KING'S EVIL

Was the name formerly given to Scrofula because of a superstition that it could be cured by a king's touch. The world is wiser now, and knows that

SCROFULA

can only be cured by a thorough purification of the blood. If this is neglected, the disease perpetuates its taint through generations, and is conducted from the system Hereditary Scrofula, and the kindred poisons of contagious diseases and mercury. At the same time it cripples and vitalizes the blood, restoring healthful action to the vital organs and rejuvenating the entire system. This great

Regenerative Medicine

is composed of the genuine Hereditary Scrofula, with Yellow Dock, Sarsaparilla, the Salts of Potassium and Iron, and other ingredients of great potency, carefully and scientifically compounded. Its formula is generally known to the medical profession, and the best physicians constantly prescribe AYER'S Sarsaparilla as an

Absolute Cure

For all diseases caused by the vitiation of the blood. It is concentrated to the highest practicable degree, far beyond any other preparation for which like effects are claimed, and is therefore the cheapest, as well as the best blood-purifying medicine in the world.

"How does it happen that there are so many old maids among the school teachers? asked a reporter of the superintendent the other day. "Because school teachers are, as a rule, women of sense, and no sensible woman will give up a \$60 position for a \$40 man," was the reply.

It was a young wife who, traveling with her son, an infant, wrote to her husband as follows: "We are doing first-rate and enjoying ourselves very much. We are in fine health. The boy can crawl about on all-fours. Hoping that the same may be said of you, I remain, etc., Fanny."

AN exchange says some go to church to weep, while others go to sleep. Some go their wives to please, their conscience others go to ease. Some go to hear the preacher, others like the solo screecher. Boys go to reconnoitre, girls go because they order. Many go for sage reflections, precious few to help collections.
