footballs. The Taneytown Jaycees and Crouse Motor Sales, Co-sponsors will accept entries every day during the month of October. Entrants must be ac-companied by a parent or guardian; the competition is free to all grade school boys seven through 11, and no special equipment is proded. There special equipment is needed. There no body contact involved.

Upon registration, the future foot-ball stars will receive an instruction book written by Baltimore Colts pas-sing star Johnny Unitas, the ace pun-ter of the Detroit Lions, Yale Lary, and the pinpoint place-kicking star of the National Football League champion Green Bay Packers, Paul Hor-nung. Included in the illustrated book-let is instruction on how to do bodyof President Kennedy's goal of im-proving the physical fitness of American youth.

Entrants also will receive unique "Televiewers," reference pamphlets giving the schedules of all televised NCAA and NFL football games, line-ups of the teams, and other facts to make television viewing of football games more interesting

games more interesting. Taneytown b o y s will compete against others of their age groups in tests to determine the skill and accuracy of their football abilities. Foot balls will be punted, passed and kicked (using a kicking tee) by each entrant, with points awarded for each foot of distance the ball travels on the fly, and subtracted for each foot the ball lands to the left or right of a center line.

Five winners, one for each age group, will receive NFL-type warm-up jackets with the insignia of the Baltimore Colts. Second place win-ners will receive football helments,

and third place winners will be given footballs autographed by the 1961 NFL champion Green Bay Packers. I sneezed and the first thing, I heard was, "God Bless You, Lady!" Then as I sat down to have a delicious Club Sandwich, the lady next to me began talking, asklady next to me began talking, ask-ing where she could take up the "First Aid" of the Red Cross Chap-ter and I directed her to the location. She had a little boy with her and I asked the reason for his absence from school to which she replied, "Last night, he cut half of his hair off and I could not send him to school that way and we waited in the barber way and we waited in the barber shop so long this morning that it was almost noon before he had his turn to have his hair cut properly!" Then she added that her husband walked out one day and never came back to live with the family and the Welfare was giving her \$150.00, monthly! I observed the balloons all strung up at the ton of the mirror in front of us

BIG JUMP IN SPENDING, NOT MILITARY

- - - Increases in Federal spending have been principally on civilian programs, not so much on military. Last year's spending on military was 16% more than in 1960, while spending by the Interior Department went up 49% and spending on welfare programs went up 52%. This year's spending on farm subsidy (\$5,800,000,000), topping that of any other civil benefit program, is ten times as much as it was in 1947. (Among the many silly expenditures under the farm subsidy program is the payment to the City of St. Louis for not planting feed grains.) During a 15-year period, the Federal government's spending for education has increased 22-fold - - from \$64,000.000 to \$1.-500.000.000.

Looking back over the last 8 years, while the increase in military spending went up only 14%, the spending on civil benefits more than doubledan increase of 126%. That's not all. If Social Security and other civilbenefit programs not in the budget, but paid for out of "special trust funds," were included, the increase in cost of civil benefits would be 191%, bringing it to nearly three times what it was in 1954.

The other night I heard a TV debate in which one of the speakers said the Federal government simply "had to" provide certain educational benefits because "the States cannot afford it." This line of reasoning shows either ignorance or avoidance) of the truth, which is: The Federal government is worse off financially

How a Shell research team got 168.47 miles per gallon

than any of the States: it is head over heels in debt, and hasn't a dime which it does not first take from the tax-payers, and every "benefit" costs the taxpayers double. You see, you send a dollar to Washington for, say, education, and you get back 50 cents of it, the balance of your dollar evaporating in administrative and bureaucracy costs. Who needs "benefits" like that? "Federal aid" is a snare and delusion. Money collected and spent locally on needed projects goes twice as far as money sent on a round trip to Washington.

A Shell research team drove this car to a Mileage Marathon record. They used the same Shell fuel that could be bought at Shell stations.

168 miles per gallon must be a world record. Here's how the record was made-and how a quiet marriage of careful driving and today's Super Shell can help you get better mileage.

COME years ago, a group of Shell scien-T tists had a friendly argument. The gist of it: who could get the most miles from a gallon of gasoline. They decided to find out. And Shell's Mileage Marathon was born.

All contestants had to use the same gasoline anybody could buy at a Shell station. Beyond that, the Marathon had few rules. And ingenuity ran wild.

How the record was set

Here are some of the things that Dave Berry and Fred Schuette, the winning team, did to set their record.

None are recommended for informal marathons. But they do offer a few clues on how to get more miles per gallon.

· Berry and Schuette removed their engine cooling fan to save power and muffled their radiator to retain heat.

• They used tires worn smooth and pumped up to 50 pounds pressure to cut rolling friction to a minimum.

• On the road, they accelerated to 20 miles per hour, cut the ignition and rolled until speed dropped to 5 miles per hour. Then they repeated the cycle. NOTE: they used a standard carburetor

from an old one-cylinder engine.

Since "on-and-off" driving is illegal on public roads-and since most Marathon modifications are dangerous for normal use-you may wonder if Shell's Mileage Marathon had any point.

Indeed it did. In the months of preparations, every contestant learned a bit more about the care and feeding of automobiles. Knowledge of this sort gets passed along to you in the form of better Shell products for your car.

EXAMPLE: As a result of Shell's research studies, including many mileage tests, one of the 9 ingredients in today's Super Shell is a mileagebooster called Platformate. This ingredient alone can release up to 8 percent more energy per gallon than the finest 100-octane aviation gasoline. Result: extra mileage.

To help boost mileage even more, follow these driving tips from Berry and Schuette.

How you can save gasoline

1. Don't race your engine when standing still. Unnecessary engine speed is pure waste and takes you nowhere.

2. Avoid jackrabbit starts. Fast getaways waste gasoline and power.

3. Drive at moderate speeds. Your car uses about 25 percent more gasoline at 65 mph than at 45 mph.

4. Keep an even speed. Ragged driving uses extra fuel-without taking full advantage of the power it could generate.

5. Pace yourself in traffic. Don't be the fastest or the slowest. You'll just be trapped into wasteful spurts and slowdowns.

6. Keep tires up to their proper pressure. Soft tires can soak up power.

7. Ask your Shell dealer about these checks: Spark timing should be set correctly. Fuel filters and air cleaner should be cleaned regularly. Brakes should be properly adjusted. And your cooling system thermostat must work right.

Motorists who follow these rules, and use Super Shell, can expect good mileage. Chances are, you can improve the mileage you are now getting. Now that you know how, why not give it a try?

DETOUR-KEYSVILLE

Sympathy is extended to the family of Mr. and Mrs. James Unglesbee of Taneytown. His father, Mr. James P. Unglesbee of Jefferson, Md., died the morning of October 2.

Detour's Postmaster, Mrs. Carroll (Helen) Dougherty, is having herself a well-earned vacation. Mrs. Mae Franklin is her capable "stand-in."

Another "out-of-towner" wrote to tell me she surely would miss this column if it were discontinued. Mrs. Coral Cover whom many of you also Cover. As you can see, this is the third week in a row already for me to write this column and that is because of the wonderful response to my request for items to use. It looks as though Keysville is to

have another new house. There has been excavation work done on the Terra Rubra Rd. across the road from the Refromed Church's Parish House.

There is a pretty new-looking green roof on the home owned by Mr. Pete Long and lived in by Mr. and Mrs. Hahn. LeRoy Coshun painted it just Hand. Letty costant the roof on his Saturday evening visitors with Mrs. house next, I understand. This will Margaret Haines and Mary were Mr. surely brighten up this corner in Detour.

Mrs. George (Irene) Miller of Rocky Ridge has had to return to the Annie a paper collection Saturday, October Warner Hospital for awhile. I know 13th. Please have tide in bundles she appreciates cards very much. Let's hope her stay will not have to be a long one.

Do you read "A Voice from Car-rol"? It is one of the best articles in the paper in my own personal opinion. It has not been my pleasure to ever meet Mrs. Roelke but she does write an interesting column and I truly look forward to reading it each week. Have you ever noticed how she touches on various subjects and, whether or not you agree with her, she always leaves you with something to think about?

Mr. and Mrs. Cecil (Bob) Priest recently made a 3-day trip into the New England area. They covered 1,400 miles and went through 8 states. This time of year is a good time to go on such a trip and Mrs. Priest re-ported that it was truly "beautiful."

For you "out-of-towners," I might add that our own color is quite lovely now. After the rains we have been fortunate enough to have, the color is quite vivid. The reds and yellows have really brightened. Some of the mowers are still quite lovely also. Mrs. Gartrell, who lives on the Gregg Kiser farm on the Keysville-Taneytown Rd., has such beautiful dahlias. Mrs. William Stambaugh, who has the store in Keysville, has bright color with a plant I call Coxcomb. I'm not sure if this is the correct name or mot, but that is what it looks like. Some are red and some are yellow. Also the Burning Bush plants are becoming red now after they were such a pretty green all summer. The

Happiness

Happiness depends on a man's character rather than on his condition. It results more from what he is than from what he has. If men everywhere would endeavor to be what they ought to be instead of scrambling for all they can get this old world would be more nearly a "Moral Paradise." A study of the Beatitudes will reveal to us the fact that true happiness or blessedness is essentially spiritual. "A man's life consisteth not in the abund-

ance of the things which he possesses.' "No friendship is worth the name unless it does the highest good, assisting us to escape from the manifold forms of selfishness, and to look at duty with fresh impulse."

Asking Forgiveness

If you have treated someone wrong For which you should apologize Don't think in manhood you'll grow strong

And measure to some noble size By holding to a stubborn will

And thinking you should "stout it out,"

For in your spirit you'll grow ill, And faith to rise will turn to doubt.

Sometimes it takes a lot of grit To look another in the face, And from an humble heart admit

That we were wrong and out of place

By what we did, or what we said, About his character or name, Or some report we helped to spread,

For which we bow our head in shame.

To ask forgiveness doesn't show

That you're a tiny sort of man; It rather proves, as great men know

That you have principle and plan. Which measures to a law divine That God has fixed for men on earth

So we can grow and glow and shine And prove our manhood and our

To ask forgiveness brings sweet peace

And gives a conscience that is clear, And maybe joy that ne'er shall cease, Which may help other souls to cheer.

It means our prayers shall then go

And God will answer from His throne; And some bright day, if we'll be true,

He'll robe and crown us as His own. (by W. E. Isenhour.) The two articles I have written has meant so much to me I thought it worthwhile to pass unto you. Happiness and forgiveness, it is hard sometimes when we have said things or done things to some one to hurt them to go and ask forgiveness but then and only then true happiness comes.

First Anniversary of B. & L. Association

Augusta Building and Loan Association, with main offices at 420 N. Howard Street in Baltimore, has announced a month-long celebration of the first anniversary of their Westminster Branch in the Westminster Shopping Center.

According to William L. Bratcher. manager of the Augusta Westminster Branch, the modern facility in the Westminster Shopping Center was formally opened on October 12, but the anniversary will be celebrated all during the month of October.

"We are planning a month-long celebration as a way of showing our gratitude and appreciation to our many friends in Carroll County, whose valuable support and cooperation made our first year of operations a pleasant and successful one," Mr. Bratcher said.

In conjunction with the anniversary celebration, everyone who visits the Westminster Branch of Augusta will receive a free souvenir. Those who open an insured savings account for \$50.00 or more during the month-long celebration will have their choice of a valuable free gift.

Mr. Bratcher points out that it isn't necessary to visit the branch office to take advantage of the free gift offer for opening an account of \$50.00 or more.

"The account can be opened by mail in the same manner as our members use our convenient save-by-mail service," he explained. "A check or money order in the amount of \$50.00 or more along with the name and address and information as to the type of account to be opened is sufficient. The gift will be held until picked up on the next visit. A savings pass book showing the amount sent in will be returned by mail along with a postagepaid envelope to be used the next time there's a need for the convenience

of saving by mail." As an added convenience to give residents of the area an opportunity to take part in the celebration and get a souvenir or a free gift, the Westminster Branch will be open from 9 A. M. to 9 P. M. on October 12, the actual date of the anniversary. The Westminster Branch was the second branch opened by Augusta Building and Loan Association. The 40-year-old savings institution main-tains a main office at 420 N. Howard Street plus branch offices at 7 Cen-

ter, Place, Dundalk and in Annapolis at 6 West Street in addition to the Westminster Branch. The Westminster Branch operates under the supervision of an Advisory Board made up of prominent local business men including Scott S. Bair, Sherman E. Flanagan, Dr. Fred J Schmitt and Dr. W. Glen Speicher of Westminster; Earl E. Kopp, Sr. of Lineboro; W. W. Dulany of Sykes-

ville and J. Rollin Hunter of Reisterstown. Augusta Building and Loan Association has total assets in excess of \$34 million. Each member's account is insured up to \$10,000 through membership in the Federal Savings and Loan Insurance Corporation, a permanent agency of the United States Government. And Augusta is supervised by and regularly examined under the Federal Home Loan Bank Board, another agency of the Federal Government.

In addition to insured safety of Spent Wednesday with their daugh family of Littlestown, Pa., and Mrs. Mr. and Mrs. Charles T. Setherly ters, Mrs. Franklin C. Thomas and Roland D. Wilson and family of Tanand refreshments will be on sale.

God Lesson for October 14, 1962

WHAT is more important than God? Even to ask the question is absurd. The Bible is so filled with truth about God that a lifetime of study could not

Scripture all that is there to be found. Because there is such an "embarrassment of riches'' we have to make some selection here. We mention

only a few great Dr. Foreman truths about God, all found in the 17th chapter of Acts. The passage, Acts 17:22-29, is part of a sermon Paul preached to a pagan audience in the city of Athens. If you had a chance to speak to educated non-Christians about God, how would you start? What would you say first?

Creator and Lord

Paul begins by reminding the Athenians that they were not atheists. Their trouble was that they believed in too many gods. They were so anxious not to neglect any god that they had actually put up an altar to "An Unknown God." Whoever was responsible for that altar must have felt there was some other God out of sight. Paul brings the word that this "unknown god" is after all, the true one. He is "the God" -the only one. No part of this earth is outside his realm . . . only that is saying too little; in this space-minded age Paul might well have said that God made the Universe and everything in it. He is the God of every star and every planet, no matter how many lightyears away. As Creator, he does more than make worlds without number. He peoples them with inhabitants without number, 9 He makes life possible here on this earth. Wherever in this vast universe life exists-if it does-there it is God who is both Creator and

Preserver, and therefore Lord of heaven and earth, and of all their inhabitants. 🗭

"We are His oilspring"

Further, God as Creator is Father of all. Paul shows his knowledge (we did not say, shows off his knowledge) by quoting from a Greek poet Aratus,-or another who said the same one, Cleantnes. thing. "We are his offspring." In plain English, we are children of God. Children, that is, in the sense that we are his creatures, we owe our existence to Him. There are three "levels" (so to speak) of the fatherhood of God. First He is the Father of our Lord Jesus Christ; this is unique, no other is in the class with Christ. Second, He is Father of believers, Father of those who love Him and desire to live as His children. Third, He is Father of all men, though most men do not know this nor care, but are self-made orphans.

JAYCEE COMMUNITY SURVEY REPORT PART 10

This is the tenth of twelve installments of the Community Survey Report prepared by the Taneytown Junior Chamber of Commerce. The Survey was conducted by the Jaycees earlier this year with the report and recommendations adopted in July.

The report is being published as a public service by this newspaper and it is felt many will wish to clip and save for future reference.)

We continue the question-by-question analysis of the opinions expressed and offer several specific recommendations in regards to the proposed Activities Building for the community.

QUESTION #16. HOW WOULD YOU RATE TANEYTOWN'S MEETING PLACES FOR ALL ORGANIZATIONS?

Over-all opinions: Very Good — 5%, Adequate — 34%, Inadequate — 47% Don't Know or No Answer — 14%

Even though nearly one-half of the people stated that present meeting places are inadequate, we failed to find more than one or two groups, (aside from the political clubs), who have difficulty in securing a meeting place. Although it would be nice for each organization to have a place they could call their own to use as they see fit, it would seem quite impractical and one of the least of our needs at the present time.

QUESTION #17. HOW WOULD YOU RATE TANEYTOWN'S PUBLIC MEETING PLACES FOR LARGE GROUPS OR SOCIAL ACTIVITIES? Over-all Opinions: Very Good — 3%, Adequate — 25%, Inadequate — 55%, Don't Know or No Answer — 17%

This is quite another story! Over 55% of the people agree that there just

are not adequate facilities for dances, suppers, parties, feeds, receptions, conventions, meetings, etc. There are a number of these activities which must be taken out of town each year due to a lack of facilities in our own community.

QUESTION #18. HOW WOULD YOU RATE TANEYTOWN'S MEETING PLACES FOR BOY SCOUTS, GIRL SCOUTS, 4-H CLUBS, AND OTHER YOUTH GROUPS?

Over-all Opinions: Very Good — 4%, Adequate — 27%, Inadequate — 49% Don't Know or No Answer — 20%

Even though only about one-half of the people felt facilities are inadequate, the fact is that we do not have very good facilities in the community for these groups. Right now the Boy Scouts are desperately in need of a meeting hall.

QUESTION #33. HAVE YOU READ ABOUT THE PROPOSED COMMUNITY ACTIVITIES BUILDING?

Replies: Yes - 73%, No - 23%, No Answer - 4%

QUESTION #34. DO YOU FEEL FAIRLY WELL-INFORMED ABOUT THIS BUILDING?

Replies: YES - 40%, NO - 51%, No Answer - 9%

QUESTION #35. DO YOU THINK WE NEED A BUILDING SUCH AS THIS?

Opinions: YES - 59%, NO - 28%, Don't know or No Answer - 13%

QUESTION #36. DO YOU BELIEVE YOU MIGHT CONTRIBUTE TOWARD OR HELP WORK FOR SUCH A BUILDING?

YES - 51%, NO - 31%, Don't Know or No Answer - 18%

YES – 51%, NO – 31%, Don't Know or No Answer – 18% These four questions were asked with the express purpose of determining whether the people of the community as a whole are in support of the efforts to build a community building. Proponents of the building express gratifi-fication with the results. Of the people answering questions No. 35 and No. 36, over two-thirds said they felt we needed a building such as this and 62% said they would contribute toward or help work for such a building. Over 58% of those answering the questions said yes to both! Although this is a fairly good return on a question such as this, it would seem that if 85% of the people said we definitely need recreational facilities, support should be even greater. Possibly the trouble lies in the fact that over one-half of the people stated that they did not feel even FAIRLY well in-formed about the purposes and plans. Now that planning can again move forward, a more aggressive campaign of publicity will have to be initiated. There has also been fear expressed that this would be an additional obli-gation for the town tax payer. City officials have stated that they would not accept this building until it was entirely debt-free. And even after this is accomplished, groups and organizations using it would surely underwrite most of the upkeep through the activities which they would sponsor in the building. building.

QUESTION #37. IF A BUILDING IS BUILT WITH AN AUDITORIUM AND KITCHEN AS PLANNED, HOW MANY PEOPLE SHOULD IT SEAT FOR A LARGE BANQUET OR SUPPER?

FOR A LARGE BANQUET OR SUPPER? Replies: No Answer — 50%, Don't Know — 6%, 200 thru 300 — 15%, 350 — 3%, 400 — 9%, 450 — 3%, 500 — 10%, 600 — 2%, 700 — ½%, 800 — 1%, 900, up — ½% This question on the size of the building was asked in this manner only to give some sort of a frame of reference. We were not suggesting that the auditorium would be used only for banquets and suppers, or even that this should be its most important function. It is interesting that of the people who answered the question at all, only 29% felt that the present plans are large enough, nearly 50% felt that the present plans are inadequate and that the main auditorium should seat between 350 and 500. 11% thought it should be even larger than that, and 11% said they didn't know. This would indicate to us that a larger building is desired. (The preliminary drawings show a 50' by 100' building with a 48' by 68' auditorium. Even by eliminating a stage, the floor space would be less than the High School auditorium.)

- 1- That plans be pushed immediately for the establishment of the proposed Community Activities Building Committee of Taneytown, non-profit, community-wide organization; that this organization re-sume activity and planning for the erection of a building to be lo-cated on the area of the Memorial Park. In this connection we further recommend:
 - a. That since the survey very convincingly pointed out the need for teen-age recreational facilities, this be made the main purpose in designing the structure.

 That there are no bondholders, mortgagees, or other security holders. b. Since an apparent large majority of those interested feel a larger building than originally designed is needed, we suggest that the auditorium be planned as large as possible, keeping in mind the costs involved.
 - C. With the need for meeting rooms for organizations a little doubt-ful, we feel the lower floor should be designed more specifically for the use of Scouting and similar units. *

(Next week's installment will list the specific "Likes" and "Dislikes" of the citizens of the community.)

God is Spirit

Jesus had said long before this, "God is Spirit." Paul does not use this word but he speaks of what God is not. He does not live in shrines made by hand; He is not served by human hands; in Him we live and move and are; "the Deity is not like gold, or silver, or stone, a representation by the art and imagination of man." If we are God's offspring, then a human being is more nearly like God than anything else in the universe; so true is this, that when God set out to make his special and supreme revelation of himself, he did this through the man Christ Jesus. So Paul gently but plainly condemns all idols.

"That they might seek after Him"

Achttle boy said: "I like God. He hides and we have to find Him." There is truth in that. God is not obvious, we can go through life denying that He exists; but He is there all the time. Rather, He is here, here wherever we may be. He is not far from each one of us (and remember, Paul was speaking to non-Christians); yet nevertheless the Bible often speaks of man's seeking God. The point here is that God made man and has taken care of him, for one main purpose, namely that men might seek God in hope. God is not a silent God, He is not aloof and remote, deaf to man's cries. God wants to be wanted. He wants his children-by-creation to become His children-by-grace. But God will not force his way into any heart. He would rather be sought freely and eagerly than to compel men to worship him.

#38. IF GIVEN A CHOICE, WOULD YOU VOTE FOR A PUBLIC SWIMMING POOL TO BE BUILT BEFORE SUCH A BUILDING? Opinions: YES - 41%, NO - 48%, Don't Know or No Answer - 11%

By the wording of this question, we inferred that the community needs both a community building and a swimming pool. The question is, which should come first?

Of the people who answered this question, 47% said they would vote for the swimming pool first, and 53% said they would not. Of the 410 who want the swimming pool first, 180 had stated they would NOT work for or con-tribute toward a community building. No doubt we should also have asked if they would contribute toward the pool, since certainly this would also be precessive necessary

necessary. Unquestionably, a swimming pool would give excellent recreation facilities in the Summer to most all ages, and most particularly to the young people. A committee was appointed several weeks ago by the Park Board to investi-gate costs, etc., for a pool. Estimates for a pool this size recommended for Taneytown were approximately \$50,000. Once it was debt-free, admissions and season tickets should pay upkeep and overhead expenses. However, it is very unlikely that it would ever "pay-for-itself," as some believe. Actual financial statements supplied by the LIONS in Manchester, Md., would confirm this opinion:

Actual Infancial statements supplied by the inforts in Manchester, Mar, would confirm this opinion: The Manchester Lions Club, through fund raising projects and public sub-scription, built a pool on their own property in 1957 at a cost of approximate-ly \$40,000. They have a pool 80' by 35' which ranges from 3 to 10 feet deep, plus a wading pool 12' by 35'.

Every person that uses the pool must own a membership card. After this, each admission is 35ϕ for children and 65ϕ for all over 12. Season tickets are sold at \$25.00 per family. Last season there were 613 persons over 12 and 1,362 under 12 on season tickets. The pool was open 79 days last year from noon to 8:00 P. M., with an average daily admission of 128.

Total receipts from memberships, admissions, and profits from the con-cession stand amounted to slightly over \$5,000. A partial breakdown of expenses is as follows:

Labor	\$1,885
Chemicals	475
Water and electricity	367
Taxes and licenses	
	90
Insurance	
Repairs and painting	85
Miscellaneous	
Total Expenses	
maximate not profit for 1961 season	\$550.

The profit for the 1960 season was less than \$400.

The Jaycees believe that both a swimming pool and a community building are needed, but cannot both be built at the same time. Therefore, since the building would serve the entire community and serve it the year 'round, we favor the building first. Even though the building may cost twice as much, it will provide facilities which will make fund-raising projects possible to help pay some of the cost, and might then even help raise money for a pool. We are also afraid that because of the more limited group which is interested in a pool, it would be much harder to raise that initial \$50,000.

#39. DO YOU FEEL THAT MOST OF THE ORGANIZATIONS OF TOWN COULD WORK TOGETHER SMOOTHLY TO COMPLETE ONE OF THESE PROJECTS?

Opinions: YES - 59%, NO - 24%, Don't Know or No Answer - 17% Less than one-fourth of the people said no. In other words, it would appear Less than one-tourth of the people said no. In other words, it would appear that at least a majority of the citizens have confidence in a community-wide-consolidated organization of the various organizations. This is not an easy undertaking, and a great deal slower than one or two organizations going ahead and undertaking such a project. However, we feel that if it is managed right, success will be more likely, and a truer community spirit will be fostered.

RECOMMENDATIONS

It is very obvious that the vast majority of our people are concerned and disturbed about the inadequacies in recreational facilities. Believing that a well-planned community building will help to meet this need, we therefore recommend:

Over a million families stay warm all winter with the oil that's "scrubbed" clean

"Clean-burning" makes heating oil reliable...economical. And Gulf makes the cleanest-heating oil yet developed.

Get peace of mind heating this winter the way so many other wise families do . . . with Gulf Solar Heat.

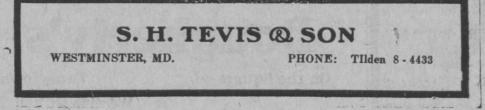

Just set the thermostat and forget about your oil burner. Clean-burning Gulf Solar Heat assures you steady, even, uninterrupted heat.

Gulf's secret is "Gulfining," an exclusive process that in effect "scrubs" away impurities with hydrogen. It's "Gulfining" that makes Solar Heat so clean and gives you more usable heat per gallon.
