsburg, Md., developed into a three-phase battle. The first phase of the battle was fought near the little white Dunker Church (pictured at right) the second phase by a sunken road, later called the "Bloody Lane." And the third phase was fought near a stone bridge crossing Antietam Creek, later called "Burnside's Bridge" (pictured at left). The above photographs were taken during the Civil War period.

WRITE A WANT AD CASH IN ON STUFF IN THE ATTIC

THIS CHANGING WORLD by WALDMAN

By 1887, the 2,519 American college girls' fashions included flannels, calico dresses and aprons. Laundry day involved scrubbing on a board, boiling in a "copper", bluing, starching, rinsing, mangling, hanging and then pressing with a smoothing iron!

Today's college girls - approximately 1,500,000 - live in dorms with special laundry rooms. Detergents and bleach, convenient dry chlorine bleach make caring for modern fabrics quick and easy.

The Unique History Of Blue Cross

In 1929, 1500 school teachers in Dallas, Texas, formed their own "hospitalization fund." In return for a yearly dues payment of \$6.00, each member was assured needed care in Baylor University Hospital. The idea spread to other hospitals and groups, then to other cities. This was the birth of Blue Cross.

These pre-payment plans also helped stabilize hospital income during the hard depression years. Many hospitals would otherwise have had to close their doors. In 1933 the American Hospital Association drew up a list of approval standards which all such Plans must meet. Most important is this: each must operate solely in the public interest, with no individual or group making a profit.

The Blue Cross was accepted as the official Plan symbol in 1939. The American Hospital Association seal in the center means that Plan standards, which are reviewed each year, meet the AHA requirements. Blue Cross has now enrolled more than 56 million people in the United States. This is more people than have ever joined such a voluntary movement in all the world's history.

Signs Of Safety

A "stop" light on the road is obvious - and easy to obey! But we don't always have signs telling us when to stop. The House of Ceagram, in its annual safety message, advises, "When it's on" for the road, be sure it's coffee," and offers these additional facts about the signs of safety.

- 1. First traffic lights appeared in America in 1916 - 23 years after the first automobile. Traffic lights signal more than just "stop and go." A green arrow means go - but yield right of way to pedestrians and other traffic. A yellow light means caution.
- 2. This 8-sided sign of safety, familiar as a "stop" sign also means "winding road" and "no passing."
- 3. Do you know the message of this diamond-shaped sign at a glance? It warns of a railroad crossing or school zone.
- 4. When you see a round sign ahead, be prepared to stop! It signals a road hazard and can also denote a railroad crossing.
- 5. The rectangular sign is a warning of road hazards or an intersection.
- 6. A triangular sign tells you to "yield right of way."

## how to help in case of... HEART ATTACK

• Call the doctor at once.

• Help the patient take the position that is most comfortable for him. (This will probably be halfway between lying and sitting. He usually cannot breathe comfortably if he lies flat.)

• Do not attempt to carry or walk the patient without the doctor's supervision.

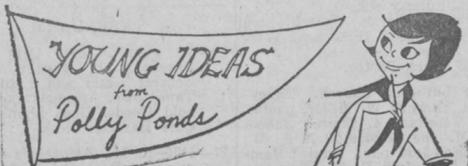

• Loosen tight clothing such as belts and collars.

• See that the patient does not become chilled, but do not induce sweating with too many blankets.

• Don't give drugs or anything to drink without the doctor's advice.

ADVICE given above may help save a life. It is a part of the educational message being delivered to homes here and throughout the nation by Heart Fund volunteers when they call on their neighbors on or about Heart Sunday, February 25. The residential visits, climaxing the month-long Heart Fund campaign, will be joined by more than 1,750,000 volunteers. Slogan of the campaign is: "More Will Live—the More You Give."

Is an oily skin unhealthy—and is there anything you can do about it?

A: An oily skin is not unhealthy but it can produce blackheads and enlarged pores if you don't do anything about it. For instance:

Watch your diet and stay away from too many rich fatty foods, soft drinks and desserts. Eat more fresh vegetables, broiled meat and fish and drink plenty of fruit juice and at least three glasses of water a day.

Deep cleanse your skin and keep your pores free from dust and hardened oil by washing your face nightly with cold cream. Simply smooth it over your skin, work it in with gentle upward-outward motions of your hands, then remove the excess cream with tissues. Make this treatment a regular habit and you'll have a better looking skin to show for it—now, and for many years to come.

## FANCY THAT! by WALDMAN

Swiss guides have traditionally eaten huge amounts of confections to give them energy for leading mountain climbing expeditions. These Alpine explorers long ago recognized the value of candy and chocolate as "high-octane fuels" for the body and brain.

World War I doughboys were the first large scale consumers of candy and chocolate bars. They needed the energy food to overcome fatigue. Today, all combat rations include confections to increase the staying power and morale of troops.

Regular "candy breaks" to give employees extra energy are becoming commonplace in industrial plants and business offices. Companies are using candy and chocolate to increase productivity and improve the spirit of employees. By providing confections, mid-morning and mid-afternoon fatigue is overcome enjoyably.

## All-Bran Adds New Taste Dimension to Brown Bread

If you're planning a Saturday night bean bake supper, try this easy recipe for an unusually good-tasting brown bread accompaniment. Whole bran cereal in the bread imparts a nut-like flavor. Baking rather than steaming the bread is a time-saver in preparation. Serve baked beans and Bran Brown Bread with tart cabbage slaw.

### BAKED BRAN BROWN BREAD

Yield: 2 loaves, 4 1/2 x 2 3/4 inches or 1 loaf, 9 1/4 x 5 1/4 inches  
1 cup Kellogg's All-Bran  
1/2 cup seedless raisins  
2 tablespoons shortening  
1/2 cup molasses  
3/4 cup hot water  
1 egg  
1 cup sifted flour  
1 teaspoon baking soda  
1/2 teaspoon salt  
1/2 teaspoon cinnamon (if desired)

Measure All-Bran, raisins, shortening and molasses into mixing bowl. Add hot water, stirring until shortening is melted. Add egg and beat well. Sift together flour, soda, salt and cinnamon. Add to All-Bran mixture, stirring only until combined. Fill 2 well-greased cans (4 1/2 inches deep, 2 3/4 inches across) about 3/4 full; or spread in greased 9 1/4 x 5 1/4-inch loaf pan. Bake in moderate oven (350° F.) about 45 minutes for canned bread or about 35 minutes for loaf bread. Remove from cans or pan. Slice and serve hot.

### LIGHTING MIRACLES

TOO MARVELOUS TO BE CONTEMPLATED 75 YEARS AGO ARE NOW BEING TAKEN FOR GRANTED...

IN 1900, EIGHT FAMILIES OUT OF TEN WERE USING EITHER CANDLES, GAS, OR KEROSENE TO LIGHT THEIR HOMES... TODAY, WE HAVE ELECTRIC LIGHTS 1000 TIMES STRONGER THAN CANDLES.

THE AVERAGE PERSON SELDOM REALIZES THAT THE LIGHTING OF OUR HOMES, SCHOOLS, STREETS, FACTORIES AND OFFICES, IS THE WORK OF ILLUMINATING SCIENCE...

THROUGH THE ILLUMINATING ENGINEERING SOCIETY, THE NATIONAL AUTHORITY ON LIGHTING STANDARDS, NEW INFORMATION ABOUT LIGHTING IS CONSTANTLY BEING UNCOVERED AND PRACTICAL RECOMMENDATIONS FOR BETTER LIGHTING ARE MADE.

HISTORIC MEETING... ON JANUARY 10, 1906, A GROUP OF LIGHTING ENGINEERS HELD THE FIRST MEETING OF IES IN NEW YORK CITY. TODAY THE SOCIETY IS A DYNAMIC FORCE IN ADVANCING ILLUMINATING SCIENCE IN EVERY AREA OF HUMAN ACTIVITY.

### DID YOU KNOW?

A LARGE SEATTLE BANK HAD ITS BEGINNINGS IN A PIONEER GENERAL STORE WHERE LOGGERS, TRAFFERS, FARMERS AND MERCHANTS DEPOSITED THEIR MONEY IN AN EMPTY COFFEE BARREL FOR SAFEKEEPING.

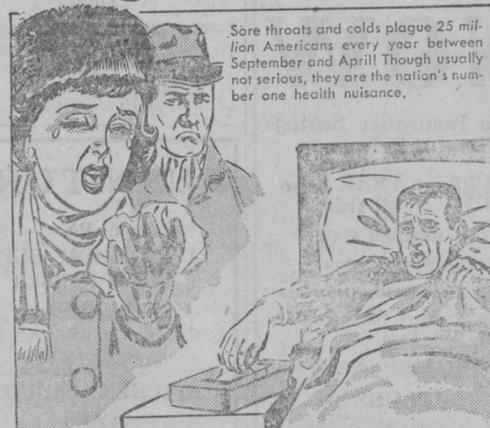

CHICAGO BANKERS "SAVED THE DAY" FOR TWO MANUFACTURING EXECUTIVES WHEN FOUNDERS WIDOW THREATENED TO SELL HER CONTROLLING INTEREST IN THE BUSINESS THEY ADMINISTERED. BANKERS LOANED THE EXECUTIVES SUFFICIENT MONEY TO BUY WIDOW'S SHARE FOR THEMSELVES. TODAY THEIR COMPANY IS THE LARGEST IN ITS FIELD.

## To Your Health!

Sore throats and colds plague 25 million Americans every year between September and April! Though usually not serious, they are the nation's number one health nuisance.

Twenty-eight million working days and a whopping \$420 million in salary are lost annually by sore throat and cold victims.

Researchers at a Veterans Administration Hospital have tested a new sore throat discovery called Chloraseptic. Their findings: "More than 200 patients were treated with Chloraseptic Mouthwash and Gargle. All patients reported relief from throat soreness within seconds with this safe non-prescription product."

## Meal In Itself

SALMON-EGG CASSEROLE is a easy-to-make and delicious dish. Serve it with hot French bread or rolls and a tossed salad.

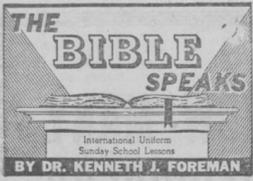

Here is a dish, suitable for Lent, but delicious at any time of the year, in which tender, appetizing flakes of salmon are blended and baked with rice, eggs, and delicate spices. Simple to prepare, this casserole is inexpensively elegant and eminently satisfying as a main course for luncheon, dinner, or supper. It may be made early in the day and heated half an hour before mealtime.

Salmon-Egg Casserole  
1/2 cup butter  
1 medium onion, chopped  
1 cup chopped celery  
1/2 cup flour  
1/2 teaspoon basil  
1/4 teaspoon thyme  
1 teaspoon salt  
1 1/2 teaspoon pepper  
1 1/2 cups milk  
2 cups cooked rice  
A 1-pound can salmon, drained and flaked  
6 hard-cooked eggs, quartered

In a saucepan melt butter. Add onion and celery and cook for 10 minutes. Stir in flour, basil, thyme, salt and pepper. Gradually stir in milk and cook over low heat, stirring, until sauce is smooth and thick. Arrange rice in bottom of a 2-quart greased baking dish. Top with salmon and eggs. Pour in sauce and bake in a preheated 350° F. oven for 25 to 30 minutes. If desired, serve with sour cream. Serves 6.

### Rest and Gladness

Lesson for February 4, 1962

A BUS schedule has been put out in four sections: Saturday, Sunday, Monday and Week-days. In American cities most people do not have longer than a five-day work week. The "Day of Rest" has become one of the days of rest. Nevertheless, people come to Sunday about as tired as they used to be when everybody worked right up to Saturday night, only for different reasons. Some people pay no attention at all to Sunday, and work or play on that day just as on any other. Some find Sunday a burden, others find it a problem. Yet it ought to be a golden day. "Day of all of the week the best."

**Day of rest**  
The Fourth Commandment says two things clearly. One: By God's intention, one day in seven is a "holy" day. Two: It is to be a day of rest. The Christian church, after long argument, finally came to observe the first, not the seventh day, and we give it a new name, the Lord's Day, in memory of the resurrection of our Lord. (Though it is still called the Sabbath by many Christians.) The day chosen is less important than how the day is used. We believe—"we" meaning the great majority of Christians today—that the Fourth Commandment has not been set aside. We would say that the Fourth Commandment gives us a guide to how we may best use the Lord's Day; and we would also say that the attitude of Jesus to the Sabbath gives us further clues to the right attitude to the Lord's Day. The first point is that it is holy. It is a different day, a set-apart day, for that is what "holy" originally meant. It is God's day, because that also is what "holy" meant. Further, it is a day of rest. Machines need rest, plants and animals need it,

and human beings must have a **Day of worship**. Now our Lord's use of the Sabbath gives us the Christian line. He knew the Fourth Commandment; but he did not suppose that "rest" meant doing literally nothing. Certainly his Sabbaths were extremely busy; you might say He worked overtime on that day. For one thing it was then as now the day set apart for worship. It was His custom to attend the synagogue on the Sabbath day. He could have preached better sermons than he heard there, but He went all the same. Christians do not always appreciate enough what it means to be able to worship in freedom and peace. We are throwing away one of God's best gifts when we let a Lord's Day drift by without joining other Christians at worship, if we are able to go at all. The first thing communists do when they take over a country, such as China or East Germany, is to make it impossible for Christians there, or extremely difficult, to worship in church. If you can get a whole generation growing up without leisure for religion, you have driven religion underground, and it will take a long time to return. So the Lord's Day is a prime target of communism.

**Day for doing good**  
The Pharisees of Jesus' time were very strict about the Sabbath Day. Jesus set as much store by it as they, but in a different way. Their big question was: What is WRONG to do on the Sabbath? Jesus' question was: What is RIGHT to do? When Jesus saw any one in need of help that He could give, He never looked at the calendar first to make sure what day it was. It is lawful to do good on the Sabbath, He said. Don't most of us have in the back of our minds some one thing, at least, some kind and helpful act, which we could do if we only had time? Well, the Lord's Day is the time. To come to that blessed day, the "Day of rest and gladness," wondering whether we ought to do this or that, worrying about what we are supposed to do or not to do, is frustrating. But to come to the day with the question: What good can I be, what good can I do to others, on this day when the pressure is off? is the first step to a happy day. This day was made for man, as Jesus said. For his body, his mind, his soul. Whatever makes ourselves, and others nearest us, better persons, is surely a right thing to do on the day named for one who "went about doing good."

### A VIEW OF THE INNER EAR DOUBLE DIAGNOSIS

A tiny holder for x-ray film, so small it fits into the human ear, has become a big weapon in the medical fight against hearing losses. Many people have hard-of-hearing defects, and often they're unsuspected. The x-ray device, smaller than a dime, fits into the ear canal next to the eardrum. An x-ray film inside the holder is exposed, in the usual way, by the beam from the x-ray machine. An x-ray film, or radiograph, is then available for study by radiologists, the doctors who specialize in medical x-ray.

To get information about the ear before, surgeons sometimes had to perform exploratory operations. It was just impossible to "see" enough to diagnose the trouble. Now, evidence is available without need for surgery. It means a helpful guide in more effective treatment.

Prepared by  
**American Foundation  
for Animal Health**

America's livestock producers are now taking a financial licking of more than 100 million dollars a year due to causes related to faulty nutrition.

Animals lose weight, milk production is reduced, young animals are born blind, deformed or dead, and mature animals may have defective bones... all this caused by faulty nutrition alone.

Vitamin deficiencies can cause calf problems.

One of the most important nutritional problems at this time of year is Vitamin A deficiency. It causes such severe losses that the national committee in charge of Livestock Loss Prevention Year is making a special drive against it this month.

For the farmer, it is important that he know key symptoms of Vitamin A deficiency, so he can be alert for them and get prompt help when they appear. In young calves, symptoms include watery eyes, nasal discharge, cough, wrinkled skin, staggering, and weakness. Mature cattle may develop night blindness or have swollen legs and forequarters. Cows may produce weak, blind, or dead calves.

In swine, Vitamin A deficiency may cause blindness, muscular incoordination, respiratory difficulties, and production of weak, blind, or malformed pigs.

The first thing an owner should do if any of these tell-tale signs appear in his livestock, is to have a proper diagnosis made, to be sure of the cause. Some of these troubles can also be caused by things other than Vitamin A deficiency.

If lack of Vitamin A is the cause, the answer, naturally, is to bolster the ration with corrective amounts of the vitamin. Sometimes, special supplementary treatment may also be needed.

The best plan, of course, is to prevent such deficiency problems. This can usually be done by feeding green, leafy legume hay or yellow corn.

### COFFEECAKE FOR PARTIES

Martha Washington's Fan is a coffeecake that is particularly appropriate to serve on any of our patriotic holidays. With its beautiful and unique shape and richness of taste, it is typical of the elegant fare that our first First Lady served to prominent guests on gala occasions.

- MARTHA WASHINGTON'S FAN**
- |   |  |
|---|--|
| 2 packages or cakes Fleischmann's Yeast, active dry or compressed | 3 eggs, beaten                             |
| 1 1/4 cups very warm water  | 3/4 cup shortening, melted and cooled      |
| 1/2 cup sugar   | 3 tablespoons soft Fleischmann's Margarine |
| 1 1/4 teaspoons salt  | Caramel Filling, below                     |
| 2 tablespoons dry milk solids                                     | Confectioners' sugar icing                 |
| 5 1/2 to 6 cups unsifted flour or 6 1/2 cups sifted flour (about) |  |

Sprinkle or crumble Fleischmann's Yeast into very warm water in large mixing bowl; stir until dissolved. Add sugar, salt, dry milk, and 2 cups of the flour. Stir to blend, then beat well. Stir in eggs and cooled melted shortening. Beat well. Stir in remaining flour, or enough to make soft dough. Turn out on floured board and knead until smooth and elastic, about 10 minutes. Place in greased bowl, until doubled in bulk, about 1 hour. Meanwhile make Caramel Filling (below). Punch down. Divide into three equal portions, and let rest 5 minutes.

Roll one third of dough into a long narrow sheet 6 inches wide and about 20 inches long. Brush 2/3 of the length of the sheet with 1 tablespoon softened margarine. Sprinkle with Caramel Filling for one fan. Fold the unspread part over one third of the spread dough. Then fold again, making 3 layers of dough and 2 layers of filling. Seal the edges and end. Place on greased baking sheet. Starting 1 inch from sealed end, cut 10 strips leaving the opposite side uncut to about 1 inch in from the edge. Separate the strips slightly and twist so that the filling shows. Repeat with remaining dough and additional filling, or shape as desired. Cover; let rise in warm place, free from draft, until doubled in bulk, about 45 minutes. Bake in moderate oven (350°F.) 25 to 35 minutes. While slightly warm top with confectioners' sugar icing. Makes 3 coffeecakes.

| 1/4 cup brown sugar | 1/4 teaspoon cinnamon                 |
| 1/4 cup flour       | 2 tablespoons Fleischmann's Margarine |
| 1/4 teaspoon salt   | 2 tablespoons chopped nuts            |

With fork or pastry blender mix sugar, flour, salt and cinnamon. Cut in Fleischmann's Margarine until mixture is crumbly. Stir in chopped nuts. If making 3 Fans, triple amounts of ingredients.

### TUBERCULOSIS CONTINUES AS A HEALTH PROBLEM

Many people believe the problem of tuberculosis has been almost solved because of the dramatic advances that have been made. Actually, tuberculosis remains an important medical problem.

A Philadelphia radiologist, or physician who specializes in x-rays, says a well-conducted x-ray admission survey program in hospitals frequently reveals TB in people not suspected of having the disease. His figures from such survey studies are: 3.5 cases of tuberculosis per thousand patients examined, 4.59 patients with suspected tuberculosis, and 1.0 patients with significant non-tuberculosis chest abnormalities.

This x-ray specialist therefore recommends a routine chest x-ray examination for adults entering hospitals providing careful protection standards are established—in order to arrest disease at an early stage.

### Successful Dieting Helps Diabetics

Chances are that a person suffering from diabetes is also suffering from obesity.

Statistics show that 80 to 90 per cent of all diabetics over age 30 are overweight when the diabetes is discovered. The statistics also show that the mortality rate for this disease is 133 per cent greater for men and 83 per cent greater for women when the patients are 20 per cent or more overweight.

Extremely encouraging, however, is medical evidence that diabetics can significantly improve their condition by losing an appropriate amount of weight. A recent study presented to physicians at a meeting of the American Medical Association shows that Metrecol, as a means of losing weight, is a valuable weapon in the physician's arsenal for controlling diabetes.

A husband and wife physician team, Dr. Seymour L. Halpern and Anafred N. Halpern of the New York Medical College, Metropolitan Medical Center, New York City, recently put 101 overweight diabetics on a Metrecol diet for up to 10 weeks. Weight loss varied from a few pounds to several patients who lost more than 30 pounds.

Far more important, however, was the effect of the weight loss on the diabetic condition. Of the 76 patients who were receiving insulin or other anti-

diabetes drugs when they started the program, 21 patients discontinued altogether their diabetic medication after losing weight; 43 patients were able to reduce their medication; and many of the remaining 12 patients, while not changing medication, showed distinct improvement in control of their diabetes.

Almost all of the 101 patients studied had been obese for more than 10 years and had failed in all attempts at weight reduction until they were put on the Metrecol diet.

The physicians warn, however, that diabetics should undertake a weight control program only under a physician's supervision because it is critical that adjustments be made in the patient's insulin (or related drug) therapy concurrently with the introduction of a change in the diet in order to avoid complications in the delicately balanced metabolism of a diabetic patient.
