WHEN YOU ARE OLD.

Ten you are old and gray and full of sleep And hedding by the fire, take down this book And slowly read and dream of the fair look Your eyes had once and of their shadows deep.

How many loved your moments of glad grace And loved your beauty with love false or

true, But one man loved the pilgrim soul in you And loved the sorrows of your changing face

And, bending down beside the glowing bars,
Murmured a little sad, "From us fied love."
He paced upon the mountains far above
And hid his face amid a crowd of stars.

### FIRE HORSES.

The Quickest Ones In the World Are Said to Be In Kansas City.

S. Dellenbaugh writes of "The Quick Horse" in St. Nicholas, his article telling of the training of horses for the fire department. Mr. Dellen-

The quickest horses in the world were at one time in Kansas City at the headguarters of its fire department, directly ander the office of the chief, Mr. George C Hale. To Mr. Hale's genius more than to any other factor the quick horse ewed his first development, for Mr. Hale is the inventor of the earliest swinging harness which made the quick horse possible. When Mr. Henry M. Stanley and his wife were in this country, they witnessed an exhibition drill of the Kansas City fire department. The drill so impressed the visitors that an account of it was published in a London journal, and this English article brought an invitation to Mr. Hale to visit England as the representative of the American fire service at the international fire tournament. Mr. Hale and a picked corps went to England, taking with them the remarkably quick horses Joe and Dan, and they became world famous. As the quickest harnessing time of the London fire brigade is 1 minute 171/2 seconds and the Kansas City horses were harnessed in 13/4 secends and were out of the engine house in less than 8 seconds, there could be no competition. In Kansas City four fine bays were harnessed to the hook and ladder truck almost as quickly as even Joe and Dan could jump into their harnesses. It was a pretty sight to see these four well kept horses spring to their places at the stroke of the gong and in two or three seconds stand ready to run with the apparatus. Joe was killed by an accident, but Dan, with a new mate, is still in service, and as quick as ever.

The record for quickest time from the engine house to the throwing of water on the fire is held by a Kansas City company. In this instance the horses were harnessed, a run of 2,194 feet (a little less than half a mile) was made, and water thrown from the hose in the wonderfully brief time of 1 minute 311/2

of Albany was the successful purchaser of "Auld Lang Syne" and the one to make the autograph one of America's Bronston who lived in a shack on a destreasures. The facts regarding its removal to this country are of peculiar interest, and they bring the history of the autograph, now more than a century old, up to date.

Mr. Pruyn was a lover of curios, and particularly of the kind connected with showed a refinement not evident in the taste of the usual collector. In 1859 the centennial of the birthday of Robert Burns was made the occasion for a celebration in different cities of the United States, and the literary people of Albany decided to observe the day by memorial exercises in a large hall on the evening of the day. Previous to the event Mr. Pruyn planned that it would be a feaththat in future he was going to whip noture if he could secure this autograph copy of the poet's "Auld Lang Syne." Henry Stevens was a famous purchaser for collections in those days, supplying a president of a railroad. By following Mr. James Lenox, Mr. John Carter this plan he succeeded in filling his time Brown, the British museum and others with some of the most valuable old self. The result was that Mr. Stevens sold the verses to Mr. Pruyn, and the manuscript was intrusted to Captain Moody, who guaranteed that it should reach Chancellor Pruyn in time for the celebration. His steamship reached New York late on the day of the celebration, leaving but a few hours to get it to Albany, or the mission would prove fruitless. The only way was for the captain to select one of his trusty men. With this special messenger it was sent from the steamer and conveyed with all dispatch directly to the hall in Albany. Mr. Pruyn was all expectant when, during the exercises, he was called from the hall. Though he was gone only a moment, all interest in what was going on upon the stage was lost for the time being. Another swing of the door, and Mr. Prnyn entered, waving aloft the manuscript and exclaiming, "It is here!" With exultant delight and amid cries of "'Aald Lang Syne' is with us!" and read the poem through. Hardly could the people be prevented from breaking in upon him, and when it was proposed to sing it through enthusiasm knew no bounds. Never did a chorus so willingly lend aid, and the familiar air

Bronston had an especial dislike for the "dude" hunters, and it was his boast that in a fair encounter he could best anything an interesting past, and his collecting wearing good clothes and carrying 57 pounds of variegated ammunition. He was kept fairly busy.

The hunting grounds, despite the presence of Bronston, became more popular year after year, until finally he had to be a little more select in his operations, as there were altogether too many visitors to allow him time to do the whole lot justice. He finally announced body under the rank of colonel in military life and nobody who in civil life wasn't at least a mayor of a big town or comfortably without overworking himmination.
