# ONE OUT OF EVERY

17,000,000 Persons Participated in Third Liberty Loan.

#### DISTRIBUTION IS GRATIFYING. under the proposed law.

Secretary McAdoo, Thanking All Concerned, Adds Warning to All People: "Keep Your Bonds! Don't Sell!"-Farmer Investors.

Washington.—The final total of the Third Liberty Loan bond sales, which is expected to reach \$4,500,000,000, will not be announced until after all individual banks report to federal reserve banks, but analysis of incomplete returns shows that the loan just closed probably is the most successful ever floated by any nation. This assertion funds. is based not so much upon the volume of sales as upon the wide distribution

A total of the returns provided by the federal reserve districts indicated that approximately 17,000,000 individual purchasers participated in the loan. This estimate includes fairly accurate returns from the Atlanta, Minneapolis, Cleveland, San Francisco, St. Louis, Chicago and New York districts, and estimated totals from the Dallas, Kansas City, Richmond, Philadelphia and Boston districts.

With only a part of the last day's returns showing, the number of subscribers in each federal reserve district may be fairly indicated as follows:

District.	Subscribers.
New York	4,000,000
Chicago	2,498,000
Cleveland	1,561,979
Philadelphia	1,200,000
Boston	1,200,000
San Francisco	1,000,000
Atlanta	1,000,000
Minneapolis	1,000,000
Kansas City	900,000
Richmond	900,000
St. Louis	
Dallas	850,000

erty Loan indicates that one out of West Point Academy appropriation. every six persons in the United States would have been required to have attained one subscription to each family thus removing an obnoxious salient.

The total of 17,000,000 purchasers exceeds the number of buyers in the Second Loan by 7,000,000, and is 12,-500,000 more than in the First.

A treasury analysis of the loan declared results were particularly remarkable, considering the fact that business interests are to be called on William F. Cooper for \$75,000. to pay billions of dollars in taxes next month, and that farmers subscribed generously, although this normally is the borrowing rather than the lending season for agricultural interests.

#### SPORTING \*cooccessosssssssssssssssssssss

Camp Dix lost a baseball game to the Crescent Athletic Club after leading for seven and a half innings. The score was 3 to 2.

Willie Kyronen won modified Marathon run in New York, finishing 25 seconds in front of Charles Pores.

Pennsylvania outrowed Columbia and Princeton in the race for the Childs cup on Carnegie lake.

Fred Plum of Atlantic City won the national amateur trap shooting championship with a record score of 197 out

James Clarke, Jr., of the Boston A. A. broke 198 out of 200 clay birds in the preliminary shoot of the national amateur championship at Travers Island.

Ray Chapman of the Cleveland Baseball Club enlisted in the naval reserves.

George Mogridge, who has been pitching gilt edge ball for the Yanbees, in fact, their mainstay until Love rounded into form, notified Miller Huggins that he is to quit the national game. Mogridge is to accept a place in the service of the government at Sparrows Point, Md., in a shipyard.

Fearing that permission to play Sunday baseball in Philadelphia might lead to public discussion and serve as an opening wedge for the playing of professional games, Mayor Smith announced that he would not sanction contests on the Sabbath between service teams, as had been proposed.

Olaf Henriksen has quit the Indianapolis club. It is rumored that the former Boston player could not get along with Manager Lajole.

the Cleveland Indians, has been signed ito play on Roger Bresnahan's Toledo

#### WASHINGTON

The Liberty Loan campaign closed triumphantly, with every district exceeding its quota. The total for the Returns From Campaign Indicate | nation may reach \$4,000,000,000. The total number of subscribers is estimated at from 15,000,000 to 20,000,000.

The house passed the bill enlarging the powers of the President to give to him full control over the issuance of passports. Severe penalties are affixed

The House Military Affairs Committee manifested an intention to hold up appropriations for the army until it completes an inquiry into charges regarding the airplane program.

The United States and Norway completed a general commercial agreement. The agreement was signed by Vance C. McCormick, chairman of the War Trade Board, and Dr. Fridtjof Nansen, special representative of the Norwegian government.

Shipping Board to continue building concrete vessels despite Congress refused to grant appropriation. Will spend \$50,000,000 from its available

Secretary Baker outlined a colossal military program to the house committee and asked for unlimited powers to increase the size of the army. The army appropriation bill will carry

The war department almost immediately will resume the practice of giving addresses of American soldiers in the casualty lists sent from France.

## ALLIES A STEEL WALL U.S. ARMY HAS NO LIMIT

Front Is No Longer a Chain With Weak Links.

Latest Enemy Attack Against Americans Revealed Solidity of Defense Against German Hords.

French Army Headquarters .- Additional details have been received of the violent attack the enemy made on an American regiment Tuesday. The Americans lately had taken a position in the front line, before Grivesnes and West Montdidier, with the French. Divisions of the latter were to the right and left. After a strong preliminary bombardment, which began at about two hours, an enemy force of about three battalions advanced to the

After some hot fighting, in which the American casualties were fairly heavy, the Germans were driven back to their lines, leaving behind them five prisoners and a considerable number of dead.

The French say that our men fought with great courage and determination, but that, after all, is what we knew we were to expect of them, and the reason for drawing attention to the incident is that this is the most important engagement in which the soldiers of the United States have taken part. The American blood shed here in the defense of the road to Amiens is an earnest of the fact that they definitely have joined the great battle and have taken their stand in force side by side with the allies in France in the fight for freedom.

From now on the enemy will front them and will find no longer the armies of four different nations divided from one another by water tight compartments, but one invincible force of French, British, Belgians, Portuguese, Americans and perhaps Italians, brok en by no delicate points of liaison, but welded together into one homogeneous chain with interchangeable links.

#### PITH OF THE WAR NEWS

#coccoccoccoccoccoccoccocco

London war observers are discussing the chance the German failure in Picardy and Flanders has given the allies for a counter offensive at some point where the enemy lines are thin. The most favored point is the Verdun-Toul sector, where the Americans would play a large part.

The allies' lines north of the Lys stand firm. A German attack failed to materialize, despite a preliminary barrage, and the British and French made gains near Locre.

The French by a direct hit from one of their batterles have destroyed anoth-

er German long range cannon. That Austria is ready to launch a new smashing drive at Italy is indicated by a dispatch saying Emperor Charles and his staff have reached the Italian front. A drive at this time is believed to be the result of increasing unrest at home, three more members of the Austrian cabinet having resigned.

The Germans are repulsed in an attack near Hinges, General Haig's men holding their new positions like a stone wall. The British also improve their lines east of Amiens and north of Albert, capturing many prisoners.

#### German-American War Weesessessessessessessessesses

Premier Lloyd George praised the American troops after his return from the front. He found the allied soldiers confident of victory.

President Wilson's act in pardoning two Pershing soldiers and commuting the sentences of two others after all sulate in San Francisco, who pleaded four had been sentenced to death was believed by army men to show Mr. British rule in India, was sentenced to Wilson's approval of Mr. Baker's

#### "ENOUGH MEN TO MAKE VICTORY CERTAIN."

Washington. - An army of 2,298,000 men under arms, including 130,000 officers, by July 1 is promised by Secretary Baker. An appropriation of at least \$13,-000,000,000 will be required.

At the same time the provost marshal general announced that \* 233,742 men had been called to \* join the colors in May. Of these \* New York will furnish 32,330 ★

Mr. Baker said it was the pur- \* pose of the war department to \* mobilize all the men for whom \* equipment and training facilities \* could be provided.

"There is no limit," he said. \* "We will call out enough men to \* make victory certain."

Teuton Newspapers Indicate Hope of Taking Ypres Has Been Abandoned by Hindenburg.

#### GERMAN "PEACE" DRIVE NEXT.

Petain's Men Take Hill 82, Cheating Teutons of Vital Railway Point. Heavy Fire Along Lys Sector. Haig Betters His Position.

London.—The Germans, having met with a reverse in their operations on salient, where the French and British have stood shoulder to shoulder in defense of Ypres and the high ground which forms a bulwark in front of the channel ports, have turned to the southern side of the angle in the allied lines in northern France.

The German artillery seemingly centered its fire on the line between Givenchy and the Neippe Forest, and it may be that the enemy soon will launch an attack against this vital section of the British line.

Dispatches from the British headquarters tell of a tremendous cannonade in the Lys region, which may be taken to mean the part of the Flanders battlefield at or near Merville, where the Germans made their greatest advance after the fall of Armentieres. Articles appearing in German news-

papers would seem to indicate efforts to prepare the German people for an announcement that there will be no immediate attempt to take Ypres. Experts, writing what may be considered inspired reviews of the situation, say nothing would be gained by the capture of the ruined city.

This may mean that the Germans will turn their attention to some other part of the front for a new effort, and the bombardment of the lines near Merville and farther east may be the first step in an attempt to either bore straight through the allied armies or to cut through toward the south and force a British retirement from the Arras-Lens salient. So far as known no infantry fighting has occurred in

this sector in the last day. While waiting for the Germans to make the next move the allies have not been idle. All along the line their patrols have been active, and at gard and Villers-Bretonneux, before Amiens, they have taken tactical positions from the Teutons. One of these positions was Hill 82, north of Castel. a height which afforded good observation of the allied communication lines.

Correspondents in Holland and Switzerland report a distinct drop in German confidence, due to the long all allied spokesmen of prominence are full of optimism regarding the course the campaign is taking.

#### U. S. SEIZES BREWER'S \$40,000,000.

George Ehret, Sr., Has Lived in Germany Since War Started.

Washington.—Because George Ehret, New York brewer, has been a resident in Berlin continuously since the American declaration of war the entire Ehret estate, valued at \$40,000,000, has been taken over by Alien Property Custodian A Mitchell Palmer

George Ehret, Jr., voluntarily turned over the estate when informed by the state department that his father had been in Berlin ever since this country entered the war. Though Mr. Ehret. Sr., is an American citizen, George Ehret. Jr., reported his father's entire estate of enemy character because of the latter's residence in the capital of the hostile country.

#### FRENCH CHIEF OF IRISH.

Erin's Foremost Soldier Expected to Accomplish Good Result.

London.—Official announcement was made of the appointment of Field Marshal Viscount French, for a long time commander in chief of the British forces on the front in France, to be lord lieutenant of Ireland, and of Edward Short, member of Parliament from Newcastle, to be chief secretary for Ireland.

Viscount French is Ireland's foremost soldier.

#### CONCRETE SHIP A SUCCESS.

The Faith Averages Eleven Knots on Trial Trip.

San Francisco, Cal.—The 7,900 ton steamer Faith, the largest concrete ship in the world, built by the San Francisco Shipbuilding Company, was given a successful trial trip here, averaging more than eleven knots an hour in its four trips over the official trial

course. The Faith's engines were installed in 44 days, it being a local record of which the company is proud.

The success is due to three things,a thousand; second, to the unceasing and splendid coaching of Thomas F. and Harry G. Wolfe moulded out the Mulhearn assisted by Francis P. Cassidy, to both of whom, the majority of credit must go; and lastly to the cast paper into the Auditorium but also itself and those behind the scenes, stage men etc., all of whom contributed we thoroughly enjoyed "Within The to the exceptional success, After only Law. three weeks of rehearsing we witness ed a cast so excellent and a play so splendidly staged and directed that it may be commended as a treat for the senses if nothing else.

bouquet of laurels must go. Ye Critic times its cost. thanks him for adding more to the enjoyment of the evening with his excellent "make-ups," which just reached that delicate "enough," and were not, as is general, overdone. To him thanks are also due for the wonderful scenery, that spoke of a touch a la Urban, especially the second and third bill now before Congress. The "play shade of worsted and send at least one in its simplicity, the letter rich and in its simplicity, the latter, rich an luxurious in every detail, -both, triumphs in their creation. Mr. Mulhearn has placed himself among the premiers of amateur directors. Great praise is also due to Francis P. Cassidy and Harry A. Kearns who ably assisted Mulhearn.

There were no minor parts in the whole production. Every part was in the hands of its respective star. The butler was as truly a butler as Mary Turner was typical. The cast can best be treated in accordance to the import. ance of each part.

Hubert J. McGranaghan, who Eltinged in the role of Mary Turner, play. ed the most difficult (and most successful ly too) character he has yet assumed. He proved himself to be an "actress" of extraordinary pathos and appeal, but a dominating figure in tense situations and a big smashing climax. He was a ence around closets or cupboards that Carthy was the first of the five to re- new McGranahan, a star who combined port at camp and he now holds the rank with winsomeness and delicate graces, Mr. R. J. Rauth, 18, has discontinued of Sergeant and is stationed at Camp all the force of a mature melodramatic his studies and accepted a position at Meigs, Washington, D. C. Mr. C. C. figure. His despair in the first and Coyle is in the commissary department third acts, hysterics in the third-in and located at Camp Devens, Mass. fact, his versatility throughout the Manager Carroll has scheduled a game Mr. T. P. Doran, former Editor of the whole performance was clever acting with a team from Camp Colt, Pa., for Mountaineer, is in the Coast Artillery and would be a credit, Jane Cowl,

Charles Carroll as Richard Gilder, a happy-go-lucky millionaire's son was admirably adapted to his part, and essayed it in a charming and vivacious 10 or 15 minutes, will greatly relieve manner. Light-hearted and merry in the first two acts, he handled a strong situation in the third with much forcefulness and real ability. It is understood that he has received a very tempting offer from one of the leading moving picture firms.

Harold Durkin played to perfection ache. the lovable Joe Garson and captivated the hearts of the audience. Fiery tempered, a clever crook, but with a heart of gold, Joe had a thrill for the heart and a tear for the eye, and was as at-

Albert Schmidt, playing Inspector Burke, produced the best character ter and sugar when creaming it will portrayal of the day, When a juvenile cream twice as quickly. thespian can so well portray his part that his audience holds such feelings to put upon the platter. for him as the plot demands—to use out the work at the the goods." And Inspector Burke was thus complimenting the harsh Inspector,

It was our good fortune to witness Arthur Taylor when he so superbly excelled in "Ready Money" last year, and we held high hopes upon perceiving his name among the cast. But we discovered that even then we had under-rated him, for he soared above our highest hope, and played a true Edward Gilder.

The two most delightful roles of the evening were in the hands of John Mc-Mullen and John Sadler, the former as light headed Aggie Lynch, and the latter, the stylish "English Eddie," whose odd personality was so well interpreted by Mr. Sadler that "English Eddie" although a stool pigeon became highly amusing and quite attractive. His little mannerisms and foppish English carriage in the second act, were real acting And dear little Aggie Lynch! No way but to love her Dainty and sweet, but with much humorous slang of the "naughty-nice" variety, Aggie was a darling. And McMullen not only portrayed her with all the necessary girlish vivacity, but injected in the part a certain personal magnetism that even made us envious of the unseen General

## AMERICA—THE SYMBOL OF FAITH AND HOPE

By GEO. W. GOETHALS Acting Quartermaster General

EVERY American citizen should be proud of the American Red Cross. It is daily, indeed hourly, giving an example of mercy to the whole world. Through its operations the suffering of soldiers and civilians is being alleviated.

The American people should continue to support the American Red Cross. Through it they are helping their own men and helping the allies. Through it they are making America the symbol of faith and hope in a distracted world.

> GEO. W. GOETHALS, Acting Quartermaster General.

> > Upon the cross.

I saw Her face.

And so it was.

Of my room.

It came to me. That Red Cross work.

Across the seas.

In other hands.

Was mother's work

And done for Her.

And then sleep came.

And cheering throng.

And boys come home.

And He was there.

I heard Her sob.

And saw Him.

And She was there. And once again.

Kiss Her tears away.

And in their wake.

A Red Cross waved.

On that glad day.

As it had waved.

And followed Him.

Down in the Valley.

And come back again,

And came a dream.

That in the darkness.

#### THE BOY IN KHAKI

By K. C. B.

I saw a mother. And her brown clad boy. And heard her sob. And "Goodby, son." And saw him. Kiss her tears away. And go.

And hours passed. And in the darkness. Of my room. I lay. And all the pictures. That the day had drawn. Came back. And She was there. And He was there.

And then a picture. From across the seas. Was painted. On my shadow wall. And He was there. And all about him. There were shadow men. But nowhere. Could I find the face. Nor find the form. Of Her.

And then Another picture came A great Red Cross. And wounded men. Looked up at it. And raised their arms. And smiled. And He was there. And as I gazed.

I THANK YOU

#### One Million Sweaters For Army and Navy

The American Red Cross is the greatest volunteer organization that the world has ever seen. It was announced by one of the high officials in Washington that millions of people are and have been for some months working six days a week without a dollar's pay. This includes the members of the local chapters and all other employees in this country and abroad. One significant item in this is the fact that the Red Cross has given the army and navy over 1,000,000 sweaters for the boys in the service, of which over 500,000 were made by the members of the local chapters. You who know the difficulty of making sweaters can estimate the character of the work and the self sacrifice that the women of America are making to further the Red Cross' mission of mercy.

CARDINAL GIBBONS' MESSAGE

There is in these times a veritable ocean of sorrow and suffering engulfing millions of souls, and a society with the membership and resources of the Red Cross, actuated as it is by Christian principles, can best undertake the tremendous burden of extending intelligent and efficient relief. In particular I approve of the Red Cross activities as they are directed towards supporting the courage and caring for the injuries of our young soldiers and sailors. It is my earnest hope that all of our people will cheerfully and generously cooperate with the Red Cross committee in their efforts towards reaping the fullest measure of charity that it may be possible for the society to attain

> "U. S. Takes Control of Rubber Market."-It is to be hoped that all the "rubber necks" are to be included.

#### EXPLAINS POISONING BY FOOD

Science Has Discarded Theory, Long Held. That Ptomaines Are the Cause of Infection.

Poisoning by fcod is no longer ex in an address to the American Asso-Dr. E. O. Jordan showed that it is due either to true bacterial toxins comparabacilli, or to infection with specific infection carried by the food article. The ing microbes is the bacillus botulinus. which has produced in the United States 22 recorded cases of poisoning, of which 17 were in California, while Those who talk unnecessarily Great Britain has reported no case. This type of poisoning is rare, but infection with food-borne disease bacof cases. The bacteria are either present in the food itself, or the food is contaminated from human sources. The chief food-borne infections hitherto traced to human contamination paratyphoid infections; but to these must be added certain infections rare-Those who cut up long stretches ly transmitted by any food except milk, such as diphtheria, scarlet fever, inated at its source is exemplified in to food infected at its source are those of infected milk. The bacterial diseases of plants do not infect man.

#### In Self-Defense.

A negro soldier at one of the cantonments insisted that he wanted to monstrated with him, telling him it for he was likely to be shot in the trenches. To this the negro answered: doin'. I'se doin' this in self-defense. line trenches, does yuh?"

#### Boy's Remark Got Results.

Bob had been downtown with his mother shopping and was tired when they boarded a homeward bound street car. Every seat was occupied. After leaned up against his mother with a tired sigh and said: "Well, mother, I guess this is seatless day for us." Even newspaper camouflage couldn't resist Several seats were quickly va-

#### PECULIARITY OF LOST HAND

That He Should Be Able to Feel It Alternately Open and Close Puzzles Soldier.

A British soldier writes: Most people, I think, know that when a person has lost a limb, that person still retains the "sense," or feeling, of the missing limb. As a case in point, I ence o'er the souls of mortals might mention that a friend of mine, who had lost a leg in the war, in an unthinking moment took a step on the missing leg and came to grief. I myself had the misfortune to lose my left hand on the Messines ridge last June, and all the pain I have suffered from the wound has been in the hand which ters is not gold"; he is deceived I no longer possess. Now, the peculiar as to its real value. Wealth is part of it all is that on alternate days Entered as Second-class matter January 1, 1909 at the post office at Emmitsburg, Md., under the powerful but not sufficient in itthey were closed; today they are open. Tomorrow they will be closed again. Can this be explained? This change takes place during sleep, and once or twice, on restless nights, I have actuand support, it foundation and ally felt the change taking place. I was lefthanded, and during the attack I carried my revolver in the missing hand. When the fingers are closed they are exactly in the same position as if they were still grasping the revolver. That I can understand, but why should they open on alternate days? The only explanation I can offer is that what remains of the hand after I was wounded was amputated exactly twenty-four hours later. Also, I was wounded somewhere about 4 o'clock in the morning, and was operated on about the same time the following morning, and the opening and closing of the fingers takes place about this time.

#### WHERE SOLDIERS ARE BETTER

Army Officer Explains the Benefits of Development of Physiological Resistance.

In an interview with Surgeon General Gorgas for the American Magazine, about the chances your boy has to come back alive, the author says, referring to another army officer for the moment:

"Major Crile said another thing which every mother and father ought to learn by heart. He said: 'The thing which affects a wounded man's chances more than almost anything else is physiological resistance. That is where the soldier puts it all over the civilian every time. When a man goes out from the worries, responsibilities, anxieties, and irritations of civil life to the peaceful pursuit of

"He stopped and laughed. Then he went on seriously:

"'I mean that! I've seen these sallow, pasty young clerks get out and turn into men! I've seen young chaps who were little more than flabby human jellyfish transformed by their life in the trenches into husky fellows that were grit clean through. They laughed at things which would have finished them completely before they went into the army. They had developed the biggest factor in a wounded man's it was their life as soldiers that gave them this new possession."

#### Raising Goats in Honolulu.

The island of Kahoolawe is to be devoted to lowering the cost of living--if production of 10,000 goats for marketing will do it. The board of agriculture and forestry has authorized Chairman Arthur H. Rice to confer with the governor and land commissioner on a plan to withdraw the island from the forest reserve and offer it for lease. This has been done and Chairman Rice has placed in the hands of Deputy Attorney General Smith the duty of drawing up the necessary papers. Kahoolawe now produces goats and sand. It is believed that thousands of goats of marketable quality can be exported from the island and a chance is to be given for some enterprising rancher to become the goat king of the territory.-Honolulu Star-Bulletin.

#### New Name for 'Em.

The head of an East end household had no sooner arrived at home the other evening than he was sent forthwith to see "what in the world" was the matter with the furnace. His derby hat encountered the top of the door leading into the basement, with the result that the hat received a goodsized "stove" in the front.

As he emerged from the basement after a tussle with the offending heating plant he was met with a shout of laughter by the six-year-old heir to the family fortune.

"Gee, mother!" exclaimed the boy. "Look! Dad's got a dimple in his

#### How to Make a Service Flag.

Perhaps it is due to the familiar picture of Betsy Ross with the first Amercan flag spread out upon her lap and George Washington and two of his friends looking on that gives us such a bias to the hand-made flag, but nevertheless, a sentiment attaches to it that belongs to no machine-made produc-Very properly, we should feel about our service flag in this way. An 12x12-inch service flag may be made from one and a third yards of four-inch wide red ribbon, ten inches of white ribbon and enough blue to form the stars to which you are entitled. Cut the red ribbon into four pieces, two of .18 inches length and the other two so that they finish off four and a half inches, allowing for seams. Sew these strips together, inserting the white piece for the field. Then applique a blue star, or embroider it, according to desire. The white field will be varied in size in accordance with the number of stars used.

Indianapolis Newspaper Treats Advent of Disease as Something of Which to Make a Jest.

Have you had the measles yet? Well, just be patient. It is only a matter of time.

.A physician was asked how he accounted for the great number of cases of measles this year, and he smiled and said that the old germs were all frozen during the very cold weather and that they were trying out the new supply. Professional men have such charming manners, which invariably accompany those evasive answers. One never knows whether they are afraid of disclosing state secrets or whether the sweet smile and graceful bow are serving in an armorial ca-

pacity. So, if you awaken some morning and your forehead is a mass of little patches of carmine and your throat feels dry and your head feels hot, don't be alarmed. It simply means that you have been chosen to become a member of the Ancient Accepted Order of Measleites, and that the initiation has begun. A five days' vacation is about to be thrust on you, which you will enjoy, more or less, probably less, particularly if you have the "Hun" variety, which is as treacherous as the name implies.

Of course, if you are pressed for time, there is a 24-hour kind which is very good. It has all the appearances of the genuine article' without any of the disagreeable features. The doctors call it "Duke's disease," but it belongs to the measle family, and you will be perfectly safe (and considerably more comfortable) in selecting that kind.-Indianapolis News.

#### PROOF THAT WORLD MOVES

Simple Little Experiment Will Convince the Skeptical of Fact Pretty Generally Conceded.

Take a good-sized bowl, fill it nearly full of water and place it upon the floor of a room which is not exposed to shaking or jarring from the street. Sprinkle over the surface of the water, a coating of lycopodium powder. Then upon the surface of this coating of powder make, with powdered charcoal, a straight black line, say, an inch or two in length.

Having made this little mark with the charcoal powder on the surface of the contents of the bowl, lay upon the floor close to the bow. a stick or some other straight object, so that it will be exactly parallel with the mark. If the line happens to be parallel with a crack in the floor or with any stationary object in the room, this will serve as well.

Leave the bowl undisturbed for a few hours and then observe the position of the black mark with reference to the object with which it was parallel. It will be found to have moved in the direction opposite to the movement of the earth on its axis. The earth in simply revolving has carried the water and everything else in the bowl around with it, but the powder chances-physiological resistance. And on the surface has been left behind a

The line will always be found to ave moved from east to west, which is perfectly good proof that everything else has moved the other way.

#### In and Out.

There is some talk among a number of the women folk of Woodruff place of organizing a club to be known as "The Ins and Outs." Not that they wish to be marked as gad-abouts or anything of the sort. The proposed club title refers solely to a recent pamphlet issued by the authorities of "the town within a city," which contains the directory of the 1,800 inhabitants. The booklet is neatly arranged. is embellished with pictures of the town's beauty spots and contains plenty of advertisements as all good directories should. But somehow in the course from census taker to printer the names of about twenty-five of the good wives of the town were omitted. The little club idea has been proposed with one requirement for membership, which is that the member shall be "in' the town and "out" of the directory .-Indianapolis News.

#### Grocer Had Nothing to Say.

The grocer thought one day that he would like a steak for his dinner as a change from the bacon, so he sent his little girl across to the butcher for one pound of steak.

On receiving the steak, he thought he might satisfy his curiosity by weighing it, and in so doing he found it to be four ounces light of weight.

He brought it across to the butcher and said: "What is the meaning of only giving me twelve ounces of meat instead of one pound?"

The butcher calmly replied: "I lost my one-pound weight, so I had to use your one-pound packet of tea."

Use of Torpedoes in Warfare. Between 1878 and 1898, when the Spanish-American war broke out, there were only twelve instances in which the torpedo had been used in actual warfare. The Russo-Japanese war in 1904 afforded many opportunities for the use of this deadly weapon of destruction, and Whitehead's invention caused great havoc. The combination of the submarine boat and the torpedo had its first real trial in the present

#### An Education.

"Did you manage to give your bemuch schooling?" "Finest possible," Corntossel. "Josh joined the at

ALL PREPARED FOR MEASLES WAR BEGAN IN APRIL, 1913 RISKED HIS LIFE FOR ENEMY

Huge War Credit Was in That Year Voted in Germany and Supported by Socialists.

When did the war begin? April, 1913; not August, 1914, as the press always has it, writes Charles Edward Russel in Harper's. The real declaration of war was made by the German reichstag when it struck observing Europe dumb and chill by passing, an extraordinary war credit of \$250,000,-000; and to that act of belligerency in a time of profound peace the socialists in the reichstag gave practically their support.

All men in the world accustomed to make upon the day's news an intelligent diagnosis must have gasped and stared at this portent. Unless Germany deliberately planned now to bring down upon mankind the war her armament had silently threatened these many years, there was no good reason for this perilous saber rattling; certainly none appeared in the state of Europe. Yet the socialists seemed to be for it; that was the incomprehensible fact.

August Bebel, then still active, was the ablest and most famous of their leaders, and criticism from many lands seemed to goad him into a defense. It was of a nature to chill the last hope in any friend of peace. Two reasons he gave for the reichstag's action. One was that President Poincare of France, who had been but newly elected, was a warlike and dangerous man, and no one could tell to what lengths he might go. The other was that in the Balkan wars the Turks, taught by German officers, had been beaten by the Serbians, taught by French.

The judicious might grieve indeed when they came upon such an offering from such a source, and anybody able to read might see that war was close at hand.

#### ANGRY AT BEING DISTURBED

Old Gentleman Vastly More Annoyed at Constable Than He Was at Hun Air Raiders.

"He wasn't half angry," said a constable to me, smiling reminiscently as he cast his eye over what remainednostly top story only-of an old-fashioned house which had suffered in a recent air raid. "You should have heard his language!"

"Curious thing," I said, "the top floor doesn't appear to be touched."

"Yes, that's where he was," said the constable. "Of course, we thought he was a casualty. We cleared away the rubbish, and somehow or other got up to his rooms with an ambulance and the doctor. The door was closed, so we started prying it open. That's when the fun started.

"The door was flung open, and there stood the old gentleman with a big book in his hands, his 'specs' on, and in a proper temper. I just caught a glimpse of a cosy armchair drawn up to a blazing fire.

"'What the --- does this mean?' he says. 'Haven't I been disturbed enough this evening? Get out of it, all of you.' And without troubling to shut his door, he went back and sat down with his book beside the fire, muttering most awful. It gave me the biggest shock of the raid."-London Mail.

#### Not Equal to It.

They had not been married very long, but she had grown cold and listless; so one evening, after she had yawned about seventeen times, he said:

"You seem to be so cold and indifferent. Malvina. Have you forgotten those happy days when I was paying you my addresses?

"I should think I haven't! I should think I haven't forgotten those happy days. I never had less than three fellows every evening calling on me.' "But, dear, haven't you got me to

pay you attention now?"

"Yes, I suppose I have. You are doing the best you know how; but you don't flatter yourself that you are equal to three, do you?"-Stray Sto-

Commends Sailor's Bravery. For gallantry in rescuing from drowning a lad eight years of age Sec retary Daniels has commended Arthur Otto Radcliffe, a seaman of the United States navy. Alongside of the United States steamship Wadsworth, on which the sailor was stationed, lay a tug. A small boy played about the deck with der: no thought of danger. Suddenly he ticed his sweetheart coming across the fell overboard. Before the warning came the child had floated seventy-five Then Radcliffe came into action. Jumping into the water, he swam to the boy and brought him to safety. Radcliffe enlisted in the navy in 1915, at Des Moines, Iowa.

#### "Germ-Proof" Money.

To a bank in Spokane, Wash., belongs the distinction of circulating the first antiseptic germ-proof national bank notes. The United States treas ury is still experimenting with devices to laundry dirty bank notes to bright crisp ones, but the Spokane bank has the first sanitary money on record. Fifty thousand dollars in bills, put out by the bank, were signed with an ink said to consist largely of carbolic acid. The result is the bills are saturated with an agency which means death to greater decline in the birth rate in the the most vigorous germ who'd live

#### Her Repartee.

"John, I wish you'd stop snoring." "What's the matter with you now?" "Nothing, only I'm getting tired of vorable conditions than in time of these sleepless nights."

Glorious Deed of English Officer Surely Constituted the Highest Type of Bravery.

Valor and glory shine brightest when we behold them in sacrifices such as that of Gen. John Gough, V. C., who went from his place of safety far down the line to take comforts to his old regiment, and was killed while on his mission of mercy

If where a high officer sacrifices himself for his men is glorious, what shall we say of the deed of a British officer who offered himself to save his foe? During an attempted daylight raid on the part of the Germans, they were held up by a withering machine gun fire and retired with great loss to their own trenches. One poor Hun, who was terribly wounded, was impaled upon his own wire, and he hung there writhing in agony in the eyes of both armies. Finally the sight of his suffering and his cries for help were too much for an English officer in the trenches opposite. Vaulting over the parapet, he walked boldly across No Man's Land in the direct face of the foe, and lifting his wounded enemy from the impaling wire, he carried him across the Hun parapet and down into his own trenches. When he arrived there a German officer took an iron cross which he wore off his own breast and placed it on the breast of the brave British officer. The firing on both sides ceased while he returned to his own trenches. And looking on, both friend and foe alike knew that they had beheld the highest form of glory. -Capt. Arthur Hunt Chute in Leslie's.

#### SMALL SPOONS AS REMINDER

Hotel Man's Idea Brought Good Results in the Decreased Consumption of Sugar.

At breakfast in a small hotel a traveling man noticed that the guests in the dining room were averaging about two spoonfuls of sugar to the cup of coffee, though the sugar was low in

In the dining room of the railroad station where he got his lunch, the sugar bowl was empty. Nobody was grumbling about the scarcity of sugar or anything else, because the country was at war. But a man wearing spectacles did lift a big spoon out of the bowl where the sugar would have

"Wonder why it is customary for us Americans to shovel sugar instead of dipping it?" he asked a friend.

That night, at a hotel in the city, the drummer had dipped about four times with the after-dinner coffee spoon he found in the sugar before he got half as much sugar as he usually took. He looked at the negro waiter opposite and smiled.

"Yes, suh, mister," that black dignitary grinned, "that's whut we calls the little 'war spoon.' The boss, he says it helps people to remember; and they don't use much more'n half as much sugar since he put it in the sugar dish."-Eugene Blake in The Vigilantes.

#### Curious Food Supplies. Heeding the Puget sound call for

ood from the deep, a whole regiment of patriotic seals offered themselves for slaughter in the Sea island, Bering sea, and a large supply of their meat was brought down in January by the United States steamship Roosevelt. for scientific test of its food value, Phil Norton writes in Leslie's. Officers of the bureau of fisheries and new dish connoisseurs at Seattle sampled the seal roast at sundry feasts. It gave them a grand and glorious feeling, they said. It makes the stomach feel slick and efficient. It is better than the meat of the burly whale. It is dark red in color, rich and juicy, stripped of blubber, as good as fine beef, in fact. The north Pacific is full of them. Only three-year-old males are slaughtered. Little pieces of pork are cooked with the seal roast, to give

The walrus, adorned with valuable ivory tucks, also is being mobilized. One of these fat and bulky creatures would feed a whole troop of Sammies. "Not so," say Puget sounders; "we'll eat the walrus and send our beef across.

#### Waited Long for Order.

The German soldier does exactly what he is told, and no more. A German officer was drilling re-

cruits, and had just given them the or-

"Quick march!" when he no-

barrack square. Forgetting all about the recruits, he yards or more from the tug and ship. entered into conversation with the girl and went away with her.

Six months later the same officer was walking down the main street of the same town when he saw some tattered and tired soldiers approaching him. One of the soldiers, recognizing the officer, went up to him and, salut

ing, said: "Please, sir, what about a halt?"

#### Effect of War on Birth Rate. In his recent presidential address to

the Royal Statistical society Sir Bernard Mallet declared the United Kingdom has lost by the fall in births during the war more than 500,000 potential lives. During the same period he estimates that Germany has lost 2,-600,000 and Hungary 1,500,000. The central empires is ascribed to the fact that the poorer classes in those countries have suffered greatly in health and vigor on account of the war, while the corresponding classes in Great Britain have actually enjoyed more fapeace.-Scientific American.

SIMPLE BUT INGENIOUS COAT

Every one of the new coatings for spring will look well made up in this simple but chic and ingenious style At the waist and neck it has the raised lines that prove becoming and are feature in this season's styles. A belt of the cloth across the back confines the box plaits to the figure and three buttons prove sufficient as a finishing touch to the cuffs.

GOOD LINES IN WOOL SKIRT

Given a smart blouse and well-fitting skirt the woman who knows how to wear them will command admiration of a kind and degree not given to less practical clothes. She will look "fit" to meet any demands the day may make upon her and refreshingly neat.

The separate skirt shown above is an indistinct plaid in a woolen fabric. Its charm lies in perfect fit more than anything else, but buttons in two sizes call attention to its good lines.

SILK SKIRTS FOR THIS SPRING

The silk skirt of this spring usually indulges in a tunic which prides itself upon being uneven in length and gracefully draped. The skirt shown above has such a tunic and furthermore it contrives to dispose of most of its fullness at the front, after the manner of French frocks of today. This with its narrow, straight line underskirt and girdle of the silk tied in front leave no question as to its good style.

MR. WINCHESTER'S LETTER.

Baltimore, Md. May 9, 1918.

Last week saw many of the democratic leaders, including several State Senators, in Baltimore, and of course ed the others, and politics and can-amount of the haul was \$147. didates on the other side of the Bay led | It is supposed that the robbery was commuch interest and no little care.

strength and great popularity, -but the tion. would stand in the way of his nomina- ed. tion, for the democrats do not wish to take any chances in losing a member of J. STEWART ANNAN the Senate. Col. Sisk is admitted to to have great popularity and would make an admirable candidate, but the One Ticket in the Field.-Small Vote argument was used that his nomination would be impossible with Senator Crothbeen in Washington and was entitled to missioner for three years, was also the united support of the democrats in re-elected. the District. According to all, therelected, although the contest will be a authority for the ensuing year. strenuous one, and all the uncertainties have not been removed.

In the Second and Third Districts all the indications are that Messrs. Talbott and Coady will be renominated without opposition.

In the Fourth District the outlook is uncertain. Mr. Linthicum is a candidate for renomination after eight years service in Washington. The entrance of Mr. Daniel J. Loden, Chairman of the Democratic City Committee, into the fight, has given it an Opera Bouffe flavor, and it is impossible to predict the result. Many well informed people believe that a third candidate will, later, enter the field and carry off the nomination.

Duvall, of Annapolis, is at present the Cross will be glad to receive any cononly democratic candidate for the tributions at their work room in the Phone 68 nomination, while Mr. H. Dorsey Et- Helman Building. chison, of Frederick, is the only can-

The County and City Statesmen who were here last week, did not confine their discussions to the prospective happy. You will find this difficult, if nominees for Congress. A year hence not impossible, however, when you are the State election will take place and constantly troubled with constipation.

#### BANNED FROM BIG HOTELS WHEAT GOES TO THE WAR

Baitimore.—Over a ton of flour a month is released for war service by one of Baltimore's leading hotels be cause it will no longer admit ex-King Wheat as a guest under its roof. His former room is now occupied by Citizens Corn, Rice and Potato. The former Autocrat of the Dinner Table was banned here after Herbert Hoover showed how absolutely necessary it was that, practically without exemp-tion, the whole Wheat Family should drafted for military work in

Under the present regulations, hotels are allowed to use twenty-four ounces of flour for every twenty-one meals served. Several members of the Hotelmen's Association, however, observing the whole spirit and not merely the letter of the law, have augurated real "wheatless days"days truly without wheat and seven of them to the week. All their whe is off to the war.

How "many a mickle makes muckle" is shown in a typical case—that of the Southern Hotel. Instead of serving the permissible average of just over an ounce of wheat to e ch. meal, none is served at all. Take a thousand meals a day, multiply by seven, and the total sawing is just five hundred pounds a week. So the amount released for the United States Army and the Allies works out at exactly one ton a month.

Pledges have been asked by both the Federal and State Food Admin istrators for total abstinence from wheat by all the hotels, restaurants, olubs, and dining ears in Maryland. The promise will be voluntary, but when they all fall into line hundreds of additional barrels of flour will be added to the visible evidence of this State's patriotism. And from now till next harvest every pound will count.

In asking the hetels to take this step, the Food Administrator counts a lot upon the example they will give to those who have most of their meals at home. Every kitchen from which wheat bread is banished in favor of biscuits and quick breads-for which War Food Bureau, Lexington Building, Baltimore, will supply recipes—is doing work comparable to that of the munition factory. Both are backing our boys with the weapons that win.

Hotels which cut out all wheat are said to be "clean." A campaign is now on to see how many of this State's homes are willing to under-take the same kind of spring house-Don't wait to be asked-

WAR-TIME WORRIES.

Food Administrator Tells Residents Of Old Baltimore City They Can't Enter State Garden Contest.

GARDEN ENTRIES POUR IN.

So many entries have been received for the Maryland \$25,000 Win-the-War Produce Contest that the Food Administration may be compelled to set an early date for receiving the final entries. Otherwise, particularly in the war-garden classes E and F, there might be difficulty for the county judges in examining fully the claims for prizes by competitors enter now.

There are twenty small prizes for each county running from \$75 to \$10. split evenly between war gardens of over and under one-half care. The total value of these prizes is \$500 to each county, or \$11,500 for the State, not including the two Maryland cham pionships, \$600 for E class and \$500 for F, which bring the sum of garden prize money up to \$12,600. In some of the early pamphlets issued the number of \$10 prizes appears as ten in each class instead of five. The totals, however, are correctly given.

It is essential towards winning the

war that America's food production be increased to the highest possible degree. From the way in which Maryland's \$25,000 Contest is taking on, there can be small doubt but that the donor of this splendid prize fund will realize his hope of seeing this year's production raised by at least \$5,000. 000. If other States can keep up with that pace, it means that the Allied store will be richer by half a billion dollars worth of food wherewith to fight the Kaiser.

#### POTATO PUDDING.

(Official recipe.) One and one-quarter cups mashed potatoes, four tablespoons fat, two eggs well beaten, one-half cup milk, one-quarter teaspoon salt, one-half lemon (juice and rind), one tablespoon sugar, one-half cup raisins and nut

Add to the mashed potatoes the fat. eggs, milk, lemon juice, grated peel Beat all ingredients together and bake in greased dish threequarters hour or longer. Serve with

The bread that was a staff is now a shillelagh—send it where the fight

Meat may be eaten in France just four days a week and then only by those who are well enough off to purchase from the fast-dwindling supply.

A wheat shortage of 20,000,000 bushels and a potato surplus of 80,000,-000 bushels. Either patriotism or the law must adjust the public appetite to those salient features of the food situ-

# **WOUNDED HOUSES**

American Boss Carpenter Putting French Villages Back on the Map.

It was a monotonous stretch of ugly trench, wire entanglements, gaping shell holes, accented by the blackened skeleton of shell killed forests silhouetted against a dull, hopeless sky.

This had once been beautiful rolling land like our own Ohio and Indianarich in grain fields, orchards and gardens. Now it was desolation-nothing could live there-seemingly nothing did.

We had come on some rising ground, and as we climbed we reached the brow of the slope, and of a sudden it seemed that some giant had suddenly twisted the old world under our feet and we were back home, for of a sudden the sounds of life came up to us out of a hustling center of industry. That satisfying chug of an honest hammer head sinking willing nail into sound wood, and before us was a panorama of new building, with piles of clean lumber stacked here and there, and the framing of many new buildings told where the wood was going. Then we heard the voice of a man who talked real "United States"-telling 27 other carpenters what to doout in this foreign land thousands of miles from home.

We inquired of the boss as to who he was, and with true sense of humor he said: "I am a Red Cross nurse.

My job is bandaging wounded houses." Putting Villages Back on Map.

"This was once a French village." he went on to say, "in the center of fine sugar beet country. We are living now on the site of the sugar mill," ne said, pointing to a long, low barracks, which plainly had been recently built. We are working for the American Red Cross-putting villages back on the nap. In four more weeks we'll be out t here and on our way to the next ruin, for there are many villages that need us. We go from place to place, always finding that our lumber has reached there first, so we can get right

to work, clean up and move on again." building work of our Red Cross-only their soil and plant new crops-for future years of war or peace.

And so the tide of war sweeps back from whence it came, a Red Cross army follows close behind in uniforms of overalls, armed with Yankee hammers and nails to coax back the foundlings that have been brushed into squalid helplessness in the south and

They are coming back home now, just a few days behind these carpenters-back to the beet fields, the gardens and the farms. Soon they will be feeding themselves and thousands of

#### WHITE PLAGUE KILLS MORE MEN THAN BULLETS

It seems longer, but it was less than four years ago that the nations had not yet started in to wipe each other off the map and that the only times when one heard of the Red Cross were times of flood or disaster and at Christmas time, when the peaceful little Red Cross tuberculosis seals made their annual appearance.

Perhaps, in fact, it was the long, ardent fight in America against the White Plague which, in spite of the war's enormous new demands, is responsible for the especial interest being taken by the American Red Cross in France's

frightful struggle against consumption. This scourge seems to mark the trench fighter for its own. It kills more men than do bullets and poison gas combined. Until the American Red Cross was permitted by the French government to start its drive against tuberculosis it looked as if, even with a victory over the Hun, France might eventually be conquered

by this deadlier foe. Already things are looking brighter. The Red Cross has taken over old hospitals and built new ones. More than 300 tuberculosis dispensaries are to be opened throughout the 'country, and Red Cross doctors and nurses-scores of them-are devoting themselves exexactly the same kind of work which is financed in America by the little Christmas seals. It is one of the ways in which by our contributions to the Red Cross America can repay her debt it necessary to buy substitutes in ad to France.

# GROCERS HELP

SIGN PLEDGE TO CARRY OUT FOOD ADMINISTRATION PROGRAM.

CARDS IN STORES.

Explain New Wheat Ruling to Thousands of Customers-Insures Greater Food Saving.

Grocers of the nation have accepted enthusiastically the 50-50 basis for the purchase of wheat flour and are doing their utmost to explain the new regulation to the housewife. This ruling by the U.S. Food Administration requires each purchaser of wheat flour to buy one pound of cereal substitute, one kind or assorted, for every pound of wheat flour. It was necessary to restrict the use of wheat flour in order that the allies and our fighting forces abroad might be assured of an adequate supply of wheat to meet their vital needs. This supply must come from our savings because we have already sent our normal surplus.

all retail food merchants, and these Black and Konode, of Rocky Ridge. are being signed and posted in stores throughout the country. This card states, "We pledge ourselves loyally to carry out the Food Administration pro gram. In accordance with this order we will not sell any wheat flour excepweight of one or more of the following, a greater use of which in the home will save wheat:

"Cornmeal, corn flour, edible corn starch, hominy, corn grits, barley flour. potato flour, sweet potato flour, soy bean flour, feterita flour and meals. rice, rice flour, oatmeal, rolled oats and buckwheat flour."

Some confusion has resulted on the part of the consumer in construing this "50-50" ruling to mean that an equal amount in value of substitutes must be purchased with wheat flour. This is a mistaken idea. The ruling states that the consumer in purchasing flour shall "buy at the same time an equal weight of other cereals."

One exception to this ruling is concerning graham flour and whole wheat flour, which may be sold at the ratio wheat flour. This provision is made Mr. and Mrs. Washington Ridenour or because approximately 25 per cent. Sunday. more of the wheat berry is used in the manufacture of these flours, than standard wheat flour.

Another exception is that concern-50 per cent. of wheat flour, which may nesday. be sold without substitutes. Retailers however, are forbidden to sell mixed flours containing more than 50 per cent, of wheat flour to any person unless the amount of wheat flour substi-It is just like pioneering, this re- tutes sold is sufficient to make the total amount of substitutes, including is purchased containing 60 per cent. wheat flour and 40 per cent. substitutes it is necessary that an additional 20 per cent. of substitutes be purpound of wheat flour.

A special exemption may be granted upon application in the case of specially prepared infants' and invalids' food containing flour where the necessity is shown.

Some misunderstanding seems to exist on the part of consumers in assuming that with the purchase of wheat flour one must confine the additional 50 per cent. purchase to one of the substitutes. This is not the case. One may select from the entire range of substitutes a sufficient amount of each to bring the total weight of all substitutes equal to the weight of the wheat flour purchased. For instance, if a purchase of 24 pounds of wheat flour is made a range of substitutes may be selected as follows:

Cornmeal, 8 pounds; corn grits, 4 pounds; rice, 4 pounds; buckwheat, 2 pounds; corn starch, 1 pound; hominy. 2 pounds; rolled oats, 3 pounds.

These substitutes may be used in the following manner:

Cornmeal, 8 Pounds.—Corn bread, no flour; corn muffins or spoon bread, one-fourth flour or one-third rice or one-third hominy; 20 per cent. substitutes in whole bread.

Corn Starch, 1 Pound.—Thickening gravy, making custard, one-third substitute in cake.

Corn Grits, 4 Pounds.—Fried like mush, used with meal in making corn

Rolled Oats, 3 Pounds.-One-fourth to one-third substitutes in bread, onehalf substitute in muffins; breakfast porridge, use freely; oatmeal cookies, oatmeal soup.

Buckwheat Flour, 2 Pounds.-Onefourth substitute in bread, buckwheat

Hominy, 2 Pounds .- Boiled for dinner, baked for dinner, with cheese

Rice, 4 Pounds .- One-fourth substitute in wheat bread, one-third substitute in corn bread, boiled for dinner (a bread cut), as a breakfast food, to clusively to this fight, doing over there thicken soups, rice pudding instead of

cake or pie, rice batter cakes. Several grocers have stated that their customers who strictly observe the 11 wheatless meals each week find dition to those ordered under the 50 50 plan.

#### LORD ROBERT CECIL

Blockade Minister Says Enemy Cannot Hold Out Much Longer.

London.—In the personal opinion of Lord Robert Cecil the failure of Germany's "knockout offensive" on the western front will result in a big peace offensive. Lord Robert expressed the further belief that the new peace offensive would be largely for German consumption, because "the rulers of Germany know if they have to rely on their own resources they cannot hold out much longer."

Submarine Life Is Restful.

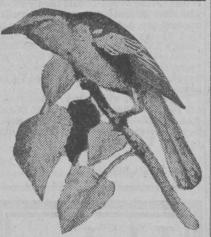

"Life on board a submarine is far from unpleasant—it is restful when underwater and adventurous on the surface," answered a British sub, officer to an inquiry which was put to him regarding submarine service as compared with that on board an average battleship.

He told of cruising in the North sea, watching for German torpedoboats, of weeks on guard duty in the channel, weeks submerged in the Adriatic, blockading the Austrian

"We had to pick our way through the mine fields submer ed," he said, "and then lie 40 hours submerged on blockade duty. When our turn ended, we would pick our way back through the mines for a rest.

"The hydroplanes are undoubtedly the worst part of the service. They are always flying over the harbor looking for us, and there is always the possibility that one of them may discover us and drop a bomb."

### BULLOCK'S ORIOLE

Length, about eight inches. Our only oriole with top of head and throat black and cheeks orange.

Range: Breeds from South Dakota, Nebraska, and Kansas to the Pacific ocean and from southern Canada to northern Mexico; winters in Mexico. Habits and economic status: In

the West this bird takes the place occupied in the East by the Baltimore oriole. In food, nesting habits, and song the birds are similar. Both are migratory and remain on their summer range only some five or six months. They take kindly to orchards, gardens, and the vicinity of farm buildings and often live in villages and city parks. Their diet is largely made up of insects that infest orchards and gardens. When fruit trees are in bloom they are constantly busy among the blossoms and save many of them from destruction. In the food of Bullock's oriole beetles amount to 35 per cent and nearly all are harmful. Many of these are weevils, some of which live upon acorns and other nuts. Ants and wasps amount to 15 per cent of the diet. The black olive scale was found in 45 of the 162 stomachs examined. Caterpillars, with a few moths and pupae, are the largest item of food and amount to over 41 per cent. Among these were codling-moth larvae. The vegetable food is practically all fruit (19 per cent) and in cherry season consists largely of that fruit. Eating small fruits is the bird's worst trait, but it will do harm in this way only when very numerous.

If you want your town to cut a good figure before the world, subscribe for the home paper and advertise your business in it.
