Most Anything At A Glance

BY ABIGAIL

The Route 15 By-pass is fast gaining us an infamous reputation. One after another individual has been slaughtered on this two-mile death trap until the total now stands at 17. This infamous stretch certainly must be the most dangerous in the United States. Just imagine, 17 people killed on this road in just a single year! I shouldn't be at all surprised if automobile clubs wouldn't start re-routing motorists over other major highways leading north and south. This is what happened before this abortive stretch of road was built last year. The old road was so treacherous and winding and full of bottlenecks that automobile clubs would not recommend it. Since a new highway has been constructed the situation is even worse. Apparently the only thing to do is to dualize the stretch or construct an overhead pass and the sooner the better.

The prolonged drought appears bent on following us into the new year and the water situation on the eastern seaboard worsens with each month. Major cities are now feeling the wrath of the drought, as well as the smaller communities. Our own plight here hasn't improved although we are being supplied with enough water to get by on. Should a prolonged freeze occur I suspect we'd "be out of business". This could happen any day at all as we enter into the dead of winter which needs to say, provides its share of frigid freezing weather. With the Town Council meeting Monday night it is hoped that additional ideas on keeping us in water if a week-long freeze should occur, can be mapped out and coped with. Regarding fire protection during this crisis, it has been suggested that the Town erect two earth and stone dams in local Flat Run. There is a sizeable quantity of water flowing into this creek at this time and a dam built near the bridge north of Town and one where the old dam existed in Emmitt Gardens, would provide a ring of good fire prevention water half way around the Town. These dams are inexpensive and would cost very few dollars and they might just be the answer to our fire menace here now, and in the future.

Church Groups Go Caroling

A mixed group of young people from Elias Church including Junior Choir members and Luther League members, assembled at the Parish House recently for an evening of Christmas caroling on West Main Street. Those representing the Luther League were: Roger and Douglas Adams, Craig Orner, Ronald Weirman, Eric Ohler, Jane Koozts, Sharon Ohler, and Ralph Ohler, Jr. Junior Choir members included: Dennis Adams, Bonnie Keilholtz, Anne Umbel, Vickie Saylor, Linda, Cathy and Debbie Gillespie, and Mary Frances Gingell. Accompanying the carolers were: Mrs. William Koozts, Junior Choir Director; Mr. and Mrs. Ralph Ohler, Luther League Advisors; Mrs. Glen Gillespie and Treva, and Pastor and Mrs. Ronald Fearer and Daniel.

Concluding the evening of caroling was a fellowship hour in the Parish House. A gift was presented to Mr. and Mrs. Ohler by Miss Jane Koozts for their assistance with the Luther League program. The group then enjoyed hot chocolate and cookies and listened to records.

Schedule Dance

St. Joseph's High School alumni Assn., announces a post-Christmas dance to be held in the VFW Annex on January 8. The affair will be held between the hours of 9-12 with music being furnished by The Southernaires from Frederick.

For truth is unwelcome, however divine.—Cowper.

Storm Hits Area; Little Rain Falls Here

A Christmas Day thunderstorm, unusual in this area at this time of the year, poured rain and hail in parts of Frederick County doing little to offset the prolonged drought afflicting Emmitsburg. Just a few miles from Emmitsburg motorists had to pull along the roadside and stop due to the heavy downpour. In all, Emmitsburg got only .47 of an inch, according to Mrs. Paul Beale, local weather observer.

The weather front hit Frederick County about 2 p.m. Thunder and lightning accompanied the storm as it passed through the state.

The storm didn't do Emmitsburg much good, reported Public Works Commissioner J. Norman Flax.

"It rained a little bit — not enough to get any runoff at all," he said.

If the weather didn't bring the community water relief the emergency pumping operation at Tom's Creek is proceeding well and keeping townspeople in potable water, Flax said.

Flax said he foresees having enough water for the town even after Mount St. Mary's and St. Joseph's Colleges return from holiday vacations next week—if the water ban in effect is lifted.

The bulk of the town's water is now coming from Tom's Creek. State Department of Health checks find it of good quality, Flax said.

Virtually no snow has reported in the area from the storm, police and fire companies around the county reported.

National Death Toll Sets Record

The nation's three-day Christmas traffic death toll has broken all records for holiday highway fatalities.

The death toll reached 719. The previous record traffic deaths was 706 on a four-day Christmas weekend in 1956. The total dead far exceeded the 578 over the 1964 Christmas weekend.

Even though there is still one more day left in 1965, Maryland's traffic death toll for the year exceeds the 1964 figure by 70. The highway death toll for 1965 stood Monday at 686, compared with 616 for all of 1964.

Six Marylanders died over the Christmas holiday weekend in traffic accidents, two in Frederick County.

Advises Caution With Out-of-State Insurance Companies

Commissioner Francis B. Burch of the State Insurance Department has today sent a notice to all newspapers, radio, and television stations in the State of Maryland advising them that it is a violation of the Insurance Code of Maryland to publish, print, or broadcast any advertisement or written notice describing the advantages of or soliciting business for an unlicensed company.

An unlicensed company has no assets in the State of Maryland that would be available to the policyholders to enforce benefits of any policy issued by them.

The Insurance Department of Maryland has for some time provided, without charge, the services of an insurance adviser for the citizens of our State. Any one having a question concerning whether or not a company is licensed should contact the Insurance Department.

Catholic Services

Services scheduled for St. Joseph's Catholic Church for Saturday, New Year's Day, are as follows: Masses at 7:00, 8:30, 10:00 and 11:30 a.m. The same Sunday schedule prevails. Confessions will be heard Friday at 4:00-5:00 and 7:30-8:30. No confessions on Saturday. Meat may be eaten at all meals on Friday, December 31.

A dog's gun-shyness is usually a man-made fault, created through some act of thoughtlessness or carelessness.—Sports Afield.

Decorating Contest Winners Listed

Winners in the Christmas decorating contest sponsored jointly by the Francis X. Elder Post, American Legion, and VFW Memorial Post 6658, have been announced as follows:

Best lighting scheme: (1) \$20, Donald E. Shorb; (2) \$10, Mrs. Guy Wetzel; (3) \$5, Ralph Hatter.

Best Nativity scene: (1) \$20, D. Fred Wolfe; (2) \$10, Edward Smith Sr.; (3) \$5, Charles L. Hartdagen.

Most original: (1) \$20, Robert Rosensteel; (2) \$10, Richard Oster; (3) \$5, Eugene LaCroce.

The judging was held during 7-9 o'clock Christmas night. Judges were Lumen F. Norris, Guy A. Baker, Jr., and Gerald Ryder.

Taneytown Banks Plan Merger; \$10 Million Assets

A proposal to merge First National Bank and The Birnie Trust Company, both of Taneytown, has been approved by directors of the two institutions according to a joint announcement made this week by Mr. N. P. Shoemaker, Chairman of the Board of First National Bank, and Mr. Merwyn C. Fuss, President of The Birnie Trust Company.

The proposal, which has received the preliminary approval of the Bank Commissioner of Maryland, will now be submitted for approval to the Federal Deposit Insurance Company and to the stockholders of the banks at meetings scheduled to be held on Monday, January 4, 1966. Stockholders will soon receive proxy material for the special meetings.

The merged bank, which will be known as Taneytown Bank and Trust Company, will be a member of the Federal Deposit Insurance Corporation; thus, approval of that body in addition to stockholders' approval is required, before the merger becomes effective. The resulting institution will operate as a state bank under the charter of The Birnie Trust Company, which dates back to 1900.

Based on the June 30, 1965, statements of the two banks, it is estimated that the deposits of the combined institution will be approximately \$9,400,000 and total resources will exceed \$10,100,000.

Under the terms of the proposal, shareholders of First National Bank will receive one share of the resulting bank for each full share now held. Stockholders of Birnie Trust will receive one and two-tenths shares of stock in the resulting bank for each share of Birnie held.

The main office of Taneytown Bank and Trust Company will be the present main office of The Birnie Trust Company at 103-105 East Baltimore Street, Taneytown, Maryland. The present office of First National Bank will become the "First Office" of the resulting bank. The branch office of The Birnie Trust Company in Unionville will become a branch office of the resulting bank.

The Board of Directors of the Resulting Bank will consist of the combined Boards of the merging banks.

Mr. Merwyn C. Fuss will become President of the Resulting Bank. Mr. E. Elwood Baumgardner and Mr. George L. Harner will be Vice Presidents. Mr. Charles R. Arnold will become Secretary and Treasurer and Mr. Murray Baumgardner and Mr. Oliver Leakins will become Assistant Treasurers.

Legion Meeting Tuesday

The regular monthly meeting of Francis X. Elder Post 121, American Legion, Emmitsburg, is scheduled for Tuesday evening in the Post Home, beginning at 8:00 p.m.

GRADUATES

WICHITA FALLS, Texas—Airman Third Class Mark Mathwig, son of M. T. Mathwig of 20 Appolds Church Road, Thurmont, Md., has been graduated at Sheppard AFB, Texas, from the training course for U. S. Air Force aircraft loadmasters.

Airman Mathwig, who attended Thurmont High School, is being reassigned to Dover AFB, Del., for duty.

Manila has 11 universities.

Couple Celebrates 50th Anniversary

Pictured above are Mr. and Mrs. Charles A. Harner who recently observed their 50th wedding anniversary. A small informal gathering was held at the home of their son, Paul, at Potomac Wood, Md. Present also at the gathering were Mr. and Mrs. C. Richard Harner and children, Harry and Harriet.

By-Pass Claims 17th Victim

The Route 15 by-pass of Emmitsburg claimed its 17th victim Friday evening when a Fairfield man died following a crash Thursday at the intersection of Route 15 and Md. Route 806 near the Curtis Topper property just north of here.

The Christmas Eve fatality brought the total killed on this new stretch of roadway built just 12 months ago, to 17, perhaps causing it to gain the reputation of being the most dangerous two-mile stretch of roadway in the Nation.

The latest fatal statistic was John Robert Creager, 43, Fairfield, Pa.

Adams County Coroner Dr. C. G. Crist, Gettysburg, said the death was caused by a fractured skull, severe lacerations of the scalp and bruises of the body suffered when his car and an auto operated by Mrs. Patricia Ann Anderson, 32, of Falls Church, Va., collided Thursday night at 11:15.

Creager was removed to the Warner Hospital in a critical condition, along with Mrs. Anderson, her husband, Henry R. Anderson, 33, and two daughters, Sherri, 8, and Melody Lee, 4. The Andersons were treated and discharged from the hospital.

A native of Zora, the victim

Frontier Club Installs Officers

Installation of officers and a Christmas party were highlights of the December 13 meeting of The New Frontier Democratic Women's Club. The session was held at the VFW Club in Emmitsburg, as usual.

Before Mrs. Goodloe Byron of Frederick installed the new officers, Mrs. Jane Bollinger, president of the club for the past four years, thanked the members for their help and said, "Without the members, I could not have done so many things."

The following women will serve as officers for the next two years: president, Mrs. Jane Nolan; vice president, Mrs. Frances Rosensteel; recording secretary, Mrs. Ruth Houck; corresponding secretary, Mrs. Dorothy Lambdin; treasurer, Mrs. Kathryn Kugler. Gifts were given to the officers and to the committee chairmen.

Appreciates Paper's Cooperation

Editor, Emmitsburg Chronicle: As the holidays approach when there is emphasis on good will and concern for our fellowman, it's good to be in a work dedicated to serving others.

The Christmas season affords an opportunity for us to express our appreciation to those with whom we have worked during the year in administering the social security program. Your cooperation has resulted in a much better informed public about this program.

We look forward to working with you next year in service to the area residents under social security. Best wishes for happiness during the Christmas season and the full year ahead.

Sincerely,
 W. S. King
 District Manager

Bazaar Date Established

St. Joseph's High School PTA announces a winter Bazaar to be held in the school on Saturday, February 19.

The affair will feature a buffet luncheon and will be chaired by Colonel Gorman. The usual booths and games of amusement will be on display and an evening of games is slated. The event will have a Mardi Gras theme and committees will be announced.

INFANT EXPIRES

Timothy Boyd Cogar, infant son of Ronald A. and Bonita Boyd Cogar, Littlestown R1, died at the Warner Hospital, Gettysburg, Monday evening at 6:40 o'clock. The infant was born Sunday.

Surviving besides his parents are one brother, Anthony A. Cogar, at home; maternal grandmother, Mrs. Marjorie Boyd, R1, Gettysburg; maternal grandfather, Stewart Boyd, Virginia; paternal grandparents, Mr. and Mrs. Olin W. Cogar, Emmitsburg R2, and a paternal great-grandmother, Mrs. Julie Fleirity, Emmitsburg R2.

Graveside services were held on Wednesday morning at 9:30 o'clock in the Piney Creek Church of the Brethren Cemetery with Rev. Warren Eshbach, pastor, officiating.

JOHN B. OTT, SR.

John B. Ott, Sr., 73, died last Thursday evening at 11:45 o'clock at his home, Emmitsburg R1. He had been in ill health for the last 10 years.

A farmer and life-long resident of Frederick County, he was a son of the late Charles C. and Frances (Brown) Ott, and was a member of St. Anthony's Shrine Church, and of the Holy Name Society.

His wife, the former Ida A. Miller, died in 1963. Surviving are eight children: Charles Ott, Emmitsburg; Mrs. Elizabeth Anderson, Thurmont; Mrs. Mary E. Sutton, Emmitsburg; Mrs. Frances Matthews, Thurmont; Lawrence Ott, Thurmont; Mrs. Betty Weatherly, Emmitsburg; John B. Ott Jr., Emmitsburg; and Mrs. Doris Aspers, Harrisburg.

Also surviving are 32 grandchildren, 10 great-grandchildren, a sister, Mrs. Earl Heagey, McSherrystown, and two brothers, Richard Ott, Baltimore, and George Ott, New York.

Funeral services were held on Monday morning at 10 o'clock at St. Anthony's Shrine Catholic Church with Rev. Fr. Vincent Tomalski officiating. Interment was in the church cemetery. Pallbearers were the following grandsons: Richard Ott, William, John and Gary Matthews, Paul Sutton and Richard A. Ott. Wilson Funeral Home, Emmitsburg, was in charge of arrangements.

Christmas Dinner

A Christmas dinner was served at the home of Mr. and Mrs. Charles P. Koozts for their ten children, all of whom were present, and their families. Those attending were: Mr. and Mrs. Lloyd Koozts and family; Mr. and Mrs. Norman Swartz and family; Mr. and Mrs. Walter Preston; Mr. and Mrs. Joseph Topper and family; Mr. and Mrs. Marshal Manahan and family; Mr. and Mrs. Edgar Riley and Kay; Mr. and Mrs. Raymond Stahley and Ricky; Mr. and Mrs. Jack Koozts and family; Mr. and Mrs. Kenneth Koozts and Beverly; Mr. and Mrs. William Koozts and Janie; Mr. and Mrs. Maurie Cline and Kim; Mrs. Eugene Althoff and Suzanne; Mr. and Mrs. Robert Swope and family; Mr. Carroll Byard and Mr. Maurice Zentz. Also present besides the ten children, were 25 grandchildren and six great-grandchildren. A delicious turkey dinner with all the trimmings was served. Mr. and Mrs. Koozts received many nice gifts.

DID YOU KNOW?

It takes a six inch layer of moist snow, or a 30 inch layer of dry snow to make as much water as in a one inch rainfall, according to the World Book Encyclopedia.

VFW TO MEET

The regular meeting of VFW Post 6658, Emmitsburg, will be held Wednesday evening, January 5, in the Post Home at 8 p.m.

Franklin D. Roosevelt was born and buried at Hyde Park.

Mountaineers Meet CU Here Tuesday

For the third time this season, Coach Jim Phelan sends his Mt. St. Mary's Mountaineers against Tom Young's talented Catholic University Cardinals, Tuesday, January 4, in Memorial Gym.

At CU, the Mounties squeaked past the visitors in overtime, 82-81 and then lengthened the margin to 59-48 in the Trenton tournament. But as happened so many times in the past, the Cardinals have a way of winning the third game when the clubs meet in tournament play. This year the two clubs could play four times should they meet in the Mason-Dixon fireworks at the end of the season.

The Mountaineers continue to hurt at the guard spot, where Bernie Haag is coming off a knee injury sustained against Shepherd, and Pete Johnston is hobbled by the wrench he picked up in the Trenton tourney. Phelan had counted heavily on both veterans to steady his freshmen.

Aside from the spectacular play of Fred Carter, Bob Sutor and Dick Dohler, the Mounties have had a big lift from the great play of Jim Livelyberger, Mike Johnston and Mike Lyons in back court. The three little guys have really taken charge. Lyons won both the CU and Evansville games with last second flips and despite spot work in some games still plays to a 13.6 average. Livelyberger practically played himself into exhaustion against Evansville as he gave an outstanding performance in the Mounties' exciting come-from-behind explosion. Johnston hardly ever catches the spectator's eye, but he muscles all over the court, steals the ball, forces bad passes and plays tight defense.

The Mountaineers (7-0), practically nomads this year with so many early season games away from home, face a rugged week with the Cardinals Tuesday, Loyola in the Civic Center on Thursday, and a tough Roanoke team at home here next Saturday.

Homemakers Hold Party

On December 16 at 1 o'clock, the Emmitsburg Homemakers met at the Green Parrot Tea Shop for their annual Christmas party. Thirty members and guests enjoyed a delicious luncheon served by Mrs. Leone McNair and her staff.

Mrs. Stephanie Abramson, County Extension Agent, was introduced to the club members. Special recognition was extended to charter members present. They included Miss Ann Codori, Mrs. George Eyster, Mrs. Charles A. Harner, Mrs. Lewis Higbee, Miss Louise Sebald, Mrs. O. H. Stinson, and Mrs. Charles McNair.

Following lunch the members exchanged Christmas gifts and enjoyed playing cards and other games. Mrs. Robert Fitez was in charge of arrangements.

Cardinal Will Open Jubilee

Lawrence Cardinal Shehan, Archbishop of Baltimore, will inaugurate a jubilee celebrating the conclusion of the Second Vatican Council by offering Mass and preaching on Saturday.

Cardinal Shehan will celebrate the 11:30 a.m. Mass at the Cathedral of Mary Our Queen. Saturday is a holiday of obligation for the 500,000 Catholics in the Archdiocese of Baltimore.

An "extraordinary jubilee" to last from January 1 to May 29, 1966, was proclaimed earlier this month by Pope Paul VI. Unlike jubilees of the past, the new event will center around bishops and archbishops rather than around the Pope.

VFW AMBULANCE

John R. Creager, Fairfield, an accident victim, was transported this week to the Warner Hospital, Gettysburg, in the VFW ambulance. The driver was Michael Boyle.

Water boils at 212 degrees.

Rocky Ridge News

Mr. and Mrs. Charles Wantz were recent dinner guests of Mr. and Mrs. Harry Wantz, Emmitsburg.

Mr. and Mrs. Randolph Cissel and daughter, Diane, Vienna, Va., spent a day recently with Mrs. Cissel's parents, Mr. and Mrs. Harry Knight.

Twenty-two members and friends of the Ladies Auxiliary to the Rocky Ridge Vol. Fire Co. enjoyed a Christmas party recently at the Shamrock Restaurant.

Mr. and Mrs. Percy McKay were recent dinner guests of Mr. and Mrs. Robert McKay and family, Frederick.

Mr. and Mrs. Charles Brauer are visiting friends in Hacketts-town and Phillipsburg, N. J.

Warren McKay, Denver, Colo., is spending a month with his parents, Mr. and Mrs. Percy McKay.

George Motter visited recently with Mr. and Mrs. Theron Basore, Littlestown.

Recent guests of Mr. and Mrs. Charles Keeney and family, and Mrs. Edith Gruber were: Mr. and Mrs. John Stitely and children, John Jr., Donnie and Patricia, Legore; Mr. and Mrs. Gaylord Putman and son, Russell; Charles Albaugh; Mr. and Mrs. John Albaugh; Mr. and Mrs. John Gruber and daughter, Sharon, and John Dayhoff, Rocky Ridge; and James Sanders, Emmitsburg.

Mr. and Mrs. Carl Shriner and family, Smithsburg; Mr. and Mrs. Howard Shriner and family, Thurmont; Mr. and Mrs. Charles Lock-

ner, Taneytown; Mr. and Mrs. John Raeburn, Teresa and Debra, Myersville, were recent guests of Mr. and Mrs. James Glass.

Recent guests of Miss Edith Tabler were Mr. and Mrs. Frank Smith, New Oxford; Mrs. Henry Johnson, Brooklyn, Md.; and Roger Tabler, Mt. Airy.

Miss Edna Miller, Washington; Mr. and Mrs. Waldon Miller and family, Lansing, Mich.; Mr. and Mrs. Thomas Fitzgerald and family, Bethesda; Mr. and Mrs. Howard I. Miller, Rockville, were recent dinner guests of Mr. and Mrs. Howard T. Miller.

Mr. and Mrs. James Glass and family visited recently with Mr. and Mrs. Charles Glass, Taneytown.

Mrs. Horace Smith is on the sick list.

Mr. and Mrs. Joseph Grossnickle, Chewsville, were recent guests of Mr. and Mrs. Harvey Stambaugh.

A Christmas party was held recently at the home of Mr. and Mrs. James R. Saylor. Those present were Mr. Robert Saylor and Mary Jayne; Mrs. George Martin, Susan, James, Edith and John; Mr. and Mrs. Bernard Fink, Sharon, Nancy and Michael, Thurmont. Mr. and Mrs. Thomas Saylor, James, Carol and Frank, Mr. and Mrs. Donald Myers, Vincent and Anthony, Dennis Hess, Emmitsburg; Ray Massie, Jefferson; Donna, Bonnie, Tina, Vickie and James Saylor, Rocky Ridge.

Mr. Harvey Stambaugh is recovering from a recent illness.

Recent guests of Mr. and Mrs. Charles Mumma were Mrs. Belva Welsh, Mr. and Mrs. Thomas Kolb and daughter, Tish, and Mr. and Mrs. Robert Mumma and daughter, Debra, Thurmont; Mrs. Hazel Wilson and Lawrence Baker, Frederick; Mrs. Ethel Mumma, Rocky Ridge.

Miss Rebecca Mumma has been transferred from Walter Reed Hospital, Washington, to Fort Detrick, Frederick.

Health Resolutions Are Essential

New Year resolutions—are they really made to be broken? Broken or not, everybody seems to agree that they're made to be talked about. And right now, if ever, is the time!

Resolutions about health are rather special: by and large they apply to everybody. People can get along without this or that, but nobody in his right mind wants to try making do without good health.

Here are some resolutions we all know we should keep in 1966, whether we actually "make" them or not:

Basic Nutrition
Despite food fads, the "fundamental four" food groups are still essential to a health-supporting diet. They are (1) milk and milk products; (2) meat, poultry, fish, eggs; (3) green vegetables, yellow vegetables, fruits (accent on the citrus); (4) cereals and bread (whole grain is preferred).

Winter Ills
With flu outbreaks in mind (they're expected this year), call the doctor if a cold or cough is at all severe. Rest is important. Keep warm, drink plenty of fluids, obey doctor's orders.

Drug Caution

Avoid self-medication; don't use leftover drugs just because they're handy. Keep drugs out of children's reach. Label plainly all medicines, drugs, cleaning applications, exterminants.

Highway Survival

Alliterative life-saving litany: No driving while drinking or drowsy! Obey traffic signals and speed limits. Don't argue with reckless drivers.

General Health

An annual medical checkup is important. When having it, see that a tuberculin test or a chest X-ray is included; TB remains a serious problem. And by the way, the National Tuberculosis Association suggests that its isn't too late to respond to your Christmas Seal appeal.

Vets' Information Being Sought

More than 2,000,000 persons on Veterans Administration pension rolls are now filling out questionnaires to report their annual incomes.

The forms this year have been simplified.

They must be filled out and returned by January 31 or payment of the pension will be stopped, according to Rufus H. Wilson, Manager of the Baltimore Veterans Administration Regional Office.

The questionnaires go to veterans and dependents of deceased veterans on the VA's non-service-connected pension rolls and to the parents of deceased veterans who are receiving dependency and in-

demnity payments.

Mr. Wilson said the law requires that pension payments cease when the recipient's income exceeds stipulated amounts. The questionnaires, when completed, supply the necessary income information.

Permit Issued

A permit was issued in Frederick this week for a \$4,000 concrete and slab silo for Roy Sanders of R2, Emmitsburg, on the Bollinger School Road east of Emmitsburg.

Faith in one's self is the foundation of success.

Hospital Report

Admitted
Luther H. Cregger, Emmitsburg. Miss Margaret L. Eiker, Emmitsburg.

Theodore W. Wolfe, Jr., Emmitsburg R2.
Gerald C. Orosz, Emmitsburg, R2.

Discharged
Guy W. Warren, Emmitsburg. Christopher M. Thomas, Rocky Ridge.

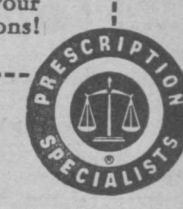

Patrick A. Thomas, Rocky Ridge.

Family Favorite

Yes, this is a family drug store. Every member of your household will appreciate our friendly, interested service and fair prices.

Why not form the habit of turning to us for your needs in drugs and health supplies? And always bring us your Doctor's prescriptions!

Babson's Business And Financial Forecast For 1966

"Peace and Prosperity" should continue to be the dominant theme in 1966. President Johnson will push ahead in attempts to capitalize on the inroads he has already made with his Great Society program. However, since 1966 will be a Congressional election year, he may find the going less easy than it was this past year; the Congressmen and Senators who are up for re-election will likely think twice before being so generous with the taxpayers' money.

I, of course, would like nothing better than to be completely optimistic in this forecast, but my more than 60 years experience in predicting trends has taught me that unexpected events are most dangerous when conditions are brightest.

1. The health of world leaders may well be a prime factor in 1966. These include President de Gaulle, Mao Tse-tung, and even President Johnson.

2. Perhaps the biggest threat in 1966 will come from abroad. There is evidence that the coalition leadership in Russia may be centralizing into the hands of a strongman — something not seen since the Khrushchev ouster. Moreover, Africa could again hold the spotlight in the shifting pattern of the "cold war".

3. I do not look for war with Russia during 1966. Russia is still greatly concerned with trying to bring prosperity to her own people, and is especially troubled about the lag in farm productivity.

4. The struggle for power within Russia may come to a head in 1966. If the strongman is anti-West, he could try to put on a good show by heating up the "cold war"; but this could constitute no more than threatening gestures and bold talk.

5. The Berlin crisis is not likely to be a major issue in 1966, though there could be some nuisance events to "try our patience".

6. I do not foresee all-out war with Red China in 1966. Mao is not yet ready to risk major confrontation. His lagging farm and industrial programs still loom as major problems, and the task of extending Red China's nuclear progress is a heavy burden.

7. The foremost task for Red China still is to get a seat in the United Nations. While Southeast Asia is an attractive plum, territorial expansion may well have to wait in Red China's timetable, as a peaceful profile on her part would make gaining a seat at the UN easier. UN admission, of course, would greatly enhance Red China's prestige in dealings with the Afro-Asian nations.

8. Despite talks of a prolonged struggle in Vietnam, I forecast that it will be increasingly clear that the balance has swung our way. This should encourage our leaders to step up our commitment in Vietnam in 1966 in order to force a "peace conference".

9. I foresee no crisis over Cuba in 1966. The agreement Castro has made to allow more Cuban refugees to enter the U.S.A. underscores the problem he has in feeding his people.

10. The Vietnam situation and the Dominican Republic incident have convinced the Administration that the military might of our nation must be maintained at a "ready" basis. This means stepped-up defense spending, which should add another prop to the economy.

11. While such defense spending will focus heavily upon conventional military equipment, our space program will not be neglected. Having come from behind in the space race, the Administration is not likely to falter and allow Russia to open another wide gap.

12. The increase in defense spending notwithstanding, I forecast that the economy will be hard pressed to match the fantastic achievements of the past four years. Threats of major labor strikes have been playing an important role in stimulating inventory accumulations from time to time to keep things rolling along. I do look for industrial production to edge to a new high. However, I fear the peak will come before midyear and taper off thereafter. On the whole, the business climate in 1966 may well prove to be one of high-level stability rather than of vigorous climb.

13. Business capital expenditures, which have been a key factor in prolonging the business boom, should remain a strong bolstering influence. However, I predict that they will not provide as much in the way of upthrust for the economy as in the past two years.

14. Business inventory accumulation, likewise a big factor in the boom, should also become a less vigorous expansionary force. Perhaps fears of inflationary price increases will encourage businessmen to maintain a healthy volume of inventories; but unless war threatens intensify, I see no need to pile up much more in inventories.

15. Consumers will have more money to spend in 1966. I forecast a further uptrend in personal incomes to new high ground. An important influence in this respect is the impact of automatic wage increase which are called for in existing multi-year labor pacts.

16. Also, I predict a further rise in the general structure of wage rates, as many secondary labor unions seek to match the gains of the auto and steel workers.

17. Unless another federal tax cut is enacted—which now seems remote in view of the war effort and the present fiscal deficit—net income after taxes may not rise as rapidly as gross income. The social security tax rate is scheduled for a step-up. Also, higher state and local taxes—including sales levies — will place

more of a burden on consumers. 18. The all-important employment situation should remain generally good. We may have seen the greatest portion of the rise in manufacturing employment. However, employment in government payrolls at all levels, and in services, should continue to score sizable gains.

19. I forecast no radical change in the jobless picture. Let me warn readers, however, that the problem is far from solved, and in coming years we may well have to reckon with it. The draft step-up only temporarily eases things and gives a false sense of well-being.

20. Retail trade should enjoy another excellent year. Much of the gain in dollar volume, of course, will come from price rises. Nevertheless, as long as personal incomes, employment, and business hold high, consumer confidence will encourage spending.

21. Spending for food, apparel, and general merchandise should continue upward; also for leisure-time and vacation lines. Color television is catching on, and I look for continued strong demand in this field.

22. The automobile business will not be left out in the spending spree. It will enjoy another prosperous year; but I foresee no significant upsurge beyond the high levels of the past two years.

23. In view of the drain on our gold supplies, the government has been endeavoring to promote domestic travel and vacations. Nevertheless, I forecast further interest in foreign vacations. In one sense, I am happy to see this. I have done considerable foreign traveling, and I feel that such activity is definitely advantageous. Furthermore, I feel that foreign travel can help Americans to wake up to the advantages here at home and make them more thankful for the blessings they enjoy.

24. Many readers — especially those retired and living on pensions and social security — are worried about the threat of inflation. I forecast no radical inflation during 1966 . . . the Administration is committed to "non-inflationary progress". However, some price increases appear unavoidable.

25. I predict that the greater danger will lie in credit inflation, rather than in price inflation. 26. With the rise in defense spending and the cost of legislation for the Great Society, the federal budget will suffer a sizable deficit. In addition, states and municipalities are unable and unwilling to live within their means. Consumers will also go further into debt.

27. Look for new increases in the cost-of-living index. The government may try to head off substantial price hikes in key areas, but selective price rises will occur.

28. Industrial commodity prices should remain firm to higher, particularly in the first half of 1966. The primary bulwark against a price runaway is competition, which should be basically more effective than government influence.

29. I look for an increase in domestic competition in 1966. This should become more evident as the business upthrust tapers off. Also, we must not forget foreign competition. With many nations feeling the pinch of a dollar shortage, they will work to remedy this by increasing their sales here.

30. Business in 1966 need fear no major labor tie-ups. Strikes, however, may well be numerous among the secondary labor units.

31. I look for business failures to increase, both in numbers and in dollar liabilities. This will be due to keen competition, excesses of debt and inventory accumulations, unwise credit extensions, and careless management.

32. Of greater concern to me is the steady climb in nonfarm real estate foreclosures; I expect a further rise in 1966.

33. Business profits in 1966 will not advance as sharply as in the past two or three years. The squeeze is on in profit margins; hence I look for a tapering off in the rise of corporate profits, although I foresee no drastic slump while activity holds near peak.

34. Looking at the farm sector, I see no radical change from the excellent 1965 year. Barring a crop failure or severe drought, farm prices, at worst, should shade only slightly lower.

35. Farm equipment manufacturers should enjoy good business in 1966. This goes also for fertilizer and pesticide producers.

36. The important building and construction lines should hold their own in 1966, but their dollar volume may be due largely to price and cost inflation. The Great Society program is a plus factor for construction, including urban renewal and highways.

37. Private home and apartment building could show slight improvement, but the real boom in residential building will not register significantly in 1966.

38. Hence, I forecast that real estate conditions will remain selective. Well-located sites for homes and industrial and commercial complexes will do well, but study of local conditions is imperative.

39. I predict a further increase in farm land values in 1966. With costs still rising, the physical size of farms must expand so operators can benefit from mechanization. This places a premium on well-located land in the important and larger agricultural regions.

40. The steady advance toward fuller automation should make further progress in 1966, helping industry to cope with rising operating costs and shorter work weeks.

41. Trees do not grow to the skies; neither does the stock market rise unendingly. While I forecast that the stock market—as measured by the Dow-Jones Industrials—can surpass the high mark of 1965, I anticipate a volatile 1966 market with a good-size

drop-off a real possibility sometime during the year.

42. Even though the stock market may push to new highs, any further advance may not bulk large percentage-wise. If business and corporate profits show a tendency to taper off, the fundamental basis for a worthwhile advance will be removed.

43. Speculative enthusiasm and inflation fears can be expected to figure prominently in the stock market during the course of 1966. The urge to make a quick buck is increasingly evident.

44. I forecast that 1966 will not be the time for illogical speculation and gambling in the stock market. Above all, let me remind readers of the dangers of using borrowed money to buy stocks. Those who "go off the deep end" may well regret it before very long.

45. Those who invest (not speculate) on the basis of growth will sleep better nights. I have in mind the expanding population, rising incomes, scientific advances, greater leisure, and above all the impact of the Great Society.

46. Investors should be pleased with cash dividend payments in 1966. I forecast they will show another increase. I would also expect a rash of stock dividends and stock splits, particularly in the first half of the year.

47. If businessmen, consumers, and investors do not act voluntarily to keep inflationary pressures and speculation from getting out of hand, the monetary authorities may be forced to raise margin requirements on stock purchases, and perhaps tighten credit further.

48. Look for somewhat lower bond prices in 1966. Although we are not in immediate danger of credit exhaustion, the banking system is under some strain from the rapid expansion of credit on recent years. My advice is to buy bonds which mature in five years or less. The time to buy good longer-term bonds will come when the yields on short-term bonds exceed those on long-term issues.

49. The dollar will not be devalued in 1966. Possibility of devaluation of the British pound will undoubtedly come to the fore again, but additional effort will probably be made to keep the pound from "going under". I fear, however, that all this is only "buying time" . . . that devaluation

tion of the pound may be inevitable.

50. I foresee no cure for the outflow of gold from America's shores in 1966. However, in view of the importance of the U. S. in international trade and world military considerations, foreign bankers will be reluctant to withdraw their gold en masse. Bear in mind also that there is no country that can match our industrial and military might . . . and that, among the leading nations, the United States has suffered least in terms of the ravages of inflation and political instability.

A lot of worry can be wasted on other people. Good manners are good form, even on the highways.

March of Dimes Aids Legless Girl Learn English — Now She Walks

What does learning to speak English have to do with learning to walk?

Puerto Rico-born Juanita Pena, Cleveland, Ohio, can tell you—in excellent English—if you can coax her to sit still a minute before running off to join her playmates. As she turns to leave, you have to look closely to detect her artificial legs.

The lively first-grader scarcely resembles the shy, Spanish-speaking child whose family brought her to the March of Dimes Birth Defects Center at Cleveland Metropolitan General Hospital two years ago. Juanita was born with useless stubs of skin and cartilage extending backward at right angles from her knees. She learned early in life to "walk" on her knees with shoes turned backward to fit over and protect the stubs.

Pediatricians, orthopedists, physical therapists and many other medical specialists at the March of Dimes Center examined Juanita. They decided to remove the stubs surgically and fit her with artificial lower limbs which would raise her to normal height for her age and enable her to walk naturally.

Language A Barrier

"But it became evident very soon that the language barrier between the English-speaking specialists and the child who understood only Spanish was going to prevent any progress," says Dr. John E. Allen, center medical director.

"She was shy and frightened and couldn't understand that we were doing what we had to do to help her be like normal children."

Fortunately, a therapist on the center team spoke fluent Spanish. Under her direction, Juanita began to learn English through play with familiar household furnishings in a dollhouse.

"In no time," Dr. Allen says, "she was able to understand our explanations and follow instructions. After she got her artificial legs and physical therapy was started, we could literally see her walking improve as her English improved."

While Juanita was living in Puerto Rico, her parents sought help for her deformity but were advised to wait until she was old enough to decide for herself whether she wanted artificial legs.

BORN WITHOUT LEGS, Juanita Pena, 7, Cleveland, Ohio, learned English through play with dollhouse furnishings at March of Dimes Birth Defects Center. Facility with the language enabled her to understand instructions in how to walk with artificial limbs.

Such thinking has become outmoded.

"A child generally begins to have definite ideas of what his body looks like and how to use it at about three or four years of age," Dr. Allen says. "If he needs an artificial limb, and is going to learn to use it successfully, it should be fitted at a very early age. "Once a child has learned to get along without a missing extremity, it becomes more difficult for him to accept an artificial one. Juanita

came in just under the wire for successful adjustment to her legs."

Enters Public School
After she became accustomed to her "new" legs, Juanita entered a special kindergarten. She did so well that she was accepted this fall into regular public school. With her playmates she now walks the ten blocks to and from school. "That's where she belongs," Dr. Allen says. "She is no longer a cripple and doesn't think of herself as a cripple."

YOUR FEDERAL INCOME TAX

The Emmitsburg Chronicle, in cooperation with the Internal Revenue Service, Baltimore District, will publish each week in this column, tax information that will enable taxpayers to become more familiar with the Federal income tax laws. Clip and save for future reference.

Questions And Answers

Q. A girl in the restaurant where I work told me that tax will be withheld on tips starting the first of the year. If that's right, how will it be done?

A. Changes in the Social Security laws made by Congress this year call for the withholding of income taxes on tips in 1966 and thereafter. Those who receive tips of \$20 or more a month should report the amount of their tips

to their employer within 10 days after the month in which they were received.

Tips have always been taxable but until the law was changed they had not been subject to withholding. Now tips will be on a pay-as-you-go system just like income from wages and salaries.

Another change in the law affecting tips is the inclusion of this income in total wages for social security purposes. In other words, your tip income can now count toward determining your social security benefits.

Q. I just made a pledge to my church's capital funds drive. Will I be able to deduct this on my 1965 return?

A. You may only deduct what you actually paid on this pledge in 1965.

Q. My wife has been doing some part-time selling for the holidays. If she files her own return

will I still be able to claim her as a dependent?

A. No, you may not. The wife is not considered to be a dependent of the husband, and when one of them files separately the other is not permitted to file a return and claim exemptions for both. If your wife received only a small amount of income during the year, it would probably be to your advantage to file a joint return.

Q. The company I own stock in is declaring a special year-end dividend. Should I report this on my 1965 or 1966 return?

A. Report this income in the year it is received. If you actually receive the dividend this year then it must be reported on your 1965 return.

Q. I turned 65 in November. How should I handle the medical bills I paid last Spring? Are they fully deductible or are they subject to the 3 per cent floor?

A. Your age on the last day of your taxable year is the determining factor. Since you reached age 65 in November and if you file on a calendar year basis, any medical expenses you paid last Spring are subject to the provisions for those 65 and over. Therefore, they will be fully deductible.

Q. My return was just audited and the agent and I disagreed. Is there anything I can do?

A. When you receive the notice covering the changes to your return suggested by the examining officer, you may request a district conference. This will give you a further opportunity of presenting your side of the story.

The way you request a district conference is explained in the adjustment notice you will receive. If no agreement is reached at this level you may request an Appellate Division Conference.

Q. I know savings banks need your social security number but do the companies in which you own stock need the number too?

A. Yes they do. Corporations are required by law to request their number and include it when reporting dividend payments of \$10 or more to us. These payments are identified by the tax account identifying (social security) number.

For further information contact your local Internal Revenue Service office.

Cold Weather Hard On Car Starting

When the mercury drops consistently to forty or lower, the number of automobiles refusing to start climbs drastically.

According to Merle Beynon, director of Emergency Road Service for the AAA Automobile Club of Maryland, the concentration of trouble in winter months points to low temperatures as the prime culprit.

Cold has a cumulative effect on starting, he noted.

First, it thickens the oil and makes it more difficult to crank an engine fast enough to start. The lower the temperature, the more sluggish the oil. Second, cold slows down the chemical reaction in the battery, weakening even the strongest battery.

Mr. Beynon said these two factors, possibly linked with worn spark plugs or other ignition defects, prevent starting in freezing or near freezing weather.

The AAA official said that any car owner who wants to eliminate oil viscosity as a cause for hard starting should read and follow the advice in their owner

manuels. Car makers generally recommend a low single grade oil or low-30 multi-grade oil when the lowest atmospheric temperature expected may be zero.

Headed for sure trouble, he said, were owners of older cars who have neglected to drain out single grade SAE 30 or SAE 40 oils from summertime and replace with lighter oils.

The AAA official said a fully charged battery in good condition will have maximum power at 80 degrees or higher. But chilled to 32 degrees—freezing—it can deliver only about 60 per cent of that power, and at zero, only about 45 per cent.

So, when maximum power is most needed for cranking a cold engine and supplying ignition current, the battery can't give it.

A common cause of failure to start of older cars, in which the battery has been replaced, is that a battery of lower capacity than the original has been bought, obviously to save money. This raises the minimum temperature at which a start can be obtained, and combined with too heavy an oil, makes starting failure almost a certainty in a cold snap.

Mr. Beynon noted that when demand for cranking energy is being met, there must be enough left over to produce a spark adequate to ignite the fuel charge. Yet a survey of 10,000 cars in cities all over the U. S. and Canada showed the spark plug condition of most cars was poor everywhere and worse in the South.

Other causes of starting failures can be defective wiring, poor breaker points, a cracked distributor or a poor condenser. Or, fuel system troubles might be the villain, including stuck choke, carburetor flooding, moisture from the air condensing in the fuel tank or clogged fuel filters.

In short, Mr. Beynon noted, cold weather conspires to catch up with neglectful drivers when it hurts

most—when the car won't start on a frigid morning.

Marine Corps infantrymen were provided carrier-based Marine air support for the first time in history during the invasion of Iwo Jima.

GIVE TO FIGHT MULTIPLE SCLEROSIS The great crippler of young adults

DOG OWNERS

BUY YOUR LICENSE BY JANUARY 1, 1966

The law provides a fine of from \$5.00 to \$25.00 on any owner of a dog, six months of age or over, which is not licensed after January 1, 1966.

LICENSES AVAILABLE AT

County Treasurer's Office, Frederick, Maryland

You can fill in this form and mail \$1.00 for Male or Spayed Female; \$2.00 for Female; \$10.00 for Kennel (not more than 25); \$30.00 for Kennel (more than 25) to: TREASURER OF FREDERICK COUNTY, FREDERICK, MARYLAND, and your licenses will be mailed to you.

COUNTY TREASURER FREDERICK, MARYLAND 21701

Please send me tag for my dog described as follows:

Owner Address Election District Male Female Spayed Breed

If dog is not six months of age by January 1, 1966, license must be bought when dog becomes six months old. Failure to buy your dog license will mean not only your arrest, but your dog may be picked up and impounded. The License does not give the dog the right to trespass on anyone's property without the permission of the owner.

HORACE M. ALEXANDER

Sheriff of Frederick County George Fredericks, Dog Deputy, will canvass the County to ascertain if dogs have been licensed.

LEGAL

CHARTER AMENDMENT RESOLUTION NO. 11

A Resolution of the Burgess and Commissioners of the Town of Emmitsburg, Maryland, adopted pursuant to the authority of Article 23A, Section 19 of the Annotated Code of Maryland (1957) 1965 Cumulative Supplement, entitled "Corporations - Municipal", sub-titled "Annexation", said Resolution being a Resolution to amend and enlarge the corporate boundaries of the Town of Emmitsburg, a Municipal Corporation of the State of Maryland, by annexation of thirty-five (35) acres of land, more or less, contiguous and adjoining to the existing corporate area by repealing and re-enacting Article I, Section 2 of the Charter of Emmitsburg, entitled "Incorporation and General Government Resolution No. 10, passed on September 6, 1965.

Section I. Whereas "The Sisters of Charity of St. Joseph's", a body corporate of the State of Maryland, is the owner of 35 acres of land, more or less, contiguous and adjoining to the existing corporate area of the Town of Emmitsburg; and

Whereas, "The Sisters of Charity of St. Joseph's" has requested the Town of Emmitsburg to include 35 acres of land within the corporate limits of said Town; and

Whereas, by written petition, signed by not less than 25% of the persons who reside in and who are registered as voters in County elections in the precinct in which the territory to be annexed is located, the said residents and voters have requested such annexation; and

Whereas, the Burgess and Commissioners of the Town of Emmitsburg have decided and do hereby resolve that the general welfare of the Town will be best served by the annexation of the 35 acres of land, more or less, as hereinafter set forth;

Now, therefore, be it resolved by the Burgess and Commissioners of the Town of Emmitsburg, Maryland, that Article I, Section 2 of the Charter of Emmitsburg, entitled "Incorporation and General Government", subtitled "Boundaries" be and the same is hereby repealed in its entirety and re-enacted to read as follows:

"Section 2. BOUNDARIES.

The taxable limits of said town shall be as follows: Beginning at an iron pipe S. 67° 34' 24" E. 17.91 ft. from the southwest corner of Lot #6 fronting on Flat Run Drive and shown on the Plat of Section 3 of "Emmit Gardens" dated October 1, 1962 and prepared by Elmer St.C. Maxwell & Associates, Professional Engineers, said Plat being made a part of this description, and running from said beginning point (1) S. 64° 39' 37" E. 403 ft. to a pipe; thence (2) S. 64° 39' 37" E. 383.62 ft. to a pipe; thence (3) N. 24° 26' 11" E. 813.47 ft. along the eastern boundary of said Section 3 of "Emmit Gardens", said boundary being also the western boundary of the land of the Emmitsburg Civic Association, to a pipe in the south boundary of the State Road Right of Way for Maryland Route #97; thence (4) with Rt. 97 in a westerly direction along the northern boundary of Emmit Gardens 450 feet, more or less, to a point where the north boundary of Lot #27

(fronting on Meadow Lark Drive) intersects with a southerly extension of the West side of the Harney Road; thence (5) by straight line N. 46° E. across Rt. 97 to the Southwestern corner of the 13.692 acre tract of the "Three D, Inc." thence with the West side of the Harney Road and the Eastern boundary of the "Three D, Inc." tract (6) N. 46° E. 551.87 ft. to a point; thence (7) leaving said Road N. 44° W. 248.90 feet to a point; thence with a curve to the left having a radius of 1023.02 feet and an arc distance of 583.64 feet and a chord distance and bearing (8) N. 60° 20' 39" W. 575.76 feet to a point; thence (9) N. 76° 41' 16" W. 420 feet to a point on the west right of way line of U. S. Rt. 15; thence with U. S. Rt. 15 (10) N. 13° 18' 44" E. 780.28 feet more or less, to a point; thence (11) N. 02° E. 51.00 feet to a point; thence (12) N. 07° 35' 35" E. 50.25 feet to a point; thence (13) N. 11° 35' 27" E. 100.04 feet to a point; thence (14) N. 16° 10' 27" E. 100.12 feet to a point; thence (15) N. 18° 43' 01" E. 109.44 feet to a point; thence (16) S. 87° 18' 19" W. 777.59 feet to a point; thence (17) S. 89° 38' 38" W. 1015.75 feet to a fence post; thence (18) S. 75° 10' 25" W. 453.28 feet to a point in the old corporate boundary, said point being in the bed of "Flat Run" and running thence up the bed of "Flat Run" (19) N. 43° 51' 29" W. 141.37 feet to a point; thence (20) N. 28° 46' 25" W. 413.51 feet to a concrete monument near the northeast corner of Lot No. 178 as indicated on the Plat of Emmitsburg; thence (21) N. 31° 14' 56" W. 59.10 feet to a point on the north wall of a small bridge over "Little Run"; thence (22) S. 55° 10' 13" W. 140.09 feet to a concrete monument in the bed of Little Run; thence (23) up the bed of Little Run to a monument in the road leading from Emmitsburg to Waynesboro; thence (24) S. 17° 50' 40" W. 958.91 feet to a concrete monument; thence (25) S. 57° 10' E. 1839.00 feet to a concrete monument on the east side of a lane between the properties of George Sanders and D. R. Stansbury; thence binding on the east side of said lane (26) S. 32° 09' 05" W. 1441.00 feet to a stone; said stone being a property marker of The Sisters of Charity; thence binding on the property of The Sisters of Charity the three (3) following courses and distances, (27) S. 71° 07' 38" E. 1138.52 feet to a monument on the east side U. S. Route No. 15; thence (28) S. 77° 48' 42" E. 1463.43 feet to a point; thence (29) N. 60° 33' 53" E. 857.57 feet to a granite monument; thence (30) N. 06° 22' 45" E. 476.61 feet to a point; thence (31) N. 89° 03' E. 644.45 feet to a concrete monument marked #28 near the south line of the property of The Emmitsburg Development Company; thence (32) by straight line in a northeast direction 483 feet, more or less, to the point of beginning, and for sanitary purposes, health and police powers, the power and authority of the corporation shall extend to the distance of one mile from the boundaries as above set forth."

Section II. And be it further resolved by the authority aforesaid that in accordance with the requirements of Section 19 of said Article 23A of said Annotated Code, the conditions and circum-

stances applicable to the change in boundaries and to the residents and property within the area to be annexed shall be as follows:

1. The annexed area shall be subject to Section 4 of Article I of the Charter of the Town of Emmitsburg.

2. The Sisters of Charity of St. Joseph's will be responsible for the following:

a. Preparation and filing with the Town Clerk of plats showing the exact location of all underground facilities.

b. All storm and surface waters shall be channeled into flat run or other suitable disposal point as approved by the City Sewer Superintendent or other official designated by the Burgess and Commissioners.

3. The Town will be responsible for the following:

a. Taxing the undeveloped land only in the same manner as other similar property within the town limits is taxed.

Section III. And be it further resolved that the exact area proposed to be included in the change of boundaries is as follows:

Beginning at the end of the 27th line of the present boundaries of said Town and running thence with same along the east side of U. S. Route No. 15, also known as South Seton Avenue (1) N. 19° 16' 28" E. 739.91 feet to a concrete monument at the corner of a cemetery; thence (2) running on the South side of said cemetery S. 71° 02' 33" E. 426.15 feet to a concrete monument at the southeast corner of said cemetery; thence (3) with part of the 30th line of the present town boundaries N. 89° 03' E. 1589.55 feet to a newly installed monument; thence by the proposed new boundaries of said Town (reversed) the following three courses and distances (4) S. 06° 22' 45" W. 475.61 feet; (5) S. 60° 33' 53" W. 857.57 feet; (6) N. 77° 48' 42" W. 1463.43 feet to the point of beginning.

Section IV. And be it further resolved that in accordance with Sub-Section 19 (d) and Sub-Section 13 (d) of said Article 23A, the Burgess of Emmitsburg shall cause a public notice or copy of this Resolution to be posted on the front window of the Town Office from December 6, 1965 to January 17, 1966 inclusive, and a copy thereof to be published once a week for four (4) successive weeks beginning December 10, 1965, in "The Emmitsburg Chronicle", a newspaper of general circulation in the Town and the area to be annexed, and notifying all persons that a public hearing will be held by the Burgess and Commissioners on this Resolution at the Town Office at 8:00 o'clock p.m. on January 17, 1966, said newspaper publications to be on Dec. 10, 17, 24 and 31, 1965. Final action thereon will be taken on or about Feb. 7, 1966 and, if adopted, the Resolution shall become effective on March 31, 1966 and the property to be annexed shall be subject to municipal taxation beginning July 1, 1966.

Section V. This resolution was regularly introduced in the legislative body of the Town of Emmitsburg on December 6, 1965.

SMOOTH SELLING By George N. Kahn, Marketing Consultant THE SALESMAN IS A V. I. P. Copyright—George N. Kahn

There is a foolish idea in some circles that selling is not dignified. For this attitude we shower blame on the colleges, the professors, and anyone else within range. Rarely does anyone put the blame where it really belongs — on the salesman himself.

ing you'll wind up as one. But if you see this as an opportunity to push ahead to success, your future is assured. I think the advice took, because Jack stayed in selling with a loyal following of customers. Years later he told me: "You hit pretty hard that day, George, but you opened my eyes to what I was and what I could become."

But he must feel and act important to accomplish this goal. He must think of himself as one of the world's key people — a man who rates high in the scheme of things.

Do you stride boldly into a prospect's office or do you sidle in, glancing back at the door as if it were an escape hatch? Do you apologize for taking up a buyer's time? Do you feel like an intruder in his office?

Selling will never achieve its rightful status in the business world until salesmen start thinking of themselves as Very Important People. The salesman's image in the public's mind will improve only when he starts giving himself a higher rating. You can't convince prospects of the value of your product or your company unless you can first convince them of your own value.

No Room For Amateurs In today's competitive market there is no room for amateurs and dabblers in selling. For those who really want to make a career, there is a rich reward. But you must be willing to work for it. Selling has its problems, heartaches and frustrations. It's a lonely job. But these very factors are what separate the men from the boys.

If the answers are yes, you are letting yourself, your family and your company down. To be a V.I.P. you must act like one. That's the only way to command respect and so sell merchandise. Only then will you earn what you are dreaming of earning.

The head of the sales training program of a big paper manufacturer once said to me: "About the fifth day of the program my instructors can usually spot those who will be top salesmen. There's something about their attitude, they handle themselves in a certain way. They act like they are proud to be here. It's almost like getting a successful salesman ready made."

That man put his finger right on the heart of the matter. Pride. Are you proud to be a salesman? If not, something is wrong. If you're not proud of your work, chances are you are not acting like a Very Important Person.

Management is much quicker to recognize the salesman's importance than he is himself. Businessmen know that creation of demand is a vital factor in their profit and loss statements. These days all top executives and even technical personnel are sales oriented. Engineers must think like salesmen to design products that appeal to consumers. Even the production department must gear its effort to a sales campaign.

Millions of people are embedded in dull, prosaic jobs that afford them little or no excitement, drama or challenge. The salesman can look forward to steady growth and can enjoy a stimulating, lively life on the way. His future is limited only by the strength of his desire to succeed.

Here is a Periodic Aptitude Test to enable you to find out what your feelings are toward your selling job. If you can answer "yes" to at least seven of these ten questions you are probably headed for success. If you score below seven, it's time to take self-inventory:

Rate Yourself High The salesman who speaks apologetically of his vocation or derides his colleagues is simply cutting his own throat. When the salesman gloats of "pulling a fast deal," he is doing great harm to himself and his profession. In short, if you talk and act like a sidewalk pitchman, that's the way you'll be treated. Management is much quicker to recognize the salesman's importance than he is himself. Businessmen know that creation of demand is a vital factor in their profit and loss statements. These days all top executives and even technical personnel are sales oriented. Engineers must think like salesmen to design products that appeal to consumers. Even the production department must gear its effort to a sales campaign.

Frontier of Selling The trouble with many uninspired salesmen is that they don't understand the dynamics involved in selling. They are really clerks at heart whose horizons are limited. They never think of selling as an adventure and as a test of one's true abilities. They could move mountains, but they go around them instead. They play it safe, and in time, level off as mediocrities. The earnest, imaginative salesman can write his own ticket to wherever he wants to go. With faith in himself, drive and the right tools, he can make big money and climb high in his firm.

- 1. Do I think of my job as temporary? Yes [] No []

'Camera' Creates Images Of Body's Internal Organs

A new instrument called a scintillation camera is helping to save lives. The "camera" produces an image of internal organs after patients have been given a dosage of a radioactive substance. The chief advantage of the new device, according to the University of Chicago, is that it operates much faster than the conventional isotope scanner, reducing examination time by 90 per cent and permitting several views of an organ.

Clean-up problems in the nation's chicken coops may be solved by a strain of chickens that can drink their weight in water every day, reports Pennsylvania State University. The "thirsty" trait can be bred into or out of stocks of birds and does not seem to affect any other characteristic. Poultrymen have found that the watery droppings are easily washed from cagehouse floors.

Wrestlers seem to have a special susceptibility to cold sores because of their close contact with opponents. The skin infection hit

hard last winter and caused a number of meets to be cancelled, particularly in the northeastern U. S. The infection is more than a nuisance for wrestlers, says the American Medical Association. The skin lesions can spread rapidly from wrestler to wrestler. Sometimes painful, the lesions may be accompanied by fever, chills and general weakness or discomfort.

Maine is the only state of the coterminous 48 that adjoins only one other state. New Hampshire cuts it off entirely from the rest of the Union. On the other extreme, Tennessee and Missouri each touch eight states!

Up to 72,000 containers per hour can be filled by a rotary piston filler manufactured by Votator, Louisville. The machines fills from 3 to 20 fluid ounces at each of 36 stations at a maximum rate of 1,200 containers per minute. Fleas flee. Modern man's concern for hygiene is contributing to the decreasing number of flea circuses. Peter Mathes, the director of one of West Germany's few remaining flea circuses, says "modern living conditions, and especially sleeping facilities, are simply unbearable for fleas."

not lose by applying as soon as possible for any benefits due you even though you continue to work. Anyone who earns over \$1200 in 1965 should make an annual report of their earnings to the Social Security Administration before April 15, 1966.

SPORTS AFIELD

By Ted Kesting

Do not ever consider yourself hopelessly "lost" in a permanent sense. "Lost" is a state of mind. Ignore it. Recall the yarn about the Indian who was never lost. It was camp that rudely got lost. The same applies to sportsmen. You aren't actually lost—you are here, where you're standing or sitting. It's the camp that is temporarily misplaced. Difficulty comes when a chap panics or otherwise grows emotionally disturbed. In this mental state he no doubt would get himself into trouble anywhere, including the heart of Philadelphia or Highway 30 across Wyoming.

The thing to do is remain calm. Occupy yourself. Build a fire if fuel is available. Don't be in a hurry. Construct some sort of shelter. Have green material handy to toss on the fire for an eye-catching smudge. "Keep coolly rational," suggests John Jobson, Camping Editor of Sports Afield Magazine. Mull things over realistically—barring incapacitating injury, they are not so bad as they first appear. When you do this, solutions have a way of arising, among them being that your buddies or someone else will find you. You may miss a meal or two, and have to awaken several times during the night to feed the fire, but these are not catastrophes of lasting import.

In selecting an inexpensive, featherweight pocket compass for ordinary use (which will prevent your getting lost at all), bear in mind that the functions required of it are not elaborate. Consider the fact that in hunting you seldom walk more than 15 or 20 miles. Often this is a kind of aimless meandering. You wander, you circuit and you do it at a slow rate of speed that enormously lessens the risk of error. You are a lot closer, in a direct line, to camp or other point of origin than the actual miles walked.

Physically, the simple, basic pocket compass is quite small. It has a needle or, sometimes, a floating dial. The needle on the proper end should be plainly marked "N" or "North." Do not ever consider any compass lacking this feature.

Your Personal Health

Carbon Monoxide Poisoning
A silent killer may be loose in your house.

The deadly criminal is carbon monoxide—CO—a colorless, odorless, tasteless gas produced every time a carbon-containing material burns, says a new leaflet from the American Medical Association. CO combines with blood 200 times more easily than oxygen. If you breathe air containing a normal amount of oxygen and a moderate amount of carbon monoxide, you will accumulate when a cool, slow fire burns in limited air. Since you can't see, smell, or taste it, gas is hard to detect except by your symptoms—drowsiness, headache, tightness across the forehead, confusion, nausea, and muscular weakness. CO poisoning, your blood will be starved for oxygen. When blood cannot supply oxygen to your brain, permanent brain damage or death

SOCIAL SECURITY NEWS

If you work after you apply for social security benefits and earn \$1500 or less in a year beginning in January 1966, you will receive all your social security payments for the year, W. S. King, social security district manager in Hagerstown, announced this week.

Beginning in 1966, if you earn more than \$1500 in a year, the general rule is that \$1 in benefits will be withheld for each \$2 of earnings over \$1500 and up to \$2700. If you earn over \$2700 in a year, \$1 in benefits will be withheld for each \$1 earned over \$2700. There are two exceptions to this general rule:

- (1) If in any month you neither earn more than \$125 working for someone else nor do substantial work in a business of your own, you will get your benefit for that month no matter how much you earn in the rest of the year.
- (2) For months after you are 72 years of age, there will be no deductions from the benefits because of work after you reached 72.

Because of this change, you can-

How to find happiness as a mother-in-law

No reason to be sensitive about being a mother-in-law. There are a lot of happy ones these days.

Like the ones who start the bride and groom out saving—with a gift of U. S. Savings Bonds.

This provides them with the wherewithal for those little emergencies that always seem to crop up with young couples. Or helps them meet the down payment on their first home. A gift of Bonds will tell them you're happy to help. If it's a bit late for a wedding

gift, Bonds make a good way to celebrate grandmotherhood, too. Bonds will grow right along with the new baby. And he'll get back \$4 for every \$3 you invest if the Bonds are held to maturity.

Millions of Americans help themselves—and others—with U.S. Savings Bonds. And every dollar they invest helps their country spread the freedom word a little farther.

Any way you look at it, U. S. Savings Bonds make a dandy nest egg. And a very happy mother-in-law.

Down With Socialism

Interesting developments are taking place these days around the world that may point to a halt to what has been the drift toward world socialism. However, the irony of it must be obvious, that while to some extent the rest of the world seems to be waking up to the confusions and failures and irresponsibilities of socialism, the U. S. has just adjourned a Congress that has taken our nation several giant steps toward the socialistic, or welfare, state. Are we behind the times, traveling in what has proved for others to be the wrong direction?

There is perhaps only one consolation in these developments, for the world trends may suggest that America is not yet required to sink into the muck and mire of collectivism, out of which so many of the world's people are just now trying to lift themselves. The "liberal" elements in America, perhaps wanting to disown the failures

of their counterparts abroad, have not always welcomed the word "socialism." Now, as America has more of it, mankind is finding elsewhere the strength to reject its false promises.

Various Reactions

In politics, recent developments in Turkey have brought conservatives to power, a fact which is said to unsettle the socialist engineering corps in our own State Department. Norway, tired of the failures and false promises, has turned over the socialist government. The British Laborites hold only a slim edge in power and are subject to challenge with any misstep. Political movements in countries where choices are allowed (and even income dictator-run states) appear to show a trend away from the left.

Even in South American nations the reaction has partly set in. In some of these countries the action against the left assumes the form of "revolutions" under military leaders, resulting in authoritarian regimes often described as "far-right." However, with increasing frequency these political moves, as in Brazil, are taken when a nation is at the edge of chaos created by leftist governments and their policies. **Help The Socialists?**

Any encouragement on our part to the leftist regimes has of course been a great mistake. In the past 20 years we poured nearly \$200 million into the Bolivian socialist failure, all the while patting them on the back with our blessing and talking about their brilliant social and economic patterns that would blaze paths for others to follow. Well, their nationalized industry, mining, and agriculture are in ruins and this is well-nigh destroying the country. No longer does the free market operate, to encourage work, honesty, self-reliance, and responsibility.

Perhaps the country most tragically broken and ready for chaos is Uruguay. It has been described as a workers' paradise where men and women can retire as early as age 37, where the government pays everything. The land is fertile and 98 per cent usable, the 2.7 million people literate. The government, however, is bureaucratic, inefficient, and unable to agree on reforms that will cost anybody anything. It is a very sick welfare state, with inflation rampant and both industry and agriculture in trouble. Lurking in the background is a small but well-entrenched Communist party that may be able to take over by default. **The Russian Failure**

And how about the Soviet Union? This was the socialist land that would beat capitalism and bury it, but it can barely feed itself. It is said to take a billion dollars worth of outside food, worth as much as everything the Soviet economy can produce for export, to keep her going. Some 45 million Soviet farmers fall 12 million tons of wheat behind each year, while America's 6 million farmers produce surpluses. Industrial production is said to be declining by 1 per cent a year. The Russian economy is, according to recent but publicly disavowed reports from their own people, almost in a state of collapse.

Nevertheless, the Kremlin tries tinkering here and there to make socialism work, but these reforms only amount to an admission that the Soviet system is wrong. They cannot eliminate the trouble with out losing their jobs, for the system itself is faulty. They will find that capitalist incentives and profits cannot work in a society so deficient in freedom. That is a lesson that we too may have to learn through bitter experience unless we forsake our own trend toward imitating the socialist patterns of the failure nations.

OUR LIBRARY

What Emmitsburg Is Reading
Journal of a Soul—Pope John XXIII.
The Green Berets—Robbins.
The Source—Michner.
Let Me Count the Ways — DeVries.
...The Explorer—Keyes.
Markings—Hammerskjold.

What are you reading? Many good books are to be had from your local library. If you don't see it ask for it! If we don't have it we'll try to get it from the Frederick County Services.

Some new books in the Library include: **World Aflame** by Billy Graham. This book is the heartfelt expression of the world-famous evangelist's concern over the world's despair; a Christian analysis of a world filled with riots, demonstrations, threats, wars and rebellion against authority.

To Span a Continent by Winnie Crandall Saunders, is a story based on records and documents of the author's family, caught up in the great migration of the 19th century.

The File On Devin by Catherine Gaskin—A new novel of suspense, love and counterespionage. **Going Around in Academic Circles** by Richard Armour takes a

low view of higher education. **I Met Murder on the Way**, by Margaret Echard.

A Guide to Conducting Meetings by Baird—Simplified Procedures for everyday use.

A Crack in the Sidewalk by Ruth Wolf—The Templeton family on Main Street in a small American city. Particularly the story of Linsy Templeton. A homely little redhead with a misspelled name, she asks herself the universal question, "Who Am I? What am I to be?" The reader senses from the first page that she is someone to be reckoned with.

Peace Corps Test To Be Given Jan. 8

Emmitsburg area residents interested in putting their skills to use in developing nations around the world are invited to take the Peace Corps placement test at 9 a.m. on Saturday, January 8 at Hagerstown, Md., in the Post Office Building.

The Peace Corps uses the placement test to determine how an applicant can best be utilized overseas. The test measures general aptitude and the ability to learn a language, not education or achievement. (If test scores indicated a limited language-learning ability, for example, the Peace Corps tries to place the applicant in an English-speaking country.) The placement test requires no preparation and is non-competitive—an applicant can neither pass or fail.

The application form, not the placement test, is the most important factor in the selection of Volunteers. Persons interested in serving in the Peace Corps must fill out an application, if they have not already done so, and present it to the tester before taking the test. Applications may be obtained from local post offices or from the Peace Corps, Washington, D. C. 20525.

The placement test takes about an hour and a half. An optional achievement test for applicants who have studied French or Spanish requires another hour.

Appreciates Publicity

Editor, Emmitsburg Chronicle: May I take this opportunity, on behalf of the Maryland Division's Board of Directors, Executive Committee, Officers, and Staff, to extend their best wishes for the Holiday Season.

It is indeed an opportune time of the year for us all to be thankful for the many blessings during this past year.

Your participation in the Cancer Control Program has been greatly appreciated by research scientists, educators, and cancer victims who look to the American Cancer Society for the fulfillment of their needs. I thank you for your efforts in this regard.

As we look forward to 1966, there is enthusiasm on the part of volunteers, friends of the Society and Staff to renew their efforts in the objective toward the eventual control of cancer. Let us all consider 1966 as the year of growth in the Maryland Division.

Again, my best wishes for a Happy Holiday Season.
Dr. Edwrd F. Lewison
President

Highway Fatalities Setting New Record

Nineteen persons were killed on Maryland highways last week according to the weekly review published by the State Police. Five of those killed were drivers; eight were passengers; and six were pedestrians. Alcohol was a contributing factor in nine of the deaths; speed in eleven; and "driver error" was present in fifteen of the fatalities.

"The highway casualty toll in Maryland is not good any way you look at it," commented Col. Carey Jarman, Superintendent of the Maryland State Police. "Deaths so far this year are twenty per cent above last year; country-wide the increase is but two per cent. It can be expected that upwards of 740 persons will be killed on Maryland highways in 1965.

Last year it was 616."

The Superintendent continued: "There are many factors that contribute to this toll. At the top of the list stands driver performance, and the combination of variables that contribute to driver performance are infinite.

"There are young drivers, old drivers, middle-aged drivers; experienced drivers and inexperienced drivers; safe drivers and unsafe drivers; and many shades of all of these.

"The problem of making all drivers better is a task of staggering proportions," Col. Jarman concluded. "A start in this direction is long over due and would represent a project of top priority."

The air-conditioning capacity of the Navy's newest attack carriers would be sufficient to accommodate four buildings the size of the Empire State Building.

Let's Have a LUAU!

HERE'S YOUR chance to present the most unforgettable, exciting and exotic party ever... The "Luau"—literally a Hawaiian feast—immediately captures the warmth, gaiety and excitement of the tropics. It can be staged indoors or outdoors on your lawn.

TO START with, send out invitations in the spirit of your Luau; then follow through with Hawaiian table settings, costumes and music. Where possible, use low tables so that your guests sit on floors, or on mats. And award a prize for the best man and woman hula dancer.

EXOTIC FOOD and drinks will be, of course, the highlight of your Luau. Pineapple Alii, Island Sweet-Sour Spareribs, Waikiki Shrimp Dip, Shrimp Tempura and Banana Royal are all mouth-watering Luau food specialties. For the recipes of these delicacies—and a dozen others—send ten cents to Orchids of Hawaii, 305 Seventh Ave., New York, N.Y. 10001. The booklet you'll receive in return, is not only a treasure trove of island recipes, it also gives detailed directions for making your Luau the party of the season.

K

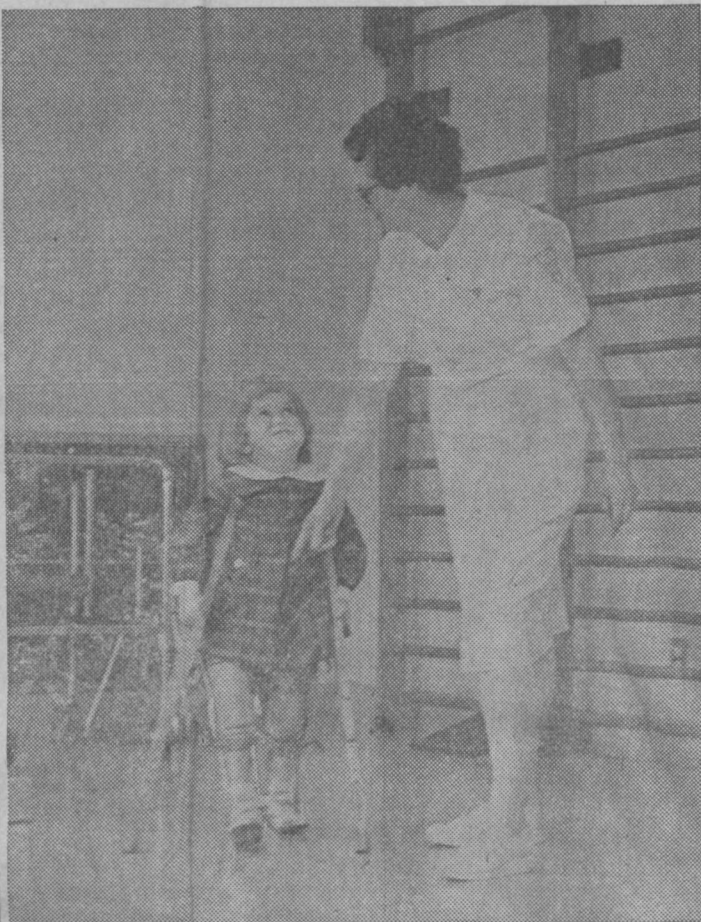

Hopeful Research in Birth Defects Inspires March of Dimes Workers

When medical researchers working under March of Dimes grants look up from their microscopes these days, their expressions seem considerably more cheerful than a short time ago.

Many of them agree, as the 1966 March of Dimes campaign is launched Jan. 1 throughout the 50 states, that at least some of the answers to the age-old puzzle of birth defects may be in sight. If enough funds to pursue new and promising avenues of research are provided by the American people, they say, dramatic breakthroughs should be within reaching distance.

"We solved the enigma of polio through unflinching scientific research that was financed by our generous and compassionate countrymen," Basil O'Connor, president of The National Foundation-March of Dimes, said recently. "With the same generosity, with the same dogged and incessant research, we unquestionably will come up with some of the basic answers to birth defects—and reasonably soon."

Certain cautiously optimistic statements by medical researchers working in the birth defects field have cheered veteran March of Dimes volunteers and, in fact, have enabled them to enlist more workers than in other years in the task of asking for and collecting contributions. These volunteer fund raisers are expected to total 2,500,000 (including indefatigable teenagers) before the campaign ends late in January with the Mothers' March.

FAR MORE can be done today for children tragically born with birth defects than was possible only a few years ago. Winsome Lori Ann Wagner, 4, Milwaukee, 1966 National March of Dimes Poster Child, seen here with her physical therapist, symbolizes the youngsters now being helped toward happier and more useful lives through contributions to the March of Dimes.

March of Dimes, takes a fairly reassuring view of developments in the near future. Recently in a widely circulated article she wrote:

"For many dreary and despairing decades, scientists faced continual discouragement as they probed into the causes and prevention of birth defects. One after another, clues that had seemed promising to embryologists and

others dissolved into insignificance.

"But it is a fair statement to say that today, under the combined assault of modern-day geneticists, embryologists, molecular and cellular biologists and other research scientists, more and more light is being shed on some of the mysteries that have surrounded the causes of birth defects."

County Schools Receive Ford Grant

The Frederick County Board of Education announced this week that it is the recipient of a grant from the Fund for the Advancement of Education of the Ford Foundation. This grant has been given in partial support of travel, observation and study for the purpose of strengthening community college and secondary school collaboration, curriculum development and vocational education.

The grant, to the amount of \$4500, will be used to send two teams of staff, faculty and Board members of Frederick County public schools and the University of Maryland to study developments in vocational education in the San Francisco Bay area and in central Michigan. The Frederick County Board of Education will augment this grant from funds available in the current operating budget.

The results of the study will be translated into in-service training opportunities with the staff of Governor Thomas Johnson High School prior to its opening in September, 1966.

Exploratory talks which led to the award of the grant from the Fund for Advancement of Education were held between Dr. John L. Carnochan, Jr., Superintendent of Schools, Dr. C. Edward Hamilton, Karl S. Manwiler and Eugene F. Wood, Jr., representing the Frederick County Board of Education and Dr. Edward J. Meade, Jr., and Marvin Feldman of the Fund staff. All concerned were interested in developing a comprehensive vocational education program which would remain an integral part of general education. Interestingly enough, the Governor Thomas Johnson High School has been designed for team teaching, a concept which has been tested in several school systems with the help of the Fund for the Advancement of Education.

In his letter to Dr. Carnochan, announcing the grant, John J. Scanlon, Secretary - Treasurer of the Fund, said, "We are pleased to provide support to the Frederick County public schools. The development from the middle school years through the community college is a significant one and we are pleased to join with you in the exploration of such a possibility."

Commenting upon the grant, Dr. Carnochan said that he is especially pleased that Frederick County has been selected for the grant from among the many school systems requesting funds from the Fund for the Advancement of Education for various projects. He said he feels that the only reason consideration was received was that the Fund personnel are convinced that Frederick County is attempting to provide new and better educational opportunities to the youth of the community.

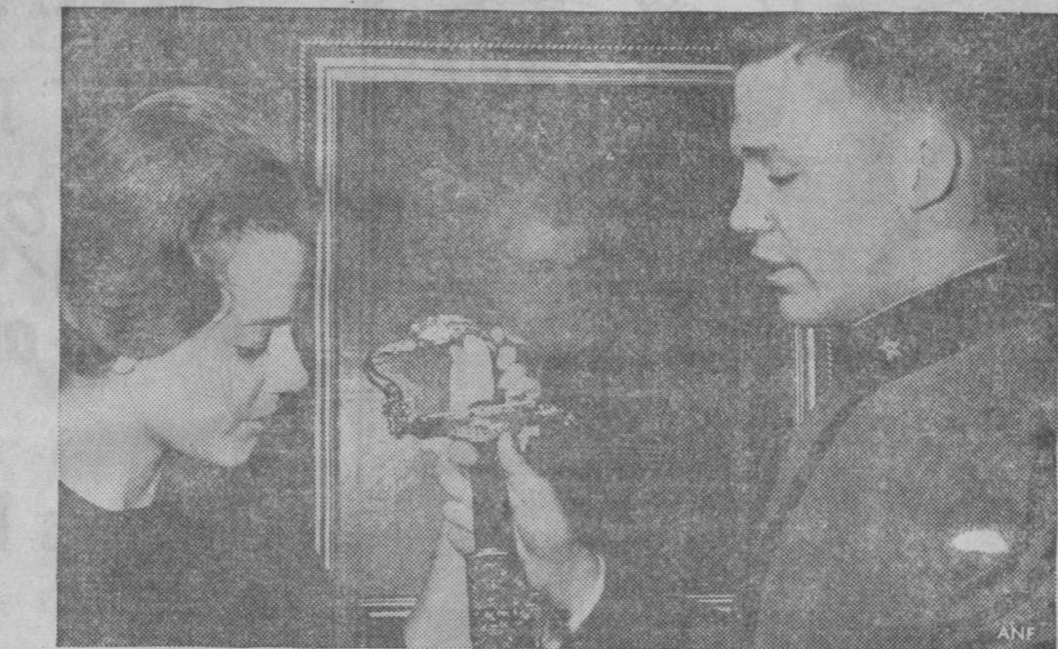

Engaged
Mrs. Margaret Ohler, Taneytown, and Clarence Ohler, Emmitsburg, announce the engagement of their daughter, Mary M. Ohler, to James L. Richardson, Taneytown R3, and the late Clyde Richardson. Miss Ohler is a graduate of Taneytown High School, and Peg Horn's Beauty School, Hanover. Her fiancé attended Fork Union Military Academy and is employed by Black and Decker Mfg. Co., Hampstead. A March wedding is planned.

Grouse are non-migratory and stay within a small area, usually not more than two or three miles from a favored location.—Sports Afield.

A Friend "In Deed"

Jerry Lewis, national chairman of Muscular Dystrophy Associations of America, gets a warm kiss from MDA's 1965 poster child, Paul Carter Hawkins of Dillon, Montana. The famous comedian has helped to raise millions of dollars for research into the progressively crippling disease whose chief victims are young children like Paul. MDA's annual fund raising drive, the March Against Muscular Dystrophy, is now under way in this community.

THAYER'S SWORD—Cadet Thomas D. MacVicar (Euclid, Ohio) and Miss Ann Gerhart (Arlington, Va.) examine a sword belonging to Colonel Sylvanus Thayer when he was Superintendent of the U. S. Military Academy, 1817-1833. The sword is part of a collection in the museum at West Point. Primarily through the efforts of Thayer, the Academy became the Nation's first engineering school. Sylvanus Thayer has been nominated to New York University's Hall of Fame for Great Americans as "Father of Technology in the United States."

Personals

Mr. and Mrs. Michael Bobanic and family, Aliquippa, Pa., spent Christmas with her parents, Mr. and Mrs. Eugene Warthen, West Main Street.

Walter Jackson, a patient at the Western Maryland State Hospital, Hagerstown, has been transferred to the Monocacy Hall Nursing Home, Frederick.

Mr. and Mrs. Arthur Elder and son, David, were weekend guests of Mr. and Mrs. Matt J. Paidakovich, Silver Spring, Md.

Pvt. Ronald R. Krom, Fort Jackson, S. C., spent Christmas week with his wife and parents. Pvt. Krom will complete his basic training January 9. He is the son of Mr. and Mrs. Guy Krom, Walkersville. His wife, the former Miss Lois Eiker, is the daughter of Mr. and Mrs. Gilbert Eiker, Emmitsburg.

Mr. and Mrs. Wayne L. Snyder and children, Butch, Danny, Davie and Kenny, Barstow, Calif., visited over the holidays with Mr. Snyder's brother-in-law and sister, Mr. and Mrs. Francis Brewer, and family.

Mr. and Mrs. Frank S. Topper spent the Christmas Holidays with their son, Michael, and his family. Michael has recently joined the faculty of the evening college of Rutgers, the State University. He and his family continue to reside in Piscataway, New Jersey.

Mr. and Mrs. Ralph Long, Moters, quietly observed their ninth wedding anniversary at their home, Wednesday.

College To Hear Lecturer Jan. 5

Dr. Albert Burke, acclaimed by the New York Times as "an exciting new voice—provocative, sensible, and challenging," will speak at St. Joseph College on Wednesday, January 5 at 7:45 p.m. under the auspices of the college's lecture series.

Dr. Burke is a dynamic force in the world of ideas. His rise to fame has been meteoric. Starting in December 1960 on a single, independent station in New York, he was immediately heralded by both local and national press as a bright new voice. Within a few months he had some 60 TV stations carrying his program, "A Way of Thinking." Now he has a new series syndicated from coast to coast, called "Probe—With Dr. Albert Burke."

Audience response has been staggering for this type show. He averages 5,000 letters a week, 99% favorable. On the Jack Paar Show, where he appeared every few weeks, he gained greater response than anyone they ever had.

Dr. Burke is a scientist, an economist, and an expert on world affairs. He has lived in Russia, China, Germany, Czechoslovakia, Latin America, and among the American Indians. He speaks French, German, Russian, Spanish, Italian, and Bulgarian fluently, is studying Hebrew and Arabic, and has dabbled in Chinese. Formerly Director of graduate studies in conservation at Yale University, he received his Ph.D.

in International Relations from the University of Pennsylvania.

On his programs, Dr. Burke covers a wide variety of international and domestic issues including conservation, the importance of natural resources, air pollution, racial discrimination, and Cuba. His main objective, however, is to alert the American people to the dangers of Communism and to get them to think and act.

Inspired by the famous words of Edmund Burke (no relation): "All that is necessary for the forces of evil to win in the world is that enough good men do nothing," Dr. Burke has written a book, "Enough Good Men—A Way of Thinking," published in 1962.

When he speaks at St. Joseph's, Dr. Burke's topic will be "Ideals in Conflict." The lecture will be held in DePaul Auditorium on campus. The public is cordially invited, and there is no admission charge.

State Fatalities Soar To 700

Eleven persons were killed on Maryland highways last week according to the weekly survey of the State Police. Three of those killed were drivers; four were passengers; and four were pedestrians. Alcohol was a contributing factor in three of the deaths; speed in two; and "driver error" was present in seven of the fatalities.

"Of the eleven persons killed on Maryland highways last week, four were pedestrians," commented Colonel Carey Jarman, Superintendent of the Maryland State Police. "This points to the fact that perhaps we do not emphasize enough that facet of the problem which deals with the person who is struck by a motor vehicle and killed."

"During the past three and a half years, 573 pedestrians have lost their lives on Maryland highways. This represents 25% of the total number of lives lost in highway accidents."

The Superintendent continued: "Up to midnight of December 26, one hundred and fifty-two pedestrians have been killed this year. Of this number one third occurred in Baltimore City."

"Statistics show that fifty-one were 15 years of age or less, of whom 43 were ten or under; seventy-three were between the ages of 16 and 60, of whom 31 had

been drinking; and twenty-eight were over sixty, 3 of whom had been drinking."

Nurse Exam Results Given

The Division of Nursing at St. Joseph College announces the results of licensing examinations which 38 nursing graduates of last June sat for during the summer.

Examinations were taken in the following jurisdictions: the District of Columbia, Maryland, New York, New Jersey, Pennsylvania, Connecticut, and Massachusetts.

The passing score in each examination area is 350. Individual student scores ranged from a low of 436 in the area of medical nursing to a high of 789 in psy-

chiatric nursing. The students' mean scores ranged from 505.2 to 717.2.

Mean scores of these graduates in each examination area were: medical nursing, 607.2; surgical nursing, 584.2; obstetric nursing, 612.8; nursing of children, 659.0; psychiatric nursing, 624.8.

There were no scores in the 300's; 8% of the scores were in the 400's; 29% in the 500's; 51% in the 600's, and 12% in the 700's.

Of the 38 graduates, four volunteers joined the Extension Lay Volunteers of the Archdiocese of Baltimore for nursing assignments

in depressed areas of the United States, four joined the Navy Nurse Corps, one is in graduate work in psychiatry at New York University, one teaching on the collegiate level, and the remainder in hospital nursing.

Poor work, completed, is better than brilliant work, promised.

The black drumfish, with its shell-crushing pharyngeal teeth, can be very destructive to an oyster bed.—Sports Afield.
