WHAT IS HOME WITHOUT SAPOLIO

SUNLIGHT

Automatic Gas Machine.

be

We have now perfected Machine for making illuminating gas from Calcium of Carbide, and claim it is the only machine made on the correct principle for the purpose generating gas from carbide and delivering to burners. For compactness, durability, neatness and effective working there is nothing equal to it. We have spent time and money to perfect machine that will be reliable and perfectly safe in the hands of the most inexperienced. We have made provision for all parts that may be neglected. No explosion could occur from any neglect which we have fully tested. All the working parts liable to corrosion are made of copper and brass, and no complicated parts to get out of order. It is so simple that it can be understood by such as have no knowledge of mechanism. As to the light produced, it should be seen to give an idea of its brilliancy, being in many respects superior to electric light and costing less than any light ever produced, and the Machine so low in price that the most humble can have gas light. We will be prepared to farnish any size machine wanted and give estimate of machine installed complete, if so desired. We ask an examination of our machine. Our long experimenting with machine and carbide has given us many useful points, which we will give by circular on application, also price, &c. We will also furnish carbide at market price. For further information call on or address,

CASTORIA. Bears the Signature The Kind You Have Always Bought ROSARY BEADS.

They Were In Use Among the Hindoos Before the Era of Buddha.

The prevailing idea in regard to a rosary is that it belongs solely to followers of the Catholic religion. But take away the cross that is hanging to the beads and we find that one must turn to the dim, mysterious east for the origin of the rosary, for it is among the tem-ples of India, China and Japan that the first sign of the practice is to be found. Ancient pictures of the Hindoo gods depict them with chaplets of beads in their hands, and it is believed that this age does not begin at any set time, so method of keeping count of their many before the era of Buddha, or at least B.

The use of the rosary seems especially suited to an eastern clime and to the repose of an oriental mind. The Buddhists are fend of using very smooth with the pathology on the other. > Coal Formation. It will be remarked that the deposits of anthracite are found in very mountainous regions. The difference between this hard and what are called the soft coals was explained to me by the late Professor William B. Rogers. When the contraction of the earth's surface took place by which the mountain regions of Pennsylvania and a few other parts of the carboniferous series were up, turned over and twisted in such a The enemy to longevity, the author continues, is self indulgence. People whe have readed an adversed expense. to become coked, or partly coked, under extreme pressure. It is due to that pressure and accompanying heat that the anthracite coals are hard and virtually free from bitumen; while, under other conditions, the bituminous or semibituminous coals are soft and more friable, containing more bituminous element. In some other parts of the earth's surface where coal is found the so called brown coals and lignites have not been subjected to the measure of heat unde pressure sufficient to convert them into

A Wonderful Discovery. The last quarter of a century records many wonderful discoveries in medicine,

ton Transcript.

An agricultural editor of Chicago made a trip into southern California severely, to the bookkeeper, "I have where he confidently expected to aston. ish the natives with his superior knowledge of scientific and successful farming. He had stretched things considerably one evening with a view to mak. ing a stronger impression, when one of the old residents, who spoke slowly and had a squint in his right eye, took charge of the conversation.

"I s'pose you hain't heerd o' my peach brandy orchi'd, mister. I reckon that's 'bout sci'ntific as anything you been tellin us 'bout. I got a certain way o' treatin them trees so that I tap 'em | could travel nearly 800 miles an hour. in th' spring, jest same's you do a maple tree, an by bottlin up th' sap fur six months I have th' fines' peach brandy you ever put down your swallow. That's kerect, an I have a neighbor as kinder lays over me in farmin. He's 'sperimented an derveloped a punkin pie punkin. He tangled up milkweed, sugar cane, eggplant, water cress an some spice plants till he got th' thing to suit th' taste, an now all you have ter do is to bile th' fruit an make your crust. He's got more boardin house orders than he kin fill in 1,000 years. Jest now I'm turnin my 'tention to th' raisin o' apple dumplin's, an I think by nex' year I kin"-

But here the agricultural editor gasped for breath and the old resident called another old resident to help get the visftor to his hotel.—Detroit Free Press.

Soup, Savory Soup.

No up to date cook prepares the stock from which her dinner soup is made the day the soup is needed. Stock for at least a week's supply should be made at once; then the preparation of the "Jabez," said the woman, "be you daily dinner soup will not occupy more here a-lyin ag'in? What made you take than 15 or 25 minutes. When consomme got so feared over there thet you was what proportion of each sauce is necessick for three weeks? Gin'rul Jackson! sary for a month's supply. This oneo prepared, the table is revolutionized so the Grand Army men that you was that the sameness that characterizes the ger known. A new sauce each day gives an entirely different flavor to the meats and vegetables. - New York Tribune.

> Dwelling in flats is making great headway in London, especially in the west end, but many persons are averse to being known as residents of such. Landlords advertise them as "mansions built in stories.'

The remedial effects of laughter are really wonderful. Cases have been known where a hearty laugh has banished disease and preserved life by a

The Foremost Position. When "The Philadelphia Record" untook inneteen years ago to demonstrate that the best of morning newspapers could be made and sold for one cent publishers were generally skeptical. But the world of readers was not asleep. Consequently "The Record" was not asleep. Consequently "The Record" was not long to reaching a commanding position, and, improving upon this, its circulation and influence were finally recognized among the foremost of America's great journals. Hence the compliment of initiation which is now paid to fit in every city of note from the Atlantic coast to the Mississippi Valley. Every city worth merticoling now has one or more good one-cent morbing dilles, though so recently as only 19 years ago Philadelphia and "The Record" stood alone is this respect.

News Concisely Published without the omission of any essential feature is still the BEST NEWS, not-withstanding the once prevalent tenden-cy to pad it and stretch it out.

The Busy Man's Paper therefore, still originates, still leads, and publishes MOKE NEWS to the column than its neighbors of larger dimensions.
