SINGLE COPY 7c

Weekend

Weather Forecast

Not as hot Friday with little change through Monday. Some scattered showers possible.

Most Anything At A Glance

BY ABIGAIL

The white side guidelines painted recently on the by-pass of the town apparently have set all right with the State Roads Commission. The idea was suggested by a committee which met with Governor Tawes here last winter to make safety recommendations on the by-pass which so far has caused 21 deaths in a two-mile stretch. So well did the Commission like the idea and the results that it has painted Route 15 clear from Emmitsburg to Frederick, a distance of some 20 miles. The guidelines are a terrific help to motorists at night or during foggy weather.

As the community swelters in the midst of the longest heat wave on record it was inevitable that something had to be done about the water situation here. While not entirely unexpected it was hoped that perhaps rain might ease the situation and the ban could be postponed several weeks. However, this was not to be and effective immediately there will be no wasting of water. Rules have been set up by the Town Council and it is expected that they will be obeyed, in the best interests of all. It could and probably will be a long and dry summer and the drought very easily could extend through the winter months, just as it did last year when we were faced with a serious situation which threatened to close local schools. No one likes a water ban and it is nerve-wracking to watch your lawn, shrubbery and trees die off, but human life is far more important and therefore water must be conserved until such a time as we have sufficient water in our reservoirs to insure the safety and welfare of the general public. We are not alone in our dilemma. Other neighboring towns face the same situation and each week as the drought continues the list of towns growing short of water increases.

As the summers grow hotter there is a greater need than ever for a local swimming pool and perhaps an independent water source for its operation. There is Federal money available for projects of this type I am told, and the situation bears looking into. It is a known fact that there are other towns and cities that have planned recreational areas supported by Federal funds and I believe the time is now ripe for us to peer into the set-up. Every evening one can see carloads of kiddies leaving Emmitsburg for a place to cool off, even if it is just a creek. Honestly swimming conditions here are about the worst. The neighboring streams aren't large enough to insure a decent swim and many of these are practically dried up. Natural Dam is about the nearest stream that is suitable for the kiddies and the younger folks to enjoy a swim, but then the place is always crowded to the utmost. It just isn't right that this community continue its neglect of our youth.

Social Security Office Open Extra Hours

Mr. W. S. King, District Manager of the Hagerstown Social Security Office has announced additional office hours. The social security office will be open to the public every Monday from 8:45 a.m. to 8:00 p.m. The usual hours, 8:45 a.m. to 5:00 p.m., will be observed Tuesday through Friday.

Mr. King explained that the additional office hours on Monday evening are being made available to assist those persons who work full-time with social security matters. It is important that all persons visit the office two to three months before they attain 65 so that they will have complete information about their rights to medicare. The district office in Hagerstown is located at 59 North Cannon Avenue.

Trooper and Mrs. Donald Higgins have moved into the Wales Rightnow property, North Seton Avenue.

A scherzo movement in music is one that is humorous and capricious in character.

New Methodist Minister Now Residing Here

Rev. Charlton King Duncan, Jr., has been placed in charge of the Emmitsburg and Toms Creek Methodist Churches.

Rev. Duncan attended high school in Knoxville, Tenn., and the University of Tennessee. He received his B.S. degree with a major in psychology. While attending college he met Selina Rose Inabinet who was majoring in speech therapy. They later became married. They are the parents of a young daughter, Rebecca Lee.

The new pastor was born in Tennessee on Sept. 22, 1943. His wife has a brother now studying in the seminary and she is the daughter of a Southern Baptist minister. The young couple is now residing in a rented house in Emmitsburg until the completion of their new home in Emmitt Gardens.

CARNIVAL SET FOR WEEK'S STAND HERE

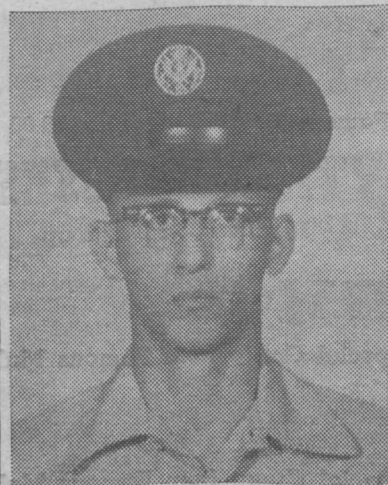

Emmitsburg's annual Carnival, sponsored by the Indian Lookout Conservation Club, will get under way at Community Field Monday night, July 18.

Prizes will be awarded to some lucky winner every night of the week-long affair and on the final night, Saturday, a quarter of beef will be given away. Workmen have been busy all week readying the grounds for the event and new stands and new games dot the area. Good food will be available every night of the Carnival and there will be games, rides and entertainment for all ages.

On the bandstand to entertain the crowd on opening night will be the Rhythm Ramblers. On Tuesday night the Carroll County Ramblers will be on hand to keep the crowd happy and amused; Wednesday night sees the Rhythm Kings in action and again on Thursday night the Rhythm Ramblers will return to the scene for more pleasant entertainment. Friday night's music will be by the Carroll County Ramblers and Saturday night's entertainment will be The Moon Litters.

There will be rides on hand for the kiddies and a good time is guaranteed for all those attending.

Completes Air Force Basic

SAN ANTONIO, Tex.—Airman Bernard L. Mort, son of Mr. and Mrs. John M. Mort, Sr., R2, Fairfield, Pa., has been assigned to L. G. Hanscom Field, Mass., after completing Air Force basic training.

Airman Mort, a graduate of Fairfield Joint High School, will be trained on the job as a transportation specialist with the Air Force Systems Command.

OBITUARIES

GUY W. WARREN

Guy William Warren, 61, West Main St., Emmitsburg, died Tuesday morning at 7:05 o'clock in the Warner Hospital, Gettysburg, where he had been a patient since last Tuesday.

Mr. Warren had been in ill health for the last four years from a heart condition.

He was a member of the Elias Lutheran Church and the Vigilant Hose Co. in Emmitsburg. He had been employed as a crane operator for the Landis Tool Company at Waynesboro before his retirement because of ill health.

He was a son of the late William H. and Fannie (Tressler) Warren and was a native of Adams County, Pa.

Surviving are his widow, Esther (McClain) Warren; four brothers and two sisters, Herman Warren, Waynesboro; Earl Warren, Mrs. James Kane and Walter Warren, all of Fairfield; Mrs. Nelson Fickes, Orrtanna, and Kenneth Warren, Selinsgrove State School.

Funeral services will be held this afternoon (Friday) at 2 o'clock at the Wilson Funeral Home, Emmitsburg with the Rev. W. Ronald Fearer, his pastor, officiating. The Rev. John C. Chatlos, pastor of the Emmitsburg United Church of Christ, will assist. Interment will be made in the Fairfield Union Cemetery.

Death Claims Father McGinley, Mount Benefactor

During the past week word was received at Mount Saint Mary's College of the death of Rev. Francis A. McGinley, Ph.D., LL.D., alumnus and benefactor of the college and seminary. Father McGinley, who was pastor of St. Thomas Aquinas Church, Archbald, Pa., and director of the Home and Foreign Missions Society, passed away on July 3.

He was a graduate of the college, class of 1915, and was ordained from the seminary in 1918 for the diocese of Scranton, Pa.

Under his supervision, the Home and Foreign Missions Society contributed nearly \$500,000 for the propagation of the Catholic faith. Most of the monies were donated to institutions of higher learning in the form of scholarship funds or building development programs. Both Mount Saint Mary's College and Seminary were recipients of funds.

In a recent gift to the local institution, Father McGinley established an annual library grant in memory of his brother, Dr. Edward L. McGinley, physician and surgeon from Wilkes-Barre, Pa.

He was the holder of several academic degrees including the bachelor of sacred theology and the licentiate in canon law from The Catholic University of America and the doctoral degree in philosophy from Fordham University. In 1956 he was presented with an honorary doctor of laws degree from the Mount in recognition of his achievements and contributions to the cause of Catholic education.

Senior Citizens To Meet

The Senior Citizens will hold their regular meeting Tuesday evening, July 19 at 6 o'clock at the home of Mr. and Mrs. Andrew Eyster. This will be a covered-dish picnic—dessert and beverage furnished. Please note change of time and place.

Anyone needing transportation please call Mr. Clarence Frailey or the Eysters. Everyone is invited even if you have never attended before—new members are always welcome.

Thousands Use Charnita Ski Lift To Cool Off

Visitors to Charnita, popular Emmitsburg resort, are having a grand time these days riding the chair lift to the Charnita ski slope. Above photo shows occupants in chair lift approaching the slope.

As the grade steepens the scenery becomes more thrilling. Photo shows the lift and several riders as they approach the top of Mt. Charnita.

At last, the top. A real thrill is in store for riders of the lift as they reach the top and begin the descent. Scenery is visible for many miles. The trip takes about half an hour.

Finally, atop Mt. Charnita. The reward for the trip is an excellent view of the majestic and grandiose scenery which is visible for many miles. In the distance, hardly visible in the photo, is Emmitsburg.

EHS Graduates Enter Colleges

Ten of the 28 seniors who graduated from Emmitsburg High School this June have been accepted by institutions of higher learning. The following is a list of those students and the schools they plan to attend:

Sharon Baker, Pennsylvania Hos-

pital School of Nursing; Susan Crouse and Elizabeth Wilhide, University of Maryland; Marjory Richards, Western Maryland College; Joseph Baldacchino and Larry Piper, Mount Saint Mary's College; Noah Bankard and Ralph Ohler, Frostburg State College; Rudy Chatlos, Catawba College; Harry Hahn, Hagerstown Junior College.

Vacation School Class Has 24 Pupils

Junior Class of Emmitsburg Community Vacation Church School consisting of 24 pupils who will enter 5th and 6th grades in school. The teacher of this class was Miss Audrey Baumgardner.

There was a total enrollment of 132 pupils in the Community School held from June 20 to July 1. Pastor W. Ronald Fearer served as Director of the school.

Town Imposes Water Ban

A strict water ban has been imposed on water users of Emmitsburg starting immediately. This action was taken at the regular meeting of the Burgess and Commissioners held Monday night in the Town Office, Chairman of the Board Joseph M. Haley presiding with a full board in attendance.

Interested citizens present at the meeting were the Dewling Sisters, Bernard H. Boyle, Michael Boyle and John G. Humerick.

In an official notice issued by Mayor Guy A. Baker, Jr., effective immediately there will be no use of water except for regular household duties or necessities. Violators of the ban can and will be prosecuted.

In other action taken it was unanimously agreed that the Town should take over the local garbage collection system and Attorney Fred Bower has been instructed to draft such an ordinance empowering the Town to operate the collection. Unfair property assessments were discussed and the Council decided to ask the County assessors to come to Emmitsburg and explain their method of assessment and also how these "unfair" assessments were justified.

A deed has been obtained by the Town for one acre of ground from the Merle Keilholtz farm west of Emmitsburg where it is planned to erect a pumping station. The Keilholtz's also have granted the Town a right-of-way through their farmland where a water line has been installed.

Council adopted a recently drafted ordinance regulating control of trailers and trailer camps within the Corporate limits and the ordinance is now effective.

Considerable discussion was held concerning asking the Postoffice Department for mail drop boxes around Town and on the Square but no action was taken, Council coming to the decision that it was a Postoffice problem. The question of sponsorship of the Emmitsburg Band was discussed but no action was taken pending the gathering of additional information.

Planning and Zoning was talked over after a recommendation from Town Attorney Fred Bower and it was agreed to meet with the Frederick County Planning and Zoning Commission sometime in the near future.

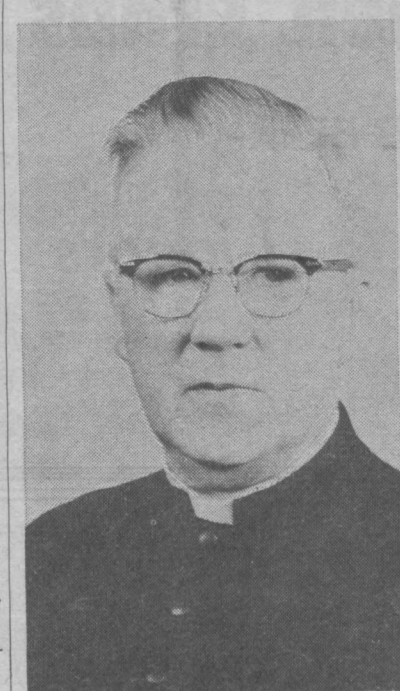

Due to the untidiness created by fishermen and picnickers at Rainbow Lake, Council has ordered the gateway closed and henceforth there will be no fishing, hunting, picnicking or trespassing on the grounds. Violators will be prosecuted. In its monthly review of unpaid parking meter tickets Council permitted three to be voided due to various justified reasons.

At a special session held on June 20 the Town Fathers discussed, after meeting with William S. Ledbetter, the possibility of running water and sewerage to the Robert Gillelan farm west of Town. At another special meeting on June 24, the solons met with representatives of the Health Dept., Mt. St. Mary's College officials and their engineers, Ferguson & Co., and the Town engineer, Elmer St. Clair Maxwell, to obtain permission to run a hydraulics test on the six-inch line running from the Annandale Road to the college. At another special session on June 29, the Council discussed a right-of-way through the Merle Keilholtz property and the installation of a water valve vault on the Frailey property on Frailey Road.

Police Chief W. E. Law's monthly report showed five motor vehicle arrests, one criminal arrest, two juvenile arrests, 18 warnings issued, three accidents investigated or assisted with, three night calls and 15 complaints answered. Two trips were made to Frederick on official police business.

Msgr. Bolen Dies Suddenly; Taught At Mount

Msgr. John P. Bolen, 66, pastor of the Basilica of the Sacred Heart, Coneyago Chapel, died in his sleep last Thursday at the rectory of the historic "chapel" at Edge Grove. Msgr. Bolen had been ill for several months and had returned to the basilica after a period of convalescence following an operation in April.

He had been appointed a domestic prelate with the title of right reverend monsignor by the late Pope John XXIII on March 10, 1962.

He received his early schooling at St. Patrick's Cathedral, Harrisburg, Our Lady of the Blessed

Sacrament Grade School, and at the former Harrisburg Catholic High School.

He attended Mount St. Mary's College and Seminary, Emmitsburg, and St. Paul's Seminary in St. Paul, Minn.

Msgr. Bolen was ordained to the priesthood on May 29, 1926, at St. Patrick's Cathedral by the late Bishop Philip R. McDevitt.

He became assistant pastor of St. Ignatius Parish, Centralia, and then assistant pastor of St. James Parish, Steelton. On July 11, 1927, he was appointed chaplain at Villa Sacred Heart and the Academy of St. Cyril and Methodius at Danville, Pa.

Msgr. Bolen was made pastor of St. Patrick's Church, Trevorton, on Jan. 4, 1945, and during his stay there the church was completely renovated. On Aug. 25, 1953, he became pastor of Sacred Heart Chapel at Coneyago.

During his pastorate there, the historical old church was elevated to the rank of minor basilica. Coneyago is one of the oldest parishes in the United States, having been established in 1730.

Between 1953 and 1963, Msgr. Bolen also served as professor of liturgy at Mount St. Mary's Seminary. He contributed numerous articles on the long history of his parish and community, others on pastoral and liturgical subjects, to ecclesiastical journals.

Msgr. Bolen also served as liturgical expert for the nationally published magazine, "Ecclesiastical Review."

Pontifical Mass of Requiem was celebrated at 11 a.m. Monday in the Basilica of the Sacred Heart, Coneyago. Bishop George L. Leech was the celebrant.

Msgr. Joseph Schmidt delivered the sermon. Music was rendered by the Priests' Choir of the Harrisburg Diocese.

Littlestown Short Of Water

Littlestown this week urged its residents to use water sparingly. S. Donald Michael, borough secretary, said that, while "some of our water supplies are down," the town should be able to continue without water restrictions so long as residents avoid wasting water.

He said that Littlestown has been without rain while some of the neighboring towns have had some rain in recent days. "The water supply has held up well so far, but we are asking everyone to use water sparingly until the dry spell ends," he said.

Little Leaguers May See Series

The Emmitsburg Little League is planning a trip to the Little League World Series to be held in August at Williamsport, Pa., President Thomas C. Harbaugh announced this week.

Plans call for two bus loads of local players to attend the affair with the local Little League footing the bill. Expenses other than bus fare will be borne by the players attending the series. President Harbaugh states that all those players attending must have written permission from their parents.

Mrs. Ann Shorb Heads Auxiliary

The regular monthly meeting of the Francis X. Elder American Legion Auxiliary, Unit 121, was held on Tuesday evening with 12 members and two guests present. Following the roll call, secretary and treasurer's reports, the president's report was read, along with several thank-you notes.

The guests were introduced as Mrs. Randolph Walker of Dixon-Troxell Unit 211, Funkstown, and

Mrs. Newman Twigg, the former Miss Kathleen Gladhill of Emmitsburg, and now of Manchester, Md. Members reported 162 hours of babysitting with veteran and non-veteran children; one member reported 4 hours volunteer time with the Brownie Scouts; \$35 in clothing had been donated to veteran and non-veteran families; \$6.00 had been donated to Goodwill; one member spent 1½ hours visiting the sick in the hospital. Three members, Kathleen White Shorb, Margaret Shorb and Ann Shorb, reported 27 hours of volunteer

INCOMPARABLE DUO—Syndicated Noble Victory, one of the all-time leading money-winning trotters in action today, and his driver, Stanley Dancer, No. 1 skipper on the national Universal Rating System for the last four years, are expected to assert their authority at the Branlywine Raceway meet which opened Monday, July 11, for 53 nights. Noble Victory packed the national Season's Championship for both the mile (1:57.2) and half-mile (2:01.3) under his saddle cloth in 1965. Last weekend in New York the 4-year-old stallion equalled the world record for the mile-and-a-quarter in 2:31.2, boosting his career earnings to \$360,195.

time helping with the outdoor party recently held by the men of the Post. The group voted a \$5 donation toward a refrigerator for use in an orphanage in Hoi Duc-Ahn, South Viet Nam, a project being sponsored locally.

It was announced that a caucus meeting of the Western Maryland District would be held July 13 at the Dixon-Troxell Post Home in Funkstown. The annual American Legion Convention will be held in Baltimore on July 20 through July 23.

The draw prize was won by Corinne Seiss and the door prize was won by Virginia Sanders.

Mrs. Walker installed the following officers for the coming year: President, Ann Shorb; 1st vice president Ann Topper; 2nd vice president, Loretta Hardman; secretary, Virginia Sanders; treasurer, Melva Hardman; chaplain, Anna Bushman; historian, Margaret Shorb; sgt.-at-arms, Beatrice Umbel.

Following the meeting refreshments were served.

16 Die On State Roads In Week

Sixteen persons were killed on Maryland highways last week according to the weekly survey published by the Maryland State Police. Seven of those killed were drivers; four were passengers; and five were pedestrians. Alcohol was a contributing factor in three of the deaths; speed in seven; and "driver error" was present in eleven of the fatalities. So far this year Maryland's highway fatalities are 52 more than for the same period last year.

"At the beginning of the year it was hoped that we would see some much needed improvement in the State's highway fatality picture," commented Colonel Carey Jarman, Superintendent of the Maryland State Police, "but the record of the first six months has shown the reverse to be true. We are going steadily down hill and, at the moment, the future doesn't appear too bright."

"However, at the heart of almost every fatal accident we continue to see the same major opponent of the highway safety—the driver who violates the simplest, most fundamental rules of safe driving. He speeds when it is unsafe for existing conditions; he fails to grant right-of-way; he drinks and drives; he impatiently and improperly passes other cars; he seems to break almost every rule in the book."

"Much improvement can be accomplished," the Superintendent concluded, "if every driver will reevaluate his own driving performance taking into full consideration his responsibility for promoting highway safety. And one of the best aids he can find is the National Safety Council Defensive Driving Course now being offered in all areas of the State. There is no driver on the highway who would not benefit from such constructive instruction."

WOMEN'S HEALTH

By Elizabeth Stewart
Women's Medical News Service
Kindness Potent In
Menopause Therapy
A woman's menopausal symptoms may be caused not only by hormonal changes occurring within

her body, but by problems in her total life situation. This observation was made at a recent meeting in Boston by Dr. Sprague H. Gardiner, who is a psychiatrist as well as professor of obstetrics and gynecology at the University of Indiana Medical School.
Agreeing that treatment with hormones may be helpful for wo-

men whose menopausal symptoms are due to hormonal deficiency, Dr. Gardiner pointed out that some women experience difficulties despite quite adequate natural hormonal production.

These women might be helped by guidance from a physician which affords them an opportunity to examine and resolve the non-physical problems facing them. Women of middle years face many real problems, Dr. Gardiner pointed out. Not the least of these may be the feeling that they are losing their feminine attractiveness and that their families no longer need them. They may worry about their husband's declining health.

He noted that a woman who has enjoyed a rich marital relationship, maintained through the menopausal years, one whose life has generally been productive and satisfying, usually has few menopausal problems.

Contraception For The Unwed?

Should contraceptive advice and aids be available only to married women living with their husbands? Or should they also be available to unmarried women as well? These explosive questions were examined at a recent family planning conference in Washington by the Rev. Dexter L. Hanley, S.J., director of the Institute of Law, Human Rights, and Social Value at Georgetown University Law Center.

Noting that "a child has a moral and legal claim to be legitimate and that nowhere is there a more pressing social problem than illegitimacy," the priest said that "a clear moral evil" is present when an illegitimate child will result from extramarital or premarital intercourse.

"The essential moral question," he maintained, "is whether a greater or less moral evil will follow upon the use of contraceptives. I suggest that the essential moral evil is the illicit relationship itself, not the contraceptive practice. It is primarily this relationship which is to be discouraged."

Father Hanley urged that agencies and private physicians in a position to give contraceptive help to unmarried persons be prepared to counsel them on the implications of their sexual behavior and on family values. Physicians should discriminate carefully between a young girl "who is just thinking of entering upon a liaison and one who has consistently borne illegitimacies." So far, as the former is concerned, vigorous counseling and a refusal to prescribe contraceptives may be enough to discourage the liaison, the priest said.

"Where the patient has already made a decision to enter upon an illicit relationship," Father Hanley explained, "I do not see where the social harms are increased by permitting contraceptive counseling."

Baby Sitting Guide For Teenagers

With school dismissed for the summer, many thousands of teenagers will seek out gainful employment, and many will land their first jobs—as babysitters. A useful booklet, "When Teenagers Take Care of Children: A Guide for Babysitters," can be bought for 25 cents from the Superintendent of Documents, United States Government Printing Office, Washington, D. C. 20402. It has chapters on getting along with parents, on how to play with children, how to feed them, diaper them, what to do in emergencies.

BABSON

Writes . . .

BY ROGER W. BABSON

Babson's Point Of View On: The Battle Against Famine

BABSON PARK, Mass., July 14—There is mounting concern in our country and elsewhere because we are failing to meet the food needs of all the 3.4 billion people living on the earth. If we cannot meet those needs now, how shall we feed the 4.6 billion people expected to be on this planet in 1980?

Population Control

Right now, the worst of the hunger problem appears to be centered in India, though there is good reason to believe that many of the 700 million people of mainland China are also seriously undernourished. The immediate task in India is to get foodstuffs to the affected areas in quantities large enough to sustain the lives of the hungry. Apart from that, there are other long-range efforts being made to meet world food requirements. One of these is in the field of population control.

Birth control and family planning have been gaining acceptance gradually. As a result, birth rates are falling in such places as Hong Kong, South Korea, Singapore, and Taiwan. Also, the initial benefits of population control are expected to be felt in India and Pakistan soon. However, it will be a long time before population control really cuts back births (not birth rates alone) to more manageable proportions. It is not likely that a stationary world population can be achieved in our time . . . barring widespread famine or pestilence, or large-scale nuclear war.

Increased Crop Yields

In addition to population control programs, governments the world over are hoping to conquer famine and/or improve the health of their peoples by boosting crop yields. Underdeveloped nations must, of course, make new land tracts available for crop planting. But this alone will not supply the needs of the population upsurge that is expected.

Expanded crop yields will be a slow attainment. Lack of funds, lack of experts with necessary agricultural know-how, lack of education, and lack of incentives to persuade land owners to co-operate—all these will hamper and delay the effort to boost crop yields.

Wheat Reserves Are Shrinking

The need for increased crop

yields is by no means centered in the overpopulated areas of Asia and Latin America. It is found also in other areas of the world that, by contrast, are more fully developed. It is found even in parts of Europe itself, and especially in the Soviet Union which is already hard put to feed its own growing population properly. Moreover, this need for increased crop yields is becoming more insistent as world wheat reserves shrink.

When the final figures are in for the crop year now ending, it will be found that use of U. S. wheat for domestic and export demand has set another new record. As world food needs intensify, the U. S., Canada, Australia, and other large wheat producers will see their wheat output moving ever more swiftly into consuming channels.

Fish Protein Concentrate

Obviously, wheat and other food grains alone (including rice, which is so important a part of the human diet in the heavily populated areas of Asia) cannot be grown fast enough to keep up with the world's needs. It is not surprising, therefore, that during her recent visit to the U. S., the Prime Minister of India, Mrs. Indira Gandhi, is reported to have expressed considerable interest in fish protein concentrate. Although this quite inexpensive and highly nutritious product was developed many years ago, we are still awaiting

its approval by the Food and Drug Administration. Once the O.K. has been given, there is good reason to hope that fish flour can become an important food supplement and a new weapon in the struggle against world famine.

The Creator intended that man should receive his sustenance from both the land and the sea. We have by no means exhausted the possibilities of crop development and livestock husbandry. Little by little, we will uncover more of the secrets of nature with respect to plants and animals. But should we not also be devoting more attention to uncovering the secrets of the sea? Fish and fish flour are nutritious and have much to offer the hungry of the world. And who knows what nutritive values lie hidden in the minerals and algae of the seven seas?

Michaelangelo accepted no pay for his supervision of the construction of St. Peter's Church in Rome.

Lions Elect International President

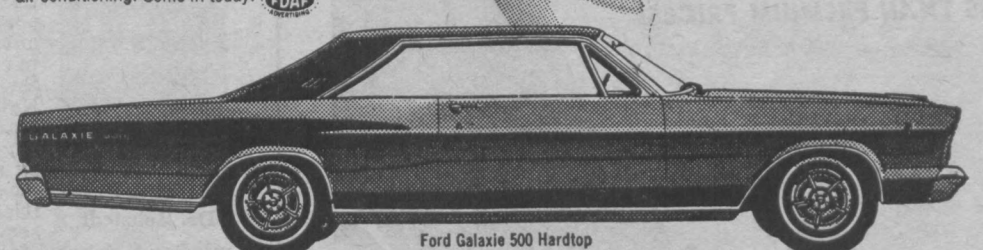

Edward M. Lindsey of Lawrenceburg, Tennessee, was elected President of Lions International at the Association's annual convention in New York City, July 6-9. Serving as the 50th President during the Golden Anniversary year, Mr. Lindsey heads the world's largest service club organization with 797,159 members in 135 countries.

Lions International is best known for its many community service projects, youth programs, sight conservation activities and aid to the blind. During the past year Lions Clubs around the world completed more than a half million community projects.

County Farms Continue To Decrease

A total of 1,833 farms was counted in Frederick County during the 1964 Census of Agriculture, the U. S. Department of Com-

A TWO STRING REMINDER!

*Business-Industry Political Action Committee

merce's Bureau of the Census reports.

In the last previous Census of Agriculture (1959), the total counted in the county was 2,306 farms.

The 1964 total is published in a preliminary report on the county just issued. The report also shows that average farm size in the county was 157.5 acres and that the average value of the county's farms (land and buildings) in 1964 was \$68,626.

Other important county statistics in the report are:

1. Value of all farm products sold by farms in the county in 1964, \$25,322,245; in 1959, \$23,515,215.

2. Value of all crops sold by county farms in 1964, \$2,216,275; in 1959, \$1,761,702.

3. Value of all livestock and livestock products sold by county farms in 1964, \$23,096,467; in 1959, \$21,753,513.

Information obtained for the first time in an agricultural census included the amount of income received by the county's farmers (\$9,503) from recreational services as well as data on the use of pest control chemicals in the county in 1964.

A Census of Agriculture is taken every 5 years in years ending in "4" and "9" to gather information on the nation's agricultural resources and production. The data are needed to make decisions affecting many segments of the U. S. economy. The 1964 farm census was the 18th in a series that began in 1840.

The preliminary report for the county contains more than 500

facts about agriculture in the county. Among additional facts it contains are the number of farms by size, type, and economic class; the number of farm operators by method of tenure, age, color, off-farm work, and number of school years completed; land in farms by use and by land-use practices; data on equipment and facilities; farm expenditures; number of hired workers; and number of farms reporting poultry and livestock production and those reporting crop production by acres and quantities as well as sales.

Single copies are available for 10 cents from the Bureau of the Census, Washington, D. C. 20233 or from any field office of the Department of Commerce. These are located in major cities.

YOUR PERSONAL HEALTH

High Blood Pressure

High blood pressure, more properly called arterial hypertension, is an abnormal state of the circulation that may be a cause as well as a result of arterial disease, says a pamphlet from the American Medical Association called "Your Blood Pressure".

Four of every five cases of persistently increased blood pressure are known as primary or essential hypertension, for which no underlying cause can be identified, says the AMA publication. It often occurs in those with a family history of increased blood pressure.

The other one-fifth of the cases are called secondary hypertension,

which means that the cause is known to be some defect or disease.

Hypertension requires a lifetime of management. The patient and his doctor, working together, plan a living pattern, supplemented by various medical procedures, that will result in the longest and most useful life that the patient can live, even though the doctor may never know the cause of his patient's hypertension.

In untreated hypertension, the course from onset to death is approximately twenty years. The first two-thirds is without symptoms, and can go undiscovered unless the patient undergoes periodic health examinations, particularly in the middle years. The last one-third of the twenty years is complicated by failure of the heart, the brain or the kidneys, alone or in combination. Once organ failure begins, the average survival of the untreated patient is about six years. Under treatment, a longer and more comfortable life is to be expected.

Men usually present themselves for diagnosis at a more advanced stage of the disease than do women and have a higher incidence of the more severe forms. Hypertension produces a higher incidence of coronary disease in men and of brain complications in women. Women tolerate elevated blood

EFFICIENT FEEDING AND LIVESTOCK MANAGEMENT

By Dr. Gustav Bohstedt
Emeritus Professor of Animal Husbandry
University of Wisconsin

How About Antibiotics For Pigs Now?

Have antibiotics as feed additives "overstayed their welcome?"

A good many stockmen are in doubt about the value of antibiotics for whatever livestock they may be feeding. Some have serious doubts about their efficacy now as compared to years ago.

A recently revised edition of the report "Nutrient Requirements of Swine" of the National Research Council, prepared by a committee of authorities, should set people's minds at ease so far as antibiotics for swine are concerned.

They state that from records of many experiment stations pigs fed antibiotics on present-day rations grow about as rapidly as pigs fed similar rations in past years.

Control pigs, however, are growing at a faster rate than formerly, due to the possible elimination of certain harmful organisms by the continuous feeding of antibiotics.

It is not known how long the premises stay free from harmful organisms after antibiotics are used for a number of years and then discontinued. Thus, their continued use is recommended on the basis of present knowledge.

A summary of experimental work with antibiotics from weaning to market weight shows that they increase

growth rate, especially early growth, about 10%. Also feed efficiency is increased up to about 5%, even more with poor-quality rations. Runty pigs or scouring pigs respond markedly to antibiotic feeding, as do pigs on pasture as well as in dry lot.

Under certain conditions a combination of an antibiotic and an arsenical is more effective against certain cases of scours than either supplement alone.

Of special interest is the statement of this committee regarding the effects of antibiotics on breeding stock.

Feeding antibiotics to pregnant sows at levels of 22 to 33 milligrams per kilogram of feed may increase the birth weight, livability, and weaning weight of pigs.

Antibiotics are not effectively transferred through the milk of sows, but when fed to pigs in creep rations during the suckling period may increase the weaning weight 5 to 10 pounds at 56 days of age.

So it seems that antibiotics as feed additives are here to stay, so far as swine are concerned.

Question: Even though iodine and cobalt are not needed for crop growth, what about adding them to the fertilizer to enrich a feed crop for livestock?

Answer: It would be wasteful. The merest fraction of these expensive minerals necessary to sufficiently enrich a forage crop, would suffice to supplement rations. These as well as other minerals may be easily and economically supplied by trace mineralized salt.

ARMY AVIATOR OF THE YEAR—Major Paul A. Bloomquist. The Under Secretary of the Army David E. McGiffert, in presenting the National AAAA Award, cited Major Bloomquist's acts of courage, heroism and gallantry while assigned to the 57th Medical Det (Helicopter Ambulance) in Vietnam. From April 1964 to March 1965, Major Bloomquist flew over 704 combat missions and rescued over 700 soldiers from the battlefield. The Major is now assigned to Brooke Army Medical Center, Fort Sam Houston, Texas.

Soviets In Command In North Viet Nam

One of the most dangerous beliefs being foisted upon the American people is this one: Soviet Communism, as distinguished from Chinese Communism, is rapidly "reforming" and gives promise of becoming an ally of the U. S. to quell belligerent nations and remake the world into one big happy family. The fact is: Soviet Communism dominates a tremendous and growing force determined to conquer the world and is itself (and not Red China) the central element in the Viet Nam war — in Cuba, and wherever World Communism is advancing.

James Cameron, the British journalist who has just published a book, *Here Is Your Enemy*, based on extensive personal observations and study within North Viet Nam, has given the clearest account of the nature of the Viet Cong enemy which the United States forces are meeting daily in the fields of battle in South Viet Nam—with rising U. S. casualties and costs. Because of the "non-belligerent" posture of his country and most of its press, Cameron was able to talk frankly and fully with the Communist political and military leaders, and to visit freely throughout the country.

Red China Secondary
In an interview on the radio program, *The Big Lie*, Cameron gave reports that added up to this significant conclusion: The war being waged against U. S. forces in South Viet Nam was probably instigated and certainly is today directed and controlled by Soviet Communism—not Chinese Communism! He said that Red China is supplying a substantial amount of food-stuff for Ho Chi Minh's North Viet Nam armies but that the flow of essential military supplies is from Russia.

Cameron said (and this is contrary to nearly everything that has been reported by our Defense Department and other Governmental sources in Washington) that Russians "are running the war," that Russian military officers and personnel are in North Viet Nam in force sufficient enough to dominate the military scene. He observed in his interview that this was the most "unreported" fact in the Viet Nam war. He said Chinese Communists are not an observable force in the running of the North Viet Nam "war of liberation."

Counting On Appeasement
Cameron, under questioning, said he felt the Viet Nam war had reached the point at which the U. S. now either have to win, with a different strategy from that now employed, or get out and give the victory to World Communism. He likened the Communist world-wide strategy of these little "wars of liberation" to the Hitler strategy of "one little bite after another." He said the Reds counted on being appeased, or making a "deal." He recalled how the free world appeased the Hitler appetite until Der Fuhrer felt he could bluff his way to any victory. Finally he had to be halted by being crushed in defeat. Given Cameron's and other corroborating facts on the predominance of the Soviets in North Viet Nam, the American people must naturally ask themselves—Why? Why has there been created in our nation an atmosphere of protectionism toward the citadel of World Communism, and the USSR? And of course a second question is: Are there any diplomatic cir-

cumstances that could possibly justify the making of what appears to be a false image of the Soviets? Or is that another fatal blunder in U. S. foreign policy?

Questions Crying For Answers
Here is an item from the May 16 issue of a national magazine: "U. S. Commanders in Vietnam still are being advised to soft-pedal criticism of the Reds' military sanctuary in Cambodia, from which attacks are launched on U. S. forces." Why soft-pedal the existence of a force killing our soldiers?
A few weeks ago in Moscow the 23rd Congress of the Communist Party USSR was held. It was the largest Party Congress in Soviet history. Delegates attended from 72 nations—4,942 Red officials dedicated to World conquest. Leonid Brezh-

nev reported that the Communist Party in Russia had doubled its membership in the last 10 years. He and others emphasized the reestablishment of the Stalinist (world conquest) concept, and the full venom of the Red hierarchy was vented against the United States.

It is high time that our Governmental leaders in Washington tell the American people why there is soft-peddling of the presence in North Viet Nam of dominant Soviet military leadership—and what gain can possibly be achieved by ignoring the whole character of the enemy.

SPORTS TIPS

Bobby Pins

Commandeer the little plastic containers your wife's bobby pins come in. They make dandy holders for flies, small spinners, hooks, etc.

Warm Hands

Rub petroleum jelly on your hands in cold weather. They'll stay much warmer. Also rub jelly into rod guides and the line won't freeze in them as readily.

Squeeze Bottle

During your area's "rainy season" carry a squeeze bottle full of water in your car. When road scum fouls the windshield, you can squirt water on top of wipers without leaving the driver's seat. Serves in place of a built in windshield cleaners system.

Candy Bar

Know what the most concentrated food pickup you can eat is? A candy bar. Toss a couple in hunting or fishing clothes. When you start to tire, give your body a recharge.

Fish Blood

One fisherman rubs his lure with blood from the first fish of the day he catches. Says it is the reason why he almost always out-fishes everybody.

Cleaner Bags

Tuck a plastic bag your suits come back from the cleaners in a pocket of your hunting and fishing jackets. They take up little

room. With a hole for your head, they serve as an emergency rain poncho.

Healthy Minnows

Inflate a tire and loosen the valve core slightly to allow an air

leak. Then attach a rubber hose and drape the other end in your minnow bucket. Bubbles keep the fish happy. If you run out of air at a stop at a service station gets you a free supply.

Made from a star-spangled recipe that's 25 years old

The cake above is something we whipped up to help celebrate the 25th birthday of the United States Savings Bond program.

Although there will be no confetti, no horn-blowing—in fact, no party—there are a number of reasons to celebrate this quarter-century observance.

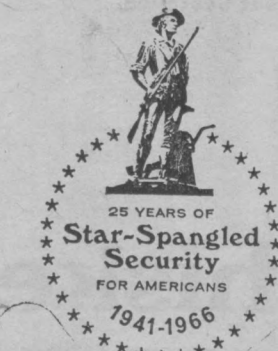

Since the first one was sold on May 1, 1941, Americans have bought more than \$150 billion worth of Series E and H Bonds and still buy them at a \$4-\$5 billion-per-year clip.

About \$100 billion have been cashed and spent for homes, college tuition, new cars and furniture, emergencies—and helping dreams come true for millions of American families.

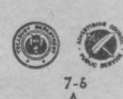

Over half the Bonds bought are purchased on the Payroll Savings Plan—a voluntary, automatic plan that works wonders for people who might not otherwise save a nickel.

Today there are outstanding almost \$50 billion in Bonds—a solid financial rock for millions of Americans.

And today, Savings Bonds are a sure way for all Americans to support our men in Vietnam. While they are there, none of us can remain aloof on the sidelines.

Buy U.S. Savings Bonds

Large Purses Offered At Laurel

The fifth in a string of eight Reading Futurity classics and Part II of the Boutonniere Stakes will highlight the action at Laurel Raceway this weekend.

Three-year-old trotting fillies took over the spotlight Friday night, July 15, for the eighth renewal of the Reading Futurity for that class, while three-year-old pacing colts and geldings will bask in the Saturday brights for Round 2 of the Boutonniere Stakes which, in its July 2 inaugural, produced the fastest time in the history of Maryland harness racing.

The Gray Brothers' and Alex Parsons' sensational Good Time

Boy, who singed the Tartan oval in 1:59.1 in the Boutonniere opener, is due back for the second \$10,000 leg of the stakes, and if conditions are right, a record-reducing mile won't surprise. The Good Time colt, off at 50c on the dollar with Canadian Jim Larente driving, uncorked his blazing speed in the stretch, moving out of a steady second to win by the better part of five lengths.

Other powerful 3-year-olds due to lock horns in the Boutonniere include T. W. Murphy's Jim Harrison, a fast-closing second to Good Time Boy in his record mile; \$65,000 yearling purchase Effrat Hanover, who was separately timed in 1:58.2 when he pressured Way-gone to a 1:58 mile at Vernon Downs (N. Y.); Money Wise, whose 2:00 mile over the Oxon Hill half-mile oval was a tract record and season standard at the time; and D. H. Cristy's Chris Time, whose stretch flourish rewarded him with third money in the first Boutonniere stake.

The high-stepping fillies taking over Friday will be out to trim the national season's record of 2:01.1 shared by Stereo Hanover and Mary Donner on a big oval. Laurel's standard for this class is Old Flame's 2:04.2, logged in last year's Reading.

Gainesway Farm's Kerry Way, who won eight stakes enroute to becoming the all-time money-winning two-year-old filly last year; Ideal Rodney, winner of the Reading Futurity counterpart for two-year old trotting colts and geldings last year; and LeMere from the Powerful Stanley Dancer stable, are among the nominees.

Post Time at Laurel Raceway is 8:00 p.m. Twin Double wagering prevails on the 6th thru the 9th races.

A 1966 Cadillac Convertible being given away by the track will be on display nightly thru Monday, the 25th on which date a drawing will be held. Admission on the 25th will be completely free at both clubhouse and grandstand.

time will bring producers more income," Secretary of Agriculture Orville L. Freeman said recently in announcing major provisions of the program.

Key factors in the 1967 program are:

1. Price support loan level will be \$1.25 per bushel.
2. Domestic marketing certificates on an estimated 520 million bushels will be valued at the difference between full parity as of July 1, 1967 and the \$1.25 loan value. (This year's certificate value for the 1966 crop will be about \$1.32 per bushel.)
3. Marketing certificates will represent expected production on 40 per cent of the participating farms' farm allotments. These allotments will reflect the increased 1967 national allotment of 59.3 million acres, announced earlier this year. (For 1966, the allocation percentage was 45 per cent on an effective national allotment of 51.6 million acres.)
4. There will be no acreage diversion program for wheat. The Cropland Adjustment Program (CAP) as it applies to wheat will be announced later.
5. Wheat may continue to be planted on feed grain acreage on farms participating in both programs, and feed grains may be planted on wheat allotment acreage. Producers will be able to substitute wheat for oats and rye on the same basis as in 1966. If barley is included in the 1967 feed

grain program, wheat may be substituted as in prior years; if barley is not included, wheat may be substituted for barley in the same way as for oats and rye.

6. A producer will have the option of planting in excess of his wheat allotment (by not more than 50 per cent) and still be eligible for certificates and price support loans provided the excess production is stored and the farmer meets other terms and conditions similar to those in effect in 1966.

7. Program provisions regarding participation will be the same as in 1966 except that there will be required or additional diversion. According to James M. Voss,

Banquet on a Picnic?

by Betty Crocker

Who says you can't pack a banquet in a picnic basket? — or take along frosted grapes and onion biscuits made with sour cream? Not me, I'm all for bringing inside glamour to outdoor eating. And how's this for the rest of the menu? Cold fried chicken and potato salad. Vegetable relishes, olives and pickles. Lemonade with sprigs of fresh mint. And for dessert, a spectacular fresh fruit platter, garnished with the frosted grapes, and a slab of Cheddar cheese on the side. Pretty paper plates are fine. Your everyday stainless, too. But go ahead, use a washable cloth and napkins for your banquet table under the sky. Now, about those biscuits.

ONION BISCUIT SQUARES

2 cups sliced onions
2 tablespoons shortening
1/2 teaspoon salt
Dash of pepper
2 cups Bisquick
1 cup milk
1 egg
1/2 cup dairy sour cream
1/4 teaspoon salt

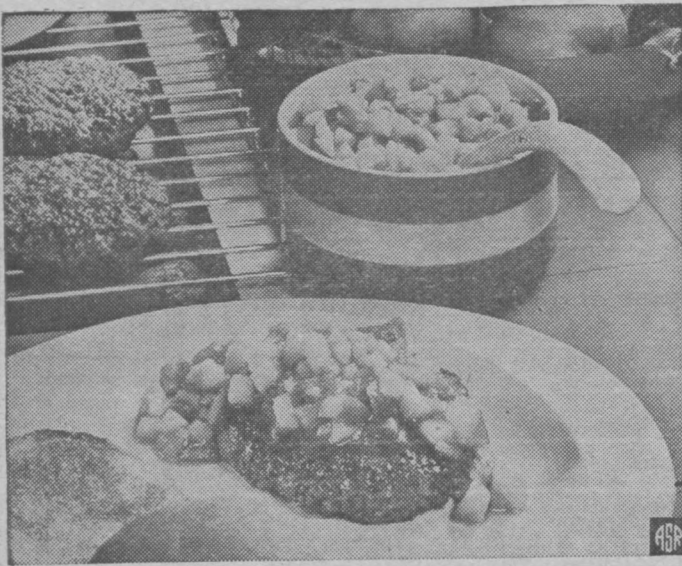

Heat oven to 450°. Brown onions in shortening. Sprinkle with 1/2 teaspoon salt and the pepper. Mix Bisquick and milk with fork. Beat vigorously 20 strokes until stiff and slightly sticky. Knead 8 to 10 times on lightly floured cloth-covered board. Roll into 10-inch square. Pat firmly into greased 8x8x2-inch square pan, pressing edge to sides of pan. Top with onions. Beat remaining ingredients; pour over onions. Bake about 20 minutes or until lightly browned. Cut into squares.

Save your strength for croquet on picnic day by baking the biscuits and frying the chicken the day before. Wrap both in foil and store, ready to go, in the refrigerator.

And if you like to mix your potato salad on the spot, why not? Prepare and carry all ingredients in a large plastic bag except the salad dressing which goes into a jar. (Keep both chilled en route.) At banquet time, toss the salad right in the plastic bag — gently squeezing the bag to mix the dressing throughout.

To frost grapes for the fruit platter, brush with slightly beaten egg white. Dip in granulated sugar. Dry on rack. Arrange grapes atop fresh strawberries and peaches on a gold paper plate. Overwrap with foil for safe traveling. And isn't that posh for a picnic? Who but you would think to do it!

New Nectarine Relish Bedecks Burgers

That cookout king, the hamburger, wears a mantle worthy of culinary royalty for "Nectarine Relish Burgers."

A relish notable for its regal appearance and fit-for-a-monarch flavor bedecks each hamburger. It combines diced fresh nectarines with some other mighty appealing ingredients to give a burger a new lease on life.

California orchards supply the country with fresh nectarines all summer long. The fuzz-free fruit can't be beat as out-of-hand eating at home and on picnics or simply sliced over breakfast cereals. But it's also a winning entry in meat sauces, salads, appetizers and, above all, desserts. The nectarine habit, so easy to form, is a real summertime blessing.

Nectarine Relish Burgers

4 or 5 medium-size fresh nectarines
3 tablespoons chopped green pepper
1 tablespoon chopped onion
2 tablespoons brown sugar
2 tablespoons chili sauce
1/4 teaspoon dry mustard
Few dashes Tabasco
6 grilled hamburgers
6 toasted hamburger buns

Dice nectarines to make 2 cups. Combine green pepper, onion, brown sugar, chili sauce, mustard and Tabasco. Stir in nectarines. Mound on hamburgers. Serve on or with buns as you wish. Makes 6 servings.

Secretary-Treasurer

Federal Grant For Recreation

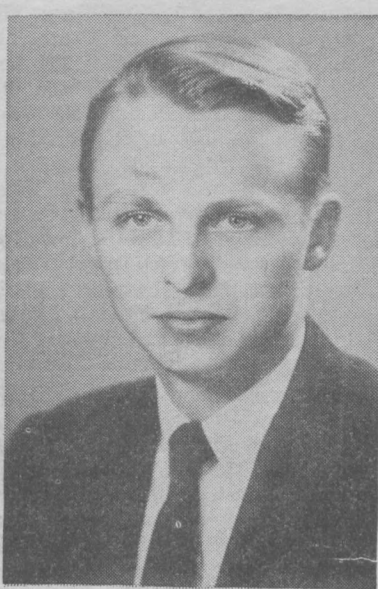

A Federal grant of \$22,977.50 for development of the Yale Heights Playground in Southwest Baltimore City was announced this week by Rolland B. Handley, acting regional director of the Bureau of Outdoor Recreation.

Project plans call for the construction of a paved basketball court and multi-purpose area, a paved play area for junior age children with swings, climbers and slide and a paved tot area complete with play apparatus. Extensive landscaping and the use of trees and colored paving materials are to be used to enhance the beauty of the area.

The Bureau of Recreation is expected to assign a recreation leader to the playground to supervise play activities. Maintenance will be the responsibility of the Bureau of Parks.

Total cost of the project has been set at \$45,955 with half of the money coming from municipal funds and the other half from the Federal grant. The Federal money is allocated from the Land and Water Conservation Fund, which derives its revenues from the sale of the \$7 Federal Recreation Permit, other entrance and user fees, the sale of Federal surplus property and the Federal motorboat fuels tax.

Cramer Is Candidate For House Seat

William F. "Bill" Cramer, Jr., Walkersville, this week announced his candidacy to the Maryland House of Delegates, subject to the Democratic Primary in September. Cramer filed at the deadline with the Supervisor of Elections, Frederick. He is a graduate of Walkersville High School, Class of 1951 and has been a real estate salesman in the Walkersville area for the past two years. Cramer is the owner and operator of a large dairy farm in his area and has operated this business for 13 years.

The candidate is no newcomer to politics having run for the House in 1958 winning in the primary but losing the general election by a narrow margin of 200 votes. He is a member of the Walkersville Democratic Central Committee, the Frederick Junior Chamber of Commerce, Kiwanis International, Loyal Order of the Moose and the Walkersville Fire Co. Cramer has been active in county politics during the past decade and his father was a former County Commissioner. He is married and he and his wife Shirley, are the parents of three sons, Billy, 11, David, 10 and John, 6. He also is active in the Jeffersonian Democratic Club.

Firemen Kept Busy During Week

The Vigilant Hose Co. was called three times last week to answer field fires on two different days.

On Friday afternoon at 4:12

o'clock, the firemen were called to a grass fire in the rear of the Green Parrot Tea Shop.

At 5:45 p.m. Friday evening, the company responded to a trash fire at the home of Mrs. Valli Ryan South Seton Ave.

Chief Guy R. McLaughlin reported that the firemen were called Saturday morning at 11 o'clock to battle a blaze in a rye field at the farm of Carroll Wivell at Motter's Station.

The first thing the Emmitsburg firemen learned was that a field full of two-foot high rye stubble sends up a heavy black smoke that from a distance appears as if a barn were on fire.

The second thing they learned was that a field can be set afire by a deer. According to McLaughlin, a woman noticed a deer break through a charged electric fence and moments later the rye field was ablaze, apparently started by a spark from the broken fence. Rocky Ridge and Graceham Fire Companies stood by in readiness should the blaze become unmanageable.

Yesterday the Fire Co. was called to the farm of John Davis, Bollinger School Road where a field fire was in progress. Little damage was reported. The call was received around 11 o'clock.

State Insurance Ban Lifted

State Insurance Commissioner, Francis B. Burch, this week announced that he had lifted the suspension which he had imposed against Fidelity General Insurance Company of Chicago, Illinois back on February 24, 1966. The suspension was based upon a number of irregular incidents and improper practices which had been brought to the Departments attention and which had reflected adversely on the Company's continued ability to do business in Maryland.

One of the major causes for the suspension had been a growing number of complaints which the Department had received from attorneys and claimants concerning the company's claims and settlement practices. (Several of these practices were similar to those of companies which have gotten into financial difficulty in the past and could be considered symptomatic of a company in trouble. As Insurance Commissioner, I don't intend to wait until a company has been declared insolvent and the door is padlocked before I take the necessary action required by the Insurance Code to protect Maryland citizens," said Commissioner Burch.

Following the suspension, Mr. Burch had permitted a stay of his order after the company had agreed to post a \$300,000 indemnity bond to protect Maryland claimants and policyholders pending a Departmental hearing. At the hearing held on May 3, 1966 company representatives frankly admitted that a number of practices which it had engaged in were improper but placed entire responsibility on one of its vice presidents whose employment has since been terminated. In announcing the lifting of the suspension, Commissioner Burch said that he had imposed a number of conditions which the company has already indicated it has complied with. Among these conditions is one that requires the company to maintain the \$300,000 indemnity bond until July 1, 1967. The company will also be required to maintain on experienced, full time agent approved by the Department. Another condition imposed by Commissioner Burch requires the company to provide an experienced, full time underwriter to instruct and assist the company's personnel in Maryland for a period of at least sixty days. "I am satisfied that the company has taken a number of significant corrective steps which will eliminate the un-

satisfactory conditions which I found to exist when I suspended the company in February," said Commissioner Burch.

The company, which specializes in so-called substandard high risk automobile insurance was first licensed in May, 1964. At the time of its suspension, the company had some 2,700 policyholders involving written premiums of approximately ½ million dollars.

FBI Seeks This Fugitive

William Eugene Dixon is being sought by the FBI for unlawful flight to avoid confinement after conviction for robbery with a deadly weapon.

On Sept. 5, 1963, Dixon, while on parole for a 1951 armed robbery, allegedly robbed a man of \$80 at gun-point in Baltimore. A Federal warrant for Dixon's arrest was issued Nov. 27, 1963 at Baltimore.

Dixon, who has been employed as a laborer and a hospital orderly, has been convicted of robbery with a deadly weapon, manslaughter and larceny. He previously used a .32 caliber revolver in the commission of armed robberies, reportedly has suicidal tendencies and should be considered armed and dangerous.

Library Auction Successful

The annual public meeting on behalf of the Emmitsburg Public Library will be held on Thursday night, July 21, at 7:30 p.m. in the library. This is your opportunity to express an interest in the library and show some approval or disapproval of the way the library is serving the community.

The following Trustees go out of office this month: Mrs. Paul Beale, Mrs. Glenn Gillespie, Mrs. William Slemmer, Jr., and Mr. John White. Mrs. John Richards who has served as the Chairman of the Board this past year has asked to be relieved of her place on the board. A total, therefore, of five new members are to be elected or some reelected at this meeting. Other members whose term of office expires next year are Miss Ruth Shuff, Mrs. John Chatlos, Mr. Patrick McGucken, and Mr. Samuel Hays.

The Board members would like to take this opportunity to thank all those who helped with the Auction and Rummage Sale last week. A total accounting has not been made, but preliminary estimates put the income from the sale between \$130 and \$140. This is not enough to complete the purchase price of the proposed projector but it is a good step on the way. Any donations will be accepted with appreciation by the treasurer, Mr. John White.

The natural key in music is C Major; it has no sharps or flats.

Billiards were introduced into the U. S. by Spanish settlers in St. Augustine, Fla., in 1565.

Mrs. Hahn Seeks Delegate's Job

Mrs. Ruby V. Hahn, 115 Fairview Avenue, Frederick, has announced her candidacy for the Maryland House of Delegates subject to the Democratic nomination.

Mrs. Hahn has been active in Democratic Party affairs for a number of years and has held many offices in the Democrat Women's organization. She is a Past President of the United Democratic Women's Clubs of Maryland and also served as Western Maryland Chairman of this organization. She is a Past President and member of the Women's Democratic League of Frederick County and a charter member of the Jeffersonian Democratic Auxilliary. She was a delegate to the Democratic National Convention in 1964 held in Atlantic City. Mrs. Hahn was elected to the Democratic State Central Committee for Frederick County in 1958 and re-elected in 1962. She was appointed Vice Chairman of the State Central Committee of Maryland by Governor Tawes in 1959 and still holds this office. Mrs. Hahn was Chairman of the New Market Central Committee until she resigned this position upon moving to Frederick.

She is married to James R. Hahn and together they are the sole owners of H. H. Transportation Inc., New Market, Md., one of the largest trucking firms in Maryland, and of Hahn Transportation Inc. of Virginia, Richmond, Va. Mrs. Hahn holds the office of Vice President and Secretary of both corporations. She and her husband are very active in civic and community affairs. Mrs. Hahn is a Board Member of the Childrens Aid Society of Frederick County, a Board Member of the Salvation Army of Frederick County, an Auxilliary Member of the Frederick Memorial Hospital, the Charter President of the Ladies Auxilliary of the New Market Volunteer Fire Company, and a member of the Frederick Cedarets. Mr. Hahn is Chief of the New Market Fire Dept., a Past Zone Chairman of Lions International, Past President of Frederick Co. Firemen's Assn. Mr. Hahn is also a member of the Town Council of New Market. Mr. and Mrs. Hahn are both very active in Trucking and Business Associations and belong to a number of service clubs. Mr. Hahn is a member of the Board of Directors of The American Trucking Assn., and a Vice President of the Maryland Motor Truck Association. They are members of the Calvary Methodist Church and Church School of Frederick.

Mr. and Mrs. Hahn have two daughters, Mrs. Robert S. Windsor Jr., and Mrs. Huber V. Biser, both of Tulip Hill, Frederick. They have three granddaughters.

Lions To Picnic At Charnita

President Norman J. Shriver presided over the regular meeting of the Emmitsburg Lions Club held Monday evening in Mt. Manor Restaurant. The minutes of the previous meeting were read by Secretary Eugene Sappington and the treasurer's report was given by William Slemmer Jr.

President Shriver announced that all debentures owed by the Civic Assn. have been paid off and that the field now belong to the club. A \$3,000 payment for black-topping the race track at the Civic Grounds was authorized by the group. A thank - you note from a Thurmont family was received expressing appreciation for a \$25 donation the club made to the blind man's family. Ralph McDonnell, chairman of the club's Go Kart award, reported that the new Go Kart was awarded to Brooke Herring on July 4.

The Lions Club has on its hands a number of jumps and other paraphernalia used for the promotion of horse shows and is desirous of selling this equipment as the shows are no longer held here. Also a 40-foot tent is to be sold. Interested persons wishing to buy any of this equipment are asked to contact President Shriver. The club voted a \$20 contribution to help purchase ice boxes for the Vietnam orphans. The annual picnic of the Lions will be held at Charnita in August.

When horse racing was established on Long Island in 1664 it marked the beginning of the first organized sport in America.

SMITH REUNION

The 8th annual Smith Family Reunion was held at Cunningham State Park, Thurmont, on Sunday, July 10. Those attending were: Mr. and Mrs. Edward J. Mount Grad Aids Veterans

Patrick T. McGahn, Jr. the young Atlantic City attorney who is seeking authorization to lead a group of attorneys to Hanoi to defend American prisoners of war, graduated from Mount St. Mary's College in 1950. He attended the Georgetown Law School, but his studies were interrupted by service in the Marine Corps in Korea as a second lieutenant. After reassignment to the Europe-Africa area, he was honorably discharged and completed his law studies at New York University Law School. A few years ago McGahn

THIS NEW ANTENNA HAS WHAT IT TAKES FOR SHARP, BRIGHT PICTURES ON ALL NEW UHF CHANNELS 14 TO 83! PLUS VHF CHANNELS 7 TO 13!

- adapted from space satellite tracking antenna design, for home television
- engineered according to patented Log-Periodic LPV formula of the Antenna Research Laboratories of the University of Illinois

The new UHF Log-Periodic LPV uses the advanced antenna design of space satellites. It gives you the extra-strong, extra-clear signal you need on UHF for good color or black and white pictures. Made of solid aluminum rod, it never rusts, stands up under big snow and ice loads — gives you trouble-free reception year-in, year-out.

Beautifully gold alodized, it's a welcome addition to the roof of any home.

Call us and see what the new JFD UHF Log-Periodic LPV can do for you!

LICENSED UNDER ONE OR MORE OF U.S. PATENTS 2,958,081; 2,985,879; 3,011,168; 3,108,280 AND ADDITIONAL PATENTS PENDING IN U. S. A. AND CANADA. PRODUCED BY JFD ELECTRONICS CORPORATION UNDER EXCLUSIVE LICENSE FROM THE UNIVERSITY OF ILLINOIS FOUNDATION.

NOTICE

Due to flagrant violations by some consumers of the partial water ban, the Burgess & Commissioners are imposing immediately a water ban in accordance with Article 12, Section 18, of the Town Ordinances entitled Water, as follows:

"No water is to be used for purposes other than ordinary household use."

Any violation of this ordinance is punishable under the misdemeanor portion of the ordinances which states that the penalty may be imprisonment of up to six months or a fine ranging from \$1.00 to \$300.00.

We would like to again extend our thanks for the co-operation received from most consumers and regret that it has become necessary to impose this regulation for the violations of a few individuals.

BURGESS & COMMISSIONERS

NOTICE

Effective immediately, persons trespassing on any portion of the Emmitsburg Water Shed, including Rainbow Lake, will be prosecuted.
