SIGNS OF THE SEASON IN THE COUNTRY

A wedge of wild geese heralding Spring in their own inimitable fashion.

The first Blue Bird, carrying, in the words of Henry David Thoreau, "a piece of the sky on its back."

Four deer, browsing in the neighborly field.

Mud and more mud, causing additional house-keeping problems.

The merry stream, romping down the hill.

Daffodils sending forth sturdy green spears.

Sprigs of grass adding a touch of color to the country side.

Red-winged blackbirds sounding their familiar "O-ka-lee."

Longer hours of day-light, letting us know for sure that Winter is definitely on the wane.

MEETING OF BOARD OF EDUCATION

A regular meeting of the Board of Education of Carroll County was held in the County Office Building, Westminster, at 9:30 A. M. Wednesday, March 8, with the following members present: President DeVries R. Hering, Vice President Thomas A. Raver, Mrs. Margaret R. Marsh, Mrs. Virginia Minnick, and Mr. Neal Powell. President DeVries R. Hering presided.

Minutes of the previous meetings held in January were approved and the financial statement of expenditures for January was also approved.

Contracts were approved for the following teachers for assignment to positions during the remainder of the current year: Mrs. Mary Johnson, Mrs. Patricia Clark, Mrs. Jacqueline Hering, Mr. James Gerwig; and for assignment in September, 1967: Amelia R. Hamilton, James F. Myers, Irene V. Myers, Virginia B. Norwood, and Amy B. Shipley. Resignations of James Angelo and Marilyn Crawford were accepted.

Board members received information on the enrollment of pupils in all county schools. The recommendation of the Superintendent concerning pupil transfers for the school year 1967-68 were approved. Pupils to be transferred are being moved for the reasons of overcrowding in specific schools as well as the opportunity to participate in different educational programs of benefit in the schools to which they are transferred.

Pupils of grades 5 and 6, 1967-68, of the Freedom District Elementary School will be transferred to Sykesville elementary and middle schools. Pupils of Winfield Elementary School, grade 6, 1967-68, will be transferred primarily to Mt. Airy middle school, with a small number attending Sykesville middle school. Pupils in specified locations in the southern end of the attendance area of the Westminster Jr. and Sr. High Schools will be transferred to the new South Carroll High School.

The Superintendent explained to the Board prior to their accepting the recommendation that he had thoroughly studied the transfer projections, had met on a number of occasions with parent groups at Freedom District and Winfield, had met with the pupils in the Westminster Schools, and had provided written communications to all principals and to the parents of the pupils in the Westminster Schools.

Mr. Frank Getty, Manchester Mayor; Mr. Charles Fisher, City of Manchester Attorney; Mr. Ray Riley, and Mrs. Elizabeth Perego, principal, Manchester School, discussed with the Board their desire that the Board of Education participate in the purchase of a lot immediately to the northeast of the present entrance to the school. In the discussion, there came the understanding that the northeast portion of the lot would be a desirable thoroughfare for entrance and exit under the jurisdiction of the City of Manchester. That portion of the lot purchased by the Board would be for Board use for parking space. The present driveway would be used by school traffic, only, for exit. The Board later in the day in open session voted to act favorably in this participation, provided that the Superintendent and Board member, Mr. Thomas Raver, after meeting with Manchester officials, would come to a satisfactory agreement concerning the details of the Board's use of that portion of the land that it would purchase.

Mr. John Divens, Carroll County Roads Department, discussed with the Board some possibilities for the inclusion of school entrances, driveways, and roads, into the county roads system for maintenance purposes. A complete study of the situation was not yet available. It was agreed that Mr. Divens would return in the April Board meeting to inform the members of all possibilities of the situation.

The Superintendent reported to the Board on a number of items. The Capital Improvements and Current Expenditures Budgets were properly submitted to the County Commissioners. There has been no reply to this point from the Commissioners concerning the budgets.

The policy for excess sick days for professional personnel was reviewed. It was noted that further study of this policy in cooperation with the State Department of Education is being conducted.

The Citizens Advisory Committee on Public School Health Matters has been meeting with Mr. Herbert E. Ruby, Supervisor of Health and Physical Education, as the central office representative. In the April meeting the Board will hear a report from Mr. Ruby on the work of this committee. There was approved a list of additional members for this committee, replacing some resignations from the last school year.

The report on the South Carroll Senior High School indicated that in the total contract ninety-two percent of the work is completed.

Members heard a summarization of legislation affecting education currently under consideration by the State Legislature.

Mr. L. Pearce Bowles, Board Attorney, reported to the Board on the legal responsibilities of the Board in the event that a municipality or organization should place playground equipment on school property.

The Board committee to study insurance, composed of Mr. Thomas A. Raver, Board member; Dr. Charles I. Ecker, Assistant Superintendent of Schools, and Mr. Louis A. Dollenger, Assistant in Purchasing, made recommendations to the Board concerning insurance on public school system property. This committee was directed to continue its work. The Board voted favorably to place on bid in-

"SPICE 'N' EVERYTHING NICE" (Your Chatty Column)

With all my heart, I wish you every morning
A smile that shall last until the next day's dawning.
I wish you health—life's greatest wealth;
I wish you always near so that I may help to cheer
Each future day and in some way—help to bring you happiness!

If you have one of the following names, you truly are a real Carroll Countian, all the way back for 200 years and you can be most proud: Bishop, Angel, Bankard, Gist, Crowse, Zepp, Crierman, Shriver, Mathias, Lovell, Carroll, Wentz (Wantz), Shellman, Owings, Scott, LeCompte, Hayden, Dow, Neal, Crout, Wincheste, Yingling, Baumgartner, Chamberlain and many others and that from the old 200-year-old booklet of "Two Hundred Years Ago!" There was a Priest who resided in Taneytown and for 40 years he served the country, all in Carroll County—Father Zocchi, a French Priest.

There was a Methodist minister, Lorenzo Dow who held a great Revival in Westminster in The Meeting House for all Denominations. Well, folks if you read that little booklet (purchased from the Westminster Historical House) you will say as I have said many times, "I would have loved living then!" That was a time when real love existed for your neighbor and all surrounding! When kindness was shown to everyone!

Calling the Chamber of Commerce of Westminster and Taneytown . . . There is a Tomb Stone in the cemetery which dates back to 1707 and the name and inscription are obliterated but there is a way or method—that wonderful Mathias Co. in Westminster may be able to revive it. That would be something to talk about. Eh? It may be of Lorenzo Dow and the many Methodists who read this Column may be interested about such a wonderful man of God and something should be done about that. What say you?

What a surprise I had on Saturday! A friend of mine who won a hat at the "Ad Hatter's Ball," presented it to me because I can wear large hats and the tag read the LITTLE price of \$45.00 and it came from Mitchell's on Howard Street. Nice? A summer affair—hand-made and burnt straw with colorful flowers around the brim.

Ladies, the color for "undies" this Summer is "Lemon Ice!"

Mrs. Housewife, always add one package of frozen peas to your vegetable soup when it is almost finished cooking and it then will appear like a picture of the soup in the magazines!

How sad it was to learn of the passing of dear Nelson Eddy whom everyone loved! He not alone was a singer but a wonderful actor, handsome face, wonderful physique, excellent personality and much else. No one could ever compare with him today! When I wrote this to him last year in August for his birthday, (Leo), I was so surprised to receive a large photograph of himself!

And just the other day a beautiful letter arrived from Sir Kenneth Clark from Piccadilly, London!

Hope you and you did not miss the "Mark Twain" 90-minute one-man show last Monday night over CBS—TV, by the wonderful actor, the 41-year-old Holbrook. Never have I known a hour and a half to go by so quickly! Holbrook took the part splendidly of Twain at the age of 70 years. A few years back, I visited the old home of Mark Twain in Hannibal, Missouri where a small admission was charged. It was a little frame house with several in a row and the pavement was a brick affair.

Now, here is to the "AIRES" individual, those born from March 20 to April 20 inclusive. Mars is the ruling planet which gives to it's subjects extraordinary character. First of all, they are noted for their executive ability, as they always demand to be in the lead. They are head-strong and inclined to be very jealous, which they must learn to overcome, as they can make their lives miserable and all around them unhappy if they do not fight this demon of jealousy! They are generally considered wealthier than they really are for there is no finer dresser, both male and female. (This gives them a commanding appearance at all times.) Their taste is elegant. This sign ruling over the brain, the intellectual development is sometimes phenomenally great, they are deep thinkers and possess marked literary ability and as a rule are brilliant conversationalists. They have much wit and charm and attract others to them! If you have a little cherub in your house who is "Aries" born, be sure and guide him so as he does not go from one position to another.

Have a grand week-end, folks. Be careful when you drive. Enjoyed my visit around the town and hope to be seeing you D.V. in the merry month of May.

I am,
Faithfully yours,
Irene deLeon Love.

HAPPY BIRTHDAY!

For those who are about to throw in the sponge and join the cynics who see little hope for the future, the week of March 12 to 18 may come as a reminder that youth, hope and high ideals are ever-present. These seven March days are officially designated as Girl Scout Week.

The theme of the Girl Scouts' 55th birthday is: "Values to Hold—Worlds to Explore." The values are still those instilled by the founder of the Girl Scouts, Juliette Gordon Low. The young ladies of the Scouts now, as then, represent the highest ideals of character, conduct, patriotism and service. The worlds they explore involve the home, community, nation, other cultures and other lands.

In this day when skepticism and materialism are rampant and many young people are rebelling against restraint of any kind, the importance of such organizations as the Girl Scouts takes on a new meaning. The three million Girl Scouts represents a mighty force among American youth—a constructive force that may come up with some meaningful answers to today's problems for all young people.

The Girl Scouts and Girl Scout Week deserve the unqualified endorsement and support of every adult U.S. citizen.

GRASSROOTS OPINIONS

EVERETT, WASH., HERALD:

"Here's how Social Security payroll taxes have grown through the years: From 1937 through 1949 the maximum yearly tax one each employee and employer was \$30. . . . But the annual maximum has climbed rapidly . . . to . . . \$277.20 in 1966. It's jumped \$13.20 since Jan. 1 to the present \$290.40. Wonder where it will stop? These scheduled tax increases do not include liberalizations that may be voted this year. Bigger Social Security benefits will be proposed by President Johnson, he says. This would require a further boost in payroll taxes beginning probably in 1968."

MADISON, WISC., REPORTER:

"An area which continues to grow increasingly confusing is that of consumer prices. It has been generally interpreted by some people that any time two or more producers of a product happen to put the same price on their product at retail they are almost guilty of collusion, price fixing and other wicked deeds. Yet, there have recently been appearing survey results of retail outlets which indicate that there are differences in prices of products from store to store or area to area. These inconsistencies have been played up to the public as an indication of mismanagement, excess profit taking, and other wicked deeds."

HIGHLANDS, N. J., STAR: "The 90th session of Congress, now underway, will be faced with still more demands for increased spending even though the last Congress passed scores of new laws that add up to high budgets and bigger government. . . . It is up to grassroots America to urge the members of Congress to practice fiscal restraint and to cut Federal spending. This is one positive way to squelch the fires of inflation—and to make sure that each spending dollar goes further."

DALLAS, ORE., OBSERVER: "We

see that the U. S. Supreme Court over-ruled a New York state law barring Communists from teaching in state colleges and universities. In the decision (5 to 4) the Court said the rule was a violation of the rights of the individual. Unless we're mistaken a Communist, by definition, advocates the overthrow of our gov-

ernment. At what point does national security become more important than individual rights?"

SANTA PAULA, CALIF., CHRONICLE: "The President can halt strikes against the public interest for a cooling-off period while strikers and management reconsider their situation and, hopefully, reach a meeting of minds. But this law is applied usually to strikes that impede the economy, or deprive large areas of transportation that might choke off supplies and put masses of people at the mercy of the strikers. But what about local strikes that sometimes are just as mean for a much smaller but as helpless a group of people? . . . The law halting strikes against the public interest should be extended to the states to enable governors to halt them when they are obviously causing distress to innocent third parties."

PAINTSVILLE, KY., HERALD: "We have finally determined just what the Postal Service had in mind when it introduced the much-heralded Zip Code procedure. By providing all of us with numbers, our mail delivery is to be speeded. All the various post offices have to do is look at the number and zip. . . . Of course, there is a little problem that it costs a small paper a small fortune to set up the procedure. And then, too, it only takes about twice as long to get the papers ready to mail, so that if you work very hard you might be lucky enough to get them into the mail in time for that zip code process. . . . Ah, progress."

FAULKTON, S. D., RECORD: "There is a gimmick to everything the government does, it seems. Now it develops that if we don't deny our citizens use of billboards we won't get our share of that particular chunk of money that we sent down to Washington. More and more we are beginning to realize that doing things

at the local level is cheaper because it's a lot less wasteful and there are fewer hands in the kitty."

EL DORADO, KANS., TIMES: "United States refineries will spend over \$45 million for pollution control in 1967, according to a survey made by the Petro/Chem Engineer, of Dallas. . . . When refineries are willing to spend the large sum of \$45 million in 1967 to pinch off all possibility of pollution by their plants, it is evident that they are sincere in their purpose."

MOST PIGS HAVE WORMS...

Purina Liquid Pig Wormer gets 'em!

Pigs are likely to have worms. You can't always be sure what kind, but two things are certain: (1) large roundworms and nodular worms do the most damage, (2) and Purina Liquid Pig Wormer gets them both.

Liquid Pig Wormer is the safest pig wormer known... mixed with drinking water, it can be given to your pigs without taking them off feed or water... no starvation period or changes in feeding programs required.

Purina Liquid Pig Wormer costs just 2 to 3 cents per treatment for a 40-pound pig. Compared with the high cost of neglecting wormy pigs, a sound worming program is a wise business investment. See us today. We have Purina Liquid Pig Wormer in quarts and gallons.

You really can't blame Mr. Smith if he gets a quick mental picture of Mrs. Smith every time he sees a telephone.

Not that she looks one little bit like a phone, even in curlers. It's just that she's on the line so much, running her home, getting things done.

For example, rainy day shopping's a snap with the phone. So is fixing a flat tire. Or arranging a night out with family friends. Or making an appointment with the doctor, dentist or hairdresser. Or keeping in touch with Aunt Martha and her arthritis back home. Fact is, if it can't be done by phone, it can hardly be done.

So whatever you need, whomever you miss, across the street, the state, or the country, take a tip from Mrs. Smith—

Just pick up the phone.

No question about it. For staying close to people, for getting things done or making them a bit more fun, it's hard to beat the phone.

And the satisfaction we get from providing a service that does so much for people makes our job hard to beat.

To Mr. Smith, this is Mrs. Smith

"Easter Reverie"

(by Winnie Lois Smith)

Just what did Easter mean to Him,
The Son of God that day;
When the heavenly angel came
And rolled the stone away.
When He looked out upon the world
That He had died to save;
The Resurrection and the life
Beside an empty grave.
And knew that ne'er again would He
Beneath a cross be browed;
Endure the pain of Calvary,
The mocking of the crowd?
The last mountain He had climbed
The last debt He had paid;
Never again would he within
The darkened tomb be laid.
What wondrous joy He must have felt
To know His work was done;
While waiting at that empty tomb
For His loved ones to come!
They had forsaken and denied
But He would not condemn;
Had He not brought them with a price?
Had He not died for them?
And now His dear ones would be safe
For He had made the way;
For all who put their trust in Him
To dwell with Him some day.
We cannot fully understand
His joy, but this we know;
That if we trust His precious blood
And walk with Him below,
Some day our tomb will empty be
And we with Him shall sing;
"Oh, grave, where is thy victory?"
"Oh, death, where is thy sting?"
The above is a little early for Easter but thought perhaps someone else would like to put their message in for Easter. I liked this poem very much and I thought you to might enjoy it, especially those who are shut-in. God bless you 'till we meet again.

—Mrs. L. J. Frock.

IN MEMORIAM

In loving memory of MILDRED SHRINER HARTSOCK, who passed away March 18, 1965.

The world may change from year to year
And friends from day to day
But never will the one we loved
From memory pass away.

A silent thought, a secret tear
Keeps her memory ever dear
Time takes away the edge of grief
But memory turns back every leaf.

MOTHER, DAD AND SISTER

HUMANE SOCIETY NEEDS YOUR DONATION

This is a reminder to every person who has not yet contributed to the Humane Society's drive for funds to enlarge and renovate the Shelter. Your donation, large or small, is desperately needed. Here is a rundown of the number of donations from various sections of the County. Are you one of these contributors? Are you proud of your area?

Westminster 67, Sykesville 28, New Windsor 13, Finksburg 11, Taneytown 10, Hampstead 8, Mt. Airy 5, Union Bridge 4, Uniontown 4, Manchester 3, Upperco 2, Millers 2, Linwood 1, Union Mills 1.

Certainly Carroll Countians can do better than this. A flood of small donations could really put this drive over the top. Here is an example of the need for more space at the Shelter, a typical monthly report:

Animals taken in, 377. Dogs, 128, 25 were adopted, 2 were returned to owners; cats, 249, 4 were adopted.

Since there are only seven runways for dogs, at present, and no special facilities for cats except some cages, many dogs and cats have to be denied the possible chance for adoption. Doesn't this help to make clear how much every donation is needed? Will your conscience really let you refuse to help? Send YOUR contribution now to the Carroll County Humane Society, Box 391, Westminster, Maryland 21157.

ANNAPOLIS REPORTS

Senatorial Scholarships A number of Scholarship Bills have been discussed this past week and are continuing to be studied by the Senate Finance Committee. At present, the Senatorial Scholarships, as awarded by the respective Senators, are either tuition only or full (tuition plus room and board) scholarships. Since some changes will definitely be made in the scholarship program, and will be effective for the 1967-68 school year, no scholarships will be awarded until after the present session of the Legislature has adjourned.

Due to reapportionment of the Senate from 29 to 43 members, it will be necessary to increase the number of scholarships to provide for this increase. At this writing, there is a good possibility that the full scholarship award will be replaced by a maximum amount awarded to those students qualifying. With the various programs of financial assistance now available to students, it was felt that more scholarships could be awarded, therefore more students helped, if the full scholarships award was replaced with a maximum grant. In order to qualify for these awards, the student must pass a State-wide Competitive Scholarship Examination.

Maryland Arts Council

A great deal of discussion has been generated by SB 115 which provides for a Maryland Arts Council. After much discussion in Committee with only a few Senators voting favorably, it was given an unfavorable report.

It appears that I was given too much credit for its defeat, and although I am flattered, at the same time I realize that I don't exert that much influence on the Finance Committee of the Maryland Senate.

Following this, members of the Committee were contacted and urged to reconsider their positions. It has been reconsidered, voted on favorably in Committee and is now before the Senate. In my opinion, it will pass without difficulty.

With so many mandatory items in the budget which must be provided for and with the largest tax increase ever asked of the taxpayers, I cannot in good conscience ask the majority of the citizens to pay for the setting up of a new department that will benefit only a few.

One of my constituents in opposition to SB 115 wrote the following, quote, "It is my opinion that the time and money needed for this project can be used to better advantage elsewhere in the State's program."

Charles H. Smelser
State Senator
Carroll-Frederick District

House Bill 752 on Credit Life Insurance was one of the most important bills heard in the Banking and Insurance Committee this week. State Insurance Commissioner Polovoy stated that this is the most important bill submitted to the General Assembly by the State Insurance Department of Maryland this session.

Credit life insurance is premiums that borrowers pay to guarantee that loans on everything from cars to hairdryers get paid off if the buyer dies. Commissioner Polovoy claims that over \$2 million annually can be saved Marylanders if this regulatory bill is passed as it will limit rates charged.

The Life Insurance Association of America favors this bill as they think its passage would prevent the federal government from regulating this field.

Credit Life companies are opposed to its passage as they claim it will hamper the small loan companies from providing this insurance as the larger life insurance companies are usually only in the large group field

SPORTS

THE WAY I SEE IT . . .

Observations on the World of Sports — John Breth

Have you ever noticed that a winning team—whether baseball, football or basketball—usually has the best-looking rookies the following year?

The Boston Celtics have done it for years and so have the Green Bay Packers.

This year, the World Champions of baseball, the Baltimore Orioles, have among their rookies a player who wears the label, "Can't Miss." There is no guarantee that goes with that label. But rookies who have worn it have had a high percentage of success.

The Oriole in question is MIKE EPSTEIN, a hard-swinging man who stand 6-4 and weighs 230 pounds. That's fullback size and that's what Mike was at the University of California only a few years ago.

The Orioles signed him in the fall of 1964, which was the start of his junior semester at Cal. He had been an outstanding football player for the Golden Bears, playing fullback on offense and end on defense. But he decided to drop football for baseball.

In 1965, his first year in pro baseball, he played for Baltimore's farm club at Stockton, a member of the Class-A California League. Mike hit .338, clubbed 30 home runs, and drove in 100 runs. He not only was voted Rookie of the Year but also the Most Valuable Player in the league, a rare double.

Last season he was moved to Rochester of the International League, also a Baltimore farm club. He hit .309, with 29 homers and 102 runs-batted-in.

Once again he was named Rookie of the Year and also Most Valuable Player in the International League.

Mike is a first baseman by trade but the Orioles already have a stalwart at that position in Boog Powell. The Orioles are thinking of Epstein in left field and to prepare for that they sent him to Clearwater of the Florida Instructional League last fall where he had two months of outfield duty.

Incidentally, Mike was brought up to Baltimore for a brief trial toward the end of the 1966 season and in his first time at bat in the major leagues unloaded a triple with the bases full. He wasn't eligible for the World Series but as things went the Orioles didn't need him.

The guidelines are very clear on what ball players are supposed to do during spring training. But no one has come up with a formula managers can follow to get themselves ready for the forthcoming season.

If there were such a thing, it would come in handy for one of the new men in the managerial ranks this year—MAYO SMITH of the Detroit Tigers. Smith is by no means new to the job of managing in the big leagues, but he hasn't done it since 1959, and that's a long time to be away from the front lines. He hasn't been away from baseball, however. Among other jobs, he was a roving scout for the New York Yankees, so he has a good idea of what has been going on in the American League. Also, Smith has a reputation for having a keen baseball mind, and it is not going to take him long to size up the situation.

Smith immediately finds himself on a spot, the very same spot every Detroit manager since 1946 has been on. The Tigers last won the American League pennant in 1945, and in almost every year since, they have been regarded as contenders, only to wind up among the also-rans.

This year, too, Detroit is included on the early-line list of contenders. Smith says he can't figure out whether that's good or bad, but he indicates that he is starting off with the idea that his Tigers will have a shot at the flag.

His two major concerns as he gets ready for the season are the bullpen and shortstop. Smith feels that if the Tigers are going to make any kind of a run for the pennant, they will have to strengthen their relief corps. Right now, he is counting on Larry Sherry, Orlando Pena, Hank Aguirre and Fred Gladding. And, he will be hopefully watching the young pitchers in camp with an eye toward tapping one or two of them for bullpen duty.

The problem at shortstop was created because Dick McAuliffe has been moved to second base. Ray Oyler is being given a chance at filling that shortstop vacancy. He is a fine fielder, but he is lost at the plate. His batting average has exceeded his weight for the past two years only because he weighs 165. Last year, Oyler hit .171, and the year before, he hit .186.

Smith will have to make a choice on which he needs more, a good defensive man at short, or more punch in the line-up. That will be one of his major tasks during spring training.

Today's Sport Laugh — Manhattan College basketball coach Kenny Norton scored the 300th victory of his career with the Jaspers the other night. After the game, Norton was asked his age.

Replied Norton: "I'm over 50. Not even my wife knows my right age."

such as banks.

Over 30 states have already enacted laws regulating credit insurance but this question has two sides that must be weighed carefully before voting on its favorable or unfavorable report with or without amendments to its original form.

Next week the Banking and Insurance Committee will be having hearings pertaining to insurance adjusters and title insurance.

ELECTION LAW REVISION

Since 1965 the Election Laws Subcommittee of the Legislative Council has been making a section by section review of the hodgepodge of voting laws of Maryland. The result has been a 108 page major rewriting and revision of election laws now pending before a special sub-committee of the Judicial Proceedings Committee of the Senate, headed by Senator Anderson (R., Montgomery Co.).

Voting is the fundamental act of self-government providing the citizens of our free society the right to participate in the running of government. Despite the increased concern for vigorous self-government through universal suffrage, a substantial number of our people cannot or do not choose to vote. It has been suggested that restrictive legal and administrative procedures for registration and voting are a major reason for low participation. Frequently such procedures lead to voter apathy and the suggestion that one vote does not count. That one vote does count has been proven repeatedly in recent

years. In 1960, John F. Kennedy's national plurality was less than one vote per precinct.

The proposed election laws legislation would make three major changes and at least twenty others which could be considered significant. Among other recommendations would be the elimination of the dual procedure for registration of voters and the establishment of one procedure for continuous registration in all political subdivisions; simplification of the provisions and procedures on voting machines; and greater flexibility in registration and absentee voting. Other changes proposed would be the issuance to voters of a voter identification card; adoption of a constitution and by laws by the major political parties; and standardization of registration and election day procedures.

Finally, the legislature has been asked to consider placing the staffs of election boards under the merit system and to establish a state office of election law administration to provide a continued review of election statistics on a state-wide basis.

A Glorious Beginning

Lesson for March 19, 1967

Background Scriptures: Luke 22 through 23.
Devotional Reading: John 17:1-11.

Dead at thirty-three! Why did Jesus die so tragic a death? Some people have wrongly assumed that he desired a martyr's death, that the cross was the goal of his mission. For what other reason would he continue to place himself in jeopardy, constantly courting danger and even death?

Yet, though some men have passionately sought martyrdom, Jesus did not. The cross was not the goal for which he was striving. This becomes quite evident when we observe him in the garden of Gethsemane following the last supper in the upper room. It is evident that his decision has not yet been made. The issue is still in doubt. Uncertain, he seeks God's guidance and counsel.

What He Wanted

Not only does he seek divine guidance, but he also clearly expresses his own deep desire. If possible, he wants to avoid the terrible ordeal before him. A man seeking martyrdom would not pray for the removal of his danger. He would embrace it as the fulfillment of his deepest desires. Not Jesus: "Father, if thou art willing, remove this cup from me."

If Jesus does not seek death as a martyr, then what does he want? What is his goal? There was only one controlling desire: to be obedient to God's will. He had felt free to say what he wanted, but his deepest desire was dependent upon what God wanted: "Nevertheless, not my will, but thine be done." He would not seek suffering or death, but he would accept either if his devotion to God's will required it. It was a terrible price to pay for loyalty,

but he was willing to pay it. Why, then, did Jesus die so tragic a death? Was it because Christ meekly submitted to God's plan that he die on the cross? No, we must not make the mistake of assuming that God desired the death of Jesus. He did desire that Jesus be faithful to his mission. Man supplied the cross.

Thus it was man who made him a martyr, not Jesus nor God. God was responsible for Christ's tragic death only to the degree that he gave him a mission which was on a "collision course" with the willful desires of men. Jesus was responsible for his martyrdom only in that he remained loyal to his mission, rather than give it up to save himself.

But why didn't Jesus compromise a little? A compromise would have kept him alive and he could have resumed his mission later. Didn't he realize that "he who fights and runs away, lives to fight another day"? Jesus treasured life, but not so much that he would exchange his soul for it.

Not Tragic Ending

Why did Jesus die so tragic a death? Was it because he was too weak to resist God's enemies? Once more the answer is "No," for he did resist God's enemies. His whole life was given to resisting evil. What we must not overlook is that his was an entirely different approach in resisting evil. Whereas the Hebrew law called for retaliation, Jesus resisted evil with the power of love.

Once more: why did Jesus die so tragic a death? His death was not really a tragedy, for he remained faithful even in the face of death and proved that one can both resist and conquer evil with the power of love. A death like that is not a tragic ending, but a glorious beginning.

OBSERVATION OF NARCOTIC PROBLEM

I enjoyed hearing Mr. Benjamin R. Wolman speak at the Jr.-Sr. H. S. P.T.A. meeting on Monday evening. He pointed out that anyone is subject to addiction. A college student with good grades, for example, can become an addict just as easily as a person with little schooling, if he does not have the will to say no to a pusher or to friends who may want him to try a drug for kicks.
 A demand for more money than usual or the presence of large amounts of money are a few things to look for if you suspect your child is an addict.
 Raw opium, valued at \$35.00 has increased its value to \$225,000.00 by the time it has reached the user.
 This is a big problem indeed and one which touches all of us. I am sorry there weren't more people present to hear about this interesting topic. I can't quite understand the lack of interest on the part of the parents of the students. We probably think this problem couldn't happen to us but it most certainly can and will if we don't find out what to do to help prevent it.
 —Esther N. Speak

Most of us prefer living in luxury to the luxury of living.—Samuel A. Mann.

"You have an hour to live, old chap," said the doctor. "Is there anyone you'd like to see?"
 "Yes," replied the patient, "another doctor."
