Sunday School Cabinet Meets

The Sunday School cabinet of the Lutheran Church held its October meeting Sunday in the secretary's room with Robert E. Daugherty, superintendent, presiding.

Teachers and officers attending were Henry Charlton, Harry Troxell, Mrs. Roy Maxwell, Mrs. Charles Linn, Mrs. Albert W. McClellan, Mrs. Robert Daugherty and Richard Saylor.

A more definite visual education program was presented by the pastor, Rev. Philip Bower, and it was adopted by the cabinet.

P-E Employees Feted At Banquet

Potomac Edison and Blue Ridge Lines employees from the Frederick, Union Bridge, Mt. Airy and Taneytown areas held their annual Employees' Beneficial Association dinner-meeting Thursday of last week at the Calvary Methodist Church, Frederick.

Featured on the program were the presentation of 15-year service pins and a talk by Potomac Edison President R. Paul Smith.

Survives 10-Story Fall

Four-year-old Karen Weiler fell out of a 10-story window in a New York housing project—and lived. After landing on the grass below, the child was rushed to the hospital, and although the doctors there could find nothing wrong with her, they kept her for nine days for observation.

Food Prices Decline Slightly

Grocery store and meat market prices dropped about one percent in the last two weeks of August. But they still remained about one percent higher than before the Korean war.

PROCLAMATION OF THE GOVERNOR OF MARYLAND DIRECTING THE PUBLICATION OF BILLS PROPOSING AMENDMENTS TO THE CONSTITUTION OF THE STATE.

WHEREAS, at its regular session of 1949, the General Assembly enacted Chapters 226, 407 and 714 proposing amendments to the State Constitution; and WHEREAS, at its regular session of 1950, the General Assembly enacted Chapters 14 and 56 proposing amendments to the State Constitution; and WHEREAS, it is the duty of the Governor under Section 1 of Article XIV of the Constitution to cause to be printed and published the bills proposing said amendments in advance of the General Election of November 7, 1950; and WHEREAS, there will be presented on the ballot at said election the following proposed amendments to the Constitution, for adoption or rejection by the voters:

CHAPTER NO. 226 AN ACT to propose an amendment to Section 5 of Article 3, title "Legislative Department" of the Constitution of Maryland, relating to the membership of the House of Delegates and providing for the submission of said amendment to the qualified voters of the State for adoption or rejection.

CHAPTER NO. 14 AN ACT to propose an amendment to Section 3 of Article 6 of the Constitution of Maryland, title "Treasury Department," relating to the signing of state bonds, certificates or other evidences of indebtedness, and providing for the submission of said amendment to the qualified voters of the State for adoption or rejection.

CHAPTER NO. 56 AN ACT to propose an amendment to Section 3 of Article 6 of the Constitution of Maryland, title "Treasury Department," relating to the signing of state bonds, certificates or other evidences of indebtedness, and providing for the submission of said amendment to the qualified voters of the State for adoption or rejection.

CHAPTER NO. 407 AN ACT to propose an amendment to Section 5 of Article 15 of the Constitution of Maryland, title "Miscellaneous," providing that the Jury shall be the Judges of Law as well as of the fact in the trial of all criminal cases, except that the Court may pass upon the sufficiency of the evidence to sustain a conviction.

CHAPTER NO. 714 AN ACT to propose an amendment to Section 17 of Article 2 of the Constitution of the State of Maryland, title "Executive Department," relating to the recon- sideration of Bills which are vetoed or which fail by reason of not being signed following the adjournment of the General Assembly.

CHAPTER NO. 17 AN ACT to propose an amendment to Section 17 of Article 2 of the Constitution of the State of Maryland, title "Executive Department," relating to the recon- sideration of Bills which are vetoed or which fail by reason of not being signed following the adjournment of the General Assembly.

CHAPTER NO. 5 AN ACT to propose an amendment to Section 3 of Article 6 of the Constitution of Maryland, title "Treasury Department," relating to the signing of state bonds, certificates or other evidences of indebtedness, and providing for the submission of said amendment to the qualified voters of the State for adoption or rejection.

CHAPTER NO. 2 AN ACT to propose an amendment to Section 3 of Article 6 of the Constitution of Maryland, title "Treasury Department," relating to the signing of state bonds, certificates or other evidences of indebtedness, and providing for the submission of said amendment to the qualified voters of the State for adoption or rejection.

CHAPTER NO. 3 AN ACT to propose an amendment to Section 3 of Article 6 of the Constitution of Maryland, title "Treasury Department," relating to the signing of state bonds, certificates or other evidences of indebtedness, and providing for the submission of said amendment to the qualified voters of the State for adoption or rejection.

CHAPTER NO. 14 AN ACT to propose an amendment to Section 3 of Article 6 of the Constitution of Maryland, title "Legislative Department," providing that a decree for payment of support for wife or children, or for alimony, shall not constitute a debt within the meaning of said section, and providing for the submission of said amendment to the qualified voters of the State for adoption or rejection.

CHAPTER NO. 38 AN ACT to propose an amendment to Section 38 of Article 3 of the Constitution of Maryland, the same, if adopted by the local and qualified voters of the State as herein provided, to become Section 38 of Article 3 of the Constitution of Maryland: 38. No person shall be imprisoned for debt, but a valid decree of a court of competent jurisdiction OR AGREEMENT APPROVED BY DECREE OF SAID COURT for the support of a wife or dependent children, or for alimony, shall not constitute a debt within the meaning of this section.

TO SHOW AT MAJESTIC THEATER, GETTYSBURG

DAV Show Talent In Movie Film

Theatergoers will soon see in theaters a 10-minute sparkling musical film short starring Bob Hope and featuring 18 of America's most courageous and talented disabled veterans—all paraplegics in wheel chairs.

The movie, entitled "On Stage, Everybody!" is a colorful, entertaining one reel film produced by the Disabled American Veterans in cooperation with the Association of Motion Picture Producers. It is distributed through the patriotic efforts of the committees of general sales managers.

In thrilling scenes and specialty acts, paraplegic veterans of World War II who are confined to their wheel chairs give an amazing performance that demonstrates the bravery and tenacity of young men who have fought their way back from battlefields to civilian life.

Exciting circus feats, with high wire "walking" in a wheel chair and trapeze skill by paraplegics are combined with western scenes and songs and wheelchair jitter-bugging for a sensational musical revue.

Bob Hope, as master of ceremonies, and 14 professional Hollywood dancing starlets round out the cast.

The film is not a fund-raising project. It was designed to portray dramatically the courage and tenacity of more than three million disabled veterans who have fought their way back to useful citizenship. It also demonstrates how successfully the rehabilitation program for our disabled veterans has been developed and proves why this program which is the result of years of development should be safeguarded.

Exposing "The Big Lie"

The Communist Daily Worker lying on my desk as this column is written carries a headline story about the Communists' Madison Square Garden rally "for the Bill of Rights." A number of international Communist speakers held forth. This Communist lip service to the cause of freedom reminds me of the recent radio speech of Gen. Eisenhower on the occasion of the opening of the Crusade for Freedom. He labeled world Communism and Communist propaganda as "The Big Lie."

The Madison Square Garden Communist rally was called, according to the Daily Worker, to fight for individual freedom as set forth in the American Bill of Rights. The newspapers said speakers included "Elizabeth Gurley Flynn, member of the Communist Party's National Committee; Gus Hall, Communist Party secretary; Howard Johnson, New York State Communist Party Educational Director; Leon Wolfsoy, youth leader, and others. The speakers cried impassioned allegiance to the American Bill of Rights and loudly proclaimed Communism's "fight for individual freedom."

A friend of mine can give eloquent reply to this New York Communist rally and its "fight for freedom." He is a Chinese gentleman whom I've known since 1930. He is a man of extra ordinary intellect and unquestioned integrity. He has escaped from Communist tyranny in China to British Hong Kong which is rapidly becoming a mecca for Chinese fleeing from the friends of the Madison Square Garden speakers. Immediately upon arrival in Hong Kong, he wrote me as follows:

"I am glad to tell you that I managed to get out of China and am now in Hong Kong. Thus I am free to speak and to do what I want to. In China, people have no freedom of speaking, printing, or moving about. There, one is compelled to say that the Communist government is good but that the National government is bad; that the Russians are our friends and the Americans our enemies; that the teachings of Confucius are mere feudalism while the teachings of Marx, Lenin and Stalin are proper doctrine."

Compulsion and Death The Daily Worker on my desk says "cheers shook the house" at the Madison Square Garden rally lauding the Bill of Rights when Benjamin J. Davis, Communist functionary, said: "Tonight we pay tribute to our Communist Party, confident in the knowledge that it will fulfill its destiny in helping to mobilize coalition for peace and freedom and in leading the fight for the establishment of socialism."

My friend in Hong Kong, an honest man, wrote: "In Communist China, one is compelled to say that religion is mere superstition, while materialism is absolute truth; that man comes from the lower creation and was not created by God; that God could not have made man because there is no God. Should one speak contrary to their anti-God, anti-American doctrine as indicated above, he will be imprisoned or killed. Many suicides

"The Communist government takes away nearly all the rice from the farmers and leaves them very, very poor," my Chinese friend wrote. "It takes nearly all the money away from the merchants until they likewise are now very poor. Should a man be fortunate enough to have 10 picules of rice regardless of how large his family may be, he would indeed be a rich man. Individual merchants are compelled to buy quantities of government bonds in excess of their entire worth. The people are so miserable that not a few have committed suicide." This then is the unimpeachable truth about the Socialism which Benjamin Davis, the Communist, says is the objective of his cohorts throughout the world—miserable poverty and despair for all except the inner bureaucracy of the Party. This is the truth about Communism's "fight for individual freedom"—imprisonment or death for speaking con-

trary to the doctrine. This is the truth about "The Big Lie." There is great evil in a movement such as this which can attract more than 590,000 Americans to its cause, 54,000 of whom are known to have taken the Communist Party induction pledge: "I pledge myself to rally the masses to defend the Soviet Union, the land of victorious socialism. I pledge myself at all times to remain a vigilant and firm defender of the Leninist line of the party, the only line that insures the triumph of the Soviet power in the United States."

Half of Squirrels Shot in Past Season Were Mothers of Young

Biologists of the Maryland Dept. of Research and Education, at Solomons, have recently found that half of the female squirrels shot during the current open season were nursing young. Thirty-eight squirrels, half of which were females, were examined in Anne Arundel and Calvert Counties, and approximately one-half of the females contained milk, indicating that they were still nursing young, according to Vagn Flyger, game biologist at the Chesapeake Biological Laboratory.

"If the females averaged four young apiece, this would mean that a total of 74 squirrels were really killed because the young in the nest perish after the mother's death," remarked Mr. Flyger. "Nobody likes to leave young squirrels to die in their nests. A later season could practically end this situation."

Mr. and Mrs. Walter Bower and daughter, Virginia, of New Windsor, were recent dinner guests of Mr. and Mrs. Fred B. Bower.

Biologists speculate that twice as many squirrels have been killed than actually have been shot during the present season; consequently, it would be reasonable to expect that twice as many squirrels could be bagged during a later season with no greater effect on the total population. Reports from Southern Maryland indicate that the past season has been the best one in the last few years. A good crop of white oak mast observed in Calvert County will help to provide much food for winter, in addition to pine and other oak mast. Since the present season has been shown to be too early, the game biologists of this department are now engaged in work to determine the best time for a latter season.

One Out of Eight One out of every eight Americans was a hospital patient last year, according to the American Hospital Assn.

BABSON

Writes . . .

By ROGER BABSON

BABSON PARK, Mass., Oct. 13—It is an old saying that "every cloud has a silver lining." Certainly, this applies to the bomb scares through which certain big cities are now passing. These scares offer great opportunities to wide-awake small cities.

What Statistics Show

The figures which have come out show clearly that the largest cities have passed the zenith of population growth within their corporate limits. The indications are that many of the cities have had a distinct decline in rate of increase since 1945, while the suburbs are the greatest winners.

This trend against living in large cities has shown itself in other ways. Some banks and insurance companies are less willing to take loans on business property in such cities. Some investors are selling out their stocks of the public utilities of these vulnerable cities. Real estate operators are feeling the results of the public's fear of living in these big cities with the accompanying increased demand for suburban home and business locations.

Importance of Decentralization

Perhaps the most important factor against the big city and in favor of the small city are the official statements of our government that the best protection against atomic bombs is decentralization. Those placing government orders for vital supplies are giving preference to manufacturers who have several centralized plants. They strongly recommend to those with only one large city plant, that a supplemental plant be built in some small community a reasonable distance away.

Only a few weeks ago a bill was prepared for submission to Congress for an appropriation of \$150 million to build a temporary "Capitol" about 60 miles from Washington in the hills of Maryland. The plan was tabled by two groups: Senators from the Central West believe that — in an emergency — the Federal departments now in Washington should be distributed amongst the safe capital cities of the Central Western States which already have the facilities for housing these departments. The real estate boards of the big cities—especially Washington—strongly oppose any such move for fear of it starting a real estate panic in these big cities.

What Your City Should Do

Certainly, this offers a great opportunity to the Chamber of Commerce of every small city. Don't be content with forming a "Defense Committee." Also form a Decentralization Committee to systematically canvass manufacturers with plants in nearby big cities to consider moving to your city, giving them its advantages and opportunities. There are several ways to do this but the most practical is as follows:

Hold a meeting of your businessmen and ask each firm to supply the secretary of your new centralization committee with the names of concerns in large vulnerable cities from which they buy goods. Then have these big city firms allotted to different local businessmen who will be asked to write on their own letterheads to certain big city firms urging them: first to protect their customers by having a plant in some safe small city, and secondly to consider "our city" for such a plant.

It is well for big cities to form defense committees; but no such committee will advise its business concerns to move out. True defense depends upon the activity of decentralization committees of the small and safe cities to urge such moving.

POULTRY POINTERS

Continuation on Lights

While lights are not to be recommended for longer than 13 to 14 hours, including the daylight, many people like all night lights for several reasons.

There are no dimming devices necessary to get the birds on the roost. Enemies of poultry, such as rats and thieves, may be discouraged to enter poultry houses. Sometimes, roost space can be saved because with all night lights, one will always find some birds eating, and some sleeping at the same time, however, crowding of poultry houses rarely pays. Some people prefer all night lights during real cold weather. It gives birds a better chance to keep filled up with feed and will create the necessary body heat for them. The latter point may be applied where housing facilities lack insulation. All night lights need more electric current and birds receive less rest during the night.

Lights for old hens should be started in January. If lights are started sooner it will not give all yearlings the chance to finish molting and uniformly molted birds will be better observed and managed. Sudden lights, and with them a change of time, can bring birds back into molt; therefore, lights for old hens should be turned on gradually so that in about five or six days the "whole chicken daylight time" will be about 13 to 14 hours long.

The position of lights for all night lights roosts should be shaded and lights hung directly over the feeder and water hoppers, while lamps for morning lights should be placed higher, above the roosts, in order to force the hens off the roost and "go back to work."

Chicks should have a control light under the hoover, as most brooders have, but chicks do not need all night lights in the brooder house. It is only desirable to have all night lights for chicks when disturbances can be expected. When it is dark and chicks scare, they will crowd in one corner and smother each other. It would not happen with lights.

LOOKING AT RELIGION

Who Runs America?

RUNNING AMERICA is the joint job of 150,000,000 people. It's the biggest job in the world today—keeping it running for liberty and for freedom. And the whole world's watching to see whether Americans can do it!

IN MUCH OF THE WORLD today, the people have resigned from running their own countries. Others have been quick to step in—first with promises of "security"—and then with whips and guns—to run things their way. The evidence is on every front page in the world, every day.

FREEDOM COMES UNDER ATTACK. The reality of war has made every American think hard about the things he's willing to work and fight for—and freedom leads the list.

But that freedom has been attacked here recently—just as it has been attacked in other parts of the world. One of the most serious threats to individual freedom has been the threat of Government-dominated Compulsory Health Insurance, falsely presented as a new guarantee of health "security" for everybody.

THE PEOPLE WEIGH THE FACTS. In the American manner, the people studied the case for Socialized Medicine—and the case against it.

They found that Government domination of the people's medical affairs under Compulsory Health Insurance means lower standards of medical care, higher payroll taxes, loss of incentive, damage to research, penalties for the provident, rewards for the improvident.

They found that no country on earth can surpass America's leadership in medical care and progress. They found that able doctors, teachers, nurses and scientists—working in laboratories where Science, not Politics, is master—are blazing dramatic new trails to health for Americans—and for the world.

THE "GRASS ROOTS" SIGNALS CONGRESS. In every community in the Nation, people stood up to be counted on this important issue. Thousands of local women's clubs, civic groups, farm, business, religious, taxpayer, medical, educational and patriotic organ-

izations spoke out—giving the great United States Congress its unmistakable Grass Roots signal from home!

And ever watchful, ever sensitive to an alert people, The Congress saw that signal, and heard the people speak out, loud and plain. That's democracy in action. That's the American way!

Today among the 10,000 great organizations on militant public record against "Compulsory Health Insurance" are:

- General Federation of Women's Clubs
- American Farm Bureau Federation
- National Grange
- Veterans of Foreign Wars
- National Conference of Catholic Charities
- American Protestant Hospital Association
- American Legion
- National Association of Small Business Men
- United States Chamber of Commerce
- National Association of Retail Grocers
- National Retail Dry Goods Association
- American Bar Association

• Doctors of this Nation are grateful that the people refused to be wooed by the fantastic promises of this un-American excursion into State Socialism. • Doctors of America are dedicated to serve their fellow citizens at home and their comrades in uniform, wherever service to this Nation may take them. • And the thing they stand ready to fight for—to sacrifice for—to die for—is not the alien way of life of Socialism, but the proudfest security of a free and self-reliant people!

THE VOLUNTARY WAY IS THE AMERICAN WAY!

• Throughout the Nation, free men and women, working and planning together, are finding the American answer to every question of medical service, care and cost. Hundreds of Voluntary Health Insurance Plans are in healthy competition—sponsored by doctors, insurance companies, hospitals, fraternal organizations—by industry, agriculture and labor. • Today

in America—70 million people are protected by Voluntary Health Insurance! • Throughout the Nation, families are insuring themselves against the major costs of illness—at reasonable, budget-basis prices. Voluntary Health Insurance takes the economic shock out of illness. Protect your family now. • For information, ask your doctor—or your insurance man.

An American's greatest heritage is the right to learn the facts—and to speak his mind. Maintained with honor and used with sincerity—that right will guarantee forever that

New Use For Sawdust

Sawdust can be turned into synthetic topsoil to grow bigger, greener vegetables, says Dr. Edward Farber of Washington, D. C. Chemically treated, the sawdust becomes like humus, to nourish crops, he told the American Chemical Society. Erosion robs the nation of millions of tons of precious topsoil annually. And lumbering piles up mountains of sawdust, estimated at 60 million tons a year, for which there are no great uses.

Church To Show Religious Film

The new motion picture entitled "Second Chance," will be shown Sunday evening in the Presbyterian Church at 7:30 p. m. The first showing of the picture in Emmitsburg is in the form of a union service, to which the other churches of the community are invited.

"Second Chance" is one among the first feature motion pictures made by the church for the church. It is a Hollywood production put out by the Protestant Film Commission, under the auspices of the Presbyterian, Congregational-Christian and Evangelical Reformed Churches. The picture is rated as one among the best productions of its kind. It provides topflight entertainment that brings both laughter and tears to the audience. Each person in the audience can view himself in the film. It discloses how many people so often lose the best things in life.

Campaign Treasurer For Gen. Hartle

David W. Byron, prominent Hagerstown attorney and a brother of the late Congressman William D. Byron, announced this week he will act as campaign treasurer for Maj. Gen. Russell P. Hartle, the Democratic candidate for Congress from Maryland's Sixth District. "I will be very happy to be actively associated with Gen. Hartle in his campaign, for I think he is a splendid candidate and one in whom we can all be proud," Mr. Byron said. He added that Gen. Hartle's comprehensive knowledge of military affairs and the wealth of experience he gained on his world-wide tours of duty during his long Army career, along with his matured judgment, education and leadership ability should stand him in excellent stead, if elected.

Town Council

(Continued from Page One) Burgess Rodgers reported on a joint meeting between Emmitsburg and Thurmont town officials held recently in the latter community. Plans are under consideration for a common incinerator for the two corporations. Another meeting is expected shortly. Possibility of having the Potomac-Edison Co. handle the Christmas lighting of the town was talked over but no decision has been reached.

WANTZ-MILLER The marriage of Miss Irene Miller, daughter of Mr. and Mrs. Herbert Miller, Emmitsburg, to Robert H. Wantz, son of Mr. and Mrs. Russell Wantz, Emmitsburg, took place Friday morning at 9 p. m. in St. Joseph's Catholic Church. The double ring ceremony was performed by the Rev. Francis Stauble, pastor of the bride.

The bride wore a street length dress of steel blue satin with white accessories and a corsage of white rosebuds. Her sister, Miss Mary Miller, was matron of honor. She wore a forest green satin street length dress with black accessories and a corsage of pink rosebuds. Bernard Miller, brother of the bride, was best man. Traditional wedding marches were played by the church organist, Mrs. Euphemia Rotering. Two large baskets of white gladioli, pom-poms and fern were used for decorations, one on each side of the sanctuary gates. The couple left immediately following the ceremony on a wedding trip. The bridegroom is employed as a plasterer in Washington, D. C. The bride is employed at St. Joseph's College. They will reside in Wash., D. C., until the bridegroom enters the service in the near future. The bride will return to the home of her parents.
