## Most Anything At A Glance

BY ABIGAIL

The State Roads Commission is fast realizing it has a "white elephant" on its hands in the Emmitsburg by-pass. The first indication came this week when the head of the Commission admitted publicly that it was the worst problem he had on his hands since taking over the reins. Pressure from numerous sources has forced the "wheels" of the Department to come here and inspect the by-pass which has been the scene of 16 fatalities in 11 months. Governor Tawes and the State Police and at least one Congressman are studying the dilemma and some sort of remedial action more than likely will result.

This week the Commission installed "rumble" sections on the Rt. 97 approaches to the intersection in an effort to alert motorists of the approaching intersection. Public opinion feels that this installation is negligible and will have little if any effect on stopping accidents. As Town Commissioner J. Norman Flax puts it: "These shock absorber exercisers are ridiculous and will prove ineffective and a waste of the taxpayers' money." We are inclined to go along with the Commissioner's line of reasoning. What is needed, and this is strictly my own opinion, is large over-head signs with the blinking lights, such as you see on the expressways, warning of the coming stop and at the same time indication direction. In addition, a 35-mile-an-hour speed zone should be placed on Rt. 15, forcing traffic to slow down while entering the two-mile by-pass strip. Lights also should be installed at the three most dangerous intersections of the by-pass. What action the State Roads Commission took this week will, in local opinion, prove fruitless.

The Halloween Parade is now history. For the first time in my recollection, the event went off promptly as scheduled. Several times in years past the parade was as late as half an hour in getting under way. Not so this year. Tom Gingell, chairman, is to be commended for his ability to get things moving on time.

As had been predicted, Emmitsburg's water situation is now critical. Let me explain that this information comes strictly from the Water Commissioner, Norman Flax. Flax explains that it is now necessary to purchase a pump preparatory to taking water from Tom's Creek west of Town. Mighty Rainbow Lake has been reduced to almost a mud puddle and we all know the capacity of the three small reservoirs. Combined, they could supply the Town for little more than a week or so. Flax estimates that unless we get rain, some type of emergency action will be necessary in about two weeks.

### Card Party

A benefit card party will be held this evening in the Fire Hall starting at 8 p.m. The affair is being sponsored by the Emmitsburg High School Alumni Assn. Refreshments will be on sale during the evening and the general public is cordially invited to attend.

### Voter Registration Light Here

As was predicted, voter registration here was light when a county registration supervised by the Elections Board was held in the Fire Hall last Saturday.

As a matter of fact only 37 persons were registered. Broken down the figures showed 27 Democrats registering, six Republicans and four declining affiliation. It was believed that public apathy because the election is a year away, that the people didn't turn out in more voluminous numbers. There will be no additional registrations until after the election in November of 1966. Those desiring to register for the election will now have to travel to Frederick.

Among the problems that agitate vacant brains is, "How high is up?"

# By-Pass Death Toll 16

## Chief Law Assaulted By Five Youths

Five young Emmitsburg area men savagely mauled Police Chief W. E. Law, 51, last Sunday morning at Sanders Garage just north of the town limits.

The incident began Saturday evening when a youth went to Chief Law to report that the five had torn the shirt off his back when they scuffled with him following a youth dance in Emmitsburg.

Officer Law had been looking for the group and was sitting in his police car on the square when the car containing the five came by. The police officer gave chase north on Seton Ave. and brought the car to a halt just north of the bridge.

Officer Law began questioning the driver and all five of the young men leaped out of the car. The young men threatened the officer and a scuffle ensued. Chief Law remembered shooting two of the youths in the leg in an attempt to stop the group, but does not remember firing at the others. Two of the men meantime had grabbed Law's pistol hand, and the other three were hitting him. When he was able to get his pistol hand free he fired the rest of the shots into the air.

Overwhelmed by the five, Officer Law fell to the ground.

Meantime Michael Boyle, who had been sitting in the police car, had witnessed the beginning of the struggle, and attempted to use the police radio to call state officers for assistance. One of the youth ripped the radio transmitter from the car and Boyle fled to the nearest phone booth to summon

### Schedule Novena

St. Joseph's Church will sponsor a Novena of Prayer in honor of Our Lady of the Miraculous Medal from Nov. 19 to 27, inclusive. The general intention of this Novena is for Peace. People of all faiths are invited to participate in this Union of Prayer. The services will be every night at 7 o'clock, starting Friday, Nov. 19.

### Engaged

Mr. and Mrs. James R. Saylor, Rocky Ridge, announce the engagement of their daughter, Bonnie Bee, to Dennis Ray Hess, son of Mrs. Leila Hess, Emmitsburg. Miss Saylor is a senior at Emmitsburg High School, and Mr. Hess is employed by the H. O. Toor Shoe Corp. A June wedding is planned.

### Son Born

Mr. and Mrs. James Nickoles, Westminster, announce the birth of their third child and second son, James Allan, last Saturday at the Carroll County Hospital. Mrs. Nickoles is the former Barbara Keepers, daughter of Mr. and Mrs. Paul A. Keepers, Emmitsburg.

### Parade Winners

Last Saturday's Halloween parade, sponsored by the Francis X. Elder Post 121, American Legion, was one of the most successful held in many years, Parade Chairman Thomas Gingell reported this week.

Prize winners in the event were listed as follows:

Most original: Larry Hatter, Pam and Pat Dickson and Calvin Chatlos. Funniest: Phelan and Morningstar children, and Joan Hatter. Best looking: Greg Adelsberger, Mr. and Mrs. Ronald Welker and Betsy Norris. Best decorated bicycle, etc., Paula Trembley, Lisa Nolan and Josh Bollinger, and Allison and Denise Sanders. Two mystery prizes were awarded to Pat Dickson and Betty Wilhide.

### VFW AMBULANCE

Mrs. Paula Naum was transported to the Warner Hospital this week in the VFW ambulance. The driver was Guy A. Baker, Jr. Mrs. Vergie Ogle, W. Main St., was transported to the Warner Hospital and returned home in the ambulance this week. The driver was Paul E. Humerick.

The bigger the author, the smaller the words he tries to use.

## Town To Annex St. Joseph's Provincial House

Emmitsburg will annex 35 acres of ground and the mammoth Provincial House of Saint Joseph College just as soon as the legal papers can be drawn up, it was decided at the regular monthly meeting of the Mayor and Commissioners held Monday night in the Town Office. Chairman of the Board J. W. Houser presided over the meeting with a full board present.

It has been known for some time that the annexation was under consideration and at Monday's meeting a delegation, favoring the annexation, appeared before the Town Board and asked the matter to be expedited. The delegation consisted of John G. Humerick, Walter F. Crouse, Guy A. Baker Jr., Paul A. Keepers, Patrick B. Boyle, John S. Hollinger, J. Laurence Orendorf, Bernard H. Boyle and Arthur Elder. The vote for the annexation was unanimous, and the proceedings will be started immediately.

The Board voted to increase the salary of Police Chief W. E. Law, by \$100 annually and drafted up a set of rules and regulations for operation of the Police Department in the future. A pole light was authorized for erection on the southside of Emmitsburg High School where residents have complained about darkness in the area.

Council discussed the cooperation of the State Police and the local Police Dept. in recent months and ordered a letter of commendation drafted and sent to the Superintendent of State Police. In an effort to collect water delinquents and repairs to individual properties as far as water is concerned, the Town attorney was ordered to devise or draft a water tax ordinance which would make repairs of this type collectible. There have been several instances where property-owners have ordered repairs to their water service and have refused payment.

Town Clerk Yonnie Baker was authorized to purchase a new indexing system for the registration of local voters and keeping a permanent file on these registered voters. In other action taken at the meeting six new parking meters, for replacement purposes, were ordered and repairs will be made to that part of the Irish Town Road which is in the corporate limits at this time. Chairman Houser asked for a vote to pay off the remaining rent of light poles indebtedness and have installed new 20,000 lumen street lights and the motion was carried.

## K Of C Banquet Saturday

The annual election of members of the Home Assn. was held at the regular meeting of Brute Council 1860, Knights of Columbus, Grand Knight Arthur Elder presiding.

An invitation was voted on to be extended the State Council to visit here next spring and some sort of scenic tour will be arranged for the group from Baltimore. A financial donation was authorized for St. Cyprian's Church located in the deep South.

General Program Chairman Carl A. Wetzel reported on the progress of the Knight of the Year banquet and dance to be held at the Cozy Restaurant, Thurmont, Saturday night. The lecturer, Rev. Carl J. Fives, introduced the Council's newest member, John McGucken. The meeting was closed with prayer led by Rev. Robert S. Grace, the chaplain. Tuesday evening 30 members and their wives attended a memorial mass for departed members celebrated by Fr. Grace in Pangborn Chapel, Mt. St. Mary's College.

Following adjournment of the Council meeting, President Curtis D. Topper presided over the election of members to the Home Assn. Elected were: Rev. Carl J. Fives, Rev. Robert S. Grace, Guy A. Baker, Jr., Lumen F. Norris, Carl A. Wetzel, J. Everett Chrismer, Curtis D. Topper, Paul A. Keepers and Ray Lauer.

There is great danger that what we consider important is unimportant.

## Nine Killed On By-Pass; Seven College Students Killed In 2-Car Crash

The death toll on the new by-pass east of Emmitsburg soared to 16 last week as nine individuals were fatally injured in a ghastly accident that established a record for the State of Maryland in two-car vehicular accidents. Back in 1954, 10 persons were killed in a multiple-car accident at Waldorf, Md. The by-pass, which has attracted the attention of Governor Tawes, State Police and State Roads Commission officials, was opened to travel just 11 months ago. Records now show that over 30 accidents have occurred on the two-mile stretch and 16 persons have been killed.

The record establishing accident occurred early last Saturday morning at approximately 12:15 a.m., when eight Mt. St. Mary's College students were returning to the school from Gettysburg. All eight were traveling in the one car, a 1959 Pontiac sedan. Five of the students were killed instantly and the sixth and seventh died later on Saturday morning in the Warner Hospital, Gettysburg.

Five of the students were pronounced dead at the scene. They were Frank Cunningham, 19, Newark, N. J., a Sophomore and owner and presumed operator of the car; Fred Christiansen, 17, Irvington, N. J., also a Sophomore; these Freshmen, William McCarthy, 18, Weliston Park, N. J.; John L. Brown, 18, Ashland, N. J., and Bruce T. Considine, Glen Cove, N. Y.

Mrs. Barbara Ross Marsh, 40, Carlisle Rd, was pronounced dead on arrival at the Warner Hospital. Her husband, John W. Marsh, 46, died at the hospital at 1:20 o'clock Saturday morning.

William George Bonish, 18, Bendersville, a freshman at the college and former Biglerville High School basketball and baseball player, died at the hospital at 3:20 o'clock Saturday morning.

Daniel J. Metzger, 18, Hi Nella, N. J., a freshman, died of head injuries just before noon on Saturday.

The lone survivor of the crash, Dennis M. Roman, 20, of Rahway, N. J., another student, remains in critical condition at the hospital.

The accident brought the state's traffic death toll for the year to 570, 119 ahead of the number killed at this date last year.

WHEREAS, such demonstrations are giving aid and comfort to an enemy who is even now killing American fighting men in his attempt to subvert and conquer a brave ally, and

WHEREAS, it has become necessary to make it clear that the overwhelming majority of the American people abhor the actions of the demonstrators and fully support the brave fighting men who are risking their lives, now

THEREFORE, I Ralph F. Ireland Mayor, Town of Emmitsburg, do hereby call on every man, woman and child, every church, school, organization, business establishment and home within my official jurisdiction to join with the Veterans of Foreign Wars in public observance of "Operation Boost" to raise the morale of our Armed Forces overseas. I ask each individual to cease from all activity at 11:00 a.m. on November 11, 1965, Veterans Day, and offer a prayer for the success and safety of our troops. Further, I ask all of our citizens to participate in patriotic observances on this day so the world will see that we stand united behind our government.

All of the students were riding in a car driven by Cunningham. State Police said Cunningham's car, southbound on U. S. 15, crossed the center line and swerved to return to the proper lane.

It was hit on the left front door post by a car driven by Marsh. Marsh's car was northbound in the proper lane, police said. Both cars were demolished.

Ambulances from Emmitsburg, Thurmont and Gettysburg were dispatched to the scene of the accident.

Maryland State Police said Mr. and Mrs. Marsh were thrown under the dashboard of their northbound car in the collision. The eight students were all "crumpled upon one another by the impact."

The Vigilant Hose Co. and the Gettysburg Fire Dept. were summoned to the scene. Firemen worked for an hour to remove the bodies from the wreckage.

Maryland State Police said a witness, a Mr. Barlacker, of Dover, Pa., said the 1959 Pontiac sedan in which the students were traveling south had gone into the northbound lane and ran almost head on into Marsh's northbound 1964 Plymouth sedan. Both vehicles were demolished.

Adams County Coroner, Dr. C. G. Crist said Mrs. Marsh died of a compound fracture of the skull. Mr. Marsh died of a fractured skull, a jaw broken in two places, a fractured left forearm and three compound fractures of the left leg. The death of the Bendersville youth was caused by a fractured skull. In addition, Dr. Crist said, all had suffered internal injuries.

Funeral services for Bonish were held Tuesday morning with a requiem Mass in St. Francis Xavier Catholic Church, Gettysburg. Interment was made in St. Ignatius Loyola Catholic Cemetery, Buchanan Valley.

The bodies of Mr. and Mrs. Marsh were removed to the Peters Funeral Home, Gettysburg. Mr. Marsh has been district manager for Betz Laboratory, Philadelphia, in this area for a number of years. The couple has a daughter, Barbara Jo, aged 13.

Five of the students were taken to the Wilson Funeral Home, Emmitsburg. Later four were re-

moved to the Creager Funeral Home, Thurmont. Representatives of the college attended all seven of the funerals.

Rt. Rev. Robert R. Kline, president of Mount Saint Mary's College, was the celebrant at the Requiem Mass held Wednesday at 11:15 a.m. in the College Chapel, in memory of the seven collegians who were killed in the tragic auto accident on U. S. 15 early Saturday morning. An overflow crowd of nearly 1,000 somber faced collegians, seminarians, and faculty members participated in the service. Other officers of the Mass were seminarians, and The Seminary Choir under the direction of Rev. David W. Shaum, chanted the Requiem.

Members of the faculty and student body represented their colleagues and classmates at the funeral services of the deceased. Very Rev. Thomas J. Killeen, vice president, Rev. Robert H. Wharton, dean of freshmen, and Rev. Philip A. Barrett, treasurer, carried the personal condolences of the college to the bereaved families as did Daniel R. Mannion and John J. Moody, Jr., president and vice president of the student body.

Representing the college at the funeral of Daniel J. Metzger, Somersdale, N. J., was Rt. Rev. Hugh J. Phillips; at that of Bruce T. Considine, Glen Cove, N. Y., was Rev. James F. Kelly; William J. McCarthy, Williston Park, N. Y., Rev. James T. Delaney; Frank Cunningham, Newark, N. J., Rev. Carl J. Fives; Fred Christiansen, Irvington, N. J., Rev. Robert S. Grace; and at that of John L. Brown, Haddonfield, N. J., Rev. Matthew L. Panczyk. Msgr. Kline was the celebrant at the Tuesday funeral of William G. Bonish in Gettysburg, Pa.

Others in the official representation included members of the Student Council, class officers, members of the National Alumni Association, and the Parents Guild.

The college has also received messages of condolence from the Governor of Maryland, and other state and local officials, following this, "the worst tragedy in the college's 157 year history."

## Road Commission Studies By-Pass

John B. Funk, chairman of the State Roads Commission, has ordered three immediate steps to improve the safety conditions at the Route 97-15 intersection at Emmitsburg which residents have branded a "death trap" and dubbed "slaughter ave."

Calling the situation the "most perplexing road problem I have ever faced," Funk this week ordered:

1. Construction of a "rumble" surface, at 500-yard intervals over a quarter-mile section leading up to Route 15 on Route 97.
2. Installation of an overhead yellow blinking light a quarter-mile from the Route 15 intersection on Route 97.
3. An immediate engineering study of possible dualization of the road without conflicting with present long-range plans for other highways.

Funk said he made the decision to go ahead with installation of the new safety factors after a Saturday visit to the area with Col. Carey Jarman, superintendent of State Police, and Lt. Col. George E. Davidson, who is in charge of field forces for the State Police.

Funk said he made the decision to concentrate on improving safety factors on the eastern side of Route 97 leading up to

Route 15 "because the colonel and I think this is where the trouble lies, motorists not being aware of the stop sign there."

He said the "rumble" surface, rough sections of roadway, will make motorists slow down, "or so we have found out from previous use."

Funk said the improvements would begin in the area immediately. He declined to say when construction of the dual highway would get under way, because, he said, "surveys would first have to be taken to see how far back we would go with the dualization."

Funk admitted that, at the moment, the intersection at Emmitsburg is the worst traffic problem confronting him.

Asked if he would call for an interchange at the intersection if the new factors do not solve the problem, Funk said he would. "If the present steps do not help, I will talk to the Governor about the problem," he said.

Funk added that the intersection there is slated for an interchange sometime in the future, whenever the volume of traffic increases enough to warrant it.

Six persons have died since the intersection was opened to travel Dec. 10. A blinker light was installed in January, after the first two deaths and six accidents. Four have died since.

### CARD PARTY

A card party will be held on November 16 at 8 p.m. in St. Anthony's Shrine Parish Hall. Five turkeys will be awarded during the evening. The public is cordially invited to attend.

Gruff talk usually reveals gravel in the brain.

### To Take Census

The Seminarians from Mount Saint Mary's Seminary will conduct a house-to-house census of St. Joseph's Parish, from 1:30-4 p.m. this Sunday afternoon, Nov. 7. There will be about 40 Seminarians participating in this project.

**St. Joseph College Alumnae Back Financial Drive**

The Baltimore alumnae chapter of St. Joseph College held its Development Campaign kick-off meeting Saturday, Oct. 23, at the Center Club in Baltimore's Charles Center.

Sister Rosemary Pfaff, D.C., president of the college, addressed the group of more than 80 alumnae volunteers and friends of the college who will spearhead the drive to raise \$12 million for St. Joseph's Development Program which was approved by the Board of Trustees and Board of Lay Advisors in 1963.

The first phase of the campaign, which is scheduled until March, 1966, will offer memorial opportunities to alumnae, parents, friends, and select corporate groups. In her expression of appreciation to the volunteers, Sister Rosemary stated: "St. Joseph College has the unique distinction of having as its foundress an American woman who pioneered in the development of our American system of education. Elizabeth Ann Seton planted the seeds of a religious community and an educational system on our campus in Emmitsburg. Since 1809 Saint Joseph's has played a vital role in the education of women and the quality of its programs has been a force in establishing the high standards which today contribute to the unprecedented status women enjoy in the professions."

"Two years ago, world-wide attention was focused on the college when Pope John XXIII declared Elizabeth Seton 'blessed'. Since then visitors from all over the world have been drawn to our campus to view Mother Seton's first home and school preserved as the cradle of the parochial school system in the United States. For the first time in the history of the college, alumnae and friends who wish to share in Elizabeth Seton's educational apostolate are being invited to identify themselves with her work through memorials on her campus."

In the present drive, personal solicitation will be made in Baltimore and other cities with a large concentration of alumnae. In more distant areas and overseas, alumnae and friends will be contacted by mail.

Mrs. William Ebaugh, '41, Baltimore area alumnae campaign chairman, presided at the meeting and introduced the campaign leaders: Martin J. Knott, president of American Metalcore Systems, Inc. of Baltimore, and a member of the President's Board of Lay Advisors, is general chairman of the development campaign. Mrs. Rodney J. Brooks, Baltimore, and a graduate of the class of 1915 which celebrated its golden jubilee last spring, is honorary alumnae chairman. Mrs. Albert Hamel '39 and Mrs. Louis Van Hollen '43, of Towson and Catonsville respectively, are national alumnae co-chairmen. Miss June Danaher, '58, is chapter president.

Mrs. Ebaugh also introduced members of the Board of Lay Advisors from the Baltimore area: Joseph Dignan, Jr., chairman of the Board, William Ebaugh, Dr. Edward A. Flanagan, Jr., Dr. Vernon Vavrina, and Mrs. Edward J. Ryan, Director of Development at St. Joseph's.

The alumnae also met members of Mrs. Brooks' honorary committee: Mrs. Hilary Gans, Miss Eugenia Kelly, Mrs. William R. Semans and Miss Hazel Fox.

The multi-million dollar development program calls for the construction of several new buildings to accommodate an enrollment of 1,000 students, double the present student census, by 1972. Kelley Hall, a priority project of the master plan, was opened in 1964 as a residence for 150 students. The basic Science Building is nearing completion and occupancy is expected by the next semester. A library to replace the present century-old overcrowded facility is on the architect's boards. The master plan also includes additional residence halls, a liberal arts building, student union and dining hall and an enlarged physical education center.

Included in the Development Program are funds to strengthen faculty development, expand the college's academic programs and increase student aid.

St. Joseph College is conducted by the Daughters of Charity of St. Vincent de Paul.

**Phelan's Mount Prospects Extremely Bright**

After the early practices it seems pretty evident that Coach Jim Phelan's 1966 Mountaineer cage squad will be one of the most interesting outfits the Mountie coach has had in his 11-year stint here.

As he prepares for his 12th year and looks to his 220th win, Phelan finds that he has talented freshmen pushing his nine varsity lettermen, including three of last year's regulars, at every spot. Phelan can man both his guard and forward posts with vets since forwards John Carrell and Pete Johnston are back, along with

guards Bernie Haag, Mike Johnston, Mike Lyons and Jim Livelsberger. Lost to graduation were Ed Folk, 6'5", a consistent double figure scorer, and Jack Campbell, 6'6" center. Handyman Lou Martine, who steadied the ball club with superlative spot play in both back and front court, has also graduated.

Among the returnees, Phelan has three double-figure operators in Carroll, 13.3, Pete Johnston, 15.8, and Haag, 14.4. Vet Ed Sarmir is making a spirited effort to nail down a starting job. After a bright freshman year, Sarmir tailed off last season. From his early work, he looks like an early choice for a starting job.

Replacing Folk and Campbell, his two monsters, is Phelan's biggest job. But freshman Bob Sutor, 6'8", 220 pounds, needs only experience to nail down the pivot spot. Aggressive and quick, Sutor gets to the ball well and releases it quickly. He also has the speed to move with the little fellows as they go down court. One of his chief talents is his skill in outstretching opposing shooters, something Phelan has been looking for in a big man for many years.

There is little to choose between Baltimore's Dick Dohler, a 6'3" dandy, who does everything well and looks like a great one, and Fred Carter, 6'3" guard, who can leap out of the gym, shoot exceptionally well and handle the ball. Both look like sure-fire starters with Dohler moving Carrell, a 13.3 shooter and starter for three seasons, to the sidelines. Both fresh are fast, smart and aggressive. They could, with Sutor, give Phelan the best speed, shooting and rebounding he has had in many a moon.

Backup men are Dennis Malseed, 6'2", the Philadelphia Catholic league's top scorer, Mike Johnston and Mike Lyons. Malseed still needs experience and must learn better defense. Johnston is a steady veteran who rarely makes a mistake and is a fine ball handler. Lyons missed most of his soph campaign with a broken ankle. He's tough and quick and the kind of shooter who can break a game wide open. Fran Fenerty, 6'5", always on the verge of greatness, may come of age in his senior year. He is a fine shooter and able rebounder, but has been hampered with a wrist broken in September and just

now healed.

While the picture may change as the practice sessions progress, chances are if Phelan had to pick a starting team now he would go with Dohler and Pete Johnston at forwards, Sutor at center and Haag and Carter at guards. Sarmir would figure as number one replacement with Carrell up front and Mike Johnston and Lyons in back court. But it's the kind of squad where ability is so even that anyone can crack the tapoff jobs if the starters slough off.

Phelan has never had a squad with better depth. He has never had such good overall size coupled with speed in every position. The whole squad can rebound well and all are excellent shooters. It seems mainly a question of tying all the skills together into a capable team.

The horses look great. But as Phelan remarks: "Let's wait until they blow the whistle. It's a big move from high school to college."

Mrs. Paul Twomey, Miss Josephine Frizzell, both of Philadelphia, and Mds. C. V. Sullivan, Baltimore, visited over the weekend at the home of Mrs. J. W. Sullivan and Mrs. George Thompson.

Miss Ann Eckenrode, Baltimore, visited during the weekend with relatives and friends in town.

Mrs. Thornton Rodgers visited recently with her son and daughter-in-law, Mr. and Mrs. Donald Rodgers and family, Westminster. She was accompanied home on Sunday by Mr. and Mrs. John Owens and family, Baltimore.

Mr. and Mrs. Glenn Reifsnider and family, Keymar, visited with Mrs. Reifsnider's mother, Mrs. George Ashbaugh, recently.

**LOVELY AS MIDDAY IN MAY**

**NOON** 100% ACRYLAN ACRYLIC FIBER

**A NEW MASLAND BROADLOOM CARPET**

NOON has been specially styled by Masland to add that touch of enduring beauty that will make your home the delight and envy of all who see it. Consider these decorating features:

**THE SURFACE:** Beautifully sculptured. NOON is a truly luxurious broadloom carpet. Its sculptured pile surface is designed in a graceful and elegant scroll that is enhanced by a special Masland random shearing technique—an ideal setting for provincial or traditional furnishings.

**THE CONSTRUCTION:** Superb and strong! NOON is a heavy, densely packed broadloom, tufted of 100% Acrilan® acrylic fibers that are richly textured, remarkably resilient, and resistant to soiling. NOON is carefully crafted to provide the ultimate in luxurious, lasting beauty.

**THE COLORS:** Marvelous! NOON offers a variety of sharp, clear colors, and subdued delicate shadings. You can select the exact colors that will perfectly accent your surroundings, or harmonize with your drapery and furniture colors.

**THE VALUE:** NOON exemplifies the economy of luxury. For just a few pennies more per month, you can enjoy NOON's superior decorator styling and colorings that have been engineered to provide you with many extra years of happy satisfying service. That's the Magic Of Masland Carpets.

Today—plan to see lovely NOON and its fashion coordinated partners MORNING and NIGHT. Just imagine three different carpet patterns, each with a different texture, yet each with exactly the same colors to create exciting decorating effects.

**WENTZ'S**  
BALTIMORE STREET GETTYSBURG, PA.

The capability of mining companies throughout the free world to produce nickel attained an all-time high in 1964, reaching an estimated 705,000,000 to 725,000,000 pounds annually.

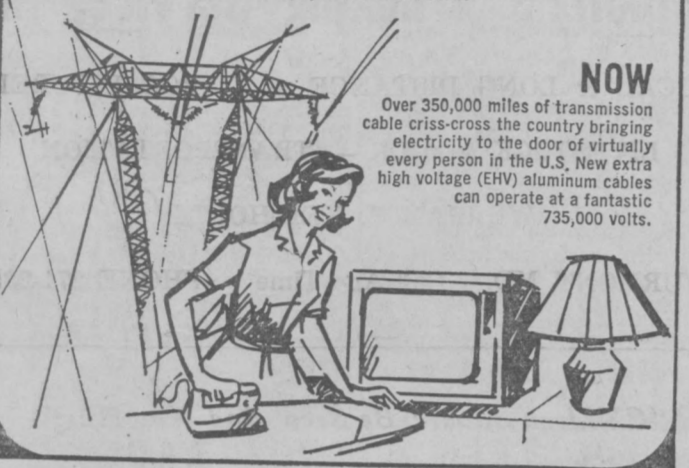

The bill-paying habit is expensive. About 55 per cent of the world labor force is engaged in agriculture.

## THEN & NOW

### THEN

Electricity was a mere curiosity in 1882 when Edison built his Pearl Street generating station in New York. The 5,000 ft. distribution system served only 59 customers, operated at 110 volts.

### NOW

Over 350,000 miles of transmission cable criss-cross the country bringing electricity to the door of virtually every person in the U.S. New extra high voltage (EHV) aluminum cables can operate at a fantastic 735,000 volts.

## BABSON

Writes

BY ROGER W. BABSON

Babson's Point Of View On: Credit And Debt

long will the inflationary state of mind of the public continue?

### Record Increase In Private Debt

Many factors have combined to produce the business boom: Among these are population growth, technological advances, international tensions which have made it necessary to spend more and more for defense, the large amounts poured into foreign aid, and constantly climbing wages. Even so, without rising debt to feed on, the business boom would have long since burned itself out.

There has been a tremendous boost in private debt in this country over just the past few years. From 1955 through 1964, the advance amounted to 104%. Going back further, to 1945 at the end of World War II, private debt through 1964 racked up a phenomenal rise of 483%. Adequate increases in credit are necessary, of course, to keep the economy on the upmove; rising debt provides the momentum for growth and progress. But the persistence and rate of the upspiral are governed by the capacity and willingness of lenders and by the capacity and willingness of borrowers.

### Installment Debt

A very sharp step-up in the use of installment credit has been perhaps the biggest factor in keeping consumers spending heavily for goods and services. And it appears that they will be buying still more on installment in 1966. They have been "brain-washed" by long years of watching more and more people piling up debt and yet still seeming to keep their heads above water. The years of climbing personal incomes—in the face of steadily rising prices—have made debt repayment appear easy.

There is now some \$64 billion in installment debt outstanding—an increase of 50% since the beginning of the present economic upturn in 1961. We look for installment debt to move still higher over the next six months at least... unless the Federal Reserve puts interest rates before then and thus clamps a lid on the boom. GNP And Debt

There is no denying that total private debt outstanding—corporate and individual—is at record levels. Yet, high though it may be, it is still apparently supportable. The big question we have to face is the rate of rise. There is a sympathetic relationship between Gross National Product and private debt. Some economists claim that the present rate of rise in private debt is fully justified by our expanding GNP. We do not agree. From the end of World War II through 1964, GNP increased about 194%; gross private debt expanded 483%. This disparity has widened further in recent months; it is definitely a caution

signal.

Corporations—and individuals—the country over are prospering from rising asset values and mounting earnings. Confidence abounds, and everywhere is heard the magic word "growth". Such attitudes are symptoms of the late stages of a boom. And the longer the boom runs without correction, the surer it is that more people will plunge themselves dangerously into debt.

### How Much Is Too Much?

How much is too much? Only you can tell, for you know best the details of your over-all position. We do say this: If we were owners of a small business, we would think twice today before undertaking expansions that would require large borrowings... especially if these were to entail repayments that could be met only on the basis of present volume and earnings. And if we were retail merchants extending installment credit, we would screen applicants more closely, keeping in mind that 10% of all families now owing installment debt are already using more than 20% of their disposable income for repayments. Above all, we would be careful not to assume that growth will proceed always as rapidly as it has during the past few years.

## OUR LIBRARY

New nonfiction books in the Emmitsburg Public Library include: "The Crisis of Cultural Change," by Myron B. Bloy, Jr. As a chaplain at the Massachusetts Institute of Technology, Myron B. Bloy, Jr., has been confronted by the functionalist, pragmatic spirit of our technological era. In this book he welcomes this spirit—whether in modern technology, secular institutions, or non-Christian individuals as a manifestation of the power of God's grace in our time.

"I Will Try," by Legson Kayira. The true-life first-person story of a determined young man who walked 2500 miles across his native Africa to get an American education.

"A Day in the Life of President Kennedy," by Jim Bishop. This last intimate portrait of President Kennedy and his family is a warm and dynamic account. It is also a historic document, written only a week before the President's death, which sheds new light on John Fitzgerald Kennedy as a human being and as a world leader.

"Markings," by Dag Hammarskjöld. Mr. Hammarskjöld left behind the manuscript of this book to be published after his death. It is a remarkable record of the spiritual life of a man whose public image was universally known and admired—a record that reveals the extent of his commitment to the Way of the Cross.

"The Founding Father". The story of Joseph P. Kennedy by Richard J. Whalen. This major biography, in preparation more than two years, tells the almost incredible story of Joseph P. Kennedy, grandson of a poor Irish immigrant and father of the thirty-fifth President of the United States.

"Seeds of Destruction," by Thomas Merton. This is a book for our times, whose title echoes with irony the title of Father Merton's famous early work, Seeds of Contemplation. This new book was written in, and for, a time of crisis the moral crisis of racism and the black revolution, and the spiritual crisis occasioned by the passing of the old order.

As of April 1964, the Navy had approximately 895 combatant vessels operating in the fleets.

## LEGAL

NO. 730 EQUITY ADOPTIONS IN THE CIRCUIT COURT FOR FREDERICK COUNTY, MARYLAND IN EQUITY

### ORDER OF PUBLICATION

This is to give notice that on the 13th day of October, 1965, a Petition was filed in the Circuit Court for Frederick County, Maryland, for the adoption of James Ernest Stephen, a minor male child and for the adoption of Debra Faye Stephen, a minor female child.

WHEREUPON, it is Ordered by the Circuit Court for Frederick County, Maryland, this 13th day of October, 1965, that the Petitioners cause a copy of this Order to be inserted in a newspaper published in Frederick County, once a week in each of four successive weeks, before the 19th day of November, 1965, giving notice to non-resident, James William Stephen, a person entitled to notice, and warning him to show cause, if any there may be, on or before the 20th day of December, 1965, why a Decree for the adoption of said minors, James Ernest Stephen and Debra Faye Stephen, should not be passed as prayed.

ROBERT E. CLAPP, JR. Judge

W. Jerome Offutt Solicitor for Petitioners Filed October 13, 1965 TRUE COPY TEST Ellis C. Wachter, Clerk 10/22/4t

## Water Legislation Bill Signed By President

More than a million people in rural America may benefit from an expansion in financial support for rural community facilities and family farms authorized by recent legislation, Edward F. Holter, Farms Home Administration State Director for Maryland and Delaware said this week.

Private investors will provide the bulk of the funds on an insured basis through USDA's Farmers Home Administration.

The legislation signed into law by President Johnson recently:

Authorizes an increase from \$200 to \$450 million in the Farmers Home Administration's ability to insure loans in any one year for rural community facilities including water supply and waste disposal systems, and for the development and purchase of family farms.

Provides for the first time, this type of credit for rural waste disposal systems.

Authorizes, for the first time, grants to supplement this type of credit for rural water disposal systems. Grant authority may not exceed 50 per cent of the construction of a project nor a total of \$50 million a year.

Authorizes, for the first time, grants totaling \$5 million a year for comprehensive planning of water and sewage systems.

Increases from 2,500 to 5,500 the size of towns eligible for such assistance.

Increases from \$1 to \$4 million the maximum size of a loan, or a combination loan and grant for

water supply or waste disposal systems.

The 1,600 field offices of the Farmers Home Administration are being notified to accept applications under the expanded credit authorities. Grant assistance will not be available until funds are appropriated by Congress.

Applications for rural community facilities loans may be made by public bodies and nonprofit private organizations.

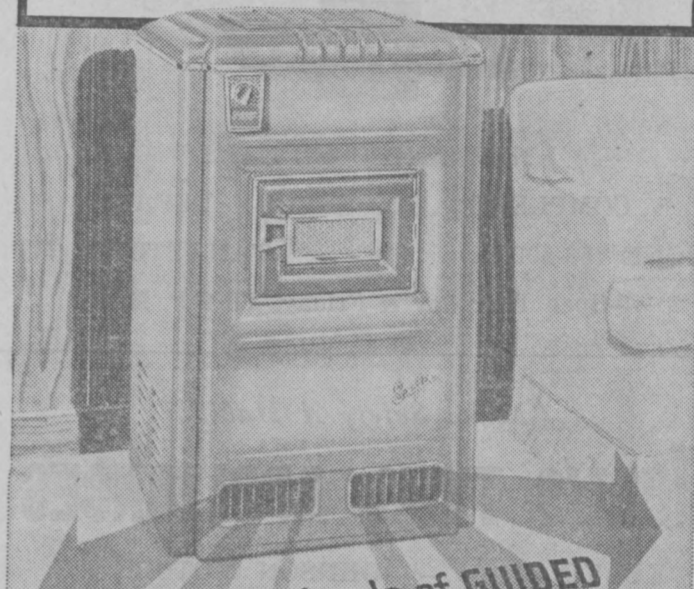

The \$450 million in insured loans plus the \$55 million in grants authorized yearly by the Act can help an estimated 800 rural areas containing one million people obtain needed water and waste disposal systems and other facilities, and provide 18,000 farm families with credit needed to secure their foothold on the land.

With this expanded authority we can be far more effective in

helping rural communities and family farmers obtain needed resources, build their economic strength. We must cease looking to the cities for solutions to rural problems. We must work to make rural America strong.

### MARYLAND HIGHWAY DEATH TOLL TO SET NEW RECORD

Maryland's highway death toll for the first ten months of 1965 is 120 more than for the same period last year.

"The current highway fatality picture is not a pleasant one to contemplate especially when we see, as we did last week, nine lives lost in a single accident," commented Colonel Carey Jarman, Superintendent of the Maryland State Police, "and there is no indication that there is going to be any improvement during the next two months. Unfortunately, it's an almost sure thing that 1965 will top the record for deaths on Maryland highways."

"Everyone was shocked by the tragic head-on collision on Route 15 near Emmitsburg," continued Colonel Jarman, "in which seven college boys were killed along with a man and wife from Pennsylvania. One of the cars involved was in the wrong lane of this straight, two-lane highway—a 'driver error' of major proportions."

"Again the question must be raised: Are we doing enough to make better drivers of every operator on the road? Are we doing enough to make sure that every operator has a serious appreciation of his responsibility when he is behind the wheel?"

Colonel Jarman concluded: "The answer, in my opinion, is an emphatic 'NO', and until we go all out in promoting driver improvement, we are not doing enough and we will continue to see the highway toll mount year after year."

## TODAY'S meditation

**The Upper Room**  
© THE UPPER ROOM, NASHVILLE, TENNESSEE  
THE WORLD'S MOST WIDELY USED DEVOTIONAL GUIDE

Read Matthew 25:14-23.  
Fear none of those things which thou shalt suffer: . . . ye shall have tribulation . . . be thou faithful unto death, and I will give thee a crown of life. (Revelation 2:10).  
The church at Smyrna was faithful in spite of her trials and tribulations. Polycarp, probably a disciple of the apostle John, later became bishop of the church in Smyrna. Until his martyrdom, he was the mainstay of Christianity in Asia Minor.  
The church was evidently poor in silver and gold but rich in spiritual and eternal values. All these things the Lord took into account.  
There are many splendid and magnificent churches all over the world. Some of them are rich in name, some in building and prop-

erty, and some in money. The question is how rich are they in spiritual things? The silver and gold will some day perish; but the Word of God, the real riches of the church, will go on forever. Is your church faithful? Is mine faithful? Let us not forget

### Keep Under Hat

Cut a piece of plastic and fit it under your hat in rainy weather. Water runs down the plastic, not your neck.

### Backlash

Often the point of a pencil can get a stubborn monofilament backlash untangled . . . when nothing else can.

### Bubble

Smart bass fishermen tie hooks on to plastic bubble that give casting weight to light baits. Reason: Doggone bass hit the bubbles so often.

### All-Purpose

Sharpen one side of a hacksaw blade. File a point on it. Fit a handle on it. (A wrap with electrician's tape is the fast way to do this.) Now you've got a saw, a knife, and a fish scaler. And blade's high-grade steel holds its edge.

### Trigger Pull

This isn't the most accurate way to measure trigger pull . . . but it will give you some idea. Put gun muzzle first on bathroom scales. Note weight. Slowly life by trigger. When it snaps, read weight and subtract from original. There's your trigger pull in pounds. Oh, unload gun before you experiment.

### Piped Ice

When you leave your fishing hole, stick a stove pipe in it. When you return, tinder a fire in pipe. Pipe conducts heat, melts away from ice. Pull pipe out, push round chunk of ice under and start fishing.

A corporal became the first Marine to earn the Medal of Honor. He received the medal for heroism while serving aboard the USS Galena during the Civil War.

Having more than one telephone means you can take or make calls with ease . . . without rushing from room to room . . . with far less interruption of your household routine.

Extension phones can save you miles of walking. A recent test with 358 housewives showed that

the addition of one extension phone can save 76 miles of needless steps for the average housewife in a year's time!

And the low cost is the best part of all... just \$1.25 a month, plus tax, after a low, one-time installation charge.

Be good to yourself . . . and to your family. Call your C&P Business Office today about handy extension phones . . . or ask your Telephone Man.

The C & P Telephone Company  
of Maryland

Part of the Nationwide Bell System

**A New Insurgency**  
Whenever the U. S. public becomes preoccupied with its domestic problems or when foreign tension reaches a stalemate level, look out. These are the dangerous times when Communists around the world are planning for the next leaps. Right now they are planning

how to get in on the India-Pakistan dispute, just as they are what to do here in America in 1968. More than a generation of stealthy, deceitful maneuvering has made it clear that the Reds are always on the move, even when they are not in the news. Much of what they are doing now, of course, was set up one, three, five years ago. One of the current major tactical efforts of the Reds has been their deliberate and purposeful campaign to make Americans believe that the trouble in South Vietnam is an internal political struggle between Vietnamese, in which the Viet Cong

is only a political faction. Our people, of course, have shown that it is the guerrilla arm of international Communism, and U. S. Reds have proved it by talking about setting up a brigade to go help the Viet Cong. But unfortunately, otherwise intelligent Americans have fallen for this line, so much has it been mouthed by our not-so-innocent fellow travelers. No See, But There

Or, one could cite the actions of the former Dominican President Juan Bosch, before the Marines reached Santa Domingo, as the typically confused liberal who wants power no matter what is required to get it. Bosch, not known as a Red played freely with then until they were about to use him to takeover the country. No Communists down there, said the apologists. But now, the Popular Socialists and the Popular Movement are both vying to see which can wave more Red flags. They're there, they have been there all the time, and now they think they can get more out in the open — when the Marines leave.

Columnist Victor Riesel has commented how unfortunate it is that the Ho Chi Minhs of the world are not discovered by the free nations before they are prepared to throw their guerrillas against us. He has detailed the rise of Francisco Juliao in Brazil, whose followers today are receiving arms from Red China. Another peasant leader, waiting his chance for civil war. Soviet led labor organizations are also setting the country up for revolution and chaos. Only the military power holds the country together.

**Comeback in Europe?**  
News reports recently have described considerable evidence of a Communist comeback in West Germany, although the party has been illegal there since 1956. With a few thousand staunch members underground, it has become the pawn of the East German Communist Party, which is supplying at least a million dollars yearly for propaganda and agitation.

They smuggle and shift propaganda literature all over Europe to get it into West Germany, and they seem convinced that they can make headway in this country of booming prosperity. They play on fears of nuclear war and are inciting unrest by radio broadcasts among a million or so foreign workers in West Germany.

**What About The U. S.?**  
In America, too, the Communists are talking on new life. They are allowed to operate openly, and they are increasing their activities in publishing, youth recruitment, and political planning. At the same time their secretive, behind-the-scenes intrigues are deceiving large sections of the American public into thinking that the Communists are innocently associated with the rest of the liberals. They are using the liberals, all right, but they are doing these things by deliberate plan, searching as ever for the quickest route to communizing the U. S.

They pretty well succeeded following the Los Angeles riots in hiding evidence that the violence and destruction there was anything other than spontaneous. Just poverty-stricken, disadvantaged Negroes attacking the enemy and demanding their civil "riots." Uh-huh. To experts who viewed the scene, watching its progress, and then noted the statements of radicals like Jesse Gray who called the boys in Los Angeles "freedom

fighters," it became obvious that the insurrection was not unplanned. Let us not forget that the Reds count on misery and insurrection to advance their revolutions, and they would like to see more of it in America.

**Muscular Dystrophy Drive Begins Sunday**

The annual Muscular Dystrophy Association's fund drive will be inaugurated on Sunday and Monday, November 7 and 8, with a door-to-door campaign in seven Maryland counties. It was announced by Mr. N. Chester Phil-

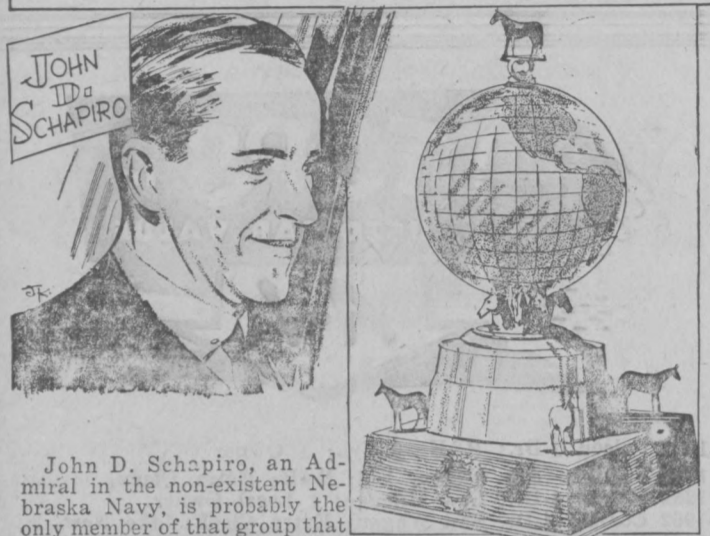

lips, District Director. This year's fund goal is \$100,000, which will be used primarily to support the free MDA Clinic at Johns Hopkins Hospital. This clinic is available to muscular dystrophy patients in Baltimore, Anne Arundel, Howard, Harford, Cecil, Frederick and Carroll Counties. Those struck by the neuromuscular disease may receive free diagnosis, treatment and, in many cases, orthopedic devices. Muscular Dystrophy, thus far, is an incurable disease that mysteriously attacks the muscles, weakening and making them useless. In time, the patient becomes helpless. The body system is then

prey to simple ailments and afflicted children rarely reach their teens. More than 200,000 Americans are afflicted with over two-thirds of its victims children. Contributions may be sent direct to the Muscular Dystrophy Association, Inc., Baltimore Chapter, 2529 St. Paul Street, Baltimore, Maryland 21218.

Tiny nickel stainless steel ball bearings, smaller than ordinary dust specks, are used in aerospace equipment such as recorders and computers.

**PROMOTED**  
CHAUMONT, France—Byron R. Baer, son of Mr. and Mrs. Lewis R. Baer, R1, Taneytown, Md., has been promoted to airman second class in the U. S. Air Force. Airman Baer is an air policeman at Chaumont Air Base, France. He is a member of the U. S. Air Forces in Europe, America's overseas air arm assigned to NATO. The airman is a graduate of Taneytown Senior High School. Hopi Indians were noted for pottery.

**OFF AND RUNNING by John I. Day**  
**Thoroughbred "World's Fair"**

John D. Schapiro, an Admiral in the non-existent Nebraska Navy, is probably the only member of that group that has anything to do with ships. Since earning his BA at Stanford in 1936 and taking the helm of his father's Boston Metals Company, he has bought and scrapped, or in some cases converted to other use, more than 1,400 warships of all types. He also bought a Maryland race track in 1950, but this he didn't scrap. Instead he spent several million dollars to convert Laurel into one of the finest courses in the country. He then launched the Thoroughbred "World's Fair" known as the Washington, D.C. International, which will be run for the fourteenth time on Veteran's Day, November 11, and built a special turf course on which to run it.

Not satisfied to merely plan the race and put up a \$50,000 purse (it is now \$150,000), Schapiro undertook personal missionary work to insure entries from afar. The highly successful result is that in its 13 runnings, the Washington D.C. International has attracted 95 horses from 17 foreign lands, including one which bore the colors of England's Queen. Indicative of the top calibre of the horses competing is the fact that, until last year, when Kelso won his fourth try after being three times second in the International, the score was six all, visitors having scored once each for England, Australia, Venezuela, and, three times for France.

DELIVERY AND DRIVE-IN SERVICE

**ATLANTIC CITY EXPRESSWAY**

How would you like to drive that car of yours at 70 miles an hour and not worry about getting a traffic ticket?

You can, thanks to modern methods of road construction on New Jersey's newest high-speed toll highway the Atlantic City Expressway. It has been designed to bring motorists safely and quickly into South Jersey shore points.

When completed the Atlantic City Expressway will extend 44 miles from Turnersville, N. J. to Atlantic City, the world famous resort city.

Thirty-eight miles were opened to traffic July, 1964. Since then, over 1,750,000 vehicles have used the road. The final six-mile stretch is scheduled to take traffic into the heart of Atlantic City on July 30, 1965.

And in just 10 months of operation, the Expressway has compiled an impressive safety record. In fact, Elwood F. Kirkman chairman of the New Jersey Expressway Authority which operates the road said, it was one of 21 toll roads to report no fatalities over the past Memorial weekend. Some 50,000 vehicles traveled the Expressway that weekend with

just one minor accident reported.

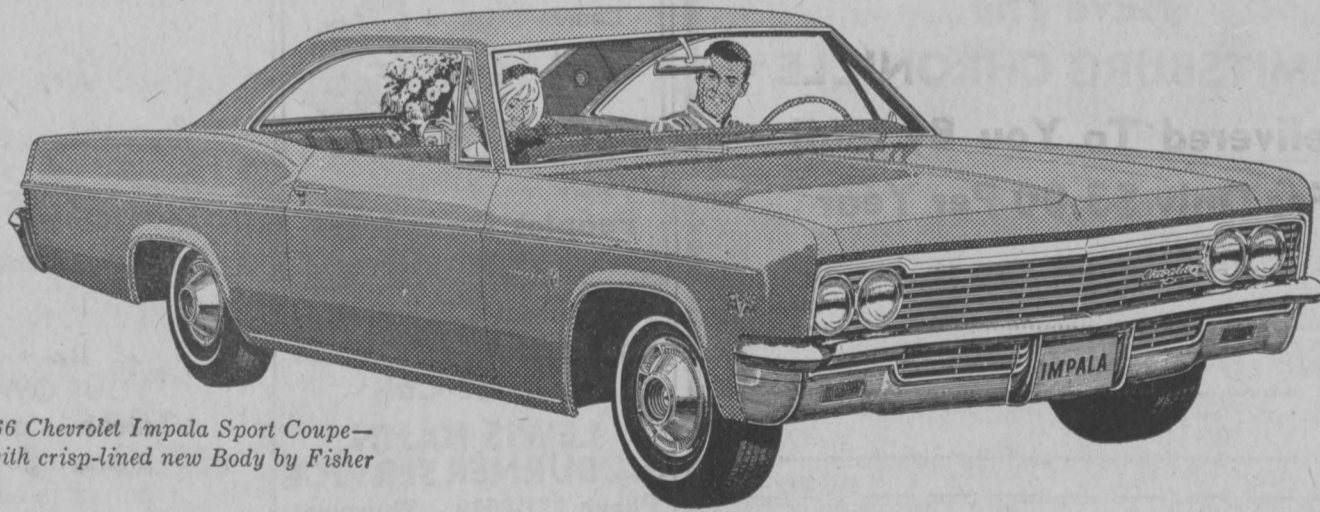

A four-laned highway, its medial strip measures 40 feet on some stretches to 160 feet on others. The Authority has also ordered the planting of 32,000 Colorado blue spruce trees, which ultimately will help cut headlight glare and serve as snow fences in the wintertime.

In keeping with its safety approach, the Expressway Authority has published a map indicating ramp exits and service areas. It also gives details on roads that connect at the interchanges and the areas served by these roads.

A "Send Help" sign lettered in red on a white background and measuring 18 by 3 1/2 inches, occupies the entire first fold of the map. The Expressway is patrolled around the clock and agreements have been made with well equipped garages to provide emergency service at reasonable costs. Charges are also explained on the map.

Free maps of the Atlantic City Expressway can be obtained by writing to the New Jersey Expressway Authority, Union Station Building, Atlantic City, N. J.

**RESOLUTION**

WHEREAS, in the infinite wisdom of Divine Providence, the beloved President of this Bank, JOHN WOOD, was removed from our midst on October 29, 1965, but his admirable qualities live on in our hearts; and

WHEREAS, JOHN WOOD was held in great esteem for his devotion to Church, family and community, for his many services to his fellow man, for his leadership and wise counsel, for his friendship and sympathetic understanding, his integrity and loyalty, and for his tremendous contribution to the welfare and progress of this Bank, of which he was a Director since Sept. of 1950 and serving as its President since January, 1954.

NOW, THEREFORE, BE IT RESOLVED that those of us who served with him on the Board of Directors of The Detour Bank have suffered an irreparable loss, are profoundly conscious of an enduring sorrow, and in mourning his death, we extend to his family our most sincere and heartfelt sympathy. He will be long remembered and greatly missed.

AND BE IT FURTHER RESOLVED that a copy of this resolution be released to the press, a copy sent to Mr. Wood's widow, and that as a lasting tribute to his memory, the Resolution be spread on the pages of the official Minutes-Book of this Bank. **ARTHUR W. CLABAUGH** **EDGAR G. EMMICH** **EARL H. HOFFMAN** **D. LEONARD REIFSNIDER** **ROBERT R. SAYLER** **WILLIAM J. STONESIFER**

Those attending were: Joan McNair, Linda Tabler and Maxine Sweeney, hostesses; Edna Misner, Diane Reaver, Betty Smith, Mable Saunders, Linda Masser, Shadon Baker, Elaine Null, Marge Richards, Sue Crouse, Elizabeth Wilhide, Mr. Marvin Laws and Mrs. Rita Remavege. Bonnie received many lovely and useful gifts.

**Promoted To Sergeant** **CAMP SPRINGS, Md.**—Raymond L. Topper, son of Mr. and Mrs. James L. Topper, 121 DePaul St., Emmitsburg, has been promoted to staff sergeant in the U. S. Air Force.

Sergeant Topper is a computer operator at Andrews AFB, Md. He is a member of the Headquarters Command, USAF, which supports and services Air Force Headquarters in the Pentagon and other units in the Washington area.

He is a graduate of St. Joseph's High School.

**Pimlico To Open Nov. 13** Pimlico Race Course will open its 28-day fall meeting on Saturday, Nov. 13 with the running of the \$180,000 Pimlico Futurity. The nation's second oldest track, the Maryland Jockey Club plant

will continue to operate through Saturday, Dec. 18.

One of today's leading money winners in professional golf, Arnold Palmer, was once a Yeoman Third Class in the Coast Guard.

**County Teachers Seek Pay Increase**

The Frederick County Teachers Association proposed a basic teachers salary scale ranging from \$5,400 per year to \$8,640 at the Frederick County school board meeting this week.

This represents a \$400 increase over the present basic minimum salary of \$5,000 per year and ranges up to a \$640 increase over the present maximum basic teachers salary of \$8,000 here.

Oliver R. Crouse, principal of the Myersville School and president of the county teachers association, says this salary increase is needed because three other Maryland counties, including neighboring Montgomery County, are expected to increase their minimum teacher salaries to \$5,600

**J. Ward Kerrigan** **NOTARY PUBLIC** 100 E. Main St.-Emmitsburg Office Hours: 9-12 — 1-4 Evenings By Appointment Phone 447-3161

Montgomery County already has a \$5,400 basic minimum teacher salary and Howard, Harford, Prince Georges, Calvert, Anne Arundel and Baltimore counties and Baltimore City also pay their teachers more than Frederick County," Crouse said.

On October 10, 1845, the Naval School was established at Fort Severn, Annapolis, Md. Five years later it was renamed the United States Naval Academy.

M.A., rector of Mount Saint Mary's Seminary, has announced the appointment of six new priest members of the seminary faculty. They are: Rev. William J. Bartley, Ph.D., S.T.L., vice rector; Rev. Harry J. Flynn, B.A., dean of students; Very Rev. Msgr. Carroll E. Satterfield, S.T.D., professor of dogma; Rev. Matthew L. Panczyk, M.A., professor of Church history; Rev. Paul L. Love, J.C.D., professor of canon law; and Rev. William F. Hill, S.S., S.T.D., professor of Scripture.

Rev. Fr. Bartley, a native of Brooklyn, N. Y., attended Cathedral College there and the North American College in Rome, Italy. He received his Ph.B. and S.T.L. degrees from the Gregorian University in Rome. He has served in parish work in Brooklyn and as a visiting professor at St. Francis College there. Father Bartley, in addition to his administrative duties, will teach moral theology and philosophy.

Father Flynn, a native of Schenectady, N. Y., and an alumnus of the Mount, comes from the Albany Diocese where he served as an assistant pastor at St. Peter's in Troy, and as an instructor at Central Catholic High School. Father Flynn will teach homiletics and speech. Monsignor Satterfield is a native of Baltimore, and a priest of the archdiocese. In addition to filling pastoral positions, he has served as chaplain and lecturer at the College of Notre Dame in Baltimore. He studied at St. Charles Seminary and received his degrees in Rome from the Gregorian and Angelicum Universities.

Serving as professor of Church history, ethics, and philosophy, Father Panczyk, a native of Long Island and a priest of the Camden Diocese, received his B.A. from Manhattan College and an M.A. from the Catholic University of America.

Rev. Paul L. Love, a native of Baltimore and a priest of the archdiocese, received his B.A. from Loyola College there. He also attended American University and received his J.C.B., J.C.L., and J.C.D. degrees from the Catholic University. Father Love has served as Archivist of the Archdiocese, Pro-Synodal Judge, Vice-Officialis, and Area Director of the Family Life Bureau as well as pastoral appointments.

Appointed as professor of scripture, Father Hill, a native of Baltimore and a member of the Sulpician Fathers, studied at Johns

Hopkins and holds degrees from the Catholic University. Father Hill has taught at St. Charles Seminary and St. Mary's in Baltimore; St. Edward's Seattle, Wash., and St. John's, Detroit.

Fourth Try To Nip School Consolidation

A fourth attempt has been made to stop construction of the controversial high school at Winfield. A bill of complaint, signed by Mayor Bernard C. McDougall for the town of Sykesville against the Carroll County board of education, has been filed in Carroll County Circuit Court.

Three other attempts were made by Sykesville and Mount Airy groups to halt construction of the \$2,667,000 facility. Judge Edward O. Weant, Jr., has issued a "show-cause order" giving the board of education until Nov. 15 to "show cause why an injunction should not be granted."

Two previous cases were dismissed by Judge Weant in Circuit Court. The Court of Appeals upheld Judge Weant's order in one case, and the other case is pending in the high state court.

Attorney C. Rogers Hall filed the latest suit on behalf of the mayor, town council, citizens and taxpayers of Sykesville.

The suit charges that the board "awarded a contract to construct a comprehensive school without a study of population trends in the areas to be served by the proposed school and ignoring the traffic problem in the southern Carroll County area."

The suit mentioned that modern high schools were already operating in Sykesville and Mount Airy.

"Upon completion of the high school," the complaint reads, "Sykesville High School will be closed and there will be about 20 empty classrooms in the Sykesville school, wherein it is estimated that a vacant classroom costs the taxpayers \$20,000."

"The board has acted arbitrarily, illegally, and capriciously in totally ignoring the needs of the people of Sykesville and in making plans to close Sykesville High

School." The complaint asked the court to grant a permanent injunction restraining and prohibiting the board of education from proceeding with construction of the Winfield school, and grant a permanent injunction against the closing of Sykesville High School.

Two File For Thurmont Office

Two men are in the running to fill the vacant Thurmont commissioner's seat created when the late commissioner Calvin Wilhide resigned early in October.

Candidates for the position on the five-man council are William Benjamin and E. Franklin Weddle. Both were nominated at a primary election held this week in the Thurmont Fire Hall.

Besides Benjamin and Weddle, Harold Williard and Robert Schumann were also nominated as candidates for the commissioner's post. Both declined their nominations for business reasons.

Benjamin, nominated by Russell Delauter, and Weddle, nominated by Libert Miller, each have said they favor planning and zoning. The town election is Nov. 22 from noon until 7 p.m. at the fire hall.

Places Blame On Motorists

Editor, Emmitsburg Chronicle: Death Trap? For the third straight week I have read your articles concerning this so-called menace at the east end of town. I really think your attitude is not in keeping with the true solution. Now I ask you, "How can a traffic intersection be called a 'death trap' when flashing lights, etc., warn the approaching motorists? Have you not heard that motorists must show some responsibility in keeping with safety?"

People, when driving cars, must become more aware of the faster pace of today's traffic and all that this involves in the need for better driving habits.

The governor nor no one else can cure a bad situation if people continue to ignore necessary traffic regulators which are made for their own safety. People also

do make mistakes in judgment and often the penalty is death. This is all the more need for you to encourage safe driving habits rather than put the blame where it can do no good. Former resident, George Kugler Hammond, Indiana

EHS Sports

By George Richardson

Our junior high boys have been paying soccer on Saturdays. Their record looks this way: 8th grade—EHS 0, Thurmont 2; EHS 2, Linganore 0. 9th grade—EHS 6, Thurmont 6; EHS 4, Linganore 6.

Scorers for the 9th grade are Ronnie Weirman, 3, and Dave Swomley and Dave Wantz each

having one goal. This Saturday, the junior high boys complete their season with a home game against Walkersville at 9 a.m. Last Friday, the senior high boys beat MSSD 4-0 on the losers field. Scorers were Harry Hahn and Richard Masser. Wednesday's game at Francis Scott Key will wrap up the season. Always remember that, with rare exceptions, you do not have to talk.
