All 1964 graduates of Taneytown Jr.-Sr. High School who wish to enter the 1963-64 National Merit Scholarship competition should register now at the school office, Mr. Ned C. Mus-

ser, principal, recently announced. The National Merit Scholarship Qualifying Test will be given in the school at 9 A. M. Tues., March 5, 1963. Students who will graduate from high school in 1964 and enter college in the same calendar year are eligible for scholarship consideration in the 1963-64 Merit Program.

To receive consideration, the stu-dent must take the test when it is offered in his school. Participating students pay a \$1 fee on the day of the test.

Awards in the Merit Program are granted on the basis of intellectual merit, but student financial needs determine the amount of individual stip-ends. The stipends are renawable each year without further testing. A student's performance on the qualifying test also provides him with information that is useful in career planning or in selecting courses in high school and college, Mr. Musser stated.

After the test, each participating student receives an interpretive folder prepared by Science Research Associates, the testing agency, that reports individual test results for comparison with scores of high school students across the country. Thus, Mr. Musser said, students car

### Punt, Pass and Kick Competition

Kenneth Crouse, Competition Direct-or for the Taneytown Punt, Pass and Kick Competition for grade-school boys has warned that only a few days remain in which Taneytown area boys can register for the test of football skills which could lead to a White House visit and an appearance at the National Football League Champion-

"Registrations will close Wednes-day evening, October 31, "Mr. Crouse pointed out," and none can be accepted any later, since we must draw up our competition lists and get every-thing ready for the big program on Sunday, November 4, 2:30 P. M. at Taneytown Memorial Park. Entrants must be accompanied by a parent or guardian. There is no charge for registration nor is any

charge for registration nor is any special equipment needed. Competit-ors will vie with others of their age groups in contests of distance and accuracy in the passing, punting, and kicking (using a kicking tee) of foot-balls. There is no body contact.

Prizes in the Taneytown competition include Baltimore Colt warm-up jackets for the top winner in each age group, football helmets for second place winners, and autographed footballs for third place winners. Area winners, determined by com-paring scores of all state winners, will receive expense-paid trips for themselves and their fathers to National Football League games for half-time competition to determine the ten finalists. The National finalists and their parents will receive ex-pense-paid trips to Washington for a White House reception, to be followed by a trip to the championship game of the National Football League, where the National winner in each age group will be determined by a half-time competition in the crowded stadium.

The Taneytown Punt, Pass and Kick competition is co-sponsored by the Taneytown Jaycees and Crouse Motor Sales. The program, in which more than 200,000 boys competed throughout the country last year, is sponsored nationally by Ford Divis-ion of Ford Motor Company and the National Football League.

### Attention Anyone With Imagination

Here is an opportunity to help in this research project for youngsters from 1 to 6 years. Everybody is invited to send in anecdotes, short stories or a brief outline on how to help a parent with the everyday and the unusual situations in bringing up the very young child. For example, how to make explanations about bedtime rules, TV watching and other home rules that must be followed, or help a child overcome a tendency of mixing facts and imagination, etc. Particularly wanted are phrases of praise, affection and correction useful in child development in regard to kind-

### FORMER PRESIDENT WILL SPEAK AT REPUBLICAN RALLY

Former President Dwight D. Eisenhower will be the featured speaker at a gigantic Republican Rally to be held North Point Armory in Dundalk, Friday, November 2, at 6:30 P. M. As this is the culminating affair of a vigorous campaign in the Second Dis-trict, former Governor McKeldin will serve as Toastmaster, with David Scull, Republican State Central Commitee Chairman, serving as Master of Ceremonies for the event. The entire state Republican Slate of Candidates will be at this rally, as will the candidates from the Second District and the County candidates from Carroll, Baltimore and Harford Counties.

J. Fife Symington, candidate for the House of Representatives from Carroll, Baltimore and Harford Counties, has been given President Eisen hower's support as have the candidates from these three Counties running for State Senator. It is anticipated that the backing of the former President will aid this District's return to the Republican ranks after a long absence.

Former President Eisenhower will appear on television, WMAR Channel 2, at 8:00 P. M. with the candidates, including the County Republican candidate for State Senator, Joseph "Jack" Hahn.

A caravan of Carroll County Re publicans will leave Republican Headquarters, 116 East Main Street. Westminster, at 6:00 P. M. There will be bus transportation available at a nominal charge for those who do not wish to provide their own transportation. It is hoped that a large caravan of supporters may be formed to back the local candidates at this rally. Please contact Republican Head-quarters, TIIden 8-5967, to make arrangements for this affair. Reservations should be made for the bus in order to assure availability of seating.

### OCTOBER

It is here with us again—the glor-ious golden month of October. Truly, there is no other month of the year which can excell it in beauty. October brings crystal-clear blue skies and the warm sun of Indian Summer. It is a month of harvest, and a time of plenty. God has wielded his celestial paint brush upon the trees, so that each one is robed in splendor. No human artist could ever hope to emulate such breath-taking colors, varying from shades of flaming red to the most subdued of russet tones. Even the smallest bush along the road-side and the lowliest vine in the hedgeand the lowliest vine in the hedge-row, are aflame with beauty. Along winding country roads, milk weed pods are bursting open. Their silky parachutes are floating everywhere. Sprigs of golden rod brightens the country side. Neat rows of corn shocks are standing in the fields, giv-ing them a delightful old-fachioned ing them a delightful old-fashioned look of an era gone by. The road side stands are aglow with color - the rich orange of plump pumpkins, the burnished red, yellow and green of succulent apples, and the clear amber of apple cider. October is a month of riotous color, indeed. It is also a month of many activ-

ities. The crops are being gathered in, and most silos have already been filled. Shellbarks and black walnuts are thudding to the ground. They are being gathered by squirrels and human alike. The children are really getting into the swing of school by this time. The latest in Fall fashions is a favorite topic among the ladies. Hallowe'en parties and hay rides are being planned. But there are always joy the loveliness of October because t only reminds them that Winter is just around the corner. To them, it is a season of sadness. They find something quite depressing in the falling leaves that accompany this time of the year. For my own part, October is the real "gem" of all the months of the year.

"SPICE 'N' EVERYTHING NICE" With all my heart, I wish you every

No doubt, all of the lawns have been mowed for the last time as lawn mow-ers have disappeared; stored for the winter.

Thanksgiving is in the air and al-though there is a real breeze, the wind is brisk and makes you feel like walking miles.

Drove down especially to see the Civic Center. As one approaches the entrance, it looks and feels M A M-M O T H and the people seem small in size. This beautiful building is something for all Marylanders to view. Such a short time for build-ings to be razed and this huge affair built. It is very modern looking with the points of the roof. This building not only will provide a house for sports teams but it will house many other forms of enterprise, cultural and otherwise. So at last we have a CIVIC CENTER! We can be most

proud! The seating capacity is some-thing to talk about! Young man, if you are thinking of popping the question and desirous of purchasing a good diamond, Sears have ton diamonds and the distribution have top diamonds and the sales perhave top diamonds and the sales per-son will tell you facts about anything and everything you ask. Perfect diamonds without a flaw are much more expensive. Ask to see the dia-mond through the little glass and that request will be granted, too. Sears really is a name you can trust and that for over 70 years. It is a and that for over 70 years. It is a "Traditional Diamond" when pur-chased in that store. The nice part you can purchase a small diamond to begin and then change it in for full value on a larger one at any time. The estimate of a Tradition Diamond depends on color, cut, clarity and car-at size. They must measure up just that way from that famous store.

How wonderful our President was the other night on TV, plus his speech! He grows and grows on acquaintance and has wrapped himself around this heart of mine and betcha, millions of others feel the same way who did not vote for him. #### AN APPRECIATION

Lord Brooke said, "And out of mind as soon as out of sight." The best of men are sometimes wrong. Rev. and Mrs. A. W. Garvin have now been away from Taneytown a couple of weeks and they are missed and are in the minds of the people of Taneytown. As a neighbor I know. I would not attempt to enumerate all they did for their church, or of the un-numbered things they did for neigh-

bors and the community. Reverend and Mrs. Garvin, you have our best wishes for success and joy in the work of your new parish. We hope you soon will make friends

We hope you soon will make friends in your new community, not to take to be held. This is always greatly place of those in Taneytown, but to enjoyed by our city friends. add to them. —M. E. N. Mary Shrive

LACKLAND AFB, Tex.-Airman Basic John T. Young, son of Mr. and Mrs. Charles T. Young, R.F.D. 4, Westminster, Md., is being reassigned to Amarillo AFB, Tex., for technical training as a United States Air Force aircraft maintenance specialist.

Airman Young, who completed the first phase of his military training here, was selected for the specialized course on the basis of his interests and aptitudes.

The airman is a 1962 graduate of St. John Catholic High School.

Heres's a real and true by Phelps, "There are no real difficulties in a home where the children hope some day to be like their parents!" I recall when all of us were little, we did not have to be told what to do but

we just followed our parents! A Clergyman wrote to a wealthy and influencial business man requesting a subscription to a worthy charity and soon received a curt refusal which ended "As far as I can see, this Christian business is just one this Christian Dusiness is just one continuous give, give, give give" Re-plied the Clergyman, "I wish to thank you for the best definition of the Christian life that I have yet heard!" And this to the Teen-agers—If you have tried and tried again, nor made your effort less. You really have suc-

your effort less. You really have suc-ceeded then—for Courage is success. And the Farmer's Almanac states for November—"Girl's titter, this storm's bitter. Storms out West pre-dict Winter's zest. Indian Summer for Mama. This Nor'easter's two prongs in H A D E S belongs. Don your mittens when feeding the kit-tens". So heware folks! tens". So beware, folks!

Have a grand week-end. Drive slowly for then you will enjoy the magnificent colors all the more upon the trees.

Dear Carroll Countians, Donald C. Sponseller Esq. is retiring as State's Attorney and on Novem-ber 6th, the Carroll County voters will select a new man for the office. I am a candidate for State's Attorney of this County and in this issue of this paper, please find one of my political advertisements. Tropriety does not permit me to comment to you on my experience, ability or temperament but if you do not personally know me, I invite you to inquire of Ralph G. Hoffman, attorney (with whom I worked for nearly five years) or of any Carroll County attorney, as to his opinion of me in those areas so important to the office of State's Attorney. I am willing to suggest that your decision on my candidacy be based on his opinion. As responsible citizens, I do not feel that you need be reminded to wote on November 6th, 1962. If you find you can vote for me, I can only promise fair, courteous treatment to Carroll Countians and a dedication of my best to the office of State's Atorney. Respectfully, ROBERT J. COOKE,

### A VOICE FROM CARROLL

For half a century Nathaniel Currier and James Ives served as printmakers of the American people. Today they are still printmakers to the American people, for the prints still attract many admirers, and collectors hunt the originals far and wide. In these prints can be found that wholesome national flavor, which makes their work the finest representation of the habits and customs, life and tastes, history and achievement of the exciting era which witnessed the building of our great country. Currier and Ives were craftsmen and only Ives had any claim to being an artist. Their real claim to fame was as recorders of national taste, popular opinion and American attitudes in the years 1835 to 1907 in the form of colorful prints. National disasters were the first subjects used by N. Currier and in 1840 he turned out his famous print of the burning of the steamer Lexington which went down off Long Island with the loss of over a hundred lives. The demands for this print were enormous. But other things besides disasters drew Currier and Ives attention. The substitute for sex in the 19th century was sentiment and hundreds of prints deal with this sweet emotion, portraying the joys of courtship, and the pleasures of family life. Another popular subject was temperance and no doubt Currier and Ives paved the way for the prohibition movement by their realistic prints showing the evils of alcoholism. Prints concerning politics and sporting events were also popular and are among the most sought after prints today. One print of a hunter recently sold for \$4500 at an auction. The prints were drawn by skilled artists and colored by hand and reproduced many, many times. The lithographs of Currier and Ives are an important form of American art. Those who possess one of these prints should cherish it for it is part of American history that has passed and will not be coming this way again.

The woman ahead of me in the checkout line in the supermarket waited patiently while the clerk figured out how much to charge for two cans of cat food marked 6 for 51c; three cans of baked beans marked 6 for 99c, and so on. Not once in select ing her box of groceries had she taken the quantity the store suggested. Conscious that I was watching the clerk tallying her assortment of canned goods, she said, "It takes a little longer, but no store is telling me how to buy groceries."

It saddens me often to hear intelligent people say that they do not concern themselves with politics. The word itself brings strange reactions from people as if it should be avoided in polite society. The delusion that one can avoid politics is wide spread, but it is a delusion. From sunrise to ep each and sunset and even everyone is caught in the web of politics. For politics is the art of government and government either federal, state or local controls the life of every citizen whether he is aware of it or not. The roads, the schools, police protection, laws that govern our business, profession or job, laws that regulate, buying and selling are all part of governing. Taxes support all three forms of government and each individual pays taxes. So why should it be so difficult to take an interest in something of which every-one is a vital part? When people invest money in a company, it is only common sense to pay attention to the officers and what they are doing. Government works the same way. You invest your money through taxes in government. You should care enough about your investment to learn how its spent and by whom. This can only be done by getting interested in politics and learning something about the functioning of government. Recently friends of ours took a trip to New Mexico. They had heard so much about the Indian Harvest dances and so soon after their arrival, they asked when they would take place. It was explained to our friends that there would be no harvest and therefore no Harvest Dance. All the male Indians were working at the Los Alamos Scientific Laboratory. Mrs. Millard Tawes, first lady of Maryland, was honored at a tea Sat-urday, Oct. 27, by the Women's Demo-cratic Club of Carroll County. Over 350 women attended the event at the Historical House in Westminster from 2 P. M. to 5 P. M. Women from all parts of Carroll County came to meet Mrs. Tawes and pay their respect to the lovely and gracious wife of the Governor of Maryland. The hunting season has opened and already there are more casualties among the hunters than the hunted. From the Oakland area in Garrett County comes reports that the squirrels are ill with some disease. This probably accounts for the diminishing squirrel population around here. An Eskimo won a trip to New York as a prize for catching the most seal in a season. When he returned home, he brought with him a length of pipe, which he set up in his igloo so that it protruded through the roof. When his wife asked what it was for he replied, "That's a trick I learned in New York. When you want heat, just bang on the pipe.

### DRY HOLE #41 FOR FREE STATE

After drilling 6,240 feet near Key-mar, Carroll County, a "wildcatter" has obtained only "a great deal of geologic information which is interesting and should be of assistance in

further search" (for oil). Records of the Independent Petro-leum Association of America indicate that this venture is the 41st consec-utive "dry hole" drilled in Md.

#### WHY IT'S CALLED A 'RISK' INDUSTRY

That statistic is not as startling as it may appear in the light of nation-wide figures compiled by the Ameri-can Petroleum Institute, which reveal "an average of 44 unprofitable holes are drilled for every profitable field discovered by new-field wildcat wells

Wells. Just how "unprofitable" is a dry hole? A. P. I. reports the average "dry hole" goes to a depth of 4,240 feet and costs the driller \$43,000. The deeper the well, the higher the costs per foot. The deepest "dry hole" drilled in Maryland to date went to 8,165 feet. At that depth, the cost of an unproductive well averages about \$100,000.00

How do you induce investors to risk that kind of money on a 45 to 1 "levy shot?" Primarily, by balancing the equities of the tax laws through provisions like the percentage depletion allowance, which recognize the inher-ent risks of the business. This approach has provided an ample supply of petroleum products to Americans at reasonable prices, well below the level of those prevailing in western areas of the world, by stimulating the search that insures abundance, rather

In connection with the announcement that the State would grant leases for wildcat drilling on 6,000 acres in Western Md., State Geolo-gist, Dr. Joseph T. A MONKEY'S VIEWPOINT (Dedicated to the Evolutionist)

Three monkeys dining once in a cocoanut tree

Were discussing some things that they had heard true to be. "What do you think? Now, listen

you two; Here monkeys, is something that

"That humans descend from our noble race!

Why, it's shocking — a terrible disgrace,

Whoever heard of a monkey deserting his wife

Leaving a baby to starve and ruin its life?

And have you ever known of a mother monk

To leave her darling with strangers to bunk? Their babies are handed from one to

another And some scarcely know the love of a mother.

'And I've never known a monkey selfish to be

As to build a fence around a cocoanut tree

So other monkeys can't get a wee

But would let all the coconuts there go to waste

### **BOARD OF EDUCATION**

### A regular meeting of the Board of Education of Carroll County was held in the Board Offices on Tuesday, Sept. In the Board Onlices on Tuesday, Sept. 25, at 9:30 A. M. All members were present except Mr. Clifton Warner. Mr. Thomas Raver, whose name has been recommended to the Governor for appointment to the Board was present for the online machine as an present for the entire meeting as an observer. Mr. Raver is a graduate of the Carroll County Schools and re-sides in Hampstead. It is anticipated that his appointment will be forth-coming before another regular meet-

ing. The Board approved the current fi-nancial transactions including the auditor's report for the school year

Consideration was given at some length to the plans for an accelerated school building program in order to relieve crowded conditions at a number of locations. The board took ac-tion to authorize the Superintenden-dent to proceed as rapidly as possible with negotiations related to the ac-quiring of a school site near the Oakland Mills community so that a primary school may be planned and constructed as promptly as possible in this area. The Board also approved additions to the school buildings at Sandymount and Freedom and directed that negotiations proceed with architects in connection with the planning of these facilities so that, if possible, the drawings can be completed and the projects advertised in time for completion before the open-ing of schools in Sept. 1963.

The Board directed that the option involving land for a consolidated high school in the southern part of the county be taken up and that proceed ings necessary to the formal acquisi-tion of the land located near Win field proceed. It is the apparent sen-timent of the Board to plan, as promptly as possible, for the making of drawings and the planning of this large facility to be set up as a con-solidated high school for the Mt. Airy-Winfield - Sykesville - Gamber- G is t area. It was anticipated that this will be constructed as a comprehensive high school with a capacity of from 800 to 1000 pupils, so planned that a complete program can be offered in

all the regular secondary fields. The Board approved teaching con-tracts for additional teachers: Barba-ra L. Allen, Robert Moton; Edna R. Ta L. Allen, Robert Moton; Edna R. Dwayer, Mt. Airy Sr. High; and Willard Reed, Mt. Airy Sr. High; Mrs. Helen Englar, Sandymount. Resignations were accepted from Mrs. Annie C. Wooten and Edwin Rachman Bachman.

A letter of appreciation for a scholarship appointment was read to the Board from Sterling Haines, re-cent recipient of an appointment.

Consideration was given to a num ber of routine matters related to the employment of teachers and other personnel.

The Board adopted a revised school calendar for the 1962-63 year and ap-proved graduation dates for the county senior high schools as follows: June 6, Francis Scott Key; June 7, Westminster and Robert Moton Schools; June 10, Mount Airy; June 11, Sykesville and North Carroll Schools; June 12, Taneytown H. S. The Foard was also given genies of

The Board was also given copies of recent news releases and comment was made, especially with relation to to a study distributed on September 17th involving current enrollment statistics and cost comparisons. This news release has been sent to the County newspapers.

The Board adopted a policy to pur-chase a bond for the protection of the

addition of six classrooms and certain addition of six classrooms and certain modifications to the building itself to modernize the sanitary facilities, check the capacity of the heating plant, and to provide more adequate office space for the school administra-tion. This facility is bally needed be-cause of the increasing school pop-ulation in the Sandymount area mak-ing it necessary now to house part of ing it necessary now to house part of the potential elementary school en-rollment in the Westminster schools which are becoming more crowded with each school year. (b) The pro-viding of additional school rooms at Freedom School location and the addr reedom School location and the add-ing at this location of facilities for an elementary school library. This need exists because of the increased pop-ulation in the Eldersburg-Freedom area which is served by this school. The project involves the addition of The project involves the addition of four rooms at the Freedom location which now consists of ten regular classrooms, an auditorium and kitch-en. (c) Because of the vastly in-creased population in the Oakland Mills-Liberty Dam crease the creased population in the Oakland Mills-Liberty Dam area, the Board is convinced that for the convenience of younger pupils and their parents, a primary school should be erected in this area. The superintendent was authorized to negotiate a plan for the securing of additional land for the lo-cation of the building and further to plan a school building of approximately six rooms which would lend itself to further additions when necessary. The project would also involve the erection of a general purpose room for use as a cafeteria and auditorium with kitchen facilities to permit the serving of school lunches. The building as planned would also include administrative space, health rooms and

toilet facilities. The superintendent, in accordance with the decision of the Board, re-cently approached the County Commissioners with the request that they indicate their support of the projects described. At a joint meeting between the superintendent and the County Commissioners the projects were de-scribed in detail and the County Commissioners indicated their support in making the buildings possible. With this assurance, the superintendent is this assurance, the superintendent is expected to proceed rapidly with the planning of the three described pro-jects. It is noted that through the co-operation of the county government, these projects can possibly be com-pleted in time for use in 1963-64. The educational authorities are of course educational authorities are, of course, appreciative of the cooperation of the ounty Commissioners in making the planning of these buildings possible. Consideration of other school building needs facing the county and planning for facilities other than those menfor facilities other than those men-tioned will, of necessity, occupy a prominent place in the plans of the Board of Education during the early months of 1963.

Two Tenderfoot rank reviews were carried out, Harold Wantz being ad-mitted to the Flaming arrow patrol and Steven Wantz into the Panthers. The assistance of Roger L. Childres with transporting boys and assisting at instruction in swimming was much appreciated during the month of Aug. A cousin of Larry Yelton, he has now enrolled at a college in Tenn., looking forward to a career in teaching physical education. Two weeks ago Robert and James Howarth were present as new candidates, and before that Paul Hahn has for several meetings been a Panther candidate recruited by Gary Wantz. Last week saw the first appearance of Rickey Airing, Jack Ditzler, and Donald Hahn.

With the return to full activity of those members who have been work-ing during portions of the Summer vacation, there is yet plenty of room for new members to fill out the four patrols headed respectively by Thomas West (Flaming arrow patrol), Ralph Hoffman (Foxes), Samuel Bower (Panthers), and Chas. Masor (Raccoons). The troop meets regular-ly on Thursday nights at 7:00 o'clock as long as daylight saving time lasts. New recruits are cordially invited to participate in these activities, which will continue their outdoor content until the first meeting in October, when the scene will shift to the scout hall. Even then there will be one outdoor feature as long as there is pleasant weather for it.

#### **ON TAXES:**

"Half the price of every loaf of bread you buy goes for taxes ... the Administration promised us economy in government—but the budget contains many unnecessary and expensive items, grows by leaps and bounds. I believe we must reject 'rubber stamp' Congressmen who will automatically say 'Yes' to any administrative project, no matter how socialistically inclined."

### **ON FARM POLICY:**

"The Democratic - controlled Department of Agriculture spends half as much money on administrative work and other bureaucratic activities as the net income of all U. S. farmers. I will fight to relieve the farmer of oppresive government controls and for a return to a stable businesslike farm market."

### ON THE TWO-PARTY SYSTEM

For the full and satisfactory implimentation of our American form of government, a strong two-party system is vital. For this reason, our counties must be freed from oppressive bosses and those candidates who "rubberstamp" their actions. "The American people must not be reduced to the level of a regimented herd."

### **ON UNEMPLOYMENT:**

"Unemployment in my district is of major concern to me. I do not believe in regarding people as mere statistics . . . and if elected, I will fight to relieve the situation by encouraging industry to come to Maryland, thereby creating more jobs for our people."

VOTE SYMINGTON November 6th in Roads, Planning and Sanitary Districts, programmed the roads where Federal Gas Tax revenues were used, and prepared all specifications, enabling the County to receive its full allotments.

In 1959 a Planning Commission was appointd by the Board, and Mr. Saylor has served continuously as the County Commissioner Member required by law. Upon the recommendation of this Planning Commission, under the guidance of Mr. Grier as Director, an Interim Zoning Ordinance was adopted. Mr. Grier also has directed the efforts of 43 Western Maryland College students in making planning studies, for the ultimate development of a future land use plan for the County. He also directed studies, with engineering assistance, resulting in the final draft of a Major Water and Sewerage Plan for future use by the County.

In view of this PARTIAL RECORD of RESPONSIBLE PERFORMANCE, why would any citizen, interested in the present and future welfare of Carroll County, want to terminate the services of two such dedicated and experienced Commissioners?

TO ASSURE a CONTINUATION of their EFFICIENT, HONEST and PRO-GRESSIVE performance, VOTE on November 6th for

for County Commissioners

(By Authority of Donald M. Smith, Political Agent)

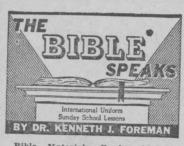

RAYMOND J. PERRY has been successful in the operation of his own business, yet has found time to serve in many civic organizations, and as MAYOR of TANEYTOWN continuously for the past 11 years. Some of the highlights of that service are: Modernized Street Lighting; New Sanitary Sewer System; Parking Meters; New Memorial Park with buildings; New Mater Tower and expanded Water System; Streets expanded and Surfaced; City limits extended; Safety Program; Modern Bookkeeping methods adopted; Sponsored numerous Ordinances in interest of Health and Community Betterment; and all this without excess taxes.

THESE ACHIEVEMENTS attest to his qualifications to serve and be a GOOD COUNTY COMMISSIONER. One of his Council Associates for many years describes him as an Administrator who is for "Progress tempered with Frugality." Such qualities indicate Competence, with Safety.

ELECT PERRY as one of your County Commissioners on November 6th.

### The Bible Lesson for November 4, 1962

WHY the Bible? Some one might think that the Christian religion has a Bible just to keep up with the procession; for every religion in the world that

a million mem-

be very odd if it

we have a Bible.

son-that God can Dr. Foreman speak to man only in a written Word? Not at all. Did you ever stop to think that the whole Bible was written by persons who did not have a whole Bible? In fact, a great deal of the Bible is devoted to accounts of how God has been found in other ways as well as in the Bible. Is the reason for the Bible our need of a book of rules? No, the Bible itself does contain a few rules, but nearly every page of it is something else besides rules.

#### Inspired

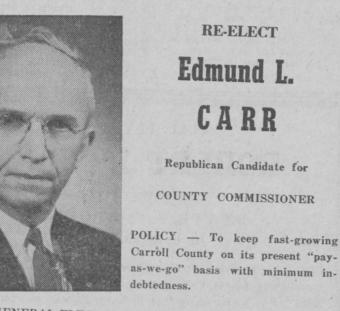

One reason the church cherishes the Bible is because we believe it to be inspired by God himself. This does not mean that God dictated the various books of the Bible, certainly not in English. What we do mean is that God was at work in the entire process by which the Bible has come down to us. You would cherish every letter of one you love; if your loved one was (for instance) a teacher of art, you would no doubt be glad to have pictures or sculpture done by her pupils. Perhaps your friend the teacher did not paint this picture herself, but you can tell it must have been done by one of her pupils. "It looks like her," you say. In the same way, God did not hold the pen for the writers of the Bible; but persons who have assuredly known God, have through the ages recognized the unmistakable marks of God's thought and ac-

tion here. It is as difficult to "prove" the inspiration of Scripture as to prove that Mozart was a great musician. But both the Bible and the music can be studied. Out of the study comes appreciation, and out of the appreciation grows the conviction of inspiration.

### MEET SENATOR EDWARD O. WEANT, JR., SENATE **LEGISLATOR OF 1962**

Senator Edward O. Weant, Jr., a lifelong resident of Carroll County and son of the late Edward O. and Virginia S. Weant, was graduated from Westminster Elementary School, St. James' Preparatory School, Western Maryland College and attended Harvard Graduate School of Business Administration prior to entering the Military Service. In 1942 Ed enlisted

as a Private in the United States Army. His qualifications of leadership resulted in his acceptance im Officers Candidate School where he was commissioned in 1943. He served 15 months overseas in the mid-Pacific area as a Troop Commander. He was awarded several medals and his company received the Meritorious Service Unit Plaque, after which he was dis-charged from active duty in 1946 as a Captain and joined the Reserve. He was then asked to become Government Appeal Agent in the Selective Service System.

At his law office Senator Weant considers many problems, both legal and legislative. Even so, he is never too busy to talk with his constitutents.

to this position. Ed is a member of the Veterans of Foreign Wars and a Past Commander of the American Legion. The Senator, his wife and two young sons are Episcopalians. He is now

a Vestryman of the Ascension Episcopal Church and has served as Junior and Senior Warden.

Ed passed the Maryland State Bar Examination in 1949 and was Ed passed the Maryland State Bar Examination in 1949 and was admitted to practice of law before the Court of Appeals in 1949. In a few short years, he won the admiration and respect of the legal profession for his outstanding abilities as a lawyer. He is a partner in the law firm of Brown and Weant and is a member of the American Bar Association, Mary-land Bar Association and Carroll County Bar Association. For two years he served as President of the Carroll County Bar Association.

He was elected to the Maryland State Senate in 1958. During his four He was elected to the Maryland State Senate in 1958. During his four years as a Senator, he has drafted, introduced and supported legislation of local and state-wide significance. In addition to practicing law in West-tions by working his local constituents, he fulfills his state-wide obliga-tions by working the year around on such committees as the Committee of Taxation and Fiscal Matters, Elections Laws and Condemnation Laws.

Ed's service to his County has not been limited to passage of laws and serving on committees, but he has prevented the loss of the education scholarships to Western Maryland College which were threatened by proposed legislation in 1961. His efforts in this field preserved the district scholarships whereby deserving young Car-roll Countians may be offered the opportunity of furthering their education.

10-25-2t

Early in his freshman term, Senator Weant was appointed Vice Chairman of the powerful Senate Judicial Proceedings Committee. He was chairman of such important committees as the Committee on the Reorganization of the Court of Appeals, Committee on Potomac River Compact, Committee on Local Highway Needs and Prison Committee

In addition, Ed Weant has served as Vice Chairman of the Veterans and Civil Defense Committee and as a member of such committees as Agricultural and Natural Resources, Joint Committee on Investigation and the Milk Control Committee. Senator Weant has also found time to report to his constitu-ents weekly by press and radio, on the news which developed during the sessions of the Maryland General

So when you are building a life, as Jesus said, you need to build it on a rock, not on sand. We feel the need of a court of last resort, a Judge above all judges. We need an accurate compass, we need a dependable light, a map with roads plainly marked. Now the Bible is all of these things, and people who have discovered its value have used such words as these about it. For the Protestant Christian of every kind, in spite of all our smaller or greater differences, the Bible stands as the supreme authority, even above the church. We do not find codes of rules here; we find living men and women who had authentically known God. In their life-experiences and in their reflections and conclusions, we find again the will of God for ourselves.

Some treasured heirlooms are valued highly because they are irreplaceable. So the Bible is invaluable, because it is unique. Most books answer some questions, the Bible answers the central questions. The Bible gives us the answers we do not find elsewhere. The Bible speaks to our most agonized questionings, our most insatiable quests. What is my destiny, as a human being? Am I a kind of accident, along with other human beings, or are we all part of the plan of God? How can I, poor, sick as I am, come to terms with the high God? What is God like? What can I believe about Him, and what does he want me to do? When I come to the inevitable. end of this life, and face the lest dark doorway, the last toll-gate, what lies beyond? When I shard at the graveside of a loved one, must I stand forever alone? When I look into the vast reaches of space to the galaxies receding ever beyond our reach, do I And there only mindless energy or do I dare to see above all, above all, infinite and eternal love? The Bible and the Bible alone gives us the answers to such questions.

Given under my hand this 16th day of October, 1962. MILDRED E. PARKER, Rt. #1, Taneytown, Md. Ex'rx of the estate of said Dec'd.

Senator Weant is experienced in managing a Carroll County farm and Senator Weant is experienced in managing a Carroll County farm and knows the farm problems. He is an officer and director of several Carroll County businesses. Ed Weant has taught Business Law at Western Mary-land College, is past President of the Westminster Chamber of Commerce, has headed many fund drives, including the Red Cross and Cancer. He is now Vice President of the Carroll County Foundation. He is also a past Chairman of the Carroll County Welfare Board and former Chairman of Red Cross and Cancer Drives.

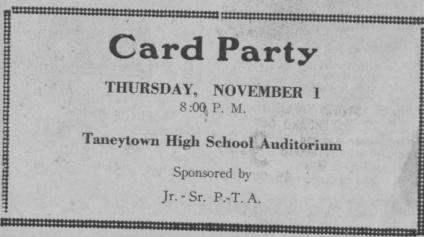

Ed Weant, always interested in civic and charitable affairs, is shown here opening the last Poppy Drive,

You often see Ed Weant's name associated with state-wide legislation because of his realization that he, as a member of the State Legislature, has a duty to serve, not only the people of his County, but also the citizens

For his outstanding work in the Senate in 1962, Ed Weant was selected Senate Legislator of the year.

On this record Senator Weant is running for re-election to the State Senate for Carroll County.

Childbirth is a vastly safer experience for both mother and child today than it was as late as 1945, according to the National Health Education Committee which gives major credit to the introduction of antibiotic and sulfa drugs. From 1945, the year penicillin first became available in civilian hospitals, to 1961, the death rate for babies under one year declined 33 per cent. Maternal deaths declined by a startling 84 per cent in the same period. There are now about 25 major antibiotics in regular medical use. Of these all but three were discovered in the laboratories of the U.S. pharmaceutical industry. (Source: U.S. Office of Vital Statistics —estimates for years 1960 and 1961.)
