Emmitsburg Chronicle.

EMMITSBURG, MD.:

SATURDAY, MAY 27, 1882.

DECORATION DAY.

A tender recollection of the virtues of the dead is inherent in the heart of man, and has manifested itself under all, or nearly all the conditions of his history.

The tombs of Egypt, the catacombs of Rome, the monuments and the mausoleums, of all periods, and the Indian mounds, and other such evidences of the efforts to perpetuate the memory of the dead, or to preserve the places of their repose, meet us on every side.

In all christian lands, there are places set apart for the burial of the dead, and these are ever held in sacred consideration. With the termination of our civil war, it was but in consonance with the spirit of overwhelming sadness that filled the land, to make provision for gathering together the remains of those who died in the conflict of arms, and setting apart for their final resting place many choice areas of land, which have been ornamented and beautified, and are cared for at the expense, and subjected to regulations of the General Government, or individual States. These grounds are known, for the most part, as National cemeteries, and in them in artistic arrangement are found the graves of the soldiers and the sailors, who died in the service.

With each recurring 30th day of May, which has been set apart for the ceremony, it has become the custom, with more or less display of outward show, to visit these graves and strew them with fresh flowers, as a token that the memory of the glorious parts performed by their occupants, is still fresh in the hearts of the people. The custom commends itself to every noble sentiment of our nature.

Statesmen and heroes, and the great men of all times, thus having the memory of their virtues, and their glorious achievement kept fresh in the hearts of the people, can still wield an influence for good, and awake the desire to emulate them.

Summer being at hand, and the forces of nature in active exercise, producing the most beautiful and fragrant flowers, what can be more fitting than that these shall be scattered in profusion upon the tombs of the noble dead, whose deeds alone survive them!

The Great African Desert, A Myth!
Time and again, the world has been startled by the announcement of discoveries, that upset important and unquestioned historical teachings. There now appears on the evidence of an intelligent traveller and explorer, the startling news that the accepted idea of the Sahara Desert in Africa, is simply a myth. Instead of an immense plain, one thousand miles wide and three thousand long, Maj. Delaney of South Carolina, who has explored the region, denies entirely the existence of such a sea of sand, and says the region is mountainous, and inhabited by a people who maintain themselves by industry and trade.

And this is the region which the distinguished French engineer De Lesseps has been planning to flood by a canal, through which the waters of the Mediterranean sea are to empty into it, and make it navigable. How could such a stupendous undertaking be thought of at all, without some certain knowledge of the locality? and how could such ignorance of the continent of Africa exist, in the face of the numberless exploring expeditions, the travels of private adventurers and the labours of Missionary societies, to open up to the light of day, the mysteries of that benighted land?

The Independent Republican Convention in Pennsylvania met in Philadelphia on Wednesday, and nominated as their candidate for Governor Hon. John Stewart State Senator for Franklin county. Mr. Stewart is a son of Dr. Alexander Stewart, of Shippensburg, Pa., who was born near Emmitsburg, and studied medicine in this place. Hon. John Stewart is a graduate of Princeton College, and has been a member of the Chambersburg bar for over twenty three years, and has established himself as an eminent lawyer. He was a member of the Constitutional convention of 1873, and has been the recognized leader, among the Anti-Cameron members of the Pennsylvania Legislature. Col. Duff of Pittsburg was nominated for lieutenant governor.

The Decision Against Guitau.
On Monday the general term of the Supreme Court of the District of Columbia, announced its decision overruling the exceptions in the Guitau case, and affirming the judgment of the Criminal court. It is said the Assassin's counsel contemplated an application to the United States Supreme Court for a writ of habeas corpus, and also a writ of *habeas corpus*, and also a writ of *habeas corpus*.

For nearly a week all newspaperdom has been agog over a reported disagreement between a Messrs. Loubat and Turnbull of Union Club New York, and rumours more or less distinct looking to a settlement by the code duello have been in circulation. "No gore yet," "How they didn't fight," and other such like jeering epithets have been freely used, as if to urge the parties to a hostile meeting. There is much indeed in example, but what the public has to do, as such, in promoting a private quarrel we can not comprehend.

COLD WAVE.—An unusual cold wave came down to St. Paul, Minnesota from the northwest, on Saturday night last, continuing until Monday night. The mercury on Sunday morning reached 37 degs.

In Maryland it rained in the night, but the temperature fell, and toward morning the rain turned to snow. The temperature reached five degrees below freezing, and an inch of snow had fallen.

HOMICIDE.—At Parkersburg, W. Va., on Tuesday Joe Paul shot Reuben Marquis in the head, and in the region of the kidneys. Paul is proprietor of the hotel at Volcano, and Marquis his barkeeper. The reason of the deed was that Marquis had improper relations with the wife of Paul. Paul was promptly arrested and lodged in jail.

PRESIDENT ARTHUR and members of the Cabinet have accepted the invitation to participate in the National Army Encampment of the Grand Army of the Republic, which takes place in Baltimore on the 21st and 22d of June.

An Interesting Fact.
In France, all patent medicines must be endorsed by a official board of physicians before they can be sold. In lieu of such a law in America, the people have resolved themselves into a National committee which has endorsed Swayne's Ointment for allaying the itching accompanying the Piles, as the only reliable remedy in the market. It is a poor rule that won't work both ways.

WASHINGTON LETTER.

[From our Regular Correspondent.]

WASHINGTON, D.C., May 25th '82.
The business of Congress, so far as any completion of legislation at this session is concerned, has been narrowed to very small dimensions. It is not expected that anything of importance can now be done beyond the passage of the bill to reduce internal revenue taxation, the passage of the usual appropriation bills, and the settlement of one or two contested election cases. This is not a very handsome showing for a Congress that is now in the sixth month of its existence. Very little legislation has been accomplished, although a great deal has been begun. The practical work of the session when it shall have ended, will be found to comprehend very few measures of importance, exclusive of making those needful appropriations for the maintenance of the Government. There is before the House a bill to simplify the duties of Congress and to send to an existing and competent tribunal the vexatious questions that now occupy a large proportion of the energies of Congressmen. But Senators and Representatives are reluctant to part with any part of their functions. Congress continues to fritter away its time in the consideration of petty private claims and in trading and scheming among its members to re-elect themselves while public business of great importance is neglected.

Patent Office matters are attracting some attention just now, in Congress and the general public are much interested in all that pertains to this important department. The Patent Office has always been self-sustaining and lately much more so as its accumulations over and above all expenses aggregate nearly two millions of dollars, now in the Treasury. It is one of the most carefully conducted and business-like bureaus of the Government. No work is entered upon in that department until the cost is counted, and no needless expense is ever incurred. I have taken some pains to acquaint myself with the work and methods of the office at this time because of the discussion over a small appropriation of \$50,000 to carry on the work of abridging patents; and there is no doubt whatever that the Government will be the gainer, financially and otherwise, by this undertaking, even if it involved double the estimated cost. It is proposed to abridge and compress into the smallest possible space the point and novelty of every patent issued since 1790. The whole with accompanying drawings will make fifty-two convenient volumes. Successive Commissioners for thirty years have recommended this work, but the Hon. E. M. Marble, the present Commissioner, was the first to obtain an appropriation for that purpose. Three volumes are now ready for the press.

The following figures give the details of the work and show a profit on each edition over and above all cost of \$450, besides giving away to the libraries of the country through Congressmen 3,000 volumes:

Abridgement of 1820-1829	1,000
Abidment of 1830-1839	1,000
Abidment of 1840-1849	1,000
Abidment of 1850-1859	1,000
Abidment of 1860-1869	1,000
Abidment of 1870-1879	1,000
Abidment of 1880-1881	1,000
Total for all editions	7,000
3,000 volumes at \$1.00 per volume	\$3,000
3,000 volumes at 10¢ (free)	\$300
Balance over all costs	\$450

Thus it will be seen that even at the low price charged the work of abridgement will be self-sustaining at the start; but were it otherwise there would be vital reasons why it should go on. The time saved to the various examiners and employees of the office would more than repay for all the outlay, and it is gratifying to know that the abridgement is in the hands of able writers who have demonstrated their fitness for the work. Among attorneys everywhere there is but one sentiment regarding its desirability and a wonder that the Government had waited so long before entering upon it, as it will much facilitate their labors. And to the noble and growing army of inventors, who have done so much to build up the grand industries of the country, the abridgement is especially important—not only in labor saving, but in stimulating renewed efforts. Indeed, it may be deemed one of the first steps looking toward a reduction of the heavy expense of obtaining patents.

The Senate early in the present session was guilty of the very foolish and ridiculous performance of ordering the appointment of a committee on the woman suffrage question, and that committee has now paid back the Senate in its own coin by reporting a constitutional amendment prohibiting in the United States, or in any State or Territory thereof, the limitation of suffrage on account of sex. When the proposed measure is passed by a two-thirds majority in each House, and is ratified by the Legislatures of three-fourths of all the States, this country will witness the transformation of all its women into "citizens," and the last feather will be added to the back of the camel on which all our Republican institutions are piled. The poor beast is sadly overladen already, and has been ever since negro suffrage was packed in among his other heavy burdens. It would be impossible for him even to stagger along for any length of time if he were forced to carry this new monstrosity.

Dom Pedro.

Mr. JAMES GORDON BENNETT announces in the *Herald* that he will devote a portion of his enormous wealth to the care and protection of the widows and orphans of the men who perished in the Jeannette expedition.

The real and personal property in Philadelphia returned on the books of the assessors as subject to taxation is \$553,775,629, against \$543,669,129 in 1881—an increase in one year of \$10,106,500. The amount of money at interest in the city is \$45,863,769.

On Wednesday a deaf and dumb pedler was struck by a train on the North Pennsylvania Railroad, near North Wales, Pa., and instantly killed. He had wandered about that section of country for the last twenty-five years, though no one knew his name. Over \$700 in money was found on his person.

A. R. THOMPSON, associate editor of *St. Nicholas Magazine* died in Brooklyn on Tuesday night, of scarlet fever. He was the "Jack in the Pulpit" of the Magazine. He was born in Paris, and his father was a colonel in the British army. A widow, with a boy two years old, is left to mourn his early death, at the age of 34.

Mrs. ABIGAIL TAYLOR, an estimable lady of Newport, who was buried on Sunday, actually announced her own death to her friends in other places by writing out despatches twenty minutes before her death. She signed the despatches with her own name, which announced "Mrs. Taylor is dead," following it up with the request that they would attend the funeral.

The Commencement at Lafayette College, Easton, Pa., will take place Wednesday June 28. The catalogue for 1881-1882 represents the attendance: Post graduates 3, Seniors 50, Juniors 57, Sophomores 89, Freshmen 103, total 302. In which number are students from 16 different States of the Union, with three from China, 3 from South America and one from Germany.

A cable despatch from Rome, special to the *Freeman's Journal*, announces that the Holy See has ratified the request that the Diocese of Detroit might be divided. A new Episcopal See has been erected for Grand Rapids. The Bishop has not been named who is to be its first Titular. The new diocese will have jurisdiction over all the western or Lake Michigan side of the lower peninsula of Michigan.

A NEW disease is prevailing at Thurman, Warren county, N. Y.—It is very contagious. The symptoms are great debility, severe and constant pains in the eyes, head, back and limbs, sore throat and a very bitter taste in the mouth. It runs its course in from ten to twenty-four days. Two deaths from it are reported. Physicians pronounce it a kind of distemper, but fail to define it.

ACCORDING to the *New Remedies*, a root is found in the mountainous regions of California, Oregon, Utah, and Montana which, if all that is stated of it is true, bids fair to be some somewhat of a rival to quinine. The miners, who call it "Oregon Grape Root" (*Berberis Aquifolium*), use it in the form of a decoction for "mountain fever." It is reported by them to be effective in this form of malaria, and to break up its recurrences.

ROME, May 5.—The Pope, receiving an Irish despatch which had come to thank his Holiness for raising the Most Rev. Dr. McCabe to the Cardinalate, said he wished not only to reward Dr. McCabe for his numerous services, but also to give Ireland a fresh token of the love of the Papacy. Dr. McCabe had been wise in his counsels to the people.—His Holiness trusted that the disorder and agitation in Ireland would cease and the country once more enjoy tranquillity, of which it is so needy. He concluded by blessing all Catholic Ireland.

ST. PAUL, MINN., May 24.—A skull of heroic size and singular formation has been discovered among the relics of the mound builders in the Red-river valley. The mound was sixty feet in diameter and twelve feet high. Near the center were found the bones of about a dozen males and females, mixed with the bones of various animals. The skull in question was the only perfect one, and near it were found some abnormally large body bones. The man who bore it was evidently a giant. A thorough investigation of the mound and its contents will be made by the Historical Society.

SHENANDOAH, PA., May 24.—An explosion of gas occurred at the Kohinoor colliery, operated by R. Heckscher & Co., at noon today, killing Martin and James Mulhill, father and son, Owen Gallagher, a Polish laborer, Samuel Hugo, driver, and fatally injuring John Lee, the fire boss, and a Poland, Matty Matternyowicz. A fall of top rock occurred, forcing the sulphur down and it quickly ignited. The force of the explosion was terrific. A number of men received serious but not fatal injuries. As the safety lamps furnished do not give as good a light as the ordinary lamp, some one at about noon lighted a naked light, and soon thereafter the fall of top rock occurred which carried the sulphur down. As the burned and mutilated bodies were brought up the excitement increased and many women fainted. Kohinoor colliery is one of the largest individual works in the region, and employs between 300 and 400 men and boys.

WASHINGTON, May 22.—The Postmaster General, in response to a resolution of the House to day, sent a letter to the Speaker in which he recommends that the postage on second-class matter (papers and magazines) be abolished. He also states that the fourth class matter (merchandise) is carried at a loss to the government, and if the government is to be taxed for the transportation of either class it should be for the second class instead of the fourth. In concluding the letter the Postmaster General says: "I am led to the conclusion that Congress may at the present term safely abrogate all discrimination between subscribers to newspapers and magazines, and send the same through the mails, whether such subscribers reside within the county of publication or outside of it."

THE DEERING TWINE SELF-BINDING HARVESTER.
AN IMMENSE SUCCESS! 10,000 SOLD THIS SEASON! BENJAMIN F. STEWART THE SOLE AGENT.

IT IS EASY OF OPERATION
MADE OF THE BEST MATERIAL. It cuts and binds entire crops without missing a solitary stem. It separates every sheaf and never chokes. Other machines require three and four horses, and in tangle grain require extra help with them. The sheaf does not come open in hauling in.

THE CELEBRATED ADRIANCE REAPER.
This machine has been in active work in Pennsylvania for the past six years, and to-day stands at the head of its class. Be careful to examine its superior points. No gearing in the mangle wheel—a point which no other reaper can claim. Three speeds for the rake arms independent of the knife-running fast in light grain, medium in standing grain and slow in cove grain. No other reaper has it. The head is placed far away from blade and no grain can wind in it. Only four cog wheels, with long bearings and solid boxes. Platform can be folded for transportation on the road in five minutes. Sent folded instantly. Rakes can be adjusted to cut any grain. The machine is simple, Durable and Constructive. Width of cut five to six feet, with extra down grain slats, rods, etc., furnished free of charge.

THE ADRIANCE MOWER.
This mower is now entering upon its twenty-seventh year and old age improves it. It is manufactured at Poughkeepsie, N. Y., by Adriance, Platt & Co., who also build the world renowned GUSTINE BECKEY REAPER. The manufacturer has never been surpassed (as some of its competitors) to change its principles from year to year and as an expected result give the farmer an experimental machine. No "rattle trap" gearing with "gimble" joints, which talks well but works poorly, but in its place we give you a mower with the old reliable gear, using long shafts, procuring our first or slow motion from the bevel pinion, and the second or fast motion from the straight spur pinion equalizing the wear and strengthening its cutting capacity. Exactly the reverse from all other mowers. Also perfect Tilling Lever, with astonishing simplicity for raising and lowering points of guards, and when folded the bar lays flat across the frame, which every one will admit is the only safe way. Freight out, which allows the operator to watch both machine and horses and no danger of being thrown in from the knife.

AT BENJAMIN F. STEWART'S AGRICULTURAL HALL, AT THE OLD CENTRAL HOTEL BUILDING.
The farmer can buy everything needed on the farm, STEAM ENGINES, THRESHING MACHINES, SELF-BINDERS, PLOWS, all kinds of Farming Implements and every description of hardware; also OILS AND READY-MIXED PAINTS.

Plenty of room for horses and fine table board, as well as rooms for permanent boarders. On a situation to families and their families to the farmer. All kinds of GARDEN AND FARM SEEDS can be obtained. All we ask is from our friends. BENJ. F. STEWART, Agricultural Hall, At Old Central Hotel, May 20-21

Death of an Aged Man. Mr. Jacob Schultknecht, one of the oldest and most respectable citizens of Middletown Valley, died recently at his residence near Myersville, in the 84 year of his age.

THERE were grain fields in this neighborhood which some weeks ago looked quite bare, that are now apparently covered with greenness, such growth is not likely to ripen, but the outlook has thus improved.

FREDERICK FRETTE, one of the oldest and wealthiest citizens of Hagerstown, died on the 18th inst., in the 92nd year of his age. He was never married. His estate is estimated to be worth from \$80,000 to \$100,000.

THE City Council of Hagerstown have ordered that the Cumberland Valley Railroad shall remove its track from Walnut street, where it has been for twenty years or more, and gives them five months to effect the change.

Good Recommendation. EXMITSBURG, Oct. 23, 1880.

All I have to say of the *Willie Hat Trap* is: It is the best I have ever seen. The most we ever caught, was 27 rats in one trap, one night. I just put it in the cellar last night, and had three rats this morning. I would not be without one. Yours respectfully, WILLIAM P. GARDNER.

Nuisances.

There is a considerable accumulation of rubbish on the streets, loose papers, the skins of oranges, bananas, &c., &c. If one person assumes the privilege of throwing the offal of his establishment, of whatever character, upon the streets, others will do likewise. Cleanliness and decency demand a rigid and impartial observance of the ordinance in such cases provided. Let the matter be looked up.

THE Comet reached its point nearest to the Earth on Tuesday, about 88,000,000 miles; on March 20th, it was 150,000,000 miles distant from the Earth. Its orbit carries it much closer to the Sun than the Earth. On June 10th it will arrive at its nearest position to the Sun, about 5,000,000 miles. It is now visible to the naked eye from midnight, and may be seen midway between the horizon and the Pole Star. The Astronomers agree that it is a new Comet, and not an older one reappearing.

Attempted Robbery. An unsuccessful attempt was made on Tuesday night of last week, to rob the rooms of the County School Commission House.

The thief or thieves, it is thought, secreted themselves in one of the rooms during the day, and at night made the attempt. Nothing was missed from the rooms.—Examiner.

That was a strange place to expect a haul from. And so many rich editors in that place!

Narrow Escape.

A few days ago while men were working in the Heideman ore bank, in Heidelsburg township, the earth caved in upon them, and covered John Wildasin up to the neck, fastening him fast down—Lewis Crot caught up to the knees, but soon got out, and Mr. Wildasin was soon released from his perilous position, though insensible and almost suffocated. He is now about again, though his escape from death was a very narrow one.—Hagerstown American.

Eagle Capture.

Mr. Wm. Mercer, living on the farm of Mr. Chas. Shultz, near Mt. Pleasant, the other day shot and captured a large bald eagle near his premises, measuring across the wings, from tip to tip, six feet nine inches. The eagle is now in the possession of Mr. Jas. B. Pelton, living in Mt. Pleasant, and is still living, and is quite a curiosity. Mr. Mercer is considered a good shot, having served under Gen. Robert E. Lee, in the Army of Northern Virginia, during the late war.—Republican Citizen.

A Remarkable Coincidence.

It is a matter of journalistic record, that some years since, a schooner set sail from Baltimore, having on board a crew of thirteen men. By a most singular freak of nature, the entire force was attacked by a skin disease, which manifested itself in large ulcerated sores on the arms and hands, wholly incapacitating the men from duty. The result was that the vessel was towed back to the city where the men were placed in the hospital. Moral! Had Swayne's Ointment for skin diseases been used in the first place, the crew would have recovered in from 12 to 24 hours.

NOTICE TO FARMERS AND OWNERS OF PRIVATE RESIDENCES.—The safest and best company in which Farmers and owners of Private Residences can insure their Property, is the Time-Tried and Fire-Tested Agricultural Insurance Company. It insures nothing but private Residences and Farm Property. In the last 27 years it has not had a loss of over \$5,000, on one Fire, and cannot be affected by sweeping contagions, as its risks are all detached. It insures against damage by Lightning, whether fire ensues or not, and insures Live Stock against being killed by Lightning anywhere on the farm. The Agricultural Insurance Co., is a stock company, and the strongest and largest company, doing an exclusive Dwelling Business in the United States, if not in the world, and is now issuing 50,000 Policies a year. For further particulars, apply to W. G. HORNER, Agent, Emmitsburg, Md.

Fatal Accident.

Last Friday while Mr. Joseph Keagy, of Conowingo township, Adams county, was hauling rails on a one horse wagon, near his home, close to McSherrytown, the horse he was driving slid suddenly to one side of the road and upset the wagon, throwing Mr. Keagy violently to the ground, striking on his head. The accident was witnessed by several men in a field near by who hurried to his assistance, but all help was in vain and the unfortunate man died in a few minutes from concussion of the brain. No inquest was held. Mr. Keagy was about 72 years of age, and highly respected for his honest and upright demeanor throughout his entire lifetime. The death was a sudden one to be sure, and has cast a gloom over the community.—Hagerstown Citizen.

OUR BOOK TABLE.

The June number of the Eclectic Magazine, has for its initial article, "A few Words about the Nineteenth Century," by Frederick Harrison, which is calculated to set one to thinking seriously about the real tendency of all the improvements and advantages of which we boast so largely. "The Relation of Insects to Flowers," by Professor Gray will interest the scientific reader, but be passed over by the uninitiated; "The Borders and their Ballads" from Blackwoods' Magazine, will be found extremely interesting, as also "Talk and Talkers," by R. L. Stevenson; "The Lady Maud," by the author of "The Wreck of the Grosvenor," is continued, there is also a Poem by Edmund W. Gorie, "The Church by the Sea," an entertaining article about the predictions concerning the end of the World, and a great deal more of good and useful reading. Terms \$5 per year. Published by E. R. Pelton, 25 Bond St., New York.

The Century Magazine for June has a portrait of Cardinal Newman on the opening page, and an eloquent tribute to the christian character as well as intellectual superiority of the gifted Englishman who occupies so important a position in the Roman Catholic church; from the pen of C. Kegan Paul. "Around Cape Horn," with its admirable descriptions of sea-life is very attractive. "The Street of the Hyacinth," by C. F. Woolson, is concluded. "The Story of the Alcazar," by Mary Halleck Foote, "In a Chinese Theatre," by George H. Fitch, conclusion of the notices of New York Opera, with likenesses of prominent singers, "Through one Administration," by Mrs. Burnett, is continued, as also "A Modern Instance," by W. D. Howells. "Topics of the Time," The Worlds Work, and the usual Brice-a-brac, with a great deal of other interesting and instructive reading matter, make up a very attractive number. Century Co., Union Square, New York.

St. Nicholas for June has a portrait of Longfellow for frontispiece, and is as full of pictures, stories, puzzles, poems, and instruction, as this popular magazine always is, and will be hailed with delight by the young folks who are fortunate enough to receive it. Published by The Century Co., New York. Price \$3 a year.

The American Agriculturist comes to us at this time with unusual claims for recognition. Not only the farmer, but his family from the oldest to the youngest will find some instruction in its pages, and there is no work published in the interest of agriculture more reliable, nor which we would more cordially recommend to our country friends. Published by the Orange Judd Co., 751 Broadway, N. Y. York.

Died from His Injuries.

William H. Cox, an employee of the Adams Express Company, who was injured on last Saturday morning by being struck on the head by the breaking of a hay cutting machine in the stable of the company, on North street, died Sunday afternoon at the City Hospital from his injuries. Dr. F. G. Connolly, coroner, was notified, but deemed an inquest unnecessary, as the death was accidental. The body was taken to the home of the deceased, on Franklin street, near Pine.—Baltimore American.

The deceased was a former resident of this neighborhood, and married into the family of the late James Conner.

Fatal Accident.

Our McSherrytown correspondent informs us of the instant death of Mr. Joseph Keagy, Sr., of Conowingo township, on Friday last. He was seated on a wagon driving, when the horse frightened at some passing cattle, and running away, the wagon striking a stump, on the opposite side of the wagon. His brother Abraham and two other gentlemen who happened to be close by, ran to his assistance, but only to see him breathe his last. He was a highly respected citizen and his loss will be felt by many friends. Aged about 70 years.—Comptroller.

Terrible Accident to a Brakeman.

FREDERICK, MD., May 24.—Lewis Albaugh, a highly esteemed young man, aged about 23 years, son of Christian Albaugh, of this city, while serving in his capacity as brakeman on a freight train on the Frederick and Pennsylvania Line Railroad, was knocked from a car near Wrightsville to-day, and falling under the wheels had his right leg cut off above the knee, and his left leg just below the knee, and was otherwise terribly injured. He had been employed as a fireman and only started out on his first trip as brakeman this morning. He is not expected to live.—Sun.

In the Whole History of Medicine

No preparation has ever performed such marvelous cures, or maintained so wide a reputation, as AYER'S CHERRY PECTORAL, which is recognized as the world's remedy for all diseases of the throat and lungs. Its long-continued series of wonderful cures in all climates has made it universally known as a safe and reliable agent to employ. Against ordinary colds, which are the forerunners of more serious disorders, it acts speedily and surely, always relieving suffering, and often saving life. The protection it affords, by its timely use, in throat and chest disorders, makes it an invaluable remedy to be kept always on hand in every home. No person can afford to be without it, and those who have once used it never will. From their knowledge of its composition and operation, physicians use the Cherry Pectoral, extensively in their practice, and clergymen recommend it. It is absolutely certain in its healing effects, and will always cure where cures are possible. For sale by all druggists.

VALUABLE RECIPES.

THERE is nothing better to clean window glass than chamois skin.—Wash the skin carefully first; after washing the glass rinse the skin, wring it dry, and wipe the glass with it. No other polishing will be required.

KISSES OR DROP CAKES.—One cup of butter, two cups of sugar, three-fourths cup of water, one-half teaspoonful soda, two eggs, four and a half or five cups flour. Drop them on a tin, and put a lump of sugar in the center of each.

MRS. LYDIA E. PINKHAM, 233 Western Avenue, Lynn, Mass., is rapidly acquiring an enviable reputation for the surprising cures which daily result from the use of her Vegetable Compound in all female diseases. Send to her for pamphlets.

WHITE MOUNTAIN ROLLS.—Sixteen cups of flour, half cup of sugar, cup of butter, cup of yeast, the whites of four eggs beaten to a stiff froth, and four cups of boiling milk; melt the butter and sugar in the milk; have the milk blood warm, and mix the bread, adding the whites of eggs after mixing in part of the flour, knead stiff, and let rise in a warm place over night. In the morning knead into rolls, and let rise till light; rub the beaten white of an egg over the tops of the rolls, and bake thirty minutes.

CHOCOLATE CREAMS.—Two cups of granulated sugar, one-half cup of water, and half a cake of Baker's chocolate. Boil sugar and water together exactly five minutes after commencing to boil. Stir constantly while boiling, also while cooling. While cooling add vanilla to taste. Roll up into balls as soon as cool enough to handle. Heat the chocolate in a tin placed over a kettle of boiling water. When the steam has dissolved, but not cooked it, roll the balls separately in the chocolate, using a fork for the purpose. Put them on buttered paper to cool.

SUPPRESSING THE MOSQUITO.—Professor Fontaine gives some hints for abating the mosquito pest which is sure to come with the advent of sunny days. First, he says, mosquitoes require water for the deposit of their eggs and the rearing of their larvae or wiggle tails. Therefore, all cisterns should be made close and covered with close woven brass wire netting to prevent their laying in them. No old tubs, barrels, or receptacles of water ought to be permitted, and no stagnant pools left undrained within a mile of any dwelling. Then they can be killed by the cheapest and most abundant of all alkalies, common lime.—Therefore this ought to be poured into every cesspool and spring. A pound of strong lime to every 100 gallons of stagnant water is sufficient. But even a pound to 1,000 gallons of a cistern of drinking water will kill them, although it will probably give the water an unpleasant flavor and make it too "hard" for most domestic uses.

SALT FOR THE THROAT.—In these days when diseases of the throat are so universally prevalent, and in so many cases fatal, we feel it our duty to say a word in behalf of a most effectual, if not positive, cure for sore throat. For many years past, indeed, we may say, during the whole of a life more than forty years, we have been subject to sore throat, and more particularly to a dry, hacking cough, which is not only distressing to ourselves, but to our friends and those with whom we are brought into business contact. Last fall we were induced to try what virtue there was in common salt. We commenced by using it three times a day—morning, noon and night. We dissolved a large tablespoonful of pure table salt in about a half small tumblerful of water. With this we gargle the throat most thoroughly just before meal time. The result has been that during the entire winter we were not only free from coughs and colds, but the dry hacking cough has entirely disappeared. We attribute these satisfactory results solely to the use of salt gargle, and most cordially recommend a trial of it to those who are subject to diseases of the throat.—*Evo.*

Pleased to Have Him Call.
A good old preacher of the Methodist persuasion officiated one day at a funeral in Massachusetts, and at the close had a word of inquiry and advice, as is the local custom, with many of the audience. Among others he approached a lady, a stranger to him, who was visiting in the neighborhood, and after shaking hands, asked her if she was on her way to heaven. "Yes," she promptly answered, "and if you ever come that way, I should be pleased to have you call." "The good old gentleman, horrified at such seeming levity, turned away without reply, when a friend, sitting near, remonstrated with Mrs. —, who, still more horrified at her mistake, said she understood him to ask her if she was on her way to Hudson, where she lived.

"The Devil Come up to Cool Off.
One evening, above Lewistown, on the Mississippi," began Capt. Paul Boyton, "I was on the lookout for some place where I could stop, or for some person from whom I could obtain information, when, near the bank of the river, I discovered smoke issuing from the chimney of a small cabin. I hauled to and blew my bugle. For some time the smoke issuing from the chimney was the only sign of life. Finally a man, an easy kind of individual, came walking down leisurely, regarding me curiously.

"How far is it to Lewistown?" I asked.
"It's a pretty good distance."
"But how far do you call it?"
"I don't call it."
"Confound it, man; is it two, three or four thousand miles?"
"I reckon it's one of the numbers."

"Then I realized that I had met a kinsman of the Arkansas Traveler. My irritation, which had at first been exhibited, subsided, and desiring to get as much information as possible, I asked, pointing to a bar: "Which side of the channel shall I take?"

"Either side you please."
"Which do you consider the better?"
"I am not attendin' to other people's business."

"Which side do the steamboats take?"
"It's owin' to what captain is aboard."

"Well, bringing the thing down to a point, how long will it take me to get to Lewistown?"
"It's owin' ter how fast you travel."

"My friend, I think you are the d—d fool in Arkansas."

"An', stranger, I think you are the devil come up to cool off. Go home."

Capt. Boyton will start for Pine Bluff Friday morning.

PROOF EVERYWHERE.—If any invalid or sick person has the least doubt of the power and efficacy of Hop Bitters to cure them, they can find cases exactly like their own, in their own neighborhood, with proof positive that they can be easily and permanently cured, at a trifling cost—or ask your druggist or physician.

CARTER'S LITTLE LIVER PILLS.

CURE SICK HEADACHE

Headache, yet Carter's Little Liver Pills are equally good for Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured one of these troubles, they would be worth taking. But after all sick head-

ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find that these little pills will cure many ways that they will not be willing to do without them. But after all sick head-

KIDNEY WORT.
DOES WONDERFUL WHY? CURES!
Because it acts on the LIVER, BOWELS and KIDNEYS at the same time.

Because it cleanses the system of the poisonous humors that develop in Kidney and Urinary Diseases, Rheumatism, Jaundice, Constipation, Piles, or in Rheumatism, Neuralgia, Nervous Disorders and Female Complaints.

KIDNEY WORT.
PERMANENT CURES
KIDNEY DISEASES, LIVER COMPLAINTS, Constipation and Piles.

MRS. LYDIA E. PINKHAM, OF LYNN, MASS.

LYDIA E. PINKHAM'S VEGETABLE COMPOUND.
The Positive Cure
For all Female Complaints.

This preparation, as its name signifies, consists of Vegetable Principles that are harmless and most delicate in their action. Upon one trial the merits of this Compound will be recognized, as relief is immediate; and, as its use is continued, in ninety-nine cases in a hundred, a permanent cure is effected. Last thousands will testify. On account of its proven merits, it is to-day recommended and prescribed by the best physicians in the country.

It will cure entirely the worst form of falling of the uterus, Leucorrhoea, irregular and painful menstruation, all Ovarian Troubles, Inflammation and Ulceration, Prolapsus, and all other diseases of the female system, and is especially adapted to the treatment of the Change of Life. It will dissolve and expel tumors from the uterus in an early stage of development. The tendency to cancerous humors there is checked very speedily by its use.

In fact it has proved to be the great and best remedy that has ever been discovered. It purges every portion of the system, and gives new life and vigor. It removes fatness, flatulency, dropsical swelling for stimulants, and nervous weakness of the stomach.

It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the human system.

For kidney complaints of either sex this compound is unsurpassed.

Lydia E. Pinkham's Vegetable Compound is prepared at 33 and 35 Western Avenue, Lynn, Mass. Price \$1.00. Six bottles for \$5.00. Sent by mail in the form of pills, also in the form of Lozenges, on receipt of price, \$1.00, per box, for either. Mrs. PINKHAM freely answers all letters of inquiry. Send for pamphlet. Address above. Mention this paper.

No family should be without LYDIA E. PINKHAM'S VEGETABLE COMPOUND. The cure for Constipation, Rheumatism, and Neuritis of the Liver. 25 cents per box.
