

LICENSE DECISION.

The Court of Appeals has rendered an important opinion. A Baltimore county man had been indicted for selling goods without a license.

"When stock in trade owned by a licensed trader is taken from his store and is carried about in a wagon or on a car beyond the limits covered by his license, and sold and delivered there from, this is selling in a fixed place of business—not, it is true, in the sense that the wagon or car is stationary, like a house, but in the broader sense employed in the statute, that the wagon or car is a regular established place where bartering and selling of goods, wares and merchandise therein contained are conducted precisely in the same way as though the wagon or car was a store.

"We find no error in the judgment of conviction."

A SAWYER'S PERIL.

Lafayette C. Wimbrow, a sawyer, employed in a mill near Pittsville, Wicomico county, belonging to James H. West, was caught in the machinery and came very near being killed. He fell against the saw shaft, which was turning at the rate of 700 revolutions per minute, and which revolved up a corner of his blouse and twirled him around and jammed him against a pulley also revolving at a high rate of speed.

It Will Surprise You.

On receipt of ten cents, cash or stamps, a generous sample will be mailed of the most popular Catarrh and Hay Fever Cure (Ely's Cream Balm) sufficient to demonstrate its great merit. Full size 50c.

ELY BROTHERS,

A TERRIBLE DEATH.

Katie Klinedinst, aged nineteen years, who was about to become a mother, sought a horrible death at Stoverstown, York county, Pa., Wednesday.

She went into a cornfield on her father's farm, set fire to a shock of fodder and threw herself into the flames. Before she had been burned to death she was discovered and carried home.

Medical aid was summoned, but she was burned beyond all help and a few hours afterward she died. A short time before her death she gave birth to a child, which still lives.—Sun.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work.

Kindle Fire with Crutches.

For four years I have suffered with a very bad case of Rheumatism and have been compelled to walk on crutches; the doctor says that my case is chronic and incurable. I tried the Yager's Liniment and I must say that it is the best Liniment to relieve pain that I have ever used, and its action is prompt and effective.

I have been affected with chronic Rheumatism in my back and hips for 16 years; have used various kinds of Liniments, and so-called Pain Killers, but I was advised by a friend of mine to try your Yager's Liniment, and the one bottle relieved me, and was so well pleased with the first bottle that I purchased another, and will never be without it.

WASHINGTON LETTER.

WASHINGTON, Nov. 23.—President vs. President-elect promises to be one of the most important features of the short session of Congress. The influence of the two men will be squarely pitted against each other in the question of whether this Congress shall attempt to legislate for the increase of the revenues of the Government.

Dr. Pierce's Golden Medical Discovery makes health, it makes pure, rich blood, it forces out impurities and kills germs. It doesn't make any difference what name you call your trouble by—dyspepsia—kidney disease—rheumatism—consumption—skin disease—the "Golden Medical Discovery" will cure it absolutely. None of these diseases can retain hold on the body when it is full of rich, pure blood.

Thief Who Was Used to Steal.

On retiring late Saturday night John Staats, of No. 519 East Seventh street, Wilmington, Del., left his front door unlocked in order to let the younger members of the family in without disturbing his slumbers. An unknown man happened along, entered and quietly took possession.

The visitor went to the kitchen, turned up the lights, rekindled the fire and prepared himself a feast of choice dainties that the Staats family had ready for Sunday dinner. Afterward the unwelcome guest went to the bathroom and washed himself, using some of Mr. Staats' tooth-powder in the operation. A son of Mr. Staats was aroused by the noise, but the stranger heard him and escaped. The only thing missing was a pair of stockings.

Charles R. Crisp Nominated.

The democratic congressional convention to nominate a candidate to fill the unexpired term of Hon. Charles F. Crisp was held at Hawkinsville, Ga., Tuesday. Charles R. Crisp, eldest son of the late ex-Speaker, was nominated by a rising vote. Mr. Crisp will be elected without opposition. He is twenty-six years old and will be one of the youngest members who ever occupied a seat in the national legislative halls.

The Field of Antietam.

William Delaney and Frank Delaney, of Sharpsburg, who had the contract to paint the iron tablets placed on Antietam battlefield, have finished the job. There are between 300 and 400 of the tablets, each of which contains some account of the battle or the position of the troops. The plates were first painted black and then the raised letters were painted white.

The great base for the Ninth New York Regiment's monument has been drawn from the Sharpsburg Station to its site on the battlefield.

The brass cannons which the War Department donated to the Antietam battlefield commission and which have been lying for some time at the station at Sharpsburg will shortly be placed in position over the battlefield, marking where prominent officers fell. The cannons will be set in stone.

Killed in an Explosion. A heavy explosion occurred at the St. Louis Gilson Asphaltnum Company's mine, near Fort Duchesne, Wednesday, in which two men were killed and three others badly injured. The killed were: Charles Anderson, of Ashley Utah, and Andrew Garus, of Park City, Utah. The injured men are freighters from Price, Utah, named Warren and Bruce, and one unknown. The report of the explosion was heard at Vernal, thirty miles away. All the buildings at the fort were shaken, and many window glasses broken. The explosion was caused by the combustion of asphaltum dust and gas, the mine immediately taking fire. The flames rose from all three shafts one hundred feet in the air.

Nerves are fed by the blood and are therefore like it in character. Nerves will be weak and exhausted if the blood is thin, pale and impure. Nerves will surely be strong and steady if the blood is rich, red and vigorous. Nerves find a true friend in Hood's Sarsaparilla because it makes rich, red blood. A Football Accident.

Howard M. Johnson, a student at Jacob Tome Institute, Port Deposit, Md., and member of the J. T. I. football team, had his right leg broken between the ankle and knee while participating on the institute grounds Monday afternoon. This is the severest of a number of painful accidents which have happened to the players, and it is quite probable that students will hereafter be prohibited from playing football.

A CANCEROUS affection on the index finger of Miss Clemmie Miller's left hand having refused to yield to treatment, amputation became necessary and Drs. Birely and Walters, of Thurmont, on Saturday last performed the operation. The patient is doing well. Miss Miller is a daughter of Mr. Martin Miller, of Catactin Furnace.

Do You Want to be a Martyr?

Probably not! But if you do, try and get the typhoid by using food. Then you'll suffer martyrdom with a vengeance! Some people are martyrs to this complaint from childhood to the grave, suffering from all its attendant horrors of heartburn, wind and pain in the stomach, weary slumber and nightmare, capricious appetite, gaseous biliousness, leanness and sallowness. No necessity for it. The complaint, obstinate as it is, when the ordinary remedies are brought to bear upon it, invariably yields to the great stomachic, Bileo's Stomach Bitters, which restores tranquility to the gastric region and cures the liver and bowels, path which are disturbed by weakness of the stomach, and promotes appetite and an increase of flesh. "It is 'roast of the soul,' the dinner bell, when it speaks upon the ear, suggests no pretension of dire qualms after a comfortable meal if you have used Bileo's Stomach Bitters, which restores tranquility, rouses the system, nervousness, malaria and kidney trouble.

A Slight Fire.
On Tuesday whilst Mr. Maurice Gilman, of near town, was butchering, the roof of his house caught fire. The fire was extinguished before much damage was done to the building.

Wealthy Gypsies.

A BAND of gypsies passed through Washington county on their way to Shepherdstown. One wagon in their train cost \$2,000 and was luxuriously furnished.

Heavy Weights.

On Tuesday Mr. John M. Bell, of near town, killed three fine heavy hogs, the weight of which were, 431, 385 and 295 pounds. The last named was a March pig.

On Tuesday Mr. John Seibore killed two hogs, which weighed 387 and 379 pounds.

Bakers' Association.

The bakers of Frederick have formed an organization for the purpose of establishing a uniform price and weight of bread and elected these officers: President, John Hershberger; vice-president, Adam Riland; secretary, Henry Schell; treasurer, Rudolph Neidhart.

Cardinal Gibbons Will Confirm a Class of Children at St. Joseph's Church.

His Eminence Cardinal Gibbons will make an official visit to St. Joseph's Catholic Church, in this place, on Monday, Nov. 30, for the purpose of confirming a class of children in the church. The confirmation service is expected to take place at 11:30 o'clock, a. m. On arriving at the depot the Cardinal will be met by members of the church, the scholars of St. Euphemia's School, and the Emmitt Cornet Band and escorted to the church.

Two Accidents.

Mr. John Gallor, aged sixty-five, of Mapleville, two and a half miles from Boonsboro, Washington county, fell from his wagon and the wheels passed over his body, breaking his right arm, severely hurting his leg and internally injuring him.

George O'Neal, a young man employed by Mr. Magaha, near Burkittsville, was thrown from a buggy in some manner while returning from Point of Rocks last Saturday night and had one of his legs broken.

Dr. Rinehart's Barn Burned.

The barn of Dr. J. Rinehart, at Frizzelburg, was burned to the ground Tuesday night about 10 o'clock. The horses were saved, but two hogs were burned and a buggy and carriage badly damaged. The barn was insured for \$450. There was great excitement around the scene of the fire, as it was only by very hard work on the part of three or four hundred people that had gathered from Uniontown, Mayberry and Westminster that the residences of John T. Derr and William Yingling, who live near Dr. Rinehart's, were saved from the flames.

An Important Difference.

To make it apparent to thousands, who think themselves ill, that they are not afflicted with any disease, but that the system simply needs cleansing is to bring comfort home to their hearts, as a costive condition is easily cured by using Syrup of Figs. Manufactured by the California Fig Syrup Company only, and sold by all druggists.

Diphtheria Desolates a Family.

The family of Humphrey Billinger, a well-known young farmer four miles from Chambersburg, Pa., has been almost wiped out by diphtheria. Two boys, the only children, died within the past ten days; the mother followed them Monday morning, and the father is quite sick with the same disease. Diphtheria is prevalent in many country districts thereabouts. In three or four instances there were ten to a family. The Franklin County Medical Society lately recommended the use of anti-toxine, and a number of physicians will try the remedy.

An Impostor.

On Saturday afternoon last a man giving his name as Watson passed through Myersville begging for money. He claimed that he had resided in the mountain above Pleasant Walk, this county, but that on the above morning while at breakfast, his house took fire and burned down, destroying all his property, and that he was left destitute. He said that part of his loss was 150 pounds of meat. He secured small sums of money from several of the citizens. It has since been ascertained that the man did not live where he stated and that there had been no fire in that vicinity. The man is doubtless an impostor. The house-burning racket is an old one to many people there.

PERSONALS.

Mrs. Francis Lambert has gone to Baltimore, where she expects to remain until the holidays.

Dr. J. Kay Wrigley, of Altoona, Pa., was in town Tuesday.

Mr. J. C. Stoner and wife, of Sylvan, Pa., are visiting Mr. and Mrs. Pius Felix.

Mr. Wm. Speed, of Baltimore, visited at Mr. S. N. McNair's.

Mrs. Josephine McIntire, of Frederick, is visiting her daughter, Mrs. F. A. Wely, at "Penola Farm," near town.

Fire in Hagerstown.

Fire broke out shortly after 1 o'clock Tuesday morning in the fruit package and basket factory in the West End of Hagerstown and inside of thirty minutes was totally destroyed. The factory was owned by Mr. John H. Gassaway, of Montgomery county, Md., and from him was leased by Mr. George B. Cearfoss, of Hagerstown, who has been conducting the factory for several years.

The building was a large brick one, two stories high and covered by a tin roof. In it were manufactured peach baskets, carriers and crates and little wood butter dishes. A considerable quantity of manufactured stock was also burned, along with five carloads of lumber and logs which had just been received.

It was Mr. Cearfoss' intention to start up the factory, which has been idle since the peach season, Tuesday morning, and his watchman, Isaac Cearfoss, uncle of the renter, had fired up an engine with the purpose of getting ready for the morning's operations.

The building was located about twenty five yards from the Western Maryland Railroad engine-house. The alarm was given by blowing the locomotive whistles. All of the six fire companies responded, but the building was too far gone to be saved.

Mr. Cearfoss estimates his loss at \$10,000. He had \$4,000 insurance on the machinery and \$800 on the stock. The building was insured for \$4,000.

The Law and the Militia.

Several weeks ago a writ was sworn out in Carroll county for the arrest of Henry W. Gittings, aged twenty-five years. As the young man had left the county and it was learned he was in Frederick county, the papers were sent to Magistrate Biser at Frederick, to be served. The officers learning that Gittings had joined the Frederick Riflemen, and knowing they were to have an official inspection Monday night, Officer Simpson repaired to their armory. He stood upon the outside, and when the soldier responded to the roll-call he walked in and placed him under arrest. He was taken before Magistrate Biser.

In the meantime Captain Shipley and Lieutenant Tyson, having been apprised of the arrest, appeared before Justice Biser and demanded the man's release, stating that the officers had no authority to arrest the prisoner while serving in his duty as a soldier. The justice refused to release the prisoner unless the military officers furnished bond for his appearance after the inspection. This they declined to do and appealed to Chief Judge McSherry. The Judge declined to interfere and said the civil authorities had a perfect right to arrest them under the circumstances, the power of the civil law being higher than military authority in times of peace beyond all question. The prisoner was held in bond for a hearing Wednesday, when he will be turned over to the Carroll county authorities.

Contesting for the Estate of John McCaffery.

Mr. George B. Oswald, clerk of the Circuit Court for Washington County, was at Hancock, last Saturday certifying to testimony which was taken there in the famous John McCaffery case. The testimony taken pertained to the marriage of McCaffery, who years ago lived at Hancock and was employed as a boatman on the Chesapeake and Ohio canal, to Nancy Gano. Clerk Oswald sent to Chicago a certified copy of the marriage license issued about fifty years ago to McCaffery and Miss Gano. McCaffery accumulated a fortune of nearly \$300,000 in Chicago, where he died without a will. Many relatives are now contesting for a share of the estate. One of these is Mrs. Shipley, of the Downsville district, Washington county. McCaffery it is said, had several wives, and heirs have sprung up suddenly in many parts of the country.

276 Inmates.

The number of inmates at Montevue Hospital, Frederick, last Saturday, was 276, of this number 144 were white, and 80 colored, and 52 tramps.

Twenty-five head of hogs were killed at the Institution last week. They weighed 6,710 pounds, being an average of a little more than 268 pounds for each hog.

PROJECTED RAILROAD.

Several months ago mention was made in the CHRONICLE of a company being formed for the purpose of building a railroad from Washington, D. C., to Gettysburg via Emmitsburg. The project is still alive, and is now in such a condition as to lead us to believe that the road will be built at some future time.

The company is working under a charter known as the Baltimore and Washington Transit Company, and under this charter it has the right to construct and operate throughout the State of Maryland. It may use either steam or electricity; it may carry both freight and passengers, and it has the power of condemnation. Its capital stock is \$1,000,000, divided into shares of fifty dollars each, and it also has the power to issue bonds equal to its stock, and its stock may be increased at any time upon application to the court, and its bond issue may then be increased to a similar amount.

We have it from good authority that this railroad has been duly organized, and that \$110,000 of its stock has been subscribed for. The route as surveyed and contemplated is via Takoma Park, Md., Sandy Springs, Olney, Laytonville, Frederick city, Hansenville, Thurmont, Emmitsburg, State Line, Gettysburg.

It is hoped that the people of this place will give the company such substantial encouragement that Emmitsburg will secure the road.

A Carroll County Fortune at Issue in Court.

A case which bids fair to become a cause celebre in the annals of the Circuit Court for Carroll county was taken up for trial at Westminster, Monday, for the second time, having been first tried at the last February term of the court, when the jury failed to agree. It is known as the Arter will case, and is exciting great interest over the county, but particularly in Myers district, where it originated. The will under contest is that of a well known farmer named Enoch Arter, who died in June, 1895, leaving an estate valued at \$20,000, and consisting of several farms and other property. The testator left a widow and one son—Noah N. Arter, his only child. The will was executed August 5, 1894, and cuts off the son with a bequest of \$5, leaving the remainder of the estate to the testator's aunt, Catherine Arter, for and during the term of her natural life, and then to Susan Arter, his wife, if living, with final reversion to Virginia Arter and Howard Edgar Arter, children of Noah N. Arter, and grandchildren of the testator. The will was filed for probate in the Orphans' Court of Carroll county, and a caveat entered by Noah N. Arter, from whence it was carried, on issues, to the Circuit Court. The caveat alleges undue influence and mental incapacity to execute a will on the part of the testator, and the legal sufficiency of the instrument is also questioned. The will was written by M. Theodore Yeiser, and attested by George W. Yeiser, Joseph Myers and Emory D. A. Uz, in whose presence it was signed by Enoch Arter. Over a hundred witnesses have been summoned in the case, and the trial will be prolonged and hotly contested. Ex-Judge Bond and Claiborn and Roberts are counsel for the caveat, and Reifsnider & Reifsnider and Stockdale for the caveat. —American.

As a Match-Maker.

Sheriff A. C. McBride, besides being a most excellent official has proven himself a first class match maker. Under trying and vexatious circumstances last week he succeeded in bringing about a consummation that has often puzzled the most scheming matron. He did it all in a very short time and the best of it was that everything turned out as merry as a summer's day.

About a week ago a young man named Charles Franklin Staub, aged twenty-two years, of near Greagerstown, was arrested and lodged in jail. Later in the week a young lady, Miss Effie Smith, of the same locality, paid him a visit. She was accompanied behind the bars by Sheriff McBride, and after the exchange of a few words the experienced third person discovered that they were not strange strangers. Soon the subject of matrimony was brought up and almost immediately there was a lull in the conversation. Here it was that the sheriff proved himself a general, and so artfully did he dwell upon the subject that the couple at once became engaged. Before leaving they agreed that Saturday should be their wedding day. In the meantime the young man's father heard what had taken place and he also visited his son at the jail. Matters were amicably discussed and the father promised to give the young people a home with his family until spring. Saturday last the prospective bride came to Frederick, a marriage license was procured and the two were wedded in the afternoon by Rev. G. C. H. Hasskarl.

Under ordinary circumstances the bridegroom should have been taken back to jail, but Sheriff McBride interceded and had him released on habeas corpus. It was a considerable piece of work to be done in a short space of time, but through the kindness of Magistrate White, who tendered his services free of charge on the occasion, the case was presented before the court and the prisoner was discharged.

FAIRFIELD ITEMS.

FAIRFIELD, NOV. 24.—Mr. and Mrs. Wm. Row, of near Mount Holly, are the guests of Mr. and Mrs. J. C. Shterzer, of Fairfield.

Messrs. Charles Harbaugh and Wm. Beckey, of Walkersville, Md., and Miss Miller, of Mother's Station, Md., are the guests of Miss Altona Dubs, of Highland township.

Miss Grace Myers, of Table Rock, Miss Coleman, of New Oxford, Miss Rose Harbold, of Gettysburg, are visitors to this place.

Mr. Harry Plank who is attending the N. S. at Shippensburg is spending a few days at his home near this place. The G. A. B. Bean Bake was largely attended on last Saturday night at Fairfield is never left when there is something to eat. Turn out boys, the world owes us all a living.

Mr. Carbaugh, our barber, of Fairfield, has bought a new \$45.00 chair. He expects a big trade since McKinley is elected.

First the cage, then the bird. Mr. Samuel Brown of this place, has taken to himself a wife. Now he has bought a property along Main Street, Fairfield, from Mrs. George Spaulding for \$900.

Mr. L. Artzberger, of Fairfield, is having a new roof put on his building at the tanyard. Mr. Harry Keener is doing the work.

Miss H. M. Hafer, who was visiting her parents at this place, left for her home on Tuesday, at Womelsdorf.

The teachers of this place are all attending the institute this week.

People in this section of the country are killing their corn. Rather early to kill large hogs. Corn is very plentiful. There is some corn to husk as yet, in this vicinity. Rather cold to husk corn.

Letters From the Emigrants.

Friends in Washington county have received letters from the band of colonists who last week left that county to settle at Fruitdale, Ala. The trip was safely made, a distance of 1096 miles having been traveled. The live-stock, poultry, furniture and farming implements arrived one hour later. Mr. J. Mitchell Stover, one of the colonists, has been elected as a member of the board of trustees of the German Baptist Brethren School Company, which proposes building a college at once at Fruitdale.

AN AUTUMNAL STROLL TO ST. JOSEPH'S.

(The following is one of the seventeen compositions recently handed in by the girls of St. Euphemia's School.)

Last Tuesday three weeks, Oct. 25, 1896, our esteemed pastor Rev. Father Landry, came into our school room about one o'clock and invited our class, by the request of Mother Mariana, to accompany him to St. Joseph's to see the beautiful Altar, as the Forty Hours Devotion had terminated that morning. Our books were immediately put aside and it was not long until we were on our way towards that renowned Institution. The afternoon was delightful and Father kindly pointed out all items of interest. One of the most beautiful and picturesque scenes that was viewed, by our little party, on our way was the grand old mountain with its many hued leaves. We also had an elegant view of the historic Mt. St. Mary's. We then wended our way up the Avenue and in a few moments entered the beautiful Church in which we viewed the magnificent Altar. From thence we proceeded to the spacious Distribution Hall, and then into the children's play yard, to the Stone House, in which was read a very interesting account of the Venerable Mother Seton, the foundress of the famed St. Joseph's in 1800. From there we went to the wash house where we saw the latest process for washing, everything needed for the work, in the most convenient manner.

We then returned to the yard and proceeded to the White House, in which Mother Seton departed this life.

Sister Juliana, the Sister who accompanied us, kindly explained every object of interest. After which she gave us a generous treat of confections, which we all enjoyed very much.

But the greatest treat of all was to be permitted to visit the Chapel of Lourdes, which reminded us of the great privilege Little Benaudette was allowed to enjoy in the Blessed Virgin appearing to her. On our way home we visited the cemetery, the resting place of Bishop Bailey, Mother Seton, and many other holy Priests and Sisters.

We then returned to Emmitsburg, sincerely thanking Dear Father Landry for the extreme pleasure which he afforded us that beautiful balmy October afternoon.

Some Women are Born Stronger than Others.

Some women are born stronger than others. Some are born with what is called "constitutional weakness." It is easier for some women to retain health and strength than it is for others. Some seem able to do anything they like, whenever they wish, without serious results. Still, there is no reason why women should not enjoy perfect health. Those who do not, need only to take the proper precautions and the proper remedy to become perfectly well and strong. Dr. Pierce's Favorite Prescription will cure any derangement of the distinctly feminine organism. It is absolutely certain. There are some who have neglected themselves so long that a complete cure is next to impossible, but even these will find comfort and improved health in the use of the "Favorite Prescription." It has cured hundreds of women who have received no relief whatever from years of treatment with good physicians. It is absolutely unique in the history of medicine. Such a medicine can be discovered only once. There is nothing in the world like it, nor has there ever been. Its sales exceed the combined sales of all other medicines for women.

After Counterfeiters.

FREDERICK, Md., Nov. 25.—Detective White and an assistant of the secret service department of Washington, who have been in Frederick for several days on the track of several accomplices of counterfeiters, arrested Roy Anderson, of this city, and took him to Washington this morning. "Dick" Harstock, supposed to be a member of the gang, and George Shellhorn, one of his former friends, and who now appears in the employ of the detectives, accompanied the party on the early train. For several weeks past a number of counterfeit five and twenty-dollar bills have been in circulation in Washington, Harrisburg, Pa., Brunswick, Md., and Martinsburg, W. Va., which were turning up at the treasury.

Detectives learned the notes were being put in circulation by men from Frederick who were located and watched. Shellhorn, formerly of this city, a barber in Washington, was employed by the officers to endeavor to ascertain in whose possession the die was. Shellhorn came to Frederick last week and the detectives followed Saturday, and after ingratiating themselves expressed a desire to purchase some of the "queer." Yesterday morning Anderson, accompanied by Shellhorn, went to Brunswick, Md., and was followed and placed under arrest. It is now claimed Anderson weakened and made a clean breast of the whole affair and informed the detectives by which they would go to Martinsburg with him to show the house where the money was made. The quartette took the next train for Martinsburg, when the officers, with a deputy sheriff, searched the house which had been pointed out to them.

What the result of the investigation revealed the officers refused to disclose. The party returned to Frederick last night and placed "Dick" Harstock under arrest. Anderson and Harstock, who are about twenty years of age, are the men who, it is charged, were placing the notes in circulation in Washington. The officers are of opinion that the die for the note is in the possession of some one in this city. The alleged counterfeit is a five-dollar national bank note on the National Bank of Commerce, New York, series of 1882, check letter G, charter number 733, bank number 78,763, portrait of Garfield; photographic production.—Baltimore Sun.

BIG FIRE IN BALTIMORE.

Narrow Escape of Several Firemen From Death.

The plant of the Chesapeake Guano Company, at the foot of Covington street and directly in the rear of River-side Park, South Baltimore, was completely destroyed by fire Saturday morning, entailing a loss of nearly \$40,000, and indirectly resulting in the injury of three firemen. The injured men are James J. McGraw, a pipeman in Engine Company No. 7, Eutaw street and Druid Hill Avenue; Captain Louis Hoffman and Pipeman William Hall, both of Company 7. They were hurt at the corner of Lee and Sharp streets, while hurrying to the fire. Captain Hoffman's injuries were slight.

As the hose carriage in which they were seated was about to turn the corner, a wagon owned by a well known firm in the city, was in the car tracks, the driver of which, it is said, refused to get out of the way of the hurrying firemen. The driver of the hose carriage attempted to sidestep the wagon, but the sudden turn caused the hose carriage to upset, throwing occupants to the street.

The two most seriously injured were taken to the Maryland University Hospital, and will recover. Their injuries are not as serious as was at first thought. Mr. McGraw has a broken pelvis, and slight cuts and bruises over his body. Mr. Hall has a broken ankle and slight injuries over the body.

District Chief William A. Larkin had a narrow escape from an accident while hurrying to the fire. When on Light street, near Winder, the breaching strap snapped, and suddenly frightened the chief's horse so that the animal started to run away. Chief Larkin saw that the horse would soon get beyond his control with the broken harness, so he guided the animal to the sidewalk, and the horse, which did not see in the excitement. Just then Engine No. 17 came dashing by. Chief Larkin threw the lines to a friend on the sidewalk, whom he instructed to take care of the team, and then went to the fire with Company 7. The unruly horse was quieted down, the damage repaired, and the team was driven to the scene of the fire.

The fire is supposed to have started in the dry brush in the yard, where the phosphate is dried, after coming out of the acid bath. Foreman Luke Miller, who had a small force of men at work on a special job at the time, first noticed a puff of smoke come forth, and ran to the building, where a sheet of flames. He ran to the box and turned in the alarm. The origin of the fire is not known, but is supposed that a spark dropped from the machinery into a lot of dry bone, which had been ground to a fine powder.

The destroyed plant was a large one, covering an area of nearly three acres. The plant had not been operated regularly for the last two years. Occasionally it would be run for a week or so. At the time of the fire, the plant was running a portion of the plant was being run by Mr. Horner, who was getting out some "rush" work. He started it up about four days ago. Mr. Horner's firm had about \$3,000 worth of material in the building at the time. A large portion of which was destroyed. The owners of the works also had some stock stored in a shed at the extreme southern end of the works, which the firemen saved.—News.

The Randolph Lynching.

The grand jury, which was in session at Rockville, for the last three weeks, has made their report. In reference to the lynching of Sydney Randolph and the assault on the Buxton family they said: "From the evidence we have had before us we believe that Sydney Randolph was the person who, on the 25th day of May, 1896, in the town of Galthersburg, committed the fiendish assault on the Buxton family, which resulted in the death of Sadie Buxton. While we believe he had an accomplice, we have failed to find any evidence to connect others with him. We have thoroughly investigated the lynching of Sydney Randolph and have failed to find any evidence to implicate others in the crime. Our sheriff having been censured in regard to the lynching of Randolph, we wish to express our regrets and wish to exonerate him and his jailer from all accusations or blame in the matter."

Disorder in Williamsport.

On Saturday night last, at a late hour, a number of young men of Williamsport and Hagerstown became involved in a quarrel with some young colored men and commenced pelting them with stones and clubs, and going so far as to use revolvers freely. As a result, warrants were issued for fifteen of the mayor, the total fines imposed by the crown on all of them aggregating \$72 45, replenishing to some extent the coffers of the town.

On the same night the windows and doors of Peter Redmond's house was broken in by stones being thrown at it by some unknown persons, presumably the rough element of the town. Charles Tall, a citizen of the town, was shot in the leg with a 32-caliber revolver. He is unable to state who the person was that shot him. Recently small dynamite caps have been placed on the street railway tracks, making very loud reports when the cars pass over them. It is said the company will send detectives to
