THE INCOME TAX-LAW.

As the Income Tax Law is engaging the attention of many persons who will have to pay a percent, on all profits of \$4,000 and over, realized from their business or other interests we append a summary of the important points of the law. Those of our readers who will fall victims of this new law will be furnished forms to fill out and forward to Collector Vandiver, at Baltimore, upon application for the same to Deputy Collector Edward Koontz, at Frederick.

Whist the law only imposes a tax of two per cent. on the gains, profits and incomes on the excess derived over and above \$4,000; yet it requires all persons of lawful age, having an annual income of \$3,500 or more in this collection district, to make a return to the collector of the internal revenue.

These returns must also be made by all guardians, trustees, executors, administrators, agents, receivers and all persons or corporations acting in any fiduciary capacity, who reside or do business in this collection district, of the amount of the income of any minor or person for whom they act.

Corporations are required to pay two per cent. on net profits and special forms will be furnished them on application.

All the forms must be correctly filled up and returned to Collector Vandiver on or before the first Monday in March next.

The first taxable year is the year of 1894, and the taxes are computed on the taxable incomes received last year, from the first day of January to the thirty-first day of December, both days included.

The taxes are due and payable on or before the first day of July, 1895.

Failure of persons or corporations to receive the proper forms, or the failure to receive any notice that the proper forms should be filled up and returned to the collectors office, or that any act enjoined by law should be complied with, is not deemed a valid excuse for not making such returns, or for not complying with the provisions of law in the time and manner prescribed and will not prevent or reduce the penalties imposed by law for such failure or neglect.

ON FIRE IN A BOILER.

Henry Figdore was seriously burned Tuesday about his back and legs at the Pennsylvania Agricultural Works, at York, Pa., where he was employed as a boilermaker. Figdore, with an assistant, was assigned to patch an old boiler. While at work on the inside of the boiler his assistant held a lighted torch over the manhole, so that he could see to do the work. The torch leaked, and the escaping oil dropped upon Figdore's back, and finally, coming in contact with the flaming torch, set his clothing on fire. Confined within the narrow quarters of the boiler, where no one could help him, and the fire on his back, where he could not well reach it, the unfortunate man tried to quench the flames with his hands, but without avail, and he would have been roasted alive had he not succeeded in getting out. His clothing was entirely burned from his body, and his back and legs are in a terrible condition.

The East End Street Railway, in Knoxville, is experiencing a curious strike of motemen and conductors owing to a dispute as to when their pay begins each day. Conductors and motemen walked out. The amount of time in dispute is three minutes and the total wages per day of the four men for that time is two and one-half cents. Their places have been filled.

WASHINGTON LETTER.

(From our Regular Correspondent.) WASHINGTON, Feb. 4.—The House will this week have a chance to put itself on record on the gold bond bill, the Banking and Currency Committee have reported that measure and the committee on Rules having agreed to report an order for its consideration Tuesday, Wednesday and Thursday. If the bill had already passed the Senate there would be no doubt of the way the House would vote, but inasmuch as everybody knows that it cannot pass the Senate, there may be enough democrats who wish to please President Cleveland by voting for it to adopt the order and to pass it, but no one will be surprised to see it shelved, as the Carlisle bill was, by the refusal of the House to adopt the order for its consideration.

A canvass of the Senate on the free coinage of silver shows 17 for and 39 against, without counting the votes of the new Senators from Washington and Wyoming, both silver men.

President Cleveland has again shown his belief that the Indians are entitled to some consideration in legislation which effects their interest. This time by a veto of the bill granting railroads the right of way through the San Carlo reservation in Arizona, because the consent of the Indians had not been obtained.

The action of the House Commerce Committee in adopting a resolution, that the Nicaragua Canal bill previous reported from that committee be adopted by the House as a substitute for the bill that has already passed the Senate, has increased the chances, already numerous, against any action on this matter by the present Congress.

There isn't one chance in a hundred, unless members vote directly opposite to the way they talk, that any Nicaragua Canal bill can get through the House at this session.

EX QUEEN Lillukalani has made formal abdication of her rights as Queen of the Hawaiian Islands, but the government of the republic in answering the letter said that this act would not exempt her from liability for complicity in the late uprising of which she is accused.

A DESPATCH from Berlin states that, allowing for depreciation, the lost steamship Elbe was worth \$300,000. She cost \$725,000. The North German Lloyd Company insures itself. The London underwriters are heavy losers on the cargo.

By the breaking of the natural gas main running into Morgantown, W. Va., that town was deprived of light and fuel when the thermometer was at zero.

Since 1861 I have been a great sufferer from catarrh. I tried Ely's Cream Balm and to all appearance am cured. Terrible headaches from which I had long suffered are gone.—W. J. Hitchcock, Late Major U. S. Vol. and A. A. Gen., Buffalo, N. Y.

Ely's Cream Balm has completely cured me of catarrh when everything else failed. Many acquaintances have used it with excellent results.—Alfred W. Stevens, Caldwell, O.

Price of Cream Balm is fifty cents. A dispatch from Egg Harbor, N. J., reports the destruction by fire early Monday morning of the residence of Wilbert H. Fenton, at Port Republic. Mr. Fenton, his wife and three children are missing and fears are entertained that they have perished in the flames.—Sun.

WHILE William Burholder, a Pennsylvania Railroad fireman, residing at Watts Station, Pa., was walking along the railroad tracks in front of his house he found the mangled body of his son. It is supposed that the boy had been stealing a ride to his home, and fell under the train.

Two Persons Killed in a Fire at Rockville.

The large store and warehouse of Wm. W. Welch, and the dwelling house of Mr. Frank Rabbitt, in Rockville were destroyed by fire Wednesday. The total loss will amount to \$25,000. After the fire the large chimney of the warehouse fell on three persons, injuring two of them so badly that they died some hours later. The third escaped with the fracture of both legs and a number of severe bruises. Those killed were Frank Morgan, aged 35 years, and Charles Eagle, aged 16 years. The injured person was Philip Cook, colored, aged 17 years. The fire was one of the most fierce and destructive that has visited Rockville in many years. It originated in Mr. Welch's store, presumably from an overheated stove.

Beyond Description

The Misery Before Taking AND The Happiness After Taking HOOD'S.

Mr. R. H. Bishop, Hammon, N. J.

"C. L. Hood & Co., Lowell, Mass.: 'Dear Sirs: I have been in poor health for 20 or 25 years, and have been taking doctors' medicines more or less all the time. I did not get much relief. My blood was in a bad shape and my system was all run down. I thought I must die, but not having several testimonials in the papers in belief of Hood's Sarsaparilla I bought three bottles and found that it did me so much good that I continued taking it. I was without appetite, slightly sleepy, and had a headache most all the time. In fact I cannot describe my feelings. After using one bottle of Hood's Sarsaparilla I found it was doing me much good and now I cannot praise the medicine too much for what it has done for me. I am a disabled soldier 60 years old and was afflicted with many ailments, including kidney, rheumatism, and catarrh. Since using 6 bottles of Hood's Sarsaparilla I am like another man. In fact I think Hood's Sarsaparilla saved my life.' R. H. Bishop, Box 400, Hammon, N. J."

Hood's Pills are prompt and efficient, yet easy in action. Sold by all druggists. 25c.

### Accidentally Shot.

George W. Albaugh, a farmer resid-  
ing on the Monocacy, two miles from  
Double Pipe Creek, was shot by the ac-  
cidental discharge of a shotgun in the  
hands of his son. The lad fell striking  
the hammer of the gun on the frozen  
ground. Three shot entered Mr. Al-  
baugh's right side, two struck his left  
arm and several penetrated his hands.  
His injuries, though severe, are not  
dangerous.

### Card of Thanks.

To each, and all, of the members of  
the congregation, who so courteously  
tendered a complimentary sleighing  
party to the pupils of St. Euphemia's  
School. The Sisters in charge express  
well merited thanks. The treat proved  
delightful, and the efficient gentlemen  
have the assurance of grateful remem-  
brance from over two hundred glad-  
dened hearts.

### A Marylander Arrested.

William Haugh, of Frederick, Md.,  
was arrested at Hanover, York county,  
Pa., Monday afternoon and lodged in  
the county jail at York, charged with  
forging the name of his father, John  
E. Haugh, and John E. Hargett, to  
notes at the Farmers' and Mechanics'  
National Bank at Frederick. The note  
was for \$200, which Haugh secured  
from the bank. Haugh is charged with  
other forgeries amounting to about  
\$1,200.—Sun.

### Repainting the Presbyterian Church.

Workmen have been engaged the  
past several days in repainting the in-  
side of the Presbyterian church, in this  
place. The work of painting and  
oiling the wood work is being done by  
Messrs. Geo. T. Gelwick & Bro. Mr.  
John Sebold is giving the walls a coat  
of plaster. The scaffolding required to  
do the work was erected by Messrs.  
Tyson & Lansinger. After the work  
has been completed a new carpet will  
be put in the church.

### Hope Crush to Earth.

Will rise again in the bosom of a dyspeptic wise  
enough to substitute for the pseudonities,  
which have been banished him out of his be-  
lief the possibility of cure, the real invari-  
ant and stomachic, Hostetter's Stomach Bitters.  
The bilious, the nervous, the dyspeptic,  
the rheumatic alike derive speedy benefit from this  
helpful botanic medicine. Persons suffering from  
indigestion will gain no positive permanent good  
from the fiery, unmediated stimulants of com-  
monly used recklessly. The Bitters is immeasur-  
ably to be preferred to these as a tonic, since  
its pure base is modified by the conjunction  
with it of vegetable ingredients of the highest  
remedial excellence. Malaria is prevented and  
remedied by it, and it infuses vigor into the  
weak and sickly. A wineglassful three times a  
day is the average dose.

### His Tongue Stuck to a Lamp-post.

At York, Pa., Sunday morning  
Charles Snyder, a lad, about thirteen  
years old, was persuaded to put his  
tongue against an iron lamp-post.  
When the tongue touched the cold iron  
it quickly and firmly adhered to it.  
The boy cried as best he could, and a  
number of persons gathered around  
him. Mr. William Witta, with his  
pocket-knife, cut the skin from his

have been troubled for years with dys-  
pepsia and have taken a great deal of  
medicine to no avail and finally thought

have now taken four bottles and it has  
helped me a great deal and I am now

### ROCKY RIDGE NEWS.

Rocky Ridge, Feb. 5.—We are yet  
lingering in the lap of winter, with  
fine sleighing and the merry bells are  
heard early and late. Truly, February

January did.

### Coasting in Rocking Chairs on the Snow Crust.

On the hills of Washington county,  
which are covered with a smooth crust  
of ice an inch thick, coasting is now a  
prime sport. The coasters do not con-  
fine themselves to sleds, but are using  
anything conveniently at hand, even  
rocking-chairs. It is not an infrequent  
sight to see a big hill covered with  
people, some of them sliding down  
comfortably in rocking chairs. Some  
of the boys used big tin pans and some  
were satisfied with only a shingle. Skat-  
ing is as fine on the snow crust as a party  
on the Potomac river and ponds. As a  
party from Middletown, Frederick county,  
skated nearly the entire distance to  
Boonsboro' on the snow crust.—Sun.

### BLINDING SNOW STORM.

The Engine on the E. R. R. stuck in a  
Snow Drift at 7 o'clock this morning.  
—No Mails.—Roads Blocked and  
Travelling Almost Impossible.

At an early hour on Thursday morn-  
ing a fine snow began falling and con-  
tinued all day and the greater part of  
the night, and with the dawn of this  
morning, the snow had reached a depth  
of twelve inches or more. In the even-  
ing the wind arose and the snow being  
carried in blinding sheets, began to  
drift rapidly.

Owing to the prevailing snowstorm  
the mail arrived here yesterday even-  
ing an hour later than schedule time.  
The passenger car was left at Rocky  
Ridge over night. The engine being  
unable to pull both the passenger and  
baggage cars through the drifted snow.

The railroad men on the Emmitsburg  
Railroad thinking that they might pos-  
sibly keep the road open by running  
the engine from this place to Rocky  
Ridge during the night, were success-  
ful in their attempts until 2 o'clock this  
morning, when the engine was run into  
a tremendously large snow drift in  
McCarren's cut. The engine was  
wedged so tightly in the snow that it  
could not be moved either forward or  
backward, and all hope of keeping the  
tracks clear, had to be abandoned and  
the engine was left standing in the  
snow bank, almost wholly covered from  
view by the snow.

A large number of men went to work  
on the road with shovels this morning  
to dig the engine out of the snow and to  
clear the drifts from the track.

As we go to press this morning no  
mail has yet arrived in town, and none  
has been taken from here, and it is very  
doubtful if the train will be able to  
reach here before this evening, if at  
that time.

In some of the public roads leading to  
town, especially those running north  
and south, the snow drifts are as high  
as the fences, making travelling with  
teams almost an impossibility.

The wind is still fiercely blowing and  
the snow continues to drift.

This is the worst snow storm that  
has visited this community in many  
long years, and we heard a traveling  
man say this morning that it is the  
worst snow blizzard that he could re-  
member of within thirty years. Wheth-  
er or not this statement is correct we  
are unprepared to say.

### Cold Weather.

We are having the coldest weather  
experienced in this section of the  
country for a number of years, and  
with the large snow drifts and block-  
aded roads, the present winter has  
gained the appellation of an "old time  
winter," and judging from the present  
condition of the atmosphere, and the  
predictions of the weather men, we  
can hardly look for a warm wave to  
strike this section for sometime to  
come. The poor ground hog will have  
to shoulder all the blame for this con-  
dition of affairs. Last Sunday morn-  
ing the mercury in the thermometer  
was down to the zero point. On Tues-  
day morning it registered 6 degrees  
above. Wednesday morning was the  
coldest of the winter of 1894-5, it being  
2 degrees below zero. Thursday morn-  
ing it registered 4 degrees above. This  
morning it was down to zero.

During the past several days very  
few sleighs have been seen on the  
streets, owing to the intense cold.  
Only those who have been compelled  
by business engagements, ventured out.

### Prof. G. Kochenbach Dead.

Prof. Gottfried Kochenbach, form-  
erly of this place, died in Altoona, Pa.,  
Saturday, Feb. 2. Death was caused  
by consumption. Prof. Kochenbach  
was well known here. He was pro-  
fessor of music at Mt. St. Mary's  
College for several years, and was a  
musician of considerable ability. He  
was married to Miss Maggie Donoghue,  
daughter of Mr. John Donoghue, form-  
erly of this place, who with several  
small children, survive him. The fol-  
lowing sketch of the Professor's life is  
taken from the Altoona, Pa., Times of  
February 4:

After an illness of two months pro-  
fessor Gottfried Kochenbach, of 1621  
Seventh avenue, died at his home, on  
Saturday morning, at 6 o'clock. Death  
was caused by consumption. The de-  
ceased was born on Feb. 13, 1857 near  
Bonn, Germany. He was educated at  
the university at Bonn, and graduated  
in its conservatory of music. He then  
came to America and settled in Emmits-  
burg, Md., where he was for six years a  
professor in music at Mount St. Mary's  
college. He has been teaching music,  
and is a member of Gilmore's band.  
The deceased was a member of St.  
Mary's Catholic church. He was re-  
cognized as one of the leading musi-  
cians of the city, and was especially a  
favorite among the German residents.

### Lecture By Dr. James A. Mitchell.

On Saturday evening Dr. James A.  
Mitchell, professor of natural science at  
Mount St. Mary's College, Emmitsburg,  
delivered, before the sisters and young  
ladies of St. Joseph's Academy, his  
third illustrated lecture on "Other  
Worlds Than Ours." Very Rev. P. V.  
Kavanaugh, C. M., ex-president of  
Niagara University, Rev. J. A. Maloney,  
C. M., and Rev. J. Lavezeri, C. M. were  
also present. The professor illustrated  
the various systems that have been de-  
vised to explain the motions of the  
heavenly bodies, showed the merits  
and faults of each and proved wherein  
the Copernican system is the true one.  
Recent photographs of the moon, which  
the lecturer obtained from the Lick  
Observatory, and photographs of the  
planet Mars, made by the late Father  
Secchi, S. J., in Rome, were shown and  
explained. Regarding the idea of  
other habitable worlds the professor  
said that the difference of the amount  
of light and heat which the planets re-  
ceive from the sun, their surface  
gravity and the density of their at-  
mospheres rendered it impossible the  
existence of any forms of life with  
which we are acquainted.

### CHURCH WORK CONVENTION.

The Reformed Church Work Con-  
vention of Frederick county, was held  
in the Church of the Incarnation, of  
which the Rev. Alfred M. Schaffner is  
pastor, in this place, on Tuesday even-  
ing, Wednesday and Thursday of this  
week. The meetings were presided over  
by District Chairman, Rev. Atwill Con-  
ner, and consisted of prayer, singing  
and the discussion of the subjects as-  
signed for the different sessions.

These meetings were of both an in-  
teresting and highly instructive nature,  
as the topics discussed are of much im-  
portance to the welfare and prosperity  
of the church. Notwithstanding the  
very cold and disagreeable weather,  
the meetings were attended by all who  
could make it suit to be present.

The first session was held Tuesday  
evening at 7:30 o'clock, and the topic—  
"The Christian Church and Its Func-  
tions," were ably discussed by Rev.  
J. B. Kerschner and Rev. T. F. Hoff-  
meier.

Wednesday morning at 9 o'clock, a  
ministerial Conference was held at the  
Parsonage. At 2 o'clock in the after-  
noon the topic, "The Functions of the  
Christian Ministry, Pastors, Elders and  
Deacons," was discussed by Rev. E. R.  
Fischbach, D. D., Rev. J. R. Lewis and  
Rev. G. A. Whitmore. At 7:30 o'clock  
in the evening the subject of discus-  
sion was "The Sunday School," and  
many interesting suggestions were  
given on what the speakers considered  
the best means and methods of teaching  
the scholars in the Sunday Schools.  
Those who spoke on this subject were,  
Rev. A. Conner, Rev. J. R. Lewis, Rev.  
T. F. Hoffmeier and Rev. Dr. Esch-  
bach.

On Thursday morning at 9 o'clock,  
The Frederick County Ministerial As-  
sociation, met at the Parsonage and  
elected the yearly officers of the asso-  
ciation as follows: President, Rev. A.  
Conner; Secretary and Treasurer, Rev.  
T. F. Hoffmeier. The next meeting of  
the ministerial association will be held  
at Frederick, on Monday, March 25.

The topic for discussion at that meeting  
is "The Characteristics of the Reformed  
Church in the United States." Primar-  
ius, Rev. Alfred M. Schaffner, of Em-  
mitsburg and Secundus, Rev. H. F.  
Dittmar, of Jefferson.

In the afternoon at 2 o'clock at the  
Church, the subject under consideration  
was "Catechization." The discussion  
was led by Rev. T. F. Hoffmeier, whilst  
the other ministers present also gave  
expression of their views on the subject.

The final session was held at 7:30  
o'clock in the evening, when the sub-  
ject of "Almsgiving as an act of Chris-  
tian Worship," was thoroughly discus-  
ed by Revs. J. R. Lewis, T. F. Hoff-  
meier and A. Conner.
