FOR HEALTHIER SCHOOLS

WAR MADE ON DISEASE

Stringent Measures To Protect Children's Health

ALL SCHOOLS TO BE PLACARDED

Notices to Teachers and Pupils Will Be Posted in Every Room.—Children With Disease to Be Isolated.

Stringent measures are being taken by the Health Board of Frederick County, John W. Holter, president, and Dr. Ralph Browning, county health officer, to preserve the health of the school children of the county and to prevent the spread of communicable diseases throughout the county. School buildings that are unhealthy and badly lighted and ventilated are to be banned by this health board in the war on diseases and the general sanitary movement in the schools of the county.

Particular attention has been paid by the Health Board to the care of the sick in the schools. Any child, whether suffering from any disease or not, is required to present to the teacher of that particular school a certificate from the attending physician showing that the child has had no communicable disease and is perfectly cured. Absolute isolation of children having communicable diseases is advocated.

Hundreds of placards are being printed, giving the rules of the Health board and will be posted in every school building of the county. The posters are to become a part of the wall decorations of every room, and are to be strictly observed by both the teacher and the pupils. They will be distributed before the opening of the school year.

The diseases that are especially mentioned by the Health Board are: Scarlet fever, measles, diphtheria, whooping cough, chicken-pox, mumps, scabs or itch, ring-worm, typhoid fever and head lice. These diseases all require a certain length of time of quarantine, dependent upon the length of and duration of the particular disease.

Reports of contagious diseases are to be made to the school examiner.

KEY TABLET FOR FORT McHENRY

All Arrangements Completed for Unveiling of Memorial.

The arrangements for unveiling the D. A. R. tablet and for the reception at Fort McHenry on September 10 have been completed.

The tablet consists of a bronze shield three feet long, showing the profile of Francis Scott Key in bas-relief, mounted on a 5x7 foot marble slab, on which an outline of the history of the fort is chiseled. Permission to place it on the wall of the star fort at the right of the entrance has been given by the War Department, and a representative of government will be present to accept it when it is presented by the state regent, and to turn it over into the custody of the Mayor of Baltimore. His Excellency, the Governor of Maryland, will deliver an address. It is urged that every daughter in the state make an especial effort to be present for both of the ceremonies and the reception without further invitation.

The time for the unveiling has been set for 3.30 P. M., and the reception, which will follow immediately, will be held inside the star fort. Invitations are extended to all visiting daughters, the heads of patriotic societies and the city's official guests.

Mother Seton Hearings Closed.

After examining eight witnesses at St. Joseph's College, Emmitsburg, the ecclesiastical court which took sworn testimony to discover whether any forbidden religious rights were paid Mother Seton, who is proposed for canonization, has adjourned. It will convene again in two weeks to inquire into facts concerning her burial.

The testimony of both sessions will then be transcribed by two secretaries appointed by the court and given to a special messenger under seal to carry to Rome. His duties will not be discharged until he returns with a receipt showing that he deposited the testimony with the proper authorities.

The original testimony will be preserved among the archives of the Cathedral in Baltimore. Mother Seton died in 1821 and was buried at St. Joseph's.

Owing to the loyalty of the employees of the United Railway Company of Baltimore, the threatened strike has been averted.

Cole Blease, Governor of South Carolina was defeated for the United States Senatorship.

METZEROTT WITHDRAWS

Steps Out of the Republican Congressional Race.

Oliver Metzgerott, of Prince George's county, authorized the statement on Tuesday that he had withdrawn from the race for the Republican Congressional nomination in the fifth Maryland district.

At the same time Mr. Metzgerott announced his candidacy for the Republican nomination two years hence. He says that he will make his fight then on the same issue that Sydney E. Mudd, his late opponent, has made the present fight; that is, that he was a candidate once before.

In getting out of the race Mr. Metzgerott takes occasion to avow his intention of giving the full Republican ticket his active and ungrudging support. Also he thanks his friends for their loyal support.

In his statement Mr. Metzgerott says: "I hereby announce my withdrawal as a candidate for the Republican nomination for Congress.

"Since the chief argument used against my nomination has been the statement that my opponent was defeated two years ago and that his support of the ticket then entitled him to the nomination this year, and further, that my candidacy was made public so very late, I here and now announce that I shall be a candidate for the same office in 1916, and I trust the public will agree with me that 'it's a poor rule that does not work both ways.' "In the meantime I am ready and anxious to do everything in my power to promote the success of the Republican ticket, Senatorial and Congressional."

CREAGERSTOWN REBUILDING

Barns, Dwellings and Hotel Being Completed.—Better Town Planned.

Saturday morning marked the beginning of Creagerstown's rebuilding of the area destroyed by fire. The first building was the barn of George Stevens. By noon Saturday the heavy oak timbers of the barn 46 by 80 feet in size, had been placed in position as well as the rafters. During the evening the weather-boarding was put on and by night the barn was almost complete. Mort & Son, of Woodsboro have the contract for the barn. About 75 men assisted Saturday morning in the raising.

Foundations are about completed for the new Clarence Valentine Hotel, which will occupy a ground space of 30 by 90 feet, and will be three stories high.

Robert L. Ogle is pushing work upon the foundations of his new residence and store building and George Stevens will soon begin work on his residence. It is the general opinion that within a short time no trace of the work of the fire will be seen.

Kill 22 Rattlers and Copperheads.

Charles E. Shank and Elmer Palmer, of Myersville, while walking through the mountain at Black Rock, Washington county, encountered a den of snakes.

Passing a hollow log they observed a large rattlesnake sticking its head out of one end. Clubs were secured and while Palmer cut a hole in the closed end of the log and ran in a stick to drive out the reptile, Shank stood at the other end with a club.

Three big rattlers came out and were quickly killed. More stirring with the stick brought out 17 young rattlers, all of which were dispatched. Later the two men killed two three-foot copperhead snakes.

Two Engines Crash on W. M.

Freight engine No. 958, running light, eastbound, collided with engine No. 321, running backwards, about three-quarters of a mile west of Edgemont, on the Western Maryland Railway, Monday evening, injuring four trainmen.

Both engines were running at about 25 miles an hour when they crashed together, and most of the men, when they realized that a wreck was inevitable, jumped. Conductor Taylor was severely injured. Fireman Morris was also badly hurt, while the others escaped with minor injuries. The wreck is said to be due to the westbound crew overlooking orders to pass the eastbound engine at Edgemont. Both engines and the caboose attached to the westbound engine were reduced to a mass of twisted iron.

Divers Get \$250,000 From Sunken Ship.

In addition to the purser's safe, divers have succeeded in raising \$250,000 in silver bullion from the hull of the sunken steamship Empress of Ireland in the Lower St. Lawrence. All the mail bags also have been found, it is reported.

Boxing in Wisconsin is controlled by a state commission.

Friday.

While looping the loop in a monoplane at a height of 1,000 feet at the Hempstead aviation field, in New York, the engine went dead and Albert Fileux, of New York City, and his machine dropped to earth. The hangar attendants, who rushed out expecting to pick up his mangled body, found him conscious and without broken bones.

Cardinal Gibbons sailed for Rome to attend the meeting of Cardinals to elect a successor to Pope Pius X.

President Wilson's peace commission ended the revolution in Santo Domingo by forcing the warring factions into an agreement.

A fire resulting from a defective flue caused a \$15,000 loss in a suburb of Laurel, Del. Six dwellings were destroyed. Insurance on the burned properties amounts to \$5,000.

By an overwhelming viva-voce vote the Senate passed the Administration bill providing for war risk marine insurance by the Government. As amended it provided that the Government should issue insurance policies at rates which would place American ships on terms of equality with foreign ships.

Walter C. Hagen, 22 years old, native professional of Rochester, N. Y., displaced Francis Ouimet as open golf champion of America by winning the tournament at Midlothian with a medal score of 290 for 72 holes.

Ralph De Palma, driving a Mercedes car, won the 305-mile race at Elgin. Gil Anderson, in a Stutz, was second, and Mulford third.

Saturday.

The worst storm of years visited Quakertown, Pa., Friday night. Lightning burned a planing mill, causing \$10,000 loss.

Dr. Hiram C. Hower, 92 years old, believed to be the oldest dentist in the state, died at his home in Bloomsburg, Pa., of a complication of diseases.

The late Sir Julius Wernher, the great South African diamond magnate, has left behind him the record fortune for this country of \$57,500,000. The death duties are more than \$10,000,000.

Orville Wright, pioneer aviator, and Lieutenant Whiting, of the United States Navy, nearly drowned when a hydroplane carrying them broke and threw them into the middle of the Miami River. Both managed to escape from the wreckage and swim to the shore.

Austin Hall Watson, former president of the New York Credit Men's Association, committed suicide at his country home in Beacon, N. Y., by shooting himself with a pistol through the heart. For six weeks he had been almost frantic with pain from an injury sustained when

a hard-driven ball bounded back from a stone wall on the golf links near his home into his eye.

Four persons are dead as the result of the explosion of a lamp last night in the farmhouse of Thomas Straight, near Lacrosse, Wis. The victims were David Thomas, his six-year-old son and the two children of Mr. and Mrs. Straight.

Sunday.

After a nerve-racking voyage, with all lights out at night and no music, the steamship Cameronia, of the Anchor Line, which left Glasgow on August 15, landed 1,218 passengers in New York. Many of those on board were refugees, who, held up by the European war, had fled from the Continent to England and were glad to get on board any steamship which would bring them home.

Explosions accompanying a \$200,000 fire that today destroyed the factory of the William F. Jobbins Chemical Company, Aurora, Ill., threatened the lives of 15,000 persons residing in the vicinity of the plant. Great steel tanks filled with nitroglycerin exploded, and parts were blown in every direction over the city. One tank was blown across the Fox River and landed on top of the city water works.

That retail prices of a number of food-stuffs dropped 10 per cent. during the last week, as a direct result of the probe being conducted by the government authorities into the increase in the cost of certain foods to the consumer, was the statement to-day of Assistant United States District Attorney Arthur B. Connelly, who is conducting the probe.

Monday.

George Kodani, a Japanese photographer under arrest at Salinas, Cal., confessed to Sheriff Nesbit today that he had murdered Helena Wood Smith, a New York artist, who had been living in the colony of writers and painters at Carmel-by-the-Sea. He told conflicting stories of the murder, one version being that he killed Miss Smith in self-defense.

Victoriano Huerta, ex-dictator of Mexico, quietly left London with his party for Bristol, where he will embark for Spain.

The Senate without roll call passed the so-called cotton warehouse license bill, proposed by Senator Hoke Smith originally to add value to cotton warehouse certificates by means of Governmental inspection and certification of the grades of cotton stored in licensed warehouses.

The Senate Judiciary Committee voted to confirm Attorney-General James C. McReynolds to be Associate Justice of the United States Supreme Court and T. W. Gregory, an assistant Attorney-General, to be Attorney-General.

MARYLAND TENTH TAXPAYER

State Pays Government \$448,409 on Individuals Incomes.—New York Leads.

Maryland ranks twenty-seventh in population, but in the amount of income taxes paid by individuals only nine other States are ahead of her. The individual income tax paid by Marylanders aggregated \$448,409; by the District of Columbia, \$289,275; by Delaware, \$94,904. In Virginia \$103,449.30 was collected under the individual income tax and in West Virginia \$94,627.97. Virginia ranks twentieth in population and twenty-third in amount of individual income tax collections, and West Virginia ranks twenty-eighth in population and twenty-sixth in income tax collections.

New York is far in the lead in the amount of individual income tax payments, that State paying \$12,522,797. Pennsylvania comes next with \$3,176,095. Illinois third with \$2,076,171, Massachusetts fourth with \$1,505,885 and Michigan fifth with \$1,018,220. The other States paying more than Maryland are California, \$880,000; Missouri, \$657,000; New Jersey, \$716,000, and Ohio, \$904,000.

From all sources other than income and corporation tax the collectors brought in \$308,627,619, less by \$790,535 than collections from similar sources the previous fiscal year. From the corporation and income tax, however they collected \$71,381,275, surpassing the revenue from the corporation tax in 1913 by more than \$36,000,000. The total internal revenue amounted to \$308,008,894 to June 30, 1914, or about \$35,500,000 more than the previous fiscal year.

THURMONT BUYS ELECTRICITY

Join The Ranks of Other Towns Who Get Their Current From Big Security Plant.

Finding its municipal electric plant inadequate, Thurmont has entered into a contract with the Hagerstown and Frederick Railway Company for power. The town was lighted for the first time by current furnished from the company's big plant at Security on Saturday.

The railway company delivers the current to the town at a fixed price and the town lights its streets and distributes the current to its private consumers as before, over the town's distribution system.

For the past several weeks, because of lack of water, the street lights of Thurmont could be burned only a few hours each night, and as this was a very unsatisfactory condition a contract was entered into with the railway company.

The Hagerstown and Frederick Railway Company is now furnishing current for lighting in the following cities: Hagerstown and Frederick, commercial lighting; Emmitsburg, Smithsburg, Middletown, Williamsport, Funkstown, Braddock, Boonsboro and Myersville.

John Laskey Appointed District Attorney.

Marylanders who have been supporting W. Gwynn Gardiner, of Prince George's county, for the District Attorneyship of the District of Columbia, lost their fight when President Wilson last Friday, nominated John Laskey, of Washington.

Mr. Gardiner had the support of Senator Blair Lee, William L. Marbury, of Baltimore; Representative J. Harry Covington and a number of other Marylanders.

The fees of the district attorneyship of Washington amount to approximately \$10,000 a year, it is said, and a very considerable amount of patronage goes with the place.

Canal Earns \$55,000 First Week.

During the first week of business the Panama Canal earned approximately \$55,000, not including the amount collected for barge service and payments made in advance for ships on their way to use the canal. These amounts would bring the total receipts up to almost \$150,000.

Thus far 16 ships have used the canal; fourteen American, one British and one Peruvian. Traffic, while considered good, was not up to the expectations of canal officers, who say that the war is keeping many ships from using the waterway.

New Teeth and Eyesight at 108.

At the age of 108 years, John Drysdale, the oldest man in West Virginia, has cut his third set of teeth and recovered his eyesight. He believes youth is returning to him. Drysdale was born in Galloway, Scotland, and for 35 years was a sailor. He was one of the volunteers who accompanied Sir John Franklin on his voyage to the Arctic regions in 1825. Despite his age, his memory is sound.

EMMITSBURG'S SEASON

Twenty Four Games Played; Twenty Won.

PLAYERS' BATTING AVERAGES

All Contests Played Along Big League Lines.—Professional Umpiring and Police Patrolled Grounds.

With the Union Bridge game on Thursday, last week, Emmitsburg's 1914 baseball season passed into history. Glancing over the team's record one finds that 24 games were played, 20 of which resulted in victories for the local team. Of the four defeats, two were suffered at the hands of our closest rivals, Thurmont, while a game was dropped at Taneytown, and another—the last game played—when the strong Union Bridge aggregation visited here and went away victors.

Tabulated scores were kept of all the games, except the game at Taneytown, the first two games with Thurmont, and the game with Mount Saint Mary's. Therefore, the percentages of the players who took part in those games will not be their real figures, but the percentages for the games scored.

The first game played under the re-organized team took place at Echo Field, Mount Saint Mary's College with the second team. It was a splendid game and the town boys were on the long end of a 6 to 3 score.

The following Tuesday, Thurmont journeyed here and were defeated 6 to 3, Rosensteel fanning 16 and allowing but four hits.

On Decoration Day Taneytown played here. It was a hard-fought game in which Rosensteel proved too much for the Carroll Countians who used Motter, Alexander and Mehring in the box. The score was 9 to 7.

Encouraged by the success of the team the management decided to hold a festival to raise funds for uniforms and expenses. The affair was held on the lawn of the New Slagle Hotel, the people responded generally and generously and it was a splendid success. New

AUDITORS FINISHED

County Finances Have Been Thoroughly Examined.

After a minute examination of the books and finances of the county, the Frederick County Auditing Commission, of which Jesse P. King is chairman, has completed its work. Bids are now being asked from the various publishers for the printing of the report of the commission, which will set forth whatever criticisms that are to be made.

Until after the reports come from the press nothing will be given the newspapers concerning the findings of the auditors. This is a mutual agreement among the members of the board. The members of the board feel that the results of the work should be given to the public through the advertising medium as provided by the Maryland Legislature, creating the board. Three thousand of the reports will be printed. One-half of this number will be mailed to the various leading citizens of the county and the other half will be distributed from the office of the County Commissioners.

Leap From Auto Saved Four Lives.

A flying leap from an automobile saved the lives of four men Saturday afternoon at Charmian, near Blue Ridge Summit, when their car stopped on a grade crossing in front of a rapidly approaching freight train of the Western Maryland Railway. The men escaped with slight injuries, but the automobile was demolished.

The car was owned by Henry Sprenkle of York, who was at the wheel at the time. The other three men were also residents of York.

When the car started on the down grade near Monterey Mr. Sprenkle shut off his engine and coasted down the pike. In crossing the tracks the machine struck a rut and stopped. The train was within a few feet of the stalled car when the men jumped.

Pensioners In State Decreasing.

The number of pensioners in Maryland is steadily decreasing year by year. On June 30, 1914, the end of the fiscal year, there were in Maryland 11,914 pensioners who received in all, the sum of \$2,617,267.00 in pensions as compared with 12,439 pensioners in Maryland the year before, who drew \$2,641,172.00 in pensions, a decrease of 525 pensioners and a decrease of \$23,905.00 in pensions.

Maryland's crop of apples is estimated at 3,300,000 bushels.

LAWS GOVERNING SUBSCRIPTIONS

Most readers of newspapers and many publishers are not familiar with the laws governing subscriptions. Here are the decisions of the United States court on the subject. They will be interesting to publishers and many will undoubtedly be glad of the opportunity to print them for the benefit of delinquent subscribers:

"Subscribers who do not give express notice to the contrary are considered as wishing to renew their subscriptions.

"If subscribers order a discontinuance of their publication the publisher may continue to send them until all dues are paid.

"If the subscriber refuses to take the periodical from the postoffice to which they are directed, he is responsible until he has settled his bill and ordered the paper discontinued.

"If subscribers move to other places without informing the publisher, and the papers are sent to the former address, the subscriber is held responsible.

"The courts have held that refusing to take periodicals from the postoffice, or removing and leaving them uncollected for is prima facie evidence of intention to defraud.

"If subscribers pay in advance they are bound to give notice at the end of the time if they do not wish to continue taking it, otherwise the subscriber is responsible until express notice with payment of all arrearage is sent to the publisher.

ALFALFA The Profitable Hay Crop

Yields Four to Six Cuttings a Year of Easily Cured and Most Nutritious Hay Wonderful Increases in Yield Each Successive Year.

ALFALFA "GOLD" BRAND

"Its long, branching roots penetrate far down, push and crowd the earth this way and that, and thus constitute a gigantic subsoiler. These become an immense magazine of fertility. As soon as cut, they begin to decay and liberate the vast reservoir of fertilizing matter below the plow, to be drawn upon by other crops for years to come."

Alfalfa seed sown during August or September will yield four to six cuttings next season. Frequent cuttings thicken out the stalk and makes it stool out and grow off better.

Alfalfa ranks higher than Timothy in feeding value. In fact, it might be termed both corn and hay, as it is almost a complete food. Experiment stations place the feeding value of Alfalfa hay at \$20 per ton, as against Timothy hay at \$12 per ton. This, with the fact that Alfalfa will easily yield, on good land, 4 to 16 tons of splendid hay per year, shows what a valuable crop it is. Lands in the Western States that are well set with Alfalfa will yield from \$100 to \$200 per acre. The acreage of Alfalfa is increasing very largely all over the Middle and Southern States; our farmers are fast beginning to realize what a valuable crop it is. Alfalfa will succeed and do well on any good loamy, well-drained soil, but the land must be well and thoroughly prepared for best results.

It should never be used for pasture; it is too valuable as a hay producer to risk injury from stock. A heavy application of lime is of decided benefit—2,000 to 3,000 pounds per acre. Alfalfa is usually sown broadcast at the rate of 20 to 30 pounds to the acre. Our Alfalfa seed is the highest grade, strong germinating seed of the best and cleanest quality possible to procure.

We offer American Dry Land Non-Irrigated Alfalfa Seed, Boligiano's "Gold" Brand Fancy, \$2.75 per cent. pure.

If you want the best field seeds of any kind, always insist on getting Boligiano's "Gold" Brand Standard Clovers and Grasses, Cow Peas, Winter Vetch, Timothy Seed, Red Clover, Crimson Clover, Alsike, Red Top or Herd Grass, Orchard Grass, Winter Oats, Tall Mead Oats Grass, Millet, Permanent Pasture Mixture, Dwarf Essex Rape, all varieties of Turnip Seed, including Cow Horn, Southern Seed, Top, Yellow Globe, etc.; Cabbage, Kale, Spinach, Winter Radish. RESUME OF THE BASEBALL

(Continued from page 1.)

uniforms and equipment were bought and a substantial sum for guarantees was left. The whole idea was to give the people of Emmitsburg a lot of good baseball, so that nearly all the games were played here. The expenses of visiting teams was always in excess of the collections, so that the teams finances were steadily drawn upon. The two games played on July Fourth at the Firemen's picnic brought in handsome sums, but these went to the Vigilant Hose Company who bore all baseball expenses that day.

Fairfield came down on Monday, June 8th and lost, 9 to 2. Arnold was in the box for Emmitsburg—Jimmie's first appearance on the ball field in four years—and played curves all around his opponents. Sixteen fanned and four hits were all the Fairfield boys could get.

On Saturday, June 20, St. Anthony's were our guests. Sammy Annan was sent in for Emmitsburg and pitched an excellent article of ball until the visitors showed three across in the fifth. St. Anthony's had scored in the first and third, while Emmitsburg had gotten a tally in the third and fourth. In the second half of the fifth Emmitsburg also got three again tying the score. Stokes then went on the mound and pitched shut-out ball the remaining periods. Emmitsburg won the game in the ninth, the score being 6 to 5.

The following Tuesday Fairfield tasted defeat here again. Rosensteel officiated, the remains of Fairfield being laid away to an 8 to 2 dirge. After the first inning, in which they did all their scoring, the visitors couldn't get a man to second.

On July 4th, Emmitsburg won a double bill, the losers being Fairfield and Taneytown. The Fairfield team was badly crippled at the time but sportmanlike filled the date and took a 13-0 beating in good spirit. The game was called at the sixth inning by agreement. Landis, the Pennsylvania's centerfielder broke his ankle in this game in trying to steal second. He was running for another player at the time.

The second game was closer and hotly contested. Rosensteel pitched. Koontz and Alexander performed for Taneytown. The final score was 8 to 5, in favor of the locals.

The next attraction was staged with Thurmont and resulted in a victory for the visitors, the score being 3 to 2. Rosensteel was not up to his regular pace. In the ninth he threw out his arm and Sellers ended the game. Rosensteel has not been able to pitch since although the arm is mending and he thinks by next season it will be in good condition again.

Littlestown came next and it took 10 innings for Emmitsburg to win a 6 to 5 victory. Without a regular pitcher, the management sent in G. Stokes who was hit hard in the opening period. With the score 5 to 3, in favor of Littlestown, A. Stokes took up his brother's job in the fourth and allowed but one hit and no scoring. Emmitsburg tied the score in the ninth period and Sebold's single won the game in the extra session. Dr. Rowe made his first appearance in the locals' line-up this season in the Littlestown game and got 3 hits out of 5 times at bat. His acquisition was a "tower of strength" to the batting end and his fielding was of the same order.

The next game was played at Monterey with the Country Club of that place, and was won by Emmitsburg 14 to 4. J. Topper started the game. Two runs were scored in the first inning, and A. Stokes twirled the remainder. In this game Rosensteel got a single, a

double, and a homer with two on. "Doc" Rowe had two two-baggers.

St. Anthony's tried it again but lost 18 to 7. J. Topper pitched the entire game for Emmitsburg. A similar game, as to score, resulted when the Monterey Country Club played here for the first time. The score was 16 to 7. A. Stokes went the whole nine innings and didn't exert himself.

The Frederick Collegians came here on August 1st and lost 12 to 6. Lease and King, of Frederick, were unable to control the locals' heavy batting. Stokes and Sellers divided the pitching honors for Emmitsburg.

On August 5, we beat Thurmont at Thurmont, 6 to 3. Sellers pitched a fine game and was well supported. E. Creeger twirled for Thurmont and was hit frequently, especially in the eighth when Root relieved him.

The Saturday following, the Frederick Collegians were defeated again in a hard fought, interesting game. Lease tried his luck again, but a little batting rally on the part of the locals in the sixth, a two-bagger of Rosensteel's and F. Rowe's sacrifice fly in the eighth tied the score. In the tenth Sellers, who with Stokes did Emmitsburg's mound work, drove in the winning tally.

Another close game resulted when Monterey came here the Wednesday following. The game was nip and tuck and only in the eighth inning did Emmitsburg get a one run lead which was enough to win. Stokes and Sellers divided the game, by agreement.

The series with Thurmont was won on Tuesday, the 18th. Sellers was matched against J. Root, former league pitcher, and although he allowed eight hits, tightened up with men on and kept down runs. Emmitsburg won the game in the sixth when J. Rowe reached first on Firor's error, Rosensteel tripling and going home on a wild return throw. Bower was safe on a fluke, went to second on a passed ball and scored on a play at first. The final count was 4 to 3.

The season closed with the Union Bridge game last Thursday when the locals were defeated 8 to 3. Nearly every member of the team had his "off day," seven errors being made, while the visitors failed to slip up at all.

Apart from its successes on the diamond, several other points are worthy of notice in reviewing the local baseball season. The hearty co-operation between manager and Club, the loyalty of the players, the support given the team by the fans have all been unprecedented. This combination resulted in a winning team, and an aggregation and a record of which Emmitsburg may well feel proud.

Local amateur umpiring has been a drawback to many a small town team, and has marred many a game. In this regard Emmitsburg was singularly fortunate in securing the services of Mr. M. J. Thompson—familiarily known in

the sporting world as "Mike" Thompson—to officiate at all the games. Mr. Thompson's wide experience and knowledge of the game are known to all and his decisions were never disputed. So satisfactory was his work that out-of-town teams asked the locals to bring him along to umpire the "away" games, and asked that he be on hand when they came here. In the final game here with Thurmont, in addition to Mr. Thompson, Mr. Jack Doyle, of Westminster, an experienced man in athletics, officiated as arbiter.

Emmitsburg is justly proud of its ballfield. It has not an equal in any town of its size in the state. It consists of a level "skinned" diamond giving a fast infield and out gardens where the grass is kept mowed low. For every game the league-regulation markings were made, players' benches provided, the side-lines roced off and police patrolled. No talk from the bench was allowed on the part of the players and all the games were conducted on a big league basis.

That the players and the people of Emmitsburg appreciated Mr. Thompson's work was attested on two occasions; first, when the members of the team presented "Mike" with a handsome gold scarf pin, and again near the close of the season when he was the recipient of two gold double eagles—the gift of the fans of the town. "Mike" was deeply touched by the gracious expression of his friends and wants his keen appreciation to go on record here in one hearty "Thank you, gentlemen."

A Good Hay Crop is a Money Getter

Can Be Insured By Up-To-Date Methods Of Soil Preparation and Seeding.

NICKOLAS SCHMITZ.
Maryland Agricultural Experiment Station.

Compared with wheat, the value per acre of the hay crop in this State is higher and practically equal to that of corn, yet the methods commonly employed in producing the crop are no different now from what they were 50 years ago.

As a result the yield of the hay during this time has remained practically the same while the quality if anything has deteriorated.

The remedy for this condition is simple. It is to be found in a change of cultural methods. Instead of seeding timothy in the fall with wheat, and adding clover in the early spring, the wheat should be seeded without the grass, and after harvest, the stubbles should be plowed down and timothy and clover seeded without a nurse crop. There is no better time for doing this than the latter part of July or early August in the mountain sections to early September in the southern and eastern counties of the State. If the seeding cannot be done during or before early September, then the clover should be left out as it is very apt to winter kill if seeded later.

To be successful the land should be plowed as early as possible, and worked into a fine, firm seed bed. When seeded under such conditions full crops of first class hay free from weeds may be expected the following season. The yield will be enough higher over seeding the old way, to pay for the extra labor in preparing the land. What is more, the second season the crop will be much better than if it had been seeded in wheat.

A good rate of seeding is timothy, 8 to 12 pounds; red clover, 6 to 8 pounds; and red top, 2 to 3 pounds.

If red clover is not doing well on the farm then 4 to 6 pounds of alsike clover should be substituted for the red clover.

The seed may be mixed together and sown through the grass seeding attachment of the wheat drill, or other devices for seeding grass, but the stand of clover will be a little more uniform if it is sown separate. The seed should always be covered lightly with a spike tooth harrow, weeder or brush drag.

FIGHTING MITES.

ROY H. WAITE.
Maryland Agricultural Experiment Station.

The warm weather of the summer months is particularly favorable to the growth of insect pests of poultry and especially to the red mite which annoys the birds while on the roosts. This creature not only irritates the birds by marching around on their bodies, but he bites a hole in the skin and sucks the blood. This is why he is red in the morning after his night's feed, and is why he is given the name "red mite."

It is no great trouble to subdue these pests if one keeps after them. As they stay in the house during the day hiding under the roosts and in the cracks we find it a simple matter to keep them in check and to destroy them if the treatment is kept up regularly. Painting the roosts and nests with kerosene oil once a week while the house is infested and once a month thereafter will keep a flock free from their ravages.

Several proprietary products for killing mites are on the market and these are usually effective if directions are followed.

If for any reason we do not get to make an application of lime for corn we should not hesitate to use it in the fall when preparing the land for wheat.

Crimson clover, frequently called German clover, scarlet clover, and incarnate clover, is outside of cowpeas, the most valuable soil improvement crop to have.

Ordinarily it is neither advisable or necessary to fertilize crimson clover, but when seeded on very poor land an application at the time of seeding of about 250 pounds per acre of acid rock and 35 or 40 pounds of muriate of potash gives profitable returns.

It requires practically twice as much ground lime, stone or oyster shells, and one and one-fourth times as much hydrated lime as burned lime to do the same amount of good.

The White and Black Pebbles

By SARAH BAXTER

"Bob, my dear boy, I congratulate you heartily on your engagement to Clara Deane."

"Thank you, Dave. I appreciate your congratulations more than those of any other of my friends."

These two sentences were spoken by two cadets of the graduating class of 182—at the Military academy at West Point. Robert Harker did not know what the congratulations cost his friend David Warfield. Both cadets had been attentive to the same girl, but neither knew that the other had proposed to her. She did not tell the one she accepted that she had been obliged to decide between him and his friend.

And so it was that the woman was the only one who knew the fact.

Eighteen years passed, during which time the two officers had not served at the same military station, though once they met at Washington. Harker's family was not with him, and Warfield was still unmarried. Nineteen years after they had graduated the Mexican war broke out, and both were ordered south—Harker to the Rio Grande with General Taylor, Warfield to Vera Cruz with General Scott.

During Scott's advance to Mexico City, involving a series of battles in which the Americans were always victorious, Warfield was of great value to the commanding general in all matters pertaining to the science of engineering. When the army approached the City of Mexico, desiring to get a view of the enemy's defenses, he appropriated the uniform of a Mexican officer who had been made a prisoner and worked his way to the rear of the Mexican army. He took with him a young soldier barely eighteen years of age with a view of sending back any information he might acquire, in case he could not get back himself. The youngster put on the uniform of a dead Mexican corporal. It was arranged between the two that they should address each other as "captain" and "corporal" only.

One day Captain Warfield was standing on the edge of a wood, behind a tree against which he was resting a spyglass which he had leveled at the fortifications of the City of Mexico. The corporal stood behind, walking to and fro in the wood with a view to warning the captain against surprise. Suddenly a troop of Mexican horsemen came galloping toward them. The corporal gave a warning signal, but too late. From a distance the Mexicans saw a man examining their fortifications through a spyglass.

Riding up to the captain, the commander of the troop questioned him. Warfield spoke but little Spanish and could give no satisfactory account of himself. Both he and the corporal were taken into the capital and brought before the Mexican commander. After an examination a drum-head court martial was convened, and they were tried as spies. They were soon convicted and sentenced to be garroted, but owing to the fact that they were Americans, where garrotting was not practiced, the sentence was commuted to shooting.

The two were confined in the same prison. The night before their execution the corporal called for writing material that he might write a letter of farewell to his mother. He had finished and addressed it when Captain Warfield saw it and read the address.

"Great heavens!" he exclaimed, paling.

"What is it, captain?" asked the other.

"You are a son of Robert Harker of the—th cavalry?"

"I am."

"And your mother as a girl was Clara Deane?"

"She was."

The dialogue was interrupted by the entrance of a Mexican officer, who said to the two condemned men: "Our commander has decided that but one need suffer in order to carry out the necessity of striking terror into an enemy for such illegitimate warfare. He has directed that you two men draw lots to determine which shall be shot. I have a white and a black pebble here which I place in my hat. The one drawing the white pebble will be exchanged as a prisoner of war; the other will be immediately executed."

"Being a commissioned officer," said the captain, "while my fellow prisoner is a private, I demand the right to draw the pebble to decide which of us is to suffer."

The officer held out the hat to him; he thrust in his hand and immediately drew it out clinched. Going to a window, with the other hand he drew forth a pebble and held it up to the light. It was black.

The Mexican officer in the excitement of the moment of life and death forgot the other pebble and placed his hat on his head without withdrawing it.

A platoon of soldiers was waiting without for the loser, and Captain Warfield was immediately led out and shot. A few minutes later the man who had placed the pebbles in the hat remembered the white stone. Taking off his hat, he did not find it. He searched for it and at last found it in the dead officer's pocket. Warfield had taken out both stones and showed only the black one.

In the Harker family Captain Warfield's name was ever after spoken with a great depth of reverence, but only Mrs. Harker knew all the reason for the sacrifice he had made.

FREDERICK COUNTY.

Frederick is next to the largest of the counties of Maryland. In population and wealth it ranks next to Baltimore county. In the fertility and productiveness of its lands it ranks among the first in the Union, and especially in the production of wheat. The area of this great county is 633 square miles. The great body of the people are of German, English and Scotch-Irish descent, the progeny mostly of the early settlers. The land is mostly of fine limestone quality, and the greater part of the county is a valley of rolling lands lying between the Lingular Hills and the Catoclin Mountain. This splendid valley is drained by the Monocacy river, and is one of the best farmed and most highly improved and productive areas of the Union. The great crops are wheat and corn.—*Maryland Manual issued by Board of Public Works.*

EMMITSBURG.

In all Western Maryland—the beauty spot and the garden spot of the State—there is no town more attractive than Emmitsburg.

"No people are more wide-awake, more knowable, more courteous to strangers than Emmitsburgians."

The location of Emmitsburg is ideal; the surrounding scenery is unmatched; the climate is notably healthful; its water—pure mountain spring water—cannot be surpassed. It is within easy access of Baltimore, Hagerstown, Frederick; eight miles from the National Battlefield at Gettysburg, near to the Mountain Resorts, and is surrounded by fertile farms and productive orchards.

Mount Saint Mary's College and Ecclesiastical Seminary—with an enviable reputation extending over 106 years—is located here; St. Joseph's College and Academy for young ladies—equally as noted during its 105 years of splendid achievement—is also here.

There are excellent Schools—Public and Parochial—in Emmitsburg; two sound Banks, five Churches, a live Newspaper, modern Hotel accommodations, adequate Fire Department, progressive merchants, splendid physicians, good livery, auto garages, many fraternal organizations, good railroad accommodations. There are four or five mails a day, telegraph, express and telephone service connecting all points; electric light and power, oiled streets.

There is business to be had in Emmitsburg; there are Factory Sites available. If you contemplate changing your place of residence—come to Emmitsburg, Frederick County, Md.

EXIT BLEASE.

By far the most refreshing bit of news that has been offered to the reading American public for many a week is the report of the smashing defeat of Cole B. Blease, Governor of South Caro-

lina, in the primary elections for United States Senator from that state. Ellison D. Smith, who opposed him, was given a 12,000 majority, and Blease even lost in his own county which was considered his stronghold.

Since his election to the governorship of South Carolina, Cole Blease has made a record that will long be remembered as a disgrace to the state and a direct insult to every precedent and tradition of the United States. The pardoning of twelve hundred convicts, his advocacy of lynching and his refusal to interfere with race-track gambling are typical of his administration as chief executive. His slogan, "To hell with the constitution," clearly illustrates what an insult it would have been to the United States Senate had he been elected to that body of distinguished men.

It is safe to say that the Blease regime is at an end, and that the electorate of South Carolina will at all future times, refuse to tolerate him or any of his henchmen in any office in the state. We all have wondered that the Democratic voters in the Palmetto state have suffered his sway so long, but since they have at last come to their senses, they are to be given a vote of hearty and sincere congratulation from every self-respecting citizen in the country.

SUCCESSFUL NEUTRALITY.

The European war has served to make the people of the United States think and feel as a nation. The American citizen, in these days, looks to Washington not as to a Democratic administration but as to the capital of his country where the chief-executive and his advisors are daily working out our national attitude toward the countries embroiled in the war. And as he looks back over the few short weeks since the hostilities began, and recalls the splendid coolness and good judgment that has been shown in preserving a dignified neutrality, he may justly be proud and satisfied.

In taking this position of dignified neutrality, the United States has set a splendid example to the nations of the world. She has made her decisions calmly, made her position absolutely clear and has shown the desire, in every instance, to be fair and just to all the countries concerned. So well has she done this and so keen has been her judgment, that she has rightly earned the entire confidence of each and every one of the nations at war. A manifesto of this confidence is the action taken by Germany, Austria, France, Russia, England and Belgium in entrusting all of their several diplomatic relations with each other to the ambassadors of the United States at the various foreign capitals. This has meant an added burden to our European representatives, but it is one that will not be barren of results. It will serve to strengthen our reputation as a great, just and impartial nation, and will give an added weight to our influence, when the war is over and the powers of the earth convene to make permanent the results of the struggle. May we continue this dignified neutrality unto the end, and when the end shall come, may we use our great influence for the lasting good of mankind.

LOCAL ORCHARDS.

Emmitsburg district has long been noted for the fertility of its soil and the abundance of its crops, but within the past few years only has it attained prominence as a fruit growing section. More people are realizing this fact each season and additional land is being devoted to fruit culture. Those who a comparatively short time ago set part of their fields in trees are now getting big returns in dollars. Others who failed to do so have realized their lack of foresight and have since taken to fruitery and will soon have bearing trees.

The fruit produced locally needs no apology. It is the finest that can be obtained anywhere. Especially is this true of the apple and peach crops, both of which are large in yield and of the choicest varieties. Whereas such fruit was imported a few years ago, all consumed here now comes from local orchards. On the contrary each year several car loads are shipped away. This export trade will increase just as fast as the growers can supply it. All this redounds to a double advantage for Emmitsburg. Money changes hands locally in the first instance, rather than sent away, and in the second, a considerable sum of outside money is brought into the community.

That fruit tree cultivation in Emmitsburg district and the surrounding section is a success has been fully demonstrated by those who are now marketing their splendid yields. The thing to be done is for others to profit by their example and make Emmitsburg a banner fruit section.

AS TO GETTING WAR NEWS.

In these days when everyone eagerly awaits the latest news from the European war, there are many who complain of the scarcity of definite reports. The public should realize that there are immense difficulties to surmount before any news at all can be obtained. Various important trans-Atlantic cables have been cut; the censorship is extremely strict, no foreign correspondents are allowed in any of the armies engaged in the war and all of the usual channels of news are closed even to the most influential papers.

No effort or expense is spared in order that the American public may get the best news and that these efforts have not been altogether unsuccessful is shown by a recent statement by a prominent man to the effect that the American papers had more and better war news than the English, although the latter were nearer the scene of action.

BE A BOOSTER.

Are you boosting? Have you given any suggestions to the committees for Emmitsburg's Greatest Week? Have you offered to help? Perhaps you are not among the majority of live citizens who realize the benefits Booster Week will confer on each man and woman of this district. Wake up to the fact that you need Booster Week just as much as the committees need your co-operation to make the celebration a complete success. Get Busy.

On Same Level.

"How do you succeed in making your dog obey so well?"
"I speak to him."
"And does he understand?"
"Well, when I speak to you, don't you understand?"—Paris Rire.

Geodetic Survey.

A geodetic survey means mapping large areas by methods which take the curvature of the earth's surface into account as ordinary surveys on a small scale do not. The United States coast and geodetic survey, now attached to the department of commerce and labor, is charged with the survey of the coasts of the United States and coasts under the jurisdiction thereof and the publication of charts covering said coasts. This includes base measure, triangulation, topography and hydrography along said coast; the survey of rivers to the head of tidewater or ship navigation, deep sea soundings, temperature and current observations along said coast and throughout the Gulf and Japan streams, termination of latitude and longitude, etc. It is one of those branches of the public service which we do not hear much about, but which is constantly and quietly engaged in producing scientific results.—Philadelphia Press.

Girls With Boys' Names.

Girls with boys' names and boys with girls' have received them in many instances no doubt by accident. It was so in the case of George Anne Bellamy, the famous eighteenth century actress, who played Juliet to Garrick's Romeo. Born on St. George day, she was to be called Georgiana, but somebody's blunder at the time of her christening split this into George Anne. The "corn law rhimer," Ebenezer Elliott, had a daughter named Noah, whose passport is said to have given her much trouble abroad. But here, as in the case of other girl Noahs, it was only other people's Biblical ignorance that was at fault, for turn to Numbers xxxvi, 11, and you will find that Mahlah, Tirzah, Hoglah, Milcah and Noah were the daughters of Zelophehad.—London Graphic.

Flowers on Icebergs.

Flowers blooming on icebergs would certainly be a rare sight, but travelers in the northern portions of the Pacific and sometimes in the north Atlantic have witnessed this strange but very beautiful spectacle. It appears that some animals carry on their feet a growth of moss, which is deposited on the ice while it is attached to the mainland in polar regions. In time this decays and forms a shallow soil, in which the seed of buttercups and dandelions often find a lodging, borne by currents of wind that doubtless caught them up in some southern clime. These take root and bloom when the great gleaming iceberg floats out to sea and is carried southward, where the soft winds melt the surface and give the plants the moisture they need.

His Wrestling Match With English.

Charlie Conrad, a business man in the national capital, employed a Turk as a servant in his house after having been discouraged by numerous experiments with the average run of servants. The Turk was exceedingly industrious, and devoted his spare time to the study of the English language.

One day Charlie received this letter from him:

Dear Sir—In this little time at today I saw a good positions against me. I am very far of my country but I not felt that among your family. I can't forget this politeness. I am very grateful but my money weekly it is not sufficient for me because I pay my room and electric car and with rest I can't live. I ask \$7.50 per week of the next week. I believe you will find this same lines in my sincere sensation.

A Bavarian Apple Pie.

One of the most delicious ways to use apples in cookery is in a Bavarian pie. Line a deep dish with pastry. Fill it with breadcrumbs and bake it until the pastry is done. Then remove the crumbs and fill the cavity with chopped apples and nuts and some stoned raisins. Sweeten with sugar and flavor with nutmeg and cinnamon. Sprinkle with cake crumbs and bake till it is brown on top and the fruit within is thoroughly cooked. Spread over the top a lemon flavored meringue and let it become a light brown in the oven. Set the pie away to cool before serving.

One Taunt Barred.

"Does your wife ever tell you that she might have married a millionaire if she hadn't thrown herself away on you?"

"No; I escape that. My wife's folks were poor people. She never saw a millionaire until we had been married nine years."—Kansas City Journal.

Clever.

"Peggy says you are clever," said the girl.

"Why?" asked the man.

"Because you tried to guess her age."
"Oh, I didn't try to guess her age; I only tried to guess the age she'd like to be."—Yonkers Statesman.

Always.

"When do you think a wife is justified in taking money from her husband's pocket?"

"Whenever she finds any there."—Baltimore American.

Entertaining Bill.

"Only got two hours' sleep last night."

"What's the matter? Wife away?"

"No, but Bill Smith's wife is."—Detroit Free Press.

Willing to Oblige.

Young Lady—Have you a circulating library? Bookseller—No, madam; I am afraid we are quite out of them. But I can show you a revolving bookcase!

Good Advice.

"Give dev'l his due," said Uncle Eben. "but make your arrangements as near as you kin so you won't owe him nuffin."—Washington Star.

Too Much For the Cabs.

One afternoon Signor Lablache, the celebrated basso, a man of enormous proportions, on leaving Covent Garden theater after rehearsal found that his carriage had not arrived, so he sent for a four wheeler. Into this, after a strenuous effort, he managed to squeeze his massive body, to find himself seated on the edge of the smaller seat, a truly uncomfortable position, which it was imperative at once to change. As he struggled to his feet in his attempt to do so the bottom of the vehicle gave way, and the artist found himself standing in the road. Help, however, was at hand, and he was released with no small difficulty from his ridiculous dilemma.

A similar adventure befell the brothers Pope—one a doctor, the other the well known Q. C.—who between them weighed over forty stone, when crossing Waterloo bridge in a four wheeled cab. How it happened is uncertain, but about the center of the bridge the floor of the cab collapsed, and for the next thirty yards two pairs of sturdy legs, straining to keep pace with the horse's mild amble, was a spectacle for unrestrained mirth. Cabby soon pulled up, and eager hands quickly extricated the obese and exhausted brothers.—London Tit-Bits.

No Fruit Without Bees.

If there were no bees, fruit trees and other plants could not produce any fruit. Apple, plum, cucumber, clover, alfalfa, alfalfa are fertilized by bees. Honey is the bait with which the bee is induced to perform this task. The colored, fragrant petals of the blossom are the advertising signboard telling the bee where the honey may be found. If the blossom is to set fruit the bee with its fuzzy body must brush some of the yellow dust called pollen from the male organs or anthers at the bottom of the blossom, deposit this pollen on the female organ called the stigma. The blossoms are so arranged that to get at the honey the bee must first brush, with its pollen covered body against the stigma, thus completing the pollination. As soon as it has performed this duty it may draw a check for the work in the form of the blossom. While drawing this pay the bee is involuntarily covered with pollen again and made ready to proceed to the next blossom and repeat the process.—Francis Jaeger.

Legend of the Peacock's Feathers.

The ill fortune said to fall upon the owners of peacocks and the wearers of peacock feathers is accounted for by an oriental legend.

The story runs after this fashion: When God created the peacock the seven deadly sins were stirred with bitter jealousy and complained loudly that the bird should be more beautiful than they.

"You are quite right," the Creator answered. "I have been unjust, for I have already given you too much. You should be as black as the night that conceals you." Whereupon he plucked out the green eye of jealousy, the yellow eye of envy and the red eye of murder and added them to the bird's feathers. So the blind sins are ever pursuing the bird to regain their eyes, and that is the reason that when men or women adorn themselves with the feathers misfortune dogs their footsteps.

Eyeglass Lenses.

All lenses used in making eyeglasses by manufacturers in this country are formed from imported glass, which is secured principally from Germany. This glass is of texture and transparency so far above the products of American glass plants that the optical companies use it exclusively for their high grade work. Each blank is about two inches square and nearly one-eighth inch in thickness. In appearance it is not unlike an ordinary piece of plate glass—the edges are rough from the molds, and it has no magnifying properties. This is the work of the optical manufacturer, and it is for him to grind the glass and form it until it magnifies or refracts the object before it.—Columbus Dispatch.

Cut and Run.

"Cut and run" originated in a peculiar custom of the Egyptian embalmers. A low caste was employed to make the first incision in the corpse, a process viewed with much dislike by the people, who held him accursed who should mutilate the dead. As soon as the fellow had made his "cut" he had to run through a storm of curses, stones and sticks. He "cut" for a living and had to "run" for his life.

Starting a Row.

"Johnny doesn't get that weak chin of his from my side of the house!" she exclaimed.

"No, my dear," weekly responded her husband. "Johnny has my chin, but he inherits his mother's tireless capacity for keeping it in motion."

Old Open Work Clocks.

A peculiar clock of the time of Charles I. was the lantern or bird cage style, which hung from the walls high up with its works exposed.

Australia's Rolling Stones.

The "rolling stones" of Australia placed on a fairly smooth surface will soon roll together in a group. They contain a magnetic ore.

Politically Speaking.

"I am not responsible for all I say speaking politically," is part of a statement made on oath some years ago by a Canadian provincial minister under cross examination.

Serenity, health and affluence attend the desire of rising by labor.—Goldsmith.

Pride of the Peruvians.

The Peruvians are a proud, imperial race, living amid the grandest scenery of the western hemisphere and holding high ideals of what is best in education and the unbought grace of life. On the great country estates there is much of the fine tradition and chivalrous sentiment that came from the best people of Castile and Aragon. The Indians of the high plateaus are a unique reminder of a civilization that bourgeoned centuries before the face of the white man had blossomed like a flower in the western forests. The immemorial records of a civilization that vanished in the midst of man's earliest recollections are faintly suggested in splendid ruins among sublime scenes. The name and fame of the brilliant men who built the walls and temples of Cuzco are lost, and all we know of the wonder and the charm of that forgotten culture in the Andes is found in the pathetic ruins of cities that are half as old as recorded time.—Peter MacQueen in National Magazine.

Unwritten Law of the Sea.

Here is one of the unwritten laws of the sea which we think could be repealed to advantage. It is that which requires the captain of a ship to stay on the bridge during fog or very bad weather, no matter how long it continues. It is a fairly common thing to read in dispatches that the captain of this or that ship had been on the bridge for twenty-four or forty-eight or even sixty hours at a stretch because of storm or fog. Why should this be practiced? The most rugged man alive cannot be as alert, mentally and physically, after twenty-four hours of exposure as he was when he went on duty. He cannot be as competent to render quick decisions—such, for instance, as an impending collision might call for—as a man who was unfatigued. The average transatlantic passenger, we fancy, would much prefer to trust his life in an emergency to a fresh chief officer than to a jaded captain.—Marine News.

A Queer Punishment.

The Slovaks (Hungary) are a very peaceful, law abiding community, but there are probably black sheep among their number, and in front of a church at Postyan may be seen an ancient stone pillar, reminiscent of the days when punishment was meted out in much the same way as it was in England in those days. Fastened to this pillar in the center is a large iron clasp, and at the base two smaller ones close together. These clasps fitted around the waists and ankles of the offender, and when a man or woman had stolen something he or she was locked to this post on a Sunday and compelled to hold in the hands whatever had been stolen. Every Slovak attends church on Sundays, from which it may be gathered that this public exposure was no small ordeal. The post bears a terse inscription, the translation of which is: "I do not ask you to come, but if you come I receive you."—Wide World Magazine.

Britain's Standing Army.

The British standing army is a much more modern institution than most people imagine. It dates from 1646, when the famous "new model" was established by act of the long parliament and maintained in existence until the restoration. This army, which was organized by Cromwell, consisted of some 80,000 men and was probably the most effective army that England has ever possessed. But the cost was so great that on his restoration Charles II. agreed to its abandonment, except a bodyguard or household brigade of 5,000 sanctioned by parliament, which included Monk's Coldstream regiment and two troops of cavalry raised by Charles himself, which formed the originals of the present Life guards.—London Standard.

Most Disheartening.

Stewart Edward White tells of his greatest disappointment. It happened when he was five years old.

"I understood that those who maintained perfect deportment in school during the week would be given their choice of sweetmeats. I therefore behaved myself with extraordinary propriety. When the time came and I demanded my sweetmeats I found that it was my choice of a seatmate that had been offered. I never quite forgive that teacher and shall always consider the week of good conduct one lost out of my life."—Exchange.

Witty Retort.

"I tell you, Pat, my boy," the big man of the town confided, laying a patronizing hand on the young Irishman's shoulder, "I wish I had your tongue."

"Sure, sor," grinned Pat, "but it would do yez no good without me brains."—Woman's Home Companion.

Good Family.

"My daughter appears to have married very happily," remarked a lady. "Her husband has not wealth, it must be admitted, but he has family."

"Yes, I heard he was a widower with six children!" a neighbor sniffed acridly.

The Unprofitable Age.

Knicker—How old is your boy? Bocker—Too old to ride free in street cars and not old enough to get joy rides in automobiles.—New York Sun.

Too Realistic.

"Why did you cut that lullaby out of the opera?"
"Oh, it put all the tired business men in the audience to sleep."—Kansas City Journal.

The great point is not to pull down, but to build up, and in this humanity finds pure joy.—Goethe.

IN THE
STATE

Cumberland--Unable to reach an agreement with the Cumberland and Westernport Electric Railway the motorman and conductors went on a strike at midnight Tuesday, and not a car over the line has run since. The Public Service Commission offered its services to mediate, but the strikers declined the offer. The men want a uniform wage of 26 cents an hour, an increase of 8 cents for the conductors and 1 cent for the motormen.

Taneytown--Clarence Bankard, 14 years old, son of Edward Bankard, of Taneytown, was shot accidentally in the abdomen by Lloyd Basshor, a companion, and perhaps fatally injured. The shooting was done with an old army revolver containing six loads. The weapon was snapped several times, but refused to go off. Basshor then used a hammer and the cartridge exploded.

Belair--Charles Kidd met a horrible death last Saturday by being caught in a threshing machine. The accident occurred on the farm of Charles Rampley, near The Rocks.

Rising Sun--The Lancaster, Oxford and Southern Railroad, traversing the lower end of Lancaster and Chester counties, Pennsylvania, just over the Mason and Dixon line, has been purchased by the farmers of the section through which it passes. The price paid was \$40,000 the fund being raised by popular subscription. The road is narrow gauge, about 20 miles long.

Hagerstown--S. King, of York, Pa., has leased the old pin mill at Hancock and will convert it into a fruit evaporating plant, with a capacity of 500 barrels of apples a day. About 50 men and women will be employed.

Cumberland--Louis Woler, 22 years old, of Magnolia, W. Va., while riding on top of a box car on the Baltimore and Ohio railroad, was struck by a trestle near Broad Ford and killed. He was beating his way to Pittsburgh. Two others beating their way ducked when they were struck by the warning ropes over the track.

Pen-Mar--A man, who later gave his name as Dr. William P. Ackerman, of Philadelphia, was found unconscious near the ruins of Blue Mountain House.

Regaining consciousness, Dr. Ackerman said he arrived at Pen-Mar several days ago and had become despondent on account of heavy losses he had sustained in business transactions. He is said to have taken opium poison.

Williamsport--Several thousand persons attended the tournament and horse show held on the athletic association's grounds by the Williamsport Tournament Association. Congressman David J. Lewis was the principal speaker. The horse show was held immediately after the parade, the winners being as follows: Four-horse heavy draft team, Paul E. Harsh; four horse light draft, W. D. Byron & Sons; single drivers, James T. Wolfe; Halfway; pony class, Leonard Ridenour, Downsville.

Elkton--The Rev. James Earle Maloy, 80 years old, of Colora, and one of the oldest members of the Maryland Conference of the Methodist Protestant Church, died Friday night at the home of his daughter, Mrs. M. S. Corkran, in Wilmington, after a short illness. Mr. Maloy was a native of Ruthsburg, Queen Anne's county. He was for years chaplain of the Maryland Senate and House, beginning his service in 1861 at the extra session held in Frederick, when many members of the Legislature were arrested and held prisoners by Federal troops.

Cumberland--Two barns were destroyed by fire in Bedford county, West Virginia, on Sunday. One barn, on the old Cypher farm, was owned by Scott Snyder, who lost \$1,500 on the building and grain and machinery, valued at over \$1,000 with total insurance of \$1,000.

Eli Weimer's barn was set afire by sparks from the thrashing engine. With the structure went 300 bushels of wheat, other crops and a lot of machinery. The thrasher, owned by M. C. Perrin, burned, with \$750 loss. Two weeks ago Perrin's dwelling with contents burned, the loss being \$1,800.

Cambridge--C. Hazletine Basshor, former Baltimore society man, who was found last Wednesday night in his home, Algonquin Manor, near Cambridge, Md., with gunshot wounds in his head, died Saturday morning. No further investigation into the death is to be conducted by the authorities. Mrs. Basshor, who is very ill, maintains that the shooting was an accident, as do the attending physicians and friends of the family who are in a position to know all that could be learned of the affair.

Rockville--The Rockville Fair was opened on Tuesday to continue for four days. The Agricultural exhibits this year are noteworthy.

Cambridge--5000 people attended the opening of the first annual fair of Dorchester county.

Rockville--Horace Young, a farmer was shot to death on Tuesday by Jacob Hue in a dispute over the possession of property.

Hagerstown--A destructive drought of long duration was broken Tuesday by an all-day rain, which came in time to save the corn crop, late potatoes and fall pastures. All kinds of fruit needed rain badly. The early potato crop was practically ruined by the drought and all vegetable crops have been seriously affected.

Annapolis--The executive offices at State House are to be renovated. Governor Goldsborough, who was here Tuesday, conferred with J. G. Valiant in regard to the matter. The improvements will include repainting and decorating the walls, laying of new carpets and rugs and other new office furnishings.

Harve de Grace--In compliance with the law passed at the last session of the Legislature permitting the Hartford County Commissioners to use short-term prisoners in the county jail to aid in the repair of the public roads, Sheriff Mitchell has 13 prisoners at work on the road near the county home. The plan is proving a success.

Mount Savage--The barn of Charles O'Toole, near this place, was burned Monday night. The loss is \$3,000, with no insurance. Thirty tons of hay, 400 bushels of oats, 200 bushels of wheat, and all the farming implements were lost.

Rockville--Fire, started by lightning, destroyed the barn on the farm of Edward P. Beall, near Redland, Monday. Three horses, a quantity of grain, a number of farming implements and harness were destroyed. The loss is about \$5,000, partially covered by insurance.

Ocean City--As a result of a petition sent to Dr. John S. Fulton, of the State Board of Health, by residents and cottage owners here, the department has sent Harry R. Hall, assistant engineer, and B. T. Davis, of Easton, Md., to make a sanitary survey, their purpose being to examine every property in the town with reference to its water supply, sewerage and general sanitary conditions.

Easton--Mrs. Mattie Sudler, sister of E. W. Amos, former agent of the Adams Express Company here, who is charged with embezzling \$8,000 consigned to the Franklin National Bank of Philadelphia by the Easton National Bank, was arrested on Monday. Mrs. Sudler was held as an accessory after the fact. She was taken in custody at Clayton, Del., the home of her parents, by the sheriff of Kent county, Delaware. Sheriff Sewell, of Talbot county, brought her here and placed her in jail.

Rockville--At a meeting of the Republican state central committee and other prominent members of the party here, Saturday afternoon, the following were selected to represent the county at the Republican state convention, to be held in Baltimore next month to nominate a candidate for United States Senator to succeed Senator John Walter Smith: Charles F. Kirk, Thomas Dawson, Arthur M. Mace, John W. Lynch and Galen L. Tait.

Salisbury--Progressive delegates from all the counties in the First congressional district had a mass-meeting at the Progressive headquarters, this city, on Monday, for the purpose of nominating congressional candidates. George W. Truitt, of Worcester county, was nominated for the long term and Thomas S. Hodson, of Somerset county, was nominated for the short term.

Rockville--In the presence of probably 500 people from this county and elsewhere, a bronze tablet placed on the old Bentley House, in Brookville, this county, in which President James Madison took refuge during the War of 1812, while the British held Washington, was unveiled on Monday evening. The marking of the historic house was the work of the Montgomery county committee for the Star-Spangled Banner Centennial Celebration, soon to be held in Baltimore.

Havre de Grace--Levenian McEwing, employed at Caspari's stone quarry, this city, died at the Havre de Grace Hospital on Sunday night from injuries received when his head was crushed by a falling stone.

Cumberland--Ralph Haas a merchant of Pittsburgh, and Edward H. Vockrodt, purchasing agent for the Frick & Lindsay Company, of Pittsburgh, on a vacation trip through this section, had a pistol fight with a burglar in their room at the Romney Hotel, Romney, early Monday morning, and as a result Haas is at the Western Maryland Hospital here with bullet wounds in his arm and legs.

Elkton--John Ferry and Clarence Edwards were seriously injured late Sunday night when their automobile struck a bridge near here and turned turtle.

Cumberland--Ross V. Ayers, a mold-maker at the Wellington Glass Works here, was nominated for congress at the convention of the Sixth Maryland district held here on Monday.

An apple crop of 210,000,000 bushel is forecasted by the Department of Agriculture.

Mid-Summer Clearance Sale

correctly interpreted here, means a Wonderful Reduction in the prices of all Summer Merchandise. Our policy has ever been, to resolutely clean up the present season, before going into the next season. This assures for our friends a great saving on desirable merchandise right in the heart of the season and to us a clean, fresh stock each season.

SUMMER DRESSES

are being quickly snapped up by knowing ones at these cut prices. Colored and All White Dresses of Crepe, Voile and Lawn are mercilessly marked down to prices that will make them move in a hurry.

AT 99 CENTS

the assortment of Porch and House Dresses will pleasantly surprise you. Made of Lawn, Madras and Crepe--some with Tunics--others differently trimmed--each wonderful at the price, which is less than the actual cost of making. You'll be unfair to yourself to overlook this bargain.

89 CENTS

is the price on a hundred large White Bed Spreads of a Dollar and Quarter worth, a veritable Summer Plum. The north window tells the story. They are fast going--going and will soon be gone. Better get yours quick. You'll thank us for the saving.

PARASOLS

have been marked down to absurd prices to get rid of. Some choice styles left. This season's best efforts.

FLOUNCINGS ARE SLASHED

18-inch, 27-inch, 45-inch Flouncings of Crepe, Voile and Batiste can be bought at about half price. Remember this--rather rich picking.

39 CENTS

for a Beautiful, Lustrous, Silk stocking--a full 50c. value. Only Black and White. Rather an absurd price for such quality, but they are being fully appreciated. Would like to whisper the number of pairs we have sold.

WASH SILKS

that will wash and wear. About a yard wide--just right for Ladies' and Men's Cool Shirts. They are much wanted about now and are much marked down. Beautiful designs.

Short Silk Lengths are displayed on a table and marked for quick disposal and profitable saving to you. You may find here the exact length at a pleasurable price.

PERSONALS.

It is the aim of THE CHRONICLE to publish as many personal and social items as possible, but it frequently happens that those who have guests visiting them and those who entertain, fail to send a list of their friends, or an account of these events, to this office. Readers who live at a distance are always interested in what is going on "at home," and for that reason, if for no other, this column should be filled every week. It is of course understood that anonymous contributions will not be published. Names of persons furnishing items will be withheld.

Mrs. Kenneth Pontious and daughter, Pauline, have returned home from a ten day's visit to Osceola, Pa.

Messrs. Kavanaugh and Lawrence Baker, of Baltimore, are visiting relatives here.

Mr. Alexander Colliflower, of Altoona, is visiting his parents, Mr. and Mrs. William Colliflower.

Misses Katie and Eugenia Tully who were guests of Miss Mary Stouter for the past two weeks have returned to Baltimore.

Miss Mary Mullen, of Baltimore, is visiting here.

Miss Rose Hopp has returned from a visit to Waynesboro.

Mr. G. Mantz Besant, of Frederick, spent Monday in town.

Mr. Charles Stokes, of Canada, is visiting Mr. and Mrs. J. Henry Stokes.

Miss Clara Bankard, of Baltimore, spent the week end with Mr. and Mrs. M. F. Shuff.

The Misses Lechiter, Montgomery and Carrie Johnson, of Elk Lick, Pa., were the guests of Mrs. E. L. Annan on Tuesday.

Miss Bernice Wachter and friends, of Sabillasville, spent Friday with Miss Frances Rowe.

Mr. D. O. Lambert, of Hagerstown, spent Tuesday in town.

Misses Ruth Patterson and Frances Rowe motored to Sabillasville and Thurmont Sunday.

Miss Mamie Ott and sister, Mrs. Effie Worst who have been visiting their parents, Mr. and Mrs. Charles W. Ott, have returned to Philadelphia, Pa.

Mr. and Mrs. John Stouter, of Pater-son, N. J., are visiting Mr. Stouter's mother, Mrs. Daniel Stouter.

Miss Gussie Kretzer, of Hagerstown, is visiting her sister, Mrs. C. F. Rotering.

Mr. Allen Moser, of Emmitsburg, head clerk of R. L. Annan's store, has been spending a week's vacation with his grandfather, Mr. Samuel Fite, of Motter's Station.

Petition for a New Road.

The County Commissioners recently received from Emmitsburg District, a petition for a road in that section to begin at the Old Plank Road and to pass through the lands of William T. Smith, Abraham Naill, John Ohler, Samuel Baumgardner, Nathaniel Galt, John Ohler and William Morrison, and intersect a road leading to Emmitsburg. The petition was signed by Samuel Baumgardner, William T. Smith, John W. Ohler, William A. Naill, Clyde Ohler, Thomas Baumgardner, William B. Mort, Edgar Valentine, George A. Ohler and Edgar Phillips. The proposed road will be inspected by the County Commissioners.

Mrs. Charles F. Smith Dies Suddenly.

The whole community was shocked yesterday by the announcement of the sudden death of Mrs. Charles F. Smith, who in apparently splendid health was taken ill about 8 o'clock in the morning. She went into a comatose state in an hour and died between 9 and 10 P. M., without having regained consciousness. The funeral will be held Monday morning at St. Joseph's Catholic Church, this place.

Business men of Baltimore are urging a \$1,200,000 loan for the deepening of the harbor.

Mr. J. D. Lippy, of Gettysburg, last week presented the editor of the CHRONICLE with a basket of fine peaches. They were of the Alberta and Belle of Georgia varieties and were raised on Mr. Lippy's recently purchased farm near Zora. On the top of the basket was a large branch containing a cluster of perfect fruit. The editor is also indebted to Mr. S. R. Grider of near town for a basket of large Alberta peaches.

THE JOHNS HOPKINS UNIVERSITY State Scholarships in Engineering Courses.

Application for scholarships in the Department of Engineering established in The Johns Hopkins University under the provisions of the laws of Maryland Chapter 90, 1912, should now be made.

Entrance examinations for all students will be held in McCoy Hall, The Johns Hopkins University, Baltimore, September 22-25, 1914, beginning at 9 A. M.

If there is more than one applicant for a particular scholarship a competitive examination will be held at the University on the day following the September entrance examinations.

Each county of the State and each Legislative district of Baltimore city will be entitled to one or more scholarships for the year 1914-15, in addition to those which have already been filled. There will also be vacancies in the scholarships awarded to the graduates of Loyola College, Maryland Agricultural College, Mount St. Mary's College, Rock Hill College, St. John's College, Washington College and Western Maryland College, and in the scholarships "At Large," which may be filled in October 1914.

Applicants should address the Registrar, The Johns Hopkins University, for blank forms of application and for further information as to the examinations, award of scholarships and courses of instruction. aug 28-4ts

Methodist Church Century and Half Old.

The one hundred and fiftieth anniversary of Methodism in America was celebrated Sunday at Bethel Church, Sams Creek. The Rev. Dr. John F. Goucher, founder of Goucher College, Baltimore, preached in the morning and the Rev. T. P. Lewis, president of Western Maryland College, at Westminster, in the afternoon. Dr. Bernard C. Steiner, librarian of the Pratt Library, Baltimore, lectured on "The Friendship of Books." A sacred concert was given between the morning and afternoon services.

LUTHERAN CONVENTION

Plans for Entertaining 5,000 Delegates at Baltimore.

Plans for the entertainment of the big Luther League Convention which meets September 22 to 24 are assuming definite shape, and, according to the committee in charge, it will be one of the largest gatherings of young people ever seen in Baltimore. From 4,000 to 5,000 delegates will attend, and they will represent nearly every Lutheran organization in this country.

The Luther League of America is said to be one of the largest, if not the largest organization of young people in the country, and it includes organizations in the General Synod of Lutheran Churches, the General Council of Churches, the United Synod of the South, the Augustana Synod, the Norwegian Synod and other churches of the denomination.

A feature of the convention will be a choir of 250 trained voices under the leadership of Edgar T. Paul and which he has had under instruction for several months past. The day sessions of the convention will be held in St. Mark's Lutheran Church, St. Paul and twentieth streets, while the night services will be held in the Lyric. There will also be open air meetings on the pretty grounds of the Deaconess' Home.

MRS. HENRIETTA E. LINGG.

Mrs. Henrietta E. Lingg, widow of the late Elias Lingg died at the home of her sister Mrs. W. F. Shanefelter in McSherrystown on Tuesday. She is survived by one brother, W. F. Koehler, of Scranton, Colorado, one sister, Mrs. W. F. Shanefelter, also by three stepsons, Nicholas and Clement Lingg, of near McSherrystown and I. H. Lingg, of near this place.

Funeral services were held on Thursday morning, August 27, from St. Mary's church, McSherrystown, with requiem high mass, Rev. L. Aug. Reudter officiating. Interment in the Catholic cemetery, McSherrystown.

AUGUSTUS KREITZ.

Mr. Augustus Kreitz, a resident of Mt. St. Mary's, died at Mount Hope, Baltimore, at the age of 70 years.

Mr. Kreitz is survived by his widow, Maria Kreitz and one daughter, Mrs. Clarence Adams, he is also survived by three brothers and one sister.

The funeral services were held Monday morning at St. Anthony's Church, Rev. Father Reynolds, officiating. Interment was made in the Old Cemetery on the Hill.

Statesmen Were at Ball Game.

Warrants were issued by Speaker Clark for 43 members of the House before a quorum could be assembled to continue consideration of a war claim bill. Deputy sergeants at arms rounded up the absentees, who were scattered all over Washington. Ten were located in a party at the American League Baseball Park.

DIED

Regular death notices published one time free of charge. Obituary poetry and resolution charged for at the rate of five cents a line.

KREITZ.—On Friday, August 21, 1914, at Mount Hope, Baltimore, Mr. Augustus Kreitz, aged 70 years. Funeral services were held Monday morning at St. Anthony's church, Rev. Father Reynolds officiating. Interment was made in the Old Cemetery on the Hill.

ANDREW.—On Saturday, August 22, 1914, Edgar Roosevelt Andrew, aged 7 months, and five days, infant son of George Andrew, of near Emmitsburg. Funeral Monday at the home of the parents. Interment in Mountain View Cemetery, Rev. E. L. Higbee, officiating.

THE WEEK AT THE COUNTY SEAT

Chronicle of Happenings at Frederick City and in the Courts.

Walter A. England, an election judge in Urbana district, was cleared at a hearing before the Supervisors of Elections Saturday of leaving the voting place and electioneering. The charge was made by his brother, Nathan England. Because of the charges the Supervisors refused to reappoint him, naming Edward Yaste in his place. At the hearing Dr. Benjamin C. Perry, chairman of the Urbana district committee, and about 20 others appeared in England's favor. The Supervisors exonerated Mr. England, but refused to reappoint him. Toward the close of the hearing Supervisor Joseph F. Eisenhauer, the Democratic member of the board, and Dr. Perry clashed and almost came to blows.

Capt. D. John Markey, of Frederick, was elected major of the Third Battalion of the First Maryland Regiment, on Monday, to fill the vacancy caused by the retirement of Major John A. Morgan, now sheriff of Cecil county. The election was held at Saunderson's Range, where the Maryland National Guard officers are in camp for six days. Only officers of the First Regiment voted for major, and Col. Charles A. Little presided.

Hon. Alfred S. Roe, of Worcester, Mass., will deliver the address at the unveiling of the monument to Barbara Fritchie, in Mount Olivet Cemetery, in Frederick city, September 9. Hon. Milton G. Urner, father of Judge Hammond Urner, of the Maryland Court of

Appeals, will preside. Col. George W. F. Vernon, of Baltimore, formerly of Frederick, will read Whittier's poem, Barbara Fritchie.

Hon. William B. Wilson, secretary of Commerce and Labor, who was to have spoken on Monday night at the Frederick Chataqua, missed his train from Washington and was unable to make his address.

The marketing of thirty-five tons of copper concentrate of the New London mine, of the United Milling, Mining and Copper Company, of Frederick county, has been temporarily held up because of the European War. All exportation of copper from the United States stopped with the declaration of war in Europe. All copper mines of the country have cut their production materially.

The Frederick city electric light plant is undergoing an examination the purpose of which is to ascertain whether it would be to the city's advantage to go into the public utility business of furnishing light and power.

The County Commissioners have appointed N. J. Wilson and Son, plumbers for Montevue, and Thomas F. Kennedy plumber for the Frederick Courthouse and jail. Although no new work is contemplated, these appointments were made to make sure that there will be no delay when repairs are needed.

Paint Put-on

Think of paint put-on and not by the gallon.

A gallon of paint in the can is of no account to anybody. Put it on. Now reckon its cost and value.

The secret is: one paint goes twice as far as another. A good one goes twice as far as a bad one.

You have a job, say an average job. It'll take 10 gallons Devooe and 12 or 15 or 18 or 20 of middling poor very-poor and trash. You know painter's wages in your town. Put the price of a gallon of paint and the painter's day-wage together. You can, we can't.

Devooe costs less than any inferior paint; there are hundreds of them. One paint is as good as another, so long as it lasts good; one lasts months and another years; and the one that goes furthest lasts longest.

EXPERIENCE has demonstrated that the most effective and economical means of placing your name, your goods and your wants before the people of Emmitsburg and Emmitsburg District is through an advertisement in their home paper---THE WEEKLY CHRONICLE.

A 25-cent "Want" adv. inserted in the CHRONICLE brought a dozen inquiries by telephone on the date of its appearance, and numerous replies were subsequently received. The ad. way is the only way.

SACRIFICE SALE —OF— Pianos and Organs

The Piano and Organ business formerly conducted by the late J. M. Birely will be closed out and the Palace of Music will be vacated by October first next.

There is now on hand a large stock of medium and high grade Pianos, such as Mr. Birely sold with success for some forty years past, and in order to dispose of same within the required time, they will be sold at a sacrifice. Prices will be made so low that you will be enabled to purchase a strictly first class high grade instrument for less than the price of the lowest grade.

We need no line of commendation as to the instruments, for their names and reputations held for so many years speak for themselves.

Our stock embraces the PACKARD, LEHR, RADLE, BRINKERHOFF, LINDERMAN, YORK and BEHR BROS. Each and every instrument being beautiful in finish, rich and even in tone and durable in construction. You will find these makes in hundreds of homes through Frederick City, Frederick, Carroll, Montgomery, Howard and Washington Counties, and in the upper portion of Virginia, as well as other localities, all giving entire satisfaction and fully measuring up to their merited high reputations.

We have also a line of new Organs and a few second handed Pianos and Organs to dispose of to prompt buyers.

The musical merchandise stock, including Violins, Guitars, Mandolins, Banjos, Accordions, etc., etc., will be included in the sale and you should embrace this exceptional opportunity to save money by purchasing now.

MORE
BANK
TALK

Did it ever occur to you why all good business men keep a checking account with a bank? We'll tell you. It enables them to keep their funds in a more secure place than the office safe. It gives them a better standing in the business world. It enables them to pay their bills by check, the returned check being an undisputable receipt.

Individuals find a checking account very convenient and a source of saving. Money in one's pocket is often spent on the spur of the moment, while one is disposed to think twice before drawing on their balance in the bank.

Why we sell and feature Wooltex coats, suits and skirts

Our business after all is your business. Unless we can please you, we can not continue to do a satisfactory business.

We have found that that the style is correct; Wooltex coats, suits and and because of the skirts give entire satisfaction to the best-dressed women of this community. Women tell us repeatedly that whenever they buy a Wooltex coat, suit or skirt, they are certain that the garment will give satisfactory service. Could there possibly be a better reason why we sell Wooltex coats, suits and skirts?

An Early and Complete Showing of

Smart Suits, Dresses, Skirts, Waists & Coats

Whether you are ready to buy now or later on we will gladly show you our lines and you can get an acquaintance with what THEY are going to wear this Fall from one of the most adequate style shows to be found outside of a large city store.

FABLES IN SLANG

THE NEW FABLE OF THE ROISTERING BLADES WHO ABSORBED THE MAGNETIC CURRENT DIRECT FROM THE CENTRAL STORAGE PLANT.

Out in the Celery Belt of the Hinterland there is a stunted Flag-Station. Number Six, carrying one Day Coach and a Combination Baggage and Stock Car, would pause long enough to unload a Bucket of Oysters and take on a Crate of Eggs.

In this Settlement the Leading Citizens still wear Gum Arctics with large Buckles, and Parched Corn is served at Social Functions.

Two highly respected Money-Gettters of pure American Stock held forth in this lonesome Kraal and did a General Merchandizing.

One was called Milt, in honor of the Blind Poet, and the other claimed the following brief Moniker, to wit: Henry.

Neither of them had to pay the Woman who did the Housework.

Henry and Milt got what they could during the Daytime and always stood ready to trim up the Dark Lanterns and operate at Night.

These Two Pillars of Society had marched at the head of the Women and School Children during the Dry Movement which banished King Alcohol from their Fair City.

As a result of their Efforts Liquor was not to be obtained in this Town except at the Drug Stores and Restaurants or in the Cellar underlying any well-conducted Home.

For Eleven Months and Three Weeks out of every Calendar year these two played Right and Left Tackle in the Stubborn Battle to Uplift the Community and better the Moral Tone.

They walked the Straight and Narrow, wearing Blinders, Check-Reins, Hobbles and Interference Pads.

Very often a Mother would hurry her little Brood to the Front Window when Milt or Henry passed by carrying under his arm a Package of Corn Flakes and the Report of the General Secretary in charge of Chinese Missionary Work.

"Look!" she would say, indicating Local Paragon with index finger. "If you always wash behind the Ears and learn your Catechism, you may grow up to be like Him."

But—every Autumn, about the time the Frost is on the Stock Market and Wall Street is in the Shock, Milt and Henry would do a Skylark Ascension from the Home Nest and Wing away toward the Rising Sun.

They called it Fall Buying, because both of them Bought and both of them Fell.

At Home neither of them would Kick In for any Pastime more worldly than a 10-cent M. P. Show depicting a large number of Insane People falling over Precipices.

The Blow-Off came on the Trip to the City. That was the Big Show.

Every Nickel that could be held out went into the little Tin Bank, for they knew that when they got together 100 of these Washers, a man up in New York would let them have some Tiffany Water of Rare Vintage, with a Napkin wrapped around it as an Evidence of Good Faith.

On Winter Evenings, Milt would don the Velvet Slippers and grill his Lower Extremities on the ornate Portico such as surrounds every high-price Base-Burner.

While thus crisping himself he loved to read News Notes from Gotham, signed Carolyn Stuyvesant, who seemed to have the Entree into the Best Houses.

He did not know that Carolyn had tangled Whiskers and jotted down his Boudoir Secrets in a Weinstube, using a borrowed Pencil.

So he believed what it said in the Paper about a well-known Heiress having the Teeth of her favorite Pomeranian filled with Radium at a Cost of \$120,000.

Whenever he got this kind of a Private Peek into the Gay Life of the Modern Babylon, he began to breathe through his Nose and tug at the Leash.

He longed to dash away on the Erie to look at the Iron Fence in front of the Home of the Pomeranian.

When the Day of Days arrived, Milt and Henry would be seen at the Depot with congested Suit-Cases and their Necks all newly shaven and powdered for the approaching Jubilee.

Each had pinned into his college-made Suit enough currency to lift the Debt on the Parsonage.

Already they were smoking Foreign Cigars and these were a mere Hint of what the Future had in Store.

While waiting for Number Six they wired for Two Rooms and Two Baths and to have Relays waiting in the Manicure Parlor.

Up at the Junction, where they caught the Limited, they moved into the High and began to peel from the Roll.

The Steak ordered in the Dining Car hung over the edge of the Table and they scuffled to see which one would pay the Check.

As for the Boy in the Buffet, every time he heard a Sound like 25 cents

he came out of the Dark Room and began to open small Original Packages.

When they approached the Metropolis, via the Tunnel, they thought they were riding in on a Curtiss Bi-Plane.

Between the Taxi and the Register they stopped to shake hands with an Old Friend who wore a White Suit and was known from Coast to Coast as the originator of a Pick-Me-Up which called for everything back of the Working Board except the License and the Bicarbonate of Soda.

The Clerk let on to remember them and quoted a Bargain Rate of Six Dollars, meaning by the Day and not by the Month.

They wanted to know if that was the Best he had and he said it was, as the Sons of Ohio were having a Dinner in the Main Banquet Hall.

So they ordered a lot of Supplies sent up to each Room and wanted to know if there was a Good Show in Town—something that had been denounced by the Press.

The Clerk told of one in which Asbestos Scenery was used and Firemen had to stand in the Wings, so they tore over to the News Stand and bought two on the Aisle for \$8 from a pale Goddess who kept looking at the Ceiling all during the Negotia-

The Flag Station Seemed Far Away.

tions, for she seemed out of Sympathy with her Sordid Surroundings.

Then to the Rooms with their glittering Bedsteads and insulting prodigality of Towels.

After calling up the Office to complain of the Service, they shook the Moth Balls out of their Henry Millers and began to sort the Studs.

When fully attired in Evening Clothes, including the Sheet-Iron Shoes, they knew they looked like New York Club Men and the Flag Station seemed far away, as in another World.

Instead of the usual 6:30 Repast or Chipped Beef in Cream, Sody Biscuits and a Stoup of Gunpowder Tea, they ordered up Cape Cods, Potato Let-it-go-at-that, Sweetbreads So-and-so, on and on past the partially heated Duck and Salad with Fringe along the Edges and Cheese that had waited too long and a Check for \$17.40 and the Waiter peevish at being slipped a paltry \$1.60.

Heigh-ho! It is a Frolicking Life!

Pity the Poor Folks who are now getting ready to court the Flax in Akron, Ohio, and Three Oaks, Michigan, and Tulsa, Oklahoma, with no thought of what they are Missing.

They remembered afterward being in a gilded Play-House with the Activities equally divided between a Tramp Drummer and 700 restless Young Women.

Then, being assailed by the Pangs of Hunger, they went out and purchased Crab Flakes at 20 cents a Flake, after which they paid to get their Hats and next Morning they were back in their rooms, entirely surrounded by Towels.

On the third Afternoon, Milt suspended Fall Buying long enough to send his Family a Book of Views showing the Statue of Peter Cooper, the Aviary in Bronx Park and Brooklyn Bridge by Moonlight.

Then, with a Clear Conscience, he went back and put his Foot on the Rail.

The morning on which their Bodies were taken the Pennsylvania Station broke bright and cheery.

Milt said somebody had fed him a Steam Radiator and put Mittens on him and unscrewed his Knee-Caps.

Otherwise, he was O. K.

Henry kept waving the English Sparrows out of the Way, and asking why so many Bells were ringing.

Two weeks later, at the Union Revival Services, when Rev. Poindexter gave out that rousing old Stand-By which begins "Yield Not to Temptation," Milt and Henry arose from the Cushioned Seats and sang their fool Heads off.

DAIRYMEN STRONGLY FAVOR USING IMPROVED STOCK

Their Association Urges Farmers To Secure Well-Bred Bulls and Offers Prizes For Superior Milk.

At a recent meeting of the State Dairymen's Association in Baltimore, a striking instance was given of "the asleep at the switch" attitude of our milk producers as far as the improvement of their herds is concerned. In 1910, Mr. S. M. Shoemaker made the offer of a pure-bred bull calf to the farmer whose cow would make the highest milk record in the State, no expense to be incurred therewith, and no restrictions except that the contest be supervised by the State Experiment Station. There was not an inquiry—not one! Sixty days after making this offer, Mr. Shoemaker priced this same bull to a buyer at \$300 and promptly sold it. Lest there should be question as to this offer being widely enough advertised, it should be added that the bull calf, together with its pedigree and a large placard stating the simple conditions of the prize were on exhibition during Maryland Week of that year for all visitors at the Armory to see!

A GOOD SIRE.

Notwithstanding this example, the directors of the Dairymen's Association have offered generous prizes for contestants in a number of dairy product contests, ending Maryland Week, Nov. 16 to 21st, which include a market milk contest, one for new and one for old contestants, a market cream contest, a prize of \$50 for the person organizing the first new cow testing association in Maryland in 1914, and another prize of \$50 for the most efficient tester employed by one of these associations and who has served in this capacity for twelve months.

The Association also endorsed the offer of the State Experiment Station to place several Guernsey and Ayrshire Bull Calves as herd sires on selected farms, free of cost, in an effort to improve the type of dairy animals and to encourage the breeding of registered dairy cows. Full information regarding this service may be secured from the Secretary of the Association at College Park.

WAKE UP!

ROY H. WAITE.

Maryland Agricultural Experiment Station.

After the strenuous work of mating, hatching, and caring for the young chicks you are apt to lay back and take it easy just as soon as the birds get to the age where they do not die off as a consequence of every little neglect. I wish to caution you, however, not to do this if you expect best results next winter. While it is true that the evil results of neglect do not show up so prominently now, they nevertheless are present and will show up in a depleted egg basket next fall and winter when eggs are highest in price. Most any old scrub of a hen will lay well in the spring when everything is favorable to egg production, but it takes a healthy, strong, vigorous, well-grown bird that has had no set backs to produce during the unfavorable seasons.

CRIMSON CLOVER SHOULD BE SEEDING EARLY FOR BEST RESULTS.

Crimson clover should be sown broadcast any time between the middle of July to the first of September or a little later in the southern sections of the State. The best results, however, are secured when seeded early.

A good rate of seeding is 15 pounds per acre, although some farmers never sow more than 10 or 12 pounds. While it may be seeded in any cultivated crop the best results are secured when seeded alone on a well-prepared, firm seed bed.
