Taneytown Jaycee Survey Shows Citizens Behind Fight For School

Upon special request, the Taneytown Jaycees have released some preliminary results of the public opinion survey now being conducted in the Taneytown Area. Interested parties have been anxious to see what a strictly impartial survey might disclose in respect to the percentage of persons opposed or in favor of the Carroll County Board of Education's decision, to consolidate Taneytown High with Francis Scott Key High School. The survey committee decided to make public these figures at this time since the State Board of Education is slated to make a decision concerning our appeal on February 28.

According to the incomplete and unofficial compilation of results based on 835 persons interviewed thus far, over 88% of the citizens stated that they were against the consolidation action taken by the County Board.

The question, which was one of over 40 asking opinions on many phases of community life in Taneytown, was worded as follows: "Are you for or against the consolidation of Taneytown High School with Francis Scott Key High School?" Based on the returns thus far, 739 stated that they were AGAINST the consolidation. Only sixty one, or about seven per-cent, (7%), said they were FOR consolidation, and the remaining 5% had no opinion, were not concerned, or did not answer the question.

Jaycee officials could not say exactly how many homes or the total population which this represented, but stated that it would appear that at least 75% of the persons living within the city limits would be included, in addition to a goodly number outside the town limits. Complete and official figures and analysis will not be available for another month or so, they said.

McIntire Resigns From Welfare Board

T. Bryan McIntire, Westminster attorney and Chairman of the Carroll County Welfare Board since 1959, resigned Wednesday (February 21) from the Board. His reason for resigning is that he intends to run for State Attorney. State law requires that members of both State and County welfare boards resign before filing for public office.

In a letter addressed to the members of the Carroll County Board, McIntire said "It is with a deep sense of regret that I hereby render my resignation as your Chairman. My reason for doing this is that I intend to seek election to the office of State Attorney.

"I thank you for your interest and cooperation, and give you full credit for the good works of our Board during my Chairmanship. Particularly do I have in mind the initiation of the program popularly known as 'Work for your Welfare' and our recent meeting with the State Board of Public Welfare. I commend you as conscientious Carroll County citizens with high courage of your convictions.

"I feel that my experiences as a member of the Board have been most enlightening and I assure you that my interest in welfare is deep and abiding."

Following dinner a business meeting was conducted with President Merle S. Ohler presiding.

Mr. Harold Mehring, Committee Chairman; reported on his committee efforts to have a mail drop box placed on the square. He stated the request for the box was made in writing to the local Postmaster, Mr. George Fream, who in turn prepared a letter to the Post Office Department supporting the request. A favorable reply has been received from the Post Office Department and it is anticipated that the box will be placed in the near future. The addition of this box should prove a real convenience to Postal patrons of Taneytown. It follows then, that Mr. Mehring, his committee, and Mr. Fream are to be highly commended for their successful efforts.

It was reported that the 7 mile extension of Route 97 from Roop's Mill Big Pipe Creek will be let for bids in June of this year.

The treasurer's report was rendered by Mr. Murray Baumgardner.

Mayor Raymond Perry reported on the visit, by a Chamber delegation, to the Hanover Evening Sun during their "open house" recently.

The main speaker of the evening was Rev. Wm. Wiley, Pastor of Grace United Church of Christ, Taneytown. Rev. Wiley chose "Brotherhood" as his topic in honor of Brotherhood Week which is now being observed all over our nation. His message was timely. Certainly, we must learn to live with our fellow man now more than ever before; particularly in the face of the many indescribably destructive weapons that could be brought to bear against us. There is no question that this can best be accomplished by truth, respect for the rights of others, and Prayer. Just a few random quotes from Rev. Wiley's remarks follow: From a quote by an Episcopal Bishop, "The World is too dangerous today for anything but the truth." From FDR: "Whoever seeks to set one race against another seeks to enslave all others." "You cannot spell Brothers without spelling others." Wiley also quoted widely from Washington and Lincoln. Certainly no two men in our history would be better qualified to prepare a workable formula for the true attainment of "Brotherhood" than the Father of our Country and the Great Emancipator. Rev. Wiley concluded his remarks with this paraphrased quote from Lincoln's devotional book, "The Believers Daily Treasure". "In your efforts to overcome temptation to distrust providence, remember that Jesus still lives and he is nigh."

The program for the next meeting will be in charge of Rev. Hendricks. He plans to report on "The Nature of the Ministry", from a conference in Washington which he will attend in the interim. This meeting will be a dinner meeting at Taney Inn, 6:30 P. M., March 19th. Please make your reservations with Mr. Albaugh in advance.

GIRL SCOUT NEWS—SENIOR TROOP No. 723

One of the most important aspects of the Girl Scouting program is to help other people at all times. This is a part of the Girl Scout Promise, which, combined with the 10 Girl Scout laws, is the tie that binds all Scouts together. The 10 girls of Senior Troop No. 723 are stressing this phase of scouting in the 5 Point Program, on which they are now working. As its service project, the troop has "adopted" the residents of the Carroll County Home in Westminster. The girls decided to do various kind things for these people at different times of the year. For example, this past Christmas they made and presented tray-favors and also attractive baskets for each resident. The baskets were filled with assorted candy, which the girls themselves selected. On Monday evening, Feb. 12, the Scouts met at the home of their leader, Mrs. Theodore Fair, to make cut-out cookies. Since these were a Valentine's day treat, they were made in the shape of hearts and were put in attractively decorated coffee cans. The Ki-Wives of Taneytown very generously donated candy and Mr. and Mrs. Robert Smith donated additional cookies. Five of the girls and Mrs. Fair went down to the Home on Wednesday evening, Feb. 14th. They arrived shortly before the supper hour, and personally placed a gift at each place. There are 17 residents in the Home at the present time. The troop is planning something special for Easter, also. Members of Troop No. 723 are as follows: Carol Rensburg, Robin Fair, Nancy Wargny, Carol Piezonki, Diana Fay, Marian Dunham, Virginia Fink, Fay Hiltbrick, Joan Clingan and Vicki Cutsail. The leaders are Mrs. Theo. Fair and Mrs. Thomas Cantwell.

Phyllis Clingan has been appointed Western Maryland Regional Youth Fellowship treasurer.

There being no other business the meeting was adjourned.

"SPICE 'N' EVERYTHING NICE"

With all my heart, I wish you every morning
A smile that shall last until the next day's dawning
I wish you health—life's greatest wealth;
I wish you always near so that I may help to cheer
Each future day and in some way—help to bring you happiness!

A real live Valentine arrived in Your Observer's home—a precious Cairn Puppy—just like the Walt Disney Movie called, "Bobby"! He is just two months old and is sitting beside me in a rocking chair as I type this column.

How nice it was to read "A Bouquet for The Carroll Record"! That little Editor will always omit anything nice that I write about him!

Ladies, having been present at a "Hair Styling Show" of Hochschild's at the meeting of The Methodist Minister's Wives of The Baltimore Conference, the Executive of that department told me that in the very near future there will be no returning to have your hair reset after the Permanent as there will be something new in the field. What a relief that will be for thousands of women. Eh?

Now, as to Gas Heat, folks as I stated in a previous Column, it is a very clean heat, but the baseboard affair is much more satisfactory for this type of heat than registers in the wall. I still prefer the radiators with hot water heat as that nice Mr. Harner installed for us a number of years back. In fact if it was anyway possible, I would like to have that type installed right here and by that same heating Engineer! Ask about the Humidifier for gas heat!

What a thrill it was to hear from the State of Texas that a book is now published about a relative of mine, Jacob de Cordova, with detailed information about his life and accomplishments with a reproduction of his Map of that state which was the first correct Map of Texas!

In the 1962 Farmer's Almanac for Feb. this is it—"Toes will be froze. Milder and Wilder, thick wet snows stick, rain, snow and ice—it storms thrice. Don't sneeze it will freeze. Snow from East—then cheer—Lard. Discombobulated molecules!" And as I write this Column, although there is snow on the ground—it is mild as it states.

Did you know, folks that Baltimore County is most strict as to dogs running loose on other lawns? That is the way it should be in any County. How foolish it was for the individual (a reporter) to ask the husband of Jane Mansfield if that awful accident, lately, was done for publicity! She has P U B L I C I T Y all over! And that ever since she has been in show biz. Eh?

How wonderful it was to hear the speech and the conversation of our former Vice-President, Richard Nixon, on the Jack Parr show the other night! The applause continued as though it was all over again and I think you know just what I mean. At the end before he went off TV he surprised all when Jack Parr asked him to play the piano which he did—a favorite waltz of his! There is so much about this man, as he is deep, and when I write that word, I mean D E E P! Many have ideas that he is a cold man but they thought the same about Woodrow Wilson and they were both born in the sign of real Leaders—that of Capricorn!

Letters — Dear Observer: I am from another state but nevertheless miss your Columns. Will you kindly tell me as to the following, for I will be most grateful as it seems to be getting worse. I am very jealous of my husband and I do think that people who are jealous love very deeply but I am miserable. Thank you! Mrs. N. R.

Dear Mrs. N. R. You are almost answering your letter yourself as you say how very miserable you are. There is nothing worse than a jealous, suspicious wife, for it seems to be worse than a jealous man. You will make your entire family miserable, that is including your children and hatred will be the result. Jealousy is positively not love, in fact it has no connection whatsoever. It means that you feel inferior. Take up other interests in life and be interesting to be with and make yourself as attractive as possible and place jealousy far behind you. Take a new slant on life. When I hear of any jealous person, I always think that, that very individual must have done things to make them suspicious.

Think what jealousy is doing in all the countries in the world today and especially Russia! Your Observer.

Dear Observer: I am the Mother of the daughter-in-law to be who wrote to you a few weeks ago and I want to thank you for the wonderful reply you gave to her for there seems to be such a difference ever since! Thank you! Future Mother-to-Be.

So long, folks. Have a grand weekend. Until next week, D. V.

I am,
Faithfully,
Your Observer.

THREE TIMES AROUND THE WORLD IN LESS THAN FIVE HOURS

We jubilantly hail Astronaut John H. Glenn, Jr., along with millions throughout the world, in successfully orbiting the world three times Tuesday in 4 hours and 56 minutes, becoming the first American to orbit the earth.

The 40-year-old Marine Lt. Col. jumped into the sky atop a flame-spouting Atlas rocket at 9:47 a.m. from Cape Canaveral Fla. and at 2:43 p.m. he splashed down in the Atlantic only about six miles from the destroyer Noa, one of the recovery ships waiting to rescue him. He reported his position in a firm optimistic voice, exclaiming "It's a beautiful sight."

FACTS AND OPINIONS

President Philip A. Flegler of the Edison Electric Institute reports: "During 1961 the total electric utility industry achieved new records in power production, capability and sales—despite a business recession in the first months of the year and a lower than expected increase in business activity during the later months. This continued growth maintained the United States' commanding lead over all other nations in the world in electric power. During the year, too, investor-owned electric companies announced plans for an \$8-billion, 10-year program to strengthen and add to their nationwide network of transmission lines. This will more than double the present company investment in transmission facilities."

During the 1962 fiscal year, says the Tax Foundation, total government spending in this country will come to \$173 billion. That amounts to about a third of the gross national product (which is the value of all the goods and services we produce) and represents \$3,050 for every American family.

Supreme Court Justice Douglas recently lashed out at what he termed "the powerful lobby of the rural cops" for its support of a dam on the Potomac. In his words, "This river bend dam will inundate some of our loveliest valley and river bottom lands in the area and substitute for their beauty the stinking banks of a muddy reservoir." He also said that the Potomac could be cleaned up for what it would cost to build the dam. Justice Douglas is almost as well known for his interest in the preservation of our scenic natural resources as he is for his achievements as a jurist.

According to recently released statistics, one out of every two drivers on the road today will either be killed or be involved in a major traffic accident during his lifetime.

From the Portland Oregonian: "What many people apprehend, and what this newspaper predicts, is that if health care for the elderly is brought under Social Security, this will be only the beginning. The eventual result will be a government-managed health insurance plan for everyone, as in Great Britain."

Internal Revenue Commissioner Caplin, writing in The Exchange, the New York Stock Exchange's official publication, renews the call for voluntary reporting of dividends and interest income. At the same time, he stresses the service is convinced that the overwhelming majority of taxpayers are honest. In his words, "They must be, when it is recalled that they voluntarily assess themselves to pay \$91 billion of the \$94.4 billion total levied from all sources by the Federal Government in fiscal 1961—the largest amount ever collected by any government in the history of the world."

Capital spending of U. S. oil companies will increase 6 per cent this year, according to Petroleum Management. Estimated outlays by domestic companies at home and abroad will reach \$8.1 billion, as compared with \$7.6 billion last year.

Newsweek list some of the unusual little business stories it published last year. One of them: In February, a British electric-parts factory decided not to hire any more buxom girls. The reason was that buxom girls couldn't get close enough to close-tolerance work

You are inside Shell's new all-weather laboratory at Wood River, Illinois. Here, Shell scientists test Super Shell for top performance in bitter cold.

**Tests in Shell's new "40 below" lab
prove that Super Shell 9-ingredient blend
can give top performance all winter**

SUPER SHELL's winter blend includes Butane for quick starts. Pentane mix for fast warm-ups. And an anti-icer to help fight stalling. Here's how they work—and how Shell engineers test them for top performance.

1. How Super Shell helps you get fast starts

Butane is the quick-firing ingredient in today's Super Shell. It can boil and turn to vapor even on ice. Butane's ability to vaporize when cold helps Super Shell start your car promptly all winter.

The starting test: A car, filled with Super Shell, soaks up zero-degree cold for 12 hours. It must then start promptly. Shell engineers run cold-starting tests on a variety of cars. They insist that Super Shell help them all start promptly.

2. How Super Shell speeds warm-ups
Pentane mix is Super Shell's fast warm-up ingredient. It ignites easily, helps

speed the warm-up process.

The warm-up test: A car, filled with Super Shell, stays in the lab overnight. Temperature: zero. Next morning, the car is started and eased up to cruising speed. Suddenly, the accelerator is pushed halfway to the floor.

The car must respond smoothly, without sputtering.

3. How Super Shell fights carburetor icing

The anti-icer in Super Shell coats vital carburetor parts with a protective film. This film helps guard the parts against critical ice buildup, helps prevent icing stalls when they are most likely to occur.

The icing test: Lab temperature is raised to 40 degrees and air moisture increased. These conditions encourage carburetor icing.

REASON: Fuel evaporation lowers the temperature inside your carburetor, freezing the airborne moisture. That's how ice can

build up and stall your engine—and when Super Shell's anti-icer must do its job.

Super Shell winter blend at all Shell stations today

You now know how three of Super Shell's nine ingredients work. The other six are for power, extra mileage, a quiet engine, top performance.

FIFTY YEARS AGO**

On Wednesday night, preceding a heavy windstorm, which continued all night, the first thunder and lightning of the season was experienced. Dr. and Mrs. F. H. Seiss heard Madame Tetrazzini, the great singer, at Ford's Opera House, on Tuesday afternoon. Howard Maus of near Tyrone was taken to the Frederick Hospital by Dr. C. Birnie on Saturday evening where he was operated on for appendicitis.

The Taneytown Male Quartet composed of Rev. S. R. Downie, Dr. F. H. Seiss, W. Rein Motter and Samuel C. Ott, sang a number of Selections at an entertainment given by the Men's League of Baust Reformed Church held in Tyrone Hall.

Mrs. Sterling Zimmerman, Mrs. Howard Rodkey and daughter Ruthanna.

**What size Chevrolet do you want

CHEVROLET IMPALA Room, refinement and riding comfort. Fore-ground, the Impala Sport Sedan.

CORVAIR MONZA Sports Car spice without a sports car price. At rear is the Monza Club Coupe.

CHEVY II NOVA The frisky family-sized Chevrolet with a low, low pricetag. Above right, Nova Sport Coupe.

Like your driving sporty, with quicksilver steering, flat-as-a-pancake cornering, sure-footed traction? Then a Corvair Monza's for you.

Or maybe the new-size Chevy II is more to your liking. Built for big families and still slips neatly into small parking places. And, with this, the kind of ingenious engineering (new easy-riding Mono-Plate rear springs, for example) that

won this year's coveted Car Life Magazine Award for Engineering Excellence.

But say you want to go all out—to get the full treatment in space, spirit and splendor. Then there's nothing like a Jet-smooth Chevrolet. Makes paying more pointless.

So size 'em up—then save it up—at your Chevrolet dealer's.

Elmer A. Wolfe P.T.A. Hobby Show
The date for the Hobby Show has been set for March 17th. Snow date is March 24th. The Show will start at 12:00 noon and will end at 9:00 P. M. Those in charge of producing this Hobby Show are Mrs. Edward (Kathryn) Coshun and Richard Green. These two people have many people who are helping them.

In addition to the exhibition of hobbies, there will be some "do-it-yourself" demonstrations. Demonstrations concerning leather goods, chair caning and basket weaving are on the schedule at this time. Visitors are invited to plan to partake of the good food which will be available. Soup, sandwiches and soft drinks will be sold by a committee which I understand is headed by Mrs. Charles (Armabelle) Clabaugh. A Turkey supper will be served. Tickets to the Turkey Supper will be sold ahead of the time for the Hobby Show—pre-sold tickets enables the committee to know the amount of food which is needed. ANNAPOLIS LETTER

In an effort to close the barn before the horse is stolen, the Maryland General Assembly is now considering a Maryland Securities Act sometimes known as a Blue Sky Law. This bill provides new and comprehensive security control and regulations. It is recommended by the gubernatorial Commission to Study the Administration of the Maryland Blue Sky Law. The Commission, appointed pursuant to Joint Resolution 18 of 1961, was charged with considering the adequacy of the Maryland Blue Sky Law and the method of its administration. The Commission in its report stated that it found the provisions of the Uniform Securities Act to be vastly superior to the existing Blue Sky Law. Therefore recommended enactment of the Uniform Act, as modified for use in Maryland. The Act prohibits fraudulent practices in the purchase and sale of securities, requires registration of broker-dealers and agents, registration of securities sold locally, provides for exemptions from the Act, and for its enforcement. The bill establishes a division of Securities under the State Law Department. It is hoped that this bill, if passed, will eliminate many of the abuses that are common time found in security transactions.

A "Humane Slaughter Bill" has been presented for consideration by the Legislature. It would provide that livestock must be rendered insensible to pain by electrical, mechanical, or chemical method before being slaughtered and would apply only to commercial slaughterers. It further provides exemptions for slaughter by other methods for religious reasons. This proposal is recommended by the Legislative Council.

Three bills would affect the salaries of judges in the State of Maryland. Senate Bill No. 8 would increase pensions of judges of the Court of Appeals, Circuit Courts of the Counties and Supreme Bench of Baltimore City. The proposed maximum to be \$13,600 per year for judges of the Court of Appeals and \$12,000 per year for other judges. Senate Bill No. 9 would increase the salary of Associate judges of the Court of Appeals to \$25,000 per year and Chief Judge to \$25,500 per year. Senate Bill No. 10 would increase the annual salaries of judges of the Trial Courts of the State by \$5,000 per annum.

There is a proposal to increase the amount of supplementary payments to teachers who have retired at a time when the pay scale was considerable lower than today. Since retirement payments are based on salaries received at the time of retirement, this has worked hardships on older teachers and, therefore, this supplementation has been recommended. In 1959 we attempted to put "teeth" in the regulations which would require the lowering of the American flag at sundown, with the exceptions of certain specified places. This attempt was unintentionally sidetracked in the House of Delegates during the last days of that session. However, persistent complaints regarding the abuse of the American Flag has again prompted us to attempt to make enforceable the regulations regarding the care of the flag.

The Senate Finance Committee has scheduled hearings on the Budget Bill and Capital Improvement Program as follows: Friday, February 23rd at 10:00 A. M. Employment Retirement System, State Police Retirement System, and Teachers Retirement System; Tuesday, February 27th, at 10:00 A. M. Department of Assessment and Taxation and Department of Tide Water Fisheries; Wednesday, February 28th, at 10:00 A. M. Department of Motor Vehicles and Maryland State Police, Wednesday, February 28th, at 2:30 P. M. The House Ways and Means Committee has scheduled the following hearings: Tuesday, February 27th, at 2:30 P. M. Civil Defense Agency. E. O. Weant, Jr., State Senator for Carroll County.

Child Evangelism Week Feb. 18—25, 1962

Governor Tawes has issued a proclamation setting aside the week of Feb. 18-25 as CHILD EVANGELISM WEEK in Maryland. He said, in part, "WHEREAS, The International Child Evangelism Fellowship, an Interdenominational, nonsectarian organization, is seeking to reach the children of our Nation thru the establishment of Bible classes, camps and playground classes in every State; and "WHEREAS, Approximately 7000 children are being guided toward God each year by the Maryland Child Evangelism Fellowship "NOW THEREFORE, I, J. Millard Tawes, Governor of the State of Maryland, with the realization that this fine religious movement will give our children a broader understanding of spiritual values and important role in our democracy, do hereby proclaim Feb. 18-25, as Child Evangelism Week."

The theme for Child Evangelism Week is FORBID THEM NOT, taken from what the Lord Jesus said in Mark 10:14. The disciples had forbidden the children to be brought to him and a literal translation of Jesus' answer is that "He was pained at heart and said, permit the children to come unto Me and forbid them not."

You may be thinking, "I'm not forbidding the children to come to Him." But by our very inactivity we may be indirectly forbidding them. Children cannot read the Bible for themselves. By sheer neglect we forbid them. Those of us who are interested in Child Evangelism, through the medium of Good News Clubs, earnestly desire the parents to encourage their children to come to Bible Club, where the children are taught the Word of God and not any church doctrine.

Communism is not neglecting the children. It has plans for the children of the world. Communism has plans for our children. A man is what he believes. A child believes that which he is taught. Communism is indoctrinating children with such statements that "The concept of God is man made and is based on ignorance." "The Bible is a book of myths. It cannot be relied upon." The Communist Daily Worker recently captioned the Lord Jesus as a "professional agitator and seditionist." They give our children NO SAVIOUR and NO HOPE.

But boys and girls are eager to learn of God. If we can reach them before they ever learn of this deadly, Satanic teaching, we can plant faith in the Bible as God's inspired Word, completely reliable. We can teach them that the Lord Jesus was sent by a loving Heavenly Father and died willingly to take away their sins. We can give them FAITH and HOPE.

America's hope for victory over Communism is not to be found in economic strength or in military might, in rockets, or space ships, in cleverness or diplomacy. It is to be found in OUR CHILDREN, the leaders of tomorrow's America. The purpose of the Good News Club is not to take the place of the Sunday School. Rather the weekly clubs are designed to supplement the Bible teaching received in the Sunday School. Education is of utmost importance today—surely spiritual training is more important. The time spent on Sunday in churches is not comparable to the hours spent in secular education. Throughout America, it is estimated that 2/3 of our boys and girls are NOT in Sunday School.

Child Evangelism Fellowship is an arm of the church. Last year there were about a million children, across America whom God used the Child Evangelism Fellowship to reach with the gospel. In this county there are 20 Good News Clubs held weekly, with the earnest desire of expanding greatly.

The State Committee, Mr. Herman Wollenweber, Chairman, has made plans to provide free church bulletins to 64 churches for one Sunday of Child Evangelism Week. There will also be a presentation of the work in numerous churches in Maryland. The Week will be climaxed when about 200 of the teachers, committee members, directors and friends will attend a Banquet on Saturday, February 24, at Frock's Sunnybrook Farm, Westminster, Md.

The purpose of this check is to license all dogs having homes, distinguishing them from stray and homeless dogs. The strays can then be picked up and disposed of, eliminating the possibility of their causing damage to livestock and poultry, and also preventing an attack of rabies among dogs. All dogs not bearing a current license tag are considered strays and may be disposed of by any officer. So protect your dog and respect your neighbor's property by keeping it confined to your own property or under proper control. J. HOKE OMMERT Dog Warden

The Clean Life

Lesson for February 25, 1962

WHAT is the most valuable feature of American life? It is not the supermarkets, the big double-lane highways, it isn't the cars or even the schools. Many, even Christians, would say it is not even the churches that are the best American possession. What is it (the reader is invited to think) which could get along without the church, but without which the church would soon wither away?

The answer, of course, is the Christian home. Christian church and Christian home support each other; sometimes with an assist from the school, sometimes not. But the home is more indispensable to the church than the church to the home.

What then is the inner support and foundation of a Christian home? The obvious answer is, Christian marriage. Failure of a marriage means failure of a home.

attack on home
Today the home is under attack. Not directly; no one would get a moment's hearing if he advertised himself as opposed to good homes. But indirectly, in countless ways, marriages can be, and often are, poisoned to advance. It is well known that one marriage in four, the country over, ends in divorce; and that though divorced persons often re-marry (for the stark and simple reason that they already have cheated wife or husband) they are not likely to make much more of the second try than the first.

One of the deadliest ways to poison a marriage beforehand is to come to it no longer a virgin; and this holds true for man and woman alike. From the very beginning, the Christian church and the Jewish synagogue have held up one standard for marriage:

Continence before, and chastity (faithfulness each to each) during marriage. Whatever breaks down that standard does something to break down marriage itself. A "home" where husband and wife are both survivors of many affairs with other people, a marriage that knows nothing of faithfulness, a marriage ready to break in two the minute a homesomer man or a more alluring woman comes on the scene,—such a "home" is likely to have little or no regard for any children and may even resent them.

Mind and body

The laws of any place fall behind the best ideals of the best people. Any good lawyer will admit as much. But even the law, clumsy and "external" as it must be, knows that adultery is wrong. But by the time adultery gets into the courts, or becomes a tragic basis for divorce, it has been going on for a long time. Jesus put it quite bluntly. Any man who looks on a woman with lust in his heart, has already committed adultery with her. There are only three requirements for any act, good or bad: desire, capacity, opportunity. And an act of adultery exists for a longer or shorter time in a mind first. A clean life is not one that lacks legally punishable acts. A clean life is one in which the law is not needed; it is a life that supplies its own discipline.

Our special problems

In America at this time and for a generation or more before now, the Christian ideal of continence before marriage, chastity during it, itself has been eroded by constant attack. Consider the books and magazines for sale at your nearby drugstores; consider the themes of popular moving pictures and novels; consider the moral standards of Hollywood and of their influence on our national life. Consider the way women and girls dress. To maintain a clean life in the midst of surrounding such as are common in America is extremely difficult, more so than for most previous centuries.

Yet there is one thing it will help us to keep in mind. That is, that at the time the Christian church began, standards of relations between men and women, in the Roman Empire, where the infant church was born, were just as low as they are in America today, if not lower. Yet the ideals of Christ outlived the empire. The future of America is not with those large areas of corruption; it is with the small groups that intend to remain clean.

MEET DAVID HUME

Democratic Candidate for Governor

"He is a man of high principle, an eminent conservationist, a lawyer of broad experience, a leader in many civic causes, and a political campaigner of proved ability."

Washington Post

"He (Mahoney) is as unwilling as the Governor to challenge the slot machine lobby in a legislative battle to uproot the devices from the four Southern Maryland counties they still infest. Both men are wrong. The right side is supported by . . . David Hume, who perceives more clearly the States responsibility."

Baltimore Evening Sun

"Observers tend to sell Hume short around the State, but his star should rise as he becomes more known . . ."

Lexington Park Enterprise

"He is possessed of brilliant intellect, unbounding energy, an unquenchable thirst for knowledge and evident ambition for public service. Add to these characteristics his demonstrated courage in being forthright on public issues . . ."

La Plata Times Crescent

"If David Hume could talk personally with every Democratic voter we do not believe there would be any doubt about the outcome of the Democratic Primary next spring."

Wick Byron
Montgomery County Sentinel

"It's Hume's caring for how people live, what they live on, and what their opportunities are that mark him!"

Alys Spealman
Silver Spring Suburban Record

"He is a good fighter in his own right, capable of taking on powerful forces . . ."

Cambridge Banner

Here is a new face—a new candidate—a new courage—and a new thinking. Here too is an old philosophy which your fathers would have recognized: **HERE IS A MAN WHO KEEPS HIS WORD!**

HUME CARES! DO YOU?
