BY ABIGAIL

Old Man Winter of 1963 will go down in the record books as one of the roughest and toughest mavericks to appear on the weather horizon in many a moon. Cold and snow records have topped in all four sections of the country and there has been little, if any, letup since December. While we weren't plagued with any great snowfall the prolonged cold, almost below freezing the entire winter, continues with us as we enter into March, the Spring month. Really, I believe this is about the longest cold spell I can remember in my many years. For the first time in 25 years the Great Lakes were frozen over and un-navigable this week. Our own local cold records have been broken, reaching as low as 15 degrees below. There is one consolation though and that is that there can't be much of it left and in just about a month you'll see individuals poking around planned gardens. The transition from winter to Spring will be a swift one I hope.

Despite promises from the State Roads Commission that Route 15 will be improved and the bypass of Emmitsburg completed this year, there seems little if any change that the project will be completed in time to tie in with Pennsylvania's opening of its new stretch of highway between here and Gettysburg. It was hoped both would be completed in time for the big Centennial celebration of the Battle of Gettysburg this coming July. However, since rights-of-way around the town haven't as yet been obtained and no bids advertised or let, it is now impossible to meet the July opening. Pennsylvania will be ready but Maryland. This bypass was really supposed to be completed years ago but we still are waiting. In fact it was planned in the first five years of the Roads Commission's 10-year plan that went astray long ago. What probably will happen, as it usually does in Maryland, is that the bypass will be started just about the time the Gettysburg Centennial gets under way. This will indeed make quite a mess for the hundreds of thousands of tourists who plan to visit Gettysburg and many of who will pass through Emmitsburg.

We thought there would be plenty of excitement around here when it was announced that the Town had purchased the local Water Company. However there has been little discussion on the matter. In fact the populace appears apathetic about the whole thing. Don't misunderstand me. I don't want to stir up any opposition to the deal. In fact, I'm heartily in favor of the deal but I did think you'd hear quite a bit of discussion when a matter of such great importance comes about. It isn't often that we spend \$170,000 here and for that vast sum you would think there would be a little excitement. I guess we all think it is a good deal.

Cardinal Spellman To Lead Pilgrimage

His Eminence, Cardinal Spellman will lead a pilgrimage from the United States to Rome for the beatification of Mother Seton which will take place in St. Peter's Basilica in Rome on March 17th.

The pilgrimage, which is sponsored by the Mother Seton Guild, Emmitsburg, representing the seven American communities of the Sisters of Charity which trace their origin to Mother Seton, will leave New York on three separate days—March 13, 14, and 15 and will assemble in Rome for the beatification ceremonies on March 17th.

The pilgrimage will be the largest religious pilgrimage by air to date, according to Fugazy Travel Bureau which is handling the arrangements. The airlines involved are: Air France, Alitalia, TWA, Trans-Canada, Irish International and Sabena.

Internal Revenue says furnish your Social Security number promptly when requested by your dividend or interest payers.

Chronicle Will Publish Baby Photographs

It is an undisputed fact that the responsibilities of tomorrow's world, our Nation, and Community will rest upon the shoulders of the children of today. Since this is true, the publishers of this newspaper would like to give you a good look at these future "World Builders."

The only way we can do this is by publishing pictures of them in a feature series. To assure the latest and best reproduction pictures, they must be all of uniform size and quality.

An expert children's photographer with all the necessary equipment for this specialized work will be here Monday, Mar. 4. Pictures will be taken at the VFW Annex and the Studio will be open from 1:30 p.m. to 7 p.m.

There is no charge to the parents. There are absolutely no strings to this invitation. It is bonafide in every sense of the word. Parents do not have to be subscribers nor even readers of this newspaper to take advantage of this feature. Neither are they obligated to purchase pictures after they are taken. Those who want some additional prints may obtain them by arrangement with the Studio representative when they select the pose they want printed in the paper. It is entirely up to them.

The Chronicle simply wants pictures of all the youngsters and the more, the better. Children who have been photographed for this feature in previous years are especially invited to return, so that we may see how they have changed. So the mothers and fathers of the community in which this newspaper circulates should remember the date, Monday, Mar. 4 at the VFW Annex, and not fail to bring their children to the photographer.

You will be mighty glad, afterwards, if you did, and very, very sorry if you do not permit your children to participate in this event. The kiddies will have much fun and both mother and dad—and the youngsters, too—will be very proud to see their pictures in print later. No appointment is necessary and there is no age limit. All children must be accompanied by a parent or guardian, and may come at any time during Studio hours. Photography will be handled by the Dansville, New York office of Woltz Studios of Des Moines.

Two Mount Players Named All-Stars

Two Mount Saint Mary's College Seniors, John O'Reilly and Dave Maloney, have been named to the Mason-Dixon Conference all-star basketball team by the coaches of the conference.

O'Reilly, 6'4, and Gene Horan, Catholic University, were named to the dream team for the third straight year.

Maloney, the sharp-shooter who carried much of the scoring brunt for the Mountaineers, was twice accorded honorable mention in the past.

The selections follow:
First Team
Maloney and O'Reilly; Gene Horan, Catholic U.; Frank Kaminski, Randolph-Macon; William Hardin, Hampden-Sydney.

Second Team
Riley Whorton, Baltimore; Donald Wallenhorst, Loyola; Morris Cregger, Roanoke; William Characklis, Johns Hopkins; William Leahy, Catholic.

Honorable Mention
Eddie Pfeiffer, Mt. St. Mary's; Norwood Davis, Hampden-Sydney; Raymond Dougan, Old Dominion; Pat Flynn, Loyola; Richie Klitzberg, Western Maryland.

Pfeiffer, who was picked twice previously for the first team, led the selections for honorable mention. He suffered a concussion after his fourth league game this year which ended his career. He was averaging 19.5 point per game at that time.

O'Reilly averaged 16.6 points per game during the regular league schedule while Maloney led the Mounts with a 20.8 mark.

Stationed in Korea
Pfc. Joseph L. Topper, son of Mr. and Mrs. Daniel Topper, E. Main St., and husband of the former Mary Elizabeth Barbe, of Rocky Ridge, arrived in Korea on January 22, where he will be stationed for 13 months. His address is: Pfc. Joseph L. Topper, RA 13743269, Co. D, EUSA, Signal LL Bn., APO 971, San Francisco, California.

A good face-saving idea . . . keep the lower half shut!

County Could Get More School Funds

Frederick County's share of state school aid would be increased by 173,104 if a proposal currently before the state legislature for changing the pattern of distribution of state money is approved.

Companion bills were introduced in the Senate and House of Delegates Friday to establish a plan in which state aid to education finances would be distributed on a per pupil unit basis instead of through the state minimum salary schedule for teachers.

The proposal would distribute an additional \$14,871,000 to the counties and Baltimore City for school programs. It would be financed by reducing the exemption on the state income tax from \$800 to \$600. Since the rate on state income tax is three per cent, this could amount to \$6 per exemption annually.

Frederick County expects to receive \$2,628,300 from state funds this school year. Additional money as a result of the change in distribution would not become available until the next school year, it was reported.

Although the proposal must pass through debate and voting, it would appear that the bill has a good chance of being passed. Near majorities in each legislative body sponsored the bill.

It is estimated that the new program would raise the state's share of the total current expense education program to approximately 40 per cent. The state is currently financing about 38 per cent of the school program.

All subdivisions in the state stand to receive increased percentages of state aid and counties with relatively low assessable basis would continue to receive larger percentages of state aid.

Dr. James A. Sensenbaugh, Superintendent of Frederick County Schools, explained that the per pupil unit basis used in the proposal is not based on so much money for each child.

Under the program, kindergarten pupils would count as 1/2 unit, pupils in grades one through six would each be equivalent to one unit, and students in grades seven through twelve would each be rated one and one-third units. Frederick County currently has more than 15,000 students enrolled in its public schools.

The proposed school finance plan also includes an incentive for reducing class size. Frederick County has been attempting to lower its class sizes for the past several years.

Under the new proposal, school systems employing more than 38 professional employees per 1,000 pupil units would receive an additional \$5 per pupil unit for each staff member in excess of 38 per 1,000.

Montgomery County is the only county which will qualify under this feature of the bill, but Baltimore and Frederick Counties have reduced class size to the point where they will be able to receive this incentive aid within the next year or two.

Mount Receives Gulf Grant

Mount Saint Mary's College has received a cash grant for unrestricted use from Gulf Oil Corporation.

It was one of 676 awards, totaling about \$500,000, that Gulf will distribute this year as direct, unrestricted grants to as many Universities and Colleges under its Aid-To-Education Program. Other aspects of the Gulf program will result in the distribution of more than \$1,400,000 to students and institutions of higher education for scholarships and other aid-to-education purposes.

Direct grants, such as the one received by Mount Saint Mary's, are calculated on the basis of a formula which takes into account the quality of the school's curriculum, the effectiveness of its program, and the amount of financial support provided by the alumni, the Foundation said.

Institutions eligible for direct grants are those which are privately operated and controlled, and which obtain a major portion of their financial support from non-tax sources.

The amount awarded to Mount Saint Mary's was \$692.00 and will be used in the college's State Grant Matching Fund. The fund was initiated to match the \$500,000.00 grant voted by the Maryland Legislature in 1962 toward the college's new Science Building.

Plan Pilgrimage To Beatification

His Eminence, Francis Cardinal Spellman is shown above discussing plans for the pilgrimage which he will lead to Rome for the beatification of Mother Elizabeth Seton on March 17th. The pilgrimage will be sponsored by the Mother Seton Guild, Emmitsburg, representing the seven

American communities of Sisters of Charity which trace their origin to Mother Seton. Pictured with His Eminence are the Very Rev. John A. McGowan, (left) vice-postulator of the cause of Mother Seton, and William Denis Fugazy (right) of the Fugazy Travel Bureau.

Phone Company To Improve Facilities Here

The board of directors of the Chesapeake & Potomac Telephone Co. of Maryland has approved during the past 12 months, expenditures totaling more than \$66,500.00, according to L. Mercer Smith, vice president of the company.

This total includes more than \$4,000,000 authorized at the regular meeting of the board on February 25.

To meet customer demands for service in Emmitsburg, Union Bridge and Walkersville, authority was given to spend \$69,000 for dial central office equipment.

The largest single amount approved at the February meeting was \$1,145,000, to install the latest type of long distance dial equipment at Chase and provide additional voice channels, to various offices in the Baltimore Metropolitan area. Also in the Baltimore suburban area \$247,000 was approved for inter-office trunks between Esses, the new office at Chase, and the new dial office at Edgewood. To handle an increasing volume of calls, \$46,000 was appropriated to place additional cables from Dundalk to Northeast Baltimore.

For Western Maryland, \$155,000 has been appropriated to add dial switching equipment at Hagerstown and provide additional voice channels to Clear Spring.

For the Eastern Shore \$99,000 was appropriated to construct a 40-vehicle carport - type service center to replace the present inadequate garage facilities at Easton. To meet the continuing demand for service in the rapidly expanding Maryland area suburb to Washington, a total of \$757,000 has been appropriated.

Lions Club Plans Shooting Match

Twenty members were in attendance at the regular meeting of the Emmitsburg Lions Club held Monday night in the Lutheran Parish Hall, Ralph F. Ireland presiding in the absence of President D. L. Beegle.

The club voted to send a fruit basket to Secretary - Treasurer Robert A. Seidel Sr., who underwent an appendectomy at the Warner Hospital, Gettysburg, this week. A communication from the Taneytown Lions Club was read, inviting local members to attend an oyster feed on March 12 at St. Joseph's Church social hall.

All members desiring to obtain "AL" car license plates were asked to contact the president immediately.

Ralph Tabler of the road sign committee, gave a report on his project and was authorized to purchase four highway signs and have them erected in the near future.

The club voted to sponsor a shooting match at the Civic Grounds and set the date as Sunday, March 17 at 1 p.m. William Strickhouser was named chairman of the event and a nice road reel will be awarded on that date to some lucky winner. Rain date for the event will be Sunday, March 24.

Four Mount Profs Honored

Rt. Rev. Robert R. Kline, Ph.D., President of Mount Saint Mary's College, Emmitsburg, has announced that Rt. Rev. Louis J. Mendelis, S.T.D., LL.D., Class of 1924, pastor of St. Alphonsus Church, Baltimore, has founded two scholarships, each valued at \$10,000, to honor the "special achievements and devotion" of four of the present members of the lay faculty at the Mount.

The four lay professors have a combined service of teaching at the Mount totaling over 100 years. They are Richard J. McCullough, Associate Professor of Mathematics, 34 years; Dominic G. Greco, Associate Professor of Biology, 33 years; John J. Dillon, Ph.D., Professor of English, 23 years; and John W. Richards, Ph.D., Professor of Physics, 23 years.

Professors McCullough and Greco are honored by the Most Reverend Michael J. Curley, D.D., scholarship, founded in memory of the Archbishop of Baltimore from 1921-1947. Doctors Dillon and Richards are honored by the Most Reverend John DuBois, D.D., scholarship founded in the memory of the founder and first president of the Mount St. Mary's College and Seminary (1808-1826).

Monsignor Mendelis has long been a benefactor of the Mount having previously founded five other similar scholarships as well as two \$1,000 memorial prizes for academics.

Dave Frailey Heads Air Line News Service

David C. Frailey, son of Mr. and Mrs. C. G. Frailey, Emmitsburg, has been appointed system director of news and information services for American Airlines, with headquarters in New York City, it was announced by Karl Dahlem, assistant vice president, public relations.

He has been based in Chicago since 1953 in charge of the airline's central area public relations bureau, which embraces 14 midwestern states.

In his new post, he will direct and coordinate the company's external news service and an internal information program that includes a weekly management newsletter, a weekly company newspaper and biweekly newspaper published at the company's Tulsa, Okla., maintenance base.

A graduate of Mount St. Mary's College, Frailey was an Associated Press news editor before joining the airline's public relations department in 1946. During World War II, he was an Army master sergeant in charge of the Third Service Command's press and radio branch.

He was named chief of the airline's Washington public relations division in 1947, then served as assistant eastern regional public relations director in New York, district public relations representative in San Francisco and New England regional public relations director in Boston before going to Chicago.

He and his wife and two children live in Evanston, Ill.

RUTH D. LANSINGER

Mrs. Ruth D. Lansinger, wife of the late Joseph Thomas Lansinger, died at her home, 941 St. Agnes Lane, Catonsville, Md., Wednesday, Feb. 20. Mrs. Lansinger, born Miss Ruth Agnew, is survived by the following sons: Francis M. Lansinger, John R., Gordon M., Joseph D., and Everett V. In addition, these daughters survive: Mrs. Joseph Miller, Mrs. Genevieve Smith, Mrs. Mary Danko, Mrs. Lucinda Reagan, Mrs. Ruth Johnson and Mrs. Thea Nolan.

The deceased was born in Emmitsburg, the daughter of the late Mr. and Mrs. John Agnew and had resided in Catonsville for the past 42 years. Two brothers and two sisters also survive: Donald Agnew, Ohio; Paul Agnew, Arizona; Mrs. Grace LeFever, Ohio and Mrs. Anna Rauchfeish, Ohio.

Funeral services were held Saturday, Feb. 23 with a Requiem high mass at St. Agnes Catholic Church in Catonsville. Interment was made in Meadowridge Cemetery, Baltimore.

"A free press stands as one of the great interpreters between government and the people. To allow it to be fettered is to fetter ourselves." U. S. Supreme Court, 1936.

April 15, 1963 is the deadline for filing your Federal income tax return.

Mountaineers In Mason-Dixon Playoffs

Regular season Mason-Dixon Conference basketball play came to an end for Mt. St. Mary's College last Thursday evening when they went down to defeat at the hands of American U., in Washington, by an 84-79 score.

The Mountaineers, who whipped American a week before at Emmitsburg 78-56, trailed throughout as their regular season record fell to 9-10.

At half time the Eagles were on top 41-33. The Mount fought back desperately and slashed American's lead to 81-79 with about 15 seconds remaining but then fouled in its effort to secure possession of the ball and the Eagles picked up three points from the foul line.

Dave Maloney and John O'Reilly, the only Seniors in the Mountaineer lineup, racked up 26 and 20 points respectively.

Coach Jim Phelan's squad advanced to the quarter finals of the Mason-Dixon Conference by routing Towson State 89-58 in the first game of a regional double-header Saturday evening at Loyola College, Baltimore. In the second game Baltimore University walloped Washington College 91-73.

Quarter final games were played on the Catholic University floor at Washington last night, with semifinals tonight and the title game Saturday evening. Last night the Mountaineers were paired with the host team, Catholic University.

The first and fourth game victors and second and third game winners last night will start to-night's semifinals at 7:30 with the nightcap due to go two hours later. The winners of these two games square off for the championship Saturday at 8:15 with the titlist earning a trip to the NCAA college division series. Mt. St. Mary's went all the way in 1962.

Towson was a contender against the Mount only during the first five minutes of play when it trailed 11-8. Jim Phelan's outfit then poured through 15 straight points, seven by John O'Reilly, and there was no question thereafter as to the ultimate outcome.

O'Reilly took care of the inside shooting and Dave Maloney hit from outside as the Mountaineers led 35-24 at intermission despite a brief rally by Towson late in the half which was led by Jerry Smith and Clark Terry.

After two minutes of the second half the Mountaineers broke the game wide open on the set shooting of Maloney and John Carrel as they built a 70-43 advantage with 8:50 left.

Maloney and Ed Folk wound up with 23 and 20 points respectively, for the winners. The victory evened the Mountaineers' overall season record at 10-10.

Brownie Troop Entertains Guests

Brownie Troop 1300 had its special meeting last Friday evening, which had been twice postponed because of weather. The program opened with the flag ceremony, followed by one verse of America and a poem read by Debbie Gillespie. The color guard was Valerie McCleaf, Debbie Watkins, Linda Topper and June Hardman, with Ann Umbel as Commander.

Miss Linda Topper was hostess for the evening and gave out name tags to the guests as they arrived. The Brownies put on a play of The Brownie Story. The main characters were: Grandmother, Nancy Carr; father, Vickie Valentine; boy, Sheila Chatlos; girl, Pattie Eyer, and the wise old owl, Mary Ann Rice.

Following the play the Leaders, Mrs. Lindsey and Mrs. Rice, invested the newest Brownies.

They were Debbie Watkins, Valerie McCleaf, Pattie Eyer and June Hardman. Due to be invested were Ivanka, Vida and Anna Antoline who could not be present because of the flu bug. The girls were to sing some songs in their native tongue.

Refreshments were supplied by the mothers of our February birthday girls, Nancy Carr and Valerie McCleaf. Mrs. Valentine took charge of serving and also supplied some of the refreshments. The group wishes to thank the fine parents who back the group and to all who braved the cold weather to attend the get-together.

St. Joseph's High School News

Contest Winner Announced
At a special assembly in Saint Joseph High School auditorium, Father Louis Storms, C.M., pastor of St. Joseph's Church, announced the winners of the recent essay contest on St. Vincent de Paul.

The contestants were divided into two groups, seniors and juniors; sophomores and freshmen. In the senior group the awards were as follows: first prize of \$10, Charles Stouter, senior; second prize of \$5, Edward Marzola, senior; third prize of \$3, Mary Oster, junior.

As a reward for the research and excellent writing evinced by all the students, Father Storms treated the entire student body to refreshments.

28 Students To Take Test
Twenty-eight students plan to take the 1963 National Merit Scholarship Qualifying Test, Sister Antonia, principal, announced.

The qualifying test is a three-hour examination of educational development. The test is the first step in the ninth annual competition for four-year Merit Scholarships provided by the National Merit Scholarship Corporation and by sponsoring corporations, foundations, associations, unions, and individuals.

Bowie Drawing Top Class Horses

Montpelier's Mongo checked into Bowie early this week with three stablemates from Camden, S. C. winter training quarters, to prepare for his 1963 debut at Bowie. The four-year-old son of Royal Charger and Accra was rated the third leading member of his division last year and is reported to have grown considerably and filled out very well at the Carolina center where he has been in light training under Frank A. "Downey" Bonsal.

Attendance and mutual figures at the half-way mark of the 40-day meeting show healthy increases in comparison to last year's 20-day point. Attendance is up six per cent with a total of 222,781 and daily average of 11,435. The mutual handle for this period reveals a 7% increase; total money stands at \$20,478,228 and a daily average of \$1,023,911.

St. Joseph's Tops Deaf School

Jack Topper's foul shot with less than five seconds in the game gave St. Joseph's High School a 47-46 victory over the Maryland School for the Deaf Tuesday night in the local gym.

Topper tossed in a total of 14 points, but the important marker came in the final moments after the Frederick team had tied the game.

John Little was high for the Saints with 28. Milbert Jones led MSD with 16 points.

NATIONAL BOWLING LEAGUE (Emmitsburg Recreation Center)
Table with columns: Team, W, L. Rows include East End Garage, Auto Elec., Farm Boys, The Palms, Pen Mock, Lightning Leaders.

Tuesday's Results
Auto Elec. 4; East End Garage 0
The Palms 3; Lightning Leaders 1
Farm Boys 3; Pen Mock 1

Under New Management
The Sylvan Restaurant on Center Square, which has been operated for the past five years by Mr. and Mrs. John Gilman, is now under the management of Skip Taylor.

Open New Office
Drs. D. L. and John Beegle have opened a Chiropractic office in Gettysburg, Pa., on Baltimore St. The Emmitsburg office of Dr. Beegle will remain open as usual.

Wivell Rites Held
Funeral services for Mrs. Fannie Agnes Wivell, 52, wife of J. Norbert Wivell, who died at her home, R2, Thurmont, last Tuesday, were held Friday morning from the Wilson Funeral Home, Emmitsburg, followed by a Requiem Mass at St. Anthony's Catholic Church, Rev. Fr. Vincent J. Tomalski officiating.

Soil Acidity Can Be Controlled

"It is amazing but true that excessive soil acidity is still one of the most limiting factors in crop production in Pennsylvania. Although the cure for this ailment is cheap and abundant and has been known for centuries, crop yields suffer because of inadequate liming."

The soils of the eastern United States have become progressively more acid because calcium and magnesium are lost through leaching, crop removal, and the increased usage of acid forming nitrogen fertilizers.

ine the correct rate of application of liming materials to replace these essential minerals and increase crop production. There are two ways of checking the lime needs (a) the pH method, which measures the active acidity of the soil solution, and (b) the lime requirement method, which measures the potential acidity of the soil.

One other factor which influences soil acidity is the presence of aluminum ions adsorbed on the soil colloids which also act in the same manner as the hydrogen ions. The addition of limestone releases the aluminum ions and simultaneously releases a hydrogen ion which requires an additional quantity of limestone to neutralize the soil.

State Fatalities Rise Over Week

Fifteen persons were killed on Maryland highways last week according to the weekly survey published by the Maryland State Police.

Eight of those killed were drivers; two were passengers; and five were pedestrians. Alcohol was a contributing factor in four of the deaths; speed in five; and "driver error" was present in ten of the fatalities.

"In this State and, in fact, nationwide the sharp upsurge in traffic crashes, deaths, and injuries during the current year has marred the traffic picture of recent years," according to Major G. E. Davidson, Field Commander of the Maryland State Police.

"During the first month of this year, we experienced a total of 4,734 traffic accidents, resulting in thirty-two fatalities and injury to 2,262 persons. This represents a 3% increase in total accidents over the same month a year ago and a 21% increase in personal injuries.

"Some of the predominant causes are violations of speed, right of way, reckless driving, following too closely, driving to left of center, and drunken driving.

Major Davidson further said, "We must drive defensively, keep our car under control, be alert for pedestrians—especially children and old people, adjust our driving to compensate for adverse road and weather conditions, and exercise good judgment at all times if we hope to curtail this ever-increasing concern—damage and injury and loss of life."

Hospital Report

Admitted
Miss Ruth E. Gillelan, Emmitsburg.
Robert A. Seidel Sr., Emmitsburg.
Robert L. Koontz, Emmitsburg.

Discharged
Miss Marie R. Smith, Emmitsburg.

Births
Mr. and Mrs. John D. Andrew, Emmitsburg R1, daughter, Monday.
Mr. and Mrs. David W. Long, Emmitsburg R2, daughter, Tuesday.
Mr. and Mrs. Kenneth R. Wagerman, Thurmont R2, daughter, Wednesday.
Mr. and Mrs. Richard Layman, Thurmont R2, daughter, Wednesday.
Mr. and Mrs. Ernest L. Hurley, Thurmont R2, son, Tuesday.
Mr. and Mrs. Cyrus L. Manahan, Thurmont R2, daughter, Saturday.
Mr. and Mrs. Clarence D. Knott, Thurmont R2, daughter, Saturday.

"Only when there is a strong, free press, with an unflinching sense of responsibility, can truth flourish and man grow to his maximum capability." — Dwight D. Eisenhower.

Dividend Exemptions Are Explained

It has come to the attention of Irving Machiz, District Director of Internal Revenue for the Baltimore District, that there is some misunderstanding that interest on savings accounts in banks and building and loan associations is not taxable below \$50.00. This is not correct. The \$50 exclusion applies to dividends only from domestic corporations.

All interest either received or which was credited to your account even though not actually received during 1962 generally must be reported on your Federal income tax return, regardless of amount.

Some of the more common interest which is taxable includes interest on savings, when credited to your account even though it is not recorded in your pass book, interest on bonds, loans, mortgages, on refunds of Federal or State taxes, on U. S. Bonds, and interest on life insurance dividends, including G. I. insurance left on deposit.

Also included as interest income are certain so-called "dividends" on deposits or on withdrawable or share accounts of domestic Building and Loan Associations, domestic Savings and Loan Associations, Credit Unions, Mutual Savings Banks and Cooperative Banks.

Taxpayers who have any questions about interest income should telephone their local Internal Revenue Office. In Baltimore, the telephone number is 837-1040. In Washington, D. C., REpublic 7-8750. Ask for Tax Information Service.

Whale Bones Found On Maryland Coast

Bones found along the west bank of the Patuxent River in the Cape St. Mary's area last fall have been identified by the Smithsonian Institution as those of the vertebrae from various positions of the spinal column and other pieces, not determinable as to position in the skeleton, as those of a pre-historic whale.

The accidental archeologist was J. A. Murphey, a graduate of Charlotte Hall Military Academy in the class of 1957. According to Mr. Murphey, during a lull in a private oyster-tonging expedition, he noticed an unusual protrusion from the perpendicular river banks opposite the oyster beds. Upon investigation, he found it to be stone-like bones of unusual size and shape which were firmly embedded in the alluvial clay banks.

Realizing that this was a little out of the ordinary, Mr. Murphey withdrew to procure some trenching tools which are a little heavier than ordinarily carried by an oystering boat. Returning to the scene with only meager trenching tools and after many tedious hours, he excavated as many bones as possible. For further study and identification, Mr. Murphey donated them to the Science Department at His Alma Mater, Charlotte Hall Military Academy.

Shortly after accepting the bones, Captain David A. Newsome of the Science Department, realizing a pre-historical importance of them, shipped them to the Smithsonian Institute in Washington, D. C., for positive identification.

The bones have been returned with a letter from Mr. C. Lewis Gazin, Curator, Division of Vertebrate Paleontology, Smithsonian Institution, which states, "Without the skull, I would not hazard a guess as to the genus or species represented. The age of the beds in the area where the material was found is late Miocene dating back approximately 12 million to 15 million years."

As a result, the science classes at Charlotte Hill Military Academy are studying pre-historic mammals from actual exhibits rather than from pictures and plastic models.

Dean's List

Rev. Francis P. Kearney, academic dean at Mount Saint Mary's College, Emmitsburg, has announced that 25 collegians have been included on the Dean's List for the first semester. To be included each student must maintain an 88% or better average

in each of the subjects for which enrolled.

The twenty-five collegians include three seniors; seven juniors; eight sophomores and seven freshmen; with eight students from Maryland; seven from New York; five from Pennsylvania; three from New Jersey; and one each from Virginia and Connecticut.

Among the students honored is Terrence R. Best, senior, of Thurmont. He is the son of Mr. and Mrs. Jesse D. Best, Thurmont, and is a senior biology major. He is a graduate of St. Joseph's High School, Emmitsburg.

SODALITY MEETS

The regular monthly meeting of the Sodality of St. Joseph's Church was held on Monday evening in the Parish Hall. President Mary Sherwin presided with 16 members and 1 guest present. The group decided to serve the St. Joseph's High School Alumni banquet on Saturday, May 25. A hat contest will be held at the April meeting. There will be no meeting in March. Mrs. Roy Little's name was called for the door prize, but was not present. A social hour and refreshments followed the meeting.

"When the press is free and every man able to read—all is safe."—Thomas Jefferson.

To Judge Auditions

Rev. Dr. David W. Shaum, professor of music at Mount Saint Mary's College, Emmitsburg, has been invited to serve on a panel of judges at the piano and vocal auditions of the Maryland state contest of the National Federation of Music Clubs. The adjudication will be held at the Peabody Conservatory of Music, Baltimore, March 4.

100 YEARS AGO

U. S. CONGRESS PASSES NEW CONSCRIPTION ACT

By Lon K. Savage

A new Federal draft law came into being 100 years ago this week, setting off a controversy that would rage for months.

It was a conscription act designed to place more power in the hands of the Federal government in raising troops to fight the Civil War.

The Union had passed a draft law the year before (and the Confederates had passed one before the Union's first conscription act). The first conscription act had brought an increase in volunteers among men who felt that conscription bore a stigma. It also had brought in some draftees. But the enforcement of the 1862 act had been left to the governors of the states, and some governors had been lax in that enforcement, the Lincoln administration felt.

Hence a new draft law was introduced early in the 1863 session, debated for more than a month and finally passed. President Lincoln signed it March 3.

Exemptions

There were features in the bill that would make modern draftees finch. Men who were called to service could rid themselves of their military obligation by paying \$300 to the government. If a draftee could hire a substitute to go in his place, that would exempt him, too. Thousands of Northerners adopted these two means to avoid the military.

Thousands of others were exempted for different reasons. Many were exempt for physical reasons. The son of aged and infirm parents or the only son of a widowed and dependent mother was exempt. The father of motherless children under 12 was exempt. If two men in a family were in the service, two other men in that family—if they existed—were exempt. If aged and infirm parents had two sons, the father must decide which one was to go to war. If he were dead, the mother must make the decision.

Beyond that, all men between 20 and 45 were subject to the draft. Those between 20 and 35 and unmarried men from 35 to 45 were placed in a "First Class" which was to be called first. The rest were placed in "Second Class" and were to be called when the First Class had been exhausted. The men were selected by drawing lots.

Administration

The administration of the program was placed in the hands of a Federal Provost Marshall. The states and territories were divided into districts, with a local provost marshal presiding over each district. A list was to be made of men fighting age in each district, and the quota of each district was to depend on the number of men on its list.

Almost immediately, "enrollers" set out through the land collecting names and making up lists of the eligible men. And simultaneously, resistance to the law sprang up. So many people paid cash to get out of the draft that the draft law paid for itself. Substitute soldiers found sudden popularity.

Before the following autumn, the draft law had caused a bloody riot in New York, the shooting of many "enrollers" and the growth of "Copperhead" organizations opposed to the war.

Next week: Ranger Mosby Makes a Raid.

Children's Corner

BEAN BAGS

Bean bags are easy to make and fun to play with. Don't put too many beans in one because then it isn't as easy to throw.

Elizabeth and Tommy are tossing a bean bag to one another but neither of them is very good at catching it. Sometimes the bean bag goes right into their hands, but if it doesn't, they just laugh and pick it up from the floor.

Bean bags are fun to play with because they can't hurt anybody. They're not hard like a ball, but they can be thrown and caught just as easily.

They're also easy to make. If you can thread a needle and sew even a little, you can make one for yourself. Just double any fairly big piece of cloth over on itself, sew up two of the open edges, put dried beans in the little bag you have made, and then sew the last open side closed.

The bean bag in the picture is a fancier shape. It looks like a little clown as you can see (his face is turned towards the wall) and the clown's baggy pants hold the beans.

Any shape you want is fine for a bean bag. Maybe Mother will help you if you want a special shape. Tell her that dried beans may be saved from those you grow in the garden or bought at any grocery store for a few cents.

BABSON

Writes . . .

BY ROGER W. BABSON

Babson Discusses Business Education
BABSON PARK, Mass., Feb. 28—I am writing this column in Florida overlooking a beautiful

garden of snapdragons. The stalks are about three feet high and the blossoms seven inches above the stalks. They are in eight different colors. Yet they have the same soil, the same water, and the same sunshine.

What An Agricultural Expert Tells Me

I had lunch today with a government expert of the Agricultural Department. I asked him what caused the difference in the size and color of these snapdragon blossoms. He said that the care which they received from my gardener made some difference; but that fundamentally it was a question of inheritance.

We agreed that the different stalks of the snapdragons might be compared with young people going to school. For some time while at school they may not show their different tendencies. However, one child may be smarter than another, just as one stalk appears to grow more than another. He stated that life is basic, whether in the tiny snapdragon seed, or in the "seed" entering the mother's womb and fertilized by the father. The basic elements, whether of a plant or of a human being, are known as DNA and RNA, which are abbreviations for the life-giving chemicals.

What About DNA and RNA?

I then asked this agricultural expert if the law of inheritance applies equally to snapdragons and high school graduates seeking further education, and he replied that the same laws of inheritance do apply. This probably means that a large percentage of young people should not go to college, as in such cases it is a waste of good time.

Applying the DNA and RNA forces to college work is very important. Assuming that too many young people go to college anyway, they should give specific consideration to what line of education they are adapted for. This is very largely neglected today both by the colleges and by the parents.

What About Government Scholarships?

I believe in scholarships to help deserving young people who know what they are fitted for and who are earnestly seeking that goal, whether it is science, medicine, law, or some trade. I do not object to carpenters, electricians, or bricklayers getting the high wages they do. Admiral Rickover, who forced the Navy to become interested in atomic submarines, is reported to have said that educational experts and good teachers should be paid more than

It's Time For... EYE CARE

Dr. Newton K. Wesley
THE LENS IN YOUR EYE

Let us talk a little about the crystalline lens, which is a very important part of the eye. It bends the rays of light and changes shapes.

In a camera, we think of refocusing by mechanical means. The shape of the lens in the eye is changed by a muscular ring around the crystalline lens. The exact functioning of the crystalline lens is not completely understood, but it is thought that the muscles surrounding the lens actually apply or decrease pressure on certain ligaments to center the shape of the lens.

If you look at a close point, the rays of light are more divergent and they must be bent to focus; therefore, the crystalline lens changes shape to become sharper in curvature. This changes the focus and improves your vision. The resiliency of this lens is very important, and after the age of about 25, it begins to harden. By the time we reach 40 or 45, the lens has hardened just as other parts of the body may harden. Bones are a good example of such action.

At this point, the lens no longer changes to accommodate vision for nearby objects. Then we complain about lighting when we read, or headaches, or we repeat the old joke that our arms are too short for reading when we hold a newspaper.

This "old age sight" is a normal change and nothing can be done about it. We see our eye doctor and he fits us with glasses or contact lenses.

Bowie Handicap Scheduled Next Week

Three of the nation's top thoroughbred stars—Fred W. Hooper's Crozier, Hobeau Farm's Beau Purple and Montpelier's Mongo—head a list of 17 horses nominated for the 46th running of the Bowie Handicap. The mile and a sixteenth fixture for 3-year-olds and up will be renewed at Bowie on Saturday, March 9.

Crozier comes off a pair of

most Congressmen now serving in Washington.

He claims that education of young people is now "topsy-turvy" and that our voters should recognize this sad fact. Certainly, scholarships are now given out too freely. The young person's aptitudes should be considered carefully and the Scholarships should be given only for the education of the student in the direction for which he or she is fitted.

Scholarships And Politics

Unless the above scholarship policy is followed, Government aid to education may do more harm than good. This applies to the building of fancy schools, and government aid to colleges. There are too many "brass hats" amongst college professors, as there are in the Navy and Army.

This scholarship program would not rule out higher education for children whose parents are anxious to have their youngsters get college diplomas, irrespective of their adaptability. They could still be sent to private schools and colleges to graduate and go into some business or profession for which they are not fitted. This is done today; and should always be possible.

Instinct And Experience

Two final questions for us all to consider are these: (1) For our children, does success depend more on education or upon natural instinct and experience? (2) Are they naturally lazy or are they ambitious?

One final thought: Parents can take out insurance which will greatly help their children get the equivalent of a scholarship whether or not the college or the government gives one.

handicap victories this season at Santa Anita. Beau Purple conquered the mighty Kelso twice last year. And, Mongo, regarded by many horsemen as an extremely promising champion, accounted for three important decisions in 1962—the United Nations, Trenton and Pilgrim stakes.

The trio is also nominated for the \$100,000 John B. Campbell, Maryland's richest handicap which will be contested on closing day, March 23.

Other prominent among the eligibles include Hill-N-Dale Farm's Bronze Babu, Montell Stewart's War Council and Gaelic Lad and Elmendorf's Nickel Boy.

Bronze Babu was the hero of the Bougainvillea; a mile and three-sixteenth turf event at Hialeah Park. In his last outing he was second to Intercepted in the Hialeah Turf Cup. Nickel Boy closed out his 1962 campaign with a victory in the Jennings Handicap at Pimlico.

The strong entry of War Council, victor of the Southern Maryland at Bowie, and Gaelic Lad, consistently good in all his efforts at Bowie this season, also figure prominently in the Bowie.

State Police Seeking Troopers

Colonel Carey Jarman, Superintendent of the Maryland State Police, announced today that the Recruit Class for Troopers scheduled to start next July will be larger than usual due to the opening of the new Northeastern Expressway later in the year.

Experienced Troopers will be selected to maintain a 24-hour patrol on this new toll facility. It will be necessary, therefore, to replace those selected with new personnel.

This presents a real opportunity for the young man who can qualify for appointment as a Trooper in the State Police.

Applicants must be citizens of the United States and residents of Maryland; they must be between the age of 21 and 31, with a minimum height of 5 ft. 10 in. and an approximate minimum weight of 160 pounds; high school diploma or equivalent thereto is required; they must be physically

qualified and of excellent moral character.

The Commissioner of Personnel will hold written examinations for qualified applicants in Baltimore, Cambridge and Hagerstown on Saturday, March 30. Applications must be submitted to that office as soon as possible.

Applications and further information may be obtained from the Office of the Commissioner of Personnel, State Office Building, Baltimore, Md. or any State Police installation.

All checks and money orders in payment of Federal taxes should be made payable to "Internal Revenue Service."

This Newspaper

wants pictures of all the children in this area to publish in a future series entitled "Citizens of Tomorrow". To make it representative of the entire trading area we want pictures of as many youngsters as possible. There is no age limit, neither is it necessary to be a subscriber to this newspaper. Therefore, we ask the cooperation of all the parents (and grandparents, too!) to help make this a success. The Studio hours and location are shown below. Just take your children there and several poses will be taken free of charge by a nationally known children's photographer who specializes in feature photography for newspapers. All proofs will be shown and you select your favorite pose for publication. There is no charge or obligation. You may, if you wish, order photographs for gifts or keepsakes from the studio, but this is entirely up to you.

Electric Heating Rates To Drop

A sharp reduction in electric house heating costs appears to be an early prospect for customers of The Potomac Edison Company. Mr. John W. Morgan, local manager for the utility company has announced that his organization has filed a complete new house heating rate with the Public Service Commission of Maryland.

According to Mr. Morgan, the new rate will provide heating at a bottom figure of 1 2/10 cents per kilowatt hour as compared to the 1 3/4 cent figure presently in effect. The proposed rate will be available to all customers who use electricity to heat their entire homes and will also apply to all other uses of electricity in such homes including water heating.

The proposed rate is as follows:

For the first 150 kilowatt hours or less—\$5.65;

The next 250 kilowatt hours at 2c per kilowatt hour;

The next 250 kilowatt hours at 1.50c per kilowatt hour.

All over this amount would be billed at 1.20c per kilowatt hour.

Subject to the approval of the Public Service Commission, the new rates will become effective

the 21st of March, 1963.

In commenting on his company's action, Mr. Morgan said "the proposed new rate compares favorably with that available from any other investor owned electric utility anywhere in the country. It should enable us to much more actively develop and promote the electric house heating market. The approximately 1,000 customers of the utility system who presently heat their homes electrically will benefit immediately upon approval of the rate."

This reduction becomes one more in the rapidly growing list of consumer price decreases effected by the utility company which has never had a general rate increase in its entire history. Contributing to making this outstanding record possible has been the availability of power from increasingly larger and more efficient generating units and the advantages gained through interconnections with other utility systems.

Recent developments in this area would appear to promise well for a future continuation of past and present trends. In the latter months of 1962, the local utility became part of an electric utility grid stretching from the Atlantic Ocean to the Rocky Mountains and from the Canadian border to the Gulf of Mexico. This arrangement not only provides "insurance" against failure of power stations but it makes possible the use of the cheapest power available from a large number of modern, low production cost plants, and future low cost nuclear plants.

In this connection, it is also encouraging to note that an Allegheny Power System power station now under construction from which this company will receive electricity will produce power at an approximately 4% saving in fuel. At the same time plans are being completed for another APS 500,000 kw unit to be in service

NO. 20,207 EQUITY IN THE CIRCUIT COURT FOR FREDERICK COUNTY IN EQUITY

SANDRA DIANE JENKINS VS. CHARLES WILLIAM JENKINS

The object of this Bill is to procure a divorce A VINCULO MATRIMONII by the Plaintiff, Sandra Diane Jenkins, from the Defendant, Charles William Jenkins.

The Bill states in substance that the parties were married on July 8, 1961, in LeGore, Maryland, by Rev. Harry L. Angle, a regularly ordained Minister of the Gospel; that the Plaintiff is a resident of Maryland, having resided in Frederick County for more than two years last past; that the Defendant is a non-resident of the State of Maryland, residing in the State of Virginia, at Sunset Hills; that no child or children were born as a result of the marriage; that on July 15, 1961, the parties hereto voluntarily and verbally agreed to live separate and apart and have since lived separate and apart; that the voluntary separation has lasted for more than 18 months and it is final and there is no reasonable expectation of a reconciliation. The Bill prays that the Plaintiff may be divorced A VINCULO MATRIMONII, from the Defendant, and for general relief.

It is thereupon this 30th day of January, 1963, by the Circuit Court for Frederick County, sitting as a Court of Equity, ORDERED that the Plaintiff give notice to the said non-resident Defendant of the objects and substance of this Bill by causing a copy of the same to be published in some newspaper published in Frederick County, once a week for four successive weeks prior to the 9th day of March, 1963, commanding him to be and appear in this Court in person or by Solicitor, on or before the 9th day of April, 1963, and show cause, if any he has, why a Decree should not be passed as prayed.

ELLIS C. WACHTER

Clerk of the Circuit Court for Frederick County. Filed January 30, 1963 Samuel W. Barriek Solicitor for Complainant TRUE COPY TEST: Ellis C. Wachter, Clerk 2(8,4t

in 1967 which will generate electricity even more efficiently. It is in this direction of larger and more efficient units combined with ties with other companies that the best hope of future rate improvement lies.

Coincident with this application by the local company, the affiliated companies of the Allegheny Power System, Monongahela Power Company and West Penn Power Company, are filing similar new low house heating rates having a terminal block of 1 2/10 cents per kilowatt hour with their respective regulatory commissions.

Farmers To Vote On Wheat Choice

Wheat growers will have a choice of two programs for 1964, according to William L. Dudley, Chairman, Maryland Agricultural Stabilization and Conservation State Committee. The choice will be presented to farmers in a referendum to be held this spring, as directed by law.

In general the Chairman explained, the first program would limit production of wheat to market and export needs. It would provide farmers with price support at an average of \$2 per bushel for the bulk of their 1964 wheat marketings. It would offer payments for wheat acreage diverted to conservation use. And it would maintain farmers' income from wheat at the average of recent years. This is the program farmers would choose by voting "yes" in the forthcoming referendum. Approval by at least

two-thirds of the farmers voting is required to make the program effective.

The alternative program — which farmers would choose if they voted "no"—would provide no limits on production or marketings, and—only to growers who stayed within their allotments—price support at 50 per cent of parity, about \$1.20 per bushel. It would result in increased wheat production, and a sharp decrease in income for wheat growers. Farmers could be expected to get a market price of only about \$1 per bushel, on the average, for their wheat.

Mr. Dudley said that technical details of the 1964 wheat program now are being developed by the U. S. Department of Agriculture in cooperation with representatives of wheat growers and the grain trade. Major preliminary provisions of the 1964 program announced to date include:

- (1) A national marketing quota of about 1.2 billion bushels and (2) a national acreage allotment, calculated from the marketing quota on the basis of current average yield expectations, of about 49.5 million acres, the same as in 1962. Farm allotments will be about 10 per cent below the 1963 allotment—about the same as in 1962.

OUTDOOR SPORTING TIPS

C Clamp In Camp Some medium size C clamps have a variety of interesting uses around a camp. They can be clamped to tent poles to hang

clothes on, or shaving mirrors. On overhead poles they keep things out of the way and for repairs to busted gear they excel. Manila Bucktail

Many's they old salt water fisherman that knows the worth of a Manila bucktail. In a lure scarcity, just fray a piece of the anchor rope and lash it to a hook. Makes a fine wiggly-skirted lure.

Foil Fire Peaty soils that are found in many areas can harbor smoldering fire for long periods even though you extinguish them conveniently. Don't take chances. Build your fire on a foil blanket, douse fire with water when through.

(Try for a \$50 prize. Send your tip to A.A. Contest, Sports Afield, 959 8th Ave., New York 9, N.Y.)

Timely tip from IRS . . . The deadline, Monday, April 15, is fast approaching for taxpayers who have not yet filed their Federal income tax return for 1962.

Brotherhood Week Observed At Local School

The Emmitsburg Elementary School held a Brotherhood Program on Thursday, Feb. 21, in the school auditorium and the Senior High School held their assembly on Friday, Feb. 22.

All of the classes in the Elementary School participated in the program using "Brothers Around the World" as the theme. Colleen Hewitt, Grade 6, was announcer for the following program:

"Ring Around the World," a choral reading and "The Marionettes," a song from France, Mrs. Leary's 1st Grade; "I Am A Great Musician," an Irish song, Miss Stull's 1st and 2nd Grades; A French-Canadian Game, Mrs. Walter's 2nd and 3rd Grades; Mexican Song and Dance, Mrs. Howarth's 4th Grade; A Visit to Japan, Mrs.

Williams' 3rd Grade—This included Japanese art, clothes, and the use of the soroban in arithmetic, ending this display with an oriental song in which the boys played special instruments and the girls sang. Song and Dance from Spain, Mrs. Arsenault's 5th Grade; Songs of the South, Mrs. Scott's 6th Grade; and "The Heart That Talked," a play, Mrs. Elliott's 5th Grade. Players were Calvin Chatlos, Linda Gillespie, Pamela Dickson, Paul Baumgardner, Jimmy Hess, Wanda Eiker, John Martin, Shirley Sheeley, Douglas Adams, Leslie Glass.

The High School assembly included three selections by The Ensemble, a poem read by Donna Saylor, and a play, "The School President," presented by the Eleventh Grade.

Egotism is the art of seeing in yourself qualities that no one else can see.

MARY WASHINGTON'S Baking Fun

#4

Tempt your family's hearty morning appetites with these tasty quick breads and pancakes. Mouth-watering treats are easy-as-pie when you try Mary Washington's special recipes. Gather ingredients together the night before . . . and presto you're ready to mix and bake while the coffee brews.

CHEESE-SESAME MUFFINS

2 cups sifted, enriched, Wash- 3 tablespoons oil or melted
ington Self-Rising Flour shortening
2 tablespoons sugar 10 1/4 inch cubes of cheese
1 egg Sesame seeds
3/4 cup milk

Combine flour and sugar; beat together the egg, milk, and oil. Add liquid ingredients to dry ingredients and stir until flour is just dampened. Fill greased muffin cups 2/3 full with batter. Place a cube of cheese in center of each muffin. Top with sesame seeds. Bake at 425°F. 20-25 minutes or until golden. Makes 10 large muffins.

MARMALADE-NUT CRESCENTS

2 cups sifted, enriched, Wash- About 3/4 cup milk
ington Self-Rising Flour Orange marmalade
3 tablespoons shortening Finely chopped nuts

Cut shortening into flour until mixture is crumbly. Gradually add milk until a soft dough is formed. Turn out onto a lightly floured surface and knead gently six strokes. Divide dough into two pieces. Roll each ball into a circle about 1/4 inch thick. Cut into eight pie-shaped pieces. Spread one teaspoon of marmalade and one teaspoon of nuts on each wedge. Roll up, beginning at the wide end. Curve into crescents on an ungreased baking sheet. Bake at 450°F. (very hot) oven for 12-15 minutes. Makes 16 crescents which may be served either warm or cold.

GRIDDLE CAKES

2 eggs 2 cups sifted, enriched Wash-
1 cup milk ington Self-Rising Flour
1/4 cup oil 3 tablespoons sugar

Combine egg, milk and oil; add flour and sugar; stir until batter is smooth. Bake on a pre-heated griddle until bubbles begin to form; turn and bake on other side until golden brown. Makes 12 medium griddle cakes.

A valuable addition to any kitchen library is the 40 page book containing these and dozens of other recipes which may be obtained free of charge by writing Mary Washington, 3261 K Street, N.W., Washington 7, D. C.

KITCHEN HINTS

TO SIFT OR NOT TO SIFT . . . THAT IS THE QUESTION! In case you're wondering why my recipes call for "sifted" flour, this is simply to provide accurate measurement. You see, all flour is pre-sifted at the mill. However, packing and storage cause compacting. So when you sift at home, you are restoring the original light fluffiness on which the recipe is based. Try this test at home with whatever flour you use regularly: Measure out a cup of sifted flour. Then measure a cup dipped right out of the bag. Now weigh both cups—you'll find that the "dipped" cup weighs up to 25% more, meaning that more flour would be added to the recipe than the recipe calls for, thus changing the proportion of the ingredients. So when your recipes call for sifting flour, then sift by all means for accurate cup measurement.

"OPINIONS FROM THE FIELD"

With the hunting season over and the guns safely stored away we can now look forward to the things that we associate with Spring.

The early morning air still has a nip to it but the bright sunshine filtering through the trees soon warms your clumsy fingers.

Overhead you can hear the sound of happy little birds as they flit from tree to the searching for their breakfast. The tumbling stream is full and you feel its power as you put a cautious foot into it. Now and then you can see your streamer as it darts here and there fighting the strong current.

Suddenly, a savage strike and you feel the surging of a plump trout. As you put this fish in your creel and light up a cigarette you wouldn't trade places with a millionaire.

Hours later you will return to your car and head for home. If you were skillful or a bit lucky you might have 4 or 5 trout in your creel. How large? Maybe one would measure 12 inches and the rest a bit smaller. Not a catch worthy of an article in "Outdoor Life" but you must remember that you weren't fishing the Yellowstone River in Montana, either.

Maybe you don't care for trout fishing but you'll have to agree that Springtime brings many pleasures for us to enjoy. The warm sun has awakened the sleeping plants and the Redbud and Dogwood trees are blooming. High in the sky the mournful "Ker-honk" tells you that the geese are returning to their nesting grounds. Up on the mountainsides you can hear the "drumming" of a Grouse and the woods seem full of activity. Spring flowers appear everywhere and you can enjoy everything from the delicate fragrance of the arbutus blossom to the stately sight of a pink Ladies Slipper. You might push aside some low bushes and reveal several dozen fat "Corn Cobs"

mushrooms. Your mouth will water the thought of them smothering a tender steak.

A leisurely walk through the mountains searching for mushrooms or a day on the trout stream can do just as much toward increasing your physical fitness as a 50 mile hike, as is the current fad. In these times of tension and days filled with the hustle and bustle necessary to make a living, it's good to find a few moments to relax and enjoy the wonders of Nature. When you are denied these pleasures you'll realize how much they can mean.

Infant Death Rate High In Big Cities

Infant mortality defies reduction in large U. S. cities, according to Katherine B. Oettinger, chief of the children's bureau of the Department of Health, Education and Welfare. In 1960, the HEW official points out, nearly 11 per cent of the nation's children

were born in 10 of the largest cities, yet only one city, Los Angeles, showed a rate of infant deaths lower than the national average of 26 per 1,000 live births. Washington, D. C. had the highest rate, with 36.4 deaths. The statistics are believed to reflect a close connection between infant deaths and the growing proportion of low-income population in major cities.

Tree roots' damaging affinity for water in drainage pipes is being licked by the use of plastic piping, reports Tube Turns Plastics. Leek-free joints of polyvinyl chloride pipe and fittings eliminate an underground source of water and solvent-cemented joints prevent roots from breaking through and clogging the piping. . . . The Great Lakes region has one of the most pressing water-pollution problems in the U. S., and a \$2.5-million control laboratory will soon be established at the University of Michigan to study the problem.

All 1963 U. S.-produced cars are being equipped with "blowby" devices which lead back to the engine unburned gasoline and other gases that are blown past piston rings and into the crankcase. Most of the gases are burned on their second trip through, reducing fumes released to the air by some 30 per cent. . . . Lost work days in the U. S. in a two-year period ending June, 1961 averaged 5 1/2 days annually for each employed person, according to an insurance company study. Illness caused three times as much lost time as accidents, the study showed.

A thermometer and a barometer, historically two of the most important items connected with the development of manned flight, were added recently to the National Aeronautical Collection of the Smithsonian Institution even though these particular instruments weren't carried aloft by John Glenn or the Wright brothers. They were used by the first American to fly, Dr. John Jeffries, in his studies of the upper air in 1884 and 1885 during ascent in free balloons in England.

Does your alligator mope during the winter? To snap him out of it, experts say, keep his pool water at 75 degrees F. night and day and give him short, stimulating treatments combining a sun lamp and heat lamp. All else failing, a worm dangled in front of his snout may prove tempting.

Many Students Enrolled At Mount

Guy A. Baker Jr., registrar at Mount Saint Mary's College, Emmitsburg, has announced that there are 715 collegians enrolled for the current semester. This figure includes 136 seniors, 189 juniors, 156 sophomores, and 225 freshmen plus 9 special students. Mr. Baker further stated that there are 33 enrolled in the classical curriculum; 130 enrolled in the natural sciences; 157 in business administration; 229 in the

education or teacher training program.

Of the total enrollment 648 students are resident boarders and 67 are off-campus residents. In addition to the collegians there are 127 seminarians; 40 of whom are enrolled on the college side working toward their bachelor degrees.

New York State continues to lead in the geographic breakdown of students with 171; Pennsylvania follows with 166, Maryland, 138; and New Jersey, 112.

No Federal tax deduction is allowed for donations made to organizations not recognized to receive tax deductible contributions by the Internal Revenue Service.

Tips on car care

MODERN MOTORIST

by W. A. "Red" HALL . . . Automotive Specialist

Ever been frustrated by time and effort spent removing ice from your windshield? Let me suggest an easy method that not only speeds up the melting but also saves de-icing fluid.

Preparation for this simple, economical method is a mere matter of keeping a good de-icer handy — one containing a penetrating surfactant. Du Pont windshield de-icer works beautifully and comes in a can small enough for the glove compartment of even a compact car.

Using the edge of a coin, scratch two parallel lines in the ice — one near the top of the windshield, another half-way down. Make each line by reaching across the windshield and pulling the coin toward you. Be sure to scratch all the way down to the glass. Next, spray de-icer onto the scratches at close range. No need to overdo it. A puff on each scratch for just a few seconds is enough.

The next step is a brief wait, inside the car if you wish. In less than a minute, the ice will turn to water over the whole windshield. Start your wipers, and swish! You are ready to

drive. If ice is thick on the back window, use the scratch method there, too — while waiting for there, too — while waiting for windshield ice to melt. Even without the aid of wipers, the de-icer and heat inside the car will cause ice to fall away quickly.

Here are some basic tips worth reviewing to make winter driving as safe and easy as possible:

1. Put on snow tires or chains when you know you are headed for troublesome, slippery driving. A bag of sand in the trunk will help, too.
2. If the road is very icy, let a few pounds of air out of each tire to increase traction.
3. When stuck in snow, ice, or mud, rock the car forward and backward by shifting gears alternately from "low" to "reverse," with light pressure on the accelerator pedal each time, until you get the car off the slick or soft spot.
4. Be generous in giving other drivers the right-of-way.
5. Never press the accelerator pedal hard enough to spin the wheels.

Safe motoring. And for safety's sake, take it easy!

Entertain The Easy Way

Entertaining is fun and easy when done in a well planned fashion. Especially for the working gal . . . the career gal . . . foods that can be cooked quickly or prepared the night before are in order. And, there's nothing more appropriate than a buffet supper. It's gay and informal.

For the main dish, Sweet 'n Sour Meatballs are ideal. Season and shape the meat the night before; wrap and refrigerate. Brown and cook with the remaining ingredients when you arrive home. The sauce . . . which lends overall magic . . . for this delicious dish is ready and waiting on the pantry shelf. It's canned condensed chicken with rice soup. A wonderful time saver for any dish. Accompany this saucy good entree with canned chow mein noodles.

It takes only a few minutes to toss together a salad when you have the greens washed and stored in the refrigerator. For a pretty-to-look-at as well as delicious - to - eat combination try spinach, onion rings, and strips of plinketo.

Dessert . . . another do-ahead . . . is a gelatine parfait to be topped with whipped cream, if you like. The beverage . . . coffee or tea . . . as your guests desire.

Party Sweet 'N Sour Meatballs

- 1 pound ground beef
- 3/4 cup finely chopped celery
- 4 teaspoons soy sauce
- 1 clove garlic, minced
- 1 can (10 1/2 ounces) condensed chicken with rice soup
- 2 tablespoons vinegar
- 1/2 cup pineapple juice
- 1 tablespoon cornstarch
- 1/2 green pepper, cut into strips
- 1/2 cup drained pineapple chunks

In bowl, combine beef, celery, 1 teaspoon soy sauce, and garlic. Shape into 1-inch balls; brown in skillet. Pour off drippings. Add soup, vinegar, and remaining soy sauce. Cover; cook over low heat for 15 minutes, stirring now and then. Blend juice and cornstarch; gradually stir into sauce. Add green pepper and pineapple. Cook, stirring until sauce is thickened and clear. Makes 4 servings.

2 WAYS TO BUY A NEW or LATE MODEL USED CAR

1. By making regular deposits in a Farmers and Mechanics-Citizens National Bank Savings Account, it is easy to accumulate enough cash for a down payment or full purchase price.
2. With a Farmers and Mechanics-Citizens National Bank Auto Loan, you select and pay for your car with convenient monthly payments. There are no hidden extras or exorbitant add-ons.

Paying for your car can be as pleasant as driving it, when you take advantage of these 2 thrifty methods. Before you buy that automobile talk it over with a member of our banking staff.

WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

It is perhaps not too early for self-employed business and professional people to consider how they can best benefit from the retirement program enacted by Congress.

Since 1952, on voted instructions from the nation's independent businessmen, the National Federation of Independent Business worked for the passage of such a measure.

While the legislation, sponsored by Rep. Eugene Keogh does not meet exactly the wishes of the independent business and professional man, in view of the strong administration opposition to any measure of this type based on the protests of U. S. Treasury Dept. it is considered a step forward.

For one thing it is now recognized that the needs of the independent entrepreneur are equally as valid of consideration as those of corporation executives, or union members under a welfare program.

Briefly, in 1963, the self-employed can put aside 10% of his yearly income, up to a maximum of \$2,500 into a private retirement program. There is no compulsion to lay aside the maximum permissible under the law. Any lesser amount can be set aside. Half of whatever is put aside is tax free.

The interest and earnings of money set aside is also tax free provided withdrawals are not made on the fund before reaching the age of 59 1/2 years. If funds are withdrawn before reaching this age, the tax free part of the fund will be assessed for taxes.

But if the fund is left until retirement age, it can be drawn on with tax paid only on that part which was tax free when paid in.

There are many decisions to be made by the first of the year by those wishing to take advantage of the benefits.

During the battle to get the law through, a "joker" was slipped in by the socialist element that makes it necessary for the business or professional man, wishing to set up his own retirement program, to also set up and pay for a retirement program for full time employees with three or more years of service.

A full time employee is one who works 20 hours or more per week, or for five or more months in a year. Thus, there will be undoubtedly a great deal of study to determine if employment of full time help can be reduced, or eliminated.

Retirement plans can be worked out with banks, insurance companies, and in a number of other ways.

However, the Treasury Dept. is still somewhat vague as how it will define the wishes of Congress. It will be well for everyone contemplating such a plan to seek counsel from accountants and tax attorneys, as the Treasury will have to approve any plan set up. And in view of the Treasury having fought, the measure, it can be anticipated every possible difficulty will be raised.

When Is A Vine Not A Vine

There are two varieties of bush sweet peas, Sweetheart, which grows 8 inches high and a newer variety, Bijou, which reaches a foot in height. Both are real conversation pieces.

Royal Ensign is the name of this bush-type morning glory which has true ultra-marine flowers with white halos surrounding the yellow throats. Many blooms practically cover plants.

When is a vine not a vine? When it's the bush form of a flower that normally grows as a vine. Surprisingly, there's a bush form of the popular morning glory and also two bushy varieties of the equally popular sweet pea.

The bush form of the morning glory is named Royal Ensign. This has flowers of a deep, bright, true ultra-marine blue which are set off by the white halos which surround the rich golden throat of each flower. The bush grows only 8 inches tall; is covered with flowers so that the green hardly shows.

The bush forms of sweet pea are named Sweetheart and Bijou (French for jewel) and a sweetheart and a jewel they are. Sweetheart grows only 8 inches high; Bijou is taller, growing to a foot in height.

Both varieties are available only in mixed colors and these include all the colors usually associated with sweet peas: white, cream, shades of pink and rose, red, scarlet, lavender and dark blue.

In the south and the southwest portions of the country seeds of these sweet peas can be sown in late summer or early fall to flower in the winter. In the north they are sown as soon as soil can be worked in spring. Bijou is a particularly early-flowering variety, blooming a full month before summer-flowering varieties.

Plants of both Sweetheart and Bijou are upright and compact, so use comparatively little area. Royal Ensign is more spreading than either sweet pea, but still needs only a little over a square foot for a plant. So, if you haven't room for the vine forms of these plants, grow the bush forms. They give big returns for small space.

CAPITOL COMMENT
by Charles "Mac" Mathias
Congressman, 6th District, Maryland

The Chesapeake and Ohio Canal has been much in the news in recent weeks, and efforts are under way again to establish the canal as a National Historical Park. This proposal is, of course, not a new one. I introduced a bill in the last Congress for the purpose of creating a National Park along the banks of the Potomac River on the right-of-way of the old C & O Canal. It is my intention to reintroduce this bill and I hope that the park will become a reality during the 88th Congress. In submitting the bill this year, I am going to propose a significant feature which should improve this park legislation.

The bill will provide for a local Commission to advise the National Park Service and the Department of the Interior with respect to the creation and administration of this much needed National Park. Such a Commission to be appointed by the Secretary of the Interior upon recommendation of the County Commissioners of the counties which are adjacent to the canal and by the Governors of Maryland, Virginia, West Virginia and Pennsylvania, would give an element of self-government and of local interest to the administration of the National Park.

The C & O Canal, which parallels the Potomac River was constructed well over a century ago and was a vital economic factor in the development of Maryland and the Nation. The Canal itself ceased to operate about thirty years ago but the locks, tow path, and in some places actually the Canal itself, are in tact. The Canal has been famous during recent years as one of the great recreational areas in America. Interest in the Canal was revived when Justice William O. Douglas of the U. S. Supreme Court led a hike from Cumberland to Washington and the potential of the Canal as an outdoor recreation area was recognized. During the past week, the Canal has been in National headlines when self-styled, "portly Pierre" Salinger, the President's Press Secretary, first challenged his colleagues in the newspaper world to walk fifty miles along the tow path and more recently reneged on the challenge.

The Canal is one of the great historical and recreational features of the Potomac Valley. The Canal has been familiar to me all my life, having as a boy kept a boat near Point of Rocks. It is clear that the Canal has a tremendous future as well as a tremendous past because it can continue to contribute much to the way of life of the people who live along the Potomac Valley.

If the park is to be developed, however, in the way that all of us want it to be developed, acknowledging local traditions and recognizing the way of life of the people along the Potomac Valley, it is important that there should be some representatives of the people of the area in constant touch with, and taking part in, the development and the administration of the new National Park. I am proposing, therefore, that there should be a Chesapeake and Ohio National Historical Park Commission to be appointed to represent local government and the people of the Potomac River Valley. The Commission should help the Department of the In-

ALL ABOUT BABIES

A Public Service of the National Baby Care Council

Prevention Of Diaper Rash
By William F. Burdick, M.D.
Clinical Professor of Pediatrics
Georgetown U. Medical School

It is a mistake to think that diaper rash occurs only during babies' early months. Babies can get diaper rash as long as they wear diapers. Indeed, the most distressing and dangerous cases tend to be among older babies.

There are several reasons for this. During the first few months, mothers are usually more fastidious and prompt in changing their baby's diapers. Any slight skin blemish is apt to be given prompt attention. Proper diaper hygiene becomes increasingly important as the baby gets older when the diet contains substantial amounts of food that helps the urine to produce increased amounts of rash-causing ammonia.

There's helpful advice for all mothers of babies of diaper age in the booklet "A Mother's Guide to Diaper Hygiene," prepared by the National Baby Care Council.

The booklet points out that there are five different causes that singly or in combination are responsible for the ailment.

1. Ammonia, the most common, a powerful skin irritant formed by the decomposition of urine in the diaper.

2. Live bacteria, present in a washed, dried and clean diaper that has not been sterilized.

3. Chafing of the skin due to a diaper left harsh after washing.

4. Alkaline condition of the diaper resulting from most conventional laundering.

5. Skin scalding due to the chemical action of traces of soaps or detergents which have not been completely rinsed out of the diaper.

terior in bringing forth the best potential of this great National property.

Good diaper hygiene to prevent diaper rash, can be practiced simply and surely by diapering baby with correctly processed diapers, preferably professionally processed by a good diaper service and following a fastidious diapering routine as long as baby wears diapers.

The booklet details the proper procedure for the scientific processing of diapers in the home for those parents who do not use

a professional diaper service. It also lists a series of hints for good diaper hygiene the mother can follow. The booklet is available from the National Baby Care Council, 1913 Walnut St., Philadelphia 3, Penna. Enclose 10c for mailing.

It's Federal income tax filing time. Internal Revenue Service says be sure all items are filled in accurately and completely.

Coming In For A Landing!

Whether the pilot steers his sled for a perfect landing, or swerves and winds up sprawling in the snow with his intent pet pup, both passengers are adequately dressed for the cold, cold ground. When it snows in St. Louis, Purina Pet Care Center authorities find their 600 dogs require no special insulation against the weather. They know the healthy pet, with rare exception, needs no more than his own furry coat, no matter what the weather. Only for sick or feeble dogs and sometimes puppies, need the owner take special precaution against the cold.

DENIM MEN OF AMERICA

MODERN DAY SHEPHERDS

New production methods introduced by the nation's 265,000 denim-clad sheep producers, promises to boost next year's meat and wool production. For example, a sheep farmer in Washington State discovered last year that if he deodorized

new-born lambs, the ewes would nurse them regardless of whose they were. Another is a more complicated technique utilizing a hormone drug that will help these highly-trained men in denim to put better meat on our tables, finer clothes on our backs and more rugs on our floors. Last year 262 million pounds of wool went into America's clothing . . . 150 million pounds into rugs and carpets. Most of it was shorn off 30 million sheep by skilled shearers, the best of whom can "fleece"

200 animals a day! For food, Americans ate 916 million pounds of lamb and mutton in 1961—that's a little over five pounds of meat per person. The latest count puts our sheep population at 32 million. In Wyoming alone, sheep outnumber people seven to one!

State Legislators Study Bill

By Goodloe E. Byron Frederick County Delegate

Slot machines that pay off in hard cash are legal in only two localities in the United States: Nevada and Southern Maryland. Last week a bill (HB 475) to abolish these so-called "one-armed bandits" over a three year period was introduced in the House of Delegates.

No doubt the problem of the slots is one of the thorniest in Maryland's political thicket. Consider these facts in the four effected counties:

1. CHARLES COUNTY — Approximately 2,000 slot machines in 214 establishments (restaurants, clubs, etc.); in 1962 slot machine revenues produced in county taxes \$414,000.00 out of a total county budget of \$1,739,916.

2. ANNE ARUNDEL COUNTY —1,683 one-armed bandits in 382 establishments; 1963's estimated revenues for the County are \$954,460.

3. ST. MARY'S COUNTY — 1,028 machines in 212 establishments; 1963's estimated county revenues are \$264,146.

4. CALVERT COUNTY — 704 machines in 37 establishments; this year's estimated county revenues are \$136,752.

In addition, the slot machine industries' estimated take for 1962 was \$1,900,000. Compare this with the average annual gross receipts of approximately \$65,000,000.00 for Maryland's largest agricultural enterprise, its dairy industry.

Although the bill to abolish the slots was introduced last week, legislators have been receiving mail on the subject's pros and cons since early January. One such letter from the "Saint Mary's County Business Men and Associates" urged its readers to respect "County Rights and Local Option"; concluding that slot machine abolition would "wreck our tax structure and the economy of Saint Mary's County."

After public hearing this week on H.B. 475, the House certainly faces one of its liveliest debates. For without exaggeration, slot machine abolition has become the central issue in this 1963 Session of the General Assembly.

Your Personal Health

Jaundice Remember "yellow jaundice"? The skin and the whites of the eyes take on a yellowish hue.

Physicians know that jaundice is not a disease but a symptom of many different conditions in which bile pigment is not being handled properly in the body and is accumulating in excess quantities in the blood.

Bile pigment is a product of red blood cells. Liver cells convert the pigment into bile, which is excreted into the intestinal tract to aid digestion.

Never neglect jaundice. It can be a symptom of a serious condition, such as hepatitis. And hepatitis, by the way, has increased by leaps and bounds in the United States in recent years. It is an infectious disease that causes serious illness and, often, permanent liver damage.

Jaundice can be detected earliest in the whites of the eyes. If the eyes suddenly appear yellowish, consult a physician promptly. Early treatment is very important in treating most of the conditions causing jaundice.

Jaundice of the newborn, while often not serious, can be very dangerous. Rh babies usually are jaundiced and often require exchange transfusions.

A frequent reason for surgical removal of gallstones, even if they're causing no trouble, is to forestall the possibility that the stone will later lodge in the bile duct.

Jaundice, in fact, is not always easy to trace to its cause. Self-diagnosis can be exceedingly

dangerous, and a physician should be consulted promptly. Your physician will want to know whether jaundice has occurred before, whether it is occasional or constant, whether pain or fever is present, whether there has been a recent blood transfusion. He probably will want to make tests on blood and urine. Jaundice is an ancient condition which must be treated with the respect to avoid very serious results.

Rocky Ridge News Items

Mr. and Mrs. James R. Motter and son, Jon, Chambersburg, visited recently with George Motter. Mr. Jesse and Russell Nusbaum, Union Bridge; Mr. and Mrs. Roy Wantz, Littlestown; Mr. and Mrs. Allen Martz and daughter, Mary Catherine, Utica; and Mr. and Mrs. Roy Shank, Frederick, were recent visitors of Mr. and Mrs. Charles Wantz.

Mr. Monroe Stambaugh, Oberlin Park, Kansas, spent the weekend with his parents, Mr. and Mrs. Harvey Stambaugh, who celebrated their 50th wedding anniversary Feb. 24.

The Rocky Ridge Progressive 4-H Club held its monthly meeting at the home of Jerry Orndorff with 28 members present. There were also eight new members: Deborah and Valerie Parks, Jerry Smith, Robert and Richard Valentine, Mark and James Wivell and Leo Orndorff. The president, Allen Brauer, conducted the meeting. The group discussed the pictures that were shown at the fire hall recently. Also discussed were: Officers training, National 4-H Club Week; ideas for window display and the scrap drive, the proceeds which will be used for sending two boys to England. Refreshments were served by Mrs. Orndorff. The next meeting will be held at the home of Paula and Sharon Goetz.

Miss Alice Stambaugh, a student at St. Mary's Seminary and College, spent the weekend with her parents, Mr. and Mrs. Marvin Stambaugh, and attended the 50th wedding anniversary of her grandparents, Mr. and Mrs. Harvey Stambaugh.

Recent visitors in the home of Mr. and Mrs. Horace Smith were Mr. and Mrs. Robert Hilty and children, Barbara Ann, Johnny, and Jimmy, Long Island, N. Y.; Mrs. Elizabeth Hilty and grandchildren, Bonnie Stull and Johnny Moore, Gettysburg.

Mrs. Ray Wachter is on the sick list. Mr. and Mrs. Clarence Fuss and son Jimmy, Dillsburg; Mr. and Mrs. Gaylor Putman and grandson, Johnny, Detour, were recent visitors of Mr and Mrs. Charles Keeney and Mrs. Edith Gruber.

Dennis Mathias is confined to his home with the mumps. A party was held Feb. 5 at the home of Mr. and Mrs. Karl Smith in honor of their son, Jerry's 10th birthday, on Feb. 2. Games were played and refreshments were served to Pamela and Robert Painter; Larry Welty; Dennis Mathias. Karl Jr., Ronnie, Larry, Jerry, Jimmy, Ricky, Randy and Jeffrey Smith. Jerry David Smith celebrated his 1st birthday Feb. 13. Many nice gifts were received.

Mrs. Daisy Simpkins is recovering from a kidney infection at her home.

Members of the Northern Cloverettes, a newly formed girl's 4-H Club held their first meeting at the home of Becky and Mary Ann Keilholtz. Officers elected for the club are: president, Kathy Etheridge; vice president, Becky Keilholtz; treasurer, Vivian Himes. Mrs. Anita Hill is the leader of the club. The girls planned their schedule for 1963. Refreshments were served by the hostesses.

Mr. and Mrs. Roy Shank, Frederick, and Mr. and Mrs. Allen Martz and daughter, Mary Catherine, Utica, were recent visitors of Mr. and Mrs. Edgar Troxell.

A party was held Feb. 8 at the home of Mr. and Mrs. John Hahn in honor of the 8th birthday of their grandson, Ronnie Eyer. Those present were Debbie Wastler, Wanda Pomeroy, Billy, Larry, and Ronnie Welty, Bonnie Eyer, Jimmy Roberts, Mr. and Mrs. Charles Eyer, Louise Pomeroy, and Nancy Roberts. Sandwiches, cake and soft drinks were served. Many nice gifts were received.

Mrs. America Contest In Baltimore

The state finals for the Mrs. America Contest will be held this year at the Home, Flower and Garden Show at the Fifth Regiment Armory, Baltimore, March 31 to April 7.

The Mrs. Maryland competition will be judged on the candidate's all-around ability as a homemaker and as a member of her community. Demonstrations in cooking, baking and hair styling as well as interviews to judge personality and poise will be staged on the premises during the week-long exposition, sponsored by the Home Builders Assn. of Maryland.

The winning candidate will win an all-expense paid trip to Miami Beach for herself and her husband, to compete in the Mrs. America Contest, National Finals. Application forms can be obtained by writing to Mrs. America

Contest, 2503 St. Paul St., Baltimore 18, Md. All entry forms must be submitted not later than March 21.

Car Deductions Explained

Car owners fretting over the high cost of motoring have at least one consolation — some of their expenses are deductible for income tax purposes.

General Manager Harry E. Uhler of the AAA Automobile Club of Maryland pointed out that taxpayers who itemize their deductions may deduct the following items. This rule applies even if the car is used solely for personal, non-business purposes.

- The deductible items are: 1. Automobile registration fees. 2. Maryland's 6c per gallon gasoline tax (but not the 4c Federal tax.) 3. Interest on money borrowed on the security of an automobile. 4. Losses not covered by insurance resulting from fire, storm or theft or accident—provided the accident was not the result of the taxpayer's willful act or negligence, such as drunken driving. If the car is used for business as well as personal purposes, Mr. Uhler pointed out, many other deductions are available. The taxpayer must make an honest and fair evaluation of the extent to which the car is used for the two purposes. The use of an automobile for commuting to and from a fixed place of employment is considered a personal and not a business use, even if a car-pooling arrangement is used.

Glaucoma Instrument Detects Disease

A new electronic instrument, designed to accurately detect sight-destroying glaucoma, has been developed by Optometry schools at the University of California and Ohio State University.

The Maryland Optometric Association, sponsors of annual "Save

DON WILSON'S DISK DERBY

Once upon a time (sounds like a good beginning) the only things needed to keep a gang of cool cats and kittens swinging with the program were a stack of 45's . . . a phonograph (natch!) and frozen pizzas. Since then, albums have made the scene. The trend now is still pizza, but every cool one in the know has his/her pal loaded with a large collection of long plays, ready for party time.

In reviewing some of the latest, I found that "The King" Elvis has a new album from his movie . . . "Girls, Girls, Girls" . . . Making the scene with a new album is the kid from the city of "brotherly love" . . . Bobby Rydell. Bobby's LP is called simply . . . All The Hits. Ray Charles, who continues to roam the hill country of Tenn., continues to roam the airwaves of your living room with that famous "Charles" sound. Besides his current series of Country and Western Hits, the greatest of all his recording are on the album . . . Ray Charles' Greatest Hits. This collection includes, among others, "Georgia," "One Mint Julep," . . . and that great Grammy Award sound . . . "Hit The Road Jack."

While shopping for new albums, don't overlook the new RCA-Victor series . . . "Our Man In" . . . plus Sam Cooke's new one . . . "Mr Soul." . . . Sandy Nelson, who plays those "way out" drums has 3 new albums for you to choose from. Sandy has released 3 completely different records, one of them called "Sandy Nelson Golden Hits" in which Sandy plays some fine drum renditions of all-time hits.

The latest Bossa Nova singer to hit the markets is a young man who answers to Bob Farley. Making his debut for the Hip label. Bob cuts out with "Bossa Nova Watusi" . . . This one has potential. It's groovy middle tempo has what it take to appeal to the

teens, and with correct exposure should hit chartsville.

Paul Anka is responsible for part of the fine musical score from the motion picture, The Longest Day, in which he also appears. Paul has just finished the score for his first Broadway show, Le Million. To appear in a Broadway production has always been a dream of Mr. P.

Before departing through the rear exit, here is the scoop on the top five sounds in Russia . . . played nightly by Radio Moscow's king-pin disk jockey Ivan Khoechvieik.

1. Next Door To An Agent . . . Little Ivan
2. Siberia 4-5789 . . . The Salt Miners
3. Don't Fence Me In . . . East Berliners
4. Walk Right In . . . Red Comies ant the 3 Reds
5. Laughing Boy . . . Mr. K.

Disk Derby Review Of The Week Don Wilson, WTOB
Kitty Kallen Sings 'My Coloring Book' and Her Other Great Hits" (RCA-Victor) . . . Kitty returned to the charts recently with her tender rendition of "My Coloring Book." Now you can hear the original version of this smash hit, plus other inspired chart-makers like "I'll Walk Alone," "I'm Beginnig to See the Light," . . . and her real big one . . . "Little Things Mean A Lot."

Disk Derby Top Ten

- 1—Walk Like A Man, The Four Seasons
 - 2—Hey! Paula, Paul and Paula
 - 3—Ruby Baby, Dion
 - 4—Rhythm of the Rain, Cascades
 - 5—Walk Right In, Rooftop Singers

Chimney Fire

The Vigilant Hose Co. responded to a call to the Robert Kaas farm on the Tom's Creek Road early Monday morning about 5:30 a.m.

The blaze was confined to the chimney and firemen experienced little difficulty in extinguishing the conflagration. Fire Chief Sterling White reported no damage.

In advertising, America has found the key to unlock the resourcefulness and ingenuity of our economy.

Reassigned

Airman Kasic Roland S. Phelps, son of Mr. and Mrs. Ola G. Phelps, of Hapes Mill Road, Taneytown, is being reassigned to Keesler AFB, Miss., for technical training as a United States Air Force radio and radar maintenance specialist.

Airman Phelps, who completed the first phase of his military training at Lackland AFB, Tex., was selected for the specialized course on the basis of his interests and aptitudes.

He is a 1962 graduate of Francis Scott Key High School, Union Bridge, Md.

Mount Alumni Assn. Meets

The National Alumni Association of Mount Saint Mary's College and Seminary, Emmitsburg, held its annual winter meeting at the college on Saturday in the office of the college president, Rt. Rev. Robert R. Kline, Ph.D.

Atty. Joseph M. Fitzgerald, of Coral Gables, Florida, president, presided. It was the first meeting held under the new constitution adopted at the general meeting in October. After a brief report by Msgr. Kline on the college program and a similar report by Rev. Carl J. Fives, executive alumni secretary, the meeting was recessed to allow the various committees an opportunity to meet and prepare their reports.

The executive committee comprises, Rev. Philip A. Barrett, dean of men; Eugene C. McKeon, Elizabeth, N. J., and New York City; Rt. Rev. Francis A. Costello, Wilkes-Barre, Pa.; Rev. John A. McNulty, Fairfield; and Joseph F. Horning, Jr., Washington, D. C.

GLENN W. BEARD

Glenn William Beard, 64, a farmer of Frederick R3, died at the Frederick Memorial Hospital Saturday at 7:30 a.m., following an illness of several weeks. Born in Frederick County Nov. 21, 1898, he was a son of the late George and Della Keeney Beard. He was a member of the Grace Rocky Hill Lutheran Church, near Woodsboro. He was employed on the farm of John M. Crum.

Surviving in addition to his wife, Mrs. Marie Sprague Beard, are the following children: Mrs. Elsie Beard, near Woodsboro; Marshall Beard, New Midway; Ralph Beard, near Union Bridge; Mrs. Norman Sheeley, Emmitsburg RI; Mrs. Ethel Hildebrand, Bartonsville; Glenn A. Beard, Harmony Grove; Mrs. Betty Snook, Washington; Larry W. Beard, at home; 15 grandchildren, two sisters, Mrs. Mollie Brown, Walkersville, and Mrs. Grace Keeney, Woodsboro.

Funeral services were held at the Powell and Hartzler Funeral Home, Woodsboro on Tuesday at 2 p.m. with Rev. Robert O. Holly Jr., assistant pastor of Calvary Methodist Church, Frederick, officiating. Interment was in the Rocky Hill Cemetery.

St. Pat Day Dance

Bishop McNamara General Assembly, Knights of Columbus, will sponsor a St. Patrick's Day dance in the Frederick Hotel, Frederick, on Saturday, March 16.

A social period is planned for 6:30 o'clock followed by a dinner and dance. All members of Brute Council, Knights of Columbus are invited. Tickets are available from Paul A. Keepers, Carl Wetzel or Curtis D. Topper.

SCHOOL LUNCH MENU

The school lunch menu at the Emmitsburg Public School for the week beginning Monday, March 4, has been announced as follows:

Monday: Fruit juice, hamburger on bun, pickle chips, lima beans and corn, peach cobbler.

Tuesday: Spaghetti with beef, fresh spinach, ½ boiled egg, rolled wheat muffin, jello with fruit.

Wednesday: Oven baked fish, tartar sauce, baked pottato, hardvard beets, iced graham, ice cream.

Thursday: Turkey, filling, gravy, mashed potatoes, sauerkraut, cranberry sauce, orange sections.

Friday: Orange juice, baked salmon, parsley potatoes, lettuce and tomato salad, raisin squares. Milk, bread and butter served each day.

VA Information Available

Don't write the Veterans Administration's Washington office to obtain information about veterans benefits.

Quicker results will follow a visit, phone call or letter to your local regional VA office, Calvert Building, Fayette and Saint Paul Streets, Baltimore 2, Maryland, F. E. Quinn, Manager, said today.

Specific requests for information concerning individual cases cannot be handled in Washington, he pointed out. These must be answered at the office where the records, files, and case folders pertaining to individual veterans are maintained.

These records are kept in regional offices and at least one is located in each state in the Union and in Puerto Rico and the Philippines.

Avoid penalties and interest by meeting Federal filing and payment deadlines.

Personals

Visitors during the week at the home of Mr. and Mrs. Ralph D. Lindsey and family were Mr. and Mrs. Lee F. Jones and daughter; Mrs. Daniel E. Lindsey and son, David and Dennis. They all help to celebrate the birthday of Juanita Lindsey who was 11 years old. Nita received some lovely gifts including a jacket and chopsticks from her sister, Sandra Carlin, who with her husband and children, are stationed in Japan.

William Bowling, Renovo, Pa., is visiting with Mr. and Mrs. Francis Sanders and other friends in town.

Miss Gwen Shorb, Washington, spent the weekend with her parents, Mr. and Mrs. Clarence Shorb.

Weekend visitors at the home of Mr. and Mrs. Clarence Wachter were Mr. and Mrs. William Hopkins and daughter, York, and Mr. and Mrs. Dennis Mitchell and family, Toms River, N. J.

Mr. and Mrs. Daniel Hemler, Gettysburg, visited with Mrs. Hemler's parents, Mr. and Mrs. Maurice Fitz, on Sunday.

Mr. and Mrs. William Greco, Myersville, visited during the weekend with Mr. Greco's parents, Prof. and Mrs. D. G. Greco.

Francis Seiss, of Washington, spent the weekend with his brother-in-law and sister, Mr. and Mrs. Paul Eckenrode, and son.

Miss Judy Keilholtz, Baltimore, spent the weekend with her parents, Mr. and Mrs. Clifford Keilholtz.

Mr. and Mrs. Harry Wood and daughters, Biglerville, visited dur-

ing the weekend with Mrs. Wood's parents, Mr. and Mrs. Hess.

Mrs. Donald Lindsey and three children, Scott, Julie Beth and Bruce, have been staying with the Ralph Lindsey's while Don was attending a conference in Lebanon, Pa., on Soil Conservation.

Harry Ashbaugh and daughter, Cheryl, Hyattsville, visited with his mother, Mrs. George Ashbaugh and son on Friday.

Allen Sanders, Bethesda, spent the weekend with his parents, Mr. and Mrs. Clarence Sanders.

Ralph D. Lindsey and sons, Dan and Don, attended the sportsman's show in Harrisburg recently.
