WAR ON MOTHS THAT HURT TREES

Agriculture Department Helps to Gheck Pests' Spread.

SEEKS TO REDUCE DAMAGE.

Entomologists Outline Plan For Infested Area. Telling How Effective Work Can Be Done In Doing Away With the Insects and Preventing Further Damage Next Year.

agriculture is making a special effort this fall to prevent the spread of gypsy and brown tail moths. It is the purpose of the government experts to put into operation some effective means of reducing further damage to orchards and forests by these pests.

In the areas infested by these pests much effective work can be done to reduce the damage that these insects are likely to cause the following year, according to entomologists of the de-

Webs should be cut and burned so that injury will not be caused by the caterpillars the following summer. Particular attention should be given to Webs of this insect on trees which grow round dwellings or in orchards.

The apple, pear, cherry, oak and willow are among the trees which are favored as food by the brown tail moth caterpillars. In order to minimize the damage which is likely to result as much time as possible should be devoted to cutting and burning worthless or seedling apple trees and Wild cherry trees and brush. If this is done along the roadways and fences the appearance of the region will be greatly improved.

Care should be taken to protect pine and other coniferous trees, and hickory and ash should not be cut. They are not favored for food either by the caterpillars of the gypsy moth or by those of the brown tail moth.

A general cleanup such as has been mentioned will greatly assist in controlling this insect. The oak is a favored food of the brown tail moth and of the gypsy moth, and wherever it is possible to eliminate oaks less annoyance from these pests will be experienced.

In cutting wood in the winter for Durposes of fuel the farmer would do well to select and cut trees which are favored as food by these insects. In this way he will not only secure the fuel which he desires, but will at the same time decrease the food supply of the pests mentioned.

It is needless to say that in cutting wood for fuel all sickly or diseased trees should be selected, so that the stand that remains will be healthy and Vigorous. Each owner must make the selection for himself, but a great deal can be accomplished by planzing the Work a little in advance so that the negessary amounts of fuel can be obtained, the preferred food plants of these insects reduced in number and the condition of the wood lot improved.

The gypsy moth occurs in the egg stage during the winter, and much valhable work can be done in bringing about its control by treating the egg masses with creosote applied with a brush. This destroys the eggs so that the next brood of caterpillars is reduced.

For the information of residents of the district infested by the gypsy moth and the brown tail moth it should be said that this area has been placed under quarantine by the federal horticultural board. Nursery stock and living plants cannot be shipped outside the area unless the trees or plants have been examined by an authorized in-

Bee Sting Got In Her Tonsil. Kingman, Ind.-Mrs. Edward Reath was the victim of an unusual accident when she was stung by a bee which she swallowed when eating grapes. The insect in its eagerness to suck out the pulp of the grapes had crawled inside the skin and was not discovered by Mrs. Reath until it objected to being made a Jonah and inserted its stinger in one of the tonsils in her throat. The tonsil swelled tadly, and the services of a physician were required to remove the stinger.

Starts, Can't Stop Car. Hartford City. Ind.-John Holcroft. a farmer near here, bought an automobile and took it out to practice running it. He laid the book of instructions open on the seat beside him and just as he turned into the highway a sust of wird wafted away the book of instructions, and he did not know how to step the car. Holcroft was ran out of gasoline.

TABLET FOR INDIAN FRIEND OF WHITES

Seattle Professor Seeks to Honor Chief Pat Kanim,

Seattle. Wash.-Professor Edward S. Meany of the University of Washington is arousing public interest in the memory of said Chief Pat Kanim of the Snoqualmie and Snohomish Indians. Chief Pat, a stanch friend of the early whites, is one of the forgotten heroes of pioneer days, and Professor Meany wants his grave marked with a suitable monument.

In the days when settlers had reason to fear the lurking red foes in the deep Washington. - The department of forests Chief Pat Kanim's people were powerful where Everett now stands. It is not known just when the chief died, but he was buried on a bank of

the Snohomish river. When the grave was threatened by the overflowing river relatives moved the remains to the little cemetery on the Tulalip Indian reservation, where | year-old schoolgirl. many of the tribes he ruled in power now live in humble homes.

Bancroft's "History of Washington" tells of the chief's craftiness in driving Glasgow and Rabbeson from the first settlement on Whidby island in 1848. The caterpillars of the brown tail He made a great drive with dogs and moth spin webs in the fall which secured sixty deer for a feast of assemremain on the tips of the twigs and bled warriors. He counseled in favor her teachers that whatever body or branches during the winter. These of driving the white men out of the

> Glasgow and Rabbeson went back to nim led an assault on Fort Nisqually. While Pat Kanim was parleying inside ter the fact of her recovery. the stockade his brother was killed Kanim was spared, and in 1850 he made:a trip to San Francisco in a sailing vessel. What he saw on that journey made him resolve to become a friend of the white man. He faithfully lived up to that resolution for the rest

BURIED IN WAR, STILL ALIVE.

Veteran, Seventy-five, Kicked Up Dirt While Being Laid at Rest.

Centralia, Mo. - James M. Hulen, who has just celebrated his seventyfifth birthday, claims the distinction of being the only man who, after he was pronounced dead and had been buried, lived to tell the story.

Hulen was shot through the right eye with a 44 caliber bullet during the kicked up through the dirt.

dead were buried, and presently the gravediggers came back, expecting to find Hulen really dead by this time. But his heart was still beating, and he was sent to a hospital.

The experience occurred when Hulen Company G, under command of Colonel Cockrell. The brigade was at New Hope, Ga., attempting to cut off Sherman's march to the sea.

MAKES MODEL OF HIS JAIL.

Prisoner Works For Fun - Wouldn't Work For His Children.

San Francisco. - Joseph Swanson, serving a term in the county jail for proved his ability to provide for them if he cared to try.

During three weeks in jail he modeled a wooden replica of the building in which he is imprisoned with a saw. jackknife and a pot of glue. The windows are made of celluloid panes. Sheriff Barnet, who has placed it in his collection of curiosities.

She "Chewed," He Said. Huntington, W. Va.-Francis M. Edgell got a divorce because his wife, according to his petition, persisted in

the custody of the four children.

POUNDS THE SPINE TO REDUCE LARGE HEART

Contraction Usually Follows Quickly, Says Professor.

Philadelphia. - Enlargement of the heart—the "athletic heart"—may be reduced by simply tapping the spine with a hammer, according to Professor Meyer Solis-Cohen of this city. He described the treatment in the New York Medical Journal. Of course it should

not be attempted save by a physician. The tapping should be done, he says, Los Angeles Teacher Led Her to on the "spinous process of the seventh cervical vertebra," which in every day English is the protruding vertebra in the spine at the bottom of the neck, a

To protect the spine from the direct shock of the blow Professor Solis-Cohen has usually used a rubber eraser or a piece of soft rubber or linoleum about six inches long, one and a half inches wide and about a quarter of an inch thick.

Putting this deadener against the spine at the point indicated, he gives a emergency he lays his fingers on the spine and then beats the fingers with

This exercise on the spine is usually followed, he says, by a contraction of the heart and of the aorta, which latter is the big artery that comes out of the top of the heart and supplies the entire body with blood.

"I have been exciting this reflex," he says, "in many cases of dilated heart and aorta in both private and hospital practice. There were several failures. chiefly in children suffering from endocarditis (inflammation of the lining of the heart) and resulting myocarditis (inflammation of the tissues of the heart), with loss of compensation, conditions in which the heart and aorta walks without help and can even walk usually failed to contract on concussion.

"In most cases the response was from a swing to her head. She was marked, a lateral contraction of over picked up and stood on her feet. In-

SEVEN TEACHERS IN FAMILY.

Five Daughters and Two Sons Are Imparting Knowledge.

Worthington, Ind.-Lewis Williams, a retired farmer, and his wife, who live in the southwest part of the town, have five daughters and two sons who are schoolteachers. The children are: Joseph A. Williams of the department of philosophy and physiology, State Normal school, Superior, Wis.; Paul E. Williams, principal of the high school at Comstock, Wis.: Mary E. Williams. supervisor of art and drawing in the high school, Richmond; Nina Williams. head of the department of English in Clara Williams, teacher of English in Rose Williams, teacher of English in the high school, Evansville: Miss Ida Williams, in charge of art and domestic science in the schools, Princeton, Ind.

GIRL FIGHTS WITH BURGLAR.

University Student Leaps From Bed On to Intruder's Neck.

Berkeley, Cal.—Miss Edna L. Reeves of Ukiah, a student at the University of California, battled for fifteen minutes with a burglar in her bedroom.

Miss Reeves, awakened, saw the burglar crawling on all fours. She jumped from bed and landed on the man's tions to verify the diagnosis of other neck. She called to Miss Laura Hampdoctors. If a similar report is made her ton, her roommate, to guard the winspecial teachers will continue as they dows and then gave her undivided at-

They fought through a glass door to a sitting room, into the dining room and then into the kitchen. There the burglar got away through a window. Miss Reeves was considerably bruised, but was able to attend classes later in

BOY, 13, ENTERS UNIVERSITY.

ius to Chicago.

Chicago. - Students and faculty of the University of Chicago are expecting much of Benjamin Perk of Indianapo lis, Ind., thirteen years and four months old, who has registered as a freshman. Perk was graduated last spring from Swanson has presented his model to the Indianapolis Manual Training high school and was awarded a scholarship at the university. He is enrolled in the junior college of philosophy.

Perk follows in the footsteps of Harold Fishbein, who came from Indianapolis a year ago at the age of fifteen and has continued his remarkable recchewing tobacco in bed. He also got ord at the university. Perk is the youngest student ever matriculated at

TO AID SUFFRAGE

Woman Uses Native Flag In New York Campaign.

BANNER WARMLY GREETED.

Goes From House to House Telling Alien Inhabitants of Equality For Men and Women-One Chinese Voter Declares He Would Like Wife to Be an American Citizen.

New York. - Miss Lavinia Dock of the Henry street nurses' settlement has undertaken to convert Chinatown to suffrage with Chinese flags. The psychology of the flag is an interesting study. It is hard at times to pierce the apathy, the stolidity of the alien inhabitants of a great city like New York and to arouse among them an interest in a cause not primarily and originally their own. But there is one universal, never failing method-and that is to display the flags of those foreign lands whence they came. So Miss Dock unfurls a beautiful white silk Chinese banner bearing the votes for women message on both sides. A mental activities are taken into considkindly missionary man and a cultured Chinese doctor helped make the banner, which is attached to its standard by gay ribbons of old rose, light blue and bright yellow, these with black and white being the colors of the new Chinese flag.

into the highways and byways with their message of equal political rights and responsibilities for men and women. "First class," said a smiling faced, prosperous looking Chinaman in well cut American clothes as he greeted the suffrage banner. "First class, I water moccasins deposited in a locker believe in that," he repeated, and other Chinamen smilingly nodded assent.

As the banner moves on pleased nods and bows greet its progress. Into a dark doorway and up the stairs marches Miss Dock, holding her suffrage banner before her. "Our nurses come here often to look after the children," she explains.

a room in the front of the house she marched. "May we come in?" asked Miss Dock. A guttural sound signified TALK OF BABIES JARS THEM. embroidered and solemn faced baby looking like an infant mandarin sat at one end of a table between the windows. At the other window sat an older woman sewing. Both women wore native costumes. Neither could speak English. The younger woman went out of the room and soon returned, bringing her sister, a girl of fifteen, who goes to high school. She listened to Miss Dock a moment and then a indeed, she knew about the suffrage rapidly to her mother and sister-in-law Immediately their faces changed, the upon the callers. They, too, believed in women than young men." votes for women; yes, indeed, and so did their husbands.

Out on the street again and up into another house marched the Chinese banner with its message of equality for men and women. Here was a Chinese woman of high degree. Heiress to all the traditions of old China, nevertheless she has her face set toward the promise of the years to come, and she believes in equal suffrage. To be sure, as Miss Dock explains, there are not so very many registered voters in Chinatown, but even though they be but few they are going to receive the message. They are interested in it too. One full blooded Chinese voter born in this country expressed the new ideal for women as he sees it: "I would like my wife to be a citizen.'

DIVORCES WITHOUT JUDGE?

Lawyers, Apparently, May Grant One In California.

Los Angeles.-Judges and lawyers learned with surprise that through an amended provision of the state constitution apparently any qualified attorney may grant a decree of divorce. This became known by the recent granting of three decrees in Santa Rosa by attorneys sitting as judges pro tempore after having been selected to try the actions of the litigants themselves without the sanction of the court. The modified amendment reads:

"A case in the superior court may be tried by a judge pro tempore, who must be a member of the bar, agreed upon in writing by the parties litigant or their attorneys of record and sworn to try the cause, and the person so select ed shall be empowered to act in such capacity in all further proceedings in him until the final determination there-

The clause "approved by the court" has been omitted from the act.

ERROR GIVES SCARE TO NAVAL PAYMASTER

Slip In Making Up Estimates **Guts \$196,000 From Pay.**

Washington .-- In making up the navy department estimates for the ensuing fiscal year enough enlisted men were overlooked to make an aggregate of \$196,000.

It caused not a little consternation in the office of the paymaster general of the navy. A board of four officers was appointed to go over the figures and locate the error, and it took them four

days to do it. One year somebody overlooked all of the warrant officers assigned to duty in the engine rooms of our naval vessels. The amount involved on that occasion

was \$224,000. The error managed to pass undiscovered for a time. It finally got to the engine room crews, however, and they promptly announced that unless their salaries were included in the estimates instanter not an engine in the navy would turn over. It did not take the powers that be long to discover the

error and correct it. The marvel to officials is that so few errors occur in making up the estimates, when the innumerable governeration. Usually when the book of estimates is finally completed in the treasury department from the figures submitted by the several departments it is correct down to the smallest de-

Flag in hand, the suffragists go out SNAKES IN SCHOOL LOCKER.

Scare Girls, Who Now Pick Steps Be-

cause Some Escaped. La Crosse, Wis.-Normal school maidens are walking circumspectly since the discovery of a nest of so called by a reptilian mother evidently anxious to obtain education for her family.

There was real excitement when the nest of small reptiles was discovered. With the opening of the locker the snakes darted out and about the floor, and there was a scramble. Some of the snakes met violent deaths, but several wriggled into holes of safety; hence Through a crowded kitchen and into the circumspection.

Spinsters Form Club to Avoid Chatter About Husbands.

Sabetha, Kan.-An organization of spinsters has been formed in this town to save them from hearing talk about babies.

"At the women's clubs," says Miss Georgia Hook, head of the spinsters, "all we hear is talk of babies and husbands of various kinds. Oh, you cannot realize the uninterional cruelty of smile broke out all over her face. Yes, it all! What pleasure can we have in hearing talk of babies, babies, babies campaign, and she believed in votes for all the time? The small town never women. Then she turned and spoke gives the proper chance for all girls to marry happily. Too many of our best young men go to the cities. As a reglumness vanished and they beamed sult there are more marriageable young

EATS PORK AT EVERY MEAL.

Hoosier Farmer Says It Is Sweet Diet and Good For Longevity.

Columbus, Ind.—Do you wish to live long and be strong? Then eat pork three times a day, says Samuel Reynolds, a farmer here, who is seventy-five and can carry a sack of grain with the best.

Reynolds eats pork three times every day, and if he wishes a little snack of something between meals he eats a piece of pork. If he happens to need a bite of something before going to bed he eats a piece of pork. He never ate an apple in his life, and he never tasted any sort of fruit. butter or jelly.

OLDEST RED CROSS MEMBER.

Is Pointed Cap, Canadian Indian, Who at 108 Sends Portrait.

Ottawa, Canada.—A novel picture has been received by Sir Robert Borden, the Canadian premier, and forwarded by him to the local Red Cross rooms. It is that of the oldest member of the Red Cross society in the world and at that a western Indian. Pointed Cap. who belongs to the File hills Indian reserve in Saskatchewan. He will be 108 years old on Nov. 14 next.

The establishment of a branch of the Red Cross society for these Indians shows how deeply the people of all classes in the Dominion are interested in the war and eager to find a way of lending assistance, it is said.

One Way to Eat Bananas. It is said that the best way to eat bananas, which are now so common any suit or proceedings tried before a diet, is to crush them with a fork, squeeze a lime or lemon over them and sprinkle them with sifted sugar. They are often eaten this way in the tropics and found to be delictous.-Pittsburg

It shall be my earnest endeavor, if adv. elected to this office, to administer the affairs in a business-like manner by ALWAYS SAVE M. R. SNIDER'S giving it my undivided personal attention.

oct 222ts. FRANCIS J. NEWMAN.

TO THE VOTERS OF EMMITSBURG DISTRICT.

In my campaign for County Treasirer four years ago I appealed directly to the people and promised them, if elected, I would devote my entire time the noon hour, visit the distant districts with the tax books, allow the taxpayers to pay their taxes at their local banks and distribute the County funds equitably among the County banks. These pre-election promises I have constantly kept in mind and tried to strictly fulfill.

Now I have been nominated for Clerk of the Circuit Court and I want to tell you just what you can expect me to do and why I believe it would be to your interest to elect me. A Clerk of the Court who has the qualifications and the disposition can be very useful and of great help to the people. My greatest pleasure is to make friends and to do a favor for someone else whenever I can. To be frank my ambition and purpose is to give the people of Frederick County one of the best and most accommodating administrations they have had in the Clerk's Office.

I am personally acquainted with prac tically every taxpayer in the County. I know most of the people who will have business with the Clerk's Office and I believe it will be some satisfaction to you to feel that you know the Clerk with whom you will transact your

I have had good training and experience for this work, having graduated from the Frederick High School, Washington and Lee University and the Law School of the University of Maryland. I also spent one year working in the several Baltimore City courts in the employ of the Title, Guarantee & Trust Co. I have since had ten years practical experience and am familiar with the records in the Clerk's Office.

I feel I owe my nomination to the people, and if elected, I am free from any political restraints or influences to serve the best interests of all the people of Frederick. County, regardless of political affiliations.

I will select the best and most competent ment obtainable for deputies, realizing the importance of capable assistants to any administration. In appointing these deputies I will give due consideration to all twenty-six districts and not select all of them from Frederick City as is now the case under the present administration.

I will be Clerk in fact as well as in name, performing the duties of the office as well as drawing the salary.

I hope you will encourage me with your support and influence in the election on Tuesday, November 2nd, and I will give you in return a progressive, economical, up to-date, accommodating business administration. I wish to thank the people of Emmitsburg District for their splendid and much appreciated vote in the recent Primary Election. I will try to please you and merit your continued confidence.

Respectfully,

FREDERICK W. CRAMER. adv oct 15-tf.

Showing Wooltex Styles

There are strong personal reasons why you should see our full showing of Wooltex styles

Have you ever said: "How I would like to have a suit or coat that was made for me?" There's a Wooltex suit or coat that was made for you---a model designed especially for your

figure; not only one but a good number of them. And every special model may be had in a variety of sizes materials and colors.

For misses and young women, there are jaunty street suits and coats with all the chic smartness that America's leading designers can produce.

The elderly woman who wants dignified beauty and elegance will find her ideals beautifully expressed in Wooltex tailored suits and coats.

The matron who seeks smart clothes with the newest stamp of style will find becoming Wooltex garments in the most fashionable designs.

Other garments of conservative design, in a wide assortment of newest fabrics and fashionable colors are also shown here now.

Wooltex suits and coats are the acknowledged leaders of fashion for fall. And the leaders of the Wooltex styles are the Winningham suits and Pompadour coats. May we show them to you this week.

Wooltex Suits at \$25 to \$32.50 Coats at \$15.00 to \$30.00

FREDERICK COUNTY.

Frederick is next to the largest of the counties of Maryland. population and wealth it ranks next to Baltimore county. In the fertility and productiveness of its lands it ranks among the first in the Union, and especially in the production of wheat. The area of this great county is 633 square miles. The great body of the people are of German, English and Scotch-Irish descent, the program mostly of the German, English and Scotch-Irish descent, the progeny mostly of the early settlers. The land is mostly of fine limestone quality, and the greater part of the county is a valley of rolling lands lying between the Lingapore, Hills and the Cates. the Linganore Hills and the Catoc tin Mountain. This splendid valley is drained by the Monocacy river, and is one of the best farmed and most highly improved and productive areas of the Union. The great crops are wheat and corn.—Maryland Manual issued by Board of Public Works.

EMMITSBURG.

In all Western Maryland-the beauty spot and the garden spot of the State-there is no town more attractive than Emmitsburg.

No people are more wide-awake, more knowable, more courteous to strangers than Emmitsburgians.

The location of Emmitsburg is ideal; the surrounding scenery is unmatchable; the climate is notedly healthful; its water-pure mountain spring water-cannot be surpassed. It is within easy access of Baltimore, Hagerstown, Frederick; eight miles from the National Battlefield at Gettysburg, near to the Mountain Resorts, and is surrounded by fertile farms and productive orchards.

Mount Saint Mary's College and Ecclesiastical Seminary-with an enviable reputation extending over 106 years-is located here; St. Joseph's College and Academy for young ladies-equally as noted during its 105 years of splendid acheivement-is also here.

There are excellent Schools-Public and Parochial-in Emmitsburg; two sound Banks, five Churches, a live Newspaper, modern Hotel accommodations, adequate Fire Department, progressive merchants, splendid physicians, good liveries, auto garages, many fraternal organizations, good railroad accommodations. There are four or five mails a day, telegraph, express and telephone service connecting all points; electric light and power, oiled streets.

There is business to be had in Emmitsburg; there are Factory Sites availabe. If you contemplate changing your place of residence-come to Emmitsburg, Frederick County,

This is the calibre of man the Democrats of Maryland are asked to vote for on Tuesday. And as to his running mates let this inaction of one who is perverse. attest:

"Starting life with a debt of \$3,300 and an asset of \$20 a month each, the McMullen brothers, one of whom, Hugh A. McMullen, is me today, by wholly uninterested perthe Democratic candidate for State Comptroller, have worked I attempt to impugn the motives and their way up the ladder of prosperity. They started in life as clerks in country stores, and then became miners and finally, with criticisms in the other portions of the their scant savings of \$400, undertook to become merchants. They succeeded. Step by step their enterprises extended until they are now regarded as among the most prosperous people in Western Maryland.

"For his great work in behalf of the people of Baltimore Hon. Albert C. Ritchie, Democratic candidate for Attorney General, was given a majority in every district of that city at the recent primary. And the State as a whole, cognizant of his efficiency, gave him a splendid indorsement. Capability and faithfulness have marked his career."

These men represent capability and honesty of purpose. They have graduated in the school of definite purpose and experience. They are equipped for the tasks before them and if the Democrats of Maryland stand together and support them at the polls next Tuesday they will win out by a big majority.

PREPAREDNESS.

The tentative programme of preparedness outlined by the Administration and to be submitted to Congress in December gives the Democrats the credit for official initiative in a matter that has been engaging the attention of the entire country ever since the outbreak of the European War. It also has the merit of being midway between the extremes urged by those who are essentially militarists and those try believes in preparedness, a fact that in these days even Massane programme capable of expansion and leading ultimately to a thoroughly planned and an all-inclusive protection for these United States.

Peace through the medium of oratory and tribunal is far too Emerson C. Wonders In the Equine Foots. The foot of a horse is one of the most

ingenious and unexampled pieces of mechanism in the whole range of animal structure. The outside hoof is made up of 'a series of thin vertical laminae of horn, about 500 in number. Into this are fitted about 500 more thin laminae, which belong to the coffin bone, both sets being elastic and adherent. The edges of a quire of paper inserted leaf by leaf into another quire will furnish a good idea of the arrangement of the laminae in all the feet, amounting to about 4,000. These are distributed in the most secure manner and in a way that every spring is acted upon in an oblique direction.

Witches of Germany. Freiburg-im-Breisgau made it hot for witches in the old days. No town in Germany was more famous for detecting witches and for burning them. These incidents are said to have averaged nearly one a month. The suburb of the Wiehre was especially notorious, and the local executioner won a bet of bravery, the acme of manli- that there were more witches in this ness in the conception of a great village than could be packed into a four horse wagon. Maria Theresa, however but down witch burn the last instance in the neighborhood mirror partially silvered. occurred in 1751. But on the Kandel, a hill not far off, all the witches of the Black forest are still reputed to assem-

uniuoky mair.

ble periodically.—London Chronicle.

A correspondent of London Notes and Oueries writes: Among our peasants it is considered very unlucky to leave lying about or to throw away INDIGNITY, barbarity towards any, even the smallest, scrap of human hair. They therefore pick it up sweep up the place where the hair has been cut and scrupulously burn the sweepings in the fire, saying that if left about, the birds would build their nests with the hair, a fatal thing for him or her from whose head it had fallen. They say if a pyet (magpie) got hold of it for any such purpose by no means an unlikely circumstance. considering the thievish propensities of the birds-the person's death "within year and day" was sure.

Berber Women.

Among the Berber tribes in Morocco women are voked to the plow with an

Collectors are-in short, they are collectors. It was a dealer in antiques not long ago who was, or professed to be, in search of new quarters. He inspected an oldtime mansion fallen upon evil days. In one room was a carved marble mantel, an imported piece, and he opened negotiations to lease the room which contained it. The lease signed, he told the landlord that he desired a new mantelpiece put in in place of the old one. The landlord, of course, demurred.

"If you don't want to put in a new mantelpiece I will as my own expense," replied the collector:

That satisfied the landlord.

The fine marble mantelpiece was accordingly replaced by a cheap and showy horror and the carved antique carefully taken down and carted to the collector's shop, set up there to admirable advantage and eventually sold to somebody who could afford to pay the very stiff price asked for it. As for the room with its new chimney decoration, the collector cannily contrived to sublet it .- New York Post:

An Unearned Assist.

"One day while I was catching for the Dallas (Tex.) team," said Claude Berry recently, "a runner on first started to steal second. I pegged toward the base, but our pitcher-Walker-had moved out of the box after he delivered the ball and walked right into the

"The ball hit Walker on top of the head, and as Walker dropped to the ground the ball bounded high in the The runner had reached second by that time and, not seeing the ball in play, raced for third. But our shortstop saw the ball, caught it as it came down and whipped it to third in time to put out the runner.

"The official scorer credited three men with an assist. He gave me an assist because I had made the original throw, he gave one to the pitcher because his head had deflected the ball to the shortstop, and, of course, he gave one to the shortstop for making: the throw to third."-Exchange.

Two Ways to Put It. This is how Johnny wrote his com-

position in the public school class: "The cow is a good animal. She has two horns and two eyes and gives milk, which is good to drink. She has four legs and eats grass and hay. Some of them are red, and they have long

And this is how the teacher says-he

ought to have written it: "The female of the bovine genus is a beneficent mammal. This ruminant quadruped is possessed of corneous protuberances, projecting from the occiput. Her vision is binocular, and sheyields an edible and nutritious lacteal exudation. She is quadrupedal and herbivorous, assimilating her food in both the succulent and exiccated states. Some of them chromatically correspond to the seventh color of the spectrum, and they are endowed with caudal appendages of exaggerated longitudinality."-Pittsburgh Press.

Sensitive Measurement. Minute bendings of a steel bar three feet long and three and one-half feet in diameter are accurately measured by a curious but very sensitive device of the As the light of a sodium burner is reflected in each mirror the lower mirror shows a series of black and yellow concentric rings. A very small weight, even that of a pin, deflects the bar and causes the circles to expand outward. Each circle indicates a movement of one hundredthousandth of an inch, the pressure of a finger, forming five or more new circles, showing a bending of one twentythousandth of an inch.

The Kangaroo.

In the course of a long stay in the interior of Victoria, Australia, J. G. O'Donohue gathered conclusive evidence, which he presents in the Victorian Naturalist, that the mother kangaroo, when hard pressed on a long pursuit, throws her young one out of her pouch. He says the young kangaroo is "sent spinning from the pouch as the mother, by her enormous leaps, imparts to it a more or less vertical

Deadlock and Wedlock. "The compositor has made it 'deadlock' instead of 'wedlock." Shall I stop at the royal hands. the press?

Travels of a Chimney Swift.

On June 7, 1911, an adult chimney swift fluttered down a chimney into the study of Ernest Harold Baynes in Meriden, N. H., and was promptly banded and released. The band was of the old style and bore the number 6326. At & o'clock p. m. on June 15, 1912, two chimney swifts flew from the chimney into the same room of Mr. Baynes house where the bird had been caught a year and eight days before. And lo when these birds were taken in hand and examined one of them proved to be 6326. Remarkable as this may seem, this diminutive creature, less than six inches in length, had traveled hundreds of miles to Central America or else where in the tropics where he spent the winter and then had made the long return journey at the approach of summer and found again the chimney of his choice in a village in faroff New Hampshire. And throughout his jour neying the little aluminum ring had traveled with him and had produced not the least effect on the bird's leg.

One wonders if the swift lived al ways in the same hollow tree in South America.-New York Post.

A Youthful Speculator.

Senator John Sherman made his first speculation when he was a boy of sixteen, and it turned out badly. At the age of fourteen he was working for the Muskingum Improvement company at \$25 a month and at the age of sixteen was superintendent of an important part of the work and had been ad vanced to \$40. During the winter he was idle, as the canal was closed. was at this time that he attempted his speculation. Salt was very low on the Muskingum river and very high at Cincinnati. So John bought a lot of salt, loaded it on a scow and started it down the river. All went: well until within one day's float of the Ohio river, when the thermometer went down to zero. and the scow remained right there for two long months. Everybody had a great laugh over the youthful speculator, but he lived long enough to return the laugh with interest. - St. Louis Globe-Democrat.

The Horse Chestnut.

Why the horse chestnut is so called is a debatable point, but at least one possible explanation of the name may be found in a peculiar characteristic of the tree. If, when it is mature, a leaf be broken off cleanly at the point where its stem joins the branch, it will be discovered that the base of the stem is the exact shape of a horse's hoof, and if one looks further one will see plainly marked upon the "hoof" the nail marks of the horse's shoe. The similitude of hoof and nails is at least remarkable. It might be supposed, in reference to the name of this tree, that horses were fond of the fruit, but one believes that this is not the case, nor does any other creature, except perhaps the rat or mouse, attempt to eat this natural and abundant product.

"Curing" Married Couples. If every wife who is trying to cure her husband and every husband who is trying to cure his wife would stop the operation and all the husbands would devote their energies to curing themselves and all the wives devote their energies to curing themselves the homes would be a great deal happier United States bureau of standards. than they are today. There are scold-The bar, supported at each end, has a ing wives who are bending all of their small mirror fixed at its center; and energies to the task of euring their above this is a frame holding another husbands of habits far less detrimental to the happiness of the home than the habit of scolding. There are husbands who have set themselves the task of curing their wives of imperfections of so much less consequence than the infirmities of character and temper possessed by the husband himself.-Edin-

Unappreciated Wit.

burgh Scotsman.

Sir Henry Wottom, for twenty years England's ambassador to the court of Venice, discovered, to his sorrow, that it is not always wise to be witty, even in so simple a matter as writing in an autograph album. Once when visiting at the house of a friend his host brought out the visitors' book and requested Sir Henry to inscribe his name in it, together with some appropriate sentiment. Willing to oblige and wishing to say something at once neat, witty and wise, he wrote the following and appended his name to it: "An ambassador is an honest man, sent abroad to lie for his country." But King James I. did not appreciate the effort of his ambassador. It was five long years before he received another appointment

Weighing the Baby.

"I have so often been amazed to hear people trying to devise a way to weigh the baby-tying him in a towel and using various devices," says a contributor to the Woman's Home Companion. "Why not step on the scales with the baby in your arms and then without weight. Like many other things, 'it is easy when you know how."

Precocious Talent.

Proud Father-That boy of mine is going to be a great financier some day. Sympathetic Friend-What makes you think so? P. F.-Why, he is only four years old and already has acquired coupon thumb from clipping the pictures of bank buildings out of the magazines.-Richmond Times-Dispatch.

Testing Fountain Pens. strument called a micrometer. If ons piece of the mechanism is out even a six-hundredth part of an inch, the micrometer rejects it as faulty.

BANKERS

EMMITSBURG, MARYLAND

New Polished-Steel Burglar-Proof Vault Door.

The above illustration is from a photograph of our new Vault Door, recently installed by the York Safe and Lock Co., York, Pa.

The specifications of the door and new vault equipment are as follows.

Six inch thick steel door which is absolutely drill proof, explosive proof and non-burnable. This door is locked by twenty-two (22) bolts, each 21-inch diameter, and the bolt work is checked by three movement Sargent and Greenleaf 72-hour time lock, also two bank four tumbler combination locks.

The lining of the vault consists of 12 inch thick steel, built up of alternating layers of 5-ply Chrome steel and Bessemer, which is drill proof.

The Safe Deposit Boxes are of the best construction, each box is fitted with bronze case high grade safe deposit box lock, supplied with two renters' keys. These locks are master key locks, being necessary to use a guard or preparatory key to operate same. Each box is also supplied with tin bond box on the inside.

This vault is considered absolutely burglar-proof, and as an extra safeguard, is equipped with burglar-proof chest on the inside. The finish of the vault front is natural polished steel.

This equipment is the best security known to modern ingenuity.

FINE PROGRAM

High Class Speakers at Laymen's Missionary Movement.

Ing, Which Men Would Cross a Continent to Attend.

The program of the Laymen's Misthe character of a national meeting which men would cross a continent to attend; now by this fine co-operation in team work brought to the very doors of the men of the city and

cellence. These are men not only ity. eloquent in speech and full of mag. given for combating the fly by discnetism but each with a personality and practical experience that make his utterance of the greatest possible value. The following are some of the speakers who will be present:

The Rt. Rev. Lucien L. Kingsolving, D.D., University of Pennsylvania, is one of the ten missionary bishops abroad, of the Protestant Episcopal church. He is their only missionary bishop in South America. His diocese is South Brazil. Under him are nineteen clergy, nine churches, thirtyfive stations and 1258 communions. He will bring a timely message from Latin-America contrasting religious conditions in the two Americas.

Halford to Address Convention

Colonel Elijah W. Halford, secretary to President Harrison from 1889-1893, knows missions from a close persona! observation in the Phillipines where he resided as paymaster of the Unit ed States army from 1901-1903. He has been prominently identified with the development of the International Laymen's Missionary Movement in this country. He is now its vice

Mr. Charles G. Trumbull is editor of the Sunday School Times, one o the most widely circulated religious papers of the day. The recital of his recent wonderful experience in the Christian life has profoundly impressed and helped a multitude of people. He has been on the Northfield program. He will speak of "The Victorious Christian Life."

Mr. W. G. A. Millar, the purchasing agent of the American Bridge company, Pittsburgh, will give his Sundays to the campaign. He tells a most arresting story of how a purchasing agent can handle gospel goods

Rev. James McNaughton, of Turkey, will give some thrilling tales of recent events in the Near-East. He speaks out of a life-long experience in the Turkish empire.

Mr. Fred B. Smith, of the H. W. Johns-Manville company, was for from the given town. more than twenty years at the head of the International Religious Work department of the Young Men's Christian Association. He is the most powerful speaker to men of the present day. He will bring an impressive message from his recent tour around the world on a religious mis

Mr. J. Campbell White, one of the two general secretaries of the Laymen's Missionary Movement, was for ten years secretary of the Young Men's Christian Association at Calcutta, India. Since the origin of the Laymen's Missionary Movement in 1906 he has led the most remarkable missionary development of modern times. He will preside at the Baltimore convention and ten others in the national campaign. Mr. White has recently become president of the University of Wooster, Wooster, Ohio.

Dr. Fred B. Fisher, general secretary of the Laymen's Missionary Movement of the Methodist Episcopal Church, North, will be associated with Mr. White in the leadership of the Baltimore convention team.

The sessions of the Maryland convention of the Laymen's Missionary Movement in Baltimore November 4 to 7, at the Mt. Vernon Place M. E. church, will be as follows:

Thursday, November 4, 8 P. M. Friday, November 5, 10.30 A. M., 2.30 and 8 P. M.

Saturday, November 6, 10.30 A. M. and 8 P. M. Conference by denominations Saturday afternoon, November 6. (Place

and time to be announced.) Sunday, November 7, 3.30 P. M. Men's mass meeting, Mt. Vernon Place M. E. church, Unless otherwise announced.

Every churchman in Maryland is cordially invited to be present. This is an interdenominational movement, and the representation of each church is unlimited.

The convention will be interesting, educational and inspirational, and no man who is concerned in the spread of the Gospel at home or abroad, should fail to attend.

Standar-Did that deaf mute orator make a set speech? Doyle-No. He HESSIAN FLY INJURY CAN BE PREVENTED.

Seasonable Planting Of Wheat Is Recommended.

NICHOLAS SCHMITZ, Maryland Agricultural Experiment Station.

The loss in this State of the 1915 wheat crop from the Hessian fly, while not generally as severe as in some years in the past, was nevertheless considerable, and should be taken as a warning of what may follow in an-Program Will Be of the Very Highest other year. Now is the proper time Quality and Power, Giving Convento begin fighting this pest, and in tion Character of a National Meet. order to combat it effectively something must be known of its life-his-

There are at least 2 generations of the fly each year, one in the fall and one the following spring. The sionary Movement convention to be spring generation may be considered held in Baltimore November 4 to 7, as the children of the fall generation. 1915, will be of the very highest qual. At the present time the fly may be ity and power, giving the convention found in the wheat fields in what is known as the "flaxseed" stage, from which the adult will begin to emerge about the middle of August and continue to do so until sometime in October or later, depending upon the weather and latitude. The maximum emergence usually occurs the last 2 weeks in September or the first week such as to guarantee the highest ex- in October, depending upon the local-

The usual recommendations ing or plowing under the stubble early in July or August are not practical in Maryland, because the majority of the stubble fields must be left on account of the grass crop they hold. The best methods that the Maryland farmer can employ are: First, seeding after the maximum period of adult emergence, and, second, crop rotations. Trapping the fly by sowing narrow strips of wheat and later plowing them under deeply and packing the land firmly by rolling will help when this is practical. All voluntary wheat should also be destroyed, or, what is perhaps better, it should not be allowed to grow.

It must be remembered, however, that if one man makes every effort possible to destroy the fly the effectiveness of his work may largely be destroyed if his neighbor does not do the same thing, since the fly may go from one field to another to lay the egg which hatches into the magot that does the damage. Therefore the adoption of a date which will make a uniformly safe period for the sowing of wheat in each locality by all farmers is of greatest importance. From observations and reports of the State Entomologist, he has recommended the following dates in the surrounding country of the following cities and towns of the State:

OaklandSept. 12-19, Hagerstown Oct. 1- 7. WestminsterSept. 25-Oct. Germantown Ellicott City..... Oct. 2- 9. LaPlata Cockeysville Bel Air..... Oct. 2- 9. Chestertown Oct. 6-16. Easton Oct. 9-16.

Dates of sowing for adjoining sections to the above can be figured by moving forward the date of sowing 1 day for each 20 miles north and 1 day for each hundred feet in elevation

FEEDING FOR THE MOULT.

Linseed Meal Or Sunflower Seed Hasten the Moult.

ROY H. WAITE, Maryland Agricultural Experiment Station.

This is the season for moulting. It is possible to hasten the process and get a new set of feathers on the birds in short order, but several experiments have shown that where the moult has been forced the hens laid later than when they were allowed to moult

GETTING NEW FEATHERS.

naturally. Give the moulting hens plenty of feed rich in protein. The feathers contain large amounts of this product and make a heavy drain upon the bird's supply. The feathers will grow out after a fashion even though the hens are not fed a special feed, but they will not come through with the same degree of health and vitality they would have if properly cared for.

In addition to the regular rations give a small proportion of linseed meal. About 10 per cent. of the regular mash has been found to be good. This would be ten pounds of linseed meal to each ninety pounds of the mash mixture. If sunflower seeds are available they make an excellent moulting feed but it would hardly pay to buy them at present prices unless you are raising special exhibition stock.

PRESIDENT VISITS EMMITSBURG Mr. Wilson, Mrs. Norman Galt and

Miss Margaret Wilson Take

Luncheon Here.

Emmitsburg was signally honored Saturday by having within its corporate limits the President of the United States, Mr. Wilson, his fiancee, Mrs. Norman Galt, and Miss Margaret Wilson, the President's daughter, motored \$55 from Washington. The party arrived in Emmitsburg at 12.15 and went to the home of Mr. and Mrs. Sterling Galt, remaining for luncheon. The Presidential party was met outside of Emmitsburg by Mr. Sterling Galt, who motored out the State road some distance to join it. As the White House car, followed by the secret service machine, passed up West Main street, several persons caught a glimpse of the President and gradually the news spread until when the party left Mr. Galt's house at 3.15 there was a large but very orderly assemblage of men and women Wednesday Prayer Meeting 7:30 p. m. who applauded the Chief Executive, who bowed his acknowledgement and Mrs. Galt smiled her appreciation. The luncheon was strictly en famille at which only the Presidential party, the host and hostess and Miss Harriet H. Wednesday, Prayer Meeting 7:30 p. m. Motter, an aunt of Mr. and Mrs. Galt Saturday, Catechetical instruction 2 and a warm friend of the President's fiancee, were present. The return trip to Washington was made in the afternoon in time for the usual White House dinner hour.

BALTIMORE'S BEST STORE Hochschild, Kohns Co.

Howard and Lexington Streets

The Store That Makes Visitors Feel at Home

Baltimore's Best Store is a homelike store. There's a ring of genuineness and sincerity to its greeting to visitors.

That is one of the many reasons why it is the most popular shopping place, not only for residents of Baltimore, but for the thousands of visitors who come to Baltimore to shop during

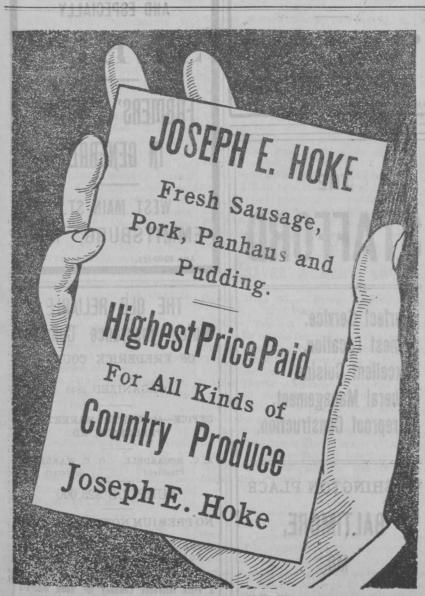

YOU should make yourself acquainted with the Hochschild, Kohn & Co. Store the next time you visit Baltimore. You will find it not only a pleasant, but an economical shopping place—for it sells only dependable goods, and, in most cases, sells them at a price no higher than is ordinarily asked for inferior articles.

Bear in mind, too, that whatever you buy here is returnable, for exchange or refund, without question or argument, if it does not prove entirely satisfactory.

Hochschild, Kohn & Co., Baltimore, Md.

The Nurse and Isa Ar-

ranged the Flowers.

Daddy's Bedtime

Isa's Valentine

NCE upon a time there was a little girl named Isa, who had been very ill in a large city hospital. Her mother and her daddy had sat up night after night wondering and worrying whether or not Isa was going to get well, for at one time the doctors even had almost given up all hope, and Isa was an only child.

"But at last a joyful time came when Isa really seemed to be on the road to getting well, and very happy her mother and daddy were.

"One evening Isa was sitting up in bed while her nurse was telling her all about the other children in the hospital. The hospital was almost entirely a children's hospital, and as it was very large there were ever and ever so many children in it. The nurse told Isa about the different wards, where there were rows of white beds in which were all the little girls and boys who were sick, and many of them she told Isa were very poor. Isa listened with great interest and said: 'Oh, how I wish I could do something for them, as I always have everything I want. Couldn't I send my flowers into some of the wards?

"The nurse and Isa then arranged a little bunch of flowers for each ward. There were roses and carnations and violets and bright red geraniums. Isa could hardly wait until the nurse came back from the wards to tell her how the children enjoyed the flowers.

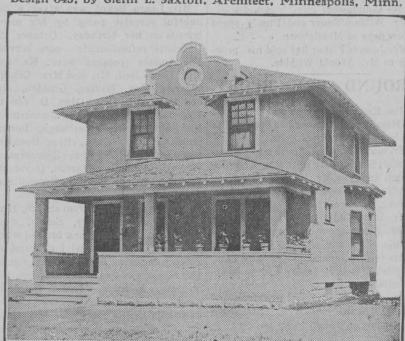

"The next morning Isa's daddy and mother came to see her. 'Oh, little Isa! said her daddy. 'We're going to have a surprise for you. You know to-night is St. Valentine's eve, and I have an idea my little daughter may be going to have all kinds of bright, heart shaped presents!

"'Oh, daddy!' said Isa. 'Instead of giving just me a valentine party couldn't we have one for all the children in the hospital? I'm well enough to be moved into the big ward, and all the children who are able to be there can have a party with me, and we can have a huge valentine party. Oh, couldn't we do that. daddy?' He said:

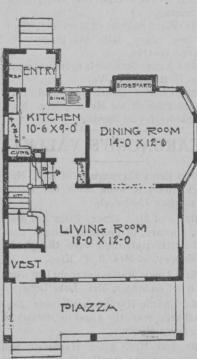

"'Yes, indeed, we will have a lovely big party, and I am proud of my little girl because she thinks of other people after she has suffered so much herself.' "So in the evening the big ward was bright with red hearts strung from the ceiling and hanging over the beds. The lights were covered with red paper shades, and in the very center of the room was an enormous big heart, and what do you suppose was in the heart?"

"What?" asked Evelyn eagerly. "Why, for every child there was a red ribbon. Each child pulled his ribbon attached to the heart and at the end was a beautiful present.

PROFESSOR LOST IN WILDS.

Wife Eails to Search Australia For Missing Entomologist.

Berkeley, Cal.-Mrs. Genevieve Bridwell, wife of J. W. Bridwell, former entomologist at the University of California, is on her way to the antipodes in search of her husband, who went into the wilds of Western Australia some months ago as the agent of the Hawaiian government in search of parasites to control insect pests.

Professor Bridwell was last heard from when he sailed from Sydney, N. S. W., for ports on the west coast of Australia, whence he expected to proceed inland.

The Planets.

Taking our earth as standard, the two planets nearer the sun-viz, Mercury and Venus-are designated as inferior and the five which are farther from the sun than the earth-viz, Mars. Jupiter, Satura, Franus and Neptuneand accepted by astronomers, Mercury is 35,951,105 miles from the sun; Venus, 67,193,688 miles; earth, 92.894,800; Mars, 141,542,690; Japiter, 433,313,340; Saturn, 886,108,900; Uranus. 4,782,742,060; Neptune, 2,783,764,30c

This house is covered with rough cast finish of a pure white cement. The trimmings may be either ivory white or chocolate brown. The roof may be stained either a red or a moss green. The dining room is provided with a bay for ventilation and light and a sideboard at the back. In the kitchen there is a built-in cupboard, with ample table space, and refrigerator in the back entry. Size, 24 feet wide by 26 feet deep. First story, 9 feet; second story, 8 feet. Birch floors throughout. Red oak, birch or Washington fir in the first story and pine to paint in the second story. Cost to build, exclusive of heating and plumb-

A Short Lived Newspaper. The first newspaper ever published in America never got beyond its first issue. It was called Publick Occurrences and appeared in Boston Sept. 25, 1690. It contained a promise to publish in its next issue the names of all the liars in Boston, and the authorities, taking cognizance of the threat, wisely forbade the publication. The Boston News Letter was the first journal to be regularly published on this continent. It was started in 1704 and was followed by the American Weekly Mercury in Philadelphia in 1719. English journalism is only thirty-five years older than American journalism, the London Gazette, an official publication, having been founded in 1665.

Too Bold.

There is a local legend concerning Salisbury cathedral, in England. The cathedral is celebrated for its lofty spire, and the legend is that once upon a time a prisoner found guilty of some capital offense was sentenced to death are termed superior. As established and had the option given him of being executed in the usual way or of throw ing himself from off the cathedra spire. He chose the latter, and, wen derful to say, he escaped death. Som time afterward he wagered he woul do it again. He did, but this time h body was dashed to pieces.
