HIGH SCHOOL HIGHLIGHTS

FBLA News

On Tuesday, October 8, the Taneytown Chapter of FBLA held a meeting. At this time the installation of officers and new members took place. The officers were installed by a guest speaker Larry Bowman, Vice President of the State Chapter of FBLA. We were very privileged to have Larry and his delegation from the Westminster Chapter of FBLA with us. There was not time for the regular business meeting; however, the members briefly discussed the possibility of presenting a play to the public as a fund-raising project.

On October 13, Betty Stonifer, 2nd Vice President of the State Chapter, accompanied by Mrs. Catherine Myers, Sponsor, attended the Executive Committee meeting of the State Chapter at Bel Air High School, Bel Air, Md. Plans were made for the State Convention to be held at College Park in April.

On Tuesday, October 15, during the 3rd period, the FBLA held its regular meeting. Back dues were paid by members and Betty Stonifer, our representative to the State Chapter of FBLA, reported to us the business discussed at the State meeting. The State Convention for FBLA will be held April 5 and 6. Members are urged to submit possible themes for the Convention to Betty Stonifer. Committee reports were then given by the Chairmen of standing Committees. The financial committee has definitely decided to sell candy and present a play as fund-raising projects. The project committee has endeavored to keep the club actively involved in all of the projects it has undertaken in the past—plus a few new ones. The social committee submitted numerous social activities for the club members to take part in. The first of these activities will be a hayride followed by a Halloween Party, to be held on Saturday, October 27.

The scrapbook committee has purchased a new scrapbook for the '62-'63 school year. It will contain pictures and clippings pertaining to the activities of the FBLA Club throughout the year.

The organizational meeting of the Taneytown chapter of Alpha Sigma Rho, a national senior high science club, was held Monday, October 15. The club advisor is Mr. Fred Martin. The following officers were elected: President, John Shorb; Vice President, Carroll Stauffer; Secretary, Frances Flohr; Treasurer, Carol Piezonki; and Reporter, Nancy Stine.

Remedial Reading Program

During the seventh period on Tuesdays and Thursdays, Mr. Francis Smith is offering a program in remedial reading to a group of twenty students. About thirty students were originally signed up for the program, but it was felt that more could be accomplished with a smaller group. Thus a screening process was undertaken in an effort to discover those students who might best profit from the proposed project.

The group consists of students who volunteered for this special help, as well as students who were recommended to the class by several teachers. On the results of diagnostic tests in spelling and reading, along with teacher consultation, a group of twenty interested students has been selected. They will meet in Miss Bankard's room, number 205, twice each week, during seventh period on Tuesdays and Thursdays, as noted above.

Should the program appear successful at the end of the first term, additional students may be considered for the second term. The project is aimed directly at improvement of the students' reading ability because it is felt that reading improvement will mean improved grades in other subjects as well, since success in school depends so greatly upon reading and success in reading.

Schools will be closed on the afternoon of Wednesday, October 31, so that teachers may attend the professional meetings at Westminster.

Report cards were distributed at Taneytown High School on Wednesday, October 24.

A card party sponsored by the P.T.A. of Taneytown High School will be held on Thursday, November 1, at 8:00. Parents are asked to contribute prizes, money, candy, or baked goods for the party.

COMMUNITY AND INDUSTRIAL DEVELOPMENT CONFERENCE HELD—COUNCILMAN NAYLOR REPORTS TO PEOPLE

The 1962 Community and Industrial Development Conference sponsored by the Area Development Department of the Potomac Edison System was held on Thursday, October 18 in the Cacao Lodge located near Berkeley Springs, West Virginia. Attending from Taneytown was Frank Dunham of Potomac Edison, Merle Ohler and Murray Baumgardner of the Chamber of Commerce and George Naylor, Jr., town Councilman.

The first speaker presented at the conference was George F. Wright, Jr., Director of Travel, Colonial Williamsburg, Va. His talk was entitled "Horizons." He spoke of the travel industry and how their 5-10-15 year look beyond the horizon has meant so much to Williamsburg. In any area its' survival is dependent upon the success of its' industry. Mr. Wright recommended the knowing of your product, being courteous, erecting of friendly barriers and friendly word of mouth advertising.

Next on the program was Mr. John H. Larson, Community Development & Planning Consultant to the Potomac Edison Companies. He spoke of "Planning—Key to Sound Community Development." Six steps to planning were listed (1) the Governing Body of the Community should appoint a Planning Commission, (2) Planning Commission should familiarize itself with its duties and responsibilities and determine its goals, (3) employ a staff and consultant to help develop a comprehensive plan, (4) development of Comprehensive Plan, (5) advise governing body of town on community growth, zoning and financing and capital improvements. The Comprehensive Plan or program should consist of studies of land use, natural features, population, economy, financial resources, public facilities and services.

Next on the program was Richard C. Holmquist, Industrial Development Consultant to the Governor of Virginia. He spoke of "How to Get New Industry." It was interesting to hear this speaker stress the importance that high schools play in the obtaining of industry into a community. He said, "Pay attention to industry you already have and help it grow. Check suppliers of present industry, check customers of present industry—contact them. Advertise and promote your town. Tell the whole truth, your assets and liabilities. List major airports, schools, colleges, population in terms of growth, kind of people, educational levels, climate, local industry, unions and their strike history, attitude of present industry to new industry, military installations both old and new, service industry such as print shops, hotels, books, repair centers, etc., rail and truck transportation, how many persons per doctor, taxes, housing, labor supply, churches, wage scale, attitude of community leaders, land price, statewide factors such as labor laws, boycott laws and voting records of politicians." In summarizing he stated that the obtaining of industry is complex and becoming a science. Selling must be done at the community level, also, keep the federal government out of the transaction.

Mr. Lauren L. Morin, Engineering Manager of the Electrical Divisions of Minnesota Mining and Mfg. Co. of St. Paul, Minnesota, then spoke on "What Industry is Looking for in a Community." Some of his points were: sound tax structures and equitable rates, business oriented political climate, environment for executives, necessary amount of land, equitable water and sewer rates, satisfactory zoning structure, good cultural system and recreation facilities. The talks by Mr. Morin and Mr. Holmquist touched on many of the same points as you can see by the titles of their talks.

"The States' Role in Community Development" was presented by Hullett C. Smith, Commissioner of the West Virginia Department of Commerce, Charleston, West Virginia. His points were: development must begin at home, a state is only as good as its counties and towns and states will furnish assistance in the obtaining of industry within a community.

The last part of the conference was devoted to "Community Financing." Various ways and means of raising money was discussed for the buying of land and the building of buildings for industry wanting to locate. Formation of a stock company and rent-purchase agreements were discussed. This ended the conference—one that proved to be educational and very informative. —G.N., JR.

"SPICE 'N' EVERYTHING NICE"

With all my heart, I wish you every morning a smile that shall last until the next day's dawning. I wish you health—life's greatest wealth; I wish you always near so that I may help to cheer. Each future day and in some way—help to bring you happiness!

LETTERS—OVERDUE

Dear Observer: We are up in years and have no children. Recently, an aunt left me quite a lot of money and I have always wanted to travel and now that we have such a grand opportunity to do so, my husband refuses due to the fact that he has two parakeets and he won't leave them! Any suggestions? Thank you, so much, J.C.

Dear J.C.: Don't you have some friends who would take over those birds while you make a trip. Tell your husband that the birds should not ruin his or your happiness. Try a short trip first and maybe you can win him over. Your Ob.

Dear Observer: I am engaged to marry a fine man whom I have known all my life. He is a widower and I a widow. My sister and I have been living together and she does not want me to marry. I sort am in the middle if you know what I mean. How can I plan this marriage without hurting her? M.C.

Dear M.C.: Just tell her facts and stick to them. She would do the same thing if the shoe fitted her foot. Your Observer.

Dear Observer: I am a professional man and have two girls. One is a very flashy and stylish dresser and the other girl I seldom see as she works so many hours during the day. The latter is a most substantial girl but I am really torn between the two. Hope you will come to the rescue. D.D.

Dear D.D. Your letter reads as though that flashy girl will give you many flashes with her big ideas! Everyone knows it is best to choose a mate who is substantial. Good luck! Your Observer.

Dear Observer: My father passed away about three years ago and my parents were very devoted. It was not long before my mother had a complete mental breakdown and was in an institution for one year. Finally she is visiting now a relative in California. She has surely improved greatly and writes the most wonderful letters to us. She is to return soon after this grand trip but we fear when she gets in that house and lives alone (three daughters are married) that she will start grieving again. We are really frightened about it. What should we do as we were under a terrific strain before? A thousand thanks. Signed, 3 Daughters.

Dear Three: You are crossing a bridge before you come to it. You stated your mother had improved to such an extent that she is again able to write beautiful letters. Try to talk to her when she brings up the subject that it is wrong to live in the past. Tell her not to look backward—ever. However, I really think from the rest of your letter that she sounds to me as though she is on the mend and the trip may have been just the thing she needed. Your Observer.

Dear Observer: I have three children and cannot afford to be running to doctors yet I feel I should go and that it is necessary. My arms get numb and I am terribly nervous. Do you think this is anything to worry about? Signed Reader.

Dear Reader: You are right, you should see a doctor and that immediately. I cannot diagnose a case. It is always best to get at the bottom of all ailments. Your Observer.

Dear Observer: Do you believe in big families? Signed Anxious.

Dear Anxious: Yes, I do believe in big families if they are properly supported. I was one of eight and we were a big happy family—each one with their own personality and individuality which made it very interesting all the time. There never was a dull moment for my parents, I can assure you. You know your circumstances better than I. What is more wonderful than a warm bundle of love in your arms? Best wishes! Your Observer.

Here's a cute saying:—No wonder women live longer than men—see how long they are girls!

See you next week D.V. Have a grand week-end. Be most careful when you drive. Will run to Philly for a few days. Be kind to one another. Life is so short. Until next week.

I am, Faithfully, Your Observer.

GRASS ROOTS OPINIONS

FORT PIERRE, S.D., TIMES: "How long can a government survive that requires one out of every six of the nation's workers to run it, and has spent so much more over the years than it has taken in that it owes \$1.2 trillion—or \$6,642 for every man, woman and child in the country?"

NEW PALTZ, N.Y., INDEPENDENT AND TIMES: "A blouse factory . . . moved to Carolina where it reopened and hired non-Union help. A complaint was filed with the government and recently a decision was handed down by a federal court giving the company a choice . . . of two alternatives. They could remove their plant back to Philadelphia and rehire their former employees or they could rehire their former employees in Philadelphia and move them down to their new plant in Carolina. How our representatives in Congress could ever have sat around and allowed legislation to pass which would permit this kind of nonsense, we'll never know."

CAMPBELLSVILLE, KY., NEWS-JOURNAL: "Numerous cases are cited of people who get more money on relief than they would in a pay envelope after withholding and social security taxes have been deducted. After a while these people lose all will and capacity for work. With millions of government checks going out each month, the relief programs have gathered a tremendous vote—hence making it most difficult to obtain sufficient political support to reform welfare programs, which would reduce costs and increase morale. . . . We do not oppose the expenditure of one dollar of the \$4 billion per year which goes for public assistance so long as it is honestly and legally spent. Loose administration of welfare not only wastes money, it undermines availability of men for work, and morale of workers who foot the bill."

Same car using Super Shell with Platformate stopped here: 6454 feet

Car using gasoline without Platformate stopped here: 6186 feet

San Francisco—Super Shell with Platformate has just delivered a mileage bonus of 4.33 percent. Platformate is Super Shell's mileage ingredient. Shell engineers test Super Shell for mileage in many different types of cars, in many different places. Here's how the test above was run. Exactly 250 cc (about half a pint) of a fuel blended without Platformate was fed into the test car's engine. The car was started, accelerated to 30 miles per hour, then held there until fuel ran out and the car rolled to a stop. Distance: 6186 feet (indicated by dotted line in background). Next, test was repeated, using Super Shell—the same fuel as before but with Platformate added. Precise same volume of fuel. Same car. Same speed. Same driver. Same conditions. Distance: 6454 feet. That's 4.33 percent farther than the car traveled with non-Platformate gasoline.

MILEAGE TEST

New documented tests prove that one of Super Shell's 9 ingredients packs extra mileage into every gallon

THE picture above was snapped a few moments after Super Shell with an extra mileage ingredient called Platformate delivered a mileage bonus of 4.33 percent. That's a typical result from a series of mileage tests Shell engineers recently ran on the outskirts of San Francisco. The tests compared two gasolines. One was a gasoline Shell scientists purposely blended without Platformate. The other was Super Shell—the same gasoline as before but with Platformate added. Shell engineers used a 1962 convertible for the tests. You may be driving a similar car right now. In test after test, Super Shell with Platformate consistently took the car about 4 percent farther than the gasoline blended without Platformate.

50 West 50 Street, New York 20, N. Y. Platformate gets its name from the platinum re-forming process used to make it. Pressures up to 600 pounds per square inch and temperatures up to 1000 degrees literally tear petroleum apart. A precious platinum catalyst then helps re-form the petroleum into super-energy components. RESULT: Platformate can release more energy per gallon than the finest 100-octane aviation gasoline. Your engine can convert extra energy into extra mileage.

Super Shell has 9 ingredients for top performance
Extra mileage is just one part of the top performance story. Super Shell's other ingredients complete the picture. Here's what they are and what they do.
TCP* for power, mileage, longer plug life.
Pentane mix—for fast "warm-up."
Butane—for quick starts.

Super Shell—the gasoline with 9 ingredients for top performance

REPUBLICAN PERFORMANCE

IN COUNTY GOVERNMENT

LAST WEEK we told you what had been done in SCHOOL construction by Republican County Commissioners between 1934 and 1942. No building was permitted during the war years, 1941-1945. After World War II the County built the fine Elementary School at Gamber and paid for it out of County funds.

In 1950 the County Commissioners sold \$1,500,000 of SCHOOL BONDS that had been authorized by a Republican Senator and 4 Republican Delegates in the General Assembly, and with that money the Board of Education was able to build:

ADDITIONS at New Windsor, Union Bridge, Uniontown, Charles Carroll, Manchester, Sykesville, Mt. Airy, Winfield, Westminster High, and West End Elementary Schools, a new Taneytown Elementary School, a new small school at Johnsville, new Elementary on N. Center Street, in Westminster, and remodeled and modernized the East End Elementary School on S. Center Street.

Since 1950 this bonded debt has been PAID DOWN to \$300,000.

Also in 1950 the County sold \$1,500,000 of ROADS BONDS used to build 77 miles of NEW HARD ROADS, and that bonded debt likewise has been PAID DOWN to \$300,000.

Next week we shall tell you about some of the accomplishments of your County Government during the period from 1954 to 1962.

You will be shown that Republican Performance has continued the March of Progress in the interest of ALL our citizens.

FOR FURTHER CONTINUANCE we ask you to support

A VOICE FROM CARROLL

All of the Carroll County Democratic clubs sponsored a dinner Monday, October 22, at Frock's Sunnybrook Farm. Senator Edward O. Weant, Jr., welcomed the four hundred Democrats and their friends...

One of the most famous internationally known Carroll Countians is William Henry Rinehart, the American sculptor, son of Israel and Mary Snader Rinehart, who was born about a mile and a half from Union Bridge September 13, 1825. The Rinehart collection of the Historical Society began with his biography by Rush and a portrait sketch. Later photographs of the Rinehart home at Marble Knoll and the farm on which the marble quarry is located was added to the collection...

has run out for compromise and wishful thinking. Now there is no longer a choice. We are face to face with reality and the biggest question is: How is the individual going to react? This morning after the first shock has worn off, people are going about their business as usual. Across the road, men are busy picking corn, while in the next field others are planting grain. My neighbor is doing her ironing and the television screen is showing "The Price Is Right." No one shows concern but nevertheless deep concern is with each of us. But we know there is nothing we can do but carry on our own work and trust the President to do his job the best he knows how.

Honor is a chain with many links. It leads from the simplest transaction like leaving pennies in an unguarded slot for a newspaper... on up to international treaties involving the lives of millions of people. If we want to stay civilized, then each of us has the job of keeping that chain unbroken. For staying civilized depends on making promises and keeping them.

Our telephone company is converting to all-number dial, and as usual it is creating all kinds of problems with customers. Some people cannot remember seven numbers and we are one of them. One friend asked me for an operator for an unlisted number and after several tries at repeating seven numbers, gave up and said to the operator, "Never mind, I'll just get the car and drive over."

What every woman wants to hear: "Don't fluster her with flowers; don't take her out to dinner; don't dance with her for hours; just say, she's looking thinner."

Some commercials on T.V. makes many of us squirm, but the one which says the next best thing to being there is to telephone is quite true. No one quite understands this until a loved one is far away, then suddenly the sound of their voice over the phone makes it seem they are in the next room and not three thousand miles away. Letters are fine but the sound of a familiar voice is much better.

The goblins and witches will be on the loose this week. We hope that this year they will be nice goblins and spooks and stick to funny pranks, not malicious ones that destroys property and makes people unhappy. Just remember Halloween is for fun and a merry time. See that everyone keeps it that way.

A household hint fifty years old: "For dusting the kitchen range, nothing is better than a whisk broom covered with an old black stocking dipped in kerosene." Sounds pretty messy doesn't it? The smell of kerosene is enough.

DETOUR-KEYSVILLE

May I correct an oversight on my part? You may remember that I reported the speaker at the Keysville Lutheran Sunday School Rally Day Service was to be Mr. Ford Waggoner of New Windsor and his topic was to be "DOMINOES." Well, after I sent in the news the following week, I remembered I had failed to comment on his talk, but then it was too late to add it. Last week on an errand to The Carroll Record office, whom should I see but Mr. Waggoner. We talked a bit, and I commented on his talk to the Sunday School. When he found I am the one who writes for the paper, he mentioned he hadn't seen notice of it later. Can you imagine the embarrassment I felt? You see, if you weren't there, you don't know how forceful a speaker Mr. Waggoner is and how interesting his talk was. Let me make amends now and tell you that the point of his topic was everyone should do as he old game of Dominoes instead of his mad rush of today. In other words we should GIVE to the point of exhaustion instead of trying to always GET as much as we can. Alright?

Sympathy is extended to the Coshun families upon the death of their brother—or uncle—Mr. John Coshun of Ladiesburg. Mr. Coshun died at work on the 15th of October.

Galen Heaps and Bobby Richardson of Street, Md., spent from Wednesday thru Saturday with Galen's grandparents, Mr. and Mrs. Charles Cluts of Keysville. On Saturday Bobby's parents, Mr. and Mrs. Robert Richardson and their nephew, Jimmy, also visited with the Cluts and took the boys back home.

Mr. and Mrs. John Young spent Sunday evening with Mr. Young's aunt, Mrs. Alice Hummer of Woodboro.

Sunday dinner guests with Mr. and Mrs. Richard Willhide were her grandparents, Mr. and Mrs. J. Gardner Miles; her parents and brothers and sister, Mr. and Mrs. Daniel Seibert, Paul, Timmy, Marianne and Johnny, all of Clear Spring, Md.

Sympathy is extended to Mr. Clay Hahn of Detour, who makes his home with the Carroll Willhide family, upon the death of his sister, Mrs. Robert Reed of Trenton, N. J. Mrs. Reed, the former Leoma Hahn, died suddenly while visiting her cousin, Mrs. Emma Hitebride of LeGore.

Some trees and foundation plantings have been placed at the new home of

Mr. and Mrs. William Fleharty. It surely does make a difference.

Mrs. George (Irene) Miller of Rocky Ridge is back at home and doing very nicely, according to my latest report from her son, Mike.

Week-end guests with the Maynard Ausherman family of Forest and Stream Club Road were their daughter and family, Mr. and Mrs. John Ammenheuser and their two sons of Frederick.

There were 10 girls from the Terra Rubra Girls' 4-H Club who attended the all-day meeting at Westminster last Friday. Their interests were with the dried flower arrangements and the knitting classes. This was a fine turnout.

Mr. and Mrs. Melvin Baile and their two children were Sunday evening visitors with Mr. and Mrs. Richard Willhide.

Sunday visitors with Mr. and Mrs. Maynard Ausherman and family were Mr. and Mrs. Gilmore Ausherman, Wayne and Terry of Frederick and Mr. Ausherman's sister, Mrs. Melvin Amoss with Wayne and Karen Lee of Taneytown.

Mr. and Mrs. Edward Matthews, Tammy and Mitzi, of Forest and Stream Club Road were visitors on Sunday with their parents, Mr. and Mrs. Russell Matthews of Ladiesburg. The Matthews live on the farm formerly owned by Mr. Oden Fogle.

Mrs. Byron Stull of Taneytown has been released from the Annie Warner Hospital and is now with her daughter Kathryn, Mrs. Robert Stine, of Keysville.

Mrs. John Young has received some pictures from her daughter and son-in-law, Mr. and Mrs. Robert Hood, which were taken on the island of Haiti. They, with three other couples, flew to Haiti from Cuba for a day of sightseeing. Betty wrote to her mother that the trip was quite interesting; that the natives were quite friendly but live so poorly in huts. The weather, it seems, is still quite warm where they are. Bob is stationed at "Gitmo" with the U. S. Navy.

Keysville is enlarging again. The first excavation I reported a short time ago — across from the Parish House of the United Church of Christ — is for a house being built for Mrs. Daisy Dinterman, who now lives right at the intersection. There is now a second home being started between Mrs. Dinterman's present home and the home next to Keysville Lutheran Church. It is being built, I understand, for Mr. and Mrs. William Stambaugh, who have the store in

Keysville. This small community is growing by leaps and bounds lately.

There is also a large SOLD sign on the home owned by Mr. Sterling Stambaugh which is next to the church. It is now occupied by Mr. and Mrs. Barry Buckingham.

Mr. Carlton Fleming of Silver Run was a Sunday dinner guest with Mr. and Mrs. Maynard Ausherman and family.

Friday evening the families of Carroll, Richard and Myron Willhide were among a number of relatives and friends who attended a serenade at the home of Mr. and Mrs. Clyde Willhide for their recently married daughter and son-in-law, Mr. and Mrs. Thomas Hugh Engel.

Saturday Mr. and Mrs. William Fleharty attended the wedding of his niece, Miss Sandra Fleharty, to Mr. Robert Brudin in Washington, D. C., in the Chapel of St. Luke's Methodist Church at Wisconsin Avenue and Calvert Street. Because Sandra's father, Ralph, whom some of you may remember from his talk sometime ago before the United Lutheran Church Women about Arabia, is still in Arabia, Sandra had asked her "Uncle Bill" to "give her away." This was a small, but quite lovely wedding. In the meantime, Wayne, Ellen, Bruce and Diane visited with their aunt, Miss Carol Wolgang, also of Washington.

The Keysville-Detour Homemakers Club met Wednesday evening, October 17, at the home of Mrs. Harold Thomas, Hollow Rock Farm. There were two demonstrations, one on bread making at which time sweet rolls were made and the other by the Home Management Leaders called "How to get the job done using less time and energy." New officers were elected for the coming year and they are President, Mrs. Mary Ausherman; Vice President, Mrs. Hazel Stonesifer; Secretary, Mrs. Irene Baughman; and Treasurer, Mrs. Ruth Thomas. There was discussion about the dinner coming up the 16th (I believe) of November for Farm-City Week. Three members were asked to donate pumpkin chiffon pies, and tickets were made available. This dinner is being sponsored by the Farm Journal Magazine for an article they expect to print sometime next year. After adjournment, refreshments were served by the hostesses Mrs. Thomas and Mrs. Mary Ausherman in keeping with the Hallowe'en theme.

If you have no enemies it is a sign fortune has forgot you.

LETTER TO THE EDITOR Dear Sir: I am writing to correct an error which appeared in the issue of October 18 in the report from your De-tour-Keysville correspondent. Quoting from the article in question: "My request for items about the Keysville Reformed Church brought the information that the proper name of this Church is now The United Church of Christ. The Reformed and Unitarian Churches have merged together into one, and this is the name they have chosen." The merger referred to is the union of the Evangelical and Reformed Church with the Congregational-Christian Churches. The Reformed Church merged in 1932 with the Evangelical Synod of North America to form the Evangelical and Reformed Church. The Congregational Church later merged with the Christian

Church (not the Disciples of Christ) to form the Congregational-Christian Churches. The official name of the merged Church is "The United Church of Christ."

However, none of the four denominations, now constituting The United Church of Christ, were ever and certainly are not now related to the Unitarian Church, which denies the divinity of Christ. In common with all Protestant denominations and the Catholic Church, the United Church of Christ is Trinitarian, not Unitarian. We hold to the truth that God has revealed Himself in the three Persons of the Trinity; the Father, the Son and the Holy Spirit, all co-equal and one in the Personality of the Godhead.

I might add that the General Synod has authorized and suggested the retention of the original names of congregations. Hence the name of the church of our denomination at Keysville is properly "Grace Reformed Church at Keysville, Maryland, of the United Church of Christ."

Very sincerely, GUY P. BREADY, Frederick, Md.

SUNDAY SCHOOL CLASS MEETS

The Graceful Workers Sunday School Class of the United Church of Christ met on Thursday, October 18, at the home of Mrs. Harry Clingan. There were thirteen members present.

The meeting was opened by singing several hymns and scripture reading followed by prayer. Joan Clingan read "Autumn Colors" and Catherine Clingan read "The Story of Halloween." President, Marion Rue, was in charge of the business meeting. The secretaries and treasurer's reports were read and approved.

Mrs. George Motter, co-chairman of the program committee for the music being held on Sunday, October 28th, gave a report regarding the various solos, instrumental and choral numbers which will be featured on the program.

The class will have a refreshment stand at Mrs. Mabel V. Smith's public sale on Saturday, October 27th serving sandwiches, home-made pies, and coffee.

Mrs. Sylvia Howarth and Mrs. Martha Wiley were appointed to provide a program for our Christmas Party to be held on Thursday, December 20th at Taney Inn.

The hostess served delicious refreshments after the business meeting adjourned.

God Within
Lesson for October 28, 1962

SOMETIMES it looks as if the Church made it harder instead of easier to believe in God. The church talks about the Trinity, but we don't understand that. It talks about the Holy Spirit, but that seems very hard to understand. On the contrary, the Church's teaching about the Holy Spirit (all the good of which we owe to the Bible Dr. Foreman in the first place) makes God much nearer than we would otherwise dare to think about Him. In fact, a definition of the Holy Spirit which many Christian teachers have expressed is just this: **The Holy Spirit is God at work in the hearts of men.** The Holy Spirit is God-within. You will never be any closer to God nor He to you, than you are to the Holy Spirit.

He will send . . . I will send . . . Of course no reader will suppose that he can find out all there is to know about God, in one single column in a newspaper. God cannot be shut up in a million books, and of course not in a few lines of print. The Bible material for this week's study gives much more than we can deal with in so short a space. All we can do is to point out three truths, all of them from the teaching of Jesus. First of all is that apparent contradiction: Jesus tells His disciples first that the Father will send them the Holy Spirit, and then that He (Christ) will do so. We are intended to put these two truths together. The Holy Spirit comes from the Father and comes from the Son of God, from Jesus Christ. Now if you insist on puzzles, there are puzzles in that simple statement. But let's bypass the puzzles, and look at what is plain. The least that can mean is that the Holy Spirit is like the Father and like the Son — we

might (using human terms of course) say that the Holy Spirit is in harmony with, and represents, both the Father and the Son, both the high God and our Lord Jesus. (One is no more and no less God than the other is.) Well, what is this? Another puzzle? No; this truth gives us a way to distinguish between alleged Spirits of God and the true Spirit. If the "Spirit" leads a man to do what is not Christ-like, then we may be sure that whatever he has in his heart, it is not the Spirit whom Christ has sent.

Truth and Conscience

Jesus furthermore calls the Holy Spirit the "Spirit of Truth." Some Christians understand this to mean that wherever men are moving in the direction of truth — any truth, scientific, economic, intellectual, religious — there the Holy Spirit is at work. Now of course, if God is a god of truth, his Spirit will never support a lie. And we may well believe that God is concerned with truth of every kind and in every aspect of life. But it is also true that the Holy Spirit is most especially concerned with truth about God and about his relation to the world and particularly to man. It is quite possible, it happens every day, that men who have no religion and do not believe in God at all, make scientific explorations and discoveries that are true and even valuable. But no one is likely to learn much about God who does not seek the help of the Holy Spirit. To put this another way, only God can introduce us to God.

What a normal human being wants, however, is not mere bare truth, he wants not only to know, he wants to do. This is particularly true in the Christian religion. Like its mother-religion of Judaism, Christianity has always been interested in action. Right living is quite as important as right thinking, the two cannot be separated. So the Holy Spirit is called the "Counselor." This is a better translation than "Comforter" or "Advocate" though it may include those other meanings. The word suggests that God-within is not a presence only, but a guiding presence. Put into simple language, this means that the more Godlike, the more Christ-like, a person is, the more he will do what is right in the sight of God. We can't live with people without learning their ways; and we cannot live with God without learning — humbly but truly — more and more of His will.

Over a million families stay warm all winter with the oil that's "scrubbed" clean

"Clean-burning" makes heating oil reliable...economical. And Gulf makes the cleanest-heating oil yet developed.

Get peace of mind heating this winter the way so many other wise families do . . . with Gulf Solar Heat.

Just set the thermostat and forget about your oil burner. Clean-burning Gulf Solar Heat assures you steady, even, uninterrupted heat.

Gulf's secret is "Gulfining," an exclusive process that in effect "scrubs" away impurities with hydrogen. It's "Gulfining" that makes Solar Heat so clean and gives you more usable heat per gallon.

JAYCEE COMMUNITY SURVEY REPORT

PART 12

(This is the final installment of the Community Survey Report prepared by the Taneytown Junior Chamber of Commerce. The committee and organization wish to express their appreciation to the Carroll Record for the space devoted to publishing this, and to everyone who helped with this project. Printed copies of the entire report are available for those interested.)

In this final installment are the replies to the last two open-end questions and some comments and recommendations regarding roads. Answers to the open-end questions were lumped into certain categories where possible.

QUESTION: WHAT IS THE MOST OFTEN-HEARD COMPLAINT ABOUT THE COMMUNITY?

There were 55 different complaints recorded, with practically the same statements made as were included under the "Dislikes" in the preceding question. There were some changes in the ranks, however, of some of them, so we will simply list them in the order of times which they appeared and will make no further comment.

QUESTION: IN YOUR OPINION, WHAT ARE THE MOST IMPORTANT THINGS WHICH NEED TO BE DONE RIGHT NOW TO MAKE THIS A BETTER COMMUNITY?

garding some of these. Fifty-nine suggestions were submitted. Some of the suggestions we feel are impractical and some we cannot agree with. However, there are also many fine suggestions and a number of recommendations have been made. Following are those suggestions which were most often made, ranked in the order of the frequency with which they were submitted:

- Get New Industry
- Provide Recreational Facilities, Build Community Building
- Provide Organized Recreation, Particularly for Teenagers
- Keep Our High School
- Improve Shopping Facilities
- Open the Movie Theatre
- Work Toward Better Cooperation
- Get More Doctors
- Build a Swimming Pool
- Improve Police Protection
- Improve Secondary Streets
- Improve Roads, Particularly the Westminster and Harney Roads (See recommendations below.)
- Improve the Restaurants
- Elect New Officials
- Fix-up, Clean-up, Paint-up
- Provide More Low-cost Housing
- Get Bus Service
- Door-to-Door Mail Delivery
- Raise Wages
- Improve Street Lighting
- Get Good Zoning Law
- Expand Corporate Limits
- Get Free Garbage Collection
- Plant Trees
- Get Mail Boxes Uptown
- Enforce Ordinances
- Have Town Office for Convenient Payment of Bills
- Keep Taxes Down
- Give Full Accounting of City's Finances
- Expand and improve Sewer System
- Build a Community Fall-Out Shelter

Some others which appeared on only a few questionnaires, but which we felt note-worthy:

- Erect Historical Markers
- Build Tennis Courts
- Have a "Welcome Wagon" to Welcome Newcomers
- Promote "Shop-at-Home"
- Find a Good, Common Project
- Have Town Library
- Improve the Park
- Wash the Streets
- Inform the People More About the Local Government
- Obtain a Shoe-Repair Shop
- Get New Traffic Signals at the Square
- Fix Bad Pavements

RECOMMENDATIONS — ROADS

A number of people expressed dissatisfaction with some of our roads, most particularly the Westminster Road and the Harney Road.

- Route 97, Taneytown to Westminster
Informed sources assure us that the first 3 1/2 mile section from Roop's Mill to Richardson Rd. will be let for contracts November 27, 1962, with construction to begin in 1963. The next section, (from Richardson Rd. to Big Pipe Creek), will most likely follow for at least several more years.
The present road is extremely rough, winding, dangerous, and costly to maintain. Proposed construction will completely relocate the highway since this will someday be a part of the East-West Expressway, a limited-access, four-lane divided highway. For this reason extensive repair and resurfacing would seem a waste of money. We therefore feel that every possible pressure should be exerted to try and move-up planned construction dates.
- Harney Road
Completion of the widening, relocation, and surfacing of the remaining 2.2 miles of the Harney Road is essential to the safety and comfort of the many residents of that area. Also, since it is the closest route to the historically important Gettysburg, Pa., its Hospital, etc., and also Route 15 North, it makes this project of primary importance. Right of ways for a new bridge across Alloways have been secured and contracts for the construction of this bridge have been awarded. County officials have assured those concerned that as soon as property-owners along this route give up the right-of-ways, construction will be completed. The County does not and never has paid for these right-of-ways. With over 300 miles of unimproved roads in the County system, it is easy to calculate the costs involved if this practice were started.

VOTE FOR QUESTION 7 . . . plug the loopholes in Maryland's Unemployment Insurance Law . . . and provide more help for the deserving unemployed

Proposed improvements in the Law include an increase in the maximum benefit from \$35 to \$38 per week—for the majority of those unemployed *through no fault of their own.*

At the same time these improvements will eliminate loopholes that permit a free ride.

**APPROVED BY YOUR STATE LEGISLATURE
SIGNED BY YOUR GOVERNOR**

These improvements have been thoroughly considered and passed by the Maryland State Legislature. They were also studied and approved by Maryland's Governor.

Final action to have this new and better Maryland unemployment compensation plan become law requires approval by Maryland's voters on Election Day.

Jack Hahn Completes 20 Years Legislative Service at Annapolis

Joseph H. Hahn, Jr., at his desk in the House of Delegates in the State Capitol at Annapolis.

Mr. Hahn discusses some important legislation with Gov. J. Millard Tawes in the governor's office. Busy as he is, Gov. Tawes is always available to Delegates and Senators.

An appointment is made with Hostess Cathy Molter at the State Capitol for a group of Mr. Hahn's constituents to tour the State House. Miss Molter is a student at Hood College, Frederick.

When not in Annapolis during legislative sessions, Mr. Hahn is busy at his desk in his offices of the Hahn Packing Company. In shirtsleeves and with his familiar pipe he is shown busy, busy, busy. The Great Seal of the State of Maryland is on the wall.

Mr. Hahn with Sen. Barry Goldwater. Mr. Goldwater was busily engaged in writing interesting things about Carroll County and things political.

At the relatively youthful age of 43 years, Joseph H. Hahn, Jr., is not only dean of the Carroll County delegation in the Maryland House of Delegates—he is the second longest-serving member in both legislative bodies—the Senate and the House of Delegates. No other member can match his service of five successive terms as a delegate at Annapolis, except Delegate Lester B. Reed, Republican, Allegany County.

Partly because of his experience based on tenure in office and partly because of his acknowledged ability in various important fields of government, he has long been one of the handful of legislators who wield real influence in the State House during annual sessions of the General Assembly.

Member Legislative Council

But his influence does not end there. He has also represented Carroll County and the state on the all-important Legislative Council, that elite group of Assembly leaders which constitutes the between-sessions-investigative committee of the Legislature.

So far as can be determined, Jack Hahn is the only one of the 123 delegates (the membership before the House was enlarged this year) who has served, at various times, on almost every House committee.

This constitutes an enviable record, and one in which every Carroll County can take justifiable pride.

It is no accident that Jack Hahn has been named to committees dealing with matters of vital concern to the taxpayer—those committees dealing with fiscal matters and taxation! When the Senate-House Committee, which keeps a close eye on Maryland finance, was appointed, Jack Hahn's name was included, as a matter of course.

Native Carroll Countian

A native Carroll Countian, he was first elected to the House of Delegates in 1943, when he was 23 years old. Since then his fellow countians have elected him to five successive terms. He is one of seven Republican delegates now serving in the House.

Paradoxically, his membership in a small minority has served only to increase his already strong influence among the Delegates, thus assuring Carroll County with representation on the most important House Committees—the Ways and Means Committee, which passes on all financial matters before they are brought to the floor for action.

As a member of that committee he has helped to mould many a far-reaching act of the legislature. For example, a Ways and Means Sub-Committee of which he was a member earlier this year rewrote the high-priority measure which for the first time brought a degree of State control over building and loan associations—a measure generally regarded as urgently and immediately necessary.

Observers credit the sub-committee with whipping into shape an acceptable bill, which, otherwise, would have stood little chance for passage.

Much of Mr. Hahn's influence in Annapolis stems from his ability to get along with the opposite party. This is obviously a vital attribute in a House of Delegates where the Democrats outnumber the Republicans 116 to 7 in the present House, and may outnumber them even more in the enlarged House.

You seldom see Mr. Hahn's name attached to a piece of state-wide legislation—and there is a reason for this—his devotion to the affairs of Carroll County, his home and the county he represents.

During a legislative session at Annapolis his mail is heavy with letters

from his constituents. His telephone rings constantly. His visitors from Carroll County are numerous. In short, he is what is known in the State House as a "service delegate"—one dedicated to the well-being of his constituents. This devotion to service does not end with the legislative sessions. It continues when he is at home in Westminster—it is a year-round job!

Private Enterprise
During an average day at home, between sessions of the General Assembly, he devotes two to three hours to matters of concern to the voters of Carroll County. He manages to fit in his public duties with his private work as president of Hahn's of Westminster, meat packers. No one will ever know the full extent of the services Mr. Hahn has

done for those he represents—services which sometimes have helped his fellow countians in matters of a critical nature.

Educated in Westminster

Jack Hahn was born in Westminster on July 10, 1918, and has spent his entire life in Carroll County. He attended school in Westminster, then went into business, eventually be-

coming the president of the family He is married to the former Miss meat packing firm. He is a member Gertrude Bullock. They have one of the Board of Directors of the Car-daughter, Trudy Jo, a college student roll County National Bank, member Western Maryland College. They of the Maryland Farm Bureau, chair-are members of the United Church man of the Retarded Children's Fund-of Christ, Westminster. Raising Drive for Carroll County. After 20 years as a member of the chairman of the Legislative Commit-House of Delegates, Mr. Hahn is as-tee of the Maryland Frozen Fooding voters of Carroll County to pro-Association, and a member of themote him to the State Senate.
