Most Anything At A Glance

-- BY ABIGAIL

We were actually startled this week when we learned that the first legal act of the new State Legislature was to raise their expense accounts about double the original sum. Apparently the boys were bent on recouping some of their recent election expenses. Great pressure must have been brought to bear on the group however, as they quickly reversed their attitude and rescinded the order thereby drawing the same money as previously. We understand the new Governor was highly displeased with the action of the legislators and told them so in no uncertain terms.

With most other towns experimenting with zoning ordinances I feel it is about time that our own community took a look into the future and accordingly design some zoning laws of its own. A number of towns has been working in harmony with the County Planning and Zoning Commission in an effort to set up some sort of protection for home owners in their communities. At the present time there is no such ordinance in effect here and I feel that one should be drafted in the very near future.

A number of disputes or contentions have arisen over the value of land in these parts as the State Roads Commission commences its roadbuilding program in this section. The new Route 15 now being constructed from south to north comes in for its share of disgruntled property-owners. The majority feel that they are not being compensated highly enough for the loss of their property being confiscated. They are entitled to their own opinion of course and the only way the matter can be settled is by official hearings. A number of appeals already has been entered in the area and this number will increase greatly I imagine when the final leg in the construction is effected possibly in the next year or so when the town will be completely bypassed with the new Route 15 leading from Washington to state line. the Pennsylvan have contended all along that where the intersection of Route 15 and State Route 97 intersect just east of town will become the up and coming area of the town. New homes and businesses will follow a natural course and locate along or near the new highway, therefore any plans for the development of this area should be taken with intelligence and forethought as someday in the near future I imagine, this area actually will be the new "Square" of the town.

I marvelled at the way our local Fire Company handled a field fire Sunday. In a few short minutes the fire laddies had the situation under control. Until they reached the scene about 20 acres of grass and trees had been devastated. Fire - fighting crews went to work immediately and despite the high wind had the conflagration under control in minutes. The lads really take their work to heart and the equipment was deployed expertly. Had the company not had the modern equipment and know-how, serious damage could have occurred to nearby homes. The boys serve without pay and no matter how bitter cold the weather or how difficut the task they do a very commendable job.

Paul D. Simpson, right-of-way agent for the commission, explained to the board by use of Same Tax Rate plats the properties which are being taken. In relation to the Richards and Maddox properties, he said U. S. 15 is being relocated at this point with a right of way of 150 feet plus easements for an eventual dual highway. However, only the southbound lane—nearest to present U.S. 15 -will- be built at this time.

He said there is a small landlocked area of about .09 of an acre in the Richards case. On the Maddox property, there will be a severed area because of the relocation, with no access from either side of the road. The Wivell property, it was indicated, was a triangular portion to the rear of a lot. There are no improvements on any of the prop-

Maintained By Fairfield

The Fairfield borough council recently approved its 1959 budget and set its tax rates, holding the line to the same levy which has applied in recent years. The budget estimates expenditures of \$7,425. The tax rate on real estate was set at 20 mills and on occupations at 15 mills.

The new budget reflects a balance of \$3,190.54 from 1958 and anticipates these receipts: Taxes, \$5,560; taxes from prior years, \$300; licenses and permits, \$50; liquor licenses, \$150; county aid, \$328.02; state aid, \$900, and refunds, \$50.

The anticipated expenditures thus: General government, \$1,300; protection of persons and property, \$2,100; health and sanitation, \$25, and highway construction, Forty-eight jurors for the Feb. repair and maintenance, \$4,000. term of Circuit Court have been A balance of \$3,103.56 is anticidrawn in the presence of Chief pated at the end of 1959. WE FORD DEALERS INVITE YOU TO

Come in and take a picture of your family in a 59 FORD...

We're proud to offer the use of our cars and facilities so you can enter this Sylvania Photoflash Contest

Here's all you have to do: Come in to your Ford Dealer's showroom and actually take a picture of yourself or anyone in your family in a beautifully proportioned 59 Ford. Then send a print of the picture and the triangular trademark from any package of Sylvania flashbulbs to contest officials. The pictures with the best story-telling value, originality, and quality will win the prizes. And the Grand Prize winner gets all three. See your Ford Dealer for complete details today.

Rexall January Economy-

Committee this conclusion: "Economic and military strength of the Moscow-directed one third of the globe is rising steadily. The new Soviet leader's domestic and foreign policies are far more subtle and shrewd than those of Stalin. Most important, the new Soviet policies have been astonishingly successful. It adds up to this-right now, we and our allies are losing the battle against world Communism." Enemy Winning

Invited to participate in the symposium, General Albert Wedemeyer, who during World War II was in charge of U. S. global military planning, was interviewed by Richard Arens, Committee staff director. Arens said, "General, on the basis of your experience, tell this Committee how late it is on the Soviet time-table for world domination." "Sir," replied the General after some deliberation, "My humble judgment is — it is too late. If I were a senior planner advising Khrushchev on his global operations, I would say: 'Mr. Khrushchev, don't you change your strategy, your tactics, your plans one iota, you're winning all over the world."

The Committee brought to Amercia from Germany the leader of the anti-Communist underground in Central Europe, Ernst Tillich. His group is called the Fighting Group Against Inhumanity. Mr. Arens relates: "We asked him how late it was in Europe." Tillich said: "It is five minutes until midnight and the clock is moving fast." Tillich told the Committee that the Communists have within Western Germany alone an estimated 70,-000 to 120,000 Red Agentsworking to bring Socialism back to control, propagandizing the people, waiting for the hour to strike boldly and openly.

Europe Weak Tillich told the Committee that the Soviets could take over all of Europe whenever it suited their global strategy. "They could march to the Atlantic Ocean," he declared, "like Boy Scouts on parade." Arens himself indicated he was obliged, in the face of facts, to agree with this estimate of Soviet strength and Europe's weak-

"Look at Italy, the seat of one of the great segments of Christian civilization," he said. 'There we see 2,000,000 adherents to Communism. In France 22 per cent of the vote is Communist (reduced in recent elections). I was in France a few years ago in the course of one of our journeys to assemble information. We talked with our intelligence officers there. They seemed to be depressed; they seemed to be pessimistic.

Ready To Sabotage "They said, 'You see these various air fields over France which were paid for by American dollars. The arrangement between the United States government and the French government is that the civilian personnel on all these air fields must be French citizens, but our best estimate is that 40 per cent of the personnel now on our air fields are Communist saboteurs.' I asked them this question: 'In the event of a shooting war, what would happen?' 'Simple,' they said: 'Of course, they would turn the air fields over to the enemy. We did what we could to try to bring this to public attention, but the French government and the nation of France is so stunned and hypnotized by this force that they are powerless to cause them to be removed.' It remains to be seen what the De Gaulle government will do about this."

This is the last of a series of columns pointing up the mounting, tremendous dangers to our freedom and prosperity. It is not a pleasant situation to report. People normally don't like to think about unpleasant

HERE'S a chocolate frosting, easy-to-make with sweetened condensed milk in just ten minutes. Creamy smooth, it spreads in luscious swirls. On fresh layer cake, it's a gala dessert with orange it is a special treat.

MAGIC FROSTING 11/3 cups (15-oz. ean) sweentened condensed milk 1 tablespoon orange juice

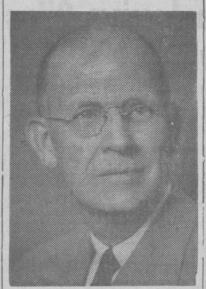

1/s teaspoon salt 2 squares (2 oz.) unsweetened chocolate

1 tablespoon grated orange rind Put sweetened condensed milk,

orange juice and salt in top of double boiler. Mix well. Add chocolate. Cook over rapidly boiling water, stirring often, until thick, about ten minutes. Remove from heat. Cool. Stir in grated orange rind, Cool. Spread on cooled cake.

Heads Nation-wide **Heart Fund Drive**

Industrialist and civic leader Charles P. McCormick of Baltimore has been named to a second year of leadership of the na-New York headquarters of the American Heart Association by Heart president Dr. Francis L.

Chamberlain. Mr. McCormick, under whose guidance the Association raised twenty-two million dolalrs in 1958, will head the 1959 drive to be conducted during February. The campaign is for funds with which to combat diseases of the heart and blood vessels. The Association and its local units carry out activities in heart research, education and community service.

Mr. McCormick has been active in the affairs of the Heart Association of Maryland, beyond his interest in the national Heart program. He is a member of the Board of Trustees of the Maryland unit, and participates in a great many activities of the state Association.

In accepting, for the second time, the national campaign leadership, Mr. McCormick expressed pleasure at the early interest the public has shown in the coming drive. "Indications are that during Heart month this year we shall exceed the high level of enthusiasm and support we enjoyed in 1958.'

Mr. McCormick added, "This unusual vigor among contributors and workers is a clear indication of the public's increasing awareness of the great seriousness of the heat problem, 'and its conviction that the programs of the Heart Association represent our most direct means of

things. Yet our very survival is at stake—on the authority of the best informed men in America. It is time for action by citizens. We must arouse ourselves to demand of our g o v e rnmental representatives that drastic steps be taken to safeguard our nation and that every legislative and executive decision be based on strengthening the sinews of our American way of life-Faith in God, Constitutional Government, and the Private Enterprise Economic System.

MONDAY

MOTHER'S DAY

(AND DOES SHE HATE IT!)

Yes, Monday is Mother's Day . . . Every Monday, Mother knows that it's her day to do the family laundry ... and does she hate it!

Well, does she hate it in your home?

She won't if she knows that the family's clothes will be washed without her having to slop around in dirty water!

Take away this mess and you take the "blues" out of washday for Mom. An automatic electric washer does take the mess and work out of washdays, you know.

Mother just pops the clothes into the machine, sets one dial and then just "sets."

All the dirty clothes are soon fresh and clean and Mother has found extra time to be with her family.

Go on, turn Mondays into fun days for Mother . . . Take another step into the All-Electric Future and get an automatic washer from your local electric appliance dealer or the

POTOMAC EDISON COMPANY

BABSON

Writes . . .

BY ROGER W. BABSON

Babson Discusses A Summary Of Africa

BABSON PARK, Mass., Jan. 15-So many readers of my column have written to me

questions about South Africa,

that I have selceted 16 of the most important and am answering them here. (1) POPULA-TION. The

population of Africa is estimated at 135 million. Of this total, about

5 million are Mullatos, about 3 million English and other Europeans, and about 2 million Dutch, known as Afrikaaners. This leaves about 125 million Blacks, which speak nearly two hundred different languages. This language barrier prevents the Communists from now getting any hold in Afri-

(2) COST OF LIVING. This is high for all groups. Black labor is very cheap, but it is very inefficient. Most articles, textiles, etc., are imported.

(3) L A R G E RETAIL

STORES. These are very attractive and well stocked, equal to the best in any American

city of similar size. There are probably too many small re-The merchants are mostly Jewish, Malayan, and

(4) BUILDING. The Blacks live largely in thatched-roofed mud huts, while most of the white-collar people live in very attractive four - story apartments built of brick tile covered with cement.

(5) HOTELS, CHURCHES, AND CLUBS. These are the same as in any American city of similar size, but much more segregated as to race and inheritance.

(6) FARM LAND. This is very high priced, at \$500 an acre and upward, and can be equaled at \$100 an acre in the United States. This high price is due to the fact that agricultural land lies only in the small valleys between the highlands and mountains.

(7) WEATHER. South Africa has its hottest months ni January and February; and its coldest in July and August, with practically no freezes, except in the highlands. South Africa is fast becoming a winter resort for Europeans.

(8) RAINFALL. Long periods of drought are followed by terrible floods. Someday the floods will be controlled, but not yet. The weather is fine for citrus, with no freezes and much sunshine. Drought is overcome by irrigation.

(9) BANKS. There are sevseveral local banks scattered throughout Africa; but South Africa has only four. Each of these banks has hundreds of branches. I like Barclays Bank the best, but all are equally good. Banks pay 41/2% inter-

TIME AND TIDE

... wait for no man! When opportunity comes your way, it pays to be prepared. It usually takes "cash in the bank" to seize a favorable business opportunity . . . or make an important purchase at an exceptionally low price. The only way to HAVE cash in the bank is to PUT it there . . . on a systematic schedule of saving. Open a savings account here and add to it every week. Then, when opportunity comes knocking on YOUR door, you'll be ready to take advantage of it. When money is needed-you'll have it!

OF FAIRFIELD, PA.

Member of Federal Deposit Insurance Corp. 21/2% Interest Paid on Savings Deposits est on deposits; banks stocks yield 9% to stockholders. I believe these bank stocks offer the greatest opportunity for growth of any in the world.

(10) LARGE CITIES. There are only a few large cities in Africa; but all are having a marvelous growth. Forty - five years ago Johannesburg had only a thousand people, all living in tents. Today the population of this city is over 600,-000, and there are dozens of skyscrapers. My favorite cities are Cape Town, Durban, and

Salisbury. (11) FISHERIES. These are very prosperous, and mostly on the Southwest Coast. Frozen fish and so-called "lobster tails" (crayfish) come into the United States free of duty; but a 45% import duty must be paid on canned fish.

(12) LOCAL INVESTMENTS. When the South African people sell out their mining stocks. they use the profit to build apartment houses for rent. They believe that acreage, business blocks, and apartment houses are the best hedges against inflation.

(13) HIGHWAYS. These are wide and well tarred. Most white-collar workers have automobiles, which are mainly American-made. No oil of commercial grade is now found in Africa. Soft coal exists in great quantities. This is being distilled, and the distillate is being used for gasoline for autos and trucks; the residue is used for tarring the highways.

(14) MINERALS. My reason for visiting Africa was to investigate the diamond, gold, chrome, and copper mines. I was interested only in the richest and longest-lived mines, of which there are not too many. I especially like those whose stocks can be bought by the purchase of American Depositary Receipts and that are listed on the New York Stock Exchange. Too many African mines are short-lived and very speculative.

(15) WATER POWER. Africa leads all continents in undeveloped water power. Three of these possibilities are now being developed. I am especially enthused about the one at the Kariba Gorge on the Zambezi River. This will be three times the size of our Hoover Dam, and has the world's largest man-made lake to supply water in the dry seasons. It will supply power to the copper mines. (16) WILD BEASTS. Africa has the greatest number of wild beasts now remaining on this earth. There is a huge collection in the Kruger Reservation, 300 miles by 50 miles in area. I was unable to visit this reservation, where they all run wild and have equal opportunity to follow their natural pattern for survival; but Mrs. Babson had the courage to go by herself, with a guide. These wild animals offer a suggestion for world peace,—namely, by giving equal opportunities to all creatures. If all men and beasts have sufficient opportunities to eat and to develop, there will be no Communists.

street is a neighbor who was a service has ever been made by pital during the last 12 months tal out-patient costs were close

These men, women and children required nearly 10,000,000 days of hospital care. Another 1,000,000 days of care was provided for infants born in non-profit hospitals throughout Pennsylvania.

The cost of all that care came to about \$205,000,000, the price of a modern aircraft carrier. About one-third of the money (34%) was spent in caring for patients in the wards of hospitals. Getting expert care in the 185 hospitals which report their data to the State were about 150,000 persons who neither had money of their own nor insurance resources to pay their hospital

Totaling all that "Free" care, the hospitals find it amounted to 1,498,224 days at \$18.55 per day, or about \$27,000,000 in 12 months to care for charity patients "Free", of course, applies only to patients, since hospitals must pay their heat bills, purchase drugs, repair their equipment, and find money for the salaries of nurses and other hard - working

employees. To meet the \$27,000,000 per year cost of caring for ward patients the hospitals seek help from government. State - aid of \$12,000,000 per year was appropriated by the 1957 Legislature at a rate of \$9.00 per day. The percentage of total cost covered by the Stat eappropriation was approximately 45 per cent for the first year of the present biennium.

Although 127 of the State-aided hospitals reported over 2,000, 000 dispensary visits last year and 113 hospitals reported nearly 1,000,000 emergency room visits

PRESS

MMMITSBURG MD

DON'T TELL HIM POLIO'S LICKED

Billy was born too soon to be protected from polio by the Salk vaccine. Like thousands of youngsters crippled by polio, birth defects and arthritis, he will need March of Dimes care for years to come. All need your help.

圖圖圖圖 TOWARD GREATER VICTORIES 圖圖圖 回题

In every third house on your no appropriation for out-patient -more than 1,000,000 persons. to \$15,000,000, or an average per visit of \$4.93. However, receipts from out-patients amounted to almost \$8,500,000 for an everage of \$2.81 per visit, making the

average net cost per visit \$2.12. To help meet the deficiency resulting from inadequate Stateaid, hospitals received approximately \$4,7000,000 in local aid. of which \$1,200,000 came from local governmental units and the remainder from United Funds and the like. Many hospitals receive no local aid whatsoever from

these sources. Net approved free days have held steady at 3,000,000 each biennium for the past several periods, and Hospital Association of Pennsylvania anticipates no substantial increase. However, the Association points out that the

Seek Backing Of Mothers In Scouting

Plans for creating a non-uni-Patients stay in hospitals to- formed group known as the

> Mr. Singleton said that the National Executive Board of the Boy Scouts of America has provided this means for the registration of women other than the 304,134 who are now serving and registered as Den Mothers in the Cub Scout program. He said that there are 3400 women serving as Den Mothers in the National Capital Area Council.

"It has been recognized," says Dr. Arthur A. Schuck, Chief Scout Executive of the Boy Scouts of America, "that many women have played and are playing a silent, but important, part in making the Scouting program available to boys of Cub Scout, Boy Scout and Explorer age. Our National Executive Board has voted to provide an opportunity for those women who desire to be come officially affiliated with the movement in other than Den Mother capacity.

We recognize that the Boy Scout movement is, and has al ways been, a boys' movement, under the active leadership or boys and men and that nothing should be done that will detract from this wholesome relationship. We must maintain the boy-man contact."

These women may serve as faculty members of Cub Scout training courses, assisting in organizing and training in connection with Cub Scout packs and assisting in finance and public relations campaigns. They will serve as members of mothers clubs, parents clubs, and auxiliaries of Scout Units. They may serve as merit badge counselors when men cannot be found. They may include women employees of the nation's 532 local councils of the Boy Scouts of America.

Skater Injured Social Security Terrence Byard, 15, son of Mr.

Changes Reviewed The district manager of the Hagerstown social security office Emmitsburg R2, son, Sunday. commented this week on forthsurvivor and disability provisions day. of the amended Social Security Mrs. Phil Tracey, Thurmont,

"The most important changes," said Mr. King, provide a general penefit increase beginning with January checks which will be mailed early in February, an increase from \$4200 to \$4800 yearly in the amount of earnings sub ject to social security tax, and a higher social security tax contribution by employers, wage minster, spent the weekend with her parents, Mr. and Mrs. Henry

Benefit Increase

'roxell.

Final Registration For License Given

fense instructions.

The Department of Motor Vehicles will accept applications for censes from persons, whose last names start with A, B, and C only until January 30, 1959. After that time our records will be destroyed and the applicant will be required to pay the full fee of \$3.50 for a new license. If he can produce his old license, he will only be required to take the eye test and examination on the motor vehicle law. If the license cannot be produced, the full examination, including road test must be taken.

However, under the law "Persons absent from the State because of military service or for other valid cause may apply by mail to the Department for renewal of license, the application to be accompanied by an affidavit stating the reason for absence from the State." The old license and fee of \$1.00 must also be submitted. If the old license cannot be produced, the full examination must be taken and the full fee of \$3.50 paid. This only applies to persons whose last names start with A, B and C.

Farm Bureau Leaders Attend Convention

State Vice-President Noah Kefauver, Middletown, and Director of Organization Kenneth Miller, Easton, were among the 150 farm organization leaders from the 48 States at a two-day National Farm Bureau Conference, Janury 8-9, in Chicago.

The meeting stressed the "what and why" of national Farm Bureau policies and the responsi-bility of each member in helping to attain the policy objectives. Emphasis was placed on many phases of Farm Bureau workcommodity programs, citizenship activities, and Farm Bureau women and young people, as well as the legislative approach. Among the policies dscussed were those related to (1) federal versus state and local responsbilities; (2) budget, taxes and inflation; (3) price support and adjustment program; (4) market expansion; and (5) monopolies and their effects. The voting delegates of the

Maryland Farm Bureau will be briefed of the results of this Conference at the business session of the Convention on Saturday at the Lord Baltimore Hotel in Bal-
