

# EMMITSBURG CHRONICLE

VOL. LXXI, NO. 2

EMMITSBURG, MARYLAND, FRIDAY, FEB. 2, 1951

SUBSCRIPTION: \$2.00 PER YEAR

## Most Anything At A Glance

BY ABIGAIL

Looks mighty like an old-fashioned winter what with the rain, snow, and sleet coming in a belated move to snarl traffic and make pedestrian travel a hazardous task. However, we here in Emmitsburg have been extremely fortunate this year—so far. Other sections of our great country have had several feet of snow and temperature drops of 50 degrees minus. Anyway, it makes for a few nice quiet and cozy nights by the television set . . . Which reminds me—snow inside and out . . . You know I can't help but feel a little happy over the snow. Mother Nature, blanketing the earth with her white mantle makes you sort of feel the wonders of nature in a land of serenity and tranquility, peace and happiness . . . until it is time to get that rusty snow shovel into action.

No sooner had the wreckage been cleared on that vicious curve at Franklinville until another motorist met his doom at the same spot. That makes three or four in as many months. The cost in damages runs into the thousands and three lives have been lost at this bend. Nothing has been done to correct the situation. Last year State Roads officials met with members of the Thurmont and Emmitsburg Lions Club and toured the road between here and Thurmont . . . seven miles, 28 curves. At that time those officials stated that if rights-of-way were secured from the property that a curve modification plan would be launched. We understand from pretty good authority that the gentleman who owns the acreage about Franklinville curve would gladly donate the necessary amount of terra firma to eliminate that arc. So now what's the holdup? Just me blustering my fingers on this antiquated typewriter won't do the trick. I suggest that all Emmitsburg and Thurmont service organizations present a formal protest or resolution calling for the reduction of most of these bad curves. Certainly, a batch of complaints from the Chamber of Commerce, Lions Club, Vets and Legion and the Town Council wouldn't fall on deaf ears. And while you are at it brothers, you can throw in the Blinker package to boot.

My favorite knitting companion swears she saw it the other day in a nearby town. A gaily decorated auto which looked like a bridal car hauling happy newlyweds, only it wasn't. The buggy was draped with the unusual bright-colored streamers and it moved through traffic with the horn going full blast. But it contained only one person—the guy at the wheel. There was no blushing bride, no bridesmaid, no best man, nobody but him. She couldn't figure it out until the strange chariot and its lone but apparently exultant occupant had passed. Then she saw the sign on the back and knew why there was no bride beside the driver. The sign on the back read—JUST DIVORCED!

Dr. and Mrs. James H. Allison are receiving felicitations upon the birth of a baby daughter born Wednesday, Jan. 24, at the Annie Warner Hospital, Gettysburg. This is the couple's third child.

Mr. and Mrs. Louis Gunn and children, Riverside, N. J., are spending a 10-day vacation at the home of Mrs. Gunn's mother, Mrs. Ray Topper, DePaul St. Other visitors at the home of Mrs. Topper over the week-end were Mr. and Mrs. Walter Topper, Ferndale; Mr. and Mrs. Mickey Topper, Baltimore, and Charles B. Topper, Baltimore.

Earl S. Kugler entered the Annie Warner Hospital, Gettysburg Sunday evening where he will undergo X-ray and observation for about a week.

## GAME COMMISSION SETS HEARING DATE FOR CHANGES

The House Agriculture and Natural Resources Committee, headed by the Hon. Lloyd L. Simpkins, Somerset County, announces a public hearing on House Bills 84 through 89 and others which the Maryland Game and Inland Fish Commission will have prepared for introduction by the time of the hearing, to be held shortly.

House Bill 84—To increase the county resident hunting license from \$1.25 to \$1.75 including the clerk's fee.

Ernest A. Vaughn, director of the Game and Inland Fish Commission, stated, "Since the enactment of this law in 1918, there has never been an increase, even though costs have continued to soar. Certainly a 50c increase would not be a burden on anyone when it is realized that a hunting license gives the holder the privilege of hunting upland game, big game, waterfowl and fur bearers from September 1 to March 15. Where today can we get so much enjoyment plus food for such a small fee! The proposed increase would mean approximately \$30,000 to the department."

House Bill 85—Exempts landowners and their tenants residing on said farms from procuring a hunting license.

House Bills 86-89—To repeal Sections 21 (a) and 22 of Article 99; and 95 and 98 (a) of Article 39 concerning seasons, sex, bag limits, possession limits, creel and size relating to birds, animals and fish. These to be controlled by regulations adopted and promulgated by the Maryland Game and Inland Fish Commission under authority conferred upon it by Sec. Five.

The director said that the following legislation has been prepared and would probably be discussed at the public hearing in the House Committee Room 2, on Wednesday, Feb. 7, at 10 a. m. in Annapolis.

- 1—To authorize the Commission to issue free fishing licenses to hospitalized service personnel;
- 2—To allow farm pond owners and their families and tenants and their families residing on said lands to fish said ponds without a license and to take fish at anytime or in any manner except by explosive substances or poison;
- 3—To permit the establishment of regulated shooting grounds for pheasants only;
- 4—To allow the commercial propagation of game and fresh water fish, except black bass, under permit at a cost of \$5.

## NETTIE B. BUSHMAN

Mrs. Nettie Bell Bushman, 84, died at 8:15 Wednesday evening after an illness of three years of complications. Death occurred at the home of her son, Charles W. Bushman, Rt. 1, Emmitsburg.

Mrs. Bushman was the widow of the late George W. Bushman, who predeceased her by about 20 years. She was a daughter of the late Barney and Mary Wolford Koontz.

Survivors include a daughter, Mary Louise, and one son, Charles W. Bushman, both of Emmitsburg; seven grandchildren. She was a member of the Elias Ev. Lutheran Church, Emmitsburg.

The body may be viewed at the S. L. Allison Funeral Home, W. Main St., after 7 o'clock tonight. Funeral services from the funeral home Saturday at 10 a. m., with the pastor, Rev. Philip Bower, officiating. Interment in Mt. View Cemetery.

## Proof That

### Advertising Pays

Who says advertising doesn't pay? To prove it, you all remember the picture of a desperado wanted by the FBI which appeared in the Chronicle several weeks ago? Well, maybe this paper didn't help in the apprehension, but Edgar Lee Leak was nabbed in Cuba, Mo., this week, as a result of the advertising. This information came to us in a correspondence from Special Agent C. H. Carson of the FBI.

## ED LINGG NEW PREXY OF BASEBALL CLUB

Edward Lingg was elected president of the Emmitsburg Baseball Assn. by the new board of directors Sunday at a meeting held in the Fire Hall. Former President B. H. Boyle presided.

Other officers elected were B. H. Boyle, vice president; Dr. D. L. Beegle, secretary, and A. W. McCleaf, treasurer.

Elected to the directorship for the coming year were A. W. McCleaf, Rudy Warthen, Edward Lingg, John White, C. A. Elder, Herbert Roger, B. H. Boyle, Jack Rosensteel, George Rosensteel, Guy Baker Sr., and Dr. D. L. Beegle.

Norman Flax was named business manager, a post he held last year, and Ray McGlaughlin the playing manager with Jack Rosensteel, assistant playing manager.

Both Rosensteel and McGlaughlin have had considerable experience in these fields. McGlaughlin played professional baseball as a pitcher until an arm injury several years ago made him retire. Rosensteel has managed the American Legion Junior baseball team since it started several years ago.

At Sunday's meeting it was agreed to again affiliate the local organization with the Pen-Mar League to which it belonged last season. Business Agent Norman Flax announced that he will have all players' contracts in the mail in the near future.

Another meeting has been scheduled for Sunday, Feb. 10, in the Fire Hall, when important business for the coming season will be taken up and a delegate to the Community Fund will be elected.

Prospects for the new season appear fairly bright with possibly the exception of the catching position. The team finished in fourth place last year.

## Chas. D. Gillelan To Be New Trial Magistrate

The Republican State Central Committee this week completed recommendations for county offices to be filled by appointment of Gov. Theodore R. McKeldin, effective, in most cases on June 1. The Governor is reported to have indicated that he would follow the recommendations of the committee.

The recommendations, which are expected to go to the Governor's office at Annapolis some time this week, are as follows:

Trial magistrates at Frederick, H. Reese Shoemaker Jr., and Wilbur F. Sheffield Jr., both Frederick attorneys.

Substitute trial magistrate at Frederick, M. Holmes Fout, another Frederick attorney.

County License Commissioner, Gail L. Cutshall, of Woodsboro. Board of Election Supervisors, Pierre H. Gaver, Frederick, and Howard R. Damuth, Thurmont. A Democrat is also to be appointed. It has been rumored that several names will appear on a list to be submitted by the Democratic State Central committee, including Grover C. Stewart, present president of the board; Delbert S. Null, clerk to the board, and former County Commissioner Charles G. Geisbert, Frederick Junction.

It was reported to be the feeling of the committee that Miss Ruth Moberly, present Republican member of the board, should become the chief clerk to the new board.

Other recommendations:

Trial magistrate at Emmitsburg, Charles D. Gillelan, lifelong resident of this place.

Trial magistrate at Brunswick, Charles Leslie Moats, retired railroad man, active Mason and a member of the Methodist Church who has never held public office.

Trial magistrate at Thurmont, Edgar B. Palmer, well-known insurance man.

It was understood that Charles McC. Mathias Jr., Frederick, was in line for appointment as either attorney to the election supervisors or to the license commissioner.

## Rabbit Shortage To Face Local Sportsmen

Unless a rabbit trapping project proves more successful than it has thus far, there may well be a shortage of cotton tails for county gunners come hunting season this fall.

District Game Warden Benjamin F. Phebus said this week that the State Board of Health has banned the importation of rabbits into Maryland from the states from which they are generally secured to augment the county's hare population.

It seems that a serious form of disease has been discovered among the rabbit population in some of these states—mostly in the far west and not in Maryland. To avoid any possibility of infecting the Maryland bunny population, the Health Dept. has prohibited importations.

In past years, the game warden said, around 800 cotton tails have been released, on the average, in Frederick County after being secured from these other states.

This year, from the looks of things, there may be no more than 100 released and those will be rabbits which have been trapped alive principally in and around Frederick.

It was announced recently that about 35 Boy Scouts and Explorers had been licensed to set 100 traps within the Frederick City limits in an effort to catch rabbits alive.

Thus far, the game warden said, about a dozen rabbits have been caught by the Scouts. Another similar project at Camp Detrick has turned up 14 or 15 and other persons who have been trapping the little animals has turned over five to the game warden.

The rabbits have been immediately taken to rural areas and released. A bounty of 75 cents a head is being paid for the rabbits caught alive.

Lowering of the bars of angling for certain types of fish has brought the sucker fishermen out in force, Mr. Phebus said. Fishing for suckers is now permitted the year round. However, fishing for catfish is not permitted, he said, until Feb. 15. On this score one arrest had been made.

## School Truancy Causes Arrests

Illegal absence from Emmitsburg High School brought prompt action from Frederick County School authorities here in Emmitsburg this week.

Mr. and Mrs. Charles Springer were haled into magistrate's court Monday on a warrant by Miss Gertrude Smith, director of pupil personnel for the county, and served on the couple by Trooper 1-c Kenneth Bond.

After a stiff reprimand from Magistrate Jacob E. Baker, the couple received a suspended sentence and a fine of \$5 and costs.

The arrest came after repeated absence of the four Springer children from their classes at school.

Mrs. Jackson Humerick quietly observed her birthday anniversary Monday at her home.

## Fountaindale Residents Told Not to Move Immediately

During the past few months representatives of the Department of Defense have been investigating the extent of land acquisition which will be necessary in the Fountaindale Area. Land acquired will be confined to as small an area as will meet Government requirements.

Representatives of the Department of Defense have recently contacted the owners of all occupied houses located on land which will be affected by the taking. None of the occupied dwellings will be needed.

Property owners in the Fountaindale area who have not been contacted are not in danger of being evicted from their homes. There is no intention of extending the area to be taken beyond the boundaries described in the petition filed in the Federal District Court at Lewisburg several days ago.

The petition as filed, does not affect the legal title to the properties. It was instituted to give the Government the privilege of working in the area until definite boundary lines for the permanent Reservation can be fixed. After the boundaries are located, negotiations for purchase of the land will be started immediately.

—CORPS OF ENGINEERS, U. S. ARMY

## RODGERS HEADS COMMUNITY FUND HERE

Burgess Thornton W. Rodgers was elected president of the Community Fund of Emmitsburg last Friday night at a meeting held in the VFW Home. Retiring president Lumen F. Norris presided at the first half of the session, turning over the gavel to Mr. Rodgers immediately following the election.

Other officers chosen included Paul A. Keepers, vice president; Mrs. Mary Hoke, secretary, and Mrs. Mary Cinegram, treasurer.

Directors of the Fund are Roger Zurgable, Dominic Greco, Mrs. John D. White, Mrs. Harry S. Boyle, J. William Rowe, B. David Martin, Robert S. Fitez, Dr. John J. Dillon and Francis Sanders. It was pointed out that several local organizations have not as yet made their appointments for the 1951 season.

The organization has just completed its first year's existence and in that short time has permanently anchored itself as a vital part of the community.

President Rodgers, also civilian defense head here, spoke principally on that subject. A proposed house-to-house canvas was discussed with the possibility of the Boy or Girl Scouts making the registration of civilian volunteers for defense. The plan calls for the filling out of questionnaires concerning the capabilities in assisting in case of disaster.

Plans for the annual benefit basketball game were also mapped out, and it is expected to be staged sometime in March. Harold Hoke, Dr. Dillon and Dominic Greco were placed on a committee to make final arrangements for the affair. The next meeting was set for Feb. 26.

## Work on Curve Progressing

Work on Toll Gate Hill and the elimination of the dangerous curve on Rt. 15, two miles south of Emmitsburg is progressing rapidly.

Work crews from the State Roads Commission have tractors and bulldozers pushing and digging the ground for removal of one of the dangerous sections of the highway between Emmitsburg and Frederick.

The road is being re-located to eliminate the curves on new rights of way over land owned by St. Joseph's College.

The relocation was spearheaded by Chamber of Commerce, Emmitsburg Lions Club and other interested local organizations.

## OFFICERS TRANSFERRED

Effective Feb. 1, State Trooper 1/c Raymond F. McGuire will be assigned to Barracks B, Frederick and Trooper 1/c Richard A. Myers will be assigned to Hagerstown, it was announced this week. Trooper 1/c Paul Hahn, a native of near Westminster, will be assigned to Westminster to succeed Trooper 1/c Glenn B. Markle, recently resigned.

## Thurmont Citizenry Protests Town Officials' Action

Three measures redefining existing corporation laws in Thurmont were discussed before the county delegation to the Legislature at a spirited meeting at Frederick YMCA last Saturday. Thurmont officials and the opposition were both assured that residents of the town would be given ample time to reach a mutual understanding before final action was taken.

Three separate bills have been presented by the Thurmont Board of Commissioners to Senator Jacob R. Ramsburg. They have been introduced and referred to committee.

One measure provides for extending the taxation laws throughout the corporate bounds, another authorizes the Commissioners to prescribe certain regulations for the construction of buildings and the planning and sub-division of land; a third authorizes the Commissioners to designate the line, width, and location of all sidewalks and gutters within the limits of the town of Thurmont.

Presented by the Commissioners for the purpose of clarifying powers already possessed by the Board, opponents are understood to have contacted members of the House of Delegates to withhold action pending a hearing. Last Saturday's meeting was the result.

Speaking for the Commissioners, President of the Board D. Saylor Weybright expressed the belief that some misunderstanding exists concerning the three measures. Mr. Weybright emphasized that no additional power or authority is granted the Commissioners under the proposed new legislation, which simply re-defines and clarifies existing regulations.

The opposition, it was explained, questioned the purported individual benefits that would purportedly accrue in certain sections of the town.

The full Town Council was present for the hearing. Accompanying President Weybright were Secretary S. Elmer Barnhart, Treasurer Charles R. Ambrose, George Black and Russell M. Flanagan. Others present and reported favoring the bills included Magistrate William M. Houck, Ernest P. Hammaker, and Walter R. Ambrose.

William McPherson Mc Gill, along with Howard Bussard and Charles H. Clarke Sr., were chief spokesmen for the opposition, it was reported. Included among that group were Lee Fisher, Donald Simmers and Wade Stull. Opponents of the measures also remained as counsel former State Senator Edward D. Storm.

Legislators present were Senator Ramsburg, and Delegates Richard B. Baumgardner, Melvin H. Derr, Joseph B. Payne, S. Fenton Harris, C. Clifton Vitrs. Delegate Horace M. Alexander was unable to attend.

At the conclusion of the meeting, the delegation assured all parties that no action would be taken on the three measures until Thurmont officials and residents of the town would have ample time to fully discuss the matter and reach general accord.

## Norris In Running For County Office

Meeting in brief session Monday night in Frederick, the Democratic State Central Committee for Frederick County approved the names of four candidates, one of whom will be chosen the minority member of the Board of Election Supervisors. They were Lumen F. Norris, Emmitsburg; Delbert S. Null, Braddock Hgts.; Charles G. Geisbert, Frederick; Route 2 and Grover C. Stewart, Brunswick.

At the same time, the names of four others were recommended, one to be chosen the minority substitute supervisor. They were George E. Hamilton, Frederick; Route 2; Shields F. Cornpropst, Frederick; Gaither E. Stottleyer, Myersville, and Mrs. Marne S. Thompson, Frederick. The session was held in the office of chairman Alton Y. Bennett.

## STABILIZATION OFFICE OPENS IN BALTIMORE

The Maryland division of the Office of Price Stabilization is being established today and will be functioning officially from now until such time as its duties are terminated by the Federal Government under which it has been created.

There is no point of discussing at this time the necessity for the existence of this agency, since this question has been determined at the national level. It should be remembered that the preliminary steps which we in Maryland are taking today are also being taken simultaneously by similar organizations in 51 other cities about the country.

The fundamental purpose for which this organization has been created is, stated as briefly as possible, to protect this nation and its citizens from the increasing threat of an inflationary spiral that could prove as disastrous to our economic life as warfare would be to our persons.

The principles upon which the Office of Price Stabilization has been established are soundly sufficient to check inflation, but, like any other set of principles, they can accomplish their full purpose only if they are given complete acceptance and whole-hearted cooperation by the public itself.

It is the profound hope of those who will direct the organization in Maryland, that our citizens will grant us that cooperation. Without it we cannot hope to achieve our objectives set for us.

The Maryland District of the Office of Price Stabilization will be headed by a district price director assisted by a deputy price director. The plan contemplates the establishment of six executive departments. These will be accounting, public information, legal, management, economic analysis and price control. Under the head of the latter department will function divisions concerned with foods, consumer goods, industrial materials, manufactured products, fuel, chemicals, transportation, services and exports and imports.

The organization will function temporarily in headquarters in Room 210 in the U. S. Appraisers' Stores Bldg., 103 South Gay St., Baltimore. There has been no determination yet when subsidiary offices will be established in other sections of the state.

## Franklinville Curve Wreck Site

A fatigued 27-year-old Buffalo motorist, who had driven over 250 miles since 11 o'clock last Friday morning fell asleep at the wheel of his car and narrowly escaped serious injury in an accident last Friday night at the scene of the previous Sunday's Route 15 crash which killed three persons.

Arthur Whisehunt, the motorist, escaped with minor injuries when his machine struck the north end of the bridge abutment at Franklinville, a short distance north of Thurmont.

He told State Trooper H. J. Brown, who investigated, that he was thrown out of the car and received a blow on the head. He was later treated by a Thurmont physician for cuts and bruises.

Trooper Brown estimated damage to the car at around \$250. The left rear wheel was almost torn off and the left fender damaged.

The Whisehunt was within approximately 60 miles of his goal, Washington, when the accident occurred. His car veered to the left of the center of the highway and struck the abutment. The impact caused the machine to swing around, recross the road and stop facing north.

Whisehunt left Buffalo at 11 o'clock last Friday morning for Washington and the accident occurred about 9:25 p. m.

It was just at the point where Ernest Harbaugh, York, Pa., and two of his children were killed when a large tractor-trailer turned over on their car.

Miss Ann Codori has returned to her home here after a two weeks' visit with friends in Baltimore.

GLARING LIGHT CAUSES MORE EYE-STRAIN THAN INSUFFICIENT LIGHT. POOR LIGHT IS BAD FOR THE EYES WHEN READING, BUT IT IS NOT NEARLY AS BAD AS GLARE FROM GLOSSY PAPER, SHINING WALLS, OR A LIGHT SHINING DIRECTLY INTO YOUR EYES.

## Your Personal Health

By J. H. ALLISON, M. D.

The word diabetes comes from the Greeks and means literally "to go through as from a syphon" or as is sometimes characteristic; the discharge of an excessive quantity of urine. The three classical symptoms of diabetes are increased appetite, though often accompanied by a loss of weight; increased thirst often leading to the consuming of tremendous amounts of water, and increased amounts of urine passed. These symptoms, however, are not at all times present or present together. These may be present instead or accompanying the above—loss of strength, itching where there is irritation from the sugar-laden urine, headache, constipation, nervousness, irritability, bad breath, boils and carbuncles, neuritis, or changes in vision.

The predisposing causes of diabetes may be definitely stated as heredity, over-eating and over-weight. There is no doubt that heredity accounts for the high proportion of cases seen in certain families. Over-weight has also been proven to play some part because it has been shown to exist to some degree in about 90 per cent of adult diabetics before the development of the disease. Over-eating and over-weight naturally go hand in hand.

In the diagnosis and detection of diabetes, two relatively simple tests provide all the necessary information needed. The first is an examination of the urine for sugar and the second is a determination of the amount of sugar present in the blood. It is even possible to determine whether an apparently normal person who has no symptoms of diabetes and normal urine and blood sugar tests may be a so-called prediabetic. By measuring the relative rate at which the body can burn a measured amount of sugar given, it is sometimes possible to state a person may be a diabetic at some future date if immediate precautions are not taken.

Prophylaxis against diabetes is most important for members of diabetic families, but similar precautions among the general population would undoubtedly reduce the incidence. These precautions should be over-eating, and over-weight should be avoided. Where there is suspected predisposition, sugar should be limited. Periodic health examination including an analysis of the urine should be done so that cases may be detected early in order to prevent them from progressing into a more serious form.

Discharged from the Warner Hospital, Gettysburg, Wednesday were Martha Alexander, Rt. 2, Thurmont; Mrs. James Allison and infant daughter; Mrs. Charles Koontz, Rt. 2, Emmitsburg, and Mrs. Charles Slaybaugh, Detour.

The infant daughter of Mr. and Mrs. Harold Ditzler received the Sacrament of Baptism recently at St. Joseph's Catholic Church. The child received the name of Catherine Patricia. The sponsors were Miss Patricia Sanders and William Meals.

## Arty to Star in Benefit Show

Gene Autry, America's favorite cowboy to millions of young and old alike, who comes to Baltimore with his huge western musical variety stage show on Sunday, Feb. 11, for one day only at the Fifth Regiment Armory for the 175th Athletic Fund, is an authentic son of the West.

Born on a ranch near Tioga, Tex., Autry grew up on a farm near Ravia, Okla., and when only 11 years old, bought a second-hand guitar, paying \$1 down and 50 cents a month for it. This guitar was the pride of his life, and he soon learned enough

chords to accompany himself in singing.

Gene has broken all attendance records at the New York's Madison Square Garden as star of the World's Championship Rodeo. In his hectic schedule, he never lets anything stand in his way to get places. When he was to appear in the rodeo in 1940 for the first time, the problem was to get Champ from the coast in time for opening night, but it was no problem to Gene. He chartered a transport plane and flew his famous horse from Hollywood to New York, making Champ the first horse in history to fly across the continent.

Peter F. Burket received a severe head injury Tuesday morning when he fell on the icy street crossing at the postoffice. He was assisted to his home on E. Main St. by friends and later was treated by Dr. James Allison.

## Shriver Again Elected Director

Jacob R. Ramsburg, State Senator from Frederick County, was elected a director of the Western Maryland Trust Co. at the meeting of the stockholders held at the bank last Saturday. All the other directors and officers were re-elected. Mr. Ramsburg's election gives the board 10 members, one more than in the past.

The re-elected directors were Walter E. Burall, W. Clinton McSherry, Ernest R. Shriver, Claude A. Wilt, James H. Grove Jr., G. Raymond Shipley, Gail L. Cutshall, Richard F. Kline, and Elmer I. Eshleman.

Following the stockholders' meeting, the directors organized and re-elected the officers for the coming year. They are W. Clinton McSherry, vice president; Ernest R. Shriver, vice president; Elmer I. Eshleman, vice president and trust officer; Jacob G. Shawbaker, treasurer; Edgar E. Thomas, secretary; William Z. Stauffer, assistant treasurer; Virginia C. Engle, assistant secretary, and J. Vernon Summers, assistant trust officer.

## Homemakers Attend Clinic

Publicity chairmen from the Homemakers' Clubs throughout Frederick County held a clinic last Thursday at Hood College, preceded by a conducted tour through the plant of the Frederick News and Post.

Tips on evaluating news value of club activities and preparation of news copy, as well as other media of reaching the public besides the newspapers were discussed by Mrs. Betty Sullivan, feature writer for the Frederick News, and Herbert N. Heston, director of public relations at Hood College. Miss Beatrice Fehr, county home demonstration agent, presided at the meeting, held in the college Y-Hut.

Preceding the clinic the group had luncheon in Coblenz dining-room and were given an opportunity to visit various buildings on the campus.

Mrs. Roy Bollinger, Emmitsburg represented the local club, and Mrs. Amy Munshour represented the Thurmont club.

The Block Rosary was held last night at the home of Mr. and Mrs. Louis Topper, DePaul St.

### Report From Washington Describes Mixed Feelings Over "Freeze"

By United States Senator  
Herbert R. O'Connor

Leaders in Congress greeted the announcement of a Government "freeze" of prices and wages with mixed reactions — but the general attitude is one of "wait and see," with a fervent hope that results will be as desired.

The "freeze" on nearly all products and wages, except farm products selling below parity, is probably only a "stopgap" measure, to be followed later by imposition of individual ceiling tags on an industry-by-industry basis. It is likely that such ceiling prices will involve some rollbacks on prices, to revise the present basis of highest prices prevailing between Dec. 19 and Jan. 25.

While approving in the main of the Government's action as an effort to halt the threatened runaway inflation, many members of Congress and leaders of industry felt that the action had been delayed far too long; some labor officials were less enthusiastic, a few even violently critical.

This first step in the mobilization of the country's economy for war lacks much of the "authority" of rationing, etc., as imposed during the last war.

Against the World War II total of 60,000 enforcement employees, likewise, the director of price stabilization today has only a few hundred under his command.

President Truman has directed that the FBI and other agencies help in enforcement of the new decree. How this will work out remains to be seen.

With respect to farm prices, it

is provided by the Defense Production Act of 1950, under which the ESA functions, that no ceilings may be imposed on farm products if they are lower than either: (1) the average price in the month before the Korean war began last June 25 or (2) the "parity" level, calculated to give the farmer a fair return in relation to the things he buys.

While a small number of farm products—such as beef, veal, pork, lamb, rice—are at or above parity, many others—poultry, wheat, corn, most fruits and vegetables, butter, milk, tobaccos—are below parity. These also are under ceilings at retail, but the DiSalle plan permits the ceilings to be increased easily.

#### UN Action Urged by Congress

The extraordinary action of the Congress in voting to notify the United Nations of its conviction that Communist China should be declared an aggressor in the Korean fighting brings sharply into focus the state of mind that has developed throughout the United States recently with regard to the United Nations.

This nation has been the bulwark of the United Nations. We not only supply nearly 40% of all monies required for United Nations functioning and administration, but have actually furnished 90% of the forces required to halt Communist aggression in Korea. What the United Nations reaction will be to this unprecedented demand upon it un-

### Skilled Labor Shortage in State

ANNAPOLIS (Special)—Despite an intensified recruiting program Maryland finds itself "in the red" for skilled and semi-skilled workers to fill the vacancies existing in the various state agencies.

This fact was brought out by the Dept. of State Employment undoubtedly will have far reaching implications with regard to future relations between our country and the UN. This situation is being watched with intense interest by leaders in both Houses of Congress.

#### To Probe Clothing Shortage

The Senate Investigating Subcommittee, of which I am ranking majority member, has decided to undertake an investigation of reported critical shortages in certain types of army clothing, and in such necessary items for troops in the field as gloves, bedding and boots. Certainly, any deficiencies in such vital items must be corrected.

### Caution Urged In Erecting TV Aerials

Television set owners and those persons planning to purchase sets were advised this week to make sure that their TV aerial is so placed that it is not near power lines nor will come in contact with the lines if it falls.

The warning was issued by a spokesman for the Potomac Edison Company who said that recently, an aerial fell across a power line near Hancock, Md. Only the most unusual of circumstances prevented a serious accident. The occupant of the house notified the utility company immediately, crews were dispatched to the scene and damage was held to a minimum.

"This is not the first accident of this type," the official said, "and the TV set owner was indeed fortunate to escape without loss of his home or severe physical injury."

"When a TV aerial falls across a power line," the spokesman said, "there is great danger of fire and personal injury in addition to almost certain power interruptions to other customers on the line affected."

### LOOKING AT RELIGION

THE NAME "EGYPT" WAS GIVEN TO THAT COUNTRY BY THE GREEKS AND WAS NEVER USED BY INHABITANTS IN BIBLICAL TIMES. IN THE OLD TESTAMENT THE NAME MOST FREQUENTLY USED IS "MIZRAIM" THE POETICAL BOOKS OF THE BIBLE CONTAIN THE NAME "RAHAS" MEANING THE PROUD, OR INSOLENT, AND LAND OF HAM.

### Financial Statement of the Vigilant Hose Company

EMMITSBURG, MARYLAND.  
JANUARY 25, 1951

We are presenting herewith for your inspection and suggestions, our 1950 Financial Statement. We are rather proud of this statement and feel that you will be too. Our Fund Drive, through your very generous donations exceeded \$2,000.00, for which we are very grateful. It is impossible to thank each one of you personally, so we take this opportunity to say—thank you for a fine job well done.

In the face of an impending world crisis, it will be even more imperative for us to maintain our equipment and bring it to as high a degree of efficiency as possible. May we depend on your continued noble generosity to help us through the critical period ahead?

Gratefully,  
HERBERT W. ROGER, President

## GOOD YEAR TIRE SERVICE makes your tires last longer!

Get Expert Service and  
SAVE TIME AND MONEY!

Keep your car rolling with Goodyear expert tire service. Regardless of make, or how long your tires have been in service, we can help you.

### 6 Vital Services Help to Add Precious Miles to Your Tires!

Now is the time for you to look to the experts for help—to wring out of your tires every safe mile built into them. We have a plan designed especially for you. Come in and let us explain how we can help you.

### Here's How Our Complete Service EXTENDS TIRE LIFE

- INSPECTION—Monthly inspection for minor damage prevents serious repairs later.
- REPAIR—(Cuts and Bruises) Lasting repairs using factory methods and materials prevent further injury.
- CHECK AIR PRESSURE—Accurate gauges assure correct air pressure—prevent mileage loss.
- TIRE ROTATION—Distributes wear evenly on all tires . . . increases mileage up to 25%.
- WHEEL BALANCING—Correctly balanced wheels prevent unnecessary wear on tires and wheel parts.
- TIRE TREADING—Factory methods, plus best treading stock extend the life of any sound tire worn smooth.

MARYLAND HOME FRONT

County committeemen and their chief clerks in the Production and Marketing Administration program will be convened for an annual conference this year on March 1 and 2.

This has been announced by Joseph H. Blandford, chairman of the Maryland PMA State Committee, who explained that a shortage of program funds make it inadvisable to finance the attendance of community committeemen as in the past two years.

Discussion will center around manpower, supplies, production goals, and the Agricultural Conservation Program administered by PMA.

"The over-all purpose of the March meeting," explains Mr. Blandford, "will be to clarify for county workers PMA's part in the national defense effort."

Figures released by Mr. Blandford show that Free State farmers used 79.46 per cent of their conservation payments for the purchase of such materials.

Of the total payments made, 54 per cent were for the use of lime. Phosphate payments amounted to almost 21 per cent of the total, while potash materials amounted to less than four per cent.

The remaining 20 per cent was used primarily for payments for use of green manure and cover crops. This practice drew 14 per cent of the total. Other practices, in order of their popularity were: the seeding and reseeded of pastures, installation of open farm ditches, and contour farming.

Mr. Blandford's figures show that 16,251 farms participated in the program. The average farmer applied practices enough to earn a payment of \$88.57. "This payment," says the chairman, "represents approximately one-half the cash outlay for performing the practices with the farmers paying the other half, and supplying the required labor. During the past 15 years the Congress has recognized the public's responsibility for contributing to the heavy cost of maintaining soil fertility in the interest of the national economy. Practices carried out under the program represent considerably less than one-half of the total soil building operation of Maryland farmers."

Brannan Pays Tribute The vital importance of farm programs during this period of national emergency was stressed by Secretary of Agriculture Charles F. Brannan in his talk recently before the annual conference of PMA state committeemen.

Some of his comments called to the attention of Maryland farmers by Mr. Blandford were: "If abundant agricultural production is as important to the defense effort and to the functioning of our entire economy as we think it is," the Secretary said, "then obviously we must make sure that American farmers have the programs they need to play their full part in these critical times. He will, of course, have to adapt the national farm programs to changing conditions.

"Does anybody seriously believe, however, that we ought to take our programs of price protection, conservation, credit, electrification, and our other services and set them aside for the duration? If these programs were some sort of class legislation that served only farmers, the answer would be that they should never have been set up in the first place.

"Actually, our agricultural programs serve the whole Nation. They have proved themselves in that respect over and over again. To talk of suspending our programs in such a period as this, because farm income is at or above parity, is as non-sensical as to talk of disbanding our fire departments because for a week or two there have been no fires.

"In the last analysis we have only one answer to the superior manpower resources of the Soviet Union and its satellites—superior production. Our production is based, far more than most per-

THOMAS C. SEASE Thomas Crawford Sease, 72, died at the home of his sister, Mrs. Harry W. Wiley, Dual Highway, Md., Sunday morning of complications after an illness of two years.

He was born near Emmitsburg, son of Sanford and Sarah (Ferguson) Sease. He had lived in Hagerstown for the past 12 years. The deceased was a member of St. Mary's Catholic Church, Hagerstown.

He is survived by these daughters: Mrs. Meredith Summers, Baltimore; Mrs. Mary Kelly, Glenn Arms, Md.; Mrs. Kathleen Ford, Frederick; Miss Bessie Sease, Miss Margaret Sease, near Funks-town; sons, Ellis, Fairmont, W. Va., and Harold, Worcester, Mass. Eleven grandchildren and these sisters also survive: Mrs. Addie Sprankle, Waynesboro; Mrs. Harry Wiley, Hagerstown; brothers, John Sease, Fairfield, and Peter Sease, Gettysburg.

Funeral services were held on Tuesday at 2 p. m. with Msgr. Francis Leary officiating. Interment in Cedar Grove Cemetery, Chambersburg.

Nancy Holmes SUGGESTS

IF YOU want a hearty round of applause from the family—better still the platter licked clean—serve this luscious chicken pie one night soon. The recipe comes to you from the Best Foods consumer kitchens and it's been tested and tasted to make certain you'll "bring down the house."

Bess's Chicken Pie 3 cups diced cooked chicken 6 small white onions 2 cups peas 1 cup mushrooms, sliced 1/4 cup vitaminized margarine 4 tablespoons flour 1/2 teaspoon celery salt

Pastry Topping 2 1/2 cups sifted flour 1 teaspoon salt 1/2 cup vitaminized margarine 5 tablespoons water 2 tablespoons grated onion

Dice cooking chicken, leaving some fairly large pieces. Cook onions and peas in boiling salted water, drain. Sauté mushrooms in margarine until lightly browned. Stir in flour and seasonings until smooth. Gradually stir in chicken bouillon and milk mixture, cooking and stirring constantly until thickened. Meanwhile, prepare pastry by cutting margarine into flour and salt mixture until coarse crumbs are formed. Add water and grated onion gradually, stir until mixture holds together. Roll out about 3/8 of the dough on a lightly floured board. Line bottom and sides of a 1 1/2 quart baking dish up to the top edge. Trim off edges. Pour sauce, chicken, vegetables, pimiento and parsley into pastry lined dish. Roll out remaining dough and cut in 1-inch strips. Arrange lattice strips over pie, attaching each to the edge of bottom crust. Flute crust. Bake in a hot oven (400°F.) about 20 to 25 minutes or until nicely browned. Serves 6.

sons realize, on the productivity of our agriculture. "Our agriculture . . . is far better able to face the problems and demands of the present and future than it has ever been in any previous national crisis. And this is due in no small measure to the untiring efforts—past and present—of the state, county, and community farmer committeemen who have been on-the-spot advisers and administrators for many of the national programs.

"These are indeed critical times. I am convinced, however, that we possess both the basic organization and the experience that are needed to carry out our nation programs and to help farmers make the necessary changes in production. In this endeavor we count very heavily, as we have always done, on the farmer-committee system. It is the most representative, efficient, and democratic mechanism that has ever been developed for the administration of farm programs. We are determined to do everything in our power to make it more efficient.

"We are going to work for even more effective participation of the rank and file of American farmers in all phases of this committee work. And I am sure that if the present situation should develop into something that requires all-out economic mobilization the local committees will be modern minutemen on the American farm front.

"Democracy can—and will—win this struggle against the evil that Communism represents."

"First Hundred Years" Is A Video "First"

Television's first sponsored daytime dramatic serial, "The First Hundred Years," made its debut Monday, December 4th, over CBS-TV. The new dramatic show is telecast from 2:30-2:45 p.m. five days a week, and relates the gay and tender romance of a marriage. Movie star Jimmy Lydon plays the role of "Chris Thayer," the young husband, and Olive Stacey is his bride, "Connie." Chris's and Connie's lively adventures in domesticity, their problems with their in-laws, their social activities and Chris's earnest but amusing struggles as a rising young insurance salesman are the sort of things that could happen to any young married couple of today. Above, pretty Olive Stacey enlists Jimmy Lydon's help as she spruces up before a telecast.

Collapse Therapy Helpful In Arresting TB SURGERY AND TB

The lung is normally one of the most active organs of the human body, but when damaged by a serious disease like tuberculosis it needs all the rest it can get to heal.

That is why patients with tuberculosis are put on complete bed rest in a tuberculosis hospital. When the patient is physically and mentally relaxed, the normal work of the lungs is cut down. With the constant motion of the lung lessened, the organ has a better chance to heal.

Sometimes, bed rest alone is not enough for the sick lung. When this is the case, the doctor advises "collapse therapy," or some other type of surgery to give the lung the additional rest it needs.

There are several forms of lung surgery. One of the simplest is the temporary collapse of the lung known as pneumothorax. With this operation, air is inserted between the covering of the sick lung and the lining of the chest wall, causing the lung to shrink into a smaller space. The air compressing the lung is gradually absorbed, and the operations is repeated to keep the lung collapsed for as long as it is necessary.

In a second form of temporary collapse, known as pneumoperitoneum, air is injected into the abdominal cavity to push up the diaphragm under the damaged lung and thus compress the diseased area. The lung re-expands as the air is slowly absorbed, and the diaphragm returns to its normal position.

Phrenic nerve paralysis is a simple operation which temporarily paralyzes the diaphragm on the side under the sick lung and compressed it for about six months. The moving of the lung in breathing is cut down considerably during that time. When permanent paralysis of the diaphragm is necessary, the phrenic nerve is cut instead of merely crushed.

Thoracoplasty, an operation performed to collapse the diseased area of the lung permanently, means the removal of ribs, or sections of ribs, over the damaged area of the lung. This permits the soft covering of

PAYS TRAFFIC FINE

Melvin Glass, Emmitsburg, who has been wanted by Gettysburg police since December 3, on a charge of running through a red flasher light in Gettysburg, was arrested Saturday morning. He was committed to the Adams County jail until later, when he paid a fine of \$5 and costs.

The rib to fall in and collapse the diseased portion of the lung. New ribs will grow back in about three months in such a position that they will keep the diseased part of the lung permanently collapsed.

Other surgical procedures include lobectomy, the removal of a diseased lobe of the lung, and pneumonectomy, an operation in which the entire diseased lung is removed.

Surgery never takes the place of bed rest in treating tuberculosis, but rather supplements it, if and when the doctor thinks surgical procedures are required.

Making Poultry Pay — THE DR. SALSBERY'S WAY

Old Man Winter is tough on chickens, bringing coryza and "colds." When your flock starts to sneeze and snuffle, put Dr. Salsbery's Ar-Sulfa in drinking water. Ar-Sulfa promptly checks infectious coryza. You save on egg production, fewer culls. Ar-Sulfa is easy to use, effective, and economical. Today, get Dr. Salsbery's Ar-Sulfa for use when you need it!

500 Attend Farm Show At Hagerstown

"Place your orders now for farming equipment because it is getting scarce and plan to get the highest possible production from your farm because the demand for your products is great and is still growing." This was the advice given to farmers of this area by a panel of agricultural experts at the fifth annual Four-State Farmers' Meeting held in Hagerstown last week. Over 500 farmers attended.

The panel included leaders from five fields—manpower, machinery, fertilizer, agricultural marketing, and social security. They were discussing the subject of "The Effects of Mobilization on Farming." The panel chairman was John Magruder, director of county agents for the U. of Maryland. The panel was led by George Mullan, farm supervisor for the Potomac Edison Company and included representatives from leading farm machinery manufacturers and farmers from the states of Maryland, Virginia, West Virginia and Pennsylvania.

Frank and direct answers to questions from the audience clarified the farmers' queries as to why farm equipment is often held up in production—a striving for perfection is the answer given by the manufacturers' representatives.

SURPRISE PARTY

A surprise party was tendered Mr. and Mrs. John F. Kelly on Sunday evening at their home on DePaul St., by their daughters, Mrs. Robert L. Topper and Mrs. Marie Rosensteel, in honor of the couple's forty-ninth wedding anniversary. Games were played and refreshments served to Mr. and Mrs. Thornton Rodgers, Mr. and Mrs. Edwin Chrismer, Mrs. Jackson Humerick, Miss Alice Kelly, Mr. and Mrs. Cloyd Seiss, Mrs. Ray Topper Lewis Kelly, Mrs. Robert Topper, Mrs. Rosensteel and daughter, Barbara Ann. Mr. and Mrs. Kelly will soon be 80 years old and are enjoying excellent health.

630 Insurance Companies Operate In Maryland

ANNAPOLIS (Special) — Six hundred and thirty companies with assets of \$66.7 billion are writing insurance in the state of Maryland. These same companies, according to the annual report issued, this week by the Insurance Commissioner of the State of Maryland, paid policy holders a total of \$74.9 million on account of losses during the year. They collected \$20.2 million in premiums.

To conduct the insurance business in Maryland required approximately 83,000 general agents and solicitors and approximately 900 insurance brokers. As a safeguard to policyholders, the Insurance Commissioner examines each of the 630 companies at least once in every four years.

LOOKING AHEAD

BY GEORGE S. BENSON  
President—Harding College  
Scary, Arkansas

Letter From A Veteran

Surveys have been made which show that the various phases of the Harding College National Education Program are reaching a combined audience of about 25 million people every week. A heartening compensation for those of us who work in directing and operating this widespread effort on behalf of maintaining the American way of life is the contents of the mail that flows in from all sections of the nation and from all kinds of people.

More and more people are beginning to put their minds to work on the national issues which once seemed so remote but which now have begun to be recognized, properly, as affecting the future life, liberty and happiness of everyone. Nothing gives me greater encouragement than a letter from someone who is sincerely struggling with these national problems, or who has arrived at a personal conviction and is willing to back up that conviction with high moral courage.

Yes or No? Such a letter recently came to my desk. Whatever we may think of the writer's expressed convictions, the fact that he is actually grappling with problems that concern us all and the high moral quality of his citizenship, ought to be a strengthening tonic for everyone. That's the chief reason I'm passing it along.

"This morning, while working about the house," he wrote, "I heard your radio program—the story about the Lebanon immigrant who found opportunity and happiness in this country, and I decided to write to you concerning my views on this economic struggle which is approaching. I am a school teacher and coach, having a very modest income. Recently we teachers received a communication on which were a series of questions we were asked to answer. One question asked whether we would like to have a substantial increase in salary. An amount was mentioned that would make any teacher's heart flutter. If we were opposed to this nice salary increase, we were asked to register our opposition.

Making His Point "The State Legislature was to convene soon and the survey going throughout the state to all teachers was to accumulate their opinions on the matter and seek to justify a request for additional funds. The fear is that teachers will again begin to leave for war work in war industries. Such a possibility is not in my mind as I am a member of the Air Force Reserve and probably will have another tour of duty. But I was opposed to the salary increase and as far as I know I have been the only teacher in our system who is opposed.

"The point, now, of my letter is to make the suggestion that somewhere, some place, the people of the U. S. should face reality and realize that if our ruinous spending continues we are apt to end up as the Roman Empire, victorious in every war but a decadent civilization, ruined economically. In your position you have a voice and perhaps if enough people voice their feelings to you your voice or pen can do something in high places that I, as an individual, can't.

Bothersome Questions "Why doesn't the government conscript labor and pay the same as to servicemen? Why not begin to roll back some prices? Why not begin to roll back Army and other pay, especially in the officer rank (I am a commissioned officer?) Why can't the American people be made to feel that war is not the time to make money or live as usual? Why not get us all mobilized, pull in our belts and realize that Democratic victories are not apt to continue forever unless we all sacrifice? How, in the face of pictures and releases coming from Korea, showing and telling of hapless millions of starving, migrating, freezing people, can conscientious Americans who profess to be Christians, demand more and more.

District Meeting

A district meeting comprised of Area B, Frederick County American Legion, was held at the local Francis X. Elder Post home last Sunday at 2:00 p. m. Alvey M. Norwood, area commander for Frederick County, presided at the meeting with approximately 25 guests present. Among those attending were Capt. Cutsail of Company A, National Guard and the present commander of the Francis Scott Key Post, Frederick, and Joseph Holcraft, first sergeant of Company A, National Guard of Maryland.

Election of district officers was held and one local man, Eugene Rodgers, was elected vice commander of Area B, Frederick County. J. Albert Saffer, former resident of Emmitsburg, now residing in Frederick, was elected service officer for the county. Following the meeting refreshments were served.

Melodious MacRae

When the cartoonist sketched baritone Gordon MacRae during a broadcast of NBC's "The Railroad Hour," he couldn't resist the appropriate background—for where MacRae is, there's music!

Woodsboro Livestock Quotations

The following quotations were those paid at the weekly auction Tuesday of the Woodsboro Livestock Sales, Inc.:

Butcher steers, medium up, \$31.20; butch. heifers, med. to good, up \$30.30; butch. cows, med. to good, \$21.25-24.00; butch. cows, canners and cutters, \$17.25-21.00; butcher bulls, up to \$26.25; stock heifers, \$69.00-150.00; stock bulls, per head, \$85.00-160.00; dairy cows, per head, \$150.00-305.00; good choice calves, 160 to 190 lbs., \$36.25-42.50; good choice calves, 140-160 lbs., \$38.25-41.75; good choice calves 125-140 lbs., \$35.75-38.25; light and green calves, \$26.50-34.75; good choice butchering hogs, 210-250 pounds, up to \$28.00; good butchering hogs, up to \$20.00; feeding shoats, per head, \$11.25-28.50; pigs, per head, \$5.50-13.25; young chickens, \$28.50; old chickens, \$24.25; lard, \$17.75.

stand a lot of. And his act of writing the letter, however debatable may be its contents, is fulfillment of one of the truly important demands of American citizenship. As an individual he can be influential in "high places." Such sober thoughts letters are the kind that influence the acts of our elected public officials.

Social Security Benefitting War Veterans

By ED. R. YOUNG

Hagerstown Social Security Office

An important phase of the amended Social Security law—one that went into effect on Sept. 1, 1950—is that relating to the World War II veteran, and to survivors of both men and women who served in World War II.

Survivors of servicemen who died within three years after discharge from the Armed Forces, already know of the 1946 change in the Social Security law made for their protection. It was temporary protection. First, it applied only to service people who died within that three-year period. Second, it did not apply if the Veterans Administration could pay a pension or compensation based on the period of active service. Third—and most important—it did not give credit for service pay toward Old-Age Insurance benefits. This provision remains in effect for the survivors of such servicemen. However, if larger benefit payments can be paid under the 1950 amendments to the Social Security Act, the new section of the law will be used.

What are the new provisions for World War II servicemen? Well, to begin with, they give \$160 wage credits for each month of active service between September 16, 1940, and July 24, 1947. Recomputation to take these wage credits into account will be made, and such recomputation is used in all cases where it will result in higher Old-Age or Survivors' Insurance payments.

Unlike the 1946 temporary measure, the new provision is not effected by any compensation or pension that may be paid by the VA. The only cases where the \$160 service-connected wage credits will not be given are those in which benefits, other than a lump sum, are payable under some other Federal plan, for instance, Civil Service or Railroad Retirement.

The \$160 wage credits will be given to every serviceman who had 90 days or more of military or naval service, within the dates mentioned, and whose discharge or release from service was not dishonorable. The 90-day provision does not apply if discharge was caused by injury, or disability, or death occurred while in service.

Obviously, this \$160 a month service-connected wage credit of the new Social Security law will bring larger benefits to present survivors of servicemen and to the families of veterans who die within the next few years. Also, many World War II ex-servicemen, now in the 50-60 age group, will acquire Old-Age and Survivors' Insurance status through these service-earned wage credits.

In its broader aspect, this provision of the amended Social Security Act will enable many veterans to regain Social Security status built up before the war. Also, it will help establish these insurance rights for veterans who never worked in Social Security covered jobs before entering military service.

In my next article, I shall discuss the dependent husband and his eligibility for insurance benefit payments under the new Social Security law.

"SMALL BUSINESS" By C. WILSON HARDER

This question is asked, "Will the government's action taking over purchase of all rubber result in tire rationing?"

From the facts on record, there should be no tire rationing. This current government action should avert such a move, provided the government acted in time to stop the situation the international rubber cartel was plunging the nation into.

In World War II the tire shortage almost brought all production to a stop. Workers, suppliers were unable to move. Here are some of the facts that caused the government to act:

Tire stocks, all kinds, on Oct. 30, 1950, were estimated at 4.4 million units, compared to 10.9 million units at time of Pearl Harbor. In December 1940, U. S. production of synthetic production was 3,000 tons annually. In October 1950, synthetic production was 45,000 tons. In June 1951, it is hoped to produce 65,000 tons. In October 1950 total rubber consumption was already up to 112,558 tons per month.

Here's the \$64 question around Washington. During World War II synthetic rubber production was high. Yet by October 1950, synthetic consumption outstanding production. What happened in five years?

Sincere government reports are the basis for production; were snatched by the big American, British and Dutch factors that have monopoly on natural rubber.

The motive for monopoly

production to continuing synthetic production has now become clear.

In June 1950, just before Korea, crude rubber was 28.6c per pound. By October it was 78.1c.

This runs into important money.

For example, one of the "Big Three" in American rubber operating plantations reveals it is now producing 64 million pounds annually in Liberia. Thus the virtual tripling of price means another \$52 million yearly to this corporation.

So here's the way needless tire rationing can be avoided:

Everybody who depends on automotive transportation, in business or on the job, should demand their Congressmen make a full investigation; rush production of synthetic rubber. The result would be some scandals, but far fewer pedestrians.

The move to end or curtail the Marshall Plan is gaining impetus in Washington. Paradoxically, government hired press agents for the Marshall Plan are doing a great deal in this direction by disclosing what is going on.

For example, ECA Bulletin 1963 reveals that, although copper is supposedly critically short, over a million dollars worth was given to Holland this month.

And at a time when more taxes are asked for defense, the same bulletin covers this item:

South Africa has just given \$260,000 worth of to

**BABSON**

*Writes . . .*

By ROGER BABSON

BABSON PARK, Feb. 2—Have just telephoned an important brokerage house in New York City to ask its opinion on the stock market. The reply was: "We guess the market is finally getting high enough for the public to buy."

The Dow-Jones Industrial Averages struck a high of 381 in 1929; they fell to 41 in 1932; they rose to 194 in 1937; fell again to 93 in 1942; rose again to 212 in 1946, from which they declined until a few months ago. They are now around 245, the high for 20 years; but this statement applies to only 30 stocks out of over 1000 stocks. Many good stocks are now selling for less than they did in 1946, or earlier. Many people say: "All stocks have gone up except those which I hold. What is the reason?" The truth is just the reverse of this. Only a very few stocks are selling at their "20-year-high."

All the above causes the wisest investors to be neither bullish nor bearish just now. They believe stocks are good for income, but not for speculation. The stock market is very selective and the war outlook is very uncertain—either way. We are now doing right to prepare actively for World War III! but it may not come for years. Our hurried preparations may be useless.

**What Mr. Hoover Believes**

Mr. Hoover apparently believes that, unless there is a revolution in Russia, all of Europe—war or no war—may, for a period of years, try Communism and that no War III can prevent it. He also thinks that the Russians now have no intention of striking North or South America unless we at-

tack Russia. He believes we should now avoid war and concentrate on strengthening the United States militarily, economically and spiritually until the Europeans unite and show an enthusiasm to fight Communism. Under this Hoover policy our markets should hold up.

If we should get into war with Russia and one or more of our cities are bombed, the Stock Exchanges would be closed to prevent financial panic. Everything—securities, commodities, rents, banks, and wages—would be frozen. We would be ruled by a dictator and stocks would go down. Those who expect war should not buy stocks—certainly not unless they are very carefully selected by experts. Inflation, however, should help a few stocks.

**Stocks vs. Homes**

Certainly, anyone who does not own a house and an acre of land in a safe country village, should make such his first investment—war or no war. Many such places—well located, with water, fuel and neighbors—can be purchased today for one-third what it would cost to build them. I'm not advising their purchase for immediate occupancy; but for insurance and security.

Next, keep healthy, have a good bank account and a job which will give you a living. If you are dependent partly on investment income, then buy a very broad list of 30 stocks which have paid dividends for many years and which should give you about 5%. If your local bank is unable to supply you with such a list, the bank can send to me at 270 Washington St., Wellesley Hills, Mass., and I will freely send such a list to the bank for you.

Henry Charlton, W. Main St., has completed the first semester of his last year at Gettysburg College. He has presented his application to the Gettysburg Lutheran Theological Seminary, where he plans to continue his training for the ministry.

Mrs. John D. White and Mrs. Roy Bollinger attended the recent clothing demonstration held in Frederick at the office of the county home demonstration agent, Miss Fehr.

**MARYLAND FEED & GRAIN MARKETS**

**GRAIN**

**Summary for Maryland**

Baltimore grain markets showed strength during the week ending Jan. 26. Wheat was strong, advancing sharply about six cents per bushel. Yellow ear corn gained about three cents per bushel. Barley made a sharp advance of about eight cents per bushel on the Baltimore market. Western white oats were firm on the Baltimore market. Soybeans, both yellows and blacks, advanced about five cents per bushel during the past week. Yellow shelled corn declined about a cent a bushel.

**National Summary**

Grain markets were unsettled during the week ended Jan. 26, and price changes were irregular. Uncertainty in respect to anticipated price ceilings and political developments in the Korean situation were principally responsible for the unsettled condition, according to trade reports. Wheat prices strengthened slightly as the results of smaller offerings and a more active inquiry for supplies to all recent export sales. An advance of two to three cents occurred in Central Western markets and about four cents per bushel in the Pacific Northwest. Feed grain values fluctuated within narrow limits. Oil seeds were firm. Soybean prices were about four cents higher at Chicago.

**FEED MARKET**

**Summary for Maryland**

The Baltimore feed market was about steady during the week ending Jan. 26. Weakness in meat scrap and soybean oil meal was offset by gains in distillers' and brewers' dried grain. Distillers' dried grains gained almost three per cent—\$2.12 per ton higher. Brewers' dried grains advanced three per cent during the past week—\$2.49 per ton higher. Meat scrap (50%) declined over two per cent—\$3.24 per ton lower. Soybean oil meal dropped almost four per cent on the Baltimore market during the past week—\$3.44 per ton lower.

**TO SHOW AT MAJESTIC THEATER, GETTYSBURG**

HE BUILT a renegade kingdom to make his love a queen! Paul Henreid as Jean Lafitte, is starred in Columbia's "Last of the Buccaneers," new adventure romance in color by Technicolor, at the Majestic Theater, Gettysburg, Sunday and Monday, February 4 and 5. Karin Booth is also starred in the film.

**National Summary**

Feed markets made further declines during the week ended Jan. 23, influenced principally by slow demand, reports to the Department of Agriculture indicate. The feeders and distributors entered new contracts cautiously and were inclined to await further developments concerning price or other Government control. Production of most feeds continued large and offerings were plentiful. Prices of wheat millfeeds and hominy feed dropped over \$2 per ton while cottonseed meal was \$1 per ton lower at most markets. Soybean meal prices fluctuated during the week, but at the close averaged about \$3 per ton higher, influenced principally by reported large sales for export. The index of feedstuff prices dropped over two points to 235.5, while the feed grain index advanced two points to 239.8. A year ago the feedstuff index stood at 203.4 and feed grains at 182.3.

Miss Sue Stinson spent several days this week at the home of her parents, Dr. and Mrs. O. H. Stinson, between semesters at Towson Junior College.

James Hays, Jr., W. Main St., has finished his college course at the Gettysburg College and is awaiting the results of an application for a navy commission.

the Railroads **RESPECT...**

What is the **TRUTH?**

the Labor Unions seek to **REPUDIATE** this agreement!

At various states in the present dispute with the brotherhoods of railroad operating employees

... the railroads agreed to arbitrate. The union leaders refused. ... the railroads accepted the recommendations of President Truman's Emergency Board. The union leaders refused.

... the railroads accepted the White House proposal of August 19, 1950. The union leaders refused.

Finally an Agreement was signed at the White House on December 21, 1950. Now the union leaders seek to repudiate the Agreement.

The railroads stand ready to put the terms of this Agreement into effect immediately, with back pay at the rates and date indicated. The Agreement is given in full below.

**MEMORANDUM OF AGREEMENT**

Washington, D. C.  
December 21, 1950

- 1. Establish 40 hour week for yardmen with increase of 23 cents effective October 1, 1950, and additional 2 cents effective January 1, 1951.
- 2. Set aside 40 hour week agreement until January 1, 1952, and establish 6 day work week for yardmen. Effective with the first pay roll period after 30 days from the date of execution of the formal agreement, yardmen required by the carrier to work on the 7th day to be paid overtime rates except engineers who shall receive straight time rates for the 7th day. This does not create guarantees where they do not now exist. On and after October 1, 1951, three months' notice to be given of desire to go on 40 hour week. Provide for consideration of availability of manpower and 4 cents per hour if and when the 40 hour week actually becomes effective.
- 3. Settle rules for 40 hour week and 6 day week.
- 4. Grant yard conductors and brakemen other rules such as daily earnings minimum, car retarder operators and footboard yardmasters as recommended by Emergency Board No. 81.
- 5. Settle following rules: Initial Terminal Delay (Conductors and Trainmen) Interdivisional Runs Pooling Caboose (Conductors and Trainmen) Reporting for Duty More than One Class of Service Switching Limits Air Hose (Conductors and Trainmen) Western Differential and Double Header and Tonnage Limitation (Conductors and Trainmen, all Territories)
- 6. Road men to receive 5 cents per hour increase effective October 1, 1950 and additional 5 cents per hour increase effective January 1, 1951.
- 7. Quarterly adjustment of wages on basis of cost

of living index (1 point to equal 1¢ per hour. First adjustment April 1, 1951. Base to be 176).

8. Agreement embodying principles applicable to yardmasters to be entered into for benefit of yardmasters.

9. Effective October 1, 1950, the basic hours of dining car stewards shall be reduced from 225 to 205 hours per month; no penalty overtime to accrue until 240 hours have been worked, the hours between 205 and 240 to be paid for at the pro rata rate.

Effective February 1, 1951, overtime at time and one-half shall accrue after 220 hours have been worked. The basic monthly salary to be paid for the 205-hour month shall be the same as that now paid for the 225-hour month. Except that four dollars and ten cents (\$4.10) shall be added to the present monthly rate effective January 1, 1951.

10. In consideration of above, this agreement to be effective until October 1, 1953, and thereafter until changed or modified under provisions of Railway Labor Act. Moratorium on proposals for changes in wages or rules until October 1, 1953, as follows:

No proposals for changes in rates of pay, rules or working conditions will be initiated or progressed by the employees against any carrier or by any carrier against its employees, parties hereto, within a period of three years from October 1, 1950, except such proposals for changes in rules or working conditions which may have been initiated prior to June 1, 1950. Provided, however, that if as the result of government wage stabilization policy, workers generally have been permitted to receive so-called annual improvement increases, the parties may meet with Doctor Steelman on or after July 1, 1952, to discuss whether or not further wage adjustments for employees covered by this agreement are justified, in addition to increases received under the cost of living formula. At the request of either party for such a meeting Doctor Steelman shall fix the time and place for such meeting. Doctor Steelman and the parties may secure information from the wage stabilization authorities or other government agencies. If

the parties are unable to agree at such conferences whether or not further wage adjustments are justified they shall ask the President of the United States to appoint a referee who shall sit with them and consider all pertinent information, and decide promptly whether further wage increases are justified and, if so, what such increases should be, and the effective date thereof. The carrier representatives shall have one vote, the employee representatives shall have one vote and the referee shall have one vote.

11. If the parties cannot agree on details of agreement or rules they shall be submitted to John R. Steelman for final decision.

The usual protections for arbitrators, miscellaneous rates, special allowances, and existing money differentials above existing standard daily rates will be included in the formal agreement.

\*\* The foregoing will not debar management and committees on individual railroads from mutually agreeing upon changes in rates, rules and working conditions of employees covered by this agreement.

**HOMEMAKERS' CORNER**

**Dutch and Spanish Potato Dishes**

Is your family tired of potatoes fixed the same old way? Then why not try giving them these two appetizing potato dishes that come to us from Holland and Spain?

For Spanish potatoes — saute one tablespoon of minced onion, two tablespoons of chopped green pepper, and two tablespoons of chopped pimiento in four tablespoons of oil or cooking fat until the mixture is light brown. Now add two cups of cold boiled, diced potatoes and 1/2 cup of cold cooked ham, chopped.

And for a Spanish dish you won't want to forget the seasoning—so add 1/2 teaspoon of paprika along with one teaspoon of salt. Cook the mixture until it's heated through.

From Holland comes this delightful potato dish — and it's guaranteed to please the man in the house. Simply scrub six medium-sized potatoes, paring them or leaving the skins on, as you prefer. Now with an apple-corer, cut a tunnel through the center of each, lengthwise. Draw through each cavity a frankfurter.

Next, place the potatoes and frankfurters in a dripping-pan and lay a blanket of fat salt pork or a thick slice of bacon on each potato. Pepper slightly and bake in a very hot oven until the potatoes are tender, basting them occasionally with the drippings and a little hot water.

**For Nylon Sewers**

Since nylon is super-elastic it is always advisable, when sewing a nylon garment, to use nylon thread. Clothing specialists warn against using cotton or silk thread on nylon because of the difference in shrinkage and elasticity.

**Miss Musselman Bride of Local Man**

Miss Darlene Musselman, daughter of Mr. and Mrs. Ralph Musselman, Fairfield, Pa., became the bride of Charles Rosensteel, son of Mrs. Laura Rosensteel, DePaul St., last Friday evening at eight o'clock in St. Joseph's Catholic Church, Emmitsburg. The double ring ceremony was performed by Rt. Rev. Msgr. John H. Eckenrode, pastor of St. Mary's Catholic Church, Govans, Baltimore, uncle of the bridegroom.

The bride wore a white slipper satin gown fashioned with a tight fitted bodice, with a marquise yoke, embroidered with seed pearls, long sleeves which pointed over the hand, full skirt with bustle back falling in a long train. She wore a silk chantilly lace veil and a tiara of seed pearls and orange blossoms. She carried a bouquet of white carnations and pompons tied with a large satin ribbon.

She chose her sister, Miss Mary Musselman as her maid of honor, who wore an aqua blue taffeta gown, made similar to that of the bride's, matching mitts and a bonnet of blue net to match the gown. She wore a corsage of pink rosebuds.

The best man was Donald Miller, brother-in-law of the bridegroom, and the ushers were Eugene Rosensteel and Robert Jordan.

Two large baskets of mixed fall flowers were used for decoration at the sanctuary gates. The traditional wedding marches were played by the Mrs. Euphemia Roter, church organist, and Schubert's "Ave Maria" was sung by Guy A. Baker Jr.

The bridegroom's mother wore a satin brocaded dress with black accessories and red rosebud corsage, and the bride's mother wore a grey dress with black accessories.

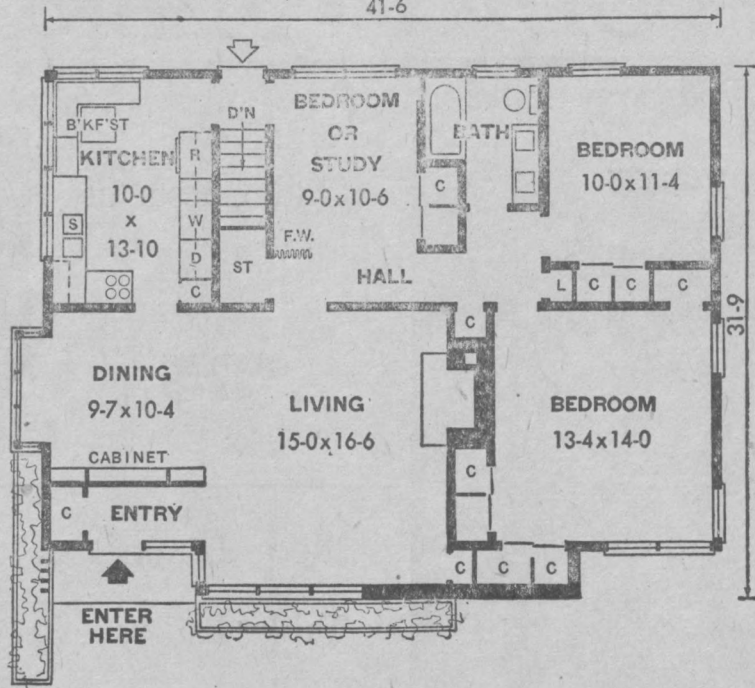

Following the ceremony, a reception for the immediate families and a few friends was held at the home of the bridegroom's mother.

Following the reception the young couple left on a wedding trip to Niagara Falls and Canada. For her going-away outfit, the bride wore a blue-grey dress and a pink rosebud corsage.

Upon their return they will make their home with bridegroom's mother.

The bride attended the Fairfield High School and is employed by the Fairfield Shoe factory. The bridegroom attended St. Joseph's High School and is employed by the Gettysburg Furniture factory.

**Small House with Large Assets**

Here's a classic example of the type of house most American families look for. It's Good Housekeeping magazine's "Small House of the Month" for February. Features include: 1,250 feet of floor area; full basement; 12 closets; and fireplace. The exterior is brick veneer, vertical siding, and wood shingles. Note the abundance of windows, twin wash-basins in bathroom, and the folding wall which converts the extra bedroom or study into a second living room.

**INN OWNER INJURED IN CAR CRASH**

Roy Rothaupt, Sr., Gettysburg Route 2, owner of the Panorama Inn, suffered lacerations Monday evening when his car ran off the Gettysburg-Emmitsburg road near Marsh Creek Heights and crashed into a ditch. Damage to the car was estimated at \$800 by Pennsylvania state police. Rothaupt was taken to the Gettysburg Hospital.

**BLAST REVEALS WEALTH**

The Nevada atomic blast Sunday gave Adolph Schleicher a big boost. Two years ago Schleicher found a bat cave there full of guano, worth perhaps \$500,000, reported that the explosion started an earth slide that opened up another chamber of the cave. It was pointed out that guano is used in making commercial fertilizer.

**PAYS \$5 FINE**

Melvin Glass, Emmitsburg, wanted by Gettysburg Borough police since Dec. 3 on a charge of running through a red flasher on Baltimore St., was arrested this week. He was committed to the Adams County jail until he paid a fine of \$5 and costs to Justice of the Peace John H. Basehore.

**NAMES SUBMITTED FOR SUMMIT POSTMASTERSHIP**

President Truman has sent to the U. S. Senate for confirmation the name of William Lester Davis, Peach Glen, to be postmaster there and the name of Joseph K. Brown to be postmaster at Blue Ridge Summit, it has been reported.

Mrs. Charles Claybaugh, Detroit, and Earl Kugler, Emmitsburg, were admitted as patients in the Warner Hospital this week.

Mrs. Roy Wivell and son, Charles, accompanied Mrs. Mary G. Guise to her home in Baltimore last Tuesday. They also visited relatives while there.

9 a. m.—Morning Worship.  
10 a. m.—Sunday School.

**MISSIONARY UNITS SET EMMITSBURG MEETING**

The spring conference of the Women's Missionary Society of the Middle Conference of the Evangelical Lutheran Synod of Maryland, will be held at Elias Lutheran Church April 5. The theme of the conference will be "Look Up-Lift Up."

Mrs. George Ashbaugh recently spent a week visiting her son and daughter-in-law, Mr. and Mrs. Harry Ashbaugh, Wash., D. C. Miss Anna Rowe, Richmond, Va., spent last week with her sister, Miss Carrie Rowe.

Mrs. Kate M. Reuter and her daughter, Agnes, Baltimore, visited last week with Peter F. Burket.

Charles Wivell, Hagerstown, spent a few days this week at the home of his parents, Mr. and Mrs. Roy Wivell. Charles has enlisted in the Marine Corps.

**New Ring Cleat Shoe For Football Players**

Big shoes, little boy—and 4-year-old Dede Thomas of Dayton, Ohio, seems happy to show off the revolutionary new Ring Cleat Football Shoe. The MacGregor Goldsmith shoe is designed to reduce injuries to grid players' ankles, knees and hips, at the same time providing equal or more traction than afforded by the seven conical cleats now in common use.

**St. Joseph's High School News**

James Tressell and Leo Topper have returned to classes after finishing the first semester St. Charles Seminary, Catonsville. Both are members of the junior class.

With a school mass on Tuesday morning, the annual retreat for the students opened. The retreat master, Fr. Toomey, delivers two conferences daily. This morning a breakfast was served in the auditorium, prepared by the parents.

A movie, explaining the making of simple tools, was shown to the Science Class I and II and also to the World Geography Class on Monday.

Approximately 100 students, friends and alumnae enjoyed the post-exam hop, which was held last Friday evening. The cake walk was won by Patricia Joy, a senior, and Thomas Morrison, while James Welty, also a senior, won the box of candy. Approximately \$23 was cleared. The parents present for the affair were Mrs. Marie Rosensteel, Mrs. Louis, Topper and Mrs. Edward Lingg. Mrs. Rosensteel was chairman of the affair, and Mrs. Lingg made the cake.

Those wishing to join the Blue Army of Mary were asked to sign their names in the various homerooms.

On Tuesday evening, the P-TA was entertained at a covered dish social in the auditorium. Approximately 75 parents and five Sisters were present. During the evening the parents selected the junior class to which would be the recipients of a surprise prize in the future. Fr. Francis Dodd, C.M., superior of the Sisters of Charity in this area, was guest speaker.

The students wishing to join the oratorical contest which will be held in the future, are preparing their speeches for submission.

**DANCE WELL-ATTENDED**

Approximately 100 attended the Post-Exam Hop held Friday evening by the Junior Class of St. Joseph's High School in the auditorium of the school. Music was furnished by a jukebox. There was a cake walk, the winners of which were Patricia Joy and Thomas Morrison. A draw prize was won by James Welty. Chaparons were members of the P-TA and were Mrs. Marie Rosensteel, Mrs. Louis Topper and Mrs. Edward Lingg.

**Store Prices Ready for Inspection March 1**

All businessmen are cautioned that ceiling price lists mentioned in the general ceiling price regulation of the Economic Stabilization Agency must be available for inspection by Mar. 1, 1951.

"We urge cooperation of all concerned to facilitate the fight against inflation."

This announcement was made this week by Hugo R. Hoffman, acting price director for the state of Maryland. Mr. Hoffman said the regulation clearly specifies that records dealing with the prices and services "frozen" as of the period Dec. 19, 1950 to Jan. 25, 1951, must be preserved at all times and that the list of ceiling prices based on these figures must be ready for the director of price stabilization by the first of March. In addition, current records of the kind kept in the ordinary operation of business must be maintained for a period of two years and are also subject to examination by the director.

Printed copies of general price regulation are now being sent to chambers of commerce offices and may be obtained by making a direct request.

Staff Sergeant Marshall Sanders, Camp Campbell, Ky., has left the West Coast for overseas duty it was learned this week. Marshall is co-proprietor of Sanders Bros. Garage and is the son of Mr. and Mrs. Robert Sanders.

**Antibiotics Seen Boon For Poultrymen**

The most spectacular 1950 development in the feeding of animals was the discovery that certain antibiotics have growth-promoting values when fed to chickens, turkeys, or swine.

This is the opinion of Dr. G. F. Combs of the Poultry Dept. at the University of Maryland. He points out that the use of antibiotics in poultry rations has been shown to stimulate growth in chicks from 10 to 20 per cent.

"Antibiotics," he explains, "are substances such as aureomycin, penicillin, streptomycin, terramycin, and bacitracin. They are believed to inhibit the growth of certain undesirable bacteria in the digestive system when used in a poultry feed. At the same time they appear to stimulate the growth of other bacteria which synthesize, or manufacture, unidentified vitamins required for rapid chick growth."

**Best for Broilers**  
Dr. Combs states that the use of these growth stimulants in broiler rations is an important step toward more efficient and profitable poultry meat production. The antibiotics are being included in some broiler and starting rations and poultrymen can check with their feed dealer for more details.

He reports that, at the present time, the use of antibiotics in laying rations is not recommended in growing rations for pullets being reared for egg production.

**Cost is Low**  
The poultry nutritionist states that as little as 2 1/2 to 15 grams per ton of feed, depending on the antibiotic used will give a marked increase in growth. Many commercial broiler rations and starting rations for pullets and chicks contain antibiotic feed supplements. The cost of adding these supplements amounts to less than one cent per broiler. Any commercial feed containing an antibiotic feed supplement will be so labeled as required by law.

Antibiotics are not considered as required nutrients. To improve growth they must be fed, rather than injected, so that they will be able to act on bacteria in the intestinal tract.

Dr. Combs adds that antibiotics should be added only to otherwise complete rations. They make good rations better rather than poor rations good.

**HELEN TROXELL**

Low requiem mass was celebrated in Our Lady of Mt. Carmel Church, Thurmont, Monday morning at 10 o'clock for Helen Lucille Troxell of Thurmont, who died last Thursday morning at Johns Hopkins Hospital.

Services were conducted by Rev. Vincent J. Tomalski, Pallbearers were Allen Creeger, Kenneth Leatherman, Louis Terranni, and John Fink.

**In Fraternity**

Randolph-Macon College's mid-winter activities list included the name of Kenneth O. Woods, student at the college, of Rt. 2, Emmitsburg. Woods pledged membership to Sigma Phi Epsilon, national social fraternity.

Mr. Woods is the son of Mr. and Mrs. Floyd L. Woods and is a veteran of the U. S. Army Air Force.

Mrs. Edna A. Tressler visited at the home of her daughter and son-in-law, Mr. and Mrs. Robert D. Sites, Orrtanna, on Friday evening and Saturday.

Mr. and Mrs. Edward Bowers and Mr. and Mrs. Herbert Ecker of Hanover, Pa., spent Sunday with their daughter, Paula, at the School for the Blind at Overlea. Paula celebrated her 13th birthday that day.

**Home Nursing Classes to Start**

A training course for instructors in home nursing and in mother-baby care will be given under the auspices of the Frederick County Chapter, American Red Cross, beginning Feb. 21. Classes will be held in the east wing of Winchester Hall and will continue through Feb. 22, 23, 26, 27, and 28.

Instruction will be given by a nursing specialist from Eastern Area Headquarters in Alexandria, Va.

The course, designed to fit lay people to teach home nursing, has been planned to meet the growing demand for qualified instructors of classes under the Civil Defense program. At present there are 17 such trained instructors on the Red Cross roster, and classes are in progress in four communities, the most recent being those organized in Woodsboro for 30 members of the Homemakers Club.

Hours for the instructor training course will be 9 to 4 daily, it has been announced by Mrs. Frank D. Worthington, chairman of the home nursing committee of the Frederick Red Cross chapter.

Bernard J. Eckenrode and John M. Roddy Jr., president and secretary, respectively of the Emmitsburg Chamber of Commerce were guests Monday night of the Frederick Chamber of Commerce at its annual banquet held in the Francis Scott Key Hotel.

**HOMEMAKERS MEET**

The members of the Emmitsburg Homemakers' Club heard the report of the directors' meeting held in Frederick on Jan. 9. The report was given by Miss Louise Sebald at the regular meeting last Thursday at the home of Mrs. Robert Gillelan. Twenty-two members were present and enjoyed refreshments served by the hostess.

**Day of Prayer To Be Observed**

The Annual World Day of Prayer Service, sponsored by the Emmitsburg Council of Church Women, will be held at 7:30 Friday evening, Feb. 9, in Trinity Methodist Church. Mrs. Lewis Bell, vice president of the Council, will be the leader.

The World Day of Prayer will be observed this year in 92 countries with 80 denominations participating.

The theme for this year's prayer service is "Perfect Love Casts Out Fear."

**DAUGHTER BORN**

A daughter was born last Saturday morning at the Warner Hospital to Mr. and Mrs. Donald Eyard of Emmitsburg.

Mr. and Mrs. Albert Easter and children, Barnesville, were recent guests of Mrs. Estella Watkins, W. Main St.

Trinity Methodist Church will hold a food sale at The Matthews, W. Main St., on Saturday, Feb. 24.

**Legion Dance Tonight**

The Francis X. Elder Post 121, American Legion, will hold a pre-entertainment dance Friday night for Legion members, social members and auxiliary members. Each of the members is privileged to bring one guest of the opposite sex and the admission is free. The music will be furnished by Ozzie Fagan's Orchestra, Frederick and dancing will be from 9 until 12.

Pershing Mondorff, Upper Marlboro, returned to his home there this week after visiting with his sister, Mrs. Arthur Malloy, W. Main St. "Persh" expects to leave for spring training with the Hollywood All Stars next month.
