

HAPPY NEW YEAR

EMMITSBURG CHRONICLE

VOL. LXXI, NO. 14

EMMITSBURG, MARYLAND, FRIDAY, DEC. 28, 1951

SUBSCRIPTION: \$2.00 PER YEAR

Most Anything At A Glance

—BY ABIGAIL—

As most of you know, I am not a chronic griper and it takes quite a bit of persuasion before I enter a gripe about anything, but this week I have received numerous complaints beseeching me "to do something" about the removal of the snow from the edges of the road to the curbing. What they expect me to do about it, I can't visualize. Shovel it? At my age, you're kidding.

Many of you think this department is a "fixit" bureau. I will take a little credit in this category. I have been instrumental in obtaining several things beneficial to Emmitsburg, but I sincerely hate to jump down the throat of the Town Council. These boys have done a marvelous job of administration since their tenure of office began and there's no use biting them in the back for one single slip-up. I believe the attack, in this instance, should be honey-coated. Treat 'em with kindness. Kill 'em with kindness will be my procedure. So I'll begin by imploring them to set up a definite program for snow removal at the very next meeting.

At least, I believe I am barking up the right tree when I accuse them of negligence. But then again, they may have their side too. Perhaps it comes under the jurisdiction of the State Roads Commission . . . after all, they own the road to the curb. Regardless, the Council still is obligated, in my estimation, then to see that this Commission doesn't shirk its duty. With the impending meeting with this Commission coming up about the bad streets of the town, now would be the appropriate time to clarify the situation.

The parking meters have been out of operation for more than two weeks now and the revenue that is regularly derived from these timers easily would have paid the expenses of removing the snow. These meters average about \$75 per week and I don't see why the cost of hiring a crew of men and a truck or two couldn't have been carried by the meters, had they remained operating. Many of the businessmen are incensed about the situation and complaints have poured in steadily this week from the citizenry as a whole. The blow was especially hard on the businesses around Christmas time, when many drove out of town to do their shopping because of the lack of parking space here . . . Anyway Council, let's take a little look into the matter and see if we can't come up with some remedial measure. Many thanks.

Well the twenty-third annual Christmas Party for the district's kiddies is history, but here's a little item that we are glad to mention that helped considerably to make the affair the success it was. With the Square snowbound, Chief Bob Koontz proved the worth of his little organization, the Junior Police Club. Came the day of the celebration and Chief Bob had his aggregation man the shovels and in a few hours this fine body of young men had the Square in shipshape condition for Santa Claus . . . and at no expense to the town or anybody else. A bouquet to the Chief and his fine organization for their excellent gesture.

Speaking of the celebration itself, I never knew so many kids existed. The Square was flooded with around 900 of them. At least that's how many boxes of candy and oranges were distributed and the count, I believe, is accurate, unless some of the little dickens maneuvered their way through the line twice. It certainly is a heart-warming sight to see the little tots all enthused and with a sincere belief in Santa, gather 'round expectantly and when the big moment arrives (Santa),

(Continued on Page Two)

Christmas Party Draws 900 Children

Emmitsburg's annual Community Christmas Celebration went off as scheduled Monday. The affair, first begun twenty-three years ago, has steadily grown in popularity until this year the largest crowd ever to attend the event, packed the Square to its capacity. State and local police maintained order and directed traffic for the day-long celebration.

The party was again sponsored by the Emmitsburg Lions Club, assisted by the merchants of the town and the Homemakers Club. George L. Wilhide, local banker, was general chairman of the affair.

The program included a free movie for the children through the courtesy of the Gem Theater at 10 a. m.; free lunch for the children at the Fire Hall at noon served by the Homemakers Club and the wives of the Marine Corps. Santa Claus arrived at about 2:30 (one half hour later than scheduled) and distributed candy and oranges to the 900 or more kiddies at the Square. Lions members escorted Santa who arrived by horse and buggy. The parade from the West End to the Square, was led by the Emmitt Band. The community observance continued into the night with special services in the churches including Sunday School services in the Reformed Church, Rev. Edmund P. Welker, pastor, at 7:30 p. m., the traditional candle lighting services at the Lutheran Church from 11 to midnight and the Christmas Midnight Mass at St. Joseph's Catholic Church beginning at 12 midnight.

Early in the evening the Community Chorus sang carols on the Square and toured the town on a trailer drawn by a tractor, singing Christmas carols. Throughout the day Christmas music was broadcast from Mac's Coffee Shop on the Square and from the tower of the Lutheran Church.

Church Planning New Year's Services

The annual Candlelight Watch-Night Service will be held in the Lutheran Church on New Year's Eve, Mon., Dec. 31, beginning at 11 o'clock and closing at midnight. The Chapel Choir of the church will sing a Processional Christmas Carol Medley following the organ prelude. The choir also will sing "The First Noel" and "Gloria to God." A male chorus will sing "Who Is He in Yonder Stall?" Other special music will include "The Lord's Prayer," solo by George McDonnell and "The Virgin Slumber Song," solo by Doris Wastler.

Following an uninterrupted custom of over 50 years, the church sexton, Luther Kugler, will toll out the Old Year and ring in the New Year at midnight.

New Postal Rates Effective January 1

January 1, postal cards will advance to two cents and a charge of 10% will be charged on Government postal cards when sold in quantities of 50 or more. Private mailing cards will require two cent stamps. Drop letters and other matter of the first class mailed for local delivery through postoffice boxes or general delivery windows at postoffices where city carrier service is not established, will be two cents for each ounce.

The fees on domestic registered mail is being advanced as well as return receipts for registered and insured mail. Special delivery fees will be advanced and the rate on books and catalogs having 24 pages or more, cuttings, bulbs, roots, etc., not exceeding eight ounces in weight, will also be advanced.

The rates for parcel post, books and special handling fees remain as at present, with no advance.

Richard Randolph, Baltimore, spent the holidays with his parents, Mr. and Mrs. J. Scott Randolph, Center Square.

Korean War Hero Spending Holidays Here

Lt. John M. Baker, son-in-law of Mr. and Mrs. Tyson Welty of Emmitsburg, Route 2, twice wounded in action in Korea, arrived at the Welty home Tuesday evening on a 30-day leave.

Lt. Baker was one of the "fortunate" returning veterans able to secure train accommodations from the West Coast where many were stranded due to insufficient transportation facilities. He arrived last Thursday in San Francisco.

Mrs. Baker is the former Miss Margaret Welty and is an army nurse at Camp Lee, Va.

The 34-year-old lieutenant was first wounded Oct. 10 on Heartbreak Ridge and on Oct. 29 he was again wounded. He led the first helicopter attack in military history on October 27.

Lt. Baker, whose home is in Sioux Falls, S. D., is in his 16th year as a member of the Marine Corps. Following his leave he will report to Quantico, Va. He reports he is recovering satisfactorily from his wounds.

Chorus Conductor Appreciates Support

To all the Community Chorus and the Sunday Concert audience, many thanks for a very enjoyable evening. The fine performance of the Community Chorus, and the heart-warming response and appreciation by a community audience, deserve the finest words of commendation.

A special vote of thanks has been earned by those who did so well the "hundred and one" jobs that accompanied your program.

Humbly and sincerely, thanks to all for a beautiful Christmas concert.

WILLIAM H. SIMPSON

Farm Bureau To Convene in Balto.

C. E. Wise, Jr., executive secretary of the Maryland Farm Bureau, predicted this week that the coming Maryland Farm Bureau Convention at the Lord Baltimore Hotel, January 9-12, would be the most important ever held in the state and will have the largest attendance.

The annual Associated Women's Candlelight Vesper service will be conducted Thursday evening, Jan. 10, at 7 p. m. at the Lord Baltimore, by Mrs. John Flood, Boonsboro, president.

Mr. Wise suggested that tickets for the banquet, Friday, Jan. 11, be secured by delegates and members attending the convention as soon after arrival as possible.

Principal speaker on Farm Bureau Day Friday, will be Allan B. Kline, president of the American Farm Bureau Federation and Mrs. Raymond Sayre, president of the Associated Women and the Country Women of the World.

The Maryland Poultry Council on January 8-10 will hold its winter meeting and exhibition of Maryland poultry products in cooperation with the University of Maryland, Maryland State Fair Board, the Maryland Farm Bureau and the Maryland Turkey Producers Council.

Volume of Mail Heavy Over Yuletide

The volume of mail handled at the local postoffice for the 15 days preceding Christmas was about the same as last year, although the amount handled for a single day of incoming mail was the largest, when on last Monday 10 pouches of first class mail and about 60 sacks of parcel post were received. The record was broken, however, for the largest number of stamps being sold in a single day. The receipts from the sale of stamps on Monday, Dec. 17, being \$532.00.

Cancellations for Dec. 17, 18, and 19 totaled about 30,000, averaging 10,000 a day for the three days. The incoming mail on the above mentioned, averaged about 16,000. Total cancellations for the month of December will total a little over 100,000.

Chairman of Christmas Seal Drive Says Quota Will Be Exceeded

Appreciation for the response with which the citizens of Maryland have received the 1951 Christmas Seal Sale, was expressed this week by William H. Staub, President of the Maryland Tuberculosis Assn.

At the conclusion of the campaign on Christmas Day, returns from throughout the State indicated that last year's campaign of \$343,000 would be exceeded. The last pre-Christmas report showed that \$142,659.73 had been raised by the county associations affiliated with the Maryland Tuberculosis Assn. This is an increase of \$20,897 over the same period last year.

"Naturally, many returns come in after the end of the holiday season. We have confidence that more money than ever before will be raised for tuberculosis work in

Maryland," Mr. Staub said.

Assuring all contributors that the association would spend the Christmas Seal funds wisely for an expanding TB control program, Mr. Staub said, "In a year of rising prices and world uncertainty it is gratifying that our people have not forgotten the health of their loved ones and friends. This interest and support makes it possible for us to continue our program to control and eventually eradicate TB in Maryland."

Mr. Staub also thanked public officials, health officials, the press and radio, the many volunteers, and all persons and organizations who assisted with 1951 Christmas Seal Sale for their time and efforts in working toward its success.

D. John Markey Announces Candidacy

In a statement released to the press this week, D. John Markey, prominent Fredericktonian, announced his candidacy for the Republican nomination to the U. S. House of Representatives from the Sixth Congressional District.

In his announcement Mr. Markey stated: "During the campaign I will discuss in detail the issues which seem to me to need discussing and will state my position on them."

My program will be a fighting program directed against the abuses and trends that I believe to be the greatest problems and greatest threats facing us today. If elected, I will fight corruption; I will fight to remove our tax collecting agencies from political pressures and influences; I will fight inflation; I will fight for an adequate defense program, but for having defense expenditures scrutinized with greater care; I will fight to reduce, during the emergency, all appropriations not directly concerned with, or essential to, the defense effort; I will fight influence peddling; I will fight to remove all government employees whose first loyalty is not to this country; I will fight the trend towards a centralized, dominant, socialistic government.

"I believe the House of Representatives, where all appropriations originate, offers its members an ideal opportunity to carry on such a fight, and I intend to seek election to that body for this purpose."

Corporal William J. Kerrigan, Air Corps, stationed at Nashville, Tenn., is visiting his uncle and aunt, Mr. and Mrs. J. Ward Kerrigan.

Camp Detrick Awarded National Safety Award

Camp Detrick, Frederick, has received the National Safety Council's highest award for the Post's excellent safety record in 1951.

Presentation of the "Award for Distinguished Service to Safety" was made personally to Col. Arthur L. Shreve, Chief of the Maryland Military District, to Col. M. T. Moore, Camp Detrick Commanding Officer.

A framed scroll signed by Ned H. Dearborn, president of the National Safety Council, praised Camp Detrick for "an outstanding safety performance during the year 1951 which resulted in the greatest improvement in accident experience of all Chemical Corps installations."

Camp Detrick was one of only two military installations in the entire Second Army Area to win the coveted award for 1950. The other was the Louisville, Ky., Medical Depot.

The Award of Honor for Distinguished Service to Safety is awarded to both military and civilian activities. To qualify for it, a defense installation such as Camp Detrick must have an excellent record of improvement on six specified safety rates—civilian injury rate, civilian fatality rate, military injury and fatality rates, and motor vehicle accident and fatality rates.

Judging Tonight

The Emmitsburg Chamber of Commerce announced this week that the judging of the Christmas decorations will be held this evening between 8 and 9 p. m. Prize winners will be announced next week.

Over 300 Hear Community Chorus Sing

One of the most enjoyable musical presentations to take place here in many years was held Sunday evening in the Emmitsburg High School when the Community Chorus presented its program of Christmas music.

The Chorus has steadily gained in public acclaim since its initial appearance during Old Home Week in September, and each succeeding appearance it makes it draws new admirers of excellent singing.

Between three and four hundred people jammed the high school auditorium beyond its capacity Sunday night to hear the Chorus, under the direction of Mr. William Simpson, and soloists were Robert Baumgardner, Helen Martin and Mrs. Marie Rosensteel.

The Chorus, comprising over 50 voices, presented a program of 14 selections, not including the three solos.

Monday night the group concurred briefly on the Square, as part of the Lions Club Christmas program. It later rode through the town's streets drawn by tractor and trailer, singing popular Christmas carols.

Mr. Simpson, conductor, said that nothing is planned in the immediate future, as to scheduled performances for the Chorus, but that it will remain active as long as it receives the splendid support accorded it thus far.

Rocky Ridge Man Sentenced On Vagrancy Charge

Martin A. Younkins, of Rocky Ridge, was given a one-year sentence in the House of Correction by Magistrate Wilbur F. Sheffield in Peoples Court, Frederick, on Wednesday on a charge of vagrancy. The magistrate suspended a \$25 fine on a charge of trespass and Younkins appealed the decision in the vagrancy case.

Younkins was arrested last Saturday morning by Trooper Joseph Stakem in Middletown. Robert L. Sheffer, Middletown, testified when he arrived at his home, he found Younkins asleep on a couch on the first floor. Sheffer also said his wife, who was asleep with their child upstairs, did not know anyone was in the house.

Younkins, who was not known by the Sheffers, said he was told to enter the house to sleep for the night. He said he did not know the name of the man who told him to enter the house. Both the charges were the result of entering the Sheffer home.

TOPPER-BUCHER

Mr. and Mrs. Clair C. Bucher, Gettysburg Route 1, announced the engagement of their daughter, Mary Elaine, to Vincent DePaul Topper, son of Mrs. Guy Topper and the late Mr. Topper, Emmitsburg, at the Bucher residence on Christmas Eve.

Miss Bucher was graduated from Gettysburg High School in 1946. Since then she has been employed by the United Telephone Co. at the Gettysburg exchange, where she is a supervisor.

Mr. Topper was graduated from Emmitsburg High School. He attended Mt. St. Mary's College and the Hagerstown Business College at Hagerstown. A veteran of World War II, he is presently employed as a clerk in the local postoffice.

No date has been set for the wedding.

Obituary

JOSEPH ROSS HUNTER

Joseph Ross Hunter, brother of Mrs. Charles G. Hoffman, Emmitsburg, and son of the late William Boyd Hunter and Barbara Jane Wilson Hunter, died at the hospital in Berlin, N. J., on December 17.

The deceased is survived by his widow, Ursula and four children: William Boyd, Dudley Shields, Ross DeWitt and Ursula Michelson, and by two grandchildren, William Boyd Hunter IV and John Michelson.

Two Car Wrecks Occur Here Christmas Day

No one was injured in two Christmas Day accidents involving five cars and a truck just north of Emmitsburg on Route 15.

The truck and three of the cars were involved in one smash-up at 12:15 o'clock Christmas morning, when a car pulled out of a parking lot into the path of the truck.

Maryland State Trooper H. J. Brown, charged Roy Charles Bollinger, 21, Taneytown Route 2, before Magistrate C. D. Gillelan, Emmitsburg, with failing to yield the right of way as a result of the crash. Magistrate Gillelan set January 7 for a trial of the case. Backed From Parking Lot

Brown said Bollinger backed out of the Emmitsburg Tavern's parking lot into the path of a tractor-trailer owned by the Wilson Produce Co., Wilson, N. C., and driven by Ashley A. Simm, Jr., 26, also of Wilson, N. C. The truck was headed south.

When the truck struck the Bollinger car, the auto was hurled forward into a parked car owned by John W. Rohrbaugh, 40, Gettysburg Route 2. At the same time the rear of the trailer was thrown across the road into the rear of a car traveling north and operated by Wilbur W. Sims, 30, E. Main St., Emmitsburg. There were no injuries. Damage to Bollinger's car was estimated at \$200, to the Sims car at \$150, to the Rohrbaugh car, \$10 and none to the truck.

The second accident at the same spot occurred at 11:45 o'clock Tuesday night. Trooper Brown said John W. Stem, Jr., 18, Westminster Route 6, and two other 18-year-olds were pushing Stem's car onto the highway from the Emmitsburg Tavern (Rube's place.) The three youths behind the car prevented Lynn J. Lundberg, 25, of South Temple, Utah, headed north, from seeing the tailight and the Stem car. The three men leaped out from the rear of the car in time to avoid being hit by the incoming vehicle.

A charge of reckless driving was placed against Stem before Judge Gillelan, Emmitsburg, by State Trooper Brown. The trial also will be held on January 7.

New Yorker Injured

An automobile operated by Charles O. Smith, 615 Lincoln Ave., Emmitsburg, and one operated by Robert Gray, Philadelphia, involved in an accident on Route 15, a mile north of Thurmont Saturday. Gray was en route to Georgia. The car was disabled and was towed to a garage.

Cars driven by Harvey L. Harverstock, Baltimore, and Albert J. Frank, Watkins Glen, N. Y., collided head-on on Route 15, two miles south of here at 7 a. m., Saturday. Eugene A. Mammoser, Buffalo, N. Y., a passenger in the Frank car was treated at the Warner Hospital, Gettysburg, for a fractured forearm and lacerations of the forehead.

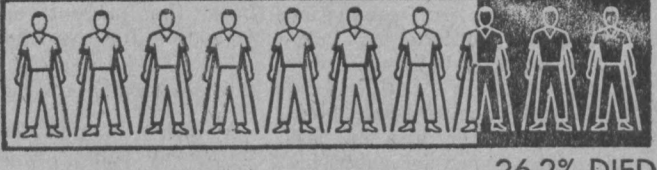

Postponed Christmas Service Sunday

The Elias Ev. Lutheran Church, Rev. Philip Bower, pastor, announces the presentation of a Christmas Service of Music on Sunday morning, Dec. 30, at 10:30 o'clock. This service was originally planned for last Sunday but was postponed on account of bad road conditions. The choir, under the direction of Mrs. Reginald Zepp, will sing "And the Glory of the Lord," from Handel's Messiah. The Junior Choir and male chorus will sing, "I Wonder as I Wander," by Niles. The choir also will sing, "O Thou that tellest Good Tidings" from the Messiah by Handel and "Lo, How a Rose E'er Blooming," by Prato-Ricus and a treble choir will sing "The Birthday of a King," by Neidinger.

The Chapel Choir and part of the Junior Choir of Elias Lutheran Church will meet for rehearsal this evening at 7 p. m. Classes in the Catechism will meet tonight at 7:00 and Saturday afternoon at 1:30 p. m.

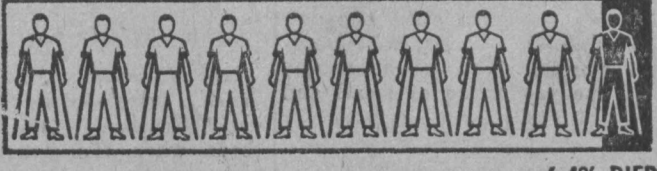

MARCH OF DIMES HELPS REDUCE POLIO DEATH RATE

1916 First major epidemic (27,363 cases) recorded in U. S.

26.2% DIED

1949 Largest epidemic (42,366 cases) ever recorded in U. S.

6.4% DIED

The significant reduction in the polio death rate during the past few decades is attributed by the National Foundation for Infantile Paralysis to two factors: 1) more accurate reporting of less serious polio cases in recent years and 2) the greater development and availability of improved treatment methods and equipment made possible in large part by the March of Dimes. January is 1952 March of Dimes month.

Alton Y. Bennett Appointed Chairman Of County March of Dimes Drive

State Chairman, former U. S. Senator George L. Radcliffe, announced that all county chairmen for the approaching 1952 March of Dimes drive have now been appointed.

Judge Alton Bennett will be in charge in Frederick County.

Chairman Radcliffe reports that, by the end of September this year, the National Foundation for Infantile Paralysis had distributed more than \$6 million in emergency aid to 850 chapters in 45 states where polio outbreaks had depleted funds.

During this same period, the national organization dispatched

more than 300 respirators and approximately 700 nurses to these badly stricken areas.

The National Foundation is the only voluntary health agency in the country which provides financial aid to patients on a national basis.

Since the Foundation got under way in 1938, it has been able to increase to 900 the number of hospitals willing to take polio victims. Before this, fewer than 300 hospitals would admit such patients.

The 1952 March of Dimes campaign will officially open on Jan. 2, and continue through Jan. 31.

Luncheon Scoops

by Wendy Warren

Among the guests of the Cleveland, Tenn. Deer, Boar and Bear Hunt Club at their annual hunt, staged in North Carolina's Santeehlah Forest, were General Jonathan Wainwright, Col. Holman, Gen. Wainwright's former executive officer, Gen. King and John Lair, the genial host of Renfro Valley, Ky.

According to John Lair, veteran woodman and hunter, the boars were easily the most dangerous of the game they hunted—and usual advice to hunters when shooting one of the ferocious animals is, "After you shoot, don't wait to see if you hit him—just take to the nearest tree!"

Held in 16° above zero weather, with eight inches of snow on the mountain tops, the hunt was a rugged one, but much enjoyed by everyone. It wound up with a big square dance for the huntsmen and their wives, in Fontana Village, the headquarters of the hunt.

O'Connor Reports From Washington

Passage of pending measures to effectuate the remaining proposals of the Hoover Commission is one of the major tasks facing the second session of the 82nd Congress, Senator Herbert R. O'Connor declared this week.

Although more than 50 per cent of the Commission's recommendations have been enacted into law up to this time, Sen. O'Connor pointed out, including the most important reorganizations, there are 60 separate legislative proposals still pending. In these major improvements in government functioning are sought through reorganization of the Departments of Agriculture, Post Office, Interior, Commerce, Treasury, and Veterans Administration, which latter program includes consolidation of all veterans' insurance activities in a government corporation within VA.

Of the 20 legislative proposals now pending in the Senate, O'Connor has sponsored seven, and is a co-sponsor of seven others.

The Maryland Senior Senator voted for every one of the Hoover bills given approval by the Congress and acted as floor manager for several of the measures in the Senate. Estimates by the Citizens Committee for the Hoover Report place the annual savings to the people of America at \$2 billion, as a result of the recommendations already implemented through legislation, Presidential reorganization plans or otherwise.

"It would be no exaggeration to state," Sen. O'Connor declared, "that the administrative improvements and the savings in administrative costs effected by the Hoover recommendations already approved represent possibly the greatest advance in government functioning for any similar period in the nation's history."

"Instead of being laggard in its duty with regard to the Hoover program, Sen. O'Connor continued, "as some citizens and organizations have felt at times, the passage of so much legislation of positive worth in so short a period of time has been a remarkable achievement."

"When one takes into consideration the painstaking and time-taking efforts reflected in the preparation of this legislation, and the great amount of time consumed in hearings on various of the bills, the time schedule achieved has been most gratifying. As an instance, it can be cited that Public Law 152 of 1949, known as the Federal Property and Administrative Services Act, entailed consideration of a dozen separate bills. Proposals of the Hoover Commission, of the Administration and of individual members of Congress were all considered and there, together with the hearings and the necessity for repeated redrafting of the measures and their final consolidation into one bill, required 5½ hours.

"In like manner Public Law 784, of the 82nd Congress, known as The Budget and Accounting Procedure Act of 1950, required 16 months of consideration and action before it was finally approved by the President. That this Act has been acclaimed by Comptroller General Lindsay Warren as 'the greatest advance in government financial operations within the last 30 years' would seem to justify the many months of effort devoted to its passage."

Poultry Production Will Rise in 1952

The poultry industry can expect another banner year in 1952, according to latest figures of the U. S. Dept. of Agriculture.

Increased production of eggs and broilers is expected and turkey production may exceed the 1951 level, which was a record high. Indications are that the strong demand for poultry products will continue and prices are expected to average about the same.

While the total value of poultry products in 1952 may be as much as five per cent higher than the estimated \$4 billion for 1951, costs will also rise and net returns to producers may be a little lower.

Commercial broiler production will probably continue its long-time increase, assisted by the new aureomycin-vitamin B12 feed supplement, which helps bring birds to maturity faster and on less feed. Broilers today are supplying almost half of the nation's chicken meat, compared to a negligible amount 15 years ago.

Turkey growers are expected to raise more small birds, which are proving popular and economical for year-round use. A record 52.8 million turkeys were produced in 1951, and indications are that the production of small and large turkeys will increase in 1952.

Treat Land for Pests
More than 12,000,000 acres of land were treated by the U. S. Fish and Wildlife Service in 1950 for elimination of gophers and other rodents.

Carbon dioxide for making dry ice can be obtained from petroleum.

THE AMERICAN WAY

Why Inflation Runs Rampant

MARYLAND FARM FRONT

Each year the USDA announces crop goals to help farmers plan their farm operations so that the overall national food production program will fill the national needs. According to Joseph H. Blandford, chairman of the Maryland Production and Marketing Administration State Committee, these goals serve as guides to help avoid overproduction in some commodities and under-production in others.

Mr. Blandford says the following goals have been prepared for Maryland crops:

Corn for 1952, a 3 per cent increase; soybeans, nine per cent increase; potatoes, both early and late, 10 per cent; both sweet potatoes and vegetables for fresh market, none. Other 1952 goal increases are barley, seven per cent, and wheat, three per cent. Crops which will be reduced are tobacco, 10 per cent; oats, six per cent; barley, seven per cent.

According to Mr. Blandford, if 1952 price support patterns follow 1951, corn, soybeans, oats, barley, wheat and rye will receive price protection. This protects farmers against loss due to price and assures a small profit, provided the weather is favorable and disease and insects do not damage crop severely.

More Grass, Less Grain
In view of the prospective shortage of grain for livestock feeding during the next several years, the following statement by Dr. W. W. Myers of the Agricultural Research Administration, USDA, is of particular interest to Maryland farmers who during the past several years have been switching from tilled crops such as corn, to high quality grass and hay, says Dr. Myers.

Improved Pastures Could Increase Beef
Improved pastures could increase the amount of beef produced in this country two to three times. In the humid area east of the Great Plains there are about 230 million acres of open grasslands in this area were mated conservatively that an additional 10 to 15 million tons of beef could be produced annually from forage in the eastern humid area if the 230 million acres of open grassland in this area were improved to the extent possible with existing information and if an additional 70 million acres of abandoned and submarginal cropland were converted to improved grasslands. That is two or three times the present annual beef production for the whole country.

New Foreign Aid Grant Seen
An urgent request from France for speedy dollar assistance from the United States has heightened the possibility that the Administration may ask Congress early next year for a special foreign aid appropriation, Washington officials reveal.

Speaking of Courtesy
School officials of Sunnyside, Wash., were forced to halt a panel discussion at the high school there when the panel members "became too noisy and uncontrolled." The discussion topic: "Courtesy and Manners."

Propaganda Offensive
Asst. Sec. of State Edward W. Barrett asserts that Russia is "mounting a gigantic propaganda offensive" against the U. S. in the field of cultural relations.

Homemakers

Turkey Curry

For a delicious "after-Christmas" repast, you can't beat Turkey Curry. It will pep up the leftover holiday meat as nothing else can do. It's simple to make, too.

Start out by browning one four-ounce can of drained mushrooms in ¼ cup butter or margarine. Now add ¼ cup flour, one teaspoon of salt, and cook until bubbly. Pour in 1½ cups of liquid, either broth, mushroom juice, coconut milk or water. Also pour in ½ cup of top milk or cream. Continue cooking, stirring the mixture constantly until it is uniformly thickened.

Now add two to three cups of diced cooked turkey, ½ cup of grated or finely chopped fresh coconut and one teaspoon of curry powder. If your family's taste runs to highly seasoned foods, you may add more curry powder.

Next add ½ teaspoon of ginger, ¼ teaspoon of celery seed, and ¼ teaspoon of white pepper. Cook for 10 to 15 minutes longer over simmering water in a double boiler or over low heat. Stir occasionally to keep the mixture from sticking to the pan. Serve over four to six cups of hot cooked rice. Right here it might be well to say that 1½ to 2 cups of raw rice will make the amount of cooked rice desired. This Turkey Curry recipe yields six to eight tasty servings.

Fans Help Kitchen Cleaning
Did you know that an exhaust fan can help keep your kitchen clean? An exhaust fan in your kitchen will remove quantities of vaporized cooking fat as well as the accompanying smoke and steam. As proof of this, notice the fat and grime that collect on your fan at regular intervals. It is wise to turn on your fan when cooking, frying, and baking, even in the wintertime. The extra cleanliness of the kitchen will more than compensate for the small amount of hot air removed.

ABIGAIL

(Continued from Page One)

a thunderous ovation is rendered. Many of the merchants, who gave \$5 each to help the Lions Club put the affair over, stated that they thought it was the best way they ever invested five bucks. I most wholeheartedly concur with their exclamations and beliefs. After all, what is Christmas without children around and happy? May it always remain an annual affair and God bless those responsible for the human kindness in making the event a reality. Happy New Year to you all!

World production of crude oil totaled 3.5 billion barrels in 1950, or 11.5 per cent more than in 1949.

Drive to Aid Arthritis Victims

Persons suffering from arthritis in this country represent a burden of \$1 billion annually to themselves and those who help them.

This gigantic bill is revealed by Clarence W. Miles, president of the Maryland Chapter of the National Arthritis and Rheumatism Foundation. Mr. Miles is presently engaged in exerting efforts to secure funds from persons all over the state in the annual drive for aid to combat arthritis and rheumatism.

"That huge figure includes \$840 million lost annually in wages by victims so incapacitated that they represent the equivalent of 320,000 persons unable to work," Mr. Miles said.

"Another \$130 million is spent each year by taxpayers to provide relief for the disabled workers. The third figure in the item comes to the \$100 million spent personally and institutionally for medical care for the victims.

"When we are assured by medical authorities that about 70 per cent of these patients can be returned to useful and active living, if given the benefit of present methods of therapy, Marylanders can realize what a successful arthritis and rheumatism campaign can mean to the many thousands of afflicted in this state."

The Maryland chapter is seeking but \$50,000, of which \$30,000 is to be raised in Baltimore. This money will be put to work on behalf of the arthritic and rheumatic clinics to be set up in the counties.

Consumption of diesel oil by railroads in 1950 increased 30 per cent from 1949.

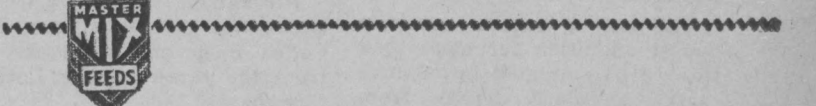

THAT'S THE STUFF THAT'S MAKING YOU GROW BIG SO FAST!

Feed MASTER MIX PIG-ETS

This Special Feed FOR BABY PIGS MEANS FASTER GAINS

BABY PIGS like your own babies need their own special food! Feed experts now know which nutrients pigs require from birth to weaning to build strong bodies, have good health and gain weight fast. That's why Pig-Ets have been developed especially for the "young 'uns." Feed 'em Pig-Ets at the proper time and you'll send more pigs to early market.

FIGHT INFANTILE PARALYSIS

Babson Says '52 Defense Orders Will Be Fewer

By ROGER W. BABSON
1—Excluding defense orders, the total business volume in 1952 will be less than that for 1951.

Government Controls
2—The outstanding feature of 1952—barring all-out war—will be the Presidential Election on Nov. 4, 1952.

3—The Administration and its economic advisors appear firmly convinced that radical inflation is about to break out next year.

4—Farm income will continue high in 1952.
5—As 1952 wears on, the effect of controls, increased taxes, and high prices will cause a decline in legitimate business.

6—If in 1952 it becomes evident that business is declining too much as a result of government curbs, the planners at Washington will rush their patient into an oxygen tent.

Labor Outlook
7—Many labor groups will be successful in getting another round of wage increases in 1952.

8—Tightness in the labor supply will continue through 1952, particularly of highly-skilled workers.

9—The Taft-Hartley Law will not be repealed during 1952, but may be amended.

Commodity Prices Will Remain Firm
10—Wholesale prices of many commodities will suffer a mild decline in 1952 when compared with the price level of Dec. 31, 1951.

11—Commodity speculation for a rise will not pay in 1952. Furthermore, our expanding stockpiles of strategic materials present a real price threat in the event of a peace scare.

12—The cost of living will remain high during 1952. This prediction recognizes that living costs next year may continue above the lower levels that existed during the first half of the year now closing.

Farm Outlook Good
13—Congress will not take any action during 1952 to legally bolster so-called Fair Trade price maintenance. It's too risky politically when consumers are complaining about the cost of living.

14—Barring crop failures, the total supply of food available should be larger in 1952 than for 1951, since the government will raise planting quotas as part of its attack on inflation.

15—With prospects good for a rising supply of feed grains, most meat should be more plentiful next year than in 1951.

16—The burden of Federal taxes, both corporate and personal, will not be increased again during 1952 above the advance late in 1951.

17—The above forecast is based on the assumption that unless Stalin starts World War III during the early months of 1952, he has made up his mind to forget World War III until the U. S. Allies again "go to sleep."

18—There are three ways of increasing inflation: (1) increased government spending; (2) decreased spending; and (3) as a last resort, increased taxes.

19—States and municipalities will again be under pressure to find adequate sources of revenue. Further increases in sales taxes by states and municipalities can be expected for next year.

Domestic Trade Uncertain

21—Credit curbs will continue to hold the demand for automobiles and certain household equipment. Completions of fewer dwellings will also act as a damper on furniture sales.

22—Falling demand for hard goods should stimulate the public's spending for food and lower-priced soft goods.

23—The above trend forecast will mean a decline in department store volume. I predict a rise in the sales of variety and drug chains.

Foreign Trade Outlook
24—I believe that armament is to become a new and permanent industry, at least for many years to come.

25—Barring new war developments, I look for continued shrinkage in our civilian exports during 1952.

Public Sale

OF VALUABLE REAL ESTATE AND PERSONAL PROPERTY

By virtue of an Order of the Orphans' Court of Frederick County, Maryland, signed the 28th day of Nov., 1951, and pursuant to the power and authority contained in the last will and testament of George V. Lingg, late of Frederick County, deceased, the undersigned, acting as Agent for the Executors, will sell at Public Sale on the premises on East Main St., Emmitsburg, Md., at 1:00 o'clock sharp, on

SATURDAY, JAN. 12, 1952 all the personal property and real estate of the late George V. Lingg.

The personal property consists mainly of household furniture and housekeeping equipment, namely: Dining range, wood or coal; 6 dining room chairs; 4 kitchen Windsor chairs; upholstered living room suite, in fine condition; 1 single metal bed; 2 double metal beds; 1 double wood bed; 6 rocking chairs; odd chairs; old mantle clock, washstand set; several stands; 2 tables; 3 antique bureaus; icebox; buffet, lamps, washstands; electric fan; electric waffle iron; 3-burner kerosene stove; bed clothing; kitchen utensils and many other articles not named.

The real estate consists of a lot on the south side of East Main St., in the town of Emmitsburg, Md., adjoining a right of way and the lot of Dr. James H. Allison on the west and the lot of Harry R. and Marie Gelwicks, on the east, and is improved with a two-story brick, metal roof dwelling containing 7 rooms, bathroom and hot water heat, hardwood floors downstairs. Frame garage on rear of property. This is the same property described in a deed from Rhoda E. Simons to George V. Lingg and Ida C. Lingg his wife, as tenants by the entireties, which deed is dated August 30, 1923 and recorded in Liber 346, folio 94, one of the Land Records of Frederick County, Md.

Terms of sale: Personal property—Cash. No goods to be removed until settled for. Real estate: 10% of purchase price to be paid at time of sale, balance upon ratification of the sale when possession will be given. All costs of conveyancing, including revenue stamps and recording fees to be borne by the purchasers. Taxes and insurance will be adjusted to date of settlement.

J. WARD KERRIGAN, Agent for executors of estate of GEORGE V. LINGG, Deceased John F. Kelly, Auct. 12-21-51

ROSENSTEEL LIQUORS Center Square Emmitsburg, Md.
When the time whistle blows remember our wish to you for a tip top year to come with good health and happy days ahead.

26—Except for war supplies, it will become more difficult to convince Congress that additional heavy credits should be granted abroad.

27—Many domestic manufacturers will feel increasing competition from foreign merchandise. A cry for increased tariff protection will be heard; but no radical tariff legislation will result.

More Deficit Financing
28—The first quarter of 1952 may actually see a budget surplus as a result of high national income and increased taxation. But, a Federal deficit will surely arise during the balance of the year.

29—Government loans will gradually increase during 1952 and there will be some strengthening of basic interest rates.

30—Government bonds will continue to be held tightly between the floor of Federal Reserve support purchases and the ceiling of Federal Reserve anti-inflation sales. Under such conditions, price changes should be negligible during 1952.

31—While Canada and South Africa have permitted "free markets" or revaluation of gold, because of increases in costs of production, the administration is still opposed. The Gold Stock of the United States is, however, likely to be revalued upward when the nation, in the opinion of government economists, "needs another shot of inflation."

Stock Market and Bond Outlook
32—Until the danger of war is past, wise people who can easily do so will move out of large bomb-vulnerable cities and avoid having investments in such areas.

33—Sometime during 1952 stocks will sell lower than current quotations. This applies especially to oils and certain "blue chips."

34—Stocks now in the best position for 1952 should be many of those that have not been popular as inflation hedges in the past months. I like good chain variety store stocks, certain movie stocks and possibly the air-transportation issues.

35—Investment trust funds, pension funds, and insurance companies may provide an excellent backlog of demand for sound income stocks where good values can be demonstrated.

36—Successful investors of 1952 will be those who have the patience to follow a carefully planned investment program. Such a program will emphasize diversification, not only by company and industry, but also by quality and cash.

37—Highest-grade taxable corporate bonds should hold in a narrow price range during 1952, but I see no reason for individual investors to buy them unless they are convertibles.

38—With present high income taxes, tax-exempt bonds should continue in good demand. Investors should see to it that their bond maturities are carefully diversified, with some part of their bond funds maturing each year. As there usually is not a good market for tax-exempts when an estate is liquidated, it is wise to hold only such bonds as will mature near the time of one's probable death.

Real Estate Activity
39—Much of the recent real estate boom was the result of easy credit—almost nothing down and small payments for years hence. Under the recent legislation there will be fewer small homes built in 1952; but some credit restrictions will be modified. Mortgage money should soon be had on more liberal terms.

40—Non-essential commercial building will be hit in 1952—but, barring World War III, controls will be lessened rather than increased.

41—The decline in new building will continue to throw a wet blanket over speculation in vacant suburban lots during 1952.

42—The scare caused by the Korean-China War and fears of an early outbreak in other sections will adversely affect the demand for big city real estate. This fear, however, is declining and many who had put their city properties up for sale are withdrawing them.

43—Small sustenance farms should hold up well in price as these continue to be valuable inflation hedges. Demand for large commercial farms, however, should weaken as the year progresses.

44—Any swing back toward rent control will act as a further damper on new apartment house building. There is as yet no incentive to build homes for rental income, although rent control is gradually lessening.

45—Tighter credit controls will make it more difficult to improve older residential properties. Hence, the prices for these should weaken even though these are now the best buys.

46—Volume of money and credit in circulation will continue to increase to about the peak of a few years back. The big rise has been in credit. Much of the credit increase is "secured" by commodity and property values that can shrink greatly when defense

spending ends.
Defense Orders and Politics
47—Those who can do so should attempt to get defense orders if needed to hold up production volumes and reduce overhead. Not too much profit from such war business should be expected. These contracts will be subject to tight-fisted renegotiations.

48—The political outlook for 1952 will be completely dominated by jockeying for position in the Presidential race for 1952. Bring World War III, Congress will pass very little new legislation except some sops to labor and the veterans.

49—Congress will still be dominated by a conservative coalition of Northern Republicans and Mrs. Genevieve R. Elder is spending some time visiting in Silver Spring, Md., with her two daughters, Mrs. Dora Paidakovich and Mrs. Yvonne Wiegand.

Southern Democrats. This North-South coalition will still be able to curb onslaughts by New Dealers.

50—Democrats, as well as Republicans, in Congress are making every effort to avoid antagonizing farmers. Again in 1952—as in 1948—the farmers will hold the balance of power in the Presidential and many Congressional elections. Midwest states can make or break the Presidential candidates. The labor is vote is overrated.

BABSON

Writes . . .

By ROGER BABSON

BABSON PARK, Mass., Dec. 27—Investors and others are now going crazy over "inflation." Brokers and merchants are saying that the dollar will become of little value. It would have been sensible to talk this way in the thirties; but then no one could interest people in inflation. Most people usually act at the wrong time about everything. Stock Market and Retail Trade Brokers make their living by selling stocks, and they have found that the easiest way to sell stocks today is to get people scared about inflation. The idea is that as the dollar decreases in value the price of stocks should increase. This may or may not be true—but the real question is whether the dollar will further decrease in value during the next few years. The dollar is fully as likely to hold its own or perhaps become more valuable.

Since the Korean War broke out, the country has been on a spending spree. People have been urged to buy houses, refrigerators, washing machines, and even furniture, with the idea that money invested in "real things" is safer than money in the bank. This might be true if we can agree on what "real things" are. With the constantly increasing new inventions and changing styles, the only "real thing" is good land, properly located near growing communities. It would be a good thing if the banks would unite to sell cash as the dealers organize to sell cars.

History Of Inflation
Inflation has nearly always been with us. From the earliest days, when kings increased their spending money by clipping a little gold or silver off the coinage, inflation has been going on. It is true that, in terms of 1935-39 values, the dollar is now worth only 54 cents, compared with 104 cents in 1934; but in 1926 the dollar was worth only 79 cents, after which it came back satisfactorily to the above-mentioned 104 cents. During all these centuries, the business cycle has gone on, just the same, irrespective of inflation.

There are several reasons for having larger bank accounts: (1) to have cash on hand to take advantage of the bargains in stocks and merchandise when the next crash comes; and it surely is coming some day; (2) to properly diversify one's securities. Bank deposits should be considered an investment, the same as stocks or bonds. As the value of one's stocks increases, one should increase his bank account proportionately in order to have proper diversification; (3) to have sufficient funds on hand to pay estate taxes after death. Too many families are not doing this; hence it will require a mortgage on the home or a sale of the business to pay these taxes. A person 65 years of age should start a special bank account to accumulate funds for his "death taxes." Every year this fund should be systematically increased.

Cash and Patience
I have had the responsibility of supervising literally billions of dollars of investments. The greatest profits which I have witnessed have come not from buying some definite stock which everyone agreed "looked good," but from buying at the right time. This required good old-fashioned cash and patience. Many an old small-town New Englander who knew little about finance has become a millionaire by merely storing up cash in times like the present, and having the patience to wait for the right time to buy good securities.

It is true that the quoted

Candlelight Service
The Mt. Tabor Sunday School presented a Candlelight Service on Sunday evening, Dec. 16. The following program was presented: Prelude processional, "O Come All Ye Faithful"; chorus, "First

value of cash today is low compared with the quoted prices of houses, commodities and merchandise; and some day will see this situation reversed, when the value of cash will be higher than the prices of houses, furniture, and all kinds of merchandise, including government bonds. There have been times when I have even walked up and down State Street, Boston, trying to borrow fifty per cent on government bonds, and every banker laughed at me. Of course, I believe in government bonds, but remember that you can even now get the benefit of them at a discount of 25 per cent by buying certain bank stocks.

Noel"; invocation by Rev. Know Your Social Security Better

By ED. R. YOUNG

Hagerstown Social Security Office

If you work for yourself, you may need a social security account number when you file your income tax return for 1951, according to W. S. King, manager of the Hagerstown Social Security offices.

Mr. King said that the 1950 amendments extended old-age and survivors insurance coverage to all self-employed persons except farmers and members of certain professional groups, such as doctors, lawyers, architects, engineers, public accountants, and funeral directors. Even farm operators, or people self-employed in the excluded professions are affected if, in addition to their regular work, they engage in a self-employment enterprise covered by the law. For example, a doctor who also operates a drugstore, or a lawyer who is also self-employed as an insurance broker. If you are covered by the law, you'll have to pay a social security tax when you file your

Federal income tax return for 1951, unless the net earnings derived from your trade or business are less than \$400 for the taxable year. Payment of the tax is mandatory if you meet the requirements; however, only the first \$3600 of your net earnings will be taxed. The tax rate for 1951 is 2 1/2 per cent for self-employed persons, and the tax must be paid in full when you file your 1951 tax returns.

"Some self-employed persons will be able to retire as early as Jan. 1, 1953, and receive a benefit," Mr. King said. "For example, a person who reaches the age of 65 by January 1953 will be eligible for retirement benefits, if his net earnings are \$400 or over in each of the years 1951 and 1952.

Self-employed persons who do not already have social security numbers can get them from the Hagerstown office of the Social Security Administration. If a number was assigned previously, however, a new number is not required. Mr. King said that his office has just received a supply of a new booklet called "Do You Work For Yourself" which explains social security for the self-employed. Any interested person can obtain a copy free by writing a letter or postcard to the Social Security Administration, 74 W. Washington St., Hagerstown.

Mr. and Mrs. E. R. Glass, Mr. Roy Glass, and Mr. Clarence Wilson of Taneytown, attended the funeral of Mrs. James Gouding at Gate City, Va., on Dec. 5.

Vincent E. Brewer, USN Air Corps, Wash., D. C., and Charles Allen Brewer, Army Air Corps, El Paso, Tex., are spending the holidays with their father, Mr. Samuel D. Brewer. Another son, Samuel L., Army Air Corps, has departed for service in Germany. Miss Sue Hays arrived home this week to spend the Christmas holidays with her parents, Mr. and Mrs. James T. Hays of W. Main St. Miss Hays is a student at Marion College, Marion, Va., where she is a senior in the college preparatory department.

Mr. and Mrs. Charles Hoke, of Oklahoma, are visiting during the holidays with Mr. Hoke's father, Mr. Henry Hoke, near town.

LOOKING AHEAD

by **GEORGE S. BENSON**
President—Harding College
Searcy, Arkansas

Our Gravest Dangers

As we enter a new year grave problems and dangers confront our nation. The gravest danger of all, however, lies in the fact that so many Americans do not recognize nor understand the true situation. Many have been lulled into a "fool's paradise." Haven't we just experienced one of the freest-spending Christmases in history, they ask; aren't work opportunities plentiful, wages high, hours short; and haven't our government leaders been assuring us that the state-of-the-nation is good, the future still bright in spite of clouds? Well, what are the factual facts?

After winning World War II just six years ago at great cost in lives and resources, and then losing the peace, we are now in a shooting war with the Communists which our military leaders say we cannot win at the present time. The stalemated, unending, half-way war in Korea is bleeding us of our finest manhood. Korean losses: 101,000 casualties; an estimated 6,000 American prisoners of war brutally slaughtered.

Hard-to-Take Facts

Russia now rules a billion people, she has the atom bomb and a bigger and perhaps better air force and submarine fleet than have we. A powerful Communist Fifth Column in America has been permitted to steal our military secrets and ready to sabotage our factories and transportation systems when Stalin gives the word.

Our government is taking approximately 30% (\$1 out of every \$3) of the national income in taxes; citizens are working one-third of their time, on the average, to pay taxes. The national debt is \$260 billion—about \$7,000 on every family in the nation.

Inflation is crippling the purchasing power of the dollar; in fact the dollar is worth less today than at any time since the Constitution was adopted 162 years ago. Inflation is undermining thrift, endangering our whole economic life. And government policies are feeding inflation, not heading it off.

The "Gimmie" Disease
Nearly 25,000,000 people are now regularly getting checks from the government. More and more people are getting the "gimmie" disease. The virtue of self-reliance, which built America, is becoming a casualty of the times.

It now requires 2,500,000 civilian workers to staff the Federal bureaucracy. The salaries alone amount to \$8 billion a year—nearly two times the total Federal taxes collected in any year before 1940.

Studies made among school student bodies in many sections of the nation in 1951 indicate that our schools and colleges are turning out a generation of young men and women who, while qualified along special lines, are not well educated, are not aware of the comparative advantages of the American economic system, do not understand how it works, and are therefore easy marks for the propagandists seeking to change our way of life into a government-operated welfare state. Nationwide polls show the adult public to be woefully uninformed on economic facts.

Morality in public life has plunged to the lowest level in our history. LOOK magazine published an article entitled "Scandalous Years in Washington." Congressional committees have heard testimony that Federal taxes in many sections have been "fixed" for political favorites and for bribes. Gangsters and racketeers have gained political respectability thru party contributions. Corruption, dishonesty and dishonor have made a winding dirty trail thru the government. Political parasites, plying their trade in Washington with the assistance of high officials, have become rich. Few have been brought to the bar of justice.

Yes, the problems and dangers confronting our nation are grave. And the gravest of all is public apathy. If I were permitted three wishes for the New Year they would be: (1) for a rebirth of spiritual values, a rededication to Christian principles, a truly righteous uprising against corruption; (2) the cutting in half of the huge flow of tax money into Washington. Like sugar, a big lump of money draws flies—green flies off the refuse dump—and the germs they carry pollute and contaminate the nation. The power to tax has become a destructive force. We must control it and drive off the green flies. The third wish is (3) for the outlawing of the great conspiracy against America—the Communist Party!

FILM COMING TO MAJESTIC THEATER, GETTYSBURG

— Warbler Bob Crosby. In "Two Tickets to Broadway," Vocalist Bob Crosby is featured with a chorus. His selection in the big show in color by Technicolor as presented by Howard Hughes is "Let's Make Comparisons." Headliners are Tony Martin, Janet Leigh, Gloria De Haven, Eddie Bracken, Ann Miller and Barbara Lawrence. The film will show at the Majestic Theater in Gettysburg, Pa., on Thursday, Friday and Saturday, January 3, 4 and 5.

Knowledge is Power

1. HOW SOON ARE YOU IN THE ARMY?
2. WHAT CAUSES AN ANIMAL'S WINTER SLEEP?
3. CAN DOPE TRAFFIC BE STOPPED?

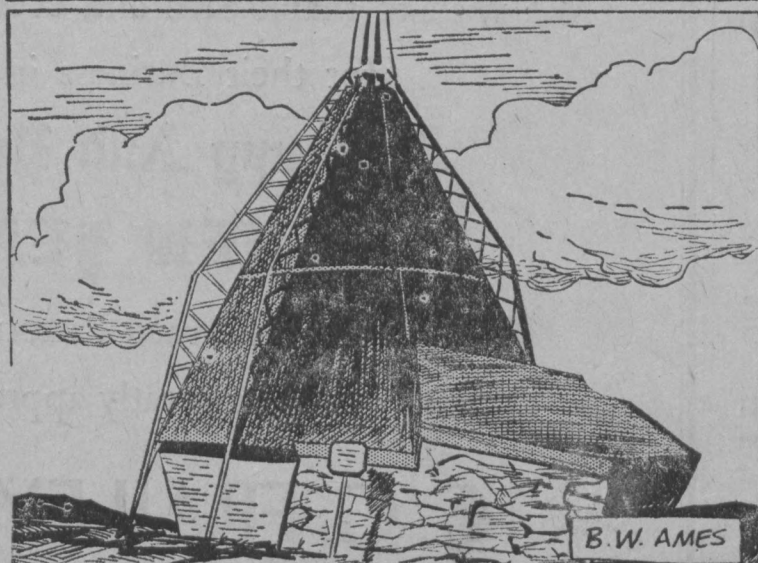

(1.) You're in, completely, in 100 hours, according to Richard B. Gehman, in "21" magazine. It takes that long to get a man in place. Your records are checked, you are assigned to a company, inspected physically, issued raincoat and fatigue hat, blankets, sheets and bunk. There's a hot meal within two hours. Your \$160 worth of clothing, including an Eisenhower jacket, is fitted by a tailor. Your commanding officer tells about your duties. Your chaplain describes the recreational and religious activities at the post. The articles of war are read. There are many lectures, all interesting, all important. And you get \$10 on your first pay. It takes less than four days.

(2.) Edwin Way Teale in "Coronet" magazine says that "although scientists have studied the mystery of hibernation for hundreds of years," it is still unsolved. Like the riddle of migration, the hidden causes are unknown. Hibernation seems to be nature's scheme of keeping alive more creatures than there is food for. The fastest animals sleep longest. Breathing almost stops. Body temperature falls—sometimes to as low as 37° F. After 16 weeks of it, and in a few hours, the animals awake and are ready for another year.

(3.) According to Senator Estes Kefauver in "United Nations World" magazine, the dope ring is a U.N. problem. Such high profits are involved that a great international crime ring has been formed. No one nation can stop or catch all smugglers, but all together can. And that is what is being done now with the help of police of individual nations who get information and help from a committee of the U.N.

From stories and articles appearing in the December Catholic Digest.

LOOKING AT RELIGION

NEAR EDMOND, OKLAHOMA, THERE IS A NEWLY CONSTRUCTED CHURCH SHAPED LIKE A WIGGAM, COSTING \$50,000. THIS BAPTIST CHURCH IS LARGE ENOUGH FOR ITS 229 MEMBERS, AND WAS BUILT BY THE PARISHIONERS WHO WORKED ON IT EVENINGS.
