Troublesome Kansas Dry Law.

Kansas' railroad commission has discovered that the law against drinking strong waters on railroad trains is more honored in the breach than in the observance, and has set out to enforce it rigidly. The law makes it a crime for any person to drink intoxicating liquors in a street car or railway passenger car while the car is being used for the transportation of passengers. The penalty is a fine of \$100 or a 30-day jail sentence, or both. The railroad commissioners have ordered that a printed Hagerstown, senior colonel. copy of the statute be posted conspicuously in every public passenger convey-

What good qualities for a preacher did this man Apollos possess? What did "the baptism of John" in-

clude, and what did it lack of full orbed Christianty?

What percentage of present day preachers will exceed Apollos (1) in their zeal and ability, (2) in their Christian knowledge, i. e., personal experience, of Christ's gospel?

If Apollos had been conceited or anything less than a man of God, would he have submitted to teaching from a layman and his wife?

#### PERSONALS.

It is the aim of THE CHRONICLE to publish as many personal and social items as possible, but it frequently happens that those who have guests visiting them, and those who entertain, fail to send a list of their friends, or an account of these events, to this office. Readers who live at a distance are always interested in what is going on "at home," and for that reason, if for no other, this column should be filled every week. It is of course understood that anonymous contributions will not be published. Names of persons furnishing items will be withheld.

Fuel Sufficient For Twenty-Five Hours Can be Carried on Aeroplane. - Orville Off For Europe.

Mr. Orville Wright sailed for Europe iar with the poems published from time from New York on Tuesday. He will make a brief stay in England and then go to Germany where he will comply with the arrangements made last Winter with the company organized for the manufacture of the Wright aeroplanes in that country.

In a brief interview in New York it was gathered that it is altogether possible for a Wright aeroplane to fly 1000 miles. Their perfected machine can carry fuel enough to last 25 hours which at the rate of 40 miles an hour would enable it to travel 1000 miles. At Fort Myer, on an unofficial test the machine went at the rate of 50 miles an hour with a side wind.

Mr. William L. Gross also seconded the nomination. Mr. Gross said: I rise to second the nomination of Judge Glenn H. Worthington. He was reared a farmer boy as many of us were. Early in life we find him teaching school, thereby earning his own living and better preparing his mind for the higher duties of life. Subsequently he undertook the duties of school examiner, which office he filled with credit and satisfaction. We found him then as we find him now ready at all times to advance the interest of education in our county and State and while in this position he made many friends among the school boys who are to-day voters and will remember him with their support on election day.
