Children's Pictures Taken | Free and Published in The Carroll Record

It is an undisputed fact that the responsibilities of tomorrow's world, our Nation, and Community will rest upon the shoulders of the children of today. today. Since this is true, the publishers of this newspaper would like to give you a good look at these future "World Builders."

The only way we can do this is by publishing pictures of them in a feature series. To assure the latest and best reproduction pictures they must

all be of uniform size and quality.

An expert children's photographer with all the necessary equipment for this specialized work will be here Wednesday, March 6. Pictures will be taken at the Fire Hall, Taneytown and the Studio will be open from 10 A. M. to 5 P. M.

No Charge to Parents

There is no charge to the parents. There are absolutely no strings to this invitation. It is bonafide in every sense of the word. Parents do not have to be subscribers, nor even readers of this newspaper to take advantage of this feature. Neither are they obligated to purchase pictures after they are taken. Those who want some additional prints may obtain them by arrangement with the Studio repre-sentative when they select the pose they want printed in the paper. It is entirely up to them.

The More Pictures, the Better The Carroll Record simply wants pictures of all the youngsters and the more, the better. Children who have been photographed for this feature in previous years are especially invited to return, so that we may see how they have changed. So the Mothers and Fathers of the community in which this newspaper circulates should remember the date, Wednesday, March 6, at the Fire Hall and not fail to bring their children to the photographer.

You will be mighty glad, afterwards, if you did, and very, very sorry if you do not permit your children to participate in this event. The kiddies will have much fun and both Mother and Dad — and the youngsters, too — will be very proud to see their pictures in print later. No appointment is necessary. LUTHERANS WILL BUILD

St. James Lutheran Church, Union Bridge, announces plans to construct a \$43,000 building on its present lot at Benedum and Thomas Streets. This will be the first stage of a three-part master plan of development. The present Social Hall will be demolished to make room for the new Sunday School facilities.

The first Lutheran Worship Service

was held in Union Bridge on October 23, 1881, in a hall above a store owned by Jesse Anders. The congregation was organized December 30, 1893, and the present church building was dedicated on January 1, 1884.

Taneytown Jaycees Plan Minstrel

The Taneytown Jaycees announce that plans for the Community Minstrel Show to be produced in April are progressing nicely. The show will be presented in the Taneytown H. S. Auditorium on April 18, 19, and 20, for the benefit of their many community projects. Plans are being supervised by a

general committee headed by Larry Little and James Fair, co-chairmen, along with William Abrecht, Harold Corbin, and Melvin Mills. Mr. Neal Powell will direct the

show with Mrs. Anna Motter in charge of music and Mrs. Barbara Baumgardner handling the choreo-graphy. The search for talent is still under way and anyone interested in helping with the show is urged to contact any of these people. The next meeting of the committee and directors is scheduled for Thursday evening at 7:00 P. M. in the High School music room.

SUBSCRIPTION RATES

The Publishers of THE CARROLL RECORD, as a result of circumstances beyond their control, find it necessary to increase

BEING INCREASED

On and after March 1, 1963, the annual subscription price will be \$2.00 per year, in advance. During the past decade or more, although subjected to continued pressure, in the form of wage increases and material costs, the Publishers have sought to absorb these mounting expenses through a previous program of prefit up. these mounting expenses through a narrowing margin of profit; until they have found themselves operating at such an extremely narrow profit figure that any further cost increases would prove disastrous. This increase has now come about in the form of considerably advanced postal rates on mail matter, including newspapers, on and after January 7, 1963.

At that time the privilege enjoyed by newspapers for the past century or more of mailing their publications free of cost to subscribers residing in the county of publication came to an end and a "per pound" rate, or a "per piece" rate depending upon whichever is the greater, has been put into effect. At the same time the "zone rate." for subscribers residing at varying distances from the publication point has also been increased. These postal increases affecting the mailing of The Carroll Record as well as all other mailing which is necessary in the operation of such a business, have made it imperative that we ask our subscribers now to assume a reasonable portion of this additional financial burden.

We are striving to give our readers and subscribers the best weekly paper possible in our area. The few cents more a week they will be required to pay for The Carroll Record is negligible when considered alongside of the satisfaction received in reading a home publication. We want, and we trust you do too, to continue to publish The Carroll Record and to that end we must ask your cooperation in making it possible for us to produce it. When it is recalled that most other things have doubled and tripled in cost over the years, the price of The Carroll Record is still very low in comparison.

Accordingly, effective March 1, 1963 and thereafter, the cost of THE CARROLL RECORD will be \$2.00 per year (West of the Mississippi River \$2.50 per year) in advance. 5¢ per single copy.

What Is Dandruff?

Next time you scratch your head think of this: Nearly 70 million Americans have dandruff. Aside from being an embarrassment on a dark suit, what is

dandruff, anyway? Essentially, it's dead skin cells scaling off the scalp faster than they should. We say faster than they should because there is a normal shedding rate. The body is constantly sloughing dead skin cells and replacing them with new ones. Medical science

recognizes two general types of dandruff—dry and oily.

The dry flakes are white or grayish, and hard. The oily flakes are yellowish and crusty. In the latter form, the skin and hair usually feel greasy too.

feel greasy too.

But why dandruff?

Theories abound, yet three seem to carry more weight than the others. Some authorities think dandruff. druff is caused by malfunctioning oil glands around the hair roots. Others say a sluggish metabolism may cause abnormally rapid scal-ing of scalp cells. A third group believes excessive use of hair dyes, lacquers, sprays and rinses may be a principal cause. Latest medical opinion leans toward the prob-ability that simple dandruff is caused by a combination of a num-ber of factors, including the three

one frequent question asked by those who suddenly discover they are carrying around a private "blizzard" is, does dandruff cause baldness? Hair specialists say generally no. They are quick to add, however, that simple dandruff may result in some temporary hair loss.

When hair specialists talk of dandruff, they are careful to use the word "control"—never "cure."

dandruff, they are careful to use the word "control"—never "cure." To date, there is no cure for dandruff. The best that can be hoped for is continuing control.

Basic to any dandruff-control program is a clean scalp. Regular shampooing is usually enough to keep mild cases in check. More serious problems require medicated preparations. cated preparations.

A big step in medical control of dandruff was taken in a recent test of 700 persons with scalp problems. Abbott Laboratories conducted the test using a new suspension formula, now available through pharmacies as Ioquin. Members of the group washed their hair with good commercial soaps or shampoos. After rinsing, Ioquin was applied and allowed to remain on the scalp for about five minutes before a second rinsing. Test result: Effective dandruff control in 95 per cent of these control in 95 per cent of those treated. Next time you scratch your head think about that.

DETOUR-KEYSVILLE

Greetings to you:
A surprise Wedding Shower was given for Mr. and Mrs. Thomas Wilson the ninth on Wednesday, February 6, at the home of her aunt and uncle, Mr. and Mrs. Richard Adkins on Taneytown Road near Keymar, by Mrs. Adkins and Mrs. LeRoy Coshun. Mrs. Wilson is the former Miss Jan-ice Adkins. This news reached me too late for last week's column but there was a fine write-up about it on the front page of the paper last week, so - I won't go into details again here but just wish belated Congratulations and Best Wishes to the newlyweds.

February is a month of birthdays. Here are some I know about near by: Belated wishes to Myron Wilhide of Detour, whose day was the 11th; and best wishes to Mrs. Charles (Hazel) Stonesifer of Keysville, on the 24th;
Mrs. George (Vernia) DeBenry of
Hampstead, on the 21st; and Mrs.
Charles Cluts on the 25th. Happy
Anniversary also to Mr. and Mrs.
Charles Cluts on the 25th.

Mr. Earl Roop of the Keysville-Taneytown Road suffered a heart attack on Friday the 15th and was taken to the Annie Warner Hospital in Gettysburg, Pa. He is allowed only family visitors and is to have complete rest and quiet. I'm sure cards from his many friends and neighbors would be very much ap-

preciated. Mr. Howard Smith of Detour is still a patient at Annie Warner Hospital. Cards would undoubtedly be

welcomed by him also. Sickness is still very much around here. Mrs. Edgar Phillips of Taneytown is just recovering from a bout with the flu. Mr. Reuban Clabaugh, who makes his home with his brother and family, Mr. and Mrs. Charles Clabaugh of Naylors Mill Road, is having a siege of it. Terry, younger son of Mr. and Mrs. Edward Coshung Determine missing school for illof Detour, is missing school for illmess. I'm sure there are many more as well, of whom I just haven't heard. Good health is wished for all of you.

Detour had some "moving" recently. Mrs. Anna Turvin and children have moved from the Miller property, next to the home of Mr. and Mrs. James Coshun, to the little white house next to the home of Mr. and Mrs. Howard Franklin. Mr. and Mrs. LeRoy Few have moved into the house vacated by the Turvins. It is my understanding this is a newly married couple and so I say, "Con-gratulations and Best Wishes," to

CUB PACK #459

Cub Scout Pack #459 held their Blue and Gold Banquet on Friday evening, February 15, at 6:30 P. M., in the basement of the Union Bridge Church of the Brethren, for all the Cubs and their families.

Grace was asked by the Pastor of the church, Rev. Glen Baird.

Special Guests present were: Pastor and Mrs. Glen Baird, Pastor and Mrs. Donald Brake, Sharon and Brake ald, Mrs. Mary Testerman, and May-or and Mrs. Williar.

The Banquet was a covered dish affair with the Pack furnishing the meat, rolls and dessert. It was served by the Senior and Intermediate Girl Scout Troops and their Leaders. After the meal, Cub Master, Ber-

man Weeks extended a Welcome to All, and a round of applause was given in thanks to the Girl Scouts. All joined in singing, "She'll Be Comin' Round The Mountain When She Comes," with appropriate sounds and gestures and "Three Blind Mice" as a "round."

Mr. Weeks then introduced the guests and also the Institutional Representative, Mr. Richard Grossnickle. He also thanked all the Den Mothers for the fine jobs they all do with their Dens, and then gave out the

awards. They were:
Mrs. Ruth Rigler received her Den Mother Award for 4 years service, and attending at least 1 Pow Wow, doing Round Table work and taking the complete training course. She also received her Service Star. Mrs. Mary Testerman, who was a previous Den Mother, was given a Plaque of Recognition as thanks for work well done. Mr. Richard Grossnickle received the Pack Charter and, in turn, presented it to Rev. Baird who received it in the name of the Church where it is to be kept at all times. The Pack also received a red ribbon for On Time Registration and a Merit Award for 1962 for work done, as well as a Banner for 100% for Boys Life Magazine. Tommy Scheu -received his Bear Badge; Dennis Rig-ler, his Wolf Badge; Jerry Forney, Bobcat Pin; Wayne Fleharty, Wolf Badge and Gold and Silver Arrows. Those receiving one year Service Stars were Ricky Saylor, Steve Bow-man, Mike Harris, and Donald Stite-ly, as well as Mr. Earl Myers, who has served as Committeeman for a year, and Pastor Brake who acts as Treasurer of the Pack.

Membership cards were passed out and all joined in singing the first verse of "God Bless America," to adjourn the meeting.

There has been an added sorrow this winter to the travelers of the Uniontown - Westminster Road. Besides the regular hazards of ice and snow, narrow road-bed and blind hills there is the stretch which was torn up in October and has now turned into a booby trap for the unwary motorist. Fate, weather and politicians have all combined to give the road a name it doesn't deserve. For many years some of us have urged improvement of this road. "A government that's big enough to give you everything you want is a government big enough to take everything you've got." — Lynn H.

Carpenter, Dundee (N.Y.) Observer.

CHAMBER OF COMMERCE MEETS

(Continued from first page) of employer is in town and the economy of the community is geared to his presence, wages are pushed down and more concessions from the com-munity are requested. When the com-

munity is finally fed up and gives no

more concessions—he packs his bags and looks for another town to charm. "2. 'The up and down plant'-This is an industry which moves into a community with the promise of year round employment. A laboring force moves into the community, sewer and water lines are laid, water and sewer plants are expanded, additions to schools are made. Houses go up. Businesses expand. But lo and behold management made a mistake, the plant operates a week and shuts down for two weeks—up and down. The community was prosperous before the industry moved in—now it is a depressed area.

"3. 'The cheap labor plant'—An industry locates in order to get cheap labor. In fact it recruits its labor in urban cities where unemployment may be high and ships them into a community. Not only in the programment. community. Not only is the wage rate in the new plant low, but it forces down wages in other community industries. Houses are soon cut up into little boxes to provide cheap living quarters. Some of the labor force gets tired of working—up go welfare costs-up go police costs.

"These are but three examples of the darker side of new industry. There are other dark sides which are less tangible, for example: 1. Air pollution—what is the cost of living in a community with polluted air?

2. Over-crowded schools—what is the cost of an over-crowded school system? 3. Stream and river pollution—what is the cost in wildlife, recreational activities and water supplies caused by industrial wastes being dumped—remember many industrial wastes cannot be proposely treated. wastes cannot be properly treated in a conventional sewer treatment plant. 4. In 1960 the census reports that there were only three dilapidated living units out of 561 in Taneytown. What is the cost of having houses cut into tiny apartments and you have 300 dilapidated living units in town? What is the cost?—I think you will find it high!

"What I have been saying may sound bleak—bleak because I think the road to paradise MAY NOT be paved with new industry. The road to the other place may well be paved with industry. Remember that this community, founded in 1754, has grown slowly and surely. Adding a catalyst to the top may make the town perk up without a solid foundation which in turn can make the town go bust.

"To me, Taneytown has many, many assets for industrial development. I really think you have much to sell. This is a delightful place to live and work, you are near two large metropolitan areas, near excellent colleges, you have water, sewer, and a railroad available, you have industrial sites and a community receptive to industrial development. I would not sell your assets too cheap. I think if you plan for your future and stick your plan you can decide a bright future for the community. I would not try to attract industry per se to Taneytown. I would say an excellent next step for the Jaycee's would be to identify what kinds and types of industry you want for the community. You may find that a furniture manufacturing plant is ideal and a steel fabricating plant is bad. That an electronic firm is good but a shirt factory is bad. This list may contain 30 or 40 types of industries which would fit into Taneytown and 100 or 200 industries that you don't want. The study project may identify what it has to offer the types of industries it wants, and have ready answers for

the industries it doesn't want.
"A question which always comes up "A question which always comes up when one speaks of attracting industry is tax concessions. When an industry approaches you and one of the first questions it asks is one concerning tax concessions . . . Watch out! Reliable firms which intend to sink roots into a community does not object to paying its way in a town; it is not looking for something for nothing if it is not willing to pay its own way, maybe you don't want it. Remember county and municipal taxes are a very minor part of any corporation's overhead.

"Growth for a community is not always synonymous with progress.
The demands for growth should be met with very careful judgments that make for unstrained dependable expansion.

"Too often our towns and counties measure their progress in terms of new houses built, growth in popula-tion, new industries attracted, and new commercial enterprises. Is it progress when one ends up with overcrowded schools, a lack of parking spaces, polluted air and streams, police problems, urban slums and welfare problems?

"To conclude I would say that Taneytown must take the initiative and find out what it wants the future of Taneytown to be, and then to carefully select those industries which would fit into this future plan." End of text.

Your correspondent firmly believes that the foregoing remarks could and should well serve as the basis for the development of a sound plan which will enable Taneytown to grow and will enable Taneytown to grow and prosper without losing its present and wholly desirable identity. May Mr. Millon's message serve as a challenge not only to the Chamber of Commerce and the Junior Chamber of Commerce but to the entire community as a whole.

It's true love when he can't help saying silly things that don't sound silly to her.—The Republican, Langdon, North Dakota.

New Freezer Tops Old Pantry For Holding Party Fare

With a freezer full of all sorts of homemade dishes and embelor nomemade disnes and embellishments, there's no reason to make a guest feel drab and dreary by inviting him to take "potluck." When guests drop in, put the everyday food in the freezer and take something special out.

Throw Away the Scraper

Weekly defrosting is no longer Number One on the "Home-maker's Hate Parade." The reason is that many new electric refrigerator-freezers never need manual defrosting, since frost never forms in some models and others are self-defrosting.

They do need cleaning from time to time, however, to remove spilled food and odors. Here are a few tips on how to keep a refrigerator-freezer fresh and clean:

1. Remove food and shelves

1. Remove food and shelves from refrigerator section. Wash container tops and shelves in warm, sudsy water, then rinse

2. Cleanse entire interior of refrigerator section with a soft cloth or sponge wrung out in a quart of warm sudsy (soap or detergent) water to which three

Christian Credo Lesson for February 24, 1963

Bible Material: Mark 8:27 through Devotional Reading: Philippians 1:12-21.

THE word "Credo" comes from the Latin and it means "I believe." Most Christian churches repeat the "Creed" during the Sunday worship. But a person might know the Creed by heart and still not really believe it. Some

Christians fly on the wings of others, so to speak. They expect to "go to heaven on their grandmother's ticket." They expect to get credit for what Grandmother believed. It can't be done.

Dr. Foreman Some churches have no creed but the Bible. They feel that nobody understands a creed anyhow, and that creeds are the language of men not of God. As a matter of fact, all Christian creeds are based on the Bible, and it is a striking fact that they are all much alike, and often in the exact words of the Bible. If a man believes just one single thing, he has that much of a

Believing what we cannot see

Let us look at another word: Science. That comes from another Latin word, meaning "I know." What is the difference between a Credo and science? What is the difference between a Creed and knowledge? One difference is this: If I say "I know" something, and I do know it, then I can prove it to anybody who is not blind or crazy. But if I say "I believe" something, I can be just as sure about it as if I "knew" it, and it can be just as true. Only, what I believe is not public knowledge, shared by everybody. It is private and personal. It goes beyond what any fool can plainly see.

The most important truths in life are precisely those that can-not be proved, but must be believed. When a girl promises to love and to cherish a young man, how does he, how does any one know she is telling the truth? It

is the most important thing in his life; but he must live by it, not prove it. We believe that God is love; hut not every one knows that, though everybody knows the sky is blue. You can know that God is love not by having some one prove it to you; you have to live by faith that it is true.

The first Christian creed

The first Christian creed was probably the shortest. Jesus asked His closest friends: Who do men say that I am? Peter's answer is reported by Mark as a very short one: You are the Christ! With that single sentence Peter registered his belief about Jesus and his belief in Jesus. From that day to this, Christ has held the central place. There may be all kinds of churches, but one kind you will never see is one where the people won't say whether they believe in Christ or not. Any "Christian". who hasn't made up his mind about Jesus is hardly ready to be called a Christian.

Mind you, Peter did not say all the things, he did not use all the words, about Jesus that the church would one day use. But in that simple declaration, You are the Christ, was packed something vitally important. For one thing, Peter places Jesus in a class by Himself. No Jew in those days thought there could be more than one Christ (or Messiah-the two titles mean the same). Further, Peter meant to say that Jesus was the Number One Authority over men. To be Christ means to share the sovereignty of God Himself. How could Peter know this was true? he never tried to prove it, but he dared to live by it.

Call to all, call for all -There is a very important feature of Christian faith, at its center and heart. That is, genuine Christian faith is much more than reciting a list of what you believe. More important than belief-about is belief-in. There is a poem called 'Not What but Whom I do Believe"; it speaks for Christians everywhere, it declares faith in

a Person not in a Proposition. There are millions of things one can know or believe, without being changed at all. A man who believes oatmeal is good for him is just about the same man if he changes his mind and concludes that oatmeal is bad for him. But if a man pelieves that God is good, if he goes on and is not changed by that belief, he doesn't really believe it. Christian belief challenges all men, calls to all; and true Christian belief calls on a man for all that is within him.

Balance Your Budget

The house is small, but the vegetable garden is large in this picture. However, even a small home garden will give your family many delectable, full-flavored meals of vegetables.

The recent freeze in the southern states has upped vegetable prices as well as those of citrus fruits. You can, however, recoup the extra dollars spent for the all-important, vitamin-laden greenstuffs you feed your family this winter. Simply and easily the money can not only be regained but supplemented by planting a home vegetable garden as soon as the weather permits.

Even a tiny space will yield nany meals of vegetables. Consider that area behind the garage. If it's in sun almost all day, it can be converted to a vegetable garden this year. Or a long strip on one side of the back yard or a border surrounding the patio will serve as well.

A simple plant for the strip of the back of the patio will serve as well.

A simple plan for an area only 4 feet wide and 10 feet long would provide for 4 rows, each the length of the area.

One of these might be planted half to carrots and half to beets, with radish seeds sown between beet and carrot seeds; radishes to be pulled and eaten before the other crops grow large,

to be pulled and eaten before
the other crops grow large.

A second row might be devoted to broccoli or cabbage
if your family likes these vegetables. Otherwise, how about
bush type squash?

A third row could be used
for half a dozen tomato plants

staked and trained to a single stem each. Between the tomatoes lettuce might be grown, planting only 3 feet of row at a time so as to have fresh, young lettuce for a long period. Swiss chard, the green that yields most over a long harvest period, would be a good choice for that fourth row. But, if your family prefers spinach, then plant spinach very early and, when it has been eaten, plant turnips for a later crop. Plant early so as to get the most yield from the area used. Don't grow any vegetables that your family doesn't like.

Cover over the ground between rows with layers of newspaper or something equally inexpensive just as soon as the vegetable seedlings are well above ground. This makes weeding a minor chore. Above all, pick the vegetables when they're young and tender — don't let them get old and tough. And have fun!

Help Stop Illness!

Long-range forecasts predict a hard winter and possible out-breaks of Asian flu. Add to this the fact that winter illnesses reach their peak between January and March and it becomes apparent that the smart homemaker must

be prepared for all contingencies.

Medicine chest items and sickroom supplies should be checked frequently to see that ample and fresh stocks are on hand. Remember that preventive measures, such as strict disinfection of the home, are still the best means of safeguarding the family. The 25th annual Sickroom Needs Drive, with its "Help Stop Illness" slogan, emphasizes the importance of keeping the home

BEAN BAGS

Bean bags are easy to make and fun to play with. Don't put too many beans in one because then it isn't as easy to throw.

Elizabeth and Tommy are tossing a bean bag to one another but neither of them is very good at catching it. Sometimes the bean bag goes right into their hands, but if it doesn't, they just laugh and pick it up from the floor.

Bean bags are fun to play with because they can't hurt anybody. They're not hard like a ball, but they can be thrown and caught just as easily.

Here's a true story about a bean bag. One springtime a Mother made her little girl a

They're also easy to make. If you can thread a needle and sew even a little, you can make one for yourself. Just double any fairly big piece of cloth over on itself, sew up two of the open edges, put dried beans in the little bag you have made, and then sew the last open side closed.

side closed. The bean bag in the picture is a fancier shape. It looks like a little clown as you can see (his face is turned towards the wall) and the clown's bag-gy pants hold the beans.

Any shape you want is fine for a bean bag. Maybe Mother will help you if you want a special shape. Tell her that dried beans may be saved from those you grow in the garden or bought at any grocery store Here's a true story about a bean bag. One springtime a Mother made her little girl a new dress and used a leftover piece of the same cloth to make her a bean bag. The little girl loved that bean bag and played with it all the time. But in a few days it had disappeared. She couldn't find it anywhere though she looked high and low. Then, in the late autumn, she was walking under the grapearbor after the leaves had fallen from the vines. She happened to look up and there was a bird's nest and showing through the bottom of it was her bean

the bottom of it was her bean

She ran to get her Mother to show her what had happened to the bean bag, but even Mother could not imagine how the birds had been able to carry the bean bag up to the top of the grape arbor and manage to get it into the nest.

Coming In For A Landing!

Whether the pilot steers his sled for a perfect landing, or swerves and winds up sprawling in the snow with his intent pet pup, both passengers are adequately dressed for the cold, cold ground. When it snows in St. Louis, Purina Pet Care Center authorities find their 600 dogs require no special insulation against the weather. They know the healthy pet, with rare exception, needs no more than his own furry coat, no matter what the weather. Only for sick or feeble dogs and sometimes puppies, need the owner take special precaution against the cold.
