Cooperative Planning Study

Mayor Raymond G. Perry this week announced a cooperative planning study between Taneytown and the Community Planning Class of Western Maryland College. Work is scheduled to start immediately and will involve five students whose activities will be coordinated with the Mayor and Council.

Basic work will involve many initial planning studies which will be of tremendous value should the town eventually develop a master plan for its future growth. It is expected that initially a survey of existing land uses will be made by the students and platted on maps. Following this, will be studies of population and housing, traffic surveys, and economic development.

Mayor Perry indicated that the Western Maryland students have been assigned the work as part of their Community Planning class work and do not involve any expense to the town. "It is gratifying," he said, "to know that we can have the opportunity of obtaining these surveys and we wish to thank the College and the County Planning Commission for the effort which is about to get underway and extend for the next three months."

The students involved in the study are headed by Earl Armiger and include Marty Matthews, Jeanette O'Leary, Neal Hoffman and James Shaw.

Senator Weant Presents New Legislative Proposals

This is the first of a series of articles to be carried by this paper prepared by our State Senator, Edward O. Weant, Jr., covering the activities of the Maryland General Assembly during the current 30-day session. Since this is a so-called "Short" Session, there will be no local legislation introduced. Any proposed law shall not deal with bills other than those having to do with budgetary, revenue and financial matters of the State Government, legislation dealing with an acute emergency and legislation in the general public welfare. It is hoped that this column will help to keep our readers better informed concerning the new legislative proposals.

The first bills introduced in the current Session which opened at 12 noon on February 5th were recommended by the Legislative Council, there being some 33 Senate Bills and approximately 46 House Bills. They deal with an assortment of subjects running alphabetically from Administrative Regulations to the Unsatisfied Claim and Judgment Fund. We will attempt to bring to your attention some of what we consider to be the more important of these as space does not permit the consideration of all of these matters.

ADMINISTRATIVE REGULATIONS. Provides for printing and publishing of rules and regulations adopted by certain state agencies such as Board of Public Works, State Scholarship Board, State Roads Commission, State Board of Health and Mental Hygiene and State Department of Public Welfare. Provisions of the Administrative Procedure Act of 1957 require the Secretary of State to print these rules and regulations. However, no funds were made available and the Secretary of State was unable to comply. Since 94 agencies of the State Government are empowered to make and adopt rules and regulations. It was thought that the funds should be provided for the cost of preparing and publishing the rules of 38 of these agencies with the remaining to be listed by number.

CORRECTIONS. There are 7 bills relating to correctional institutions. These will cover inter-state agreement on detainer as well as a clarification of the description of correctional institutions as opposed to penal.

DEBT MANAGEMENT. There is now no regulation of the debt management business in Maryland as it does not constitute a loan business. This bill would limit fees to 12% of the total indebtedness of the debtor, which is collected and paid to creditors by the debt management agency.

ELECTIONS. Several bills will be submitted affecting elections in the State of Maryland. One would prohibit the placing of the name of a defeated primary candidate on the General Election Ballot for the same office, unless he is a Judge or unless he is properly named by the party with which he is registered. Another bill would shorten the time prior to the Primary and General Elections when election records are closed to registration of voters.

GENERAL ASSEMBLY. This bill is a proposed constitutional amendment to change the policy of having alternate 90 and 30 day sessions of the General Assembly. It would provide for 77 days each year and would change the compensation for the members of the legislature from \$1800 to \$2400.

INSTALLMENT SALES ACT. The present installment sales are limited to cover "goods" defined to have a monetary value of \$2,000. This amount has not been changed since 1941. This bill would raise the limit to \$5,000.

NOTARIES PUBLIC. This bill would change the term of office of Notaries Public from May 1st to July 1st and the term of office would be extended from two years to four years.

PUBLIC WELFARE. At the present time an applicant for public welfare is not required to sign an application nor is he required to have his statement notarized. Under these circumstances he cannot be prosecuted for making a fraudulent application. The bill would propose the device which is in the State Income Tax Law to declare that a false or fraudulent statement is perjury and making this type of perjury subject to the regular penalties for that offense.

ROADS. A bill will be introduced to provide necessary funds to keep the State Roads program moving ahead. It would increase the State gasoline tax from 6 to 7¢ and increase the motor vehicles tax from 2 to 3¢. It would also authorize each county and Baltimore City to impose a supplementary motor vehicles registration fee to be used locally for road purposes.

SCHOOLS. This bill would set up a new formula for State aid to education based upon a minimum required salary scale for teachers from \$4800 to \$7000, a staffing ratio of 45 professionals to each 1,000 pupils and a fixed amount per pupil for operating expenses. The required local effort is calculated upon the assessed value of real property combined with the ordinary taxable income in the respective political subdivisions. The cost for the first year is estimated to be \$16,200,000 in State General Funds.

UNSATISFIED CLAIM AND JUDGMENT FUND. The Unsatisfied Claim and Judgment Fund has been having a great deal of difficulty in collecting the \$70 fee charged to uninsured motorists. Many motorists have resorted to the purchase of insurance on a monthly installment basis. They pay the first month's installment and receive their automobile tags. No further payment is made.

'SPICE 'N' EVERYTHING NICE' (Your Chatty Column)

With all my heart, I wish you every morning
A smile that shall last until the next day's
I wish you health—life's greatest wealth;
I wish you always near so that I may help
Each future day and in some way—help to
bring you happiness!

Seated alone in the theatre of "Ford's" brought back many happy memories viewing the grand plays with all the big Stars of the Drama! If that theatre could only have been done over now and then to save it from going to ruin which could have been accomplished! I could imagine the Stars and one of my favorites was Ethel Barrymore and the last show in which she starred right there was, "For The Kingdom of God!" I walked out slowly gazing upon the long line of ticket buyers and mine was secure in my hand bag for the matinee on Wednesday. I had purchased the very first center seat with the grand orchestra right in front of me whose leader was a Mr. Lewis and he was one of the finest I have ever seen leading. The orchestra. I enjoyed thoroughly. During the time of much talking in the show with that show called, "A Funny Thing Happened On The Way To The Forum," after one of the musical numbers, Mr. Lewis went to sit down on his little chair which is on a tin raised platform, the chair fell from under him and down he went amongst the musicians! He was quickly picked up and continued on throughout the balance of the show. As to the show it was truly a bawdy affair and I could not laugh at one thing in that awful show. Why-oh-why did they not have for the last show something really worth while to remember?

The last program printed before me as I type or the final one in other words surely is filled with so many advertisements more so than any program I have ever seen. The play was in two acts with the same scenery of three entrances to three houses. The time was of two hundred years before the Christian era and day in Spring. So it was "Farwell" to Ford's theatre — a theatre which always sparkled in the eyes of this Columnist!

As for the Annual Boat Show at the Army — sail boats seemed to be leading. And as to the gentlemen viewing it all, it only goes to show as I have stated before that a man's fancy in the Spring turns to b o a t s and more b o a t s! The expressions on the faces were thrills! Mr. Nat Gates, Jr. and Son seemed to be in the lead all around and that in price, too! Each year, I think, "There surely could not be any more improvements on any type of boat to examine them right there!" Most all now are made of Aluminum and Fiberglass and the colors are simply magnificent! Frankly and candidly, I feel the reasons so many are going into apartments instead of homes that they prefer a handsome car plus the luxury of a boat and their best halves are going along with the trend. Years ago it was the males who were boat-minded but that truly is not it any more. Just send for a booklet — Nat Gates, Jr. and Son, Rt. 214 Central Avenue, Edgewater, Md., phone COL 3-2492. You will have a real vacation and there is so much relaxation and enjoyment. A big feature which was really making a hit at the show, too, was the boat that is an automobile, too. The "Aristocrat" Inboard Motor is a special and a grand boat which means more for less money. It is \$1048 FOB. Do try to "live a little," as I heard one party state!

It must be Spring for there were VIOLETS being sold down town by that nice flower man. The aroma was delightful! Went in to see, "Soldier In The Rain," played by Jackie Gleason and the almost newcomer who is going over in a big way and so fast — Steve McQueen. The picture is not a War picture which I thought it would be but it takes place in a Southern Camp during days of Peace. Jackie and his pal, Joey are tops in the picture. It lacks depth or a better story in other words. Joey does not like the service and is supposed to be a Hill-billy in this picture. The theatre was crowded due to the special Monday price of fifty cents. That Joey is a smooth guy and quite lovable, in other words McQueen, I predict will be the best actor of any year!

And if you and you have a little Cherub born in the month of February, he or she will be a grand friend, most courageous and diplomatic. Many inventors come from the Acquirus Sign. They are always blessed with many friends which you will notice as soon as he or she have playmates. They are fearless which all their friends admire.

Have a grand week-end. Will be seeing you next week D. V. And if you love the guy, due to this being Leap Year just go ahead and ask him!

I am,
Faithfully,
YOUR OBSERVER.

BOY SCOUT WEEK

The tragic increase in juvenile delinquency has become a national problem of the utmost importance—and a solution is beset on every hand with complexities and difficulties.

This fact alone gives high significance to Boy Scout Week, which is to be observed during the February 7-13 period. The theme of that week—and it is an apt one—is: "Strengthen America — Scouting Can Make The Difference."

A head of the national scout organization says: "The Boy Scouts of America for 54 years has enjoyed success and public acclaim for its part in the training of American youth in character values, citizenship skills and attitudes, and physical fitness. Over these years we have grown and flourished because each of us involved has had a deep conviction of the worth of Scouting to boys and to America and because we resolved to act upon our convictions."

A wide variety of events and programs will take place during the Week. Beyond these, the hope is that the publicity and notice they create will encourage more and more boys to join their local Boy Scout organization—and, additionally, will lead their elders to do whatever they can to advance the work and the ideals that Scouting stands for. Rarely does a Boy Scout become a delinquent.

HARDLY THE SOLUTION

In discussing President Johnson's Federal drive on poverty, the NAM News reminds us that Federal, state and local welfare now costs us \$40 billion a year — which is \$4,700 for each of the 9.3 million families the President estimates are in need.

Mr. Johnson would add \$300 million to welfare programs — or a little over \$30 per family. As the News points out, if we still have poverty in this country, it is not because we have been niggardly.

If \$4,700 per family won't solve the problem, \$30 more is not likely to. Perhaps this poverty issue will stand a little more looking into.

One day all on his own Billy started learning how to ride a bike (his older brother's). The straightaway was a breeze, but the first corner cost Billy a badly skinned knee.

His mother felt the doctor ought to take a look at it. She picked up her phone. "Bring him right over," said Doctor Williams.

Problems have a way of disappearing when you lift your phone.

After the doctor treated the battle-scarred knee, Billy's mother relaxed. She really was proud of Billy's feat.

Maybe a bike for his birthday?

The phone call? Certainly not the major event of the day, but still an important one. It brought peace of mind to a conscientious mother.

For emergencies of any size—for pleasure any day—phones are friends.

D. B. Shaum's two-horse butcher wagon team, while standing by the track, scared at the mail train on Wednesday morning and started off on a run up the track in front of the train. They ran about a half mile and turned off down an embankment into J. D. Null's field where they became tangled up in a fence and stopped. Little or no damage resulted to horses or wagon.

He leaves five small children, also his mother, four brothers and one sister, the most of whom live in the Taneytown district.

Hill. — Henry Hill, a respected colored man of Taneytown district, died at his home on the Emmitsburg Road, last Saturday night, in his 70th year. Happy Valentine's Day to all you readers on the 14th! Hope your very own special valentine remembers the day for you in some small way.

Thank you to Mrs. Love for the nice words in her column last week in "The Carroll Record." Goes to show that we read each others columns; that she mentioned my name and I read about it. One correction though: my mother-in-law claims Fleharty (pronounced with a long e) is actually Scotch-English and the Irish comes from her side of the family.

Congratulations to Mrs. Terry Poist near Keysville upon the birth of a daughter on Sunday the 9th at the Carroll County General Hospital. This young lady, who weighed in at 8 lb. and 4 oz., has a brother, David, waiting for her at home. I understand the name will probably be Dana Lee. Now Terry will be able to make good use of all the lovely pink things she received at her shower. She was really hoping for a little girl and I know all her many friends are real pleased for her also.

Mr. and Mrs. Carl Eicker of Baltimore were week-end visitors with her parents, Mr. and Mrs. Hans Steffen of Sixes Bridge Road.

What a fine turnout by Cub Pack #459 for the service on Sunday at Keysville Lutheran Church. There were 18 Cub Scouts there besides Cubmaster Berman Weeks and two Den Mothers, Mrs. Ruth Rigler and Mrs. Yvonne Stultz.

Harold Thomas of Hollow Rock Farm returned to his home on Monday. He has been recuperating at Annie Warner Hospital after a recent appendectomy. We wish him a speedy recovery back to normal.

In a recent letter to the Carroll Willhide family, Clay Hahn told of being ill but he is now feeling better again. Clay has a birthday on March 1. Perhaps a number of cards could be sent to him for I'm sure he appreciates them. The address again is Montevue Nursing Home, Route 7, Frederick.

Dr. William G. Miller, who teaches Psychology at Western Maryland College, was the featured speaker at the Elmer A. Wolfe P-T-A meeting on Monday evening. Due to illness, I was unable to attend this meeting.

There has been a breaking of ground near Terra Rubra. I understand Mr. and Mrs. Roy Baumgardner are going ahead with plans for a ranch-style home there for a possible retirement residence.

The Elmer A. Wolfe School Mother's Club met on Wednesday the 5th with two dentists, Dr. Philip Benzil and Dr. M. J. Glick of Westminster, presenting the program. Due to the small attendance, it was decided to hold the program in the 6th grade room of Mrs. West. Dr. Benzil gave a fine talk on teeth and their growth and care. He also spoke of a number of beliefs held by many people that have been proven false. Some of these are: soft teeth and hard teeth (decay prone or not decay prone, but not hard or soft); baby teeth do not need care (most important that they do have care because of the permanent teeth to follow); only necessary to visit the doctor when one "hurts" (no, there should be regular check-ups to prevent "hurts" happening and to keep the mouth healthy). A question-and-answer session was held by both dentists and then the mothers, Drs. Benzil and Glick, Mrs. Rickell and Mr. Perron returned to the all-purpose room for refreshments. At that time Dr. Glick presented his topic (about gums, their care and possible trouble if not cared for). A fine discussion with questions and answers was most enjoyed at this time and much was learned by the mothers during this informal period. Our thanks to both Dr. Benzil and Dr. Glick for their time and information.

Mr. and Mrs. William Fleharty and family near Detour visited in Kensington on Sunday at the apartment of her sister, Fay Wolfgang, for a birthday celebration in honor of Fay's 25th. Also present for the occasion were: Shawn, sister Carol, dad, step-mother and stepbrother, Mr. and Mrs. Elmer Wolfgang and Steve Henshaw of Ginter, Pa.; and friends Charles Lanham and William Burr both of Washington. Having Dad and family was really a special "treat" for they are usually "well-snowed-in-for-the-winter" up in the mountains of Pennsylvania during January, February and March.

Keysville-Detour Homemakers Club will meet on Thursday the 20th at the home of Mrs. Edward Coshun with Mrs. William Weishaar as co-hostess. Notice the change in date from Wed-

nesday to Thursday because of Church Lenten Services. There will be two demonstrations: by the Food Leaders, the topic "Weight Control," and by the Clothing Leaders, the topic "Selecting Stylish and Becoming Clothes."

Friday visitors at the home of Mr. and Mrs. Carroll Willhide and family near Detour were Mrs. Melvin Schnappinger and son, Melvin, of Halethorpe and Mr. and Mrs. Daniel Seibert with Mariann and Johnny of Clear Spring.

Cassie (Mrs. Richard) Willhide and daughter, Susan, accompanied her parents (the Seiberts) back to Clear Spring and spent the week-end visiting with them. On Monday, Mr. and Mrs. Seibert returned Cassie and Susan to Forest and Stream Club Road and helped with some cleaning-up. New floors have been laid in the first floor of the farmhouse and while they look just lovely now, they also caused a good bit of dirt to be moved around in the process of laying them.

Something to think about: In May, the Ladies Auxiliary of the Carroll County General Hospital is planning an auction for the benefit of the hospital. If you have any old furniture, dishes or similar items (not used clothing), the ladies would be glad to have them for the sale. Cash donations will also be gratefully received. In this area, contact Mrs. Roy (Vallie) Baumgardner.

Cub Pack #459 will hold their Blue and Gold Banquet in the basement of the Union Bridge Church of the Brethren on Friday the 21st at 6:30 P. M. Don't forget to bring your covered dish.

Belated Happy Birthday wishes to Mrs. Ralph (Anna) Haifley of Keymar, on Sunday, February 9th.

More snow today (Tuesday) and how the children do like to be surprised with an unexpected holiday. I'll bet the teachers enjoy it, too! —Dharyls Fleharty.

A VOICE FROM CARROLL

The public seems to be dividing itself into two segments since the report on smoking has been released by the President's Committee. One segment accepts the reports as true; the other segment is convinced that the facts are distorted and the conclusion is inaccurate. We suspect that it depends whether one is a smoker or non-smoker which segment one aligns himself with.

Common sense will tell anyone that the lungs in a human body are not equipped to handle a twenty-four hour intake of polluted air of tobacco smoke, gas fumes and chemical factors which has polluted the air but it is not often mentioned and it is fallout from testing the hydrogen bombs. Even though most of the testing has stopped, the air is still filled with the fallout and will be for a long time to come.

We are a non-smoker. Three or four times in our life we have tried to acquire a taste for cigarettes, without success. We have a deep sympathy for those who do enjoy cigarettes and are trying to break the habit for the good of their health. There is no simple way to do this. Many women smoke to keep their weight down or from sheer boredom. Since overweight is a problem with most people and can be just as injurious to one's health as smoking, it's difficult to decide whether to shorten ones life with lung cancer or to shorten it with heart disease.

One thing we are firmly against and that is a law against smoking as some responsible people have suggested. Educate the public to their judgment how to handle it. Many of us can remember prohibition and the dismal failure that was, so let us not repeat the same error with tobacco. A person has the right to decide certain things for himself and smoking is one of them. As one person said: "Smoking is the only vice I have and I am going to keep it."

Every woman knows that the handle from her handbag wears out long before the rest of the bag does. A friend of mine found a very clever solution, one so perfect that we wished the idea was our own discovery. Use chain dog collars for new handles. These come in gold or silver and in different lengths. They are also easy to attach.

From now on the exact time won't appear on the letter postmarks. This is going to be hard for me to get used to, for it is one of my habits to look at the postmark even before we open the letter. This habit really puzzles me for there is no reason for doing it. At least none that we can remember. We wonder how many other persons have the same habit.

Something has been on our mind for a long time. One television commercial shows cars perched on a mountain top so high and forbidding that only an experienced mountain climber or goat could reach it. How do those cars get up there?

Western Maryland College sits sedately on top of Carroll's rolling hills. Our County is proud of the College but we often think a wide-awake public relation officer could make its achievements better known outside the County. How many people know that Western Maryland College has supplied many of its graduates to the Peace Corp who have served in most of the trouble spots around the world? In our estimation the Peace Corp is one of the finest things that the United States has contributed to the world for a decade. This pioneer effort is important to all of us and we would like to hear more about the work that is being done, by the graduates of our local college.

Ever so often out-of-county visitors discover Uniontown. They refer to it as a "hamlet" and so very "quaint" because it has trees, cats and dogs. It has other things too, but visitors don't bother to look beyond the maple trees or bother to ask what makes the town tick. Once it was a place for retired farmers and bankers to settle down in and enjoy the gossip and the weather. But no longer is this true. The young married set is taking over. They find it a nice place to raise a family and a nice place to come home to after work-day in the city. If one doesn't expect too much excitement, life can be casual and self sufficient in Uniontown. There is a grocery store, two barber shops, an antique shop and a bank. Also three churches, five cemeteries and an elementary school. It is unique because there isn't one gas station in the town which just proves one thing . . . people can survive and even drive cars without a gas tank around every corner. An outsider might consider the citizens of Uniontown smug and complacent about their small town. It is true they do not seem anxious for it to expand or to change for they are wise enough to understand this would change the charm of their village. But one can never accuse the citizens of being complacent. They understand very well what is going on in politics, economics and in cultural activity. They take part in all these things in other parts of the county. But in their own small community their main concern is being a good and kind neighbor, loyal to their town and each other. What more could one ask of anyone?

Laughter is the cheapest of all medicine for it cost only a little human effort.

Margaret Chase Smith has given all women something to think about. Do women really want one of their own sex in the White House? Instinctively women distrust each other. Why? It began over the competitor for man's attention. Then it drifted into all directions. It's neither fact-

ual or realistic and has nothing to do with logic. But women are neither concerned with facts nor logic. Remember, they have intuition and that is the last word in their way arriving at a conclusion. Therefore, Margaret Chase Smith will not get the woman's vote. Their intuition will tell them that this is still a man's world and men should run it. That is, they should be the boss in public. In the home . . . well, that is different.

Suburbia is where the contractor bulldozes into the trees to make room for the houses, then names the streets after the trees.

Dinner is defrosting but Mother is not. For today was her birthday and Dad forgot.

THE WAY I SEE IT . . .

Observations on the World of Sports

What ever happened to the guy who said a football coach has to win to keep his job. Paul Brown was a perennial winner and lost his. Tom Landry has done little besides lose with the Dallas Cowboys and it has earned him an eleven-year contract. Of course, personalities get into these things. Brown went from seeing eye-to-eye to standing jaw-to-jaw with Cleveland owner, Art Modell. Landry obviously is on excellent terms with Dallas Cowboy owner, Clint Murchison. Clint apparently wanted to make Tom feel secure. So he tackled a new ten-year contract on Landry's old one which still had one year to go.

In four years as Dallas coach, Landry has won 13 games, lost 38 and tied three. He had to swim upstream, of course. The Dallas team was created from whole cloth and old rags before the 1960 season. Tom has been laboring mightily trying to stamp the team with his personality. Funny thing about that, Landry was rated a defensive genius with the New York Giants. His Dallas Clubs have done their best work on offense. But Landry has high hopes for the Cowboy defense. He points out that most of his defenders have been on the Club for two years or less and are still learning things about how not to give up touchdowns. They haven't had any trouble giving up touchdowns and Landry hopes it's not chronic.

Tom puts it this way: "Our defensive players still don't feel at home in their positions. When I was with the Giants we could make changes and the defense would react immediately. But our men, instead of thinking about beating the other team as the Giants do, have been concentrating on not making errors." Landry is not ready to claim an Eastern divisional title for the Cowboys but he thinks they will be a factor in the 1964 National Football league race and will be what Tom calls competitive with the top clubs in their division.

ON BASEBALL - There's an "x" in hex and the other nine National league clubs are hoping the second will work on the Los Angeles Dodgers this year. There is a hex of sorts that has been dogging the National league pennant winners in the years since World War II. Only three clubs have repeated as flag winners in that time. The Dodgers did it twice, in 1952 and '53 and in 1955 and '56. The Milwaukee Braves also turned the trick in 1957 and 1958. No team has repeated since then. That won't stop the Dodgers from going to the post as favorites this year and that's where the other "x" comes in Koufax. So long as Sandy remains in good health the Dodgers will be the team to beat. A recurrence of the finger ailment which forced him out in mid-summer of 1962 would leave the national league race with as many contenders as the Republican presidential nomination. General manager Buzzie Bavasi thinks the world series sweep over the Yankees will make the Dodger task more difficult in the pennant race this year. Says Buzzie darkly, "Trying to knock off the team which knocked off the Yankees is going to be a popular pastime." Buzzie seems to be comparing the Dodgers to the old-time gunfighters in the West. They allegedly spent all their time knocking off the guy who knocked off the champ in the next town. Bavasi recently gave an interview in which he said that pennant winning teams usually are hard working teams. He says the Dodgers have a lot of hard-working ball players. In fact, he insists that everybody on the team works hard with the exception of the general manager. All he has to do is to observe everybody else working hard, and that's easy (?)

Warren Spahn, of course, is not eligible yet for the baseball hall of fame. He will have to wait until five years after his playing career ends. He is closing in on 43 and he has no plans to end his playing career. But it is possible to make a flat prediction that he will be elected to the hall of fame when the time for that arrives. It could make a nice 50th birthday present but who would predict that Warren will quit at 45. After all, he won 23 games last year and he could slip all the way to 20 this year and still look good. The balding southpaw is something extra special in the way of pitchers and it is inconceivable that the writers would fail to vote him into the hall of fame. He has won 350 games during his major league career, far more than any other southpaw in the history of the game. He has won 20 games or more 13 times. He holds the record for career strikeouts by a lefty.

The Braves are claiming that he will be the highest paid pitcher in the history of baseball this year. This is being challenged by the baseball historians who point out that in 1946 Bob Feller of Cleveland had a "piece of the action" and made a fantastic salary. Feller was given a percentage of the gate receipts, which were large.

REMEMBER WHEN DEPT. - who holds the Oriole record for triples in one game? It was Don Larsen, who turned the feat on July 21, 1954 against the Senators.

TODAY'S SPORT LAUGH - The Pittsburgh Steelers once defeated the New York Giants 63 to 7, at a time when coach Steve Owen of New York was considered the best defensive coach in football. After the game Owen said: "It's a good thing I'm a defensive genius or they might have beaten us, 100 to 7".

and their insurance is cancelled. The Fund has been unable to handle the flood of notices calling for cancellation of insurance and many motorists have been operating without insurance on our highways. One bill would prohibit cancellation of policies for non-payment of premium for a minimum period of 6 months. Cancellation could be made at anytime for many valid reasons other than non-payment of premium.

Many of these proposals will require additional funds in the State Budget. A great deal of this money must come from an increase in taxes as indicated by the proposed legislation "Roads". The Governor has also indicated that he favors an increase of 1% on the income tax covering earned income. Much of this would go toward financing the new school program as well as to the foreseeable increase in future budgets. This expenditure of moneys would be in addition to the use of the rather large surplus now existing in the State Treasury.

The World Day of Prayer

The women of the Taneytown Area will unite with the hundreds of thousands of people throughout the world in prayerful kinship in observance of the 78th World Day of Prayer.

All persons interested in joining this world wide prayer fellowship are invited to join with the women of Messiah E. U. B., the Trinity Lutheran, the U. Presbyterian (Taneytown), the Presbyterian (Piney Creek), the Church of the Brethren (Piney Creek) and Grace United Church of Christ in the service to be held on Sunday, February 16th, 7:30 P. M., at Messiah Evangelical United Brethren Church. An outstanding speaker, Mrs. Mildred Freeland of Baltimore, will bring the message. Members of the choirs of all churches participating will render a special selection, "Pilot Me," by Dale-Asher-Jacobus.

The theme for the 1964 service is, "Let Us Pray," prepared by Dr. Madeline Barot, Executive Secretary of the Department on the Cooperation of Men and Women in Church, Family and Society of the World Council of Churches, Geneva, Switzerland.

The gifts collected at the services in America will be used to help sustain 12 Christian colleges for women in Asia and Africa. The gifts will also make possible the translation, printing, and distribution of Christian literature to women and children in many parts of the world. They will lend assistance to the present program among Indian-Americans and the support of the migrant ministry, providing day care centers, recreational centers, and programs of assistance toward responsible citizenship. These gifts received on the World Day of Prayer will aid more than 60,000 students to come to America from all over the world. This year in an effort to broaden the program among college and university students, a special gift will be used overseas to help strengthen Christian work there.

The blessings, spiritual and physical, brought through the unity of prayerful hearts, have been evident since the first services of the World Day of Prayer held 78 years ago. The faith and love expressed then will reach out in this present observance to 150 areas on six continents as the people participating will be bound together in prayer.

"But surely we should remember that when the majority loses its freedom, the minority

'64 Heart Queen is a Heart Surgery 'First'

HISTORY'S FIRST successful open heart surgery was performed eleven years ago on Miss Cecelia Bayolek of Philadelphia, shown receiving her crown as 1963 Heart Fund Queen from Debbie and Donna Horst, identical twins who underwent heart identical operations on the identical day. She'll be among 1,750,000 volunteers visiting neighbors in observance of Heart Sunday, February 23, climax of the 1964 Heart Fund Campaign.

Car Of The Year...

Ford Lines Get Award

DETROIT, MICH.— The four car lines of Ford Motor Company's Ford Division — Falcon, Fairlane, Ford and Thunderbird — have been presented the "Car of the Year Award" for 1964 by Motor Trend Magazine.

Charles E. Nerpel, editor and publisher, made the announcement here following several months of evaluation of all 1964 models. This marks the first time in recent years that Motor Trend has awarded its coveted "Car of the Year Award" to all car lines of one automotive division.

In presenting the 1964 trophy to Lee A. Iacocca, left, Ford Motor Company Vice President and Ford Division General Manager, Mr. Nerpel said this year's award was made to Ford Division for "engineering advancement in the concept of total performance, based on high performance testing in open competition."

A Man Made Whole
Lesson for February 16, 1964

Background Scripture: Luke 8:26-39.
Devotional Reading: Colossians 3:15-17.

LUKE'S STORY of the "demoniac," the man who did not know his own name, who so many different persons at once—and all bad,—this story raises more questions than can well be answered here. What we

want to do is to look at the symptoms of the man, who would today be considered by any psychiatrist as a very sick man. The man had no name. He was so ill he hardly needed one. He Dr. Foreman lived without clothes, and (we may guess) without much to eat. He would not stay under a roof, but stayed in the open—not in the good green wood but among the tombs of a burying-ground. It was a suitable place for him, for the man was dead. He had lost contact with living men and living affairs. What the devils were—whether spawned by his own brain, or demons moving in from a dark outer world—we do not know. Whatever they were, they had charge of the man. His life was eaten out by these sinister infiltrators. When Jesus asked the man for his name, the reply was "Call me Legion"—using the word for a regiment of soldiers. Actually what was in the man was more like a mob than a well-drilled regiment.

20th Century demons
Today we say we don't believe in devils any more. This is strange, considering how many bedeviled victims there are all around us. You do not have to go far or search long, before you find men who are not men. They do not know rightly who they are. They have many conflicting desires, yet no real purpose. They are the slaves of habit, slaves of their most beast-like desires. Some of these modern demons are obviously afflicted. Alcoholics, dope addicts, drivers who are never safe behind a wheel, victims of hot temper, fear, gnawing envy, or a thousand other devils, walk our streets, imperil our highways, inhabit our jails, reformatories and hospitals. A person who has lost all control of himself, who cannot resist some particular temptation, who perhaps knows very well what this next drink is going to do to him but must have it regardless of consequences, such a man may have a name; but it is not he himself who bears the name. He is no longer himself, he is a walking habit, a walking bundle of fighting impulses, he does over and over what he swore to himself he would not do again.

The cure
No one knew just how Jesus did it; but one thing was certain: the demon-ridden man was cured. Whatever was wrong with him was made right. No longer a naked howling savage lunatic, he was seen dressed, sitting and listening to Jesus, once more a member of society, a human being. For the first time in years, perhaps, he could honestly say "I" and not "we." But it was not his own self-control that had won the struggle. He had been brought so low there was no struggle left in him. It was Jesus who took hold of him, it was Jesus who mastered the devils, not he.

In the treatment of alcoholics today, cures need not be expected so long as the victim insists he can "take it or leave it alone." For an alcoholic to be cured the first necessity is to admit he is an alcoholic, that he can't get out of himself by himself. And the Alcoholics Anonymous has found that the best and surest helper there is, is God. The Christian church knows that this is true of others, too. When a man is helpless in the grip of evil inner forces, it is not a case where self-cure is advisable—because what really ails us is beyond our own power to cure. To admit we are defeated, to admit we need help, is the first step on the road to freedom, but there always has to be some understanding heart. Suppose Jesus had been afraid of the man, or despised him, or thought of him only as a disgusting interruption?

Giant Tire Ride Offers World's Fair Panorama

A 90-foot high giant tire, in which people can actually ride, is being constructed by United States Rubber Co. for the New York World's Fair. Called the U.S. Royal Giant Tire, it will afford a high, clear view of the fair grounds for sightseers and camera enthusiasts. Adjacent to the south side of the Grand Central Parkway, the giant tire will face exhibits, fountains, promenades and the Unisphere, symbol of the Fair.
It will have a total capacity of 96 passengers, four in each of the 24 barrel-shaped gondolas.
The giant tire, designed by Shreve Lamb & Harmon Associates, is being fabricated of U. S. Rubber's Vibrin polyester resin reinforced with glass fiber. The plastic laminate will weigh 17,500 pounds. It is being molded in sections which will be built onto a steel framework encasing the moving mechanism.
A coating of colored polyester resin will give the appearance of rubber, whitewalls, and the red circle of security, U. S. Rubber's premium tire designation. The gondolas will move around the circumference of the giant tire in the tread section.
The company plans to use many of its products in the giant tire. The gondolas will be made of Expanded Royalite, a molded ABS thermoplastic. Seats will be cushioned with Koylon foam rubber and covered with Naugahyde vinyl upholstery. The floor in each gondola will be covered with Royal vinyl carpeting.
The exhibit will be located on a 15,000 sq. ft. tract, landscaped with plants and shrubbery. At the entrance, where passengers will assemble for the ride, a series of display cases will exhibit U. S. Rubber's diversified tire line.

The Human Need for Love

February is a cold, wintry month, but right in the middle of it comes a heart-warming day which is as welcome as a breath of Spring. We mean, of course, St. Valentine's Day, when we express tender thoughts of affection to those we love. Romantic valentines embellished with hearts, cupid and flowers, convey the wonderful message: "I Love You." Whether the valentine we send or receive is beautifully decorated and expensive or one of the penny variety, the sentiment of love is the same.

There are, of course, different kinds of love other than the romantic type which is associated with St. Valentine's Day. Once, a long time ago, their lived a Man who exemplified love in its purest form. That Man was Jesus Christ, who lived, taught, and expounded it throughout His short earthly sojourn. In His Sermon on the Mount, the Golden Rule, and in answering questions put to Him, Christ stressed love for God and love for one another. He well knew the awesome power of love, and each individual's great need for it.

Today, scientists and doctors are discovering these self-same truths. They have found, for example, that a new-born child can actually waste away and die if it is denied love—especially mother love. Lack of it stunts children psychologically, spiritually and physically, no matter how well-fed they may be or how clean they are kept.

Before doctors and pediatricians realized the importance of babies' being loved, there used to be a shocking number of deaths among infants who entered hospitals and children's institutions. These institutions were badly understaffed, in many cases and nurses and attendants simply did not have time to love or cuddle the babies under their care. Gradually, it began to be recognized that it was the absence of "mothering" the babies that was causing the high death rate. Psychiatrists have found that lack of love during an individual's childhood is the main causative factor in various emotional and mental illnesses. Hardened criminals and juvenile delinquents are almost invariably people who failed to receive the emotional warmth and attention which they so badly needed as small children.

We may well conclude, then, that love is the most important force in shaping our physical, spiritual and emotional lives. No one of us can ever give too much, or receive too much of it. More than any other emotion, it enriches the lives of both the giver and the recipient.

CHRISTMAS SEAL RETURNS TOP LAST YEAR'S DRIVE

Carroll County's 1963 Christmas Seal Campaign is running ahead of last year by several hundred dollars, Mrs. John C. Schaeffer, Campaign chairman, announced today.

Receipts as of Feb. 11, 1964 total \$12,111.08, she reported, compared with \$11,711.75 at the same date in 1962.

"The Carroll County Tuberculosis Association is highly gratified at the increase shown so far," Mrs. Schaeffer said. "Of course the campaign isn't over, and it's our hope and prayer that all those who haven't yet answered their Christmas Seal appeals will do so promptly and help maintain this lead right to the finish line. The Carroll County Tuberculosis Association is anxious to expand its activities aimed at wiping out TB and controlling the other respiratory diseases, which disabled more Americans than any other group of illnesses. In order to make this hope an actuality the need for funds is greater than ever."

WESTMINSTER FREE GUEST CLASS

You'll find it a fascinating experience to attend a Free Guest Class of the Dale Carnegie Course.

As you walk into the Carnegie meeting room you become aware of a kind of suppressed excitement in the air. You seem to breathe in a little of it yourself. Dale Carnegie calls it enthusiasm.

You look around at the people, and you realize that these men and women are purposeful and self-motivated. They have the look of those who are going to succeed.

When the session begins, you are pleasantly surprised at the brisk tempo, the fun and laughter, the skillful instruction techniques, the way you become so engrossed that time literally flies by.

As the evening progresses, you see how other people are building greater poise and self-confidence . . . developing greater skill in getting their ideas across to others more effectively . . . improving their understanding of the psychology of dealing with people . . . developing a trained and more dependable memory . . . increasing their leadership skills to help them advance in their careers.

As you watch all this, it's just possible that you might want to join the Westminister Monday night Dale Carnegie Course yourself. If that's the case, we'll be glad to arrange it and issue the necessary books and supplies.

Is there any obligation in attending our Free Guest Class? Of course not. We like guests and visitors. We hope you'll be one of them. And please feel free to bring your wife or an interested friend.

Is a Woman's Place in the

HOME BUSINESS COMMUNITY ?

Any answer is correct! A woman's place is everywhere. Our bank is prepared to talk finances with every woman because we don't think the banking business belongs exclusively to men. Every year the volume of business that we transact with the women of this community increases.

We want all of our feminine customers to know that we highly value their patronage and find it a pleasure to serve them.
