What is

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhœa and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Case toria is the Children's Panacea-the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

Dr. G. C. Osgood, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium. morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

DR. J. F. KINCHELOE,

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription

ALLEN C. SMITH, Pres., The Centaur Company, 77 Murray Street, New York City.

known to me."

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

W HAVE a first-class Livery in connec I ton with the Emrnit House, and am prepared to firnish the public with good and sife driving horses, with good carriages. I also make a specialty of furnishing first-class carriages for Wedding Parties, Funerals, etc. Charges moderate. Respectfully, JACOB SMITH, Emmitsburg, Md. Give me a call.

FIRE IN WASHINGTON.

The storm which passed over Washington, D. C., Monday night, left in its wake the most disastrious fire that has visited that city in years. Lightning struck a wire in the Postal Telegraph office, situated in the commission house of W. S. Anderson, 919 B Street, northwest, and set fire to the table where the By this time they had gutted between twenty and twenty-five commated to exceed \$200,000.

"The Latest Style in Bonnets,"

and the very newest thing in "Dress Patterns." are not half as important as the perfect health of the ladies who wear them. For without health there is little enjoyment in life and no desire for dresses and bonnets. When ladies are suffering from pains in the back, nervousifess, neuralgia, inflammation of internal organs, "Female Weak ness" and derangement, the use of Dr Pierce's Favorite Prescription will bring immediate relief and, in due time, a complete, a perfect cure. Druggists

DIED. FAVORITE.-On May 15, 1896, the residence of its parents in this District, of brain affection, Henry Lenard Favorite, aged 8 months and Funeral services were held at Mt. St. Mary's church, Sunday morning. Rev.

Gladness Comes With a better understanding of the VV transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual dis ease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you pur-chase, that you have the genuine arti-cle, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative. ne should have the best, and with the well-informed everywhere, Syrna of

THE LAND O' THE LEAL. I'm wearing awa' Jean, Like snaw when it's thaw, Jean, I'm y earing awa' To the land o' the leal. They's nae sorrow there, Jean,
There's neither cauld nor care, Jean,
The day is aye fair
In the land o' the leal.

Ye were aye leal and true, Jean, Your task's ended noc' Jean, And I'll welcome you

To the land o' the leal.
Our bonnie bairn's there, Jean,
She was baith guid and fair, Jean,
Ohl we grudged her right sair
To the land o' the leal.

Then dry that tearfu' e'e, Jean, My soul langs to be free, Jean, And angels wait on me To the land of the leal. Now fare ye weel, my ain Jean, This warld's care is vain, Jean; We'll meet and aye be fain e'll meet and o' the leal.

—Lady Nairn.

SMOKELESS POWDER.

Its Advantages and Disadvantages For the Sportsman Described.

According to a Sportsmen's Review writer, smokeless powder is confusingly varying. If the rifle is used on a warm day, it shoots with smokeless powder with flat trajectory and great penetration, but on a cold day it seems to be frozen stiff and shoots differently, taking a high trajectory and giving less penetration, and so the smokeless powder user would do well to take a thermometer along marked with the variation of inches in the trajectory. The smokeless powder would be worth the trouble, evidently, because "the bullet fired by 30 grains of the smokeless tora a third larger hole than the bullet fired by 75 grains of black powder." That means that a deer shot in the paunch with a 45 caliber bullet driven by smokeless would die in half the time that one shot with a black powder driven bullet would, because the shock is so much greater with the swifter smokeless ball, which literally flies to pieces. Another thing about the smokeless

powder is not inconsiderable. "It was as good a hold as ever I made," the experimenter writes, "and the antelope wilted in his tracks. The band bunched up and ran in a semicircle at about the same distance (125 yards) from me, and I got in two more smokeless shots, and then by mistake one of black powder. I knew the latter immediately, for on firing it the 200 animals disappeared in a cloud of smoke that only dissipated as the tail end of the lot bobbed over the hill crest. I had killed every one that I shot at." With all smokeless powder shells, he would have got two more shots anyhow.
