Key Club News

The Key Club of Taneytown Jr. and Sr. High School has been rising to new heights through its many service projects this year. The Key Club, being a service organization has been a great credit to its school and community. To begin the 66-67 school year, the Key Club assumed the responsibility of removing the soccer posts and nets from the park and for putting up the baskets in the gymnasium for the physical education department.

The Key Club began a new project this year to help the Juniors and Seniors make decisions about their post-graduation futures. This was accomplished by inviting alumni back to speak individually to students about their college, career, and Armed Forces' lives.

Recently a stage crew was set up, which will be responsible for getting the stage ready for future assemblies. For the benefit of those who are wondering who had the initiative to have the school sign erected at the bottom of George Street, it was the Key Club. The club is now making headlines by posting all major school events on the marquee of the old theater on the square in Taneytown. This project will not only benefit the students in school but it will also help the community to be more informed about the school's activities.

Yes, this organization has done much for its school and community and has much more planned for the future. It plans to help clean out the community swimming pool again this Spring. Once a month these young men worship together in one of the Community Churches.

This year's officers are: Henry Alexander, president; Charles Edward Null, Jr., vice-president; Richard Reindollar, secretary; Kenneth Strickhouser, treasurer; Robert Reindollar, reporter; Kenneth Haines, sergeant of arms; and John Lawrence, Chaplain. The Club's advisor is Mr. Corbin. It is very easy to see that these young men have been very active this year. By serving today these Key Clubbers are preparing to become citizens of tomorrow.

COUNTRY MUSIC BENEFIT

My husband and I spent a pleasant afternoon recently in Frederick at the new Governor Thomas Johnson High School. The beautiful auditorium has 1600 comfortable, very colorful seats which are elevated and is built in the round, so to speak.

The benefit was being given for the family of a friend of ours who was killed instantly in an automobile accident. He had been a local country music entertainer and was very well liked.

Musicians, singers, dancers and a magician were just some of the acts we enjoyed. These entertainers came from Maryland, Washington, D. C., Virginia, West Virginia and Pennsylvania to perform without pay.

It has been said, one nice thing about country living is the sharing that goes on. It was very generous of these people to share their time and talent to help make this benefit the big success that it was.

Local Children's Pictures to be Taken Free for Publication in The Carroll Record

Tuesday, February 21, is the big day for the picture taking of your youngsters! The CARROLL RECORD is having pictures taken of all children who are brought by their parents or other guardian to the Council Room (City Office) Taneytown, between 10:00 A. M. and 6:00 P. M. absolutely free of charge.

The RECORD wants a picture of your child to print in its forthcoming feature, "Citizens of Tomorrow," a series of photographic studies of local children. Children who have been photographed for this feature in previous years are especially invited to return, so that we may see how they have changed. The more we get the better the feature will be, so the cooperation of the mothers and fathers is urged.

It often seems to parents that children are little one minute and are grown up the next, so fast does a child's growing stage pass. Here is a splendid opportunity to catch a likeness of your child or children at the present stage for the pleasure you will enjoy in seeing it in print. You will want to clip it from this, your home town newspaper, and preserve it for the youngster when he or she grows up.

There is absolutely no charge or obligation for taking the pictures. Parents don't even have to be a subscriber to the RECORD nor even a reader. You do not have to purchase pictures either, though you may obtain additional prints by arranging direct with the Studio representative if you want them. This is entirely up to you! No appointment is necessary. There is no age limit.

If you wish to make an appointment, phone MRS. HELEN McNAIR at 756-4401. You may come at any time during Studio hours. All children must be accompanied by a parent or guardian. Photography will be handled by the Dansville, New York office of Woltz Studios of Des Moines.

PLANS MADE FOR ORGANIZING SCHOOL BOARD NOMINATING FEDERATION

The Carroll County Council P.T.A. is the coordinating agent for the Carroll County School Board Nominating Federation. Information and a set of proposed laws has been mailed by P.T.A. Council to all the known civic and service organizations in Carroll County. The Carroll County Council P.T.A. is coordinating this proposal only until the Federation is organized.

The Planning Convention for the Federation will be held on Tuesday, March 7, 8:00 P. M. at the Westminster Junior High School. Each organization may send two voting delegates to this meeting. A delegate must present a credential card signed by the president of the organization which he represents. Each organization may place a candidate's name for consideration to the convention. The name of the nominee must be submitted to Mr. Jack Sterling, Pinksburg by March 6.

Information sheets, delegates' cards, candidate forms, proposed by-laws were mailed to organizations (care of presidents wherever known) this week. This method of submitting nominations to the Governor for the school board appointment can be effective only if all organizations cooperate. Enough interest has already been expressed throughout the county for the organization of a School Board Nominating Federation for this county. For this to become a reality immediate action on the part of the organizations in the county is urged.

You can walk a rail easier if you don't look down . . . in fact, you can do anything easier if you keep looking up.

VIEW FROM MY KITCHEN WINDOW

In typical February fashion, a raging blizzard pounces upon us, and the wind whips the snow across the country-side as if demon-possessed. Drifts are piled up everywhere, for this particular snow is light and feathery, and the wind tosses it around at will. When I step outside to get an armload of wood, I meet the full force of the elements, and I beat a hasty retreat back to the kitchen, where faithful Hercules casts his warm and comforting glow, and where the electric percolator winks at me with a red eye, indicating that a fresh batch of coffee is ready. There is nothing more satisfying on a blustery winter day than a steaming cup of this stimulating brew. Incidentally, I like mine strong with cream and two teaspoons of sugar.

As I sip my coffee, I take a look at the bird-feeder, and note that it is completely empty. This will never do, so I struggle back into my coat and take cracked corn and sunflower seed to my little feathered friends, who have a difficult time indeed finding food in this kind of weather.

As the snow pelts against the window and the wind cries down the chimney, I think of the Bible verse found in Psalm 147: "He giveth snow like wool: He scattereth the hoarfrost like ashes. He casteth forth His ice like morsels: who can stand before His cold?"

—Zola Cantwell

About exhausted is one natural resource — Which of America's natural resources will be the first to become exhausted? Answer: America's average taxpayer!

"SPICE 'N' EVERYTHING NICE" (Your Chatty Column)

With all my heart, I wish you every morning. A smile that shall last until the next day's dawning. I wish you health—life's greatest wealth; I wish you always near so that I may help to cheer. Each future day and in some way—help to bring you happiness!

Like that song, "Every Body's Doin' It Now!" for everyone was right there at the Armory for the 13th Annual Boat Show and the ladies are becoming more enthusiastic each year. It was all in White and Gold and more than 200 boats were displayed! Sail boats seemed to be most prominent this year as though there were more in the picture for the prospective buyers. It was truly a beautiful sight and hope you did not miss it for this year was the first time that it was longer than a week's showing!

Now, here's to the Teen-ager. . . . That saying of "Drop-Out" sounds bad! You will be sorry in years to come if that happens to you and I think you know just what I mean!

Betcha, there were thousands looking in on TV at "The Hollywood Palace Show" on Saturday evening when they really did get a surprise when Jack Benny for the very first time made his debut not alone as Guest Host but when he performed so beautifully on his violin with a serious selection with his teacher for the past two years, Concert Violinist, Grace Chappell. The audience was thrilled and the applause was out of this world!

And thinking of TV, that old and interesting story by Susan Hayward, "Back Street" with Susan Hayward and John Gavin as the STARS were beautiful. The acting was perfect! This actor resembles Lynda Johnson's beau with the exception that he is much taller.

Woolworth's on Lexington St. will not be open until Spring but it sure will be a brand new store from the floor up—as I took a good look yesterday.

If you want to serve a delightful Punch and quite different here it is. . . . "Cranberry Milk Punch" is refreshing and nutritious. Combine 2 cups each of chilled cranberry-apple drink and liquid skimmed milk with 2 tablespoons of maple syrup, one teaspoon of ground nutmeg and 2½ teaspoon of orange extract. Beat to blend well, divide among 4 glasses, add one to two ice cubes to each glass and garnish with cinnamon sticks and twists of orange peel. Of course increase for your number of guests.

If you have a youngster in your home who is talented for the organ don't wait until a later date for now is the right time for those lessons. The "Hammond Organ" is my favorite and never gets out of tune. The Hammond Organ Co. on N. Howard St., near Center is tops for their service when you purchase that organ from them. Even a year later, they call to make inquiries as to the organ. That is the way it should be and they bear a beautiful reputation.

Now, here is the February "Farmer's Almanac" . . . Just the stuff skii buffs luff. Eat that steak up by the lake. These snows a fine Summer foreshows. Not rowdy or cloudy. Fires crackle, hens cackle. Cherry pie's in the P. M. sky. Wheeler dealer, barn door sealer!

If you want to read a most interesting book (Price one dollar) entitled, "JEWEL, GOD AND HISTORY" by a non Jew—Max I. Dimont, you will learn much.

AY

will learn much. All department stores are selling it.

Now, here is for the grand sign of "P I S C E S" those born from February 20 to March 20, inclusive. The 20th of the month is a dividing sign which means if born on that date, you have characteristics of both signs.

Jupiter and Neptune are the planets which rule the sign of Pisces. These people are ambitious, efficient and can endure much with a pronounced desire to excel in whatever they may undertake. These people are the most modest of all signs and the most truthful. They are very strong and healthy and at times may have trouble with their feet which means they should always purchase the finest type of shoe. They display much skill in art and music. They have lofty ideals and are faithful and sincere. They are particularly clean-minded and have no place in their hearts for anything that savors of impurity, vulgarity or coarseness! They have strong likes and dislikes and are not always careful to conceal them. One big fault is at times they may be abrupt or sarcastic and this they can easily overcome by hesitating with any remark that would hurt another's feelings. They admire intellect at all times. So much, more to Pisces which would fill pages.

Have a grand week-end, folks and if the weather is bad, go to your nearest neighborhood church. Until next week D.V.

I am,

Faithfully yours,

Irene deLeon Love.

WHO NEEDS WHAT?

We were visiting a small city on our East coast some time ago, and in the window of a rather substantial retail store we saw the following thought-provoking sign: "This store does not advertise. This savings goes to my customers. The newspaper owners have big houses and yachts. They don't need my money."

That challenging prose set us to thinking, first off, trying to recall how many newspaper publishers we know/who go down to the sea in yachts. Offhand, nary a one came to mind. One or two that we know have big houses to hold big families and mortgages equally big. But hardly any yachts.

That last line of the sign was the most interesting: "They don't need my money."

This kind of inverted thinking crops up sometimes—the notion that advertising is a form of personal charity, that those poor starving devils down at the paper always have the lights on and are forever pecking a typewriter, or running some machine or other, or hauling papers to the postoffice, or sweeping out, and hence fall into some category such as the Salvation Army, the Red Cross or the United Fund. And for the same reason.

Well, things do get tough all over now and then, but they're never so desperate that anyone should advertise because he considers it a form of philanthropy.

That, you may be sure, is not the reason that the giants of American industry spend millions of dollars every year in advertising. The only need involved, as they see it, is theirs. These big and successful companies are not philanthropic agencies. When they spend money they insist on getting a good return for it. And they know that they get it through newspaper advertising.

That fellow with that ridiculous sign in his window may learn that too — if he stays in business long enough.

Somehow we just doubt that he will survive that long unless, of course, he is enjoying some source of income that doesn't show. Like some family philanthropy, maybe?

GRASSROOTS OPINIONS

SELMA, ALA., TIMES-JOURNAL: "If you had an old busteroo of a day on the job, it might soothe things if you compared our system with the way the Russians handle employment. Propagandists claim there's no unemployment, of course, and also boast that for the past 10 years workers have had the freedom of quitting by giving two-weeks' notice. Under the surface, these claims prove not quite true. . . . A jobless worker can be arrested as a 'parasite' and be exiled to remote areas such as Siberia for two to five years if he holds no job, lives on unearned income or engages in a forbidden business. Feel better?"

ATCHISON, KAN., GLOBE: "... if every country now living under communism were to disappear from the face of the earth, the real threat—the idea of utopian prosperity under state capitalism—would still remain. Until the fraudulent, unworkable theory of Marxian economics is thoroughly discredited . . . there will be no permanent protection from the seductive appeal of something-for-nothing. . . . Karl Marx was right about one thing: every functioning economy needs a dictator. But Marx picked the wrong one: government. Free enterprise operates under the right one: the free customer who, by merely refusing to buy, by taking his patronage elsewhere, can discipline any business, large or small, which does not offer what he wants at the right price. This is the proper and democratic place to put power: in the hands of everybody. It . . . needs no supervision except government enforcement of an official code of honesty and fair play."

GARRISON, N. D., INDEPENDENT: "This is the 'enlightened society' . . . a transient methodically kills eight student nurses in Chicago while closer to home an apparently deranged young father assaults a young cerebral palsy victim. Even though we're supposedly an intelligent people, crime is rampant. And probably because of a shift in moral values, gone are the inhibitions that made each of us more responsible a generation ago. Today individual 'freedom' reigns supreme. . . . Defiance of law and order is condoned, even encouraged by high government officials in this country as means of correcting social wrongs."

SOMERSET, KY., COMMON-WEALTH-JOURNAL: "Recent studies here and abroad indicate that the increase in heart disease and cancer among humans in the past 20 years corresponds to similar increases in those diseases among animals. Dr. H. Stunzi of Switzerland, for one, has found a striking increase in lung cancer in dogs and cats."

ELK GROVE, CALIF., CITIZEN: "One tax that completely startled this writer, and it takes some doing to do this, is the so-called 'inheritance tax'. . . . My mother, for example, after working side by side with dad, now has to pay taxes (on which taxes have already been paid) as 'inheritance'. Government officials move in . . . tie up bank accounts, anything they can get their hands on. We call it downright 'thievery'. . . . We aren't saying anything about passing it on to children who have never really earned it, but for husband-wife routine . . . that's robbery as sure as a bank robber comes into your bank!"

CLARK, S. D., COURIER: "The community that aspires greatness and achieves its goal is one where every resident considers himself the head of that community. I am the community in which I choose to live. I am the generating factor for the progress that community makes. I am responsible for the conditions that exist in that community. I surrender that responsibility only when I assume similar responsibilities in another locality where I might elect to make my future home."

NORWALK, CONN., HOUR: "Criticisms of the press in connection with reporting the war in Viet Nam have been refuted by Wes Gallagher, Associated Press general manager. . . . Mr. Gallagher noted that criticism of the press by government rises in direct proportion to the amount of adverse news printed which may not be in line with government policy. Which makes us all grateful for living in America, land of a free press. Government may criticize but it cannot halt the accurate reporting of the news whether it be good or bad for the administration."

CURRENT EVENTS FIFTY YEARS AGO

Zero weather, then a spring-like day with dusty roads, then a day of snow, followed successively this week. Gussie Crabbs has succeeded to the draying business, for years conducted by Thomas M. Clingan, and took charge of the job last week.

The large, three-story brick dwelling on the farm of Wm. J. Reifsnider, in Middleburg district, was destroyed by fire last Saturday afternoon. The tenant on the farm is LeRoy Reifsnider.

Smith-Bowersox. — On Feb. 4, 1917, in Baltimore, Mr. Roger R. Smith, son of Mr. and Mrs. Dennis A. Smith of Wakefield Valley, and Miss Emma Bowersox, daughter of Mr. and Mrs. Franklin Bowersox of Taneytown, were married.

Harney. — The infant son of John T. Lemon died on last Thursday morning of pneumonia. It was buried in the U. B. Cemetery on Friday morning. . . . The epidemic of measles that is going through the country is about over. Very few who did not have them escaped this time. . . . The streams are covered with the heaviest coat of ice that has been on them for some time. The ice measures from 10 to 15 inches.

Keysville. . . . Gordon Stonesifer's neighbors hauled the slate for his new barn on Friday. . . . Gordon Roop of Hagerstown spent Sunday with his parents, Dr. George Roop and wife.

FAIRVIEW

Well, fastnact day has passed on. I hope no one ate too many and got the tummy ache. I made a small batch, but not the yeast kind—but the grandchildren loved them. It makes me feel so good when they come from school and shout out, "Granny can I have a doughnut?" A whole week passed again—Tuesday morning and Valentine's Day. This is a great day for all children, especially at school. Some of the children from here carried packs of Valentines to be put in their school room mail boxes. Now today they shall see how many Valentines they will receive. This day is almost like Christmas; the eagerness, the anticipation of receiving just a card or cards as there is at receiving a gift. I would love to hear the many, thank you, thank you, as I am sure will be.

MY SHEPHERD (by Katie V. Hall)

My shepherd is leading, He cares for his sheep,
Beside the still waters close vigil he keeps,
In shady green pasture He guides me to rest;

He knows where fresh pasture and feeding are best
When weakness or sorrow oppresses the soul,
When storms of afflictions like sea billows roll;

Just then He is near me to comfort and cheer,
To lift up my spirit and banish all fear.

His rod and His staff are my comfort and stay,
His table well-spread offers food all the way;
My head with fresh oil He anointeth, I know,

My cup of Salvation with joys overfloweth,
Surely goodness and mercy my way shall pursue

My guide and my Shepherd will bring me safe through,
To dwell in his presence forever and aye,
And bask in his sunlight through unending day.

"Thought and Prayer for Today"

Open my eyes to beauty,
Open my heart to love,
Open my mind to knowledge
Truth that comes from above.

ANNAPOLIS REPORTS

The Legislative tempo has increased considerably during the past week. Although the so-called Tax Reform Bill has not been introduced, members of the Senate Finance and House Ways and Means Committees were briefed on the provisions of the Bill. It is called Tax Reform, but it is simply the largest tax increase ever presented to the Maryland Legislature. The proposed graduated income tax will produce \$120,224,300 above the present State share of \$161,579,100 realized by the present earned income tax of three and five per cent on investment income.

Those who are close to agriculture will be interested in SB 164 which removes from the Board of Regents of the University of Maryland the powers and duties exercised by it as the State Board of Agriculture and creates a separate State Board of Agriculture. In addition, the Bill provides for its members, their powers, duties, compensation, and makes other necessary changes in related laws.

The Bridge picture is now complete with the introduction of SB 196 which authorizes the State Roads Commission to construct a toll bridge facility across the Bay generally parallel to the existing Chesapeake Bay Bridge.

SB 163 would provide for a photographic method for producing a motor vehicle operator's license so that it would contain, in addition to the present information, a picture of the licensee.

SB 197 provides for Nursing Scholarships by authorizing the State to pay a sum of money for the cost of tuition for professional nurses' education in the degree granting institutions of higher learning and the Junior and Community Colleges in the State. In addition, \$500 a year is provided for tuition for professional nurses education in the hospital schools of nursing within the State, and \$250 for tuition for one year of training as licensed practical nurses. All schools must be approved by the State Board of Education and the State Board of Examiners of Nurses. In order to qualify for financial help, need must be determined.

Charles H. Smelser
State Senator
Carroll-Frederick District

Two pieces of proposed legislation that is considered by many knowledgeable people to be two of the most important this year received quite a bit of discussion here this week. The first to be discussed was the question of the constitutionality of the bill that provided for the calling of the Constitutional Convention.

Maryland Law states that no office for profit or trust can be created by an emergency bill. Since this bill was an emergency bill, it will have to be determined whether a delegate to the Constitutional Convention would be considered creation of an office. If it did indeed create an office, then the bill would be unconstitutional. In our opinion, we should proceed with the theory that the bill is constitutional for in the event that it is not, the General Assembly under the present law has the authority to call the Constitutional Convention.

The other issue discussed was the pending legislation centered around Tax Reform for the State of Maryland. We feel it is too early to discuss in detail the over-all merits of the proposed legislation, but we would like to point out a few proposals that have been suggested in a brochure which we received Thursday.

The over-all proposal would provide \$120,000,000 of increased revenue. Ninety-five million of which would go to the Sub-Divisions and twenty-five million retained by the State to meet the needs of the agencies which come under their jurisdiction. Under the present system, there is a real estate tax of fifteen cents. Under this provision, the State would lower it to seven cents.

Two main provisions would provide revenues for education in the areas of school construction, operating expenses and kindergartens. Although kindergartens would not be made mandatory. The money would not be allowed for them if they were not provided by the local sub-division.

The second area that would benefit would be monies to bolster the Police Departments. It is interesting to note that the cost of police protection of Baltimore City is in excess of \$27 per capita. While in Carroll County it is not quite \$15.00.

It is proposed that these increased revenues would be brought about by a graduated Income Tax with a maximum of six per cent going to the State and 1.2 per cent added on by the sub-division which would make for a maximum total of 7.2 per cent. The proposal would also provide for local option of an additional tax which could bring the total to nine per cent.

We realize that this tax proposal will be of great interest to Carroll County and we welcome the opportunity to discuss it with you further if you so wish.

THE WAY I SEE IT . . .

Observations on the World of Sports — John Breth

The PITTSBURGH PIRATES missed winning the National League pennant last year because their pitching broke down in the closing days of the season. The Pirates are busily planning not to let that happen again next season.

To strengthen their pitching corps, the Pirates have obtained fire-balling left-hander Juan Pizarro from the Chicago White Sox and gritty right-hander Dennis Ribant from the New York Mets. Both were acquired at a minimum loss. For Pizarro, Pittsburgh gave the White Sox money. And for Ribant, the Pirates dealt pitcher Don Cardwell and outfielder Don Bosch—neither of whom figured in their 1967 plans—to the Mets.

It had been figured that the Pirates would have to trade one of their front-line players, possibly first baseman Donn Clendenon or outfielder Manny Mota, to obtain a first-class pitcher. But that has not been the case. Instead, the Pirates have strengthened their weakest position without losing much.

In addition to getting Pizarro and Ribant, the Pirates also received infielder Maury Wills from the Los Angeles Dodgers in exchange for infielders Bob Bailey and Gene Michael. Again, it seems like another big gain for the Pirates at no great expense.

Pizarro, a 16-game winner in 1963 and a 19-game winner in 64, has been hampered by injuries the past two seasons. But he reportedly is regaining his old pitching form playing winter baseball in Puerto Rico. And he has expressed enthusiasm that he will be playing at Pittsburgh with his close friend, outfielder Roberto Clemente. Such things can do wonders for a player.

Ribant is neither big nor strong, but he showed last season that he is one of the best young pitchers in the league by winning eleven games and compiling a 3.21 earned run average for the light-hitting Mets. Supported by the slugging Pirates, Ribant could be an even bigger winner next season.

Wills, who was the Dodgers' spark-plug is expected to provide the same inspiration for the Pirates, who lacked a forceful team leader.

Leg injuries apparently have slowed Wills. But with the hard-hitting Pirates, he certainly will not be called upon to steal as many bases as he had to with the Dodgers. Nor will he be asked to cover as much ground in the field. The Pirates plan to use Wills at third base instead of shortstop, where he played with the Dodgers.

Over-all, the acquisitions of Wills, Pizarro and Ribant have to make the Pirates the current winter-book favorites to win the 1967 National League pennant.

At 32 a ball player may be at the peak of his power or he may be so far over the hill as to be out of sight. Which description fits ROGER MARIS, the ex-Yankee, who will play for the St. Louis Cardinals in 1967.

Roger, the all-time home run record holder, will have to fight for a job in the Cardinal lineup. The Cards obtained him recently in a trade with the Yankees, exchanging third baseman Charley Smith for the husky right fielder.

Maris, bothered by a bad knee this past year, hit only 233 for the Yanks. He appeared in 119 games and drilled a mere 13 home runs while finishing with 43 runs batted in.

In 1965, hampered by an injured hand which required surgery, Roger hit 239 with eight homers and 27 RBIs. He got into 46 games that season.

The Cards took a calculated gamble that Roger is recovered from his injuries and will regain his enthusiasm for the game. When he heard about the trade that transferred him from New York to St. Louis, Maris was not enthusiastic.

Maris is not going to have a cinch breaking into the Cardinal lineup. Two of the three St. Louis outfield berths are filled. Curt Flood is a ball hawk in center field and Lou Brock is steady in left field.

That leaves right field open. Maris will have two rivals for the job, incumbent Mike Shannon who hit a serviceable .288 in 1966 and Alex Johnson, up from Tulsa where he clubbed a handsome .355.

Maris may get a boost toward a regular job if Shannon is transferred to third base, left vacant by the departure of Smith. That will lessen the odds against him in right field.

Todays Sport Laugh — After Georgia Tech's football team defeated Clemson early in the season, losing coach Frank Howard was asked to pinpoint the turning point of the game. Howard replied:

"It came three years ago when I didn't recruit any good halfbacks."

SOIL CONSERVATION MEETING

Five members of the Carroll Soil Conservation Board of Supervisors attended the Annual Convention of the National Association of Soil and Water Conservation Districts, according to Robert L. Jones, County Extension Agent and Secretary to the Board.

Attending from the local district were Randall G. Spoerlein, Chairman, New Windsor; Horace S. Brauning, Vice Chairman, Finksburg; Melvin Leppo, Sykesville; Carroll Wilhide, Detroit, along with Mr. Jones.

Secretary of Agriculture Orville L. Freeman, at the opening session, expressed concern over the food needs of the world and the part that conservation must play in meeting these needs in the years ahead.

The meeting held February 5-8 in Cincinnati, Ohio, placed special emphasis on the development of water resources and conservation of water for the exploding population through the watershed development program. Workshops concentrated on forestry, erosion control in urban and rural areas, research and education.

The Carroll Soil Conservation District was organized in 1942 under the provisions of State legislation to give farmers and land owners a responsibility in projecting needed conservation programs. The local District is supported by USDA's Soil Conservation Service, which provides the technical and engineering assistance in carrying out conservation practices in Carroll County.

LEGISLATIVE REPORT

FROM
Annapolis

By **GOODLOE E. BYRON**
 STATE SENATOR
 Carroll-Frederick District

CONSTITUTIONAL CONVENTION DILEMMA

The General Assembly of Maryland is now being faced with conflicting opinions regarding the Constitutional Convention called for in 1967 as a result of the overwhelming voter support of the referendum question which appeared on the ballot in the 1966 primary election last September.

It should be remembered that a "Constitutional Convention Commission" has been working for two years on revisions to Maryland's one hundred year old document. The late William Preston Lane, a former Governor, had been named as Honorary Chairman of the Commission.

Now the General assembly is faced with the duty of carrying out the wishes of the electorate in setting up the necessary machinery for this Constitutional Convention which is to begin its deliberations in September, 1967.

During the past week lengthy hearings have been conducted by the Senate and House Judiciary Committees meeting in public sessions in Annapolis.

Maryland Attorney General Francis Burch has recently raised a question on the possibility that the enabling legislation, enacted in 1966 to begin the re-writing of the constitution, might be, in itself, unconstitutional. Mr. Burch has urged the General

Assembly to seek an advisory opinion from the Maryland Court of Appeals on the basic legality of last year's bills.

Apparently, the controversy revolves around the question of who can be elected as a delegate to the convention.

Some legislators are hoping to provide for an election which would not bar themselves and other public officials from running for the position of "Convention Delegate."

On the other hand, H. Vernon Eny, a noted constitutional lawyer, who is chairman of the Constitution Convention Commission which helped prepare the disputed legislation, disagreed with Attorney General Burch by maintaining that the legislature under the present constitution always has the right to call a constitutional convention at any time. Mr. Eny maintained further that the question of the eligibility of legislators and other public office holders to serve as delegates to the convention would have to be resolved at a later date and should not stand in the way of the legislation now pending before the General Assembly.

Hopefully, the joint Senate and House Committees will be able to resolve the differences of opinion and, whether or not an advisory opinion is obtained from the Court of Appeals of Maryland, move favorably for the passage of the Constitutional enabling bill.

Apples Color Open-House Welcome

Festive-looking gorgeous Red and Golden Delicious apples, easily served on a moment's notice, are the order of the day or evening, as holidays surround us, fireplaces crackle with flames and the custom of open-house is, once again, a happy indulgence. Crisp-shipped in refrigerated cars in time for crackling-juicy holiday eating, the Washington Red and Golden Delicious are the most flavorful of partners for an assortment of favorite cheeses or cheese dips. For example, the Washington Golden Delicious variety (which stays white when sliced) combines its sweet and delicate flavor well with the Roquefort Dip. The Parsley-rolled Cheese Ball, surrounded with unpeeled Red Delicious crescents makes an easily-assembled red, green and white Christmas welcome for guests.

 4 ounces bleu cheese 4 Washington apples**

Blend cottage cheese and bleu cheese until mixture is smooth. Press into a round ball, roll in chopped parsley and chill until ready to serve. Place on platter and surround with slices of cored, unpeeled Washington apples, dipped in lemon juice to keep them white.

Delicious For Raisin Bread Month

California Raisin Advisory Board Photo

Dainty raisin bread sandwiches are very much in the party scene during November, National Raisin Bread Month. Versatile raisin bread takes to many festive shapes — rounds, ribbons, roll ups and cornucopias — and any number of good fillings. Cheddar cheese and deviled egg spreads, chicken and turkey fillings, ripe olive and nut combinations are all delicious with readily available raisin bread, baked daily throughout the month.

RAISINLAND PARTY SANDWICHES

12 slices raisin bread 1 teaspoon prepared mustard
 1/2 cup soft cheddar cheese spread 12 thin slices boiled ham
 1/4 cup soft butter

Trim crusts from raisin bread; flatten slices lightly with rolling pin. Beat cheese, butter and mustard together until smooth. Spread over bread. Lay ham slice on each and roll up as for jelly roll. Place seam-side down in shallow pan. Cover with dampened cloth, then foil. Refrigerate until ready to serve. Each roll may be cut into 1/2-inch slices to make bite-size sandwiches. Makes 1 dozen finger rolls or about 4 dozen bite-size sandwiches.

The Prodigal Father

Lesson for February 19, 1967

Background Scriptures: Luke 15,
Devotional Reading: Psalms 23.

It is commonly called "the Parable of the Prodigal Son," but it is really the father in the story, not the son, who is the real prodigal.

"Prodigal," my dictionary defines as "Wastefully or recklessly extravagant . . . giving or yielding profusely, lavishly." The son was wastefully extravagant in the squandering of his wealth in the far country. Yet this spending compared with the lavish love his father spent upon him.

To man, the love of God cannot help but seem wasteful. As deep as human love may go, men do seem to have limits beyond which their love cannot or will not go. There are some people whom they seem unable to love, some disappointments and hurts that make love appear impossible — for men.

Isn't this what makes Christianity unique? Ask the Hebrew about God and he will speak of covenant law. Ask the Moslem and he will describe a God who demands unquestioning obedience. Ask the philosopher and he will speak in the abstract terms of omnipotence, omniscience, and omnipresence. Ask the Deist and he will describe a disinterested Mobile cosmic Ether who watches his (or more correctly its) creation from afar off. But look at Jesus Christ and what kind of God do we see revealed in him: the loving father whose prodigious grace is greater than our willful sin. Christianity has plumbed the depths of reality in this universe and found at the bottom of it all there is divine, self-giving Love.

Marked "Personal"

Furthermore, it is a personal message. It is not in the nature of a general proclamation tacked to all the world's telephone poles and billboards, nor even one of those envelopes that arrives in the mail addressed: "Occupant, 19 South Main Street." No, the divine communication comes with my name on it, marked "personal." He is not merely the divinity who loves mankind from afar, but the Lord who comes near to me and love ME! There is nothing of the "To whom it may concern . . ." about it, but the relationship of father and son.

What endurance we find in that prodigious love! The son does not wander away from his father's house. He willfully decides to leave, arrogantly asking in advance for his share of the estate his father will leave at death. The broken relationship is all of the son's making. So it is with us: it is not that we do not realize what we are doing, but that we do! Yet, when we have gone to the far country and squandered our free inheritance in desperate rebellion, when at last we have hit rock-bottom, then it is that frequently we "come to ourselves." We suddenly remember the better life in the father's house and realize what we have given up.

Long Road Home

So we start back, no longer as sons, for we have forsaken all right to call him "Father." We return as servants, claiming not the love we spurned, but asking mercy. Yet, as the homeward comes into view, a familiar figure comes running down the road. He has been standing at the gate and scanning the road and he comes to greet us, not as servants as we deserve, but as sons. Ignoring the utter illogic of it all, he wraps us extravagantly in the priceless mantle of his love and we are welcomed once more to the Father's house.

It is we who must "come to ourselves" and begin the long road home, but it is only the Prodigal Father whose love keeps him scanning the horizon for us that makes it possible for us to return as sons.

Health Hints

FLU

WINTER IS FLU TIME! If you should become an unfortunate victim of flu, be sure to stay in bed and get plenty of rest . . . it's essential to help your body fight infection. Also take aspirin to reduce fever and relieve the usual muscular aches. Drink plenty of fluids—except alcoholic beverages—and keep the disease to yourself by avoiding close contact with others.

FOOT TROUBLE

DO YOUR FEET HURT? To help relieve this painful problem, keep your feet clean and dry. Change socks every day . . . and change shoes and socks when they become damp. Finally, walk and stand so that your body weight is evenly supported by your feet. Above all, remember: the best test for shoes is not how they look but how they feel on your feet.

SNOW SHOVELING

MEN, LEAVE THE SNOW shoveling to your wives or a neighborhood boy. That's right! Middle age and older men leading a sedentary office life are in no condition for the exertion required to shovel a walk on a cold, windy day. Either work yourself into condition gradually before attempting to shovel a walk or leave it to someone else. You'll live longer!

MEETING OF BOARD OF EDUCATION

A regular meeting of the Board of Education of Carroll County was held at 9:30 A. M. on Wednesday, Feb. 8, in the County Office Building. President DeVries R. Hering presided and the following members were present: vice president Thomas A. Raver, Mrs. Margaret R. Marsh, Mrs. Virginia Minnick, and Mr. Neal Powell.

Minutes of the meetings held during the month of January were approved and the following contracts, resignations and leaves of absence were approved. Contracts for 1967-68, Janet E. Ober and Dorothy E. Flickinger; Mrs. Norma Barnhart, teacher, Westminster Elementary, 1-23-67; Elaine A. Giles, library clerk, Westminster Jr. High, 2-16-67; and Thomas Alden, custodian, Mt. Airy High, 12-28-66. Resignations: Mrs. Cecile W. Boccutto, Sykesville, 2-28-67; Mrs. Carrollyn Jung, library clerk, Westminster Junior High, 2-16-67. Leave of Absence: Mrs. Loretta Smith, Hampstead, secretary, 2-1-67.

The Board reviewed and continued its position on two matters of policy. Following discussion of the representatives of the senior class of a county high school, the membership voted not to change the policy stipulating that dinner-dances, dances and proms for senior class students should be held on school property. The Board also continued its policy that the names and addresses of pupils, particularly seniors, should be distributed by the school principals only to accredited institutions offering educational opportunities beyond high school.

Discussions of outdoor facilities for physical education at South Carroll High School was an item of the agenda. Following considerable deliberation, the members of the Board voted to provide at this new high school, a football field and a baseball field, as well as an outdoor running track. Other considerations for outdoor physical education facilities for this school were eliminated from further consideration at this time.

The Board was advised that a request had been made from the administration to the County Commissioners for approval at this time of an item in the 1967-68 budget for basic equipment for a football program at South Carroll High School. The request to the Commissioners was made at this time because of the necessity of placing orders for equipment and of making arrangements for placing under contract physical education instructional personnel. The Board was advised that the County Commissioners had replied negatively to granting such a request, stating that prior approval for such an item would not be given with the Commissioners' desire being to examine the entire proposed budget before making any commitments. The Board of Education had previously voted to implement football at South Carroll in 1967-68 and in other then-existing high schools in 1968-69. Money for other equipment at South Carroll High School was previously budgeted for use during the current school year.

Requests from two county municipalities for Board action in property purchase were subjects for discussion. The members voted against participating with the municipality of Manchester in sharing the cost of purchase of a house and lot to the north of the entrance to Manchester Elementary School. The Board considered the construction of a semi-circular driveway in front of this school in an effort to eliminate traffic and safety problems. The Board

membership voted to continue a standing offer for the purchase of a property in the Mt. Airy municipality, the purchase of which had been recommended by the Mt. Airy Planning and Zoning Commission.

A tentative calendar for the 1967-68 school year was submitted to the Board. The Board approved the tentative calendar with the understanding that modifications would be submitted for the March meeting. The Superintendent reported to the Board on the Fair Labor Standards Act. He stated that, although this act had been law as of February 1, the State of Maryland had secured postponement until February 15 to contest legally the constitutionality of the act. The school system from February 1 continues to keep accurate records of work time for non-professional personnel in order to make full compliance with any forthcoming decisions regarding the act. At the present time no non-professional Board employees are below the minimum wage requirements.

A report was made on the continuance within the county of studies being made for improvement of curriculum, with regard to individual schools as well as the entire system. At the present time staff members are studying various areas of the curriculum and a proposal is being written for a complete curriculum evaluation survey in cooperation with the State Department of Education and the College of Education, University of Maryland.

The matter of school administration was reported. On the recommendation of the Superintendent, the Board approved the transfer of Mr. Ned Musser from the principalship of the Francis Scott Key High School to the central office to be assigned administrative duties, particularly in federal programs. At the same time the Board approved the appointment of Mr. Louis V. Beard as Acting Principal of Key from February 1 to July 1, 1967. Approval was also given to the assignment of general administrative duties at Key to Mr. Jacques Baker and Mr. Thomas Dubel for the period February 1 to July 1, 1967.

The Board met with representatives of the Carroll County Elementary and Secondary Principals' Association, and the Carroll County Teachers' Association. Discussion of the requests for salary raises and changes in index systems of the salary schedules followed. The Board then considered the current expenses budget, following a number of previous study sessions, and approved a budget to be sent to the Board of County Commissioners. The membership reduced the work budget by a sum of approximately \$320,000.00, the major reduction being in the area of Instructional Services. The Board members included in the current expenses budget a \$5800.00 base for teachers holding Standard Professional certificates.

Following the extended discussion of the current expense budget, the Board considered the capital improvements budget and approved for submission to the County Commissioners. This budget includes funds for the purchase of the land needed to 1980, funds for the planning and beginning of construction of buildings in the next fiscal year, and funds for renovations to seven existing school facilities within the county during the next fiscal year.

Adjournment was at 3:30 P. M.

DON WILSON REJOINS WFMD

A native western Marylander returned to the local entertainment scene this past week when Don Wilson rejoined the staff of Radio Station WFMD. Don had been an announcer of WFMD's FM outlet in the past, but, had departed the Frederick area for a different and expanded job with a radio station in Virginia.

At this station, WNNT in Warsaw, Va., down near the Rappahannock River, he made a significant impact on the popular music of the area with one of the most popular Rock 'N' Roll radio shows in Virginia. With the change of format that is taking place on both WFMD AM and WFMD FM, Don appears to be a natural choice to take over the Rock and Roll music broadcasts that can be heard each night over WFMD.

Friendly, gregarious and imbued with a firm determination to present the best in contemporary popular music for a young audience, Don dedicates many hours to the preparation of his show, making certain that he has all of the latest records, that he is fortified with complete background information of all the stars he features, and that he has the whole production tied down into a neat, compact, fast-moving show. He is quite interested in the promotion of high school activities and plans to make the facilities of his radio show time available to the interested students for sports info, their latest pick for musical hits, advertising school activities and events, and in tying his broadcasts to the younger generation that listen to WFMD.

A native of Cumberland, Don attended Fort Hill High School. After graduation, he enlisted in the United States Marine Corps and served with the Armed Forces Radio Service. Following his release from active duty, he returned to Cumberland where he became a radio personality over Radio Station WTBO.

At this time, Don was also the regional vice president of the National Disc Jockey Association, charged with handling grievances of other DJ's in the West Virginia, Pennsylvania and Western Maryland area.

Don is married to a Frederick girl, the former Ann Newman, and will be making his home in Frederick.

Well known in the central and western parts of Maryland because of his past associations with radio, Don brings a fresh and knowledgeable approach to Rock and Roll music to this area. He will be broadcasting from 7:30 each evening, Monday through Saturday, and will feature the very latest hits and stars in the popular music world. In addition, Don will interview the various personalities that make appearances throughout the county and will air these conversations for his listeners.

One must be poor to know the luxury of giving.—George Eliot.

Peachy Prune Torte...It's Elegant!

Our favorite dessert recipe, passed from mother to daughter for several generations, is this delicious Peachy Prune Torte.

This torte is one that will take some time to prepare, but it's worth every minute. There are twelve—count 'em—layers of crispy rich, cookie-like rounds, filled with a blend of finely-chopped canned pie filling and cooked prunes, folded into sherry-flavored whipped topping. The final frosting that crowns the torte is zesty with lemon; layer by layer, just as elegant-tasting as it sounds.

Peachy Prune Torte

Layers:

- | | |
|---------------------------|---------------------------------|
| 1 cup butter or margarine | 2 teaspoons vanilla extract |
| 1 1/2 cups sugar | 5 cups sifted all-purpose flour |
| 3 eggs | |
| 1/4 cup evaporated milk | 1 tablespoon baking powder |
| 1/4 cup water | 1/2 teaspoon salt |

Layers: Cream butter and sugar; beat in eggs, one at a time. Add milk and vanilla. Sift dry ingredients together; add gradually to butter mixture, blending well after each addition. Refrigerate dough until well-chilled. Cut 12 9-inch circles from heavy aluminum foil. Divide dough into 12 small balls; keep in refrigerator until ready to roll. Place each ball in center of foil circle; roll to cover foil circle, trimming edges if necessary. Place on ungreased baking sheet and bake at 375 degrees for 5 to 7 minutes. Cool; peel foil from cookies.

Filling:

- | | |
|---|--|
| 2 cups California prunes, cooked and pitted | 1 teaspoon nutmeg |
| 1 No. 2 can (2 cups) peach pie filling | 1 4-oz. package dessert topping, whipped |

Filling: Reserve 2 or 3 prunes and a few slices of peaches from pie filling for garnish. Put remainder in blender (or finely chop) with sherry and nutmeg. Blend until fruit is pureed. Fold pureed fruit into whipped cream; chill. Place 1 cookie on cake plate; spread with 1/2 cup filling. Repeat with remaining cookies and filling, leaving the top cookie plain. Refrigerate.

Frosting: Spread top cookie with lemon-flavored confectioners' sugar frosting. Garnish with peach slices, prunes and grated lemon peel. Refrigerate 'til serving time. Serves 12.

IT'S A FACT!

WINTER ILLNESS

During the winter illness season in Japan, people can often be seen in the streets and on buses and trains, wearing a gauze face mask, to prevent their inhaling infectious germs and viruses.

In 1949 an "influenza alert system" was begun by the World Health Organization with "watch stations" all over the world. Medical researchers identify new flu-causing viruses so that the right vaccine will be ready if an epidemic threatens.

Conscientious homemakers seek to control the incidence of germs in the home and help prevent the spread of infectious illnesses by cleaning with Lysol Liquid Disinfectant. In bathroom, kitchen, laundry, nursery and sickroom—it kills disease-spreading germs.
