JACK'S ODD DISCHARGE.

There are many stories told about the manner in which secretaries in the different departments are hampered by what is known as regulations, law and general red tape. An instance of this occurred the other day in the Navy Department. A case had been presented to Secretary Long concerning an enlisted man who went into the navy as a sailor at the beginning of the war, but as there did not seem to be any near prospect of further fighting, the man wanted to return to his home and to his old occupation.

THE CHAMPION SLEEPERS.

Among the cases of extraordinary sleepers is that of a young American who slept from November, 1894, until the middle of January, last year—a period of thirty-eight months. He was engaged to be married to a girl, but his parents were strongly opposed to his choice of a wife. They persisted in their objection, in spite of everything he could urge, and the constant irritation at last affected his brain. One day, in a fit of ungovernable passion, he shot and killed both his father and mother. He was, of course, arrested at once, for he did not attempt to run away or to hide the evidences of his crime.

DREAMER OF NEEDLE'S EYE.

When Elias Howe invented the sewing machine he got along very well until he came to the making of a needle; then he was at a standstill, for he could not discover where the eye of the needle should be placed. At first he thought that a needle fashioned after the ordinary needle for hand sewing might be all right, but after much experimenting he found that it would not do.

SOME OLD WEALTHY BEGGARS.

Professionals Who Were Worth Amounts of Money.
In 1895 a beggar who died in Auxerre, France, was found to have 1,000,000 francs in bonds in a trunk and in his cellar 400 bottles of wine of the vintage of 1790.

THE LOST CABIN.

The western papers are again announcing that the famous "Lost Cabin" gold mine has been rediscovered. That has happened before and the mystery remains a mystery still. Deep in the barren Bad Lands of Wyoming, near the headwaters of the Big Horn, about sixty miles from Fort Washackie, the mine was originally located, and it has probably not traveled far from there in the last few years.

OPALS NOT UNLUCKY.

The superstition about the opal being an unlucky gem has about worn itself away. It is a beautiful stone, and is becoming very popular. Russell Sage has worn an opal for years. He once said he wore the stone because it was the sheep of the jewel family, and he had always found what was bad for the mob was good for the chosen few.

WHY MEN DON'T MARRY.

The extravagant theory of the young people as to the necessity for keeping up a certain style is the reason why so many of them put off marriage year after year, and finally drift into the irremediable stage of celibacy. Girls without fortunes are supported in idleness and luxury by over-indulgent parents and expect to be thus cared for after marriage.

THE CENT.

The cent consists of 95 percent of copper and 5 percent tin and zinc. There are 1,000,000,000 pennies in circulation throughout the country, and the Philadelphia mint is turning them out at the rate of 4,000,000 a month to keep up the supply.

WAR IN SAMOA.

War has broken out in Samoa again and the American and British warships have been shelling villages occupied by Mataafa's adherents.

The following facts show in brief the situation that has caused the fighting in Samoa:

The Samoan Islands are governed under a tripartite agreement, or treaty, which was negotiated at Berlin in 1889 by the United States, Great Britain and Germany.

This treaty provides for a joint protectorate over the islands by the three powers named.

Under the treaty the Samoans are secured in the right to elect their King and govern themselves in accord with native laws and customs.

A few months ago King Malietoa died, and an election for the kingship was held. The Germans backed Chief Mataafa. It was maintained that he received a majority of the votes, but Justice Chambers decided that Malietoa Tanu, a nephew of the former King, was rightfully chosen. Here the trouble began.

Mataafa and Lalletoa Tanua came to open war. Soon Mataafa won a victory and organized a provisional government, which was temporarily recognized by the American, German and British consuls.

The friction between the Germans on the one hand and the British and Americans on the other, became more pronounced.

The Samoan islands are about 14 in number and are in the South Pacific. The natives number about 40,000.

NATIONAL AFFAIRS.

A Washington dispatch states that Vice-President Hobart does not desire a renomination, and that the republican managers have determined to select a "war hero" for the second place on the national ticket next year.

The military court investigating General Miles' charges against army beef is in session at Washington. Former Commissary-General Egan will be recalled to testify and General Miles will also be given an opportunity to appear as a witness.

LIVED OVER ONE HUNDRED YEARS.

Indianapolis, Ind., March 29.—Michael Shea is dead in this city at the advanced age of 119 years. He was born in Ireland, and was a friend of Daniel O'Connell. Shea was married when he was fifty-eight years old, and has children sixty years of age.

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

CONTROL OF TRUSTS.

United States Attorney-General John W. Griggs has written to J. C. Borradaile, of Philadelphia, in reply to a letter, in which, after stating that the people are opposed to combinations in restraint of trade, Mr. Borradaile expressed the hope that the Republican party would meet the issue by instituting prosecutions under the Sherman act.

Attorney-General Griggs says: "The Sherman trust act does not give to the federal courts jurisdiction over any combination constituting a restraint and monopoly of trade, unless such trade is what is known as interstate or international trade and commerce. Combination or trust for the purpose of maintaining a monopoly in the manufacture of a necessary of life is not within the scope of the Sherman act and cannot be suppressed by the federal courts. This was decided in 1894, in the case of the United States against the combination of sugar companies.

As a matter of fact, all of the companies which you refer to as now organizing for the purpose of securing complete or partial monopoly of different branches of manufacture are similar to the sugar combination, and are not within the jurisdiction of the federal courts. If amendable to any law they are amendable to the laws of the respective State.

"It is a popular error to assert that the Attorney-General of the United States has control of the corporations or combinations which engage in manufacture in the various States. This is entirely a matter of State control, and unless the functions of interstate commerce are interfered with, I should be superfluous to attempt a crusade against affairs with which I have no business.

"With reference to these large combinations of capital which are now forming, my own judgment is that the danger is not so much to the community at large as it is to the people who are induced to put their money into the purchase of the stock."

EXPOSURE to a sudden climatic change produces cold in the head and catarrh is apt to follow. Provided with Ely's Cream Balm you are armed against Nasal Catarrh. Druggists sell it at 50 cents, or Ely Brothers, 56 Warren Street, New York, will mail the 50c. or 10c. trial size. The Balm cures without pain, does not irritate or cause sneezing. It spreads itself over an irritated and angry surface, relieving immediately the painful inflammation, cleanses and cures. Cream Balm quickly cures the cold.

TEN INCH GUN BURSTS.

SANDY HOOK, N. J., March 29.—The breach of a ten-inch gun on the proving grounds at Sandy Hook burst this afternoon while it was undergoing a test.

Henry V. Murphy, who had been recording clerk at the testing of guns for years, was killed. He had several narrow escapes from death at former tests. He leaves a widow and five children.

Privates Harrigan and Deemer, of the ordnance department were injured.

Captain Babbitt, in charge of the proving grounds, says that the accident was caused by excessive pressure of the smokeless powder charge. The gun, which burst at the fourth round, was of the 1895 model. It was destroyed, and partially wrecked the barrette carriage on which it was mounted.

ONE YEAR'S FIRES.

State Fire Marshal E. J. Lawyer has completed and forwarded to the Governor of Maryland his third annual report of the operations of his department for the year ended September 30 last. The total number of fires that have occurred in State during the past twelve months was 1,768. The loss caused by them amounted to \$1,749,562.16. The sound value of the property damaged was \$6,346,075.54. The insurance paid on the same was \$1,167,874.62, and the loss upon which there was no insurance was \$21,687.54. In Baltimore city there were 1,068 fires, causing a total loss of \$1,023,412.68, upon \$28,878.44 of which there was no insurance.

In the State outside of Baltimore city there were 700 fires, causing a total loss of \$727,149.48, upon \$252,808.10 of which there was no insurance. There were fifty fires of incendiary origin.

CATTLE GROUND TO DEATH.

The wrecking of a live stock train on the main line of the Pennsylvania Railroad, at Glen Loch, Pa., Monday afternoon, resulted in a terrible butchery of dumb animals, and the killing of the locomotive fireman. At least 150 beasts in the crowded cattle cars were slaughtered. The train was headed for New York by way of the Trenton Cut-off, and consisted of ten cars loaded with horses, steers, sheep and hogs.

When passing from the main line tracks to the cut-off the engine, through a misplaced switch, jumped the track, and the next moment the ten cattle cars were in a jumbled mass of debris, with the bodies of slaughtered animals scattered along the railroad. The surviving animals made frantic struggles to free themselves from the wreckage, and their cries were heard for a long distance.

The engineer saved himself by leaping, but his fireman, Gordon by name, whose home is at Columbia, was crushed to death.

It is stated, on good authority, that there are seven thousand boys in the United States who live, from one end of the year to the other, exclusively in tramp life, and the prospects are that the number will be increased in the years to come, if parents allow their sons to read dime novels and idly spend their time where they are sure to be under bad influences.

"A Fair Outside Is a Poor Substitute For Inward Worth."

Good health, inwardly, of the kidneys, liver and bowels, is sure to come if Hood's Sarsaparilla is promptly used.

STILL MORE COUNTERFEITING.

The Secret Service has unearthed another band of counterfeiters and secured a large quantity of bogus bills, which are so cleverly executed that the average person would never suspect them of being spurious. Things of great value are always selected by counterfeiters for imitation, notably the celebrated Hostetter's Stomach Bitters, which has many imitators but no equals for indigestion, dyspepsia, constipation, nervousness and general debility. The Bitters sets things right in the stomach, and when the stomach is in good order it makes good blood and plenty of it. In this manner the Bitters get at the seat of strength and vitality, and restore vigor to the weak and debilitated. Beware of counterfeiters when buying.

The thieves forced an entrance through the kitchen, and taking a desk which they found in the dining room, carried it to a field, where it was forced open and \$17 taken from it. A number of papers found in the desk were left undisturbed by the robbers.

THE grocery store of J. W. McDevitt & Bro., West Patrick street, Frederick was entered by forcing the front door open sometime Wednesday night of last week. The burglars broke the knobs from the safe but did not get it open. They broke open the counter money drawer and got about \$1.25 cents in small change. They made no noise, had no tracks and evidently were not strangers about the place.

IMPROVEMENTS AT PEN-MAR. Benj. Shockey, J. F. Zollinger and J. M. Newcomer have purchased of John Rinehart a tract of 31 acres of mountain land adjoining Pen-Mar Park, and will lay it off into lots and cottage sites. These gentlemen expect to erect a large hotel along the Pen-Mar road.

MR. James Millard Clark, who lived in Eyer's Valley, west of town, died at his home on last Sunday of dropsy and heart disease, in the 65th year of his age. The deceased is survived by a widow and ten children. The funeral services were held at the Eyer's Valley Church on Tuesday.

FIRES IN THE COUNTY.

Saturday night a tenant house, owned by Steiner Bros., near Jefferson, was destroyed by fire, entailing a loss of about \$700.

A defective flue set fire to the dwelling of Elias Speak, of Rocky Ridge, completely destroying the building and all its contents, excepting an organ and a bureau, which were gotten out.

INDICTED FOR MURDER.

The grand jury of Montgomery county has indicted Charles Bright, colored, for killing Samuel Jackson, a young white man, near Etchison, February 3, 1899. In a quarrel Jackson struck the negro over the head with an iron shoe last. Bright left the house and procured a shotgun, and returning shot Jackson, killing him in a few hours.

MARRIED IN CUBA.

Private Frank E. Smith, of Company H, Fourth Regiment, United States Volunteer Immunes, now stationed at Jiguan, Cuba, was married to a Spanish woman near where he is encamped on February 22. He is from Hagerstown. He cannot speak Spanish and his wife cannot speak English. They had to employ an interpreter. He expects to bring his wife home when his company is mustered out.—Sun.

MEASLES IN FREDERICK CITY.

Dr. Charles E. Goodell, city health officer of Frederick, states that several cases of measles having been reported to his office in the past few days he has issued an order requesting parents whose children are afflicted with the malady not to send the other children of the family to the schools. If parents assist in this way the disease can soon be checked. If this simple precaution is not observed by parents and the contagion becomes prevalent the public schools will be ordered closed.

SUFFOCATED BY GAS.

Mrs. Mary Long, aged seventy-six years, was suffocated by coal gas at her home in Elkton, Md. She was found by Dr. Charles M. Ellis, her attending physician, sitting in a chair, with her head resting on the window sill. Death had come to her some time during the night, as she was cold when found. She lived alone and had been in poor health. When Dr. Ellis called Saturday morning he found the door leading to the sick chamber locked. Entrance was gained by a window from the front part of the house. The supposition is that she went to the window for fresh air, but owing to her exhausted condition died before she could lift the window.

A CHINAMAN'S DILEMMA.

Teoy Fook Sing was ordered to be deported Monday as a Chinese laborer in this country in violation of the Chinese exclusion act. The order was passed by Judge Morris in the United States District Court after hearing the evidence in the case. The Chinaman lived on Pennsylvania avenue, Baltimore, with a white wife. He claimed that he has been in the United States nineteen years, and was unavoidably prevented from securing a certificate of residence. It was shown that he was in the Auburn (N. Y.) penitentiary during the period he might have registered. Under the law the fact that he was in the penitentiary precluded him from registering. The Chinaman's hair was cut off while in the penitentiary. He cried in court, and said his head will be cut off when he gets back to China because he has short hair. He will be taken to the Pacific coast by the United States marshal.—Sun.

THRILLING EXPERIENCE.

William E. Brengle, lineman for the Interstate Telephone Company, had a narrow escape from death last Friday afternoon. He was sitting on the top crossarm of a 50-foot pole on North Market street, in Frederick city, pulling a wire, when the crossarm broke, precipitating him headfirst down through the wires. A crowd watching him stood by with bated breath as they saw him plunging through the lower wires. His knee struck the lower crossarm of the pole and his legs spread apart and his toes caught on two wires, where he hung suspended in the air forty-five feet above ground swayed to and fro by the high winds. While in this perilous position his brother climbed the pole, and lashed a rope around his body, fastened the other end to the pole, when he cut the wire and released him from all danger.

RUINED BY SMOKE.

The interior of the parlor of the residence of Mr. John Eisenhauer, on North Market street, in Frederick city, was ruined Sunday evening by an oil stove. Early in the evening a member of the family lit an oil stove in the room. Some time later one of daughters opened the door to enter the room, when she was nearly overcome by the dense volume of smoke that poured out in her face. The room was filled with the smoke which seemed to have been generated by the oil stove and the heat from the parlor stove. The smoke was thick and the soot settled on everything in the room, ruining the handsome furniture, lace curtains and pictures and badly damaging the piano and rare bric-a-brac.

SANK AT INDIAN HEAD.

A flat-bottom, two masted sailing vessel named Three Brothers, loaded with wood, from Oceanquan bay, Va., and bound for Washington, capsized in a heavy gale Wednesday morning off Indian Head wharf and sank on the channel's edge. The crew consisted of three colored men. Two of them were rescued by a boat launched by order of Inspector A. R. Couden, of the government proving ground at Indian Head, and manned by employes of the station. The vessel was seen by the watchman on duty at daylight. The two men rescued were saved only after a hard struggle with the wind and waves. The rescuers were themselves nearly swamped. The third man of the disabled vessel's crew was drowned before assistance could reach the sunken vessel.

A PLEASANT PARTY.

Charles D. Eichelberger, Jr., entertained a host of little friends at his home from 4 to 6 o'clock on Friday, March 24th. Master Charles welcomed the arrival of each guest with a smile and extended hand. The first hour passed quickly in playing a number of games, in which all took part and which they enjoyed thoroughly. At 5 o'clock, led by Charles and Miss Eleanor Hack, they went to the dining-room, where they surrounded a table bountifully supplied with good things, cake, candy, caramels, oranges, jelly and ice cream. On leaving each one was given an orange, and some said they wanted another party the next evening.

A SINGULAR ACCIDENT.

Carroll Feete, of Brunswick, son of Mr. and Mrs. Henry C. Feete, of Middletown, met with a serious accident Tuesday evening. A horse which he was riding reared and fell backwards with him. One of the young man's legs was caught under the animal and his body was held between the front legs of the horse. In its struggles to get up the animal kicked young Feete in the stomach and breast, and completely denuded him of his trousers and underclothing. Two men went to his rescue, and while the one held the horse down by sitting on its head, the other released the young man. At last accounts the young Feete was suffering severely from the injury to his stomach and breast, and it is feared he is hurt internally.

CONTROVERSY OVER AN ALLEY.

Recently, Mr. G. T. Stocksdale, of New Windsor, desiring to close an alleyway alongside his residence, placed a gate across the entrance. This was promptly removed by the Independent Order of Odd-Fellows, whose property is contiguous. Matters apparently rested in this shape, until Tuesday when a post-and-rail fence was built along the entire outer line of the alley, effectually fencing in the building belonging to Frank J. Devilliss, and closing out the tenants of the Odd-Fellows' building. The Odd-Fellows again removed every vestige of the obstruction. They have also retained, as counsel, ex-Judge James A. C. Bond, of Westminster.

Before the discovery of One Minute Cough Cure, ministers were greatly disturbed by coughing congregations. No excuse for it now. T. E. Zimmerman & Co.

GRACEHAM LETTER.

This is fitting week, some few changes had already been made last week. Spring is here, the presence of various kinds of birds, would prove this more truly than the weather, and other natural forces show. The sparrows and blue birds are regular residents, but the robin, fark, black bird, tomtit, are all recent arrivals.

The special readings in observance of the Passion week are being conducted in the Moravian church, and on Good Friday morning at 10:30 the annual lovefeast and communion services will be observed. The early Easter service will be held at 6 o'clock a. m., and if the weather permits will be concluded on the cemetery. This is an old Moravian custom.

POINTS AND HOOT POINTS.

If you fish for love don't bait with pride. Love is a delicious spur to action; other incitements are more or less cruel. Love is the clew to the labyrinth of all times and eternities.

A FEW SAYINGS.

The gambler's life is an I-ideal one. Life's harvest is best when the ground is rocky. We seldom have any illusions in our second childhood.

SOME NEEDED INVENTIONS.

A bike lamp that will stay lit. A book-shelf that won't fall down. An ice-pick that will break the ice where you jab it.

SEVEN GEMS OF MEDITATION.

The quickest lunch is not the soapst mended. When a man confesses to a skeleton in the closet he makes no bones of it.

FIGS AND THISTLES.

Knowing how to think aids in knowing what to think. No church is christian, if it fails to go out doing good.

Labor Saving Machinery. An engineer declares that 50,000 people now do the work, with the aid of machinery, which needed 16,000,000 persons to do a few years ago.

THE CARE OF MEADOWS.

Many meadows and pastures are destroyed by bad management. The farmer is in too great a hurry to realize from his investment, and does not give the grass an opportunity to become fully established.

WELL BALANCED RATIONS.

Probably the most difficult problem which the owner of cows has to contend is to obtain a ration that shall be well-balanced and tender. The use of root crop and molasses is necessary as a part of a well-balanced ration.

THE NECESSARY HOZ.

Secretary F. D. Coburn of the Kansas State Board of Agriculture writes eloquently of the hoz. From the repulsive and proscribed nuisance of antiquity, tolerated, but despised, under the ban of many religions, descended through the savage, predatory hordes of old-world forests and jungles, the hoz has become naturally some of the cow's will do better than others on any of these rations.

ANCHOR POST.

Potatoes intended for seed require different treatment from that intended for market. It has been pretty well demonstrated that the best specimens for seed are those that are not fully matured when dug.

PLANTS BENEFITED BY LIMING.

The following are some of the plants which, in experiments on acid soils at the Rhode Island Experiment Station, have shown marked benefits from the use of lime: Spinach, lettuce, beets (all kinds), gamba (okra), salsify (vegetable oyster), cucumber, eggplant, cantaloupe, asparagus, kohlrabi, cabbage, dandelion, Swedish turnip, pepper, pea, peanut, matrynia, tobacco, sorghum, alfalfa, clover, barley, wheat, oats, timothy and Kentucky blue grass.

REST FOR THE COW.

Remember, if a cow is compelled to travel back and forth over a thirty-acre field from morning to night in order to hunt a ration for herself, she will not give you big pay in the pail.

THICKNESS OF HUMAN HAIR.

The human hair varies in thickness from the two-hundredth-and-fiftieth to the six-hundredth part of an inch. Blond hair is the thickest, and red the coarsest.

REMEMBER, IF A COW IS COMPELLED TO TRAVEL BACK AND FORTH OVER A THIRTY-ACRE FIELD FROM MORNING TO NIGHT IN ORDER TO HUNT A RATION FOR HERSELF, SHE WILL NOT GIVE YOU BIG PAY IN THE PAIL.

For frost bites, burns, indolent sores, eczema, skin disease, and especially Piles. DeWitt's Witch Hazel Salve stands first and best.

ST. JOHN'S CHURCH, AT ELLICOTTVILLE, N. Y.

St. John's Church, at Ellicottville, N. Y., has a bell that was made nearly two centuries ago in Spain and which for over 100 years sounded matin and vesper calls at a monastery on the outskirts of Malaga.

AN ENDLESS CHAIN.

A Business Man Tangled Up With a General Utility Citizen.

"I suppose we all get caught at times," remarked a well-known business man, "but I have had an experience that was particularly mortifying to one who has been in business for forty years.

"I received, some time ago, a letter from a party living in a little town in the west, who wanted a small bill of goods.

"I sent three bills before I received an answer, and then it was not satisfactory. I allowed the matter to run for some time, and, at last, getting a saucy answer in reply to a letter of mine asking for a settlement, I lost my temper and wrote the postmaster a letter, telling him to hand the matter over to the leading attorney in town for collection, no matter what the cost would be.

"It wasn't long before I received an answer from the postmaster saying he had followed my instructions and had succeeded in collecting the amount, but at a considerable expense. In fact, the attorney had a bill against me for \$25 more than he had collected, and that he (the postmaster) had paid it and would look to me for the amount.

"I was in a situation, I hadn't instructed the postmaster to act as my cashier, but thinking that was the western way of it, and not caring to have the fool postmaster lose the amount, I sent him a check, and considered the matter closed.

"But it was no mystery to me. I had seen a great high. He has an endless chain arrangement that will make him a fortune if some one doesn't get mad and go out there and kill him."

"What do you think of that prize-fighter's style of fighting?" "Well," replied the expert, "this grammar is very good, but his metaphors are very crude and ill-chosen."

Victims of Adverse Fate.

"That day it rained so hard," complained the man with the Galway whiskers, "I found when I started for home that I'd brought my cane down town instead of my umbrella.

"You haven't any worse kink coming than I have," replied the man with the prognathous jaw. "The night when I was held up on my way home I found I had brought my umbrella down town instead of my cane."
