SUMMARY OF HIGHWAY DEATHS

Eight of the nine deaths on Maryland highways last week were caused by "driver error" according to the weekly summary, for the period ending August 12, issued by the Maryland State Police.

Speed accounted for three deaths and alcohol was a contributing factor in five.

"Once again," said Colonel Jarman, Superintendent, Maryland State Police, "it is apparent that highway rather, are caused by the failure of motor vehicle operators to observe the fundamental rules of driving."

"This," he continued, "definitely points to the necessity of focusing attention on the importance of driver training. This training, with emphasis on fundamentals, must be required of all who seek a license to drive, and in some way it must be made available to those who already have a license."

Trip to Alaska via Canada

The tour of 74 persons began in New York City, July 19, where the party boarded a New York Central train and arrived in Toronto, Canada about 10:00 P. M.

Leaving Toronto at 11:00 P. M. we headed Westward thru God forsaken country with little or no habitation, here and there were a few shacks, most of which were abandoned. Finally we reached the Provinces of Manitoba and Alberta, where we found excellent farming land, reminding us of Illinois.

Sunday, July 22 we arrived at Jasper National Park, where we stayed about 30 hours. We were given a sightseeing trip around the park, which is reported to be the most beautiful in the world. We again boarded the train to Vancouver, B. C. The railroad follows the Fraser River most of the way and passes thru some of the most spectacular mountain scenery to be found anywhere in the world. Due to a freight train being derailed we arrived in Vancouver 10 hours late. We were supposed to have a sightseeing trip, but instead we arrived just in time to board the steamship, Prince George, and at 9:00 P. M. we were off, headed for Alaska.

The first port of call was Prince Rupert, B. C., the next port of call was Ketchikan, Alaska, which is a colorful town nestled at the foot of snow-capped mountain. The town of about 8000, is about a mile in length, consisting of modern houses. Leaving Ketchikan we headed for Juneau, the Capital. Snow-capped mountains are everywhere in sight on both sides of the channel. Arriving at Juneau the ship was met by busses which took us on a sightseeing trip to Mendenhall glacier and the Governor's mansion. At 11:00 P. M. the ship headed for Skagway, the gateway to the Klondike. At this place we boarded the narrow gauge railway which follows the trail of the gold seekers of 1898 for a distance of 67 miles to Carcross Youkon territory. Skagway is a rather uninteresting town. Wooded sidewalks, gravel streets, more unoccupied store rooms than occupied. Leaving Skagway the ship headed for Wrangell, arriving at Wrangell on Sunday, at 4:00 P. M. The ship was met at the dock by the High School Band. Next the ship made a second call at Ketchikan to pick up freight.

The next day the ship sailed thru the Gardner canal, which is not a canal, but a narrow arm of water reaching back in the mountains about 10 miles and coming to a dead end; of course the ship had to turn around and return. The numerous waterfalls from the melting snows along the Gardner canal were simply marvelous and would have to be seen to appreciate their beauty.

July 31, the ships passengers were invited to the Captain's dinner and in the evening a masquerade party was held aboard ship. Next stop was Ocean Falls, B. C., at which place we were taken on a sightseeing tour thru the Zellerbach Pulp Wood Co., then on to Victoria, B. C., which is a very beautiful city. After an overnight stay and a sightseeing trip, we boarded a ferry and sailed for Seattle and the Worlds Fair. On Saturday, Aug. 4, we visited the Fair because of a rainy day, we missed many exhibits. After a sightseeing trip around Seattle, we boarded a Northern Pacific train and arrived in New York City, August 8th at 9:30 A. M. There we said goodbye to the many friends we made on the trip of nearly 10,000 miles.

Mr. and Mrs. Richard Rohrbach Hess - Bushey Reunion

The 34th annual Hess-Bushey Reunion was held at the Carroll County Agricultural Center on Sunday, August 12, 1962, with a record attendance of 100 present.

Invocation was given by Mr. Carroll Hess and a picnic lunch was enjoyed by all.

The afternoon meeting opened with the singing of America, followed by prayer by Mr. Norman Baumgardner. The Secretary, Mrs. Leonard Reifsnider, read the minutes of the previous meeting and they were approved as read. Mr. Henry Alexander, Treasurer, gave his report and it was approved.

Mr. Clarence Weybright, President, called for old or new business. It was decided to meet at the same place and the same time next year.

The nominating committee presented the following slate of officers for election for 1963:

Pres.—Mr. David Reifsnider. Vice-Pres.—Mr. Everett Hess. Sec.—Mrs. Leonard Reifsnider. Treas.—Mr. Henry Alexander. Historian—Mrs. Claude Slagle.

The meeting adjourned with the singing of "Blest Be The Tie That Binds."

RETARDED CHILDREN

Mr. Joseph H. Hahn, Jr., chairman of the Drive for Retarded Children, requests that all clubs and organizations discuss diligently how each individual, that is retarded, needs the assistance and aid of each group or association throughout the county. Surely, you will find that there are many projects which you may be these children; why not try sponsoring a bake sale, raffle, dance, or some other recreational item which would be of definite interest to the community and most helpful to this drive.

Should you be interested, please contact Mrs. William B. Marks, Jr., 45 Westmoreland Street, Westminster, Maryland, who will be happy to discuss your plans with you.

Carroll County Planning and Zoning

E. Miller Richardson was again selected to head Carroll County's Planning and Zoning Commission for the next year at the regular August Commission meeting on Tuesday of this week. Russell L. Royer was elected vice-chairman and Geo. A. Grier was selected to direct the Planning Commission's program. Ralph G. Hoffman was appointed as counsel. Previous to the meeting the Board of County Commissioners had re-appointed Charles W. Saylor to serve on the Planning Commission as a representative of that body.

Considerable time was spent by the Commission at the meeting in reviewing the materials being prepared in a report on Population and Housing scheduled for publication in October. Dr. James P. Earp, advisor in the editing of the report, reviewed the contents and general format being considered.

The Planning Commission made recommendations for a number of changes, additions, and modifications in the interim zoning ordinance which now has been in existence for one year. Major changes proposed include new definitions for a "separate lot" and "farm" to be used for trailer location purposes. Likewise, an additional conditional use was added to the seven existing uses requiring Board of Appeals hearing—that of "Service Garages." Under the same section "Explosive Manufacture and Storage" was expanded to cover any facilities for above ground bulk storage of bottle gas, oil or petroleum products in excess of 1000 gallons.

The Commission also recommended minor amendments for trailers, lengthening the exemption period for trailer locations used for construction projects from nine to eighteen months and exempting altogether trailer field offices used for road construction. A change was also proposed to allow trailers being used for living purposes by non-paying guests for one month without compliance with regular trailer provisions.

Also in the set of recommendations for changing the interim zoning ordinance was a modification in set-back line requirements from roads where building lines have been previously established closer than the existing set-back requirement. The modification would include allowing buildings to within 35 feet of the center of a road if other buildings within 200 ft. were closer than the normal set-back requirements existing in the present ordinance. The recommendations also defined abandonment of a conditional use as being one year or more and provided that zoning certificates be valid for one year. Included also was a provision that the Board of Appeals will not rehear any cases disapproved within one year from such date of disapproval.

The recommendations will be forwarded to the Board of County Commissioners for its consideration. Final business of the Planning Commission included recommending that at such time as budgetary funds are made available that a new jail facility be planned. It also pointed out that the existing jail building be retained to alleviate the increasing need for office space for county, state and federal agencies. The recommendation also asked that consideration be given an adequate emergency for county and civil defense headquarters in any planning proposed.

"SPICE 'N' EVERYTHING NICE"

With all my heart, I wish you every morning. A smile that shall last until the next dawn's dawning.

I wish you health—life's greatest wealth; I wish you always near so that I may help to cheer.

Each future day and in some way—help to bring you happiness!

Now, we really do need rain and more rain as the ground is very dry and that all over, although "The Farmer's Almanac" states that we will have plenty for the month of August. It also states as to a Hurricane in the South and up North this month! Ugh!

As to the South, a lady asked me if I would live in Florida and my answer is the same—"NO!" There are so many drawbacks—the dampness, the bugs and nothing to do 'til tomorrow! It seems a lazy life to me and I do not like to see women with such little clothes on and those awful just plain pants without giving it those fancy names as to the wear and style of them. I like to visit and that is all, not longer than a week. I advise anyone who is thinking about living there to go down and remain a month first, as many have returned North again. The heat in the Summer is terrific and unless you have that dough, rae, mi to come North each Summer is another thing.

Sat in the audience at the Stanton (which was a crowded one) for "THE MUSIC MAN," with the Stars, Robert Preston and Shirley Jones. There was not a dull moment and the show lasts for two and a half hours! Robert Preston sang on Broadway for 3 and a half years in this show. The only word that would modify this actor is "Prancing" for that he surely did throughout the entire show. It is the story of a small town in Iowa, maybe a little earlier than 1900 that Professor Hill (Preston) reaches River City to teach music, especially a band for the boys and this man surely does talk himself into the graces of even the Mayor and his wife and the entire town. The Librarian (S. Jones) eventually falls for him, too. This slow town surely comes to life in every direction and although Preston is no youngster or not even good looking, he surely knows how to be a graceful individual and much else. The Quartet was most pleasing, too. The period of dress is around the '20's. Don't miss it if you enjoy a lively farce!

Just think, School is just around the corner—the Summer has flown! Now, when you return to school, Teen-agers be sure you work harder than ever to make the grade. It really pays and pays by the end of the year!

It was wonderful driving through Carroll County last week. There is no scenery that is more beautiful with those rolling acres!

I have noticed the big bargains in the "Record" of that nice Dougherty's store. Sorry, I could not remain longer to browse around, but hope to on a cooler day.

Don't forget, Mrs. Housewife to have the juice ready when you have guests drop in and be sure you have the glasses in the refrigerator, as it means a more delightful drink regardless of the flavor. The old time Raspberry is my favorite and can be made so easily, especially now that the Red Raspberries are in season, too. It is called, "Raspberry Vinegar," and from the old cookbook by Mrs. C. B. Howard. To two pounds of the berries, not too ripe, put one quart of best vinegar. Let it stand 24 hours in a stone jar, then strain it through a hair sieve without breaking the fruit. Let it stand 24 hours and strain it as before. Then add to every pint of juice one and a half pounds of loaf sugar. Put it in a stone vessel and let it stand on boiling water until the sugar is perfectly dissolved. When cold, take off the scum and bottle for use. You will never want to be without it. Ummm good!

Have a grand week-end, Folks. Will be seeing you next week, D. V.

Until then,
I am,
Faithfully,
Your Observer.

SHARPSBURG DAY

Sharpsburg Day is scheduled for Wednesday September 5, as part of the Antietam-South Mountain Civil War Centennial Commemoration. Francis R. Saunders, Chairman of the Sharpsburg Day Committee and Division Chairman in charge of overall battlefield site activities, said today that plans for the day's program are nearing completion.

The day's activities will open with a flag raising between 9 and 9:30 A. M. The morning hours 10 to 12 will be devoted to tours of historic farms. In the afternoon, from 2 until 4, historic homes in the town will be visited. Battlefield tours to historic points of interest will be continuous throughout the day.

Three contests are planned: the Maid of Antietam, a Centennial Fashion Show, and "Beards." The leading contestant for "Maid of Antietam" will be presented.

The evening before the Battle of Antietam, a runner on horseback raced through the town and countryside warning of the impending battle, which was to take place the following day, and advising everyone to find a place of refuge. A re-enactment of this warning of invasion will be part of the evening's program. Beginning at 7:15, a runner, in authentic costume and on horseback, will race through Sharpsburg calling out his warning.

Following a Community Sing and lowering of the flag, South Hagers-town High School Band will be presented in concert as a fitting finale for a day of educational entertainment, excitement and fun.

FACTS AND OPINIONS

Henry Hazlitt writes, in Newsweek: "The policy of farm price supports, overstimulating production and creating unsalable surpluses, plus the attempt to offset these consequences by acreage and marketing controls, began in the Roosevelt New Deal. But it was continued by the Truman and Eisenhower administrations, with ever-mounting problems, because neither they nor successive Congresses had the courage to stop it. The economic problem is not at all baffling. The situation can be cured by abandoning and reversing the policies that created it. It is merely necessary to halt all further price supports; and to sell the surpluses back to the farmers themselves, on a pro rata basis, below the free-world price, leaving it to the individual farmer to decide whether to hold or resell, and how much to plant under the new conditions."

A survey indicates that there are at least 22 present members of Blue Cross who are aged one hundred or older. The oldest of them all reached 105 early this year. The rolls also include a married couple of whom both are 102—and they have yet to make a claim for hospitalization.

From the Wall Street Journal: "People are no longer fooled by inflation. Instead of being exhilarated by its prospects, people are now frightened by them. It's nonsense to think that today the promise of more inflation would once again send the stock market swirling upwards or that it would make people act more confidently with their money, whether as individual spenders or as managers of the money of great enterprises."

U. S. News & World Report points out that there are 24 leading indicators which are watched closely by economists for signals of future trends in business in general. As of a recent date, 17 of these indicated declines; 4 indicated improvement, but to a less favorable extent than was the case a few months ago; only 3 indicated continuing improvement.

The Portland, Oregon, Traffic Safety Commission offers some vacation driving tips. Among them: Make your trip an easy and relaxed one. Don't invite trouble by trying to cover too many miles in too short a time. Remember that long stretches behind the wheel can make you drowsy; at the first sign of sleepiness, either change drivers or pull off the road and rest.

The increasing volume of freight being moved by piggyback on freight trains is helping to relieve the congestion on trunk highways, according to the chairman of the Wisconsin Highway Commission. He says: "As far as our department is concerned, we have no jurisdiction. But it makes sense for the railroads, who need business and have adequate rights of way, to haul some of this freight instead of having it hauled on old and sometimes inadequate highways."

American physicians contributed more than \$4,700,000 to the nation's medical schools last year, The American Medical Association reports. About \$1,300,000 of this was given through the AMA's Education and Research Foundation—which has received physician donations in excess of \$11,500,000 since it was established in 1951—and the rest in direct contributions.

San Francisco—Super Shell with Platformate has just delivered a mileage bonus of 4.33 percent. Platformate is Super Shell's mileage ingredient. Shell engineers test Super Shell for mileage in many different types of cars, in many different places. Here's how the test above was run. Exactly 250 cc (about half a pint) of a fuel blended without Platformate was fed into the test car's engine. The car was started, accelerated to 30 miles per

hour, then held there until fuel ran out and the car rolled to a stop. Distance: 6186 feet (indicated by dotted line in background). Next, test was repeated, using Super Shell—the same fuel as before but with Platformate added. Precise same volume of fuel. Same car. Same speed. Same driver. Same conditions. Distance: 6454 feet. That's 4.33 percent farther than the car traveled with non-Platformate gasoline.

MILEAGE TEST

New documented tests prove that
 one of Super Shell's 9 ingredients packs
 extra mileage into every gallon

THE picture above was snapped a few moments after Super Shell with an extra mileage ingredient called Platformate delivered a mileage bonus of 4.33 percent.

That's a typical result from a series of mileage tests Shell engineers recently ran on the outskirts of San Francisco.

The tests compared two gasolines. One was a gasoline Shell scientists purposely blended without Platformate. The other was Super Shell—the same gasoline as before but with Platformate added.

Shell engineers used a 1962 convertible for the tests. You may be driving a similar car right now.

In test after test, Super Shell with Platformate consistently took the car about 4 percent farther than the gasoline blended without Platformate.

NOTE: For more details on these tests, see caption under picture. And for technical data, write to the Shell Oil Company,

50 West 50 Street, New York 20, N. Y.

Platformate gets its name from the platinum re-forming process used to make it.

Pressures up to 600 pounds per square inch and temperatures up to 1000 degrees literally tear petroleum apart. A precious platinum catalyst then helps re-form the petroleum into super-energy components.

RESULT: Platformate can release more energy per gallon than the finest 100-octane aviation gasoline. Your engine can convert extra energy into extra mileage.

Super Shell has 9 ingredients for top performance

Extra mileage is just one part of the top performance story. Super Shell's other ingredients complete the picture. Here's what they are and what they do.

TCP* for power, mileage, longer plug life.

Pentane mix—for fast "warm-up."

Butane—for quick starts.

Anti-knock mix—to resist all kinds of knock.

Alkylate—to help control "high-speed knock."

"Cat-cracked" gasoline—for power.

Anti-icer—added in cold weather to help check carburetor icing stalls.

Gum preventive—to help keep carburetors clean inside.

Super Shell—the gasoline with 9 ingredients for top performance

*Trademark for Shell's unique gasoline additive. Gasoline containing TCP is covered by U.S. Patent 2889212.

The Fifteenth Annual meeting of the Maryland State Grange Fair was formally opened in Ohler's Grove, near Taneytown, on Tuesday of this week. Notwithstanding the threatening weather, 1500 people were present. E. O. Goulden of New York and Maryland, who spoke. Francis Neal Park, Esq. of Westminster, a bright attorney, spoke on the high character and patriotic civic pride of the farmers. Prof. W. T. L. Halbert Poole, who has been engaged this week in driving a hack to and from the Fair grounds, had quite an exciting adventure with two hold-up men on Wed. night, who after taking seats in his carriage asked him at the point of a revolver how much change he had with him. Poole promptly knocked the weapon from the man's hand and after a sharp fight, was victorious, the robbers disappearing in the woods.

FAIRVIEW

Well, kiddies, your vacation will soon be over, it seems only yesterday school closed. And it seems, as the saying goes, it was only yesterday that quite a few children gathered about to meet the bus. This place has been known as Fairview, now the sign says Clear View but, never the less, it is the same old place. During warm weather a few of the older girls would come in my home and chat a little, but in the winter they were all in to get out of the cold. And they were always welcome along with our three children, Viola, Robert and Charles Frock. There were the four grandchildren of Mr. and Mrs. Elmer Buffington. Carmen Lavar, who is married and has two sons and lives in New York. John Maus is also married and lives in New York. Harry and Ruth Sorenson, Ruth is married and lives in New York; Harry is not married but holds a wonderful position. He is an American Consul General and is now in Pakistan. He has another year there, then he will be brought back to Washington, D. C., for further instructions. Then there is Marvin Devilbiss, son of Mr. and Mrs. Lloyd Devilbiss of Opposum Hollow, he is married and has children and is a very successful farmer and trucker. I do not know the kind of work all these children do, but there were Doris, Norman, Pitinger, Caroline Engelbright, Howard, Vivian, Buddle and Marion Stone; Jessie, Viola, Catherine and Edith Little; Ruth Albaugh; Charles John and Luther Carbaugh. Charles Carbaugh is married and has a child and is a bus operator in Washington, D. C. And three children of Mr. and Mrs. George Pittinger, whose names I can not recall. They walked from Trevanion up here. This has been 24 years ago, so I do not know if I have all the names listed or not. Now here in 1962 there are only three who come here to wait for the bus: Steven Frock, son of Mr. and Mrs. Charles Frock, and Jo Ann and Ray Leptic, children of Mr. and Mrs. Joseph Leptic. Believe me this was quite a chore, but I loved every minute of it. I would take the little ones and hold them on my lap and stick their little feet in the oven and rub their little hands to warm them up. Sometimes they would have to put their hands in water to take the cold sting out. I remember one day the snow had drifted so bad the bus could not get out, so Mr. Frock asked how many would walk with him to Uniontown to school. I believe there were ten or twelve. It was a beautiful sight and an experience for those children. It was like playing the game follow the leader. I believe the most of these children are married and have children going to school and perhaps there are some just starting this year. And I can only wish them the very best.

In one of my articles you will see where I said, Greet the lady graciously that calls at your home that is soliciting for the American Legion." This is not much in contrast to the article I wrote last week or the week before, that is nothing but a reading club, this is different. Some day you may need a wheel chair, crutches or a bed. This is a worthy cause.

MAKRIED

BENKO — HARNER

Miss Elaine Henrietta Harner, daughter of Mr. and Mrs. Walter L. Harner, Taneytown and Mr. George Andrew Benko, son of Mrs. Frances Benko, Canonsburg, Pa., were united in marriage on Saturday, August 4, at 2:00 P. M., in Trinity Evangelical Lutheran Church, Taneytown.

The double-ring ceremony with communion was performed by Rev. Robert C. Benner, Lebanon, Pa., in a setting of palms, ferns, candelabra, white gladiola, carnations, and baby's breath. A pre-nuptial recital of traditional wedding music was supplied by Miss Hazel Hess, church organist. Mr. Henry Reindollar, soloist, sang "O Perfect Love," "Because," "I Love You Truly," and "The Lord's Prayer." Acolyte was Stevie Harner, cousin of the bride.

Given in marriage by her father, Mr. Walter L. Harner, the bride wore a floor length gown of pure silk illusion and chantilly lace over taffeta. The lace bodice was fashioned with a sabrina neckline trimmed in iridescent sequins and seed pearls and long sleeves tapering in points over the hand. The full skirt of silk illusion was adorned with inserts of chantilly lace. Her bouffant veil of imported silk illusion was attached to a crown of seed pearls and crystals. The bride's jewelry was a pearl necklace and earrings, a gift of her parents. She carried a white orchid showered with white feathered carnations and ivy on top of a white Bible, a gift of the groom.

Miss Harriet Harner, sister of the bride, served as maid of honor. She wore a street length gown of powder blue daron organza over taffeta with a tucked bodice, square neckline and cap sleeves. The skirt was designed with flower motifs on the front of the skirt and a full pleated skirt in the back. Her short bouffant veil fell from an organza flower headdress. She carried a cascade of white carnations, white daisy pompons, and baby's breath.

Miss Jeanette Morgan, Baltimore, and Miss Sandra King, Damascus, college classmates of the bride, and Miss Florence Benko, sister of the groom, all served as bridesmaids. They wore gowns and hats identical to that of the honor attendant and carried cascades of white carnations, tinted blue daisy pompons, and baby's breath.

Miss Jody Lynn Rubic, cousin of the groom, served as flower girl. She wore a white organza dress with a powder blue organza cummerbund and blue embroidery on the bodice. Her short bouffant veil fell from an organza petal headdress adorned with seed pearls. She carried a white flower basket with white and blue carnations and ivy.

Stanley Klappowski, Canonsburg, Pa., served as best man. The ushers were: Ralph Woerner, Gettysburg; Paul Woerner, Gettysburg; and Edward Harner, Taneytown.

For her daughter's wedding, Mrs. Harner wore a pure silk blue sheath with white accessories and a corsage of white carnations and baby's breath. Mrs. Frances Benko, mother of the groom, wore a blue gored dress with white accessories and a corsage of white carnations and baby's breath.

A reception followed for approximately 200 guests in the church social room. Miss Sarah Mace, Bel Air, college classmate of the bride, presided at the punch bowl. Others assisting at the reception were: Mrs. Merle Eckard, Mrs. Atwood Feeser, Miss Eleanor Kiser, Mrs. Luther Rodkey, and Mrs. Wilbur Stonestifer, all of Taneytown.

For a wedding trip to an undisclosed destination, the bride chose a silk print sheath with white accessories and the white orchid lifted from her Bible.

Mrs. Benko is a 1958 graduate of Taneytown High School and a 1962 graduate of Towson State Teacher's College. She will be employed by the Chartiers-Houston Joint School System, Washington County, Pa., teaching fourth, fifth, and sixth grade reading. The groom graduated from Cecil High School, class of 1953. He is presently employed as a mail carrier by the United States Post Office in Canonsburg, Pa.

The couple will reside at 701 Highland Avenue, Canonsburg, Penna.

Prior to the wedding the bride was entertained with a shower given by Miss Judy Fickes, college room-mate, at Towson State College. The bride and groom were recently honored at a shower given by Miss Rose Rubic, Aunt of the groom, and Miss Florence Benko.

LIFE WAS STILL WITHIN HER REACH

It was a peaceful Sunday morning in the couple's Glen Burnie home. Suddenly, the elderly woman clutched her heart and crumpled to the floor. Her invalid husband watched helplessly. He was unable to move.

Minutes later, the woman regained consciousness. Her one chance for help was the phone... 18 feet across the room. Inch by inch, she slid on her back across the floor. Futilely she tried to lift herself to the phone. Then, with one final burst of strength, she knocked the telephone table over. Slowly, she fingered the dial to find 0.

At that point, the Glen Burnie operator, Mrs. Joan Barker, took over. She contacted the woman's son, keeping the line open while he called the doctor. Then she connected the stricken woman with her daughter-in-law who reassured her help was on the way.

That week, we were pleased to receive the following letter from the woman's family. "If it hadn't been for your operator's help, our mother might not be living. We really appreciate the help Mrs. Barker gave. It's so good to know that the telephone company has real people with hearts!"

THE BIBLE SPEAKS

International Union Sunday School Lessons BY DR. KENNETH J. FOREMAN

Persistent Love Lesson for August 19, 1962

'LOVE' comes without reason, goes without reason. 'Love' can be easily hurt, 'Love' washes out in a rainy day like a cheap scarf exposed to the weather.

We put quotation marks around 'love' of which that can be true; for it is not genuine love, only a cheap substitute invented by teenage romancers. The Christian religion is a religion of love; but the love of which we speak has no more resemblance to the thing that crooners mumble about, than it has to a ham sandwich. Love as we meet it in the Bible is not a merely human word. Whatever genuine love human beings have, is based on, modeled on and called into existence by the love of God.

Blessing In the brief passage Ezek. 34:23-31 three ideas stand out. Each of these points up what God's love is, or rather how his love is shown. God's love is not (as ours sometimes is) a feeling to be cherished in secret. It is always made known—to those who have eyes to see.

First of the three ideas we select for underscoring, is blessing. The reader notices that the prophet does not say, as we might have expected him to do, 'I will give you a blessing.' He says rather, 'I will make you a blessing.'

Yes, but some one asks, does not that keep us robbed of happiness? Quite the contrary; there is no such great happiness in holding on to blessings as there is in sharing them. Do people ever thank God for you? You may not be able to answer that, because you don't know.

Peace Another great word here is 'Peace.' God makes a covenant—an agreement—of love with his people. Every dealing of God with men is rooted and founded in love. This cannot be otherwise if God is love. But this prophet brings out the way love is shown—and one way is the way of peace. Our God, the only true God, is a God of peace, not strife, anger, violence. There is something wrong with the picture when so-called and self-labeled Christians keep sniping at one another and calling names. There may be no possibility of union between your church and some other; but even where that is true, you do not manifest your Christianity by calling names and 'running down' other Christians who do not believe just in the way you do. Furthermore, to take another illustration, it ought to hurt our consciences that the so-called Christian nations of the world seem to be the most violent war-makers. As individuals, as churches, as a nation, do we really act as if we belonged to the God of peace?

Security A third great idea, a third great promise of God to his true people, is security. We know, if we have any experience at all, that God guarantees no man security from all human and earthly troubles. Commentators are not all agreed whether this reference in Ezekiel to security should be taken literally or not. One thing should be clear: If not even the prophet Ezekiel was immune from troubles (he lost his wife, and mourned deeply the fall of Jerusalem), God's people should not expect total freedom from pain, frustration and death, not to mention other ills. So those who think we should take the part about security literally, usually believe it must mean at some time after the last judgment, not now. However this may be, the believer in God can be assured that God will not let him be wholly destroyed, not even by death. To the Christian, death is not the final crash; it is God's summons to a world of glory. The Christian has the deepest security of all—security against the fear of death.

When seeding a lawn

*don't make the same
mistake twice!*

If there are ugly, bunchy patches of coarse grass in your lawn, it's a hundred-to-one you planted them yourself. They grew from seeds you paid good money for.

All grass seed isn't alike. Not by a long shot. There are choice, long-lasting varieties. Others are so-so. Some are no good at all. And some mixtures actually contain thousands of weed seeds.

That's why those who know plant nothing but Scotts. All-perennial and 99.9% weed-free. Scotts builds lawns that are rich, green, even-textured. Use Scotts for new turf — and for new life.

Now's the time to plant Scotts seed to add new life.
