HIGH SCHOOL SENIORS URGED GET YOUR S. S. CARD

"High school seniors are urged to obtain a social security account number card before starting out to look for summer jobs," Mr. R. W. Hughes, social security district manager in Baltimore, stated. "One of the first things a new employer will ask for is your social security number."

Mr. Hughes explained that while social security may seem unimportant to a young man or woman just out of school, social security credits provide the basis for future benefits under the program. An account is established for each social security number, and over the years the worker's earnings are credited to the account.

Should a worker suffer loss of income because of disability, death or retirement, monthly benefits can be paid based on the average earnings credited to his account.

An application for a social security number may be obtained by writing or visiting the nearest social security office, or—in rural areas—by asking at the local post office.

Distribution of Bonus Pool Tickets

The Executive Committee reaffirms its policy of distribution of bonus family season tickets to donors.

As stated in the pool brochures, "contributors of \$50 and over will receive a one-year family season ticket. Those giving \$100 or more will receive a one-year family season ticket. Gifts of \$500 and over entitle donor to receive a three-year family season ticket. \$1000 and over gifts have a bonus of a five-year family season ticket. Donors of \$5000 and over will receive a ten-year family season ticket."

The policy is further explained in this excerpt from the Executive Committee of December 17, 1964:

"Nadine Brown moved that all tickets will be non-transferable and will be issued in one individual or family name. Motion carried.

"On the motion of Donald Smith the Executive Committee voted that those persons who are entitled to bonus season tickets have the option of one (1) ticket for three years, or three (3) tickets for one year; one (1) ticket for five years, or five (5) tickets for one year; one (1) ticket for ten years, or ten (10) tickets for one year. In addition, all free tickets must be accepted in the first year of pool operation or follow the scheduled plan of receivership."

The above policies were announced to the public through brochure mailings and press releases (see CARROLL RECORD'S pool article in December 24, 1964 issue).

CHRISTIAN DAY KINDERGARTEN

The initial year of Trinity Lutheran Church's Christian Day Kindergarten closed Friday, May 29, with a special "graduation" party honoring those pupils who will enter public school in the fall.

The "graduates" are Joel Carpenter, Geoffrey Clingman, Pamela Dell, Judy Flickinger, William Ledbetter, Charles Musser, Michael Reifsnider, Kim Smith, Deborah Weller, Bruce Wilson and Terry Wolf.

Four and five-year-olds who have completed one year of the two-year pre-school program are Susan Peterson, Cookie Green, Sharon Crouse, Linda Crouse and Brian Baumgardner.

Teacher-director Mrs. Charles L. Stonesifer has entered the kindergarten curriculum on the children's relationships to God, church, Bible, fellow men, physical world and themselves.

Among the many activities and learnings accomplished during the past nine-month term were dramatizations of nursery rhymes and stories, tempera painting, handling of crayons, paste and scissors, fabrication of stick puppets, making cookies, counting and learning numbers one through ten, printing and recognizing first names, and field trips to the pumping station, the fire house, and post office.

Holidays were observed with special activities, and the observations of seasonal changes were highlighted with nature walks.

The class represented the children of Taneytown at the ground-breaking ceremony for the Community Swimming Pool, and participated in indoor and outdoor physical education activities. Games, stories, songs, Bible stories, the Lord's Prayer and the Pledge of Allegiance to the flag were a part of each day's program. The "Show and Tell" period proved popular with the youngsters, and gave them experience in talking before a group, explanation and discussion.

Music appreciation was encouraged through the listening to children's records, learning new songs and the organization of a marching band.

Workbooks and oral drills helped with reading readiness. Friends from the animal kingdom visited the kindergarten frequently: among them were an opossum, white mice, a turtle, a kitten and chicks. Pictures and books and actual observation implemented recognition and understanding of other animal friends.

The pupils visited the church chapel for occasional non-sectarian services during the year, and through discussion and stories each day gained in understandings and insights of their relationship to God and the Bible.

An open house was held last winter for parents of the pupils, and another was held in May for prospective pupils and their parents.

Mrs. Stonesifer will be teacher-director again in the coming term, conducted from September to May, Monday through Friday from 9 A. M. to 11:30 A. M. in the church's kindergarten rooms. Registrations are now being accepted for this class from parents of four and five-year-old children. To date, fourteen children have applied for the ultimate class of twenty. Informational brochures may be obtained at the church office or parsonage.

HAVE YOU CALLED YET?

Those entitled to bonus season pool tickets, and those who have purchased individual or family season tickets, are urged to call Mrs. Dean Brown, 756-6414, as soon as possible to let her know in which names they wish the tickets issued. She will then mail the tickets to the donors and purchasers. The Taneytown Community Swimming Pool opens June 13! Be sure you have your tickets before then to avoid delays at the pool office.

Special Park Board Meeting

On Tuesday evening, June 1st, a special meeting of the Park Board of Taneytown Memorial Park was held. The primary purpose of this meeting was to discuss excessive speed by automobiles in the park, cutting drive-ways through grass areas and haphazard parking.

The Board took action to adopt a 15-mile speed limit within the park. This speed limit will be posted. Areas that are now being used as drive-ways through grass areas will be blocked off. Signs indicating parking areas will be posted.

This action is being taken for two reasons: to promote safety in the park, primarily of our children and secondly to preserve the beauty of the park. We are all proud of our park and certainly no one wants to deface it. The Park Board requests the cooperation of all concerned and strict adherence to the new regulations just discussed. This is your park—it is up to each and every one of you to assist in taking care of it and above all—to drive carefully in the park to insure the safety of children playing there.

Final action was also taken on the erection of pavilion No. 4. This pavilion will be very similar to No. 3 and will be built immediately below No. 3. The contract was awarded to Raymond J. Perry, the low bidder.

"SPICE 'N' EVERYTHING NICE" (Your Chatty Column)

With all my heart, I wish you every morning
A smile that shall last until the next day's dawning.
I wish you health—life's greatest wealth;
I wish you always near so that I may help to cheer
Each future day and in some way—help to bring you happiness!

So much of The Lilly of The Valley is growing and most evident just about everywhere. No flower has a sweeter aroma. Years ago, these flowers were always the bouquets of all brides as they walked to the Altar. And here is the Legend of that precious flower. There is a fresh, simple beauty about May's flower, the Lilly of The Valley. Perhaps it is this beauty which gave rise to an old world legend. Once, long ago, a little child wandered through the woods and fields, coming to a secret valley she stopped and sat upon a rock. Entranced by the valley's beauty, she whispered the secrets of her heart to the trees around her. These thoughts, so trusting and pure, took wings and gently floated about. And, where they touched the ground, there grew dainty white flowers with downcast heads, symbols of the shy innocence of a child. These lovely blooms, named for the simplicity of their origin, are called, the Lilly of The Valley. These flowers thrive everywhere today, seeming to share a precious secret with all around them. Their delicate heads, bent shyly, whisper a little story to those who take the time to listen!

And, now word comes from Annapolis, from Mr. Richard E. Lankford, Chairman of the Paca House Preservation Fund Committee. How awful it is to destroy any Historic building down at that quaint little city, the Capitol of Maryland where thousands of strangers visit yearly. During this last Winter, it was announced that Carvel Hall Hotel was going to be sold and torn down to make room for an apartment house! The plans included the razing of the Paca House portion of the hotel. This fine old mansion was the home of the Third Governor of Maryland who was also one of the signers of the Declaration of Independence. Historic Annapolis, Inc., believing that this important link with our past should be preserved, obtained from the owners an option to buy the Paca House. The State Legislature has cooperated to the extent of passing a bill authorizing the Board of Public Works to acquire the remainder of the property and turn it over to the Maryland Historical Trust for preservation. The Governor signed the bill into law on April 8, 1965. Historic Annapolis is now faced with the task of raising \$250,000 for the purchase of an essential repairs to the Paca House. Already pledges of help have been made by interested people from within Maryland and from other states, but the task is far from finished. Now, you and you could aid in this wonderful project of preserving our precious historical heritage. They would like to have your help. Just mail to "Historic Annapolis, Inc." This is deductible for income tax purposes. Won't you give this your prompt attention? If you have visited this wonderful old house you would understand, I am sure. How awful it would be if that precious little town—our Capitol, would ever go modern! Eh? The address: 18 Pinkney Street, Annapolis, Md. 21401.

Ladies, nothing is finer as a cleaning base than Max Factor's "Double-Depth" Cleansing Cream. Try it once and you will never be without it as it is plus a grand make-up base rich with oils.

How eagerly the Public is awaiting the return of the Newspapers! Radio announced this morning that the "Sun" would be published by the end of this week!

Now, here's to "Gemini" those born from the 20th of May after midnight to June 20th before midnight. "Mercury" is the ruling planet of the sign, GEMINI, and bestows upon these people a vivacious temperament and sparkling wit and they are extremely versatile. They have a dual personality and due to this it is hard to understand them at times, in fact, they rarely if ever understand themselves! One minute they are bold and aggressive while the next minute they are timid and conservative. In other words they blow "Hot and Cold" aims at in one breath. They do not have pride, conceit or tyranny. These people, both men and women are very sympathetic and make excellent nurses. They are warm-hearted, courteous and refined. They delight in driving sharp bargains. They should be careful of money as they are most wasteful and should curb their extravagance. These people have more new and clever ideas in one week than most people have in a life-time. They are most diplomatic and go after what they desire in life. Many times, these people are very nervous and should make every effort to control themselves. Their great unrest causes them much unhappiness. They must learn the power of concentration. They must stick to one thing at a time or otherwise they will unfinished what they start. Patience and silence must be the watchwords for those who have resolved to live on the higher plane. There is much more to Gemini and they can do wonders if they just stick to one thing at a time.

Have a grand week-end. Folks do make someone else happy. Until next week D.V.

I am.

Faithfully,
YOUR OBSERVER.

Nature never makes excellent things for mean, or no uses.—John Locke.

"FACTS AND OPINIONS"

Columnist Robert S. Allen writes: "Red China has moved some 6,000 combat troops into Laos near the northwestern border of North Viet Nam. Bivouacked in dispersed units in the Phong Saly area, the estimated seven Chinese battalions are equipped with artillery, mortars, antitank and heavy machine guns. Evidence also points to the Communists' stockpiling considerable quantities of military supplies, particularly heavy weapons, in concealed depots in Laos. . . . Nothing definite is known concerning the intent and mission of these Peking troops."

The gas industry has reaffirmed its confidence in the 1965 session of the New York World's Fair by adding a half million dollars worth of new exhibits, features, and attractions for the Festival of Gas pavilion.

The Lancet, the leading British medical journal, reports on hospitals under socialized medicine: "Overcrowding, lack of privacy, lack of sanitation, and dirt: this would define a slum. It also describes many of our hospitals today. Why do these conditions persist in a supposedly advanced country, to depress patients, to sap the vitality of doctors and nurses, to negate their work? Partly it is due to weakness inherent in the National Health Service Act which took spending power out of the hands of the local authority and placed it centrally with the treasury. Local pride (and local shame) is no longer effective. . . . We have failed to build hospitals largely because centralization alters perspective and changes the issues."

The Department of Interior reports that it has found a way to control the population boom of coyotes by the use of birth control pills. A new synthetic female hormone is fed to coyotes during their once-a-year breeding season. Main reason for wanting to cut down on the coyote population is that they kill many sheep and cattle each year. The new drug poses no threat to domestic dogs.

Last year the taxpaying investor-owned electric utilities spent approximately \$3.6 billion for construction of new facilities and improvement of existing facilities. This brought U.S. generating capability to the record figure of 239.3 million kilowatts.

From the Albany, Oregon, Democrat-Herald "We want the state to help cut our taxes but at the same time yell to high heaven if the state does so by curtailing state services, which it certainly must. Taxpayers must realize that the dream of getting something for nothing is just that."

David Lawrence writes in the New York Herald Tribune: "As far back as the days of Adam Smith—who two centuries ago wrote The Wealth of Nations — government after government has come a cropper because faith in the monetary unit has dwindled and its purchasing power has been seriously diminished. Inflation usually has ensued as prices and wages have risen. If this affected everybody in a community at the same time, the transition would not be so painful. But when prices go up faster than individual income, the net result is a cessation of demand and a 'recession' or 'depression.'"

A short time ago, American drug manufacturers moved to fight a health disaster in Somali, resulting from months of famine and drought. Fourteen drug firms donated \$126,604 worth of antibiotics, sulfas and other products in response to an appeal from the American Red Cross. A previous Somali request sent to communist countries, notably Red China, reportedly yielded only scant supplies of medicines.

Teen Party Idea

Here's a hot party idea for a "real cool" hostess. Forget the last minute flurry of cooking hamburgers for the crowd. Let the guests cook their own burgers (kabob-style) on a table-top hibachi. Then, give the party a quick, refreshing lift with Banana Split 7-Up "Floats."

Burger Kabobs

Combine 1 lb. ground beef with 1 teaspoon garlic-flavored salad dressing mix and 1/2 teaspoon salt. Form into 18 small meatballs. Alternate on 6-inch metal skewers with onion wedges, green pepper squares and strips of partially-cooked bacon. Cook slowly over glowing coals. Serve in "hollowed out" frankfurter buns. Makes 6 servings.

Banana Split "Floats"

In each tall glass place: 1 tablespoon mashed banana, 1 small scoop each vanilla and strawberry ice cream and 1 tablespoon sweetened, sliced strawberries. Tilt glass and slowly pour in 1 bottle (7 ozs.) chilled, sparkling 7-Up.

CURRENT EVENTS
FIFTY YEARS AGO

The almost continuous cold and rainy weather, the past two weeks, was anything but seasonable and May-June like, and much of the vegetation has been retarded in growth because of it.

Mrs. Lorena Thomson and son, Wm. of Sebring, Ohio, are here on a visit to her mother, Mrs. Laura Rein-dollar.

Mrs. Catherine Clabaugh, Mr. and Mrs. Bloomer, Mrs. Lamberton and their children, of Washington, are at Antrim for the Summer.

Rev. Guy P. Bready of Shepherds-town, W. Va., was elected pastor of the Taneytown Reformed Church, last Sunday. Rev. Bready created quite a favorable impression when he preached here several weeks ago, and it is understood that he will accept the call.

While rain interfered with the parade on Decoration Day, the Opera House was used for the addresses and all were fine; by Professor Wm. James Heaps, Baltimore; Rev. Wm. L. Seabrook, Westminster; Rev. S. R. Downie, Taneytown.

NULL. Mr. Daniel Null, 80, died at his home on Baltimore Street, Taneytown on Thursday. He was a successful farmer for many years. He leaves a widow and the following children by previous marriages: David of near Littlestown; George of Illinois; Jacob D. of near Taneytown and Mrs. Harry A. Allison of Taneytown. Funeral services will be held Saturday at Lutheran Church in charge of his pastor, Rev. L. B. Hafer.

Harney . . . J. T. Lemmon, our enterprising machine man, realizing that on account of the greatly increased number of automobiles in the community, and other places, the demand for good gasoline is rapidly growing, has just put in a 450-gal. tank and a Bowser pump to conveniently supply his rapidly increasing trade.

Silver Run . . . The following named pupils attended Humbert's school every day during the Summer term: Helen Warner, Ruth Lawyer, Cornie and Alice Strevig, Mary Hildebride, Edna Mathias, James Strevig, Edgar Study, William Feeser, Milton Miller, Raymond Lawyer, Nevin Lawyer and Ralph Bowman.

"You can't always judge by appearances—the early bird may have been up all night."—Charles Cunningham, Natchitoches (La.) Times.

"If the grass is greener on the other side of the fence, you can bet the water bill is higher."—Alvin E. Ericson, Bonduel (Wis.) Times.

TIGERS POLISH OFF LEAGUE LEADING APPLEKNOCKERS TWICE: 2-0; 4-0

The Taneytown Tigers helped the season's largest crowd to celebrate Memorial Day with a sparkling double shut-out victory over the high scoring league leading Bendersville "Appleknockers" behind the slants of Walt "Perfect Game" Donohue and rookie Morgan Storey.

Both games were won by an airtight defense and the fine pitching of Walt Donohue and Morgan Storey. Bendersville, who had been averaging about 15 runs a game, left Memorial Park talking to themselves about the twin whitewashing. The run scoring in the first game was spotlighted by the first homer of the season for the Tigers by Ernie Combs—a shot that traveled over the fence in right field. The other Tiger tally came on a run down play.

In game two, Taneytown exploded for four runs in the first inning on a double by Graham Wildasin, a single by Ernie Combs and Ernie stole home for the last tally. With the pitchers in control all the way, Taneytown was never in real trouble in either game.

THE WAY I SEE IT . . .

Observations on the World of Sports —by John Breth

When the New York Yankees have a fellow like RALPH TERRY for a friend they don't need any enemies.

After slapping them down with a three-hit shutout as the Cleveland Indians whipped the Yanks, 4 to 0, Terry said: "They're all my friends and they're having a hard time. But we're having a hard time, too."

Terry pitched eight seasons for the Yanks and the kind of friendship you can build up in that length of time is not easy to shake off. But he owes an even larger loyalty to his new team, Cleveland, which got Ralph from the Yanks last Fall as part payment for the deal that sent Pedro Ramos to New York.

Terry is off to such a flying start for the Indians that he is permitting himself the luxury of dreaming of a 20-game season. His record now is four and two, and three of his victories were complete games. In the fourth, he needed help from Gary Bell in the 9th inning.

Terry only won seven games for the Yanks last year and lost eleven. That's the kind of record which can get you traded—and in Terry's case it did.

Ralph also suffered from a bad back last year and that could have figured in the thinking of the Yankee front office when it made the trade. The back has not bothered him this year. Nothing bothers a man much when he is winning.

The Yanks who know Terry so well were very impressed with his performance Wednesday night and Tom Tresh insisted that somewhere along the way Terry showed him a new pitch which he said looked like a screwball.

Terry is only 29 years old, which is young for a pitcher and it's just possible that the Yanks did him a

large favor when they traded him to Cleveland. It may have been just the spur that Ralph needed to become the star pitcher that the Yankees always expected him to be.

Among the many things the New York Mets have not had in their brief existence is a star player. Oh, Ron Hunt did make the National League All-Star team as the starting second baseman last year but it would be difficult to sell him as a star ball player.

The Mets just may have one, at least there is the potential of a star in ED KRANEPOOL, the young first baseman.

Ed is only 20 years old but this is his fourth year in the Met organization. Most of that time has been spent with the Mets, either at first base or on the bench.

Ed was the guy that the Met front office used to point to and say, "He could be a real good one."

And that's what he has been in this very young baseball season. . . . A real good one. He is currently riding a hitting streak of 12 straight games. He was leading the National League in hitting with an average of .457. And he is winning a reputation around the National League as a hitter who has to be pitched to carefully.

A few short years ago when he was all of 17 years old, Kranepool had ambitions to tear the league to shreds with his slugging.

A left-handed pitcher, he tried to pull everything pitched to him in the general direction of the right field stands in the Polo Grounds where the Mets used to play their home games. But with the move to Shea stadium and a longer right field and with the maturity that comes with reaching the age of 20, Ed changed his style.

This year he is hitting the ball where it is pitched and it is paying off.

He says: "I've got ideas on how they're pitching to me. I go to all fields, depending on what they're throwing. This is something that comes with experience."

Remember When Dept.—At this time last year in the South Penn League, Taneytown had played a total of 4 games with a record of 3 wins and 1 loss, good for a tie for second place.

Today's Sport Laugh — The Orioles recently had a big rookie who resembles Mickey Mantle of the Yankees. Recently, he was stopped by a youngster who thought it was Mantle. Epstein signed the autograph with Mickey's name. Said Mike later: "I didn't want to break the youngster's heart."

WATER FACTS. EPIDEMICS DUE TO WATER POLLUTION ARE NOT A SERIOUS PROBLEM ANY MORE IN THE UNITED STATES. BUT WATER QUALITY IS IMPORTANT TODAY. WATER IS CLEAR OR NOT, WHETHER IT TASTES GOOD OR NOT, WHETHER OR NOT IT STAINS LINENS, CLOTHING, AND OTHER MATERIALS DEPENDS UPON HOW GOOD THE WATER FACILITIES OF YOUR TOWN ARE TO ACHIEVE THE BEST QUALITY WATER. THE POPULATION EXPLOSION HAS MADE THE RE-USE OF WATER A NECESSITY IN MANY TOWNS AND CITIES THROUGHOUT THE U.S.A. ONLY THE BEST FILTERING EQUIPMENT AND THE MOST MODERN WATER TREATMENT AND PROCESSING PLANTS CAN GUARANTEE HIGH QUALITY WATER. AS MORE AND MORE TOWNS EXPAND ALONG OUR LAKES AND RIVERS, THEY PULL OUR WATER FROM THESE SOURCES, USE IT, THEN DUMP IT DOWNSTREAM AS SEWAGE WASTE. THE NEXT TOWN DOWNSTREAM REPEATS THE PROCESS! ONE TOWN'S WASTES IS THE NEXT TOWN'S WATER SUPPLY! IS IT ANY WONDER THAT OUR WATER DOES NOT HAVE GOOD APPEARANCE, LIVELINESS, AND GOOD TASTE? IS YOUR TOWN MEETING ITS WATER CHALLENGE? Young Marrieds Entertain

Evening "coffees" are as popular as the discotheques with young couples. The combination of a delicate dessert and delicious coffee is sure to get glowing compliments. Choose an all-purpose premium blended coffee such as Yuban for just the right coffee flavor. Serve it freshly brewed at the peak of perfection.

Coffee Soufflé

- 1 envelope unflavored gelatin
- 1/4 cup water
- 1/4 cup sugar
- 1/4 cup water
- 1/2 cup milk
- 1/8 teaspoon salt
- 4 egg yolks, slightly beaten
- 4 egg whites
- 1/2 cup sugar
- 1 envelope whipped topping mix
- 1 tablespoon premium blended instant coffee
- 1/4 teaspoon cinnamon

Add gelatin to 1/4 cup water—let stand about 5 minutes. Combine sugar, 1/4 cup water, 1/2 cup milk, and the salt in a saucepan. Heat just to boiling. Stir a small amount into egg yolks. Then, stirring constantly, return mixture to saucepan. Add gelatin and continue to cook and stir over low heat until gelatin dissolves and mixture begins to thicken—about 2 to 3 minutes. Remove from heat. Chill until very thick.

Beat egg whites until foamy throughout. Add 1/2 cup sugar, 2 tablespoons at a time, beating thoroughly after each addition. Continue beating until stiff shiny peaks will form. Prepare whipped topping mix as directed on package; fold in instant coffee and cinnamon. Blend into gelatin mixture with the beaten egg whites. Pour into 2-quart serving dish. Chill about 5 to 6 hours or overnight. Garnish with additional whipped topping and nuts, if desired. Makes about 8 cups or 14 to 16 servings.

Percolator Coffee — Use 2 level tablespoons regular grind premium blended coffee for each 3/4 cup (6 ounces) of water. Measure cold water into percolator. Measure regular grind coffee into the basket. Set in percolator. Heat until water begins to percolate. Reduce heat. When water becomes amber in color, begin timing. Percolate gently 5 to 8 minutes, depending on strength of brew desired. Remove basket before serving.

Love and Duty Lesson for June 6, 1965

Background Scripture: II Samuel 15:1 through 19:10 Devotional Reading: Luke 15:11-24.

THE BIBLE story is, as usual, much better than any comments on it. The story in the Background Scripture is not only probably the most interesting in the Old Testament, it is one of the best and most moving stories in any literature.

Dr. Foreman long-ago (about twenty centuries by now) is that it movingly unfolds a problem which comes close to the heart of us all — all who are capable of love and also have a sense of duty. For this is a story of how love and duty can clash, and what happens when love takes duty's place.

Requirements of government What a man's duty is depends on his situation and circumstances. In the time when this story happened (and please read it before you read this column!) David was king of Israel. He not only exercised government, he was Government. Now as King of the little new nation of Israel, lawgiver, lawmaker and law-enforcer all in one, his duty was what the duty of government always is: to rule for the benefit of the governed. This means first of all, justice, law and order, prevention of crime, assuring every man equal treatment before the law. This was the king's duty. Government should serve the people, not destroy them or weaken them. Government ought to unite all citizens — ought even to inspire citizens with patriotism so far as that is possible. What David did was not so much any particular wrong act, it was not doing anything. Doing wrong or not doing right, — what is the difference? David's fatal mistake was in letting things go. He let a man whose bad character was a matter of public knowledge, scheme and plot against the government without paying any attention to him. He did not hold court as a judge — a prime duty of a king in those days. He even let an army be recruited for a rebellion against him, without lifting a finger to stop it. In short, instead of governing the country, he let it go to rack and ruin.

All for "love" What was the matter with David? What led to his shocking neglect of the duties of his high office? In one word, it was love; not this time love of a man for a woman, but of a father for his son. It is not wrong for a father to love his son; but when that love reaches the point where the father can see no wrong in anything the son does, when the father refuses to discipline the son in any way, when the father's affection for this one child overweighs and cancels out all sense of duty, — the point where the father is willing to let his son go from bad to worse rather than hurt his feelings by saying NO! then we had better put quotation marks around that word "love." This is not responsible love, it is lazy indulgence.

Love gone wrong The end of the story is a bitter one. David's heart was broken. But who, after all, broke David's heart? You may say, it was Absalom's fault. But who let Absalom grow up to be the kind of man he was? This is no tale only of the long ago. Every day somebody's heart is broken because of love gone wrong. When a student in a classroom admires another student so much that he lies for him and cheats for him, that is love gone wrong. When a mother blames her child's failure in school on the teacher, not the child, that is love gone wrong. When a man in public office uses that position to obtain special favors for a friend, when lawyers will shield a crooked lawyer and doctors refuse to bring charges against an incompetent surgeon all because of their love for their profession; whenever a girl lives with a man before they are married, to prove that she loves him; these and many another sin and crime are the poison fruits of love gone wrong.

NEW LOOK in STEEL

Newest thing in steel is tin coated steel foil. It is only two thousandths of an inch thick, about the equivalent of an ordinary magazine page. Heat it, chill it, poke it, soak it, glue it, laminate it. It can be used in thousands of ways — yet it is steel and you know what that means in strength and durability.

This disposable pie pan is one of many products that can be made of steel foil. Contents are easily removed. The pan holds firmly while you serve individual slices. Simply toss away after use.

Another possible use of steel foil is for packaging the new freeze-dried foods. Steel foil's toughness and impermeability to moisture make it an ideal material. Sharp points and edges of freeze-dried food cannot penetrate steel foil. Contents are kept kitchen fresh and sealed, ready for instant use.

MEETING OF BOARD OF EDUCATION

The Board of Education of Carroll County held a special meeting at 10 A.M. on Friday, May 28, with all members present. The meeting was called for the purpose of considering recent injunction issued by the Circuit Court of Carroll County with relation to the consolidated high school in the southern part of the county.

The Board heard a report from the attorney and considered the items specified in the injunction. After consideration, the Board took action to direct the attorney to prepare a reply to the injunction and submit it as promptly as possible to the proper authorities. It was further directed, in a resolution, that a release be issued to the newspapers of the county and area, emphasizing the following points.

(1) The Carroll County Board of Education will, as promptly as possible, make formal reply to the injunction, proceeding as per the directions of the Court.

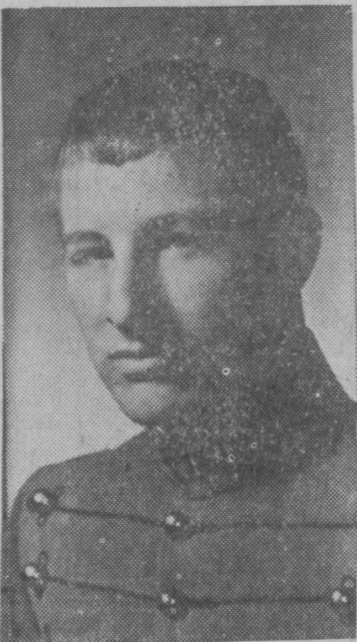

(2) The Board of Education will, in accordance with the Court directions, bring to a close present operations at the South Carroll High School site following the completion of the grading contract now in progress. Other operations will be brought to a halt until decision is made by the Court regarding the injunction.

(3) The Board of Education will hold the plans and specifications which are now at the point of being submitted to contractors, until permission is granted for the work to proceed.

(4) In the interim between cessation of operations and resumption of activity at the location, the Superintendent was directed to proceed with long-range planning to seek ways to accommodate the increasing enrollment in the southern part of the county, using emergency measures as necessary. In this connection it was emphasized that a long delay may be necessary due to delay in receiving a decision from the Court that parents and pupils of the area should be made aware of the effect of the injunction. The accommodation of pupils in the buildings in the southern part of the county during the interim period may involve large classes and, possibly, split sessions in one or more of the schools until the Board of Education is permitted to proceed with the construction of facilities. Inconvenience and limitation of programs in the schools affected may also be expected. The Board of Education is hopeful that prompt disposition can be made and that present plans may be continued. The Superintendent was further directed to issue periodically classifying statements to the public regarding the problems which confront the Board in seeking a solution to the increased school population in the southern area. The Board sincerely regrets the delay and will use all possible means to provide adequate education for the pupils affected.

The Board adjourned at 11:00 A.M.
