Most Anything At A Glance

BY ABIGAIL

Well now, the interest predicted last week in the coming election is here. Most everywhere you go now the conversation leads around to who will become the next mayor of Emmitsburg. There is much interest on the part of the citizens and I don't believe the candidates have entered the race with hollow intentions. These men really seem to be working in an attempt to come out of it with a victory. While there is only one candidate at the present time for council it appears certain that another will be added to the field before the deadline for filing. This is all good but there is just one thing that disturbs me. Earlier this week there were well circulated rumors about the town that the candidates had made statements about what they would or would not do if elected and what appointments would or would not be made—this is all purely rumor and it should be totally discarded while you contemplate for whom you will cast your ballot. I have talked with each of the candidates and they all deny having made any such remarks—certainly the present mayor could use the powers of his office to change anything he might have found unsuitable about the town operations so the only logical conclusion is that he is satisfied as things are. The new candidates have not made such statements and have stated that they would not do so until such time as they have been declared victorious. Interest is good, looking over the candidates is commendable, and getting the first hand knowledge from each one personally is even better in making the selection as to how the vote should go but let's be fair about it and not let ridiculous statements with no basis of fact influence our final decision. Think—investigate—discuss—and when you make the big decision don't forget to get out and vote!

Officials of the Health Department visited the town this week to inspect the new sewerage plant. They were very much pleased with the set-up and it is presently their intention to use photographs of the plant in guiding other municipalities throughout the state in setting up similar projects. We really have something to be proud of in the new plant and despite all the inconvenience suffered during the installation one must admit that it turned out to be a fine job and a good investment.

Victor Cullen Hospital continues in the news—many organizations locally as well as the town officials have taken a stand against turning the hospital into a training school for boys. There is much opposition to this change and we are indebted to Senator Barrick and the Frederick County delegation for blocking this transition for one year during which time the situation can be discussed further. They have been successful in having any change delayed until after the next session of the legislature. A public meeting is being held at Victor Cullen Hospital on Tuesday evening to hear complaints, etc. It is hoped that all of you who have expressed a feeling of distaste for such an institution in our immediate area will be present for this meeting and express your feelings. Regardless of how strong we feel about the matter, it won't help one bit if we don't express ourselves. If you don't show up at the meeting don't complain if the Frederick County delegation does not have the necessary support to take back to Annapolis to block the move to place the training school in Sabillasville—the delegates are ready and willing to express our feelings in Annapolis, all they ask is that we make our wishes known to them!

License Revoked

The State Motor Vehicle Dept. this week announced the revocation of the driver's license of Morris Mehrl Jackson, R2, Thurmont and also the suspension for one month the license of John Aumen Topper, R2, Emmitsburg. At the same time the Dept. reported it had reissued licenses to Robert Wayne Wilhide, R1, Thurmont and Howard William Liller, R2, Emmitsburg.

Route 15 Work Planned Soon

T. Edgie Russel General Contractor, Inc., of Frederick, was the apparent low bidder when bids were opened by the State Roads Commission in Baltimore Tuesday for construction of a section of relocated U. S. Route 15 near Lewistown.

The Russel firm's low bid was \$396,800.

It is hoped to start work on the project in a few weeks.

The new piece of road which will ultimately become the south-bound lane of the dualized road will be constructed to the west of Lewistown. It will have a paved portion 24 feet wide and 10 foot stabilized shoulders on either side.

Thomas G. Mohler, District Engineer for the SRC, said that the new strip of highway will connect with the present Route 15 just north of the Mountaintale road and bear to the west of Lewistown and then connect with the old road again just north of Mount Prospect Church at the northern edge of Lewistown.

Included in the project will be a three span bridge over Fishing Creek. The bridge is scheduled to be constructed over the stream about 100 feet east of a former roadbed which ran between the Fish Hatchery road and the Bowers road.

It was stressed that there will be access to the new road made possible from the three county roads which are in the path of the new road. However, there will be no private entrances joining into the new highway. Ordinary crossings are planned at the intersection with the county roads and no cloverleafs are planned. Access will be possible only at predetermined locations.

When completed, traffic will come south on old Route 15 from Catoctin Furnace and at the present sharp curve to the left before climbing the hill at the Mount Prospect Church, traffic will continue straight and be carried over the new stretch of road. The sharp curve being eliminated has been the scene of countless accidents over the years.

VFW Auxiliary Installs Officers

The regular meeting of the Ladies Auxiliary to Emmitsburg Memorial Post 6558, Veterans of Foreign Wars, was held at the Post Home last Thursday with 22 members present. Minutes of the previous meeting were read and approved. Several communications were read and bills presented. Ann Marie Kooz reported on the banquet served to the Jaycees in March.

Installations of officers for the new term was held with Mary Hoke as the Installing Officer. The outgoing president, Ann Marie Kooz, was presented with a Past President's Pin. A committee was appointed to help decorate the Post Home for the 15th Anniversary Party on April 22 and they are as follows: Mary Hoke chairman, Etta Mae Norris, Carhen Topper and Betty Ann Baker. It was voted upon to send the usual amount to the local high schools for graduation prizes. Rita Byard made the announcement that she, Gloria Martin, Dolores Henke and Gertrude Joy will hold a card party on Monday, April 17 at 8 p. m. and invited the members and their friends to this affair. Helen Sanders, Idella Fitez, and Hazel Topper will serve the men's refreshments at their next meeting and Corrine Seiss and Marion Timmerman will serve the women's refreshments. Irene Ohler won the raffle and Coleen Lauer's name was called for the door prize but was not present.

Mount Shares Track Meet Honors

Mt. St. Mary's and American University tied for top honors in the 25th annual Catholic University invitational track meet at Washington, Saturday. Both teams racked up 55½ points. Catholic was third with 30 points and Galaudet fourth with 19.

Duncan Bossie, crack Mount speedster, registered another triple as he won the 100 and 220-yard dashes and the broad jump and was also anchor man in the winning 880-yard relay team.

Bill Dolan of the Mountaineers won the high and low hurdles. No new meet records were set. It was only the third time in 25 years that Catholic failed to win its own meet.

VFW ANNIVERSARY PARTY APRIL 22

The Emmitsburg Veterans of Foreign Wars will celebrate its fifteenth anniversary at a social function to be held in the Charles Rowe Annex on the Square on Saturday, April 22.

Post Adjutant Lumen F. Norris announces that invitations to members and Auxiliary members have been mailed and that all acceptance replies are to be returned by April 15. The affair will get under way promptly at seven o'clock with a buffet luncheon, followed at 9 o'clock with dancing.

Music for dancing will be provided by an orchestra from Baltimore.

Student Nurse Honored

A Saint Joseph College junior became the first Maryland nursing student to hold a national office in the 80,000 member National Student Nurses' Assn. Kathleen Driscoll, of Bethesda, Md., was elected recording secretary of the nurses' organization by the students' convention in Cleveland last weekend.

Miss Driscoll has served as recording secretary of the Student Nurses' Council of Maryland and currently holds the office of president of Maryland District No. 1, comprised of Cumberland, Frederick, Emmitsburg and Hagerstown. At Saint Joseph College she was vice president of her freshman class and president of the class in her sophomore year. As recording secretary of the National Student Nurses' Assn. she will report the business of chairman the committee on policy.

Daughter of Dr. and Mrs. Edward Driscoll of 4710 Edgefield Road in Bethesda, Miss Driscoll was graduated from Ursuline Academy where she received the Cross of Merit for maintaining the highest scholastic average throughout high school. A member of Sigma Theta Tau, national honor society of nursing, she is chairman of a special committee to provide tutoring services to undergraduates.

Janice Jaeger, a Saint Joseph College junior from Leonia, N. J., was campaign chairman for Miss Driscoll. Sister Bernadette Armiger, assistant professor in nursing at Saint Joseph College, was the advisor for the student group and will function as Miss Driscoll's personal advisor in her new office. Ten Saint Joseph College students attended the convention as representatives of the college and the district. The group included Carol Johnson, Kathleen Carroll, Ottilie Bouagura, Janice Jaeger, Christina Cramer, Lynn Dunning, Karen Kreiger, Sheila Degan, Sue Boland and Maxine Wallish.

Firemen Name Convention Delegates

The regular meeting of the Vigilant Hose Co was held Tuesday night in the Fire Hall with President John J. Hollinger presiding over the 25 members present.

The delegates named to the annual State Firemen's Convention to be held in Ocean City, Md., June 22-24, were as follows: John S. Hollinger, Sterling White, Charles F. Stouter, James E. Houck and John J. Hollinger. Alternates named were William Martin, Guy A. Baker Sr., John Gilman, Frank S. Topper and George L. Danner.

The group anticipates having its new truck which it expects to exhibit at the convention.

Frank S. Topper, chairman of the annual financial drive, reported that it was his intention to commence the drive in late June when an open house is expected to be held. At that time the public will have an opportunity to view the new fire engine.

High School Glee Club To Present May Concert

The Glee Club of Saint Joseph High School, under the direction of Rev. David W. Shaum, will present the operetta "Don Alonso's Treasure," on May 10 at 8:30 p. m. in the school auditorium.

Leading roles are shared by Alice Sherwin and Lawrence Orndorff. Cast in supporting parts are Thomas Sicilia, Patricia Fowler, Barbara Welty, Rita Remavage, Gene Lingg, Judy Keilholz, Ronald Stouter, Mary Myers, Edward Orndorff and James Topper.

In view of the anticipated attendance, tickets are available now from Glee Club members, for both performances.

Two Weekend Wrecks Here

Frederick County Supervisor of Assessments Lumen F. Norris was involved in an accident in the Emmitsburg Square Saturday at 12:10 p. m., Chief W. E. Law reported.

Norris had stopped for a red light when his 1959 Ford station wagon was hit in the rear by another car.

The other operator, Mrs. Blanche Roberta Lewis, 44, Taneytown R1, was charged with operating under the influence and with reckless driving. A hearing was held Wednesday evening before Magistrate Richard J. McCullough.

Chief Law reported \$150 in damages to Norris' auto and \$25 in damages to the Lewis car.

Another accident occurred in Emmitsburg at 11:10 a. m. on Sunday.

This \$800 accident without injuries occurred on East Main St. in the Emmitt Gardens section, when a 1956 Chevrolet driven east by Arthur Spalding Elder, a 19-year-old Emmitsburg youth, stopped to make a left-hand turn.

As Elder was turning into his private lane, a 1955 Oldsmobile also driven east on East Main St. behind the Elder car by Sylvester Atlee Hann, 26, of Myersville and Rocky Ridge, struck the rear of the Elder auto, Chief Law reported.

Hann was charged with reckless driving and is scheduled for trial Saturday. Chief Law reported \$300 damage to the Hann auto and \$800 in damages to the Elder car.

Communism Forum Conducted Here

Dr. Gilbert L. Oddo, chairman of the Department of Social Studies and Pre-Social Work, served as chairman of the final symposium of the Communism Forum conducted at Saint Joseph College.

The presentation was based on the theme, "A Challenge to Communism: A Christian Response."

Senior Carol Dorr led the discussion of the Christian family as a force, the "primary bulwark" against Communism. The role of the Christian individual carrying Christian attitudes into community life was pronounced by student Kathleen Seely and Virginia Zebrowski, also of the senior class. Patricia Hopkins, a junior, concluded the discussion with the challenge for Christians in the international community.

An earlier symposium, presided over by Dr. Boleslav Povsic, D.Litt., head of the Division of Philosophy at Saint Joseph College, was based on the philosophy of Communism. Participants in the discussion of the philosophy of the communist were Sister Ethelreda, Philomena Liscio, Mary Jane Marta and Maureen Monks.

The forum, designed to arouse an awareness of the activities of the 25,000 communists in the United States, was initiated by an address by Adolph M. Wasilifsky, Ph.D., head of the English Dept. at Saint Joseph College. Dr. Wasilifsky referred to Communism as "the enemy of your culture, your civilization and your religion." Senior students Marie Karl, Ann Leahigh, Lynn Murray and Virginia Zebrowski were among the speakers at the initial presentation.

Lions Protest Changes Planned At Cullen Hospital

President Ralph F. Ireland presided at the regular meeting of the Emmitsburg Lions Club held Monday night in the Lutheran Parish Hall, eighteen members in attendance.

Clarence E. Hahn and J. Ralph McDonnell were named as delegates to the District Convention to be held in Atlantic City, N. J., next month.

The club went on record as disfavoring the transition of the Victor Cullen TB Hospital from a hospital to a detention home for wayward young men and it is planned to have a representation present at a public meeting to be held at the hospital on April 18.

William G. Morgan, chairman of the 1961 horse show gave a progress report and distributed committee sheets to the members. It was announced by the chairman that a valuable pony and harness would be awarded to some lucky individual at the horse show.

Politicians have tried to control so many things that we expect they will try to control the weather.

College Minstrel Show April 18

The Senior Class of Mount St. Mary's College will present its annual minstrel show on April 18 at 8 p. m. in Flynn Hall on the college campus.

This year's frolic "Mountain Plantation," is an original show in two acts directed by Joseph Palmieri, Brooklyn, N. Y., and will feature an all-senior cast including a chorus line and special numbers by John Thompson, Belmar, N. J., James Donnelly, York, Pa., and Thomas Courtney, Washington, D. C.

With a chorus of 30 members, Palmieri has built his production on traditional minstrel features: with end men, satirical skits, songs both straight and in parody, dance routines and instrumental solos.

The minstrel is the entertainment highlight of the spring season at the Mount and Palmieri has the most talented cast in years, headed by Thomas Rudderow, Drexel Hill, Pa., Douglas DeDe, Wash., D. C., William Donohue, Washington, Daniel White, Teaneck, N. J., and Joseph Healy, Wash., D. C.

EHS Senior Class Play April 28

On April 28, the seniors of Emmitsburg High School will present their annual play.

This year's selection is entitled "Listen In On the Campus," a comedy in three acts by Lindsay Barbee.

The story of the disappearance of the Emperor's Emerald causes much excitement in the Theta Phi House, especially since a band of college youths is suspected of the theft. The arrival of a young woman, who, after an accident, fails to remember her identity, adds to the excitement. Our little Irish maid proves to be quite a character and a mysterious visitor invades the campus. To this is added a thrilling football victory and a "companionate engagement" of Theodore and Hal, and the happy ending to a romance begun eleven years ago.

All of which could happen these days at any coeducational college.

The characters are: Corinne Cameron, Janet Andrew; Theodore Van Dyke, Sharon Pittinger; Bettina Burton, Linda Frock; Marian Meredith, Barbara Kelly; Nora, Barbara Hardman; Gail Overton, Linda Knox; Molly Moore, Kathy Springer; Courtney Calhoun, Judy Kay Valentine; Robin Hood, Fred Kugler; Allen Lee, Robert Gingell; Hal Harlan; William Nail; Peter Lynch, Robert Wagerman; Ruth Reeves Remington, Harriet Hahn; Jennifer Lane, Grace Gross; Billy Breckenridge, Terry Feagle; Beverly Scott, Fred Hawk; John Wallace, Randy Valentine; Gordon Gray; Larry Baker; Cecile Shirley, Patty Glass; Radio Announcer, Dorothy Moser; The Rector, Robert Wormley.

Future Teachers Group Meets

The April meeting of the Future Teachers Club of Emmitsburg High School, was held Tuesday, April 11 in the school library, with President Barbara Kelly presiding. A committee was chosen to decide a way to honor the teachers since April is Teaching Career Month.

Plans were made at this meeting to attend the Frederick County Future Teachers Convention in Frederick, which was held yesterday at Frederick High School.

A panel discussion on the different branches of the teaching profession was given by the ninth grade members of F.T.A. Those taking part in the discussion were: Thelma Herring, Treasa Pfeuffer, Donna Saylor, Sue Martin, Connie Sanchez, Thomas Harbaugh and Gene Eyer. The moderator was Nancy Glass.

Vandalism Warning Issued By Town

Street Commissioner J. Norman Flax announced this week that individuals, or corporations, planning to erect new buildings, excavate, sewer line work or erect scaffolding on the streets while building or repairing, must obtain a permit from the Town Council.

Commissioner Flax announced that the permit is issued free but that it is mandatory. Permits can be obtained at the Town Office. At the same time the Town Council reported that recent acts of vandalism had been discovered and a crack-down on offenders and violators is planned by the Police Dept.

OBITUARIES

CHARLES E. ECKENRODE
Charles Edward Eckenrode, 84, well-known retired farmer of Emmitsburg, died Friday evening at Frederick Memorial Hospital.

He was a son of the late Vincent J. and Emma Orndorff Eckenrode. His first wife, Mary Kelly Eckenrode, died in 1946.

He was a member of St. Joseph's Catholic Church, Emmitsburg, and the Holy Name Society.

He is survived by his wife, Emma Warthen Eckenrode, and five sons: Paul, of Emmitsburg; Gerald, of Towson; Lewis and Leo of Philadelphia; Charles of Washington. Also surviving is one brother, Bernard, of Emmitsburg; 15 grandchildren and several great-grandchildren.

A Requiem Mass was held Monday at 10 a. m. at St. Joseph's Catholic Church with the Rev. Fr. James T. Twomey officiating. Interment was in St. Anthony's Cemetery.

SISTER M. VESTINA

Sister M. Vestina, a member of the Order of Sisters of Christian Charity for 61 years, died suddenly Saturday evening of a heart attack at Saint Jude's Convent, Mountain Top, Pa., aged 79 years.

She is survived by one sister, Miss Elizabeth Myers, Emmitsburg, and these half-brothers and sisters: Marie G. Kreitz, Mrs. Ann G. Roger, Emmitsburg; Margaret Weetenkamp, Martha Malone, both of Catonsville, Md.; Leo Myers, Essex, Md.; Rose Miller, Silver Spring, Md., and Benjamin Myers, Florida. A number of nieces also survive.

Funeral services were held Tuesday morning at 10 a. m. at St. Jude's Catholic Church, Mountain Top, Pa. Interment was made in Saint Ann's Cemetery, Wilkes-Barre, Pa. Pallbearers were members of the Knights of Columbus of Saint Jude's Church.

Noted Lawyer To Address Scouts At District Meeting

Samuel Scrivener, Jr., Washington, D. C., will be the principal speaker at the annual meeting of the Francis Scott Key District, Boy Scouts of America, on Monday, April 17 at 6:30 p. m., in the cafeteria of West Frederick Junior High School.

District officers for 1961-62 will be elected at this meeting. F. Russell Young, chairman of the nominating committee, will submit the report of nominees. Other members of the committee are Charles R. Baldwin, Grayson B. Haller, Jr., and Rev. W. Mervel Weaver.

A special feature of the evening will be the presentation of the coveted Silver Beaver, which is normally made at the annual Council Pot Luck Dinner at Washington. District arrangements were cancelled due to a severe snow storm. The Silver Beaver is the highest award that can be made to a very limited number of Scout leaders for outstanding service to boyhood.

The principal speaker, Mr. Scrivener Jr., is a native Washingtonian and is a graduate of Lehigh University and of the National University and also has taken graduate degrees at George Washington University Law School. He is a senior partner in the firm of Scrivener and Parker, Attorneys and counsellors of law in Washington. He also is vice chairman of the board of directors and executive committee and general counsel of the Perpetual Bldg. Assn.; partner in the Fidelity Investment Co.; president of Syndicate Investment Corp.; vice president of the Glenn Engineering Services Inc.; secretary of Petcar Research Corp.; chairman of the board of zoning adjustment for the District of Columbia; a member of the board of governors of Episcopal Ear and Throat Hospital; American Bar Assn. and a number of other community and social groups.

Those individuals who purchased tickets for the cancelled District Annual Pot Luck Dinner have received new tickets for the April 17 meeting. These new tickets will be the only ones used.

Ladies are most cordially invited to attend this special District meeting and tickets may be obtained from Mrs. Elizabeth Broadrup, phone MO. 2-5535.

Mount Netman Lose

The Mt. St. Mary's tennis team opened its season Friday when it lost to Rider College 7-2 here.

Ed Bell and McCarthy tallied the Mountaineers points by gaining triumphs in the singles.

Organizations Oppose Cullen Changes

A sizeable number of Emmitsburgians is expected to attend the protest meeting over the proposed removal of Victor Cullen Hospital it was learned this week. The meeting is open to the public and will be held at the hospital Tuesday night, April 18.

It is expected to have delegations from the colleges, Lions Club and Town Council and perhaps a number of other organizations present at the meeting.

For several months now there has been pressure exerted in certain circles to convert the tuberculosis hospital into a detention home for unruly young men. The proximity of the institution to Western Maryland patients and their families has provoked protests from the citizens of this area and it is planned to make a concerted fight to retain the hospital at its present location and if possible, to expand its facilities.

Mayor Clarence G. Frailey announced this week that the Town Council will officially protest any conversion of the hospital and issued the following public notice:

The Burgess and Commissioners wish to go on record as opposing the removal of Victor Cullen Hospital located at Cullen, Md., and protest the establishment of a Training School at that site and same to be published in the local paper.

Burgess and Commissioners Emmitsburg, Md. The Frederick County Tuberculosis and Public Health Association, at a recent meeting of the Board of Directors, went on record as unanimously favoring the retention of Victor Cullen Hospital for the treatment of tuberculosis.

Bible School Workshop Planned

Final plans for the Daily Vacation Bible School Workshop were made at a meeting of the staff committee last Friday. The workshop will be held at the Lutheran Parish House on Friday, April 28, at 7:30 p. m. All teachers, assistants in the classrooms, the helpers with the music, the refreshments, transportation, publicity, recreation, and any other phase of the school are requested to be present.

The theme for the school year is "Living For Jesus." A film strip based on this theme, called, "The House on Stoneybrook Lane," will be shown at the workshop meeting. The group will separate into departments for specific planning and study of its particular material. Rev. Philip Bower will guide the Nursery and Beginner leaders in their thinking and planning. Rev. Forrest Davis will lead the Primary Workshop while Rev. John Chatlos will direct the Juniors and Rev. William Hendricks the Junior High teachers.

Procurement of the necessary teachers and helpers is under the direction of the staff committee which is composed of the four ministers and a delegate from each church. The following members were present at the meeting Friday: Rev. Bower, Rev. Chatlos, Rev. Davis, Ralph Kelly, Mrs. Frank Webb, Mrs. Weldon Shank and Sally Gingell.

Classes this year will be held for all children from 3 years of age through the 9th grade on Monday, June 19 and continue for two weeks daily except Saturday school. The school will begin from 9 to 11:30 a. m. at the Lutheran Parish House. The closing picnic will be held at noon Friday, June 30, and the closing program that night at 7:30 p. m.

Seal Drive Report

The chairmen of the recent financial drive for Crippled Children reported this week that \$160.35 had been collected and turned over to the Frederick County Crippled Children's Society. This sum does not include any money raised by the sale of Easter Seals.

Chairman of the Emmitsburg area drive was Mrs. Madeline Harner. Louis H. Stoner was co-chairman. The chairmen wish to extend their sincere appreciation to the committee which assisted them and also to the many donors who gave so generously.

Solicitors who aided the local drive were Thomas C. Harbaugh, Andrew B. Shorb, Mrs. Tyson Welty, Mrs. Nettie Ashbaugh, Mrs. Ruth Martins, Mrs. Elsie Wivell, Mrs. Geneva Sprinkle and Miss Beatrice Umbel.

School Students See Science Show

Have you ever seen a car run solely by the power of the sun? Or synthetic rubber manufactured in a pop bottle in 60 seconds?

How would you like to understand how a jet engine works, explore the mystery of controlling tomorrow's space ships and listen to a radio which is powered by "liquid sunshine"?

These are some of the exciting moments the students of Emmitsburg Public School saw when Previews of Progress, the world-famous General Motors science show, was presented at the school Wednesday.

Packed with exciting demonstrations of science's dramatic role in industrial progress under America's free economy, the 40-minute stage show was non-commercial and free.

Presented by a two-man team and narrated in understandable, non-technical language, the show used exciting showmanship to make science come alive for more than three million students and adults who view it each year.

Many more see it on television. "We seek through Previews to inspire more young people to make science their career and to provide the trained talent America must have to keep pace with the promise of the future," John F. Gordon, president of General Motors, declares.

"Our demonstrations dramatize the inquiring of all scientists which assumes that everything and anything can be improved.

Previews hints at the tremendous secrets of power and energy that wait in the world of tomorrow to be unlocked by the young people of today who became scientists."

One of the highlights of the show is the amazing GM Sunmobile, the miniature car that actually runs on the power of the sun. It depends upon eight photo electric cells located on its hood for its operation. These cells convert light energy into electrical energy which in turn powers a small electric motor to move the car.

In the Previews show, the demonstrator uses a 300-watt lamp to duplicate the sun's rays. As the light strikes the cells, the 15-inch Sunmobile moves smoothly across the table.

The Previews audience will see yet another example of sun power in the fascinating fuel cell. This device converts chemical energy with four times the efficiency now obtained by burning coal, oil or natural gas.

In the show, a few drops of "liquid sunshine" provide sufficient energy to operate a portable radio. If a method for making the fuel cell practical were ever found, this device would have a tremendous economic impact and greatly add to the life of coal and oil reserves.

In addition to sun power, the Previews audience will see a visual history of the jet engine in "capsule" form. Beginning with a working model of the first jet which dates back to 200 B.C., this sequence is climaxed by the running of a miniature gas turbine engine with a non-miniature roar.

This type of engine may power automobiles of tomorrow. Safety conscious spectators will be intrigued by a demonstration of a new foam plastic being used for crash pads in aircraft and automobiles. The lecturer actually

makes the material in four minutes and shows its cushioning qualities by bouncing an egg off it from a height of four feet.

Missile enthusiasts will get an exciting introduction to a new glass harder than steel which can be used in the nose cones of intercontinental rockets to allow them to return from outer space.

Science proves quicker than a Previews sequence in which synthetic rubber is produced in only 60 seconds. The demonstrator simply mixes two liquids in a pop bottle and a frothy glob of rubber 15 times the volume of the bottle leaps out above it.

Other Previews sequences include a vivid demonstration of the gyroscopes which will guide space ships of the future to their destination just as they control guided missiles, ships and planes today and a fascinating dramatization of the microwave relay which sends television programs and long distance telephone calls across the country.

Previews of Progress already has been presented to 18 million persons in the United States. Seven Previews units take the show to all sections of the country. Each team carries 1,000 pounds of stage equipment in its station wagon.

In the true tradition of show business, Previews has been staged under a variety of conditions. It has been performed on the platforms of stake trucks in rural areas and also on the deck of the aircraft carrier USS Leyte.

It has been staged in a boxing ring at Fort Dix, on the Boardwalk of Atlantic City and on the Starlight Roof of the Waldorf Astoria. Audiences have ranged from groups of 100 to crowds of six thousand.

Previews has won wide acclaim from educators and civic and fraternal organizations for its success in awakening both students and adults to the importance of science in daily life and the vital need for more skilled hands to carry scientific progress forward.

ANNAMARIA ALBERGHETTI will marry CLAUDIO GUZMAN this month... GLENN FORD's dates with YVETTE MIMIEUX are just publicity for a recently completed movie... PRINCESS GRACE KELLY due in Philly on Memorial Day... KIM NOVAK's still dating PETER DUCHIN, son of the late band leader... ELIZABETH TAYLOR and EDDIE FISHER will rest up in Palm Springs for six weeks to recover from her recent ordeal... Studio workers applauded for five minutes after JUDY GARLAND finished her cameo role in "Judgment At Nuremberg"... 100 YEARS AGO

BABSON

Writes . . .

BY ROGER W. BABSON

The New Peace Corps

BABSON PARK, Mass., April 13—Our defense against World War III may not be nuclear missiles or atomic submarines but rather something far more revolutionary. I refer to the Peace Corps.

Peace Corps Described

President Kennedy has sent a message to Congress on his proposed Peace Corps suggesting that 1000 young and middle-age people be ready to leave by the coming Christmas. Among projects in the exploratory stage are work for surveyors, engineers, and geologists. Expert farmers and those acquainted with the use of insecticides and fertilizers are needed. Also in demand are carpenters who will get neighbors together, as in the old days, to erect houses and barns for one another. The headquarters at Washington tell me it has 25,000 applicants, although a majority of these cannot hope to meet the requirements.

Certain Requirements Must Be Met

The Plan will not be successful with non-paid volunteers. Whether or not these men and women are obtained by volunteering or by drafting, they must be under army discipline and subject to the same length of service as those entering the fighting ranks. They must be carefully "screened" as to loyalty, personality, and education. They naturally should fluently speak the language of the country to which they will be sent and be well-trained for the character of work in which they will be engaged. Surely, the Peace Corps Personnel are entitled to the pay of a Second-Lieutenant.

To make this new Peace Army successful, Congress must be prepared to spend as lavishly thereon as it would spend on the development of missiles or any nuclear weapons. This new Army should be taken very seriously and be placed under our U. S. Defense Dept. with President Kennedy as Commander in Chief. Every nation should be entitled to the aid of the Peace Corps, although its personnel should be sent into a nation only at the nation's request. Whether or not the Peace Corps should or should not be tied up with foreign aid is to be decided later.

Peace Corps And Defense Department

It is a great mistake to com-

pare the proposed Peace Corps with the Civilian Conservation Corps organized by Franklin Roosevelt to give work to unemployed young men during the depression of the 1930's. In order to be successful the Peace Corps must be carefully selected, organized, trained, and disciplined. It must be treated and financed as if some entirely new revolutionary weapon had been discovered which we must either adopt or we will be sunk!

Certainly all nations including Russia will be free to organize similar Peace Corps. I understood that Charles de Gaulle is much interested. This development creates an entirely new and apparently overlooked situation. Would it be good or bad for the movement to have different Peace Corps of other nations within a single nation such as one of the Latin Nations of Central and South America, including Cuba? Frankly, no one knows. The whole idea is so new with such far reaching possibilities and dangers. If several nations plan to send Peace Corps to a foreign country, surely the members of each will be able to talk with each other since they can speak the language of the country to which they are sent. If both men and women are accepted this makes a further complication.

Would China Send Out Peace Corps?

Studying this whole idea with its ramifications, it may result in doing more to bring the nations together than has even the United Nations. There are about one hundred separate nations now in the United Nations Organization. Imagine only a small proportion of these one hundred nations sending out Peace Corps. Furthermore, although Communist China is now being kept out of the United Nations, yet China would be free to send Peace Corps into the leading nations. One more thought, what if China should decide to send Peace Corps into the United States? Perhaps all the above may cause President Kennedy, or at least Congress, to pass the entire problem over to the United Nations to operate. Knowing, however, how slow the United Nations works, this may kill or delay the entire idea as now set up. I am strongly for the Peace Corps as set up by the present able leader, R. Sargent Shriver Jr. It, however, has great possibilities and may be the one thing to head off World War III and save civilization.

In March, 1800 the first U. S. Marines were assigned in Washington for the purpose of guarding the construction of the Navy Yard there. Two years later Washington was established as the U. S. Marine Corps' Headquarters.

Farm Bureau Hears Legislative Director

John C. Lynn, legislative director of American Farm Bureau Federation, nation's largest general farm organization, in a statement for presentation at a Senate Labor and Public Welfare Committee hearing, said that "intervention by the federal government in financing local public schools could stymie initiative on the part of local people who might get the impression that if they wait long enough the all-powerful federal government will come in and assist them."

"Farm Bureau believes," said Lynn, "that we will build more school rooms, pay our teachers better, and improve the education of our children if we promote local initiative and continue to finance our schools through local effort."

"There is little argument about the need for continued improvement," Lynn went on, "but the needed improvements must be paid for."

He said the central question involved in legislation before Congress concerns the level of government at which payment is to be made.

"Farmers are vigorously opposed to having their school systems dominated by federal regulation from an all-powerful centralized government," Lynn said.

"With the federal debt at an all-time high, with the need to

balance the federal budget in order to avoid more inflation, we think that citizens throughout the nation are becoming more and more conscious of the fact that they don't get something for nothing from Washington."

Lynn pointed that Farm Bureau members, by serving on local school boards, making tax studies, taking leadership in needed district school consolidation, serving on local school study committees

and in many other ways, are constantly seeking to improve our educational system.

The attack aircraft carrier USS Franklin D. Roosevelt is longer than three football fields placed end-to-end.

Inconsiderate is a long and ugly word, usually shouted by those who never did give others consideration.

Civil War Breaks Out; Sumter Bombarded

By Lon K. Savage

Captain G. V. Fox of the United States Navy surveyed his small fleet and gave the signal to cast off. Then, as his seven ships put out of New York harbor that Tuesday morning, April 9, 100 years ago this week, he again considered his objective.

He would attempt, his orders said, to deliver supplies to the United States troops at Fort Sumter, located on an island at Charleston harbor in the Confederate state of South Carolina. Should the Confederates try to stop him, his orders read, "you will, if possible, effect an entrance and place both troops and supplies in Fort Sumter."

Thus it was that decades of bitter differences between the Northern and Southern states had led to war, just as they had led in December, January and early February to the secession from the Union of seven states which bound themselves together into a new nation—the Confederate States of America.

Confederate Demands

Resistance could well be anticipated, Fox knew. The Confederates had demanded that the federal troops at Sumter be withdrawn, since the fort, they said, was no longer within the United States.

As Fox's fleet sailed southward next day, Confederate General Pierre Gustave Toussaint Beauregard, the famous Louisiana Creole, received an important order at his office in Charleston.

Because of the attempt to supply Sumter, Beauregard would demand immediate evacuation of the fort. And, said the order from Jefferson Davis, president of the Confederacy, if the demand were refused, Beauregard would open fire.

The demand was delivered at 2 p. m. next day, April 11. Major Robert Anderson, federal commander at Sumter and a former West Point teacher of Beauregard's, turned it down. There was considerable discussion, exchanging of notes, bowing and handshaking that night until Beauregard's aides announced early next morning that firing on Sumter would begin in one hour.

And just as promised, at 4:30 a. m., April 12, the first shot of the Civil War flashed out from one of the surrounding batteries, arched across the dark sky and burst spectacularly on the fort's parapet. Then, howitzers and mortars let loose in pre-arranged pattern from 47 batteries trained on Sumter, and the war was on.

Crowds Cheer

Anderson's men, approximately 100 facing an opponent of some 6,000, answered the fire at dawn. When they did, they received loud cheers from hundreds of Charlestonians who had thronged the waterfront to watch and applaud good shooting—by either side. All day and all night the guns thundered on. Then, about 8:30 a. m. on the 13th, the fort caught fire.

Major Anderson's men, unable to control the blaze, closed their powder magazine, dumped 50 barrels of powder into the sea, then crawled into the embrasures and lay flat, wet handkerchiefs over their mouths to breathe. By 1 p. m., the battle was over. The ships of Fox's expedition, unable to enter the port, waited outside as the surrender took place.

There were no deaths from the battle. But next day, during a ceremony in which cannon were fired, the flag lowered and Anderson's men marched to beating drums from the fort, a cannon accidentally exploded, killing the first man of the half million who were to die in the war.

If there was any doubt of war after the bombardment, it was resolved Monday morning, April 15, when the people read in their newspapers that President Lincoln had called for 75,000 troops to fight the seceded states.

Next week: Wild enthusiasm greets the war.

ALL ABOUT BABIES...

A Public Service of the National Baby Care Council

BABY CARE Q. AND A. By William Kitay Member, National Association of Science Writers Editor, All About Babies

There are usually a million and one questions the new mother has about her first baby. At one time she put these questions to her mother, her grandmother or an aunt who came to visit.

Today, the new mother, living in the suburbs, usually at some distance from her family, turns elsewhere for the answers. One of the individuals she consults most often is her diaper service route man and route woman.

The nation's diaper service industry trains its route men and route women to answer most of these questions, except those that have to do with medical advice. Here are some asked most often by new mothers:

Q. How fast do babies grow?

A. About six to 12 inches each first year.

Q. How long will the soft spot in baby's skull remain?

A. Normally, for about a year.

Q. When will baby really smile?

A. When he's between four to six weeks old.

Q. Will picking up baby when he cries spoil him?

A. Many child psychologists say no, not if you cuddle and soothe baby.

Q. Should I change the diaper during the night when baby's asleep?

A. Professional diaper services impregnate the diapers they process with a chemical that inhibits the breakdown of urine into skin-irritating ammonia for at least six hours. Thus protected, it is wiser not to disturb baby as long as he's sleeping.

Q. Is it normal for the eyes of a newborn baby to quiver and the eyelids to twitch?

A. Both are perfectly normal for the first week or until baby's eyes develop more.

Q. When will baby sit up?

A. As soon as baby's back muscles develop sufficiently and he has enough control over them.

Q. When will baby cut his first tooth?

A. It varies but usually between the sixth and seventh month.

Q. Is it always necessary to burp baby?

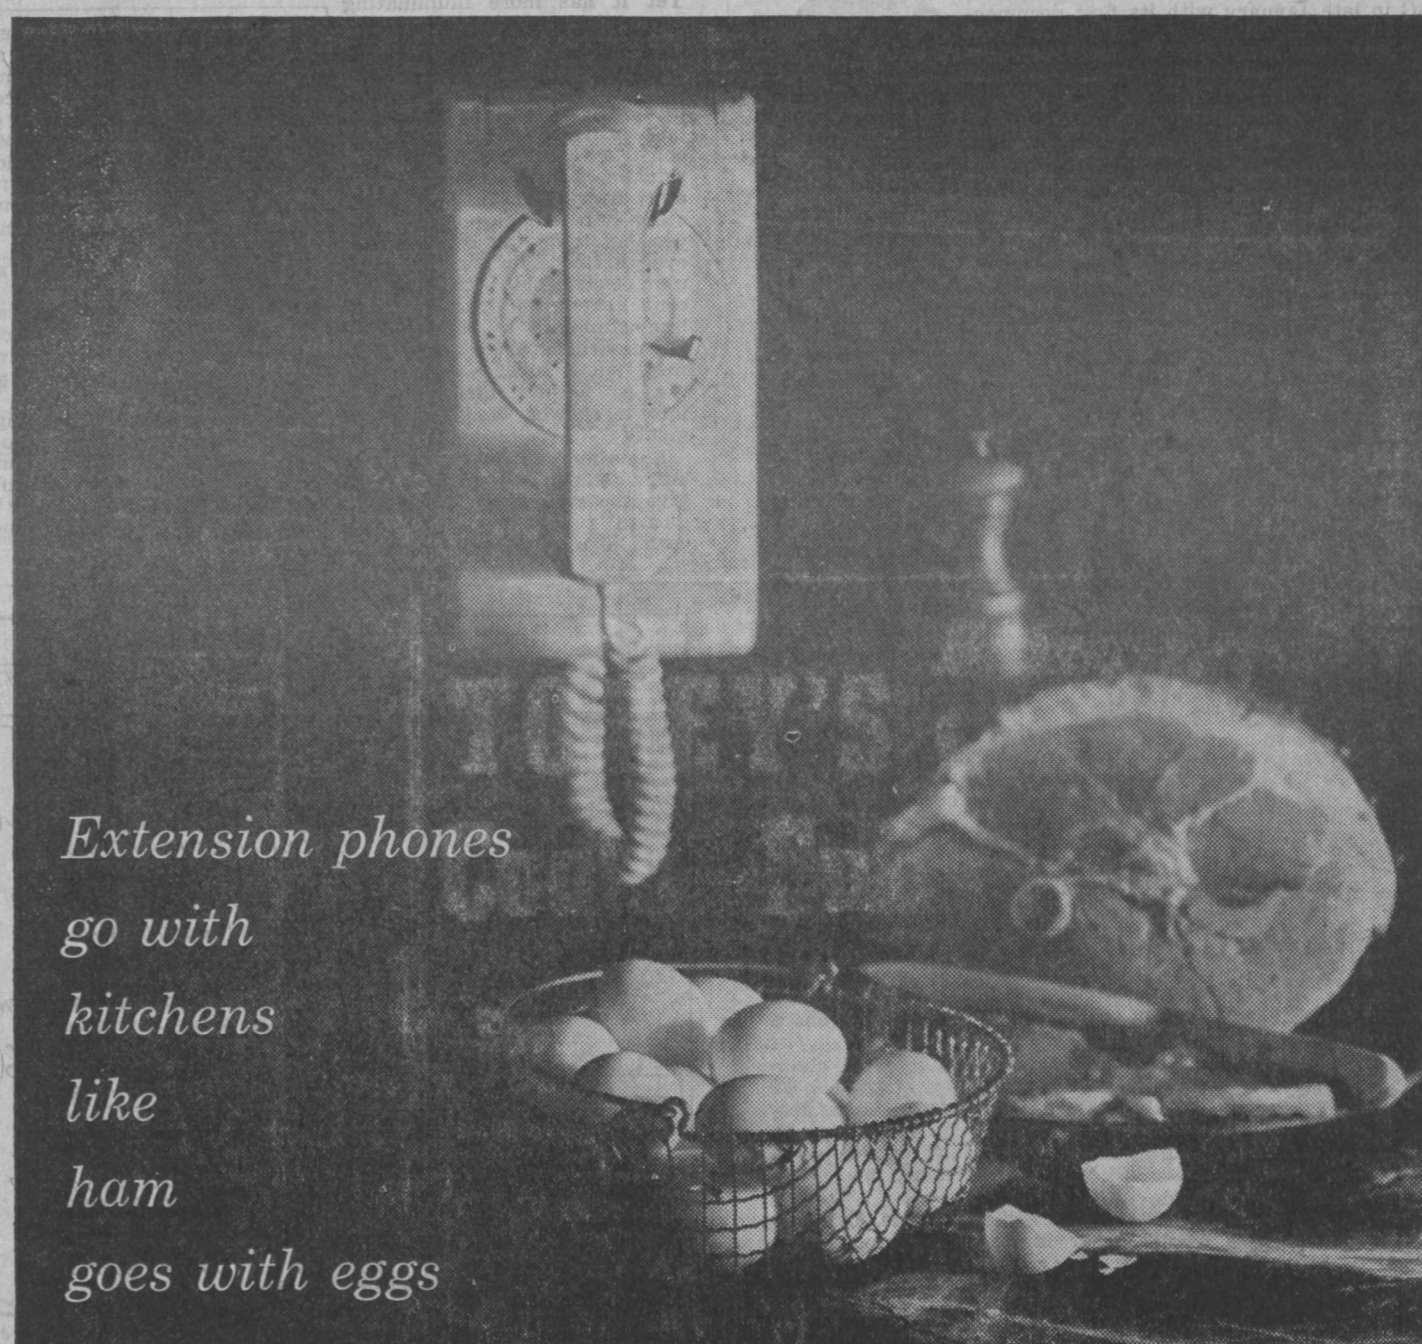

A. You should during the first few weeks, once during feeding and again at the end.

Q. How can I be sure baby's bottle is the correct temperature?

A. An old reliable method is to test a few drops of milk on your wrist.

Q. How much sleep does baby need?

A. During the first month, baby will sleep between 18 and 20 hours a day.

Extension phones go with kitchens like ham goes with eggs

A kitchen phone saves you time, steps and trouble... every day!

Put a woman in the kitchen, and things begin to happen. Coffee perks... ham sizzles... eggs crack. But if she doesn't have a kitchen extension... the ring of the telephone is much like asking a circus juggler for a match.

Put a phone in the kitchen with you... and you've got a winning combination. You can make or take calls without leaving what you're doing—keep the pots from boiling over... and the youngsters

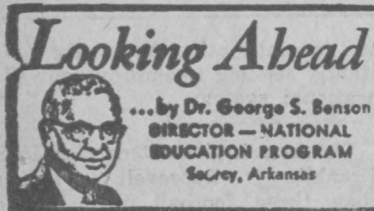

out of mischief. And you'll save steps, steps and more steps—every busy day.

A kitchen extension phone costs just \$1.10 a month, plus tax, after installation. Or you can have the exciting new Princess phone for only \$1.85 a month, plus tax, after installation.

Just call your Telephone Business Office... today.

Russia's Contribution To Crisis

Altogether too many American problems bear the designation: "Made in Moscow."

Orders still come in from Moscow. Every agent, under steel discipline, is contributing in every possible way to our industrial, financial, and international difficulties.

Mr. K Thrives On Trouble

You may be sure that Mr. K

is getting great satisfaction out of our financial worries. He is happy to see us walking a financial tightrope in a measure of fiscal distress with our gold and losing markets at home and abroad.

The Communists have worked for 40 years trying to alienate the loyalty of employees, trying to make them believe that their employers are their enemies who are unwilling to allow them wages that they rightfully earn.

Domestic Spending

the brink of chaos. He himself is bossing an economy geared not to peaceful production, but to production of armaments for himself and all his satellites.

President Kennedy's recommendations for heavier and heavier domestic spending representing more and more social benefits do not appear likely to contribute to economic stability.

Good Policies Take Courage

There are measures we can take to improve our nation's fiscal health if we have the courage to adopt them.

Highways Crowded

A few more travelers than just automobiles are beginning to appear on the highways, and drivers are urged by the Department of Game and Inland Fish to "give wildlife a brake."

Soon comes the time when a muskrat feels the urge to travel overland to a new marsh, a cottontail begins to explore a site to set up housekeeping, a bobwhite seeks a mate, and other wildlife start spring roaming.

Highways mean nothing to these migrants and meanderers, warns Director Ernest A. Vaughn, and drivers can expect to encounter them regularly.

Good Weather Brings Litterbug Plague

Reports are already beginning to reach the Department of Game and Inland Fish this spring regarding those annual good weather pests, the litterbugs.

Director Ernest A. Vaughn said today that access areas near good fishing and hunting sites have been littered and defaced, and that property owners who made possible the areas are beginning to complain.

Vaughn stressed that good landholder-sportsmen relations are fouled more often by the shameful litter so often left behind by fishermen, hunters, campers, picnickers than by any other one thing.

Many anglers are taking advantage of the early spring crappie fishing in the Conowingo Reservoir.

A Pesticides Coordination Bill

H.R. 4668, has been introduced in the 87th Congress by Rep. John D. Dingell (Michigan) and is pending in the House Committee on Merchant Marine and Fisheries.

The principle of H.R. 4668 is simple but the National Audubon Society believes its effect would be widely beneficial in averting needless destruction of wildlife resources.

A similar bill was reported favorably last year by committees of both the House and Senate but failed to win floor action in either chamber.

Handbook On Biological Control of Plant Pest Published

Biological control of plant pests, which is not to be confused with chemical spraying, involves the use of natural materials — predaceous insects against a harmful species, sterilization of males, diseases, and other means — in the control of undesirable insects, the Wildlife Management Institute reports.

An excellent discussion of this subject is the "Handbook on Biological Control of Plant Pests," published by the Brooklyn Botanic Garden.

Shenandoah Downs Opens Friday

CHARLES TOWN, W. Va. — Two big races head this weekend's opening programs at Shenandoah Downs, with more than enough hard-hitting horses on the grounds to assure quality fields for both events, according to General Manager Bob Leavitt.

Shenandoah Downs opens its third year of operation Friday with first race at 7:15 and its usual nine-event program.

Entries for both events were to close as this paper went to press, but early indications are that the allowance horses on the grounds will be out in force with a sprinkling of mile track invad-

ers. William B. Casilear's Ware, Allen B. Hummer's Kiperic, Floyd H. Horine's Achsah Ann, Sydney M. Follin's Good Scholar, and A. S. Moxley's Algem are among the Shenandoah regulars waiting for a shot at the features.

They can expect competition in one of the events from Claiborne B. Carter's Little Limey, a recent arrival from New England where he won two straight Saturday features at Lincoln Downs.

Berryville trainer, Bill Bell. Shenandoah Downs again will feature the Big Bonanza pool betting, according to Leavitt. The pool, fashioned after those popular in South America, was introduced at Shenandoah last year and resulted in individual payoffs of up to \$17,000 for a \$2 bet.

A nod (or a veto) by an older person, costing little or nothing, can make life happy (or miserable) for a youth struggling for his first success.

Know Your Lawn's Enemies

With many homeowners, having a lush, healthy lawn is a matter of pride. One of the first steps is learning to recognize your lawn's enemies.

Fortunately crab grass is not difficult to spot. It is characterized by its wide, spreading blades and, as it matures during mid-summer, by the three-pronged purplish seed head which forms them.

The job is surprisingly easy to do, too. Treatment should be made in early spring, preferably as soon as frost is out of the ground.

Control of this pest is now within every homeowner's reach, however, according to turf specialists at The Dow Chemical Company.

Once crab grass has been eliminated, a good program of preventive lawn maintenance — proper fertilizing, watering, and mowing procedures — should be all that is needed to keep it out.

Let's Go Fishin' BY BOB BREWSTER Outdoor Editor, Mercury Outboards

Contrary to the belief in some quarters, the only way to stop a car rolling down a hill is not to leap in front of it and try to hold it back with brute strength.

Particularly if it is rolling well when you make your leap. Some bright lad might out-think gravity enough to yank

open a door, step nimbly inside and apply pressure on the brake pedal. And stay alive a whole lot longer.

The same truism applies to fish snagging, that rapidly growing sport where numerous varieties of so-called "rough" fish are legal game in many states.

OPEN GATES

Now is the time when these fish congregate at the tailwaters of dams, awaiting the inflow of fresh food that comes to them when the flood gates are opened.

But as my earthy uncle used to say, "There's more than one way to skin a squirrel, some of them downright easy."

USE MOTOR

In snagging, the easy way is to crank up your Mercury outboard and hold the boat steady in the current by throttling down the motor, then flailing out with the snag line from the boat instead of from the bank.

It puts the snagger down closer to his subject where he can put more "yank" on the line. It also is much easier to handle a 30 to 40-pound fish from a boat than from a high bank.

Those who have tried claim-trying to kill a grizzly bear with a fly swatter is considerably easier than attempting to hoist a 30-pound catfish up a high bank when he's hooked in the body.

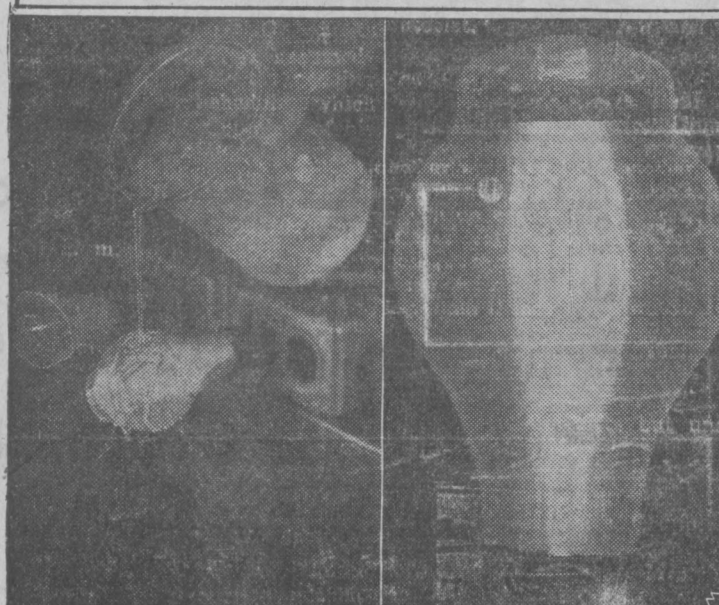

It's not impossible, but neither is walking on water.

Snagging, for the uninitiated, is done with a heavy rod and a heavy line with a couple of huge treble hooks on the end of it. Somewhere around the hooks is hung a pound or two of lead weights.

YANKS

The snagger throws the hooks and line as far into the water as possible, then brings it back in a series of bone-wrenching "yanks" on the rod. All the time he is hoping to slam the big hooks into a big fish when he yanks.

Beauty, Safety, Long Life From New Bulb

A truly shatterproof electric light bulb designed for beauty — no need to hide it behind a shade — has been developed by Duro-Test Corporation, North Bergen, New Jersey.

Another unique and important safety feature of the new bulb is its special shatterproof construction. The Flamescent remains intact when accidentally dropped on floors and other hard surfaces. It breaks, yes, but it doesn't explode into eye-piercing splinters.

Available in several sizes and shapes, the Flamescent is ideal for chandeliers, wall sconces, post lanterns, patio lights and yard lighting.

Other Duro-Test electric light bulbs made weatherproof through use of silicone coatings are available in several popular colors for yard and parking lot use, as well as for seasonal decorative lighting.

In Our Time

WHILE COMMUNICATION EXPERTS NO LONGER CONSIDER IT FANTASY TO PLAN INTER-PLANETARY TRAVEL... IT IS INCREDIBLE THAT A 38-YEAR-EFFORT FOR A ROAD-LINK BETWEEN NORTH AND SOUTH AMERICA HAS NOT BEEN REALIZED... NEWS WAS MADE IN 1960 WHEN RICHARD BEVIR AND TERRY WHITFIELD BECAME THE FIRST TO TRAVEL FROM NORTH TO SOUTH AMERICA IN A MOTOR VEHICLE BY LAND.

TV Star To Aid Mental Health Drive For Funds

Jayne Meadows, star of television and screen has been appointed co-chairman of the national fund-raising campaign of the National Association for Mental Health.

Miss Meadows, who, together with her husband, Steve Allen, in mental health, will share the campaign chairmanship with Lloyd Benefield, prominent Oklahoma attorney.

Dr. Paul V. Lemkau, President of the Maryland Association for Mental Health, announced that Miss Meadows expects to make several appearances at fund raising rallies during the campaign, which will be launched during Mental Health Week, April 30 to May 6 and continue through the month of May. She plans also to make several network television appearances in behalf of the cause she considers "as the most important of all causes."

Women especially mothers, "have a real obligation" to participate in mental health work, Miss Meadows believes.

"It is a mistake to think that mental illness strikes only at adults. It affects children, too, some only four or five years of age. There are tens of thousands of child victims of psychosis—serious mental illness—in mental hospitals. And there are additional millions of children and young people, who, though they are not sick enough to be in mental hospitals, are suffering from crippling mental and emotional disorders which will leave their mark on them for the rest of their lives.

"Research has already found ways to combat some of the mental disorders and to save some of the people—children and adults—suffering from these mental illnesses. Intensified and expanded research can disclose ways to help those who cannot yet be helped, and funds raised by the National Association for Mental Health will finance such research.

"In addition, these funds will also help to finance programs to assure treatment for all mental patients through clinic and hospital facilities. They will also help assure rehabilitation programs for the recovered mental patient, and education programs to acquaint people with the truth about mental illness so they will be able to recognize the symptoms and know what to do when mental illness strikes."

U. S. Marines mounted on camels escorted an American diplomatic mission into Abyssinia in 1903.

Economic Conference Scheduled

Congressman Charles McC. Mathias, (R-MD.) today announced an Economic Conference for Western Maryland to be held at the Woodmont Rod and Gun Club near Hagerstown on April 24. This Conference, which was originally proposed by Congressman Mathias at an Economic Meeting in Washington County in January, is part of a concerted and continued effort to stimulate and improve the present economic condition and to devise ways of attracting new industry to the Sixth District.

Outlook For The Automobile Industry In 1961

In forecasting the outlook for the automobile industry we ran into several problems. In the first place, the contracts between the United Auto Workers and the companies expire at the end of June. The new contracts will have to be worked out. It is very possible that a strike will ensue and in this event it is difficult to determine how long it might last and what effect it would have on auto production and the companies' earnings for the year. The new Administration differs from the old one in not maintaining a hands-off policy in labor management negotiations and therefore it is suggested that prompt intervention might take place and a settlement could be forced making some concessions to the unions.

Another uncertainty existing is the extent of the current business and how long it will continue. This of course would have an important effect on automobile sales. It is our guess that business should turn up sometime this summer and we are slightly encouraged by the fact that a recent survey by the Federal Reserve Board indicates an improvement in consumer attitude toward buying automobiles compared with the same period last year.

The attraction of automobile

dustry to the Sixth District. The Conference will be attended by 100 persons representing all interested groups in the District. Government officials from cities and counties in the Sixth District will also be in attendance as well as Area Development experts from the United States Department of Commerce. Representatives from outside Maryland will report on what other areas have done to attract new industry.

Mathias said that "we have been laying the groundwork for this type will be a great aid in providing for full employment."

stocks lies in the statistical values they offer for we do not believe that there is a great deal of growth ahead for the industry in the next few years.

General Motors always regarded as a blue chip, yields 4 1/2% on what appears to be a well protected dividend. Ford's stocks yield approximately 4%, but the dividend payout is considerably smaller in relation to total earnings. We still feel that as a businessman's risk American Motors selling at less than 10 times earnings and yielding higher than 6%, is a very interesting situation.

Pets Have Health Problems

Aging pets tend to have many health problems strikingly similar to human ailments. A report from the Maryland State Veterinary Medical Association declares that the major illness of aging dogs and other pets are congestive heart failure and trouble with kidney impairment. Other ailments in older animals include tumors, chronic skin diseases, arthritis, poor teeth, failing eyesight and loss of hearing.

In most cases, these conditions are controllable with understanding and consideration by their owners, the veterinarians report.

The following suggestions from the veterinarians can add greatly to the normal life span and comparative comfort in an animal's later years:

"Avoid giving the pet excessive exercise; feed a diet sufficient in protein, carbohydrates and good quality fat; guard against overweight in the animal and make sure plenty of fresh water is always available.

In addition, regular and routine health checkups are recommended.

Sales Tax Report Given By Comptroller

State Comptroller Louis L. Goldstein stated today that total receipts from the Retail Sales Tax for the month of March, 1961, amounted to \$5,431,481.49, as opposed to \$5,617,868.29 in March of 1960.

This was a decrease of 3.32% for the month. These results seem to be indicative of general business conditions which have been further impaired by the extremely bad weather conditions which prevailed throughout the month of February, the period represented by the March 1961 collections.

However, for the first nine months of the Fiscal Year 1961, total collections amounted to \$57,663,588.36, compared with \$55,543,788.39 for the first nine months of the preceding fiscal year.

This was an increase of \$2,128,799.97, or 3.83%. From current indications it appears doubtful that receipts from the Retail Sales and Use Tax will equal the estimate of \$78,046,000 for the current fiscal year. Collections to date are running behind estimates for the Fiscal Year 1961.

Gas Tax Receipts Show Decline

State Comptroller Louis L. Goldstein today released figures on revenue received by the Gasoline Tax Division for the month

Here's what you can buy for cancer research

Scan the list below. Read the actual prices of equipment purchased with American Cancer Society funds. You'll see that there are never any bargains in cancer research.

Decide what you can afford to buy. Then mail your contribution with the coupon below to your Unit of the American Cancer Society.

AMERICAN CANCER SOCIETY

of March, 1961.

Net receipts for the month were \$3,829,133 as compared with \$3,968,102 for March 1960. This was a decrease of \$138,969 or more than 3%.

One factor in this decrease was probably attributable to inclement weather during February, the month represented by these collections.

For the first nine months of Fiscal Year 1961 collections totaled \$40,633,582 as compared with \$39,515,841 for the first nine months of Fiscal Year 1960. This was an increase of \$1,217,741 or about 3%.

After a certain age you awake, look into the mirror, and say No, No, No!

Now You Can Wash Dishes Once a Day

Wash your dishes once a day and drive the drudgery blues away. How? With an electric dishwasher.

Today's large-capacity dishwashers can store all the breakfast, lunch, snack, and dinner dishes used in a day by the average family. Once-a-day dishwashing can save the homemaker at least 60 minutes a day, giving her extra hours of freedom.

No Inside Information

a horse "he knew all the jocks were betting on." The horse turned out to be a favorite and tabbed by all newspaper selectors as the "Best Bet" of the day; he won but the tout lost. He was invited to stop by the TRPB offices for interrogation before he was put off the track. It developed that he was an alumnus of the Florida chain gang; he admitted arrests throughout the world and boasted of 31 years of touting. "We eject thousands of touts from TRA tracks each year but it's like brushing flies at a picnic," Drayton said, "The only real solution is to educate the racegoing public to the fact that there is no such thing as 'inside information'. The player who uses his own judgment, whether based on past performance, study or hunch, will get as many winners and far more enjoyment from racing."

Franchise A Big Business

More than 20,000 Americans will go into business for themselves this year through franchise arrangements that make it possible to transform a small amount of working capital into a profitable enterprise. Franchises have been common in the restaurant and amusement fields and are burgeoning now in the quickly growing services industry. General Spray Service, Inc. of Katonah, New York is a good example of this new and healthy trend.

The company has become the world's largest garden spray service since it was organized by Francis Hoge, Jr. five years ago. As Americans spend an estimated \$4 billion a year on gardening, it is not surprising that Hoge has been able to push his program into 18 states from coast to coast and into Canada.

Jonathan Freeman, Jr. and Charles "Bud" Ridinger of New Canaan, Conn., are typical of the type of young men (they're 32) who have found franchise business so profitable.

General Spray sold them an air-dryer truck for \$3,850

down with monthly payments on a balance of approximately \$5,000 to be paid out of profits. They pay the company 10 percent of their gross receipts as a royalty and expend about 40 percent more for chemicals, maintenance, promotion and insurance.

In 1960, Jon and Bud realized a return of almost 100 percent of their cash investment. They expect to make \$30,000 to \$40,000 this year.

More and more Americans like Jon and Bud and even quite a few middle-aged retired persons are finding out how good it feels to be your own boss and to know the sky's the limit if you work hard enough.

TODAY'S meditation

The Upper Room
© THE UPPER ROOM, NASHVILLE, TENNESSEE
THE WORLD'S MOST WIDELY USED DEVOTIONAL GUIDE

Read Acts 1:1-8. That which we have seen and heard declare we unto you. (1 John 1:3.)

Recently I read the story of Sardon Masih, a sweeper in one of the hotels of a city among the mountains of Kashmir. Every afternoon he gathers around him the servants and cooks of that hotel and holds a sort of Bible class with them. He tells them

about Jesus, the Savior of mankind. We, too, are called to witness to the love of God, and this is our great commission. When we have the divine light shining in our lives, we radiate it to others. We want to tell the story of what we have seen and known and experienced. We can tell what Christ has done for us. We experience overflowing joy when we witness

about the redeeming love of the Son of God.

Prayer
Our heavenly Father, give us strength and insight to use our wisdom and experience not for ourselves, but for others. Help us that they may become stronger through our witness. Use us as witnesses to Thy Holy Word and to the redemptive power of Thy love. May Thy divine light shine on all who are still in darkness, that all men may accept Christ as their Redeemer and pray as He taught us. "Our Father who are in heaven . . . Amen."

Thought For The Day
When we have the divine light shining in our hearts, our lives radiate it to others.
Wadat Matar (Lebanon)

John Adams, second president of the United States, once volunteered to fight with the U. S. Marines during sea engagement in 1778.

OUTDOOR SPORT TIPS

FISHING
As any angler worth a stringer of panfish can tell you, chumming is sometimes the only way to get any action around your boat. Trouble is that often the stuff costs too much and the homemade variety is messy to make indeed. Next time out, try this. Carry along a batch of dried eggs shells. When they are broken up into small pieces they attract fish like crazy.

If you don't like eggs or eat the powdered variety, don't despair, here's a chum for you. Punch a can of sardines or other canned fish full of holes and drop into the water next to your boat. A line on the can will permit you to agitate it for best results. It's as good a chum as you could want.

Anglers who attempt to fish with dough balls often complain that the bait has a tendency to fall off the hook. To keep dough balls from disintegrating in the water or being nibbled from the hook, encase them in a piece of fine gauze bandage.

If your next fishing trip is far

from home and you want to carry live minnows with you, here's how to keep 'em alive for the duration. Take along an ordinary tire pump. About every 30 minutes pump a few strokes into the bait bucket. The minnows will stay lively.

To make any monofilament knot more secure, touch the tips of the loose knot ends with the tip of your cigarette. The action forms a knob on the end that won't pull through.

CAMPING
It's a sad camper who has to learn the hard way that wet matches won't light. Here's one way to waterproof 'em. Dip the match heads in clear fingernail polish. The polish not only sheds water, it burns.

If you're hiking with a dry canteen, here's a tip that will help you last to the next water hole. Put a small stone or button in your mouth. You'll find you won't be quite so dry.

BOATING
When making your run to or from the old fishing grounds pass up the temptation to chase sea-gulls sitting on the water. Watching them take off is fun, but often they are perched on a partially hidden obstruction which could damage your craft.

(Try for a \$50 prize. Send your tip to A.A. Contest, Sports Afield, 959 8th Ave., New York 19, N.Y.)

NOTICE TO BIDDERS
The Board of Education of Frederick County invites bids on arts and crafts supplies listed on the report which is furnished with contract forms in duplicate to known and reliable dealers and manufacturers.

Copies of the report are made available upon request to bona fide dealers and manufacturers of said materials.

Sealed bids or proposals, in duplicate, for furnishing and delivering arts and crafts supplies for the Board of Education of Frederick County will be received by the Board of Education of Frederick County at its offices at 115 East Church Street, Frederick, Maryland, until 10:00 A.M., April 27, 1961 at which time they will be opened.

PREPARATION OF PROPOSAL

- Proposals must be submitted in duplicate on the prescribed forms attached hereto.
- Prices shall not include state or federal excise tax. Exemption certificates furnished upon request.
- Bidders must insert a total price for quantities specified for each item. Prices quoted shall be firm for a period of four (4) months for the purpose of re-ordering.
- All bids submitted shall be F.O.B. designated delivery point. Drayage charge included.
- ALL BIDS MUST BE SUBMITTED IN SEALED ENVELOPES MARKED "SEALED BID - ARTS AND CRAFTS SUPPLIES" AND BEARING THE NAME OF THE BIDDER AND HIS ADDRESS.
- No bid submitted to the Board of Education office may be withdrawn prior to the scheduled time for opening of the bids.
- The Board of Education may consider informal any bid not prepared and submitted in accordance with provisions stated and may waive any informalities in or reject any or all bids.
- The Board of Education reserves the right to reject any bid which complies with specifications and accept a higher bid which complies, providing that in the judgment of the purchaser, the higher bid has additional values of appearance or function which justifies the difference in price.
- Communications should be directed to Mr. Allen R. Gaddis, Assistant in Administration.

BY ORDER OF THE BOARD OF EDUCATION OF FREDERICK COUNTY.
JAMES A. SENSENBAUGH
Secretary-Treasurer

Farmers May Borrow Under New Program

Farmers now may borrow up to 95 per cent of the outlay for certain types of farm storage facilities under the Government's loan program, William L. Dudley, Chairman, Maryland Agricultural Stabilization and Conservation Committee, said today. The 95-per cent limit applies to farm storage facilities costing 40 cents per bushel or less to build. Previously loans on these types of facilities were limited to 80 per cent of the cost.

For farm facilities costing more than 40 cents per bushel, the Chairman explained, farmers may borrow up to 95 per cent of 40 cents per bushel or 80 per cent of the cost, whichever is greater, but not more than 50 cents per bushel of capacity.

A similar action reducing down-payment provisions under the loan program for mobile dryers enables farmers to borrow up to 95 per

NOTICE TO BIDDERS
The Board of Education of Frederick County, 115 East Church Street, Frederick, Maryland, invites bids on supplying and delivering

small farm type tractor with center mounted rotary mower. Specifications and proposal sheets may be obtained at the Board of Education Office.

Sealed bids will be received at the Board of Education Office until 9:30 A.M., April 27, 1961.

The Board of Education reserves the right to reject any or all proposals and to waive informalities.

All Communications and Checks intended for this Paper should be addressed and made payable to the CHRONICLE PRESS INCORPORATED, Emmitsburg, Md. Copy for Advertisements must be received in this office not later than Wednesday evening to insure publication in the current week's edition. Advertising rates furnished upon request. Subscription rate, \$3.00 per year in advance.

Entered as Second Class Matter at the Postoffice at Emmitsburg, Maryland, under the Congressional Act of March 3, 1879.

NATIONAL EDITORIAL ASSOCIATION Member of Maryland Press Association, Inc. and Pennsylvania Newspaper Publishers Assn.

percent of the delivered and assembled cost of equipment to keep grain stored in proper condition. Previously, these loans were limited to 75 per cent of the cost of equipment.

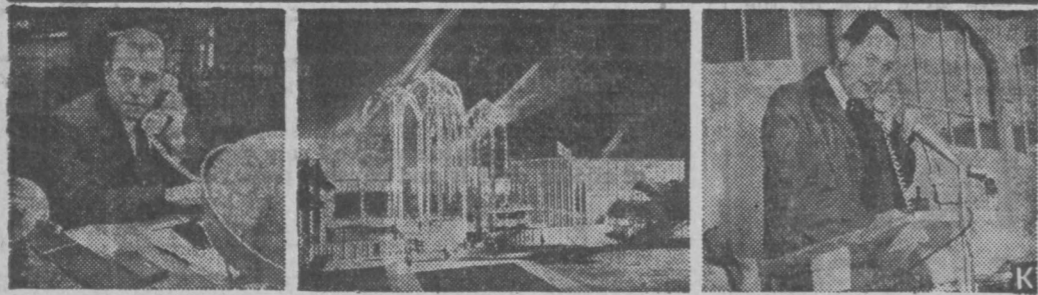

The farm storage facility loans run for 5 years from the date the loan is taken out, and they may be repaid in four annual installments, with the first installment due on the first anniversary date of the loan. The equipment loans run for 3 years from the date the loans are taken out, and they may be repaid in three annual installments with the first installment due on the date of the loan's first anniversary. Interest charged on

both types of loan is at the rate of 4 per cent.

According to Mr. Dudley, the storage loan program has been modified in order to encourage storage of grain on farms and to strengthen economic activity in farming areas. The action should be especially helpful to smaller farmers in financing farm storage structures and should encourage farmers to plan ample farm storage.

The Powder Puff Preakness, only race for girl riders in America run under official conditions, will be renewed on Preakness Day at Pimlico on May 20.

Washington To Seattle Via The Moon

Senator Warren G. Magnuson, (D), Washington

Federal Science Pavilion at Seattle's Century 21 World's Fair

D. E. Skinner, Vice President, Century 21, Inc.

A U.S. Senator's telephone call was bounced off the moon and then radioed across the continent to signal ground-breaking ceremonies for a \$3.4 million Federal Science Pavilion at Seattle's Century 21 world's fair.

Scant seconds after Senator Warren G. Magnuson, D., Wash. spoke into a phone in his office on Capitol Hill, his words had spanned some 500,000 miles and sent shovels biting into Puget Sound soil 3,000 miles away.

Gathered at the 74-acre site of the \$80 million Exposition in Seattle to receive the Senator's message were Mayor Gordon Clinton, Craig Colgate, deputy U.S. Commissioner for Century 21, Exposition, D. E. Skinner, Vice President of Century 21, Inc., and other Exposition officials.

The group heard Senator Magnuson hail the unique phone call as "typical of the... spirit" of the Seattle fair. "We have emulated no one," the legislator

observed. "We have asked that only the new—the different—the challenging—the promising be shown."

He added: "Those who visit with us in 1962 will see a new world of science, of technology, of living. They will truly see Century 21... 38 years before its time."

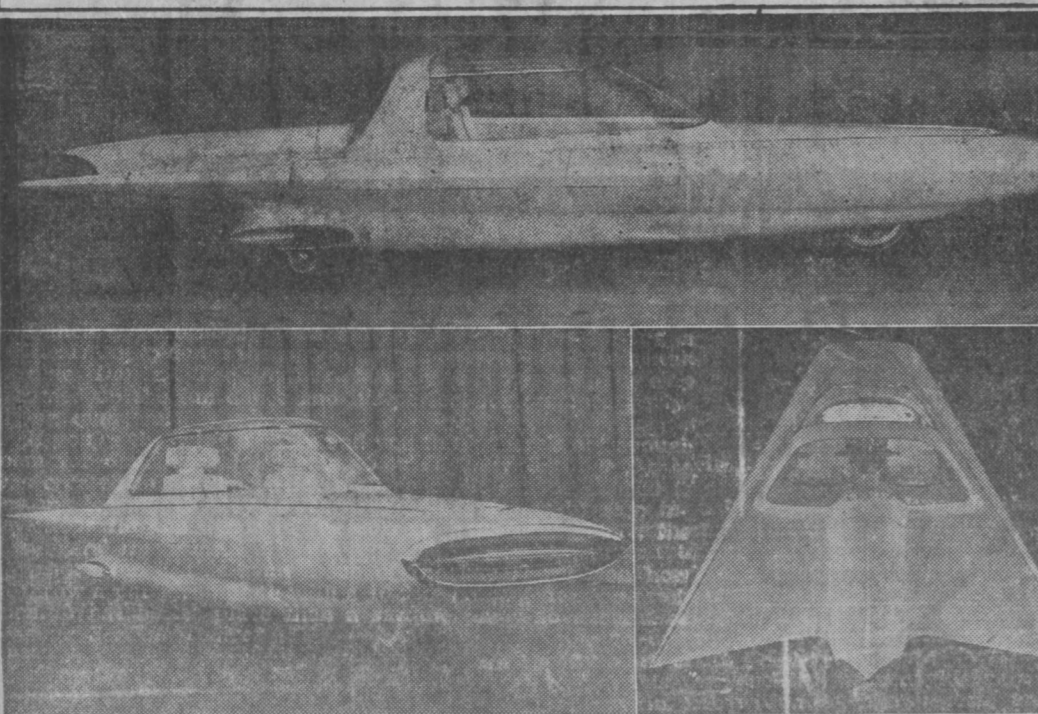

Senator Magnuson expressed confidence that many nations will accept the U.S. Government's invitation to take part in the Exposition. He said five continents are already represented in the lineup of foreign exhibitors which includes Great Britain, Canada, Greece, and several small nations in Africa and the Far East.

Century 21 Exposition, termed America's first Space Age world's fair, will open April 21, 1962. Attendance during the fair's six-month run is expected to reach 10 million. It will be the first international exposition held in the United States since 1939.

The phone call was supervised by American Telephone and Telegraph Company and the message first traveled by land line to the Bell Laboratories at Holmdel, N. J., where a shortwave transmitter hurled it across 250,000 miles to the moon.

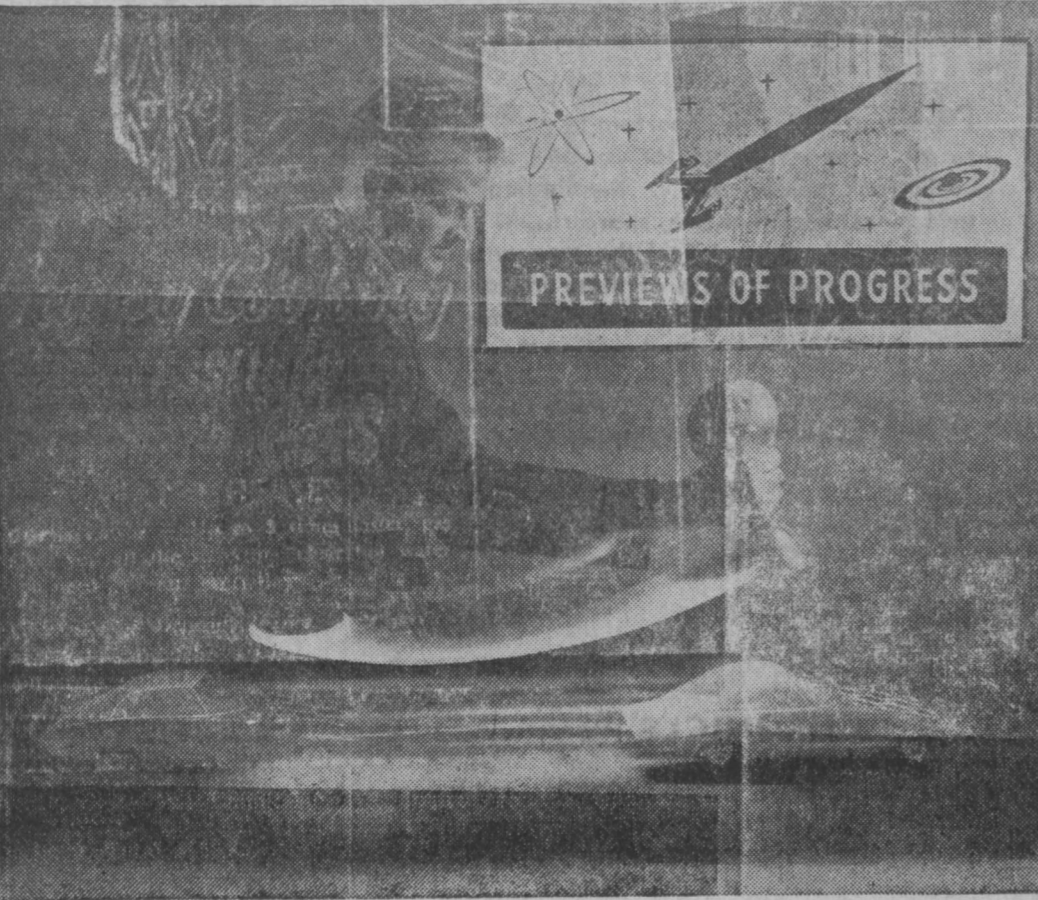

Scientists at Bell Laboratories said the entire trip was made in about two and a half seconds.

FORD UNVEILS DREAM CAR

Two running wheels instead of the usual four, together with a unique delta shape, mark the Gyron as a novel experiment in possible future automotive styling. Shown above in three views, the full-size dream car was developed by Ford Motor Company advanced stylists under the direction of George W. Walker, Ford vice president and direc-

tor of styling. The stylists assume that the vehicle could be stabilized by means of a gyroscope mounted just behind the passenger compartment. Two small outrigger wheels at the rear would retract when the gyro was in operation. A steering dial between two contoured seats replaces the conventional steering wheel and makes it possible for the car to be steered from either seat.

THE SUNMOBILE—WATCH IT GO!—The amazing Sunmobile, a car that runs on sunshine, is shown in action in this time exposure. The button-like photovoltaic cells on the hood turn light energy into electrical energy to move the model car. A 300-watt lamp simulates the sun. The Sunmobile is one of the demonstrations in the General Motors science show Previews of Progress. The 40-minute, admission-free, stage show dramatizes the wonders of science before two million American students and adults each year.

Farmers Must Pay Social Security

Many self-employed farmers who have not yet filed their Federal tax returns for 1960 will be doing so before the deadline date of April 15. While in some cases no income tax may be due, the self-employment earnings, if \$400 or more, should be reported and the social security tax paid, according to W. S. King, district manager of the Hagerstown Social Security Office.

The term "self-employed farmer" also includes the person who operates a farm owned by another on a crop share basis of remuneration. A Schedule F listing the detailed items of income and expenses of the farm operation should accompany the regular Form 1040.

The self-employment tax for 1960 is 4½% of net earnings. If a farmer also operated some other business enterprise such as a filling station or store, that activity should be reported on a separate Schedule C. The maximum to be reported for social security is \$4,800.

Pageant Is Feature Of Blossom Festival

WINCHESTER, Va. — Fifteen hundred students and townspeople will take part in the Shenandoah Apple Blossom Festival's Pageant of Springtime, which will be given on both April 27 and 28. Arthur V. d'Onofrio, of this city, founder and director of the First Soldiers' Chorus of the United States Army Field Band, Washington, D. C., is the director of the 1961 Pageant.

Co-director of the Pageant is Mrs. Victor F. Albright. Both Mr. d'Onofrio and Mrs. Albright are active members of the Winchester Little Theatre.

The Pageant will have five parts with 15 scenes, an overture and a finale. Based on the hand-written and well preserved diary of Mrs. Hugh Holmes Lee, who lived in Winchester during the Civil War, the Pageant will include several episodes in keeping with the Civil War Centennial observance. As in the past, however, the directors point out, many scenes and episodes will deal with the gaiety and beauty of the spring season. The pink and green ballet of the blossoms, long a favorite with spectators, will again be included in the "Miracle of Spring" episode.

In addition to the grade and high school students in the Pageant, participants will include the entire student body of Shenandoah College.

Order blanks for the purchase of tickets for the Pageant and other events are available by writing to Apple Blossom Festival, Box 699, Winchester. The ticket office in Winchester may also be reached by telephone, MOhawk 2-2867.

Forest Park Opening Scheduled

Forest Park, Hanover, Pa. will open for the season, Sunday, April 23. All rides and equipment have been overhauled and painted. The free attraction for the opening Sunday, both afternoon and night, will be Keith Daniels and his Blue Ridge Ramblers.

School tickets have been distributed as follows, good for free rides, reduced rates on others, reduced rates for skating, contests and prizes.

Saturday, April 29, Hanover School Day; Sat., May 6, Adams County School Day; Sat., May 13, York County School Day; Sat., May 20, Maryland School Day; Sat., May 27 and Sat., June 3, School Days for all.

Personals

Mr. and Mrs. Michael Bobanic and family, Aliquippa, Pa., visited recently with her parents, Mr. and Mrs. Eugene Warthen, W. Main Street.

Jaycee Activities

The call for help in last weeks paper to work at the picnic area just south of the ball field, was responded to very well last Saturday considering how cool it was.

Just about all the grubbing has been finished and most of the rubbish and stones have been hauled away. But there is still quite a few stones to move and raking to do yet.

The call for help last weekend brought Boy Scouts and Explorer Scouts. Not having a complete list of all those helping they will get recognition in next week's paper. Also answering the call

was Mr. Charles Wetzel with two large trash trucks as his part toward the Community Park. Others helping were Ed. Houck, Sterling White, Robert Simpson, Luther Zimmerman and chairman of this Jaycee activity, George Danner.

It was also announced this week that the VFW and American Legion Posts have pledged support for the picnic area.

Chairman Danner said weather permitting, this Saturday, work will begin at 8:30 a. m. and rakes and shovels will be needed.

Any interested persons who would like to help with this project are invited to come down and put in whatever time they

can, when they can. Nothing on "Name the Park Contest" this week, but plans are being made to announce it in a week or so.

Fair Time Cut

Schools in Frederick County will be closed only 1 1/2 days this year during the week of the Great Frederick Fair as a result of action taken by the Board of Education this week.

In recent years a two-day break in classroom instruction was generally followed during fair week, however, it was noted there have been occasions with only one day allowed for attending the fair.

Will Dedicate Church Organ

A new Lowrey Brentwood Electronic Organ is to be dedicated at a special musical service to be held on Sunday, April 16, at the St. James United Church of Christ, R1, Littlestown, Pa. The organ was recently purchased from the Menchey Music Service of Hanover, Pa.

Mr. Elmer J. Johnson of Gettysburg, who is an accomplished organist, will preside at the console of the organ for this special Dedication Service. Mr. Johnson is a member of the faculty of the Gettysburg High School. He will present a concert of sacred musical selections on the new instrument at various intervals throughout the service.

The musical service will also include selections by a Men's Quartette from Grace United Church of Christ in Taneytown, a solo entitled: "How Great Thou Art" by a male vocalist, and an anthem by the Young Peoples' Choir of St. James Church.

The new organ will be presented to the pastor of the church, Rev. John C. Chatlos, by Mr. Glenn E. Mummert who is the vice-president of the Consistory of the congregation. Mr. Chatlos will preside at the Service of Dedication.

The offering received during the service will go towards the reduction of the debt incurred for the organ. A cash gift of \$200 will be presented to the pastor at the service from the Young Peoples' Choir of the church. Other contributions may be made by those attending the service as the offering plates are passed.

St. James is one of the two congregations of the Incarnation-St. James Parish of the United Church of Christ, and is located three miles east of Harney on the Harney Road. Everyone is cordially invited to attend.

MOUNT NINE WINS

Mt. St. Mary's opened its baseball season by defeating American U. 9-7 in a free-slugging game here Tuesday.

The Mounties will play host to Towson Saturday afternoon at Echo Field.

Lutheran Women To Meet

The Spring meeting of Middle Conference United Lutheran Women will be held Friday, April 21, at Grace Lutheran Church, Carroll St., Wetsminster. Dr. Elwood S. Falkenstein, is pastor of the host church. Registration will begin at 2:00 p. m. and the afternoon session will be at 3 p. m. The devotional leader for the afternoon session will be Mrs. John Barnes.

Dinner will be served by the ladies of Grace Church at 5:30 p. m. From 6:30 to 7:00 while seated at the table, the Seventieth Anniversary Committee will present "Through the years with our Presidents."

The evening session will begin at 7:30 p. m. The devotional leader will be Mrs. Dean Anderson. The speaker for the evening will be Mrs. George Gesler, missionary to India. She married Dr. George K. Gesler, a missionary in Rajahmundry. Now on their third furlough, they plan to return to India next summer.

All women of the church are urged to attend the inspirational program. The Middle Conference of the United Lutheran Church Women is made up of Lutheran Women of Carroll and Frederick Counties.

LADIES' BOWLING LEAGUE

Table with columns: Team, W, L. Rows include Ramblers, Alley Kats, Farmerettes, Red Birds, Taneyettes, Grange.

April 6 Results: Red Birds 3; Farmerettes 0; Taneyettes 3; Alley Kats 0; Ramblers 3; Grange 0.

High single game and set, N. Toms (Ramblers), 122-316.

Fifteen of the last 24 winners of the \$150,000 Preakness at Pimlico are still making their marks in racing as stallions at stud. Five others are dead and one is retired.

COLOR GUARD PARTICIPATES IN CEREMONIES

The Western Maryland Color Guard of the American Legion, composed of members of the Francis X. Elder Post 121, American Legion, participated in ceremonies at the Department Commander's and President's Banquet at the Gold Star Post, Mt. Airy, Saturday night. Those participating were: Curtis Topper, Andrew B. Shorb, Robert Myers, Earl Topper, Charles B. Harner, Joseph Rodgers and Henry Filler. They were accompanied by their wives.

Ohler Services Held

Funeral services were held from the Wilson Funeral Home, W. Main St., last Thursday afternoon for Mrs. Emma Alice Ohler, 96, 320 W. Main St., who died Tuesday. Rev. Philip Bower officiated and interment was in the Keysville Cemetery. The pallbearers were Maurice Moser, John Baumgardner, Robert A. Grimes, Jones Baker, Lloyd Ohler and Chester Ohler.

SCHOOL MENU

The school lunch menu at the Emmitsburg Public School for the week beginning April 17, has been announced as follows:

Monday: Beef stew with vegetables, corn muffin, banana and peanut butter salad and apple sauce.

Tuesday: Sliced luncheon meat and cheese baked beans, tossed salad with cabbage and tomatoes, orange jello with pineapple slice.

Wednesday: Barbecue beef on bun, green beans, potato salad, cherry and apple pie.

Thursday: Franks on buttered roll, vegetable soup, crackers, celery and carrot strips, 1/2 peach, raisin squares.

Friday: Orange juice, fish sticks, escalloped potatoes, sliced tomatoes, devils food cake.

Milk, bread and butter served with each meal.

Contained in the hull of the huge attack aircraft carrier USS Franklin D. Roosevelt are 242 miles of electrical cable, 2,000 electric motors and a generating plant capable of supplying electrical power to 4 million homes.

The first essential in the security of a worker is to be able to work.

Track Team Wins

Mt. St. Mary's unbeaten trackmen easily defeated Catholic University in a dual meet at Washington, Tuesday 75-47 as three Mount lads turned in double victories.

Duncan Bossle won the 100 and 220-yard dashes, John Dolan both hurdle events and Mike Landis the mile and two-mile runs. Dolan was also a member of the winning mile relay squad.

On Saturday the Mountaineers will meet American University in another dual meet at Washington.

Hospital Report

Admitted: Mrs. Charity Kaas, Emmitsburg; J. Clarence Sanders, Emmitsburg; Mrs. Clarence Hahn, Emmitsburg R3; Marshall Sharrer, Rocky Ridge. Discharged: Mrs. Arthur Elder, Emmitsburg. Births: Mr. and Mrs. Leo M. Boyle, Emmitsburg, daughter, Saturday; Mr. and Mrs. Elwood Tyler, Emmitsburg R1, son, last Thursday.

UTERINE CANCER DEATHS SHOW BIG DROP. per 100,000 population. 1930: 30, 1935: 27, 1940: 25, 1945: 23, 1950: 20, 1955: 16, 1960: 14. This substantial decline in the death rate from cancer of the uterus is the brightest phase of the current cancer picture, says the American Cancer Society. Uterine cancer still claims the lives of some 14,000 women annually. Yet the cure rate of uterine cancer when discovered early is nearly 100%. The Society stresses the importance to every woman of the annual health checkup, which should include a pelvic examination, a part of which should be the "cell examination for uterine cancer" (the "Pap" smear test). FIGHT CANCER WITH A CHECKUP AND A CHECK AMERICAN CANCER SOCIETY.
