A one-day bus trip to University of Maryland was enjoyed by several area women on Thursday, June 15. We left Westminster at 7:00 A. M., returning at 6:00 P. M. Our day began with a Plenary Ses-sion in the Tawes Fine Arts Center.

We tasted synthetic meat which looked and tasted like beef, ham and chicken, all made from soy beans. Dr. Bernard Twigg, Exten-sion Food Processing Specialist, ex-plained that since the cost is only one tenth as much as real meat that pos-sibly this could be one way to feed the two-thirds of the world's popula-tion who are underfed. 'SPICE 'N' EVERYTHING NICE" (Your Chatty Column)

With all my heart, I wish you every morning
A smile that shall last until the next day's dawning.
I wish you health—life's greatest wealth; I wish you always near so that I may help to cheer
Each future day and in some way—help to bring you happiness!

There is something about approach-ing Taneytown that is one of Peace and Love that one falls in love with the little town immediately! Such tranquility prevails that as the car rides slowly along, you say to your-self, "Oh, if the world all over was just like this!"

It was such a treat spending the It was such a treat spending the hour right there and wish that I had more time that day which was a beau-tiful one—having the entire road to myself in those rolling acres of which no other County can brag. It all is breath taking! I have traveled in most states twice around in these U. S. but I always say, "Just no place like it!" One thing. I would suggest is that

One thing, I would suggest is that no business comes further into the suburbs of the town for that takes

away the lovely atmosphere. I stopped by Baumgardner's Bakery and I surely did have the surprise of my life, as I had been begging him to make our "Philadelphia Cinnamon Buns," and at last there they were! With a cup of coffee or a glass of milk—well—nothing could compare and they truly are the nearest to our "Philadelphia Cinnamon Buns" that

and they truly are the nearest to our "Philadelphia Cinnamon Buns" that I have ever tasted in any place in Baltimore. Congratulations! Of course, I had to get some beef from Mr. Shaum (Now there is a man who never ages all down through the years). Then, stopping in to visit with Ma-Da-Sha and there she was, that talented lady busy as a bee and all her work simply perfection! She has quite a clever assistant, too. Observed Pa as busy, too. They sell that grand mattress, "Beauty Rest" (my fav-orite) which is an added feature since I visited the store last. Had the grandest dinner at the Tam-ey Inn and it was like lightning as it was set before my eyes. All of you know that "Hush Puppies" originated in Florida but that lady makes the very best in any state that I wish I had some right now. Was sorry that I wisited the "McCleaf Antique Gallery" and never have I been in any place which could compare! A couple could furnish a complete home right

could furnish a complete home right from that stock. She is a marvelous house keeper and has all the items arranged beautifully. I love to brouse around and she is so patient, describ-ing each piece to me. That precious little grandson is the image of his grandfather and both are so very devoted.

I'll always remember "Antrim" I'll always remember "Antrim" and hope and pray there is something done quickly about it all. Mr. Crouse gave me a couple of hand-made nails from the place which were made in 1840! I'll cherish that walk around the place as long as I live! Even the "Gladding House" is not as huge! It truly is those grounds too that just truly is those grounds, too that just get under your skin and the isolated yet so near to the town! As walked around, I thought about the people who resided right there. So little has to be done to it and that is the nice part. Many times so much money has to be spent in any home-stead but not in that. People would come down from Gettysburg - visitors from all over the U. S. Now, ladies they say that Shirley Mac Claine has the most beautiful skin of any actress on the screen and that in broad day sunlight and the reason she told was because she applies Pomi-stone to her face daily UGH! A cab driver leaned backward to his fare and said, "What do you think of those Isarelites? Eh? We need them in Vietnam for they would clean the whole mess up in no time!" Cute? When Richard Burton is displeased or any words are hashed out between the two, to make E. T. angry he calls her. "Fatty!' California is surely having a war with those shopping carts being stolen and they cost—\$30.00. The customers do not bring them back but take them as far as their cars and some kids gobble them up! It is not just in Cali-fornia but I have seen them many, many blocks away from the Shopping many blocks away from the Shopping Centers just standing there! Now, don't forget, Folks as you take your lunch and go for a nice day's trip remember that "Every Lit-ter Bit Hurts", so keep America beau-tiful by bringing the cartons and papers and napkins back with you. Have a grand week and Almoot Have a grand week-end. Almost forgot to write that I saw that nice Mr. Zentz in his office and when I was leaving what do you think he said, "I sure do like your hat!" Until next week-end, D. V. I am. And a P.S. :- It was good to see the "Stars and Stripes" in so many of the windows and porches flying in the gentle breeze

LETTER TO THE EDITOR

Dear Sir:

In Taneytown on Friday night, June 16, a man was disorderly and he threatened and frightened his neighbors. Two women were in tears and almost hysterical.

One woman had the courage to sign a warrant after she was told by Committing Magistrate Mervin D. Mills that she would have to appear in court if she signed the warrant. She signed the warrant and the Magistrate called the State Police.

The State Police came promptly, served the warrant, put the man under arrest and he spent the night in jail. The next day the lady appeared

against him in court, he paid a fine and was put on probation.

The existing police forces can stop disorderly conduct in Taneytown if more citizens follow this woman's example. A police officer needs a warrant

to make an arrest if he does not see

The electrical charge makes the trees add new growth to old branches. The University of California is also experimenting with electricity to pick oranges. By giving orange trees a jolt of electricity, the ripe fruit drops off while the green stays on. Tests are also being conducted electrically on vegetable and grain crops. Electricity works on some vegetables and grains by accelerating growth, while it will retard growth on other crops.

The myth about the money tree is coming true these days. And it's not only the tree in your backyard that gives money, it's the bushes that surround your house, the flowers that

First, lay out a scale drawing of the space to be designed, cut pieces of paper to scale, corresponding with the mature size of the plants you wish to grow. Move the pieces of paper around until you create the most pleasing effect, then glue them in place.

Senator Wayne Morse of Oregon cites the fact that the nation's trade surplus is at its lowest level since 1959 and that steadily declining U.S. gold reserves are the cause of mounting concern in the U.S. banking community and on Capitol Hill.

"We know how to deal with those who bring economic pressure against the United Arab Republic," says Gamal Abdel Nasser, President. "We bring economic pressure against them. Dean Edward W. Barrett of Columbia University's Graduate School of Journalism says that newspapers must upgrade their business and financial pages "to meet the rising expectations of a population whose financial literacy is growing rapidly. What we need," says Dean Barrett, "is a new breed-the economics reporter-who has the skills of the business reporter backed up by a thorough understanding of the basic economic currents which dominate so much of today's news."

"State and local governments must become more receptive to change and effective role in our increasingly complex society," says Mr. M. A. What Are You? Lover, Friend, or Acquaintance?

"Lover and friend has thou put far from me, and mine aquaintance into darkness"—Psa. 88:18. There are three classes of people in reference to devotion among the Lord's people: lover, friends, or aquaintances-John, Peter and possibly James and others were lovers. The rest of the disciples were friends" (John 15:15) the ma-jority of our Lord's followers were merely aquaintances. Some of them were true and later became witnesses. They did not consort with Him. They were not often found in His company. They did not minister to Him. They knew a good deal about Him and believed on Him but they were still only aquaintances; they did not seek that friendship that would cost them something.

FAIRVIEW

Visitors on Saturday in the home of Mr. and Mrs. Claude Selby and Mrs. Grant Baker were Misses Erma and Anna Bell Davis of Littlestown, Penna.

We were sorry to learn of the death of Miss Betty Biddinger of Woods-boro, Md. She was laid to rest on Sunday-she will be missed by so many, especially her family. Our sympathy goes out to them. They are a good family. Not too long ago the father, Mr. Leslie Biddinger passed away leaving the wife and mother to care for three daughters, all con-fined to wheel chairs. Now God has called Miss Betty home to be with Him; but such faith in Lord Jesus; never a word of complaint. Those who have visited in the home had this to

say — "if you went there feeling bad, blue or let down, you did not leave that way." They were so cheer-ful they made you feel glad and hap-py just to see them in their afflic-tions happy and contented just to be with one another and knowing there was one who cared so much for them. —their faith was in Him, the Lord

Jesus. May they always hold fast to that faith—for His word says, "I will never leave thee, nor forsake thee. Also, greater love hath no man. The way of a Christian is hard, but its reward in being one is life ever-lasting: and if you live a Christian

RELIGIOUS FILM TO BE SHOWN AT FRIZELLBURG CHURCH OF GOD

The inspiring message of the world-famous book in a film of penetrating contemporary significance.

"IN HIS STEPS," a feature-length motion picture based on the world-famous novel of the same name, will be shown June 25 at 7:45 at The Frizellburg Church of God. The film showing is sponsored in this area by The Frizellburg Church of God.

This story originally appeared as a book around the turn of the century, written by a Topeka clergyman named Charles M. Sheldon. It is reported to have sold over thirty million copies, and has been trans-

lated into dozens of languages across the world. The film story follows the experiences of Rachel Paige, aspiring young actress, newspaper publisher Ed. Norman, and Pastor Henry

Maxwell, the clergyman whose unique concept changed their lives. "In His Steps," as a novel came at a time in American history when vigorous social reforms were underway, especially in industrial communities. The film updates these situations, giving the story a contemporary approach. Cheryl Lee Morrison appears as Rachel in the film. Russ Reed

other roles are filled by Alma DuBus, Nicki Pierce and Walter Stocker. Rev. Frederick Horner, Pastor of the church at Frizellburg,

The Jerusalem Christians, however, didn't regard prayer in

that manner. It was for them not "a least thing" to be done when at wit's end. They remembered had followed their earnest prayers. They had remembered too what had happened that other time they had prayed for Peter. They had prayed and the place where they were "was shaken!" But what could they expect to happen this time? What could Peter expect as he slept in his prison cell? Were they confident that he would be enabled to escape again, that his safety was ensured? Luke doesn't tell us what Peter thought or what the people prayed, but we can re-member how they had prayed before, not for safety or deliverance, but for strength to witness. Peter could sleep, not because his physical safety was assured, but because, like Stephen, he knew that he was in God's hands. If he was to live, he would continue his work; if he was to die, he would die in the Lord and have no anxieties about eternity.

Deeper Security

In all probability, the little group who prayed did not regard their prayer as an attempt to change the mind of a reluctant God. Their concept of prayer was that of putting themselves at his disposal so that he might ac-complish his will through them complish his will through them. So it is with us. When we are

in danger or trouble, we cannot assume that prayer will protect our lives or guarantee an easy solution. But we can pray, secure in the knowledge that we are in his hands and that in neither death nor life can we be separated from him. When we can pray, putting ourselves at his disposal to do his will, we will know that prayer is no "least thing."

On this June morning, for in-stance, the birds are singing, the stance, the birds are singing, the flowers are blooming, and I am on my feet, able to see and hear all of this summer-time beauty. But how do I begin the day? By fussing about the heat, which has been terribly intense, and the lack of rain, which in our section is becoming quite acute. My distracted thoughts fly back and forth, as I consider the five years of previous drought, and the painful prospects of another dry season.

previous drought, and the painful prospects of another dry season. And then, in the midst of this dis-contented "Worry Session", I hear the fluid notes of Jenny Wren, and the cheerful whistle of the Baltimore Oriole. They repeat their notes again and again, as if they are trying to convey a special message. Suddenly, and with startling clarity, certain words come to mind—timely words, reassuring words, that are a sure reassuring words, that are a sure cure for anxiety of any kind. "Be-hold the fowls of the air: for they sow not, neither do they reap, nor sow not, neither do they reap, hor gather into barns: yet your heavenly Father feedeth them. Are you not much better than they?" Apparently, the birds have a lot more faith than

The Board heard a communication from the County Commissioners, signed by two of the Commissioners, relative to the projects of community college and data processing. The Com-missioners' letter stated that the signers would not vote for a community college or for any prelimin-ary work on the establishment of a community college in the foreseeable future, and that the \$30,700.00 shown in the budget is a reserve item only and will not be released. The communication further stated that data processing will not be provided for any time during the next four years. The Board expressed its opinion, as requested by the State Department of Education, that it preferred in the future increase of the number of Board members from 6 to 7. This preference of the Board was stated with regard to the revision of the State School Law, now under study. The matter of transportation for

students staying late, following reg-ular school hours, in senior high schools for participation in the extra-curricular activities of the schools was thoroughly discussed. The Board is aware that in the Current Expenditures Budget there are no funds to provide for any bus transportation other than that under State Support. Central office administrators were directed to study this situation in the senior high schools during the coming school year. The Board con-sidered means of such bussing including staggered scheduling of busses, fares paid by pupils, and subsidizing of busses by parent groups.

The Board also heard a letter from a local bus contractor requesting con-sideration of local support for public school transportation. This matter was taken under advisement. with no decisions being made.

The Board approved the Superintendent's news release on staffing in the Carroll County public schools, and the one on the present status of the community college.

The Board approved the Superin-tendent's recommendations for administrative and supervisory staff positions and for administrative positions in the middle schools. Included was the approval of Mr. Harold H. was the approval of Mr. Harold H. Thompson, currently Assistant Prin-cipal at Mt. Airy H.
