Most Anything At A Glance

- By Abigail -

Well our big parade is over for another year and I suppose everyone is happy over the event, with the possible exception of those who didn't win any prize money or trophies to take back home. It looked mighty bleak for several hours before the parade when cloudiness set in and rain threatened, and then it finally poured down and continued almost up to parade time. Unquestionably the rain deterred many spectators and participating units from coming to Emmitsburg. Some of these had to come from Baltimore and many decided to forget about it long before the parade time. However, despite it all, the Parade got under way, everyone who was here failed to get wet and everybody seemed genuinely happy. Traffic and Parade details were handled smoothly and efficiently by local, State, Fire Police and as usual a fine job of assisting was done by the Adams County Fire Police Assn., which has helped us these many years. A job well done, fellas, and thank you all for what you contributed to dear ole Emmitsburg!

A violent electrical storm ripped through the area last Friday and several fires were started in neighboring towns by strikes of lightning. We were fortunate here in Emmitsburg. The most damage, caused by the storm, I have been told, was to the steeple on the Lutheran Church. A strong bolt of lightning blasted the steeple and it is believed it was heavily damaged. At least a first casual inspection indicated this. No fire resulted, thank the Lord, and there was little other damage reported caused by the storm.

Residents living around the Square area are getting fed up with the noise made by teenagers. Several times this week, young girls, using profane language, yes, and sad to say, some choice four-letter words, have roused quite a number of individuals from their sleep as late as two o'clock in the morning. It is surprising to hear of young girls behaving like this and it is high time parents check to see where their children are at this hour of the morning, before they become involved in some serious trouble with the law. One of these nights the whole gang will be rounded up and transported to Frederick to face juvenile authorities. Therefore, folks, have you checked the whereabouts of your youngsters, both male and female, lately?

Many residents became alarmed this week when they heard stories about dead fish in Rainbow Lake, our main reservoir. These rumors were found to be true as an investigation revealed. As a matter of fact, it was estimated that there could be several hundred dead bluegills floating around. Speculation has it that copper sulphate, used to control algae, sometimes has this effect on young bluegills and sunfish and it was learned that a quantity of this chemical had been used in the reservoir earlier this week. The dead fish were mostly young bluegills. Every effort is being made to rid the lake of dead fish and there is no possible way the chemical can harm human beings as it has to go through the modern filtration plant, so there is no cause for alarm folks, the matter will be cleared up possibly before this paper hits the streets Friday.

VFW AMBULANCE

Mrs. Mary Sullivan, Emmitsburg, Marvin E. Holden, Waynesboro, Charles Hobbs, Sr., Fairfield R2, were transported this week to the Warner Hospital, Gettysburg, via the VFW ambulance. Sister Geraldine, St. Joseph's Provincial House, was taken to Providence Hospital, Washington, D. C., and John Warthen was returned to his home here from the University Hospital, Baltimore, in the vehicle. Drivers were Leo Michael Boyle and James Kittinger.

Annual Parade Draws Thousands Here; Various Prize Winners Are Announced

Although hampered by a continuous downpour early Saturday afternoon, the annual Frederick County Firemen's parade in Emmitsburg was held with 87 of its expected 118 units taking part.

The parade was held up for nearly a half hour before it started under cloudy skies, led off by Maryland Congressman J. Glenn Beall, Pr., parade marshal.

Approximately \$830 in prizes was awarded to 22 competitors in the contests.

Among the top recipients were the Stardettes majorettes of Lansdowne, who captured the Emmitsburg Sportsman trophy for the second year and won a first place \$75 in the majorette competition. The trophy is awarded on a yearly basis to the top group in the parade and any unit that wins it three years is allowed to keep it permanently.

Among the other majorette winners were Accents of Middletown, second, \$50; Toppers of Baltimore, third, \$30; Twirlettes of Frederick, fourth, \$20, and the Highlighters of Frederick, \$10 for fifth place. All the groups also received trophy awards.

In the best appearing drum and bugle corps, Hamilton Junior Knights of Baltimore captured first place, \$200, with the Bethesda Chevy Chase Optimists second, \$100, and Virginia Lancers, Winchester, Va., third, \$75.

In other categories: Upper Montgomery County Ladies' Auxiliary won for the best appearing ladies' marching unit; Accents of Middletown and Bethesda Chevy Chase majorettes, first and second place trophies respectively for best appearing color guards; Walkersville Fire Co. and Greencastle Fire Dept. marching units, first and second place in the marching units; Halfway, Mt. Airy, and Middletown, first through third prizes for best appearing apparatus; Upper Montgomery and Damascus, first and second place for companies traveling the longest distance.

Thurmont had the oldest motorized fire apparatus with their 1928 Mack truck; Youth Fellowship of Rocky Ridge and United Fire Co. of Frederick, took first and second for best appearing floats and two unidentified clowns won the prize for the most comical entry.

Eugene Myers, parade chairman, said that several hundred dollars in band prizes were not awarded since competing bands cancelled their entry due to the rains.

Both the Emmitsburg Municipal and the Catocin High School Bands participated but were not in the competition.

Guy A. Baker Jr., acted as master of ceremonies on the judges' stand. The parade included several local and county fire officials.

An interesting float in the line of march was that presented by the Emmitsburg Boy Scouts.

An unidentified Drum & Bugle Corps was one of the really outstanding units in the line of march.

Home Town talent, the Emmitsburg Municipal Band, struts proudly by the Square during Saturday's big Parade.

Baseball Game To Aid Ill Boy

On Saturday evening at 6 o'clock, there will be baseball game played between a Little League team of Emmitsburg and Fairfield, Pa., for the benefit of Mr. and Mrs. Ralph Sharer. Their son is in the hospital with leukemia and the game will help defray transportation expenses. They must travel daily to Washington, D. C.

Donations of hot dogs, rolls, soft drinks, cup cakes, etc., are being sought for a sandwich stand. Everyone is urged to attend this event, which will be played on the Emmitsburg Little League field.

ALL-STAR GAME SUNDAY

The annual All-Star Softball game of the Frederick - Carroll Fastpitch Softball League, will be held Sunday evening at 6:30 on the Johnsville field.

College Promotes Faculty Member, Sister Denise Eby

Sister Denise Eby, D.C., chairwoman of the department of natural sciences and mathematics at St. Joseph College, has been advanced from associate professor to professor of chemistry, it was announced by Sister Margaret Dougherty, president of the college.

Sister Margaret noted that Sister Denise was awarded the Ph.D. degree in biochemistry on June 5 by the University of Maryland at the Civic Center in Baltimore.

Teaching part-time at the Emmitsburg campus during the last year, Sister Denise commuted weekly to the University's School of Medicine campus in Baltimore as a part-time student writing her thesis. From 1966-69, she attended the University as a predoctoral fellow with a National Institutes Health traineeship for research on carbohydrate enzymes for her doctoral dissertation, "Studies of Glycerolaldehyde-3-phosphate Dehydrogenase."

A native of Baltimore, Sister Denise is a graduate of St. Joseph College, receiving in 1939 a B.S. in chemistry from the department which she now heads. In 1953 she was awarded the master's degree in chemistry by the Catholic University of America.

From 1939 to 1950 Sister Denise taught science in secondary schools. Since 1950 she has been a full-time member of the faculty at St. Joseph College. From 1960-64 Sister Denise was Director of an Undergraduate Research Participation Program in chemistry funded by the National Science Foundation. As a guest worker in a National Cancer Institute laboratory at NIH in the summer of 1965, she did research in a study of lipids.

In 1965, Sister Denise was awarded the Pope John XXIII Medal for outstanding service to the lay apostolate program by Lawrence Cardinal Shehan of Baltimore. She was cited for her work at St. Joseph's which produced more lay volunteers and PAVLA than any other college in the Archdiocese of Baltimore.

Sister Denise is a member of the American Chemical Society, the American Assn. for Advancement of Science, and the Middle Atlantic Assn. of Liberal Arts College Chemistry Teachers. She is listed in American Men of Science, Who's Who of American Women, and Community Leaders of America.

The author of several publications in her field, her doctoral dissertation will be published by University Microfilms.

Road Contract To Be Let Soon

The State Roads Commission is seeking bids on the construction of a roadway which will connect the new overpass bridge at Rts. 97 and 15 in East Emmitsburg. The bridge contract already has been let and is now well under construction. The new bid would grade, drain, and pave relocated Md. Rt. 97, beginning .28 of a mile east of Rt. 15 and continue westwardly to intersection with existing Md. Rt. 97 at Flat Run Creek for a distance of .518 of a mile. The bids are due in by June 23.

Mr. and Mrs. John Fuss, Emmitsburg, are visiting Mr. Robert W. Fuss and family, in Glendora, Calif. They are making the trip by bus.

Mr. and Mrs. J. Alan Gelwicks have returned home here after a two-week vacation trip through the mid-western states.

YOUNG MAN KILLED BY CAR AT ZORA

A 21-year-old Orrtanna pedestrian was killed instantly and a companion was injured when they were struck by a Waynesboro motorist on Route 16, two miles west of here at 1:10 a.m. Monday.

Pennsylvania State Police identified the deceased as Timothy Lee Sites, 21, Orrtanna. Sites was pronounced dead at the scene by Deputy County Coroner Robert S. Lefever who gave the cause of death as a fractured neck.

One of Sites' four companions, Charles R. Smith, 20, Waynesboro R5, was admitted to the Warner Hospital for observation and is listed in satisfactory condition following x-rays and treatment for lacerations of the forehead and abrasions of the left knee.

The driver of the car, Marvin Eugene Holden, 21, 101 Linden Ave., Waynesboro, was treated at the Warner Hospital for abrasions of the hands. Both Smith and Holden were removed to the hospital in the Emmitsburg VFW ambulance.

Two other pedestrians who were with Sites and Smith were Smith's brother, Richard, 22, Waynesboro R5, and Russell Contley, 21, Fairfield R2. All four men were hitchhiking to the Waynesboro area after their car had become disabled south of Frederick while they were "riding around." Contley said they had hitched a ride from Frederick, arriving at Emmitsburg about midnight.

State police said that Holden's westbound car rounded a curve on Route 16 and struck Sites and Smith, who were along the north edge of the road. The impact of the collision hurled Sites onto Holden's auto where he was carried for 77 feet until the auto flipped over. It came to rest on its wheels but threw Sites another 100 feet onto the south berm of the highway. Holden's auto continued skidding sideways and struck a United Telephone Company pole off the south berm of the road before coming to rest on its left side adjacent to Weston Shank's feed mill office.

Damage to Holden's 1955 DeSoto was estimated at a total loss.

Members of the Vigilant Hose Co. of Emmitsburg stood by with their pumper truck because of the threat that gasoline spilling from Holden's wrecked auto might ignite. They also assisted state police with portable lights for road measurements and photographs being taken at the scene.

Fire Companies To Sponsor Hillbilly Show

A full complement of country and western stars from the Nashville Grand Ole Opry, will be featured during the first firemen's Country Jamboree being sponsored Saturday evening, August 8, at the Mt. St. Mary's College gymnasium by the Emmitsburg and Thurmont Fire Companies.

Among the top stars will be Conway Twitty and his Tennessee Walkers, Jack Blanchard and Mitzi Morgan, recorders of the popular Tennessee Birdwalk, Don Gibson, Don Lowe and the Commanders, and Hugh X. Lewis.

Performances will be at 6 and 9:45 p.m.

Tickets are currently on sale from any Emmitsburg or Thurmont firemen or at Mac's Barber Shop or Myers Radio and TV Shop in Emmitsburg.

TOPPER REUNION SUNDAY

The annual reunion and picnic of the Topper family will be held Sunday, June 14, at the Big Pipe Creek Park. This is located back of Rainbow Roller Rink and Bowling Alleys on Rt. 32, east of Taneytown.

Guests are expected from South Carolina, Pennsylvania, Maryland, Washington, Silver Springs, California and all surrounding areas.

Friends of the family are most cordially invited. Hours are 1 p.m. until 7. The reunion and picnic will be held at Pavilion #2.

Soldier Transferred

SP/4 Ralph C. Ohler, Jr., has transferred from Bad Aibling to Heryogenaurach, Germany. The soldier was promoted to corporal Feb. 6, 1970 and is serving a three-year tour of duty in Germany at the present time.

Friends may write him at this address: SP/4 Ralph C. Ohler, Jr., 214-48-4913, Det. K, Co. A, USASAFS, Heryogenaurach, APO 19352, N.Y., N.Y.

Miss Rebecca Keilholtz Wedded To Bernard Thompson June 6

Miss Rebecca Lee Keilholtz, daughter of Mr. and Mrs. Ralph Lee Keilholtz, Emmitsburg, became the bride of Bernard Charles Thompson, son of Mr. and Mrs. Thaddeus R. Thompson, Rocky Ridge, Md., on Saturday, June 6, at a double ring ceremony performed at 11 a.m., in St. Joseph's Catholic Church, Emmitsburg, by Rev. Carl J. Fives, of Mt. St. Mary's College.

The bride was given in marriage by her father. Her attendants were: Maid of honor, Miss Mary Ann Keilholtz, Emmitsburg, sister of the bride; Miss Rita Thompson, Rocky Ridge, sister of the groom; Miss Marolyn Keilholtz, Emmitsburg, cousin of the bride; Miss Susan Peters, Towson, Md., cousin of the bride; Miss Sandra Yingling, Gettysburg, and flower girl, Miss Sally Morningstar, Emmitsburg.

The bride wore an A-line gown of white organza with caplet of re-embroidered alecon lace and seed pearls gently falling from her shoulders with a detachable chapel train which swept the waistline with appliques of alecon lace. The shoulder-length veil of silk illusion was attached to a cap of alecon lace and ribbon bows. She carried a cascade bouquet of white mums and pink sweetheart rosebuds.

The honor attendant wore a princess style gown with short puff sleeves of strawberry pink

Lions Postpone Public Auction

Milton A. Sewell, president, presided over the regular meeting of the Emmitsburg Lions Club held Monday evening at Mt. Manor Restaurant.

The reports of Secretary William H. Kelz and Treasurer Floyd L. Lewis, were approved as presented. Lion Floyd Lewis, who was to have projected a film, announced that the film had not arrived and therefore would be shown at some later date.

The club decided to table for the time being, the planned Community Auction, for June 19. The president reported that the prospective purchaser of the Civic Grounds still had another week to exercise his option on the sale of the ground east of Emmitsburg, which consists of 10 acres.

Free Measles Shots Here

Free rubella shots, for German measles, will be available to children 1-12 years of age at the Emmitsburg Health Clinic on June 19.

The Frederick County Health Dept., which sponsors the clinic, said the shots will be administered between 9 and 11 a.m. on the above date, at the American Legion building.

Child Seriously Injured In Fall

A 2½-year-old Emmitsburg girl is in serious condition at York General Hospital with head injuries suffered in a fall from a third story window in the Beagle Apartments about 7 o'clock Saturday evening.

The victim, Elizabeth Cunningham, daughter of Mr. and Mrs. Larry Cunningham, Emmitsburg, was playing on a bedroom window sill in her parents' apartment when she fell through a loose screen and plunged to a concrete sidewalk, striking the left side of her face.

She was removed to the Warner Hospital, Gettysburg, in the Emmitsburg VFW ambulance and was later transferred to the York Hospital's intensive care unit via the Gettysburg Fire Co. ambulance.

According to reports, a six-year-old child playing outside witnessed the girl's fall and told her parents.

Purchase House

Mr. and Mrs. John J. Hollinger have purchased the former Valerie Kraemer property located on S. Seton Ave. The building was sold at public auction last Saturday.

Everyone is willing to help the other fellow if he has the money to pay for it.

Frederick County Backgrounds

By SAMUEL CARRICK
They Went to School at
Thorndale

Thorndale School flourished well over 100 years and the "young ladies" who attended there have long since returned to the dust from which they came. They were born, they lived, and they died, the sure fate of all mankind. Their lives are of interest, however, for in the majority of cases they married, bore children and thus became a link in the long history of man. They handed down their heritage, in part, to the generations immediately following them and to others yet unborn. This is, to use a poetic term, the "gold of ancestor dust" and cannot be discounted—even in this day and age.

The list of pupils who attended Thorndale School, as copied from the original record book, is continued at this time, as follows:

May 1848—Rebecca Boyd, Hagerstown, Md.—Left October 1849.

May 1848—Mary Brannan, Baltimore, Md.—Left October 1849.

May 1848—Louise Miller, Baltimore, Md.—Left October 1849.

May 1848—Sally Crawford, Marsh Creek, Adams County, Pa.—Left October 1854.

Note: Sally Crawford was a sister of Ann Crawford, who also attended Thorndale. Both were daughters of John F. Crawford, Esq., a prominent citizen of Adams County, Pa. Mr. Crawford was twice married, his first wife being a daughter of the Rev. Dr. William Paxton. It will be remembered that Dr. Paxton was, for a time, the pastor of Tom's Creek and Piney Creek Presbyterian Churches.

May 1848—Caroline McCleavy, Frederick, Md.—Left October 1849.
November 1848—Ann Winchester, South River, Md.—Left October 1849—Died January 1862.
November 1848—Prudence Winchester, South River, Md.—Left April 1850.

Note: Although the record fails to mention any relationship between Ann and Prudence Winchester the fact that they both came from South River, Maryland, clearly establishes a family connection. They may have been sisters or cousins—at this late date exact relationship cannot be determined—but they were related.

May 1849—Sarah Bowles, Baltimore, Md.—Left April 1851.

May 1849—Maria Whittington, South River, Md.—Left Oct. 1850.

May 1849—Mariam Hote, Cumberland, Md.—Left Oct. 1849.

May 1849—Eugenia Hammond, New Market, Md.—Left Apr. 1950.

Note: The Hammonds were and are a prominent Maryland family and all were descended from a common ancestor—Major General John Hammond, whose grave is to be found in Saint Ann's Episcopal churchyard, Annapolis, Md. The Hammonds owned two large estates near New Market—"Black Castle" and "Peace and Plenty." The family burial ground on the "Black Castle" estate has been moved to the cemetery at Liberty but the one at "Peace and Plenty" is still at the original site and possession thereof is retained by the Hammond family.

May 1849—Meliora Ridout, of Broad Neck, Md.—Left October

1850—Died May 1853.

Note: The Ridout family estate, famous in the history of Maryland, was and is known as "White Hall." There is a family graveyard on the land but all of the graves are unmarked—not from neglect—but because of family desire. It is reasonable to assume that Meliora Ridout is interred in this burial ground.

November 1849—Amelia Yager, Baltimore, Md.—Left Oct. 1850.

November 1849—Rebecca Cushing, Baltimore, Md.—Left Oct. 1850.

November 1849—Elizabeth Naylor, Washington, D. C.—Left April 1854.

November 1854—Fanny Shriver, Cumberland, Md.—Left Apr. 1851.

November 1849—Margaret J. Thomson, Frederick, Maryland—Left June 1851.

November 1849—Margaret Atlee, New Windsor, Md.—Left October 1850.

Note: As stated in an earlier column the Atlee family in America first settled in Pennsylvania but at a later date one branch of the clan emigrated to Frederick County, Maryland. They settled in New Windsor and are there interred in the old Presbyterian churchyard. It is interesting to note that members of this family helped to found the Presbyterian congregation at New Windsor and the organization meeting was held in the old Greenwood Schoolhouse.

November 1849—Ellen Williamson, New Windsor, Md.—Left April 1852.

May 1850—Helen Bridges, Baltimore, Md.—Left Oct. 1850.

May 1850—Elizabeth Rieman, (1st time), Baltimore, Md.—Left October 1851.

May 1850—Betty M. Sherrard, Jeff Cova, Md.—Left Oct. 1851.

November 1850—Ann E. Hess, Jeff Cova, Md.—Left April 1852.

November 1850—Julia B. Kint, Washington, D. C.—Left October 1853.

November 1850—Fanny Ensey, Baltimore, Md.—Left Oct. 1851.

November 1850—Maria Fahnestock, Baltimore, Md.—Left Oct. 1851.

November 1850—Mary Corner, Baltimore, Md.—Left April 1851.

November 1850—Mary A. Dukehart, Baltimore, Md.—Left Oct. 1853.

November 1850—Isabella Boggs, Petersburg, Pa.—Left April 1851.

November 1950—Frances Jarboe, Frederick County, Md.—Left October 1851.

May 1851—Ann Waters, Frederick County, Md.—Left July 1852.

May 1851—Agusta Slingluff, of Baltimore, Md.—Left Oct. 1852.

May 1851—Catharine E. Sauerwein, Baltimore, Md.—Left Oct. 1851.

May 1851—May Daily, Baltimore, Md.—Left October 1851.

May 1851—Mary Clark, Fairfield, Pa.—Left April 1853.

Note: A Presbyterian minister, the Rev. Mr. Clark, was, during this period the pastor of Lower Marsh Creek Presbyterian church, located near Fairfield, Pennsylvania, and it is quite possible that Mary Clark was his daughter.

ter. If so—the mother of this girl is interred in the Lower Marsh Creek Presbyterian churchyard.

November 1851—Anna Young, Washington, D. C.—Left October 1853.

November 1851—Ann Warfield, Baltimore, Md.—Left Oct. 1852.

The listing of the scholars who attended Thorndale School, located near Taneytown, Maryland, will be continued in this series next week.

Sixes Dam Hearing Set

The \$20.5 million Sixes Bridge Dam proposal will return to Senate Subcommittee next Tuesday when the National Parks Association and four or five major conservation groups voice their opposition to the project in a new series of public hearings.

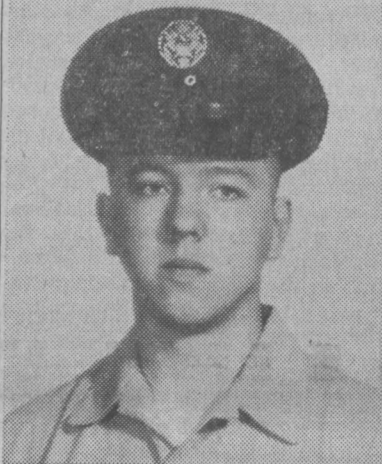

The hearings, scheduled for 10 a.m. in room 42 of the New Senate Office Building, will be chaired by Senator Jennings Randolph (D-W. Va.) of the Senate Subcommittee on Public Works. The subcommittee will hear opposition from the Audubon Association, the Sierra Club, the parks association, and several other groups which will object to the pending Omnibus Public Works Bill.

The bill consists of a proposal for a series of six new reservoirs on the Potomac River which would increase water supply, aid economic expansion and provide recreational facilities in the surrounding areas.

The Sixes Bridge Dam would be constructed on the Monocacy River, southeast of Emmitsburg.

The project would displace some 70 families, three commercial establishments, and would require the relocation of about 4.5 miles of roads. It will, if constructed, take four years to build.

Completes Basic

Airman Michael E. Selby, son of Mr. and Mrs. Carroll E. Selby, R2, Taneytown, has completed basic training at Lackland AFB, Texas. He has been assigned to Sheppard AFB, Texas, for training in aircraft maintenance. Airman Selby is a 1969 graduate of Francis Scott Key High School, Union Bridge.

INCOME TAX TIPS

Ten weeks from the date a Federal income tax return calling for a refund is mailed, the taxpayer should have either his check or a letter explaining why it is held

up, Irving Machiz, District Director of Internal Revenue for Maryland and the District of Columbia, said this week.

A taxpayer who has not heard about his refund should, therefore, wait ten weeks before writing IRS. Most taxpayers will find their inquiry unnecessary if they wait this long, Mr. Machiz said.

Millions of tax returns are handled every filing season at the Mid-Atlantic Service Center which serves Maryland and District of Columbia taxpayers. That many returns makes it practically impossible to locate a particular return and to answer any question about it until processing cycles are complete.

If it does become necessary to write, the taxpayer should indicate where and when he filed his return and give his name, address and Social Security number, Mr. Machiz said.

The most widely used coinage material in the world—an alloy of 75% copper and 25% nickel—is used in more than 270 denominations circulating in 94 countries. The United States has used this alloy for its five-cent piece since 1866.

Combats Pollution From Autos
By Babson's Reports Incorporated, Wellesley Hills, Mass.,

June 11, 1970—President Nixon has made a commitment on behalf of consumers to reduce substantially the level of pollutants in our environment. Since the automobile is a prime contributor to air pollution, the major producers of cars and trucks are on the spot. They will have to come up with workable answers to the problem. Reliable estimates indicate that petroleum-fueled vehicles produce from 50% to 80% of all the air pollution we breathe every day.

Government Pressures
Many states are moving ahead rapidly in terms of research and proposed regulations. California, long a pace-setter in enacting and enforcing rules for auto safety, has once again come to the fore, this time with specific methods of controlling exhaust emissions and preventing discharge of poisons into the air. The federal government, to a considerable degree, is taking parallel action toward establishment of compulsory legislation in this critical field.

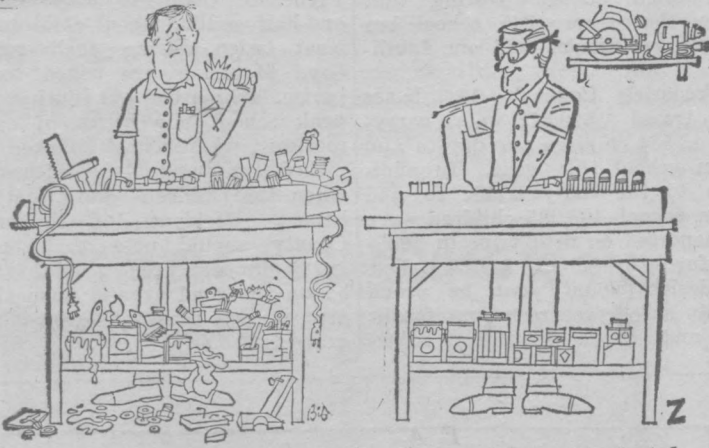

Pollution-Free Engine
General Motors, in a co-operative research venture, has been working on a revolutionary engine powered by a silent, vibration-free, pollution-free plant "that will run on anything from alcohol to salad oil." But GM does not think it will ever replace the internal combustion engine in cars. The company is making available for pre-1966 model cars a device which significantly reduces air-fouling emissions. The suggested retail price, after certification permits commercial distribution, is \$9.95 plus installation charges.

High School Students Presented Awards
Frank Bocherding of Westminster Senior High School, captured first prize at "Environmental Problems Nite", held recently at St. Joseph College. His presentation entitled "Stream Water Pollution Survey" graphically detailed a pollution survey taken of a Westminster stream.

Other participants included: Cristina Wright, St. John's High School, Frederick, received first prize in the college category with her entry, "Oh Say Can You See", an impressionistic view of the problem of environmental pollution.

Judging students for their originality of approach, coherence in development and poise in presentation were: Harold J. Maloney, Chairman of the Education Department at St. Joseph College; Sr. Marcella Scully, SJC Biology Department; Anthony J. Becker, John Fahey, and Philip Haney, ecology students at Mt. St. Mary's College; and Rosemarie Aulisio, president of Theta Phi Chapter of Beta Beta Beta Biology Honor Society, the sponsoring organization.

Power Tool Quiz

There are many do's and don'ts when working with electric power tools. Mistakes often end up in mishaps and can be serious. Take the following quiz offered by the Power Tool Institute and see if you're the do-er or don't-er.

1. When using electric tools, it is safe to stand on wet ground or grass—as long as you wear rubber footwear. **T F**
2. If your power tool plug has three prongs and the outlet is a two prong model, the third prong can be removed to fit. **T F**
3. The cord on a power tool is made so that it can double as a handle or hanger. **T F**
4. The proper place for the electric hedge trimmer cord is over the shoulder when cutting. **T F**
5. Double insulated power tools and those with three-prong plugs are equally safe. **T F**

ANSWERS:
1. NO. Always wait until the ground is dry!
2. NO. The tool will not be grounded without the prong.
3. NO. Never put unnecessary pressure on the cord—it can loosen its connections.
4. YES. This will prevent you from accidentally cutting it.
5. YES. Double insulated tools and three-prong grounding systems help to prevent the possibility of electric shock.

The U. S. government is now testing natural gas or compressed gas in some of its Government Services Administration fleets. In results released thus far, cars using natural or compressed gas give off only an estimated 10% of the noxious fumes emitted by gasoline-driven vehicles. Currently, the major producers of cars and automotive fuel are involved in a controversy over the use of lead in gasoline, which is partly responsible for hydrocarbons released by the internal combustion engine. Unleaded gas, on the other hand, entails manufacturing ramifications and increased associated costs to the auto maker, and ultimately to the consumer.

Ultimate Fuel System
Bendix Corporation's fuel injection system appears to have good potential in the anti-pollution fight. This electrical method can allegedly cut down on the pollutants ejected by approximately 10%-15%. It is the hope of Bendix Corporation to see its system replace carburetors on "many" cars by 1975, but it is possible that it will debut as optional equipment on U. S. autos by 1972 or 1973.

While the ultimate system will almost inevitably depend on the outcome of the controversy over leaded gas vs. unleaded gas, there will be in the meantime a spate of trial systems. Echlin Manufacturing has developed a new exhaust emission control product which helps reduce air pollution from cars and trucks. This device is a special

teflon-coated positive crankcase ventilator valve (PCV) which helps to prevent valve clogging, one of the outstanding causes of atmospheric pollution. Other manufacturing concerns have under development various exhaust recycling and pollutant "trap" devices.

satisfactory operating condition. These systems, whether added to the older vintage autos or factory-installed by auto makers, will have an immediate and significant effect on the level of pollutants attributable to the automobile. In any event, the Research Department of Babson's Reports feels the commitment to clean the air will be carried out — by revising the fuel, the engine, or both.

"But, Henry, what is there to do on a Southern Maryland vacation?"

Frederick Observing 225th Anniversary

In observance of the City of Frederick's 225th anniversary, a pageant depicting important events in the city's history will highlight the third annual Bell and History Days activities in Frederick this week.

Bell and History Days — expanded from a single day in the past—was especially rescheduled from the last weekend in April to this Saturday and Sunday in order to coincide with a week commemorating the 225th anniversary of the city's founding. The city was founded by Daniel Dulane on June 8, 1745.

Tours of the city's many splendid 18th and early 19th century churches, homes, and public buildings with costumed hostesses has in the last two years been the

popular focus of Bell and History Days. Such tours will again be offered on Saturday and Sunday from 1 until 5 p.m., but there will also be an art exhibit at Memorial Park on Sunday at 1 p.m. and the pageant in the bandshell at Baker Park Thursday, Friday and Saturday evenings at 8:30 p.m. The pageant was especially written for the 225th anniversary by Mr. Joseph Turner, a long-time Frederick resident.

Bells of the famed clustered spires of Frederick, described by the poet John Greenleaf Whittier in his ballad "Barbara Fritchie", will peal intermittently throughout Saturday and Sunday. Demonstrations of crafts of bygone days will be offered throughout the weekend, and displays of the works of these craftsmen will be featured in store windows.

Among the homes open will be the Barbara Fritchie house and the home of famed 18th century jurist Roger Brooke Taney.

Let's Go Fishin'
BY BOB BREWSTER
Outdoor Editor, Mercury Outboards

MOST POPULAR FISH
At this time of the year, anglers everywhere are thinking about catching bass. Whether largemouth or smallmouth, old "inch for inch, pound for pound, the gamest fish that ever swims" is America's most popular game fish species.

And no wonder! For bass are found practically anywhere in the nation, and a certain amount of skill and patience is needed to catch them.

The most popular member of the bass group, according to information from the fishing experts at Mercury outboards, is the large-mouth black bass. At home both in stream and lake, the bigger fish are almost always found in impoundments.

Smallmouth black bass, also found in lakes and streams, are distinguished from largemouth by the length of the lower jaw — it never comes beyond the eye when closed.

Bass are actually members of the sunfish family. Like sunfish and bluegills, they make round spawning beds in shallow water. At this point, however, bass differ from many other fish. After the male has prepared the nest by using his tail as a sweep to clean all debris from small gravel, the female lays eggs which are then fertilized. Mama bass then leaves her progeny, and the male bass begins the arduous task of guarding the nest.

The best time to catch bass is early in the season, and again when the cooler weather of autumn has arrived. Both largemouth and smallmouth bass have big appetites. They eat water insects, minnows, crickets, grasshoppers, crayfish, hellgramites, frogs, small mammals, and almost anything within reach.

During summer, bass feed the most in early morning and late evening. Largemouth bass like to feed in shallow water; smallmouth prefer to work gravel bars of swift streams or around underwater banks in northern lakes.

Bus Statistics

Released

One of the largest traffic signs in our nation is the yellow school bus. In traffic sign language, yellow means caution. The yellow point, scientifically selected for school buses because of its high visibility, is technically known as "national school bus chrome yellow." It has been the legal color for all school buses in the State of Maryland since September 1, 1949. The meaning of this big traffic sign is well understood by motorists—Drive Cautiously—Children's Safety Ahead.

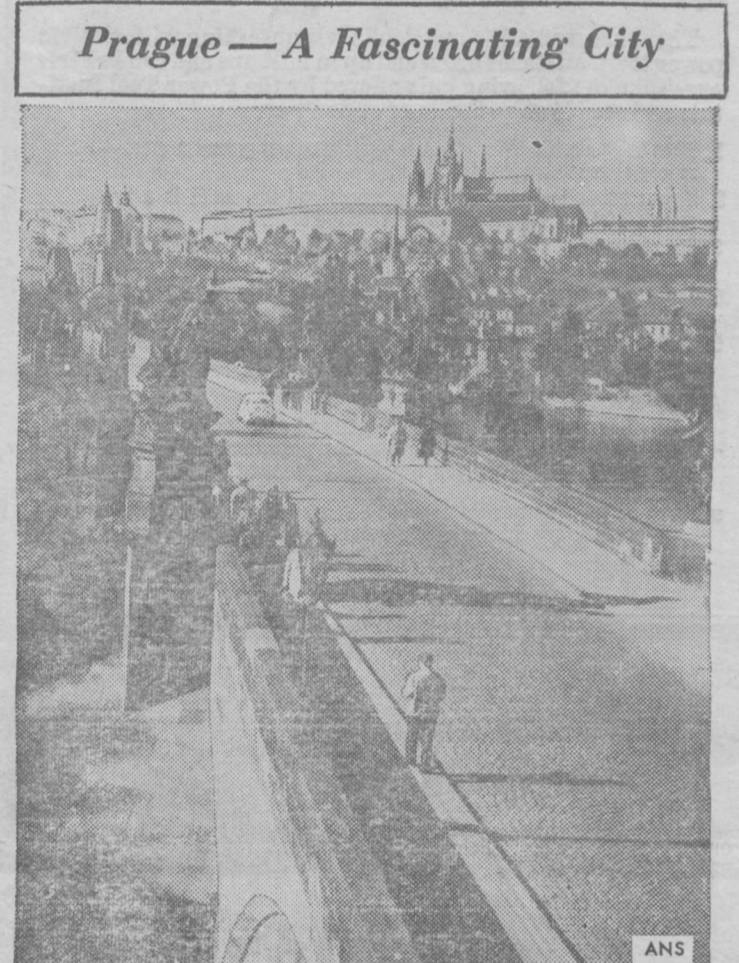

In the school year 1968-69, 4,235 public school buses in Maryland traveled about 44 1/2 million miles carrying 384,462 pupils to and from school. During that time, there were 245 school bus passenger injuries and one fatality.

Frederick County's 194 buses will travel 1,878,312 miles carrying 13,534 children per day to and from school this year. In addition to the daily traffic to and from school, 103,286 children were transported on field trips in 1968-69 for a total of 89,780 miles. Frederick County can be proud of its safety record of no fatalities and only a few minor injuries.

ies. According to a special bus report from the National Safety Council, school bus drivers carry more passengers than any other transportation system—and with greater safety! The school bus is 62 1/2 times safer than your car. But school transportation officials still press to improve their record; through bus driver courses, safer practices, and education of the public. Frederick County bus drivers recently attended a safe driving seminar conducted by the State Department of Education.

Of the 13,534 county children transported to and from school daily, 12,994 are taken to public schools and 540 to parochial schools.

This year in Maryland over 5,000 school buses (194 of them in Frederick County) carry almost one-half million school children at least twice during each school day. Motorists are urged to be particularly observant during the peak school bus hours of early morning, when school children are picked up, and late afternoon when the children return to their homes. Residents of Frederick County should note that buses carry kindergarten children will be on the road around noon time next year if the kindergarten program is funded.

Prague — A Fascinating City

Few cities in the world compare to Prague, Czechoslovakia, — a city unique for its exciting past and fascinating present. A walk through the streets of this 1,000 year old city is like a journey through different periods of history. Fortunately undamaged during the Second World War, many parts of Prague look much the same today as they did in the 17th Century and a visitor from the New World is enthralled to find that so much remains of the romantic Old World that he has read about and yearned to see.

A visit to Prague, or any part of Czechoslovakia, for that matter, is not a difficult task. Visas are granted promptly and cost only about \$4.00 per person. Your travel agent can easily arrange for a visa for you. Costs in the country are generally less than anywhere else in Europe, with a deluxe hotel room and three full meals a day averaging about \$20.00. Sightseeing tours, transportation, even rental cars are similarly inexpensive. Two of the best bargains in this culturally rich area are the opera or concerts where the best seat in the house costs no more than \$3.50.

The national air carrier of Czechoslovakia, called CSA, Czechoslovak Airlines, starts direct air service between New York and Prague in May, 1970, thus making it easier than ever for an American to visit this wonderfully unusual country. And don't forget Czechoslovakia is not only Prague. Interesting cities and towns in the regions of Bohemia and Moravia also beckon and since the country is relatively small, an American can travel throughout the country in just a few days and have tales to tell for years to come.

County Farm Bureau Opposes Legislation

The Frederick County Farm Bureau, at its recent board meeting, went on record as refuting

the stand of the Maryland Farm Bureau regarding House Bill No. 1090, recently passed by the General Assembly. The county Farm Bureau is urging members who oppose the bill to circulate peti-

VEGETABLE GARDENING IS 'IN'

Vegetable gardening has become fashionable because of the obvious advantages it offers: full-flavored produce at low prices with family fun and healthy occupation as bonuses.

Vegetable gardening's back in style for the first time since World War II. Retail sales of vegetable seeds have risen and the gardener who boasts of having the first ripe tomato on the block is with us once more.

Why the boost in growing vegetables? Many reasons. First, the human need to return to the soil. Second, more leisure time gives people a chance to do what they want. And one of their high priorities is to garden.

Third, home grown vegetables taste as no store-bought ones ever do. They're delicious! The classic example of what happens to a vegetable in handling is sweet corn's great loss of sugar from the moment of picking. Only the home gardener can have the water boiling before he picks the corn and thus taste its full flavor.

Reasons four and five are bonuses. Spending time outdoors is beneficial to the body; tending a vegetable garden calms the nerves. And children love to grow vegetables, thus the garden becomes a family affair. There's no generation gap in a garden.

The sixth reason is that a vegetable garden small enough so you can handle it in a reasonable time each week, planted with only the crops your family enjoys eating, can save you money.

But all of these reasons pale before the feeling of satisfaction and triumph that you feel when you bring into the kitchen a basket of prime quality vegetables and know that, because of your efforts, your family is eating the very best.

The way to start vegetable gardening is to walk around your grounds and locate any areas that get sun most of the day and can be converted to this new use. These spaces needn't be large and perhaps there will be several of them instead of just one.

Measure whatever places you find and then make yourself a rough sketch of each. This is so you can plan what to grow and where to grow it. Even a yard-square space can support a tomato plant or produce succulent lettuce. A long strip of ground by a fence or building can be used for cucumbers or tomatoes. Thus, you can decide on a vegetable for each area, every one a taste treat for your family.

tions which would put the new law to a vote of the people.

The Farm Bureau took this action after listening to the views of Mr. and Mrs. Carroll Horine of Frederick, strong opponents of the bill. The Horines are actively soliciting signatures of registered voters, on forms produced by the Maryland Lobby, 2524 Old Frederick Road, Catonsville.

House Bill No. 1090 established the Community Development Corporation, headed by appointees of the Governor, and gave this agency arbitrary authority to condemn and purchase property throughout the state, with the approval of local governing bodies.

The purpose of the new act is to develop tax-subsidized housing and "public or private facilities intended for commercial, educational, cultural, recreational, community or other civic purposes". Opponents of the new law point out that the property can be sold or leased, without public bidding or public sale, to chosen parties at whatever price the agency sets.

The new act, engineered through the Assembly by Delegate William Houck of Frederick County, supersedes the 1969 Housing Authority Law, which was repealed by the Assembly during this year's session. The 1969 law es-

tablished the Maryland Housing and Community Development Authority, for which the Community Development Administration is simply a new name.

The 1969 law was stopped by petitions for referendum a year ago. It was due to be on the ballot for the upcoming November election. Advocates of this law felt the voters would surely reject it. This could be avoided, of course, by repealing the law, then rewriting the substance of it into a new law, with new nomenclature.

The Maryland Farm Bureau strongly opposed the 1969 law. The 1970 version originally included the state's agricultural agencies along with public housing, they both being lumped together for administration in the Governor's reorganization plans. Having succeeded in knocking the agricultural provisions out of the final draft, the state Farm Bureau was not in a good position to oppose the public housing portion.

Frederick County's lower house delegation voted for the bill. Senators Byron and Smelser opposed.

The county Farm Bureau board feels that individual members should continue to object, since the new law has the same features they objected to, last year.

It is a dangerous precedent, members feel, to extend the state's right of eminent domain into negotiable real estate, far beyond the bounds of the common law.

Further, there was an apprehension that this law might not be to the advantage of those Maryland counties — most of them — whose citizens still do not have the protection of a code or charter. One appointed state bureaucrat and two county commissioners might sometime, somewhere, find themselves with dictatorial power.

County Receives Federal School Aid

Congressman J. Glenn Beall, Jr. (R-6th-Md.) announced last week that a request by the Frederick County Board of Education for Federal impacted aid has been approved in the amount of \$170,601 by U. S. Commissioner of Education James E. Allen, Jr.

Under Title I of Public Law 874, as amended, school districts in Federally affected areas are entitled to Department of Health, Education and Welfare financial compensation for the economic burden imposed by the presence of the Federal Government.

Rep. Beall said that Frederick County is eligible for Federal compensation largely because a sizeable number of persons with children in Frederick County schools live on the Fort Detrick installation and therefore are exempt from certain local taxes, some of which help support the county school system.

The Congressman added that amounts of aid certified for payment are computed on the basis of information and estimates contained in applications submitted

by affected school districts and are subject to adjustments required by changes in the availability of Federal funds.

The man who thinks he knows everything always irritates those of us who do.—Record, Columbia, S. C.

PROTECTING THE CONSUMER

READ LABELS AND COMPARE PRICES—LABELS CONTAIN VALUABLE INFORMATION AND ARE THE SHOPPER'S FRIEND. COMPARISON SHOPPING SAVES MONEY.

PERISHABLES -- BUY ONLY THAT QUANTITY WHICH CAN BE EATEN BEFORE SPOILING.

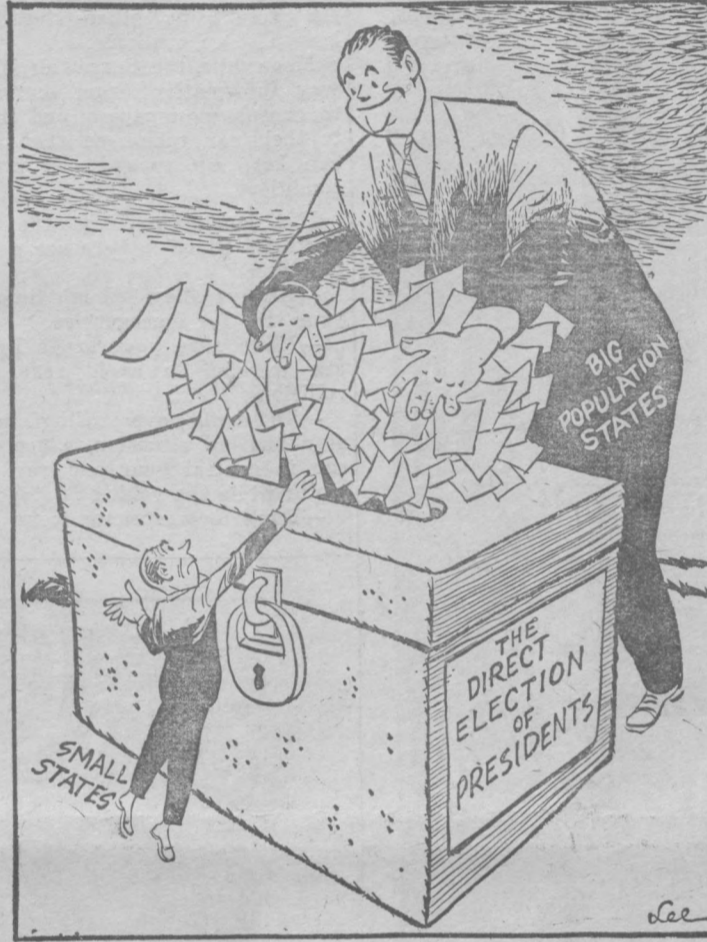

MEAT IS NOW BEING PRE-PACKAGED IN CLEAR PLASTIC TRAYS DEVELOPED BY THE MONSANTO COMPANY. THE TRAYS ENABLE CONSUMERS TO SEE BOTH SIDES OF THE MEAT BEFORE PURCHASING -- A DEFINITE ADVANTAGE.

SUCH TRAYS ARE NON-ABSORBENT. JUICES REMAIN WITH THE MEAT AND MEAT DOES NOT STICK TO THE TRAY.

LEGAL

EX PARTE IN THE MATTER OF
JERRY W. RIDGE
NO. 22,802 EQUITY IN THE CIRCUIT COURT FOR FREDERICK COUNTY
ORDER OF PUBLICATION

The purpose of these proceedings is to have Jerry W. Ridge declared legally dead under the provisions of the Uniform Absent Persons Act, Article 16, Sections 200 to 212 of the Annotated Code of Maryland (1957 Ed.).

The petition recites that the said Jerry W. Ridge has been absent from his domicile in Frederick County, Maryland, for more than fifty (50) years, and that the petitioner has made diligent and exhaustive inquiries among relatives, friends and acquaintances as to the whereabouts of the said absentee, but has been unable to locate him.

It is thereupon ordered by the Circuit Court for Frederick County, Maryland, this 13th day of May, 1970, that the Petitioner, by causing a copy of this Order to be inserted in a newspaper of general circulation and published in Frederick County, once a week in each of four successive weeks before the 20th day of June, 1970, giving notice to the said absentee of the object and substance of this petition and warning him to be and appear in this court in person or by solicitor on or before the 21st day of July, 1970, and show cause, if any he may have, why a decree should not be passed as prayed.

Capitol Comment

By Charles McC Mathias
U.S. Senator

Let American POW's Know That We Care

All Americans, whether they are Hawks or Doves, whether they are owls or crows, agree on one thing about the war in Vietnam and that one thing is the criminal attitude of the government in Hanoi toward the treatment of American prisoners of war. I call it criminal because it is clearly a violation of international law.

The government in Hanoi had agreed to bind itself to the Geneva Convention on prisoners of war in 1957 and by that Convention, certain minimum standard treatments were prescribed and agreed to. I think that it is one of the unhappiest of the unhappy facts of this tragic war that the attempts to build a community of nations and a respect for international law have broken down so severely in this case. But, we ourselves have not been totally fair in our own treatment of American prisoners of war.

There is a provision of U.S. law which provides special compensation for American servicemen who are taken prisoner. This is compensation over and above regular pay and allowances to which servicemen are entitled whether they are on active duty or whether they are, in fact, captured and in the status of prisoners of war. This is a provision which would allot to each American who is held as prisoner the sum of \$1.50 per day of captivity in which he was inadequately fed and \$1 a day for each day he was forced to submit to some kind of cruel or unusual treatment such as severe hard labor. This \$2.50 a day is a sum which in my judgment is totally inadequate and I have

recommended that it be very substantially increased. It is a sum which was determined in the period of World War I and notwithstanding the fact that there has been a substantial inflation in every aspect of life since World War I, we have done nothing to improve the status of prisoners through compensation upon their release.

After all, this is the smallest kind of help that we can give American prisoners and to compensate them at a World War I rate is, in my judgment, an insult rather than a help. I have strenuously advocated that we modernize this part of our governmental program in dealing with servicemen. It is absolutely necessary that we increase this figure so that the men who are now prisoners of war know that we want to try to compensate them for the suffering and hardship that they are enduring and which their families are sharing with them.

This situation, again, brings to mind the cruelty of the Hanoi government in failing to provide even a list of prisoners' names so that the wives and children of these men may know whether or not their husbands and fathers are alive or dead. One of the Odysseys that I believe will go down in human history as being poignant and tragic is that of the American wives who have traveled the face of the earth, from Moscow to New Delhi, from Paris to Hanoi, seeking and hoping to find information about their husbands. I believe that their prayers will be answered, but that in the meantime, we ourselves, must not neglect our duties to these men.

SPACE AND AERONAUTICS

Moon Property
Here's a real estate guide if you're thinking of buying a little property on the Moon. This is what the experts look for:
Five lunar areas have been selected by the National Aeronautics and Space Administration, and two of these areas have already been explored—the Sea of Tranquility by the first men to put down on the Moon, Neil Arm-

strong, and "Buzz" Aldrin. And an area in the Ocean of Storms was explored by Astronauts Conrad and Alan Bean, the second group to put down on the Moon.
A third area called Fra Mauro was scheduled for exploration by the Apollo 13 crew but their ill-fated flight didn't get them there.
In the selection of these five areas, here's what the lunar real estate experts took into consideration in making their selections.
First of all the areas must be smooth, relatively free of craters and boulders.

There should be no large hills, high cliffs, or deep craters which would block or interfere with the approach path of a landing spacecraft or the radar signals of the spacecraft. You'll recall that Neil Armstrong took manual control of his lunar lander in the last split seconds of his approach to the Moon to avoid landing in or near a crater.
The lunarscope should be so located as to allow for the least amount of fuel consumption in the spacecraft's lunar module propulsion systems, or you're not going to make it to the Moon and back.
And, for a safe approach and landing, the general slope of the area must be less than two degrees.
Then there's the matter of correct lighting for the best visibility as you approach the landing site. The Sun angle should be 7-20 degrees behind your lunar module as you make your approach.
Of course there are other criteria related to the mechanics of

spaceflight and some laws of physics which figure in site selection. Maybe you'd better hold up on that down-payment.
While the United States has put men on the Moon on two occasions and planted the American flag there, it has not made any territorial claims, taking the position that space exploration is undertaken in peace for all mankind. Yet some "far seeing speculators" have made claims for property and franchises on the Moon and have probated these claims.
Since it is highly possible and very much in the NASA planning that the ordinary citizen can one day make it to the Moon without much more training than it now requires to ride as a passenger in a jetliner, maybe these speculators are smarter than most people think.
Project Apollo's fuel cell power plants, equipped with pure nickel electrodes, provide from 500 to 2,000 watts of electricity for the spacecraft.

Public Information Helps Bridge Traffic

The State Roads Commission's Bureau of Highway Information says total information on Chesapeake Bay Bridge traffic is one way to help ease congestion and confusion while the new bridge is being built.
The bureau said newspapers, radio and television probably had a lot to do with easing conditions on the Memorial Day weekend.
On Sunday evening, for example, the bureau's records shows a total of 23 radio stations called the special information lines at the bridge. Calls logged totaled 131.
All area newspapers called, also. Specially-trained bridge personnel tell newsmen present conditions at the bridge, how long a crossing will take and the prognosis for the next one or two hours.
The total information approach developed by the SRC's Bureau of Highway Information, the Toll Facilities Division and the Traffic Safety Division is designed to keep the motorist informed so that he may make a sensible decision on the timing and route of his trip.
SRC officials have instituted a number of plans to increase the capacity of the present bridge. At present, no other steps are known to be available.
Meanwhile, the Bureau of Highway Information urges motorists to consult newspapers and listen to their car radios so that they can keep up to date on bridge conditions.
If a jam occurs, says the Toll Facilities Division, here are a few pointers:
—Always allow enough time on your trip for emergencies.
—Make sure your brake lights are working to avoid rear end collisions.
—To avoid overheating in a stop and go situation, place the car in neutral gear and rev the motor while the vehicle is stopped.
—Don't overestimate your re-

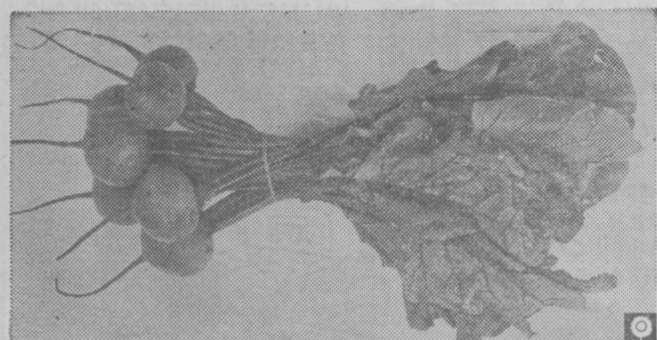

action time—the operator ahead may be quicker than you.
—If you have a flat tire, do not stop suddenly. Roll to a stop and if on the bridge, attempt to move off.
—Sudden showers make roads slippery, especially at their outset. Drive accordingly.
—Above all keep your cool.

in the Conference Room of the Court House, 2nd floor, Hagerstown, Md.
The Advisory Service visits Hagerstown on the third Monday of every month, in order to provide more convenient assistance to citizens of Washington, Frederick and Carroll Counties.
The Department's representative answers inquiries about insurance, tries to assist in getting insurance coverage for you if your company has cancelled your policy and/or deals with complaints you may have about insurance service or problems.
Written inquiries may be addressed to State Insurance Commissioner Newton I. Steers, Jr., Baltimore.
No appointment is needed to meet with the insurance adviser.

Insurance Dept. Offers Advisory Service

Maryland Insurance Commissioner Newton I. Steers, Jr., has announced that a member of the State Insurance Department's Advisory Service will once again visit the Western Maryland area this coming Monday, June 15, from 10:00 a.m. until 2:00 p.m.

HARD TO BEAT

Ruby Queen, the beet pictured, is an outstanding variety to grow, tastes best when harvested at half-grown stage.

Beets are hard to beat as a vegetable because they're good to look at and delicious to eat. Even youngsters with an aversion to other vegetables fill up on beets, especially if they're home grown and picked while still tiny and luscious.

Some varieties are grown not for their roots but for their quick-maturing leaves which many gourmets consider the most delicious of all greens.
But most gardeners use both tops and roots, serving them at the same time, as two different vegetables.

If you want beets for roots, you'll be interested in Ruby Queen for fine flavor; in Pacemaker because it is the first hybrid beet of table quality, sprouts quickly and is edible only 58 days from sowing.

You'll also want to know about the new golden beet which has golden roots instead of red ones and therefore doesn't bleed in the water when cooked.

The tops have a more delicate flavor than those of most red beets and will thus endear themselves to people who think beet greens are too "strong" in taste.
So, you see, there's a beet for every palate.

Defendants

ORDER OF PUBLICATION

This is to give notice that on the 21st day of May, 1970, a Bill to Quiet Title was filed in the Circuit Court for Frederick County by the Plaintiff against the Defendants whose addresses are unknown. The Bill alleges in substance that:

FIRST: That your Plaintiff on or about December 1, 1967, purchased a certain lot or parcel of land from James R. Showe and Barbara Ann Showe, et ux, obtaining possession to same pursuant to a certain deed executed and delivered by the latter to the former and duly recorded among the Land Records of Frederick County, Maryland, in Liber 775, folio 659. The said lot or parcel of land being described therein as follows:

"BEGINNING for the same along the West margin of the Edgewood Church Road at the Southeast corner of the lands described in a deed to Thomas Preston Miller and Erma E. Miller, his wife, from Charles M. Kline, unmarried, dated March 24, 1947, and recorded in Liber No. 462, folio 42, one of the Land Records of Frederick County, Maryland, and running thence in a Southerly direction by and with the West margin of Edgewood Church Road 78.0 feet to an iron pipe marker, thence leaving said Road and running in a Westerly direction 170.0 feet, more or less, to intersect the third line of the aforementioned deed from Charles M. Kline, unmarried, unto Charles Preston Miller and Erma E. Miller, his wife, dated and recorded as aforesaid, and running thence in a Northwest-erly direction by and with the said third line reversed, 147.0 feet, more or less, to the end thereof, and running thence in an Easterly direction by and with the second line described in the aforesaid deed from Charles M. Kline, unmarried, unto Thomas Preston Miller and Erma E. Miller, his wife, 272.0 feet, more or less, to the place of beginning. A certified copy of said deed is hereby incorporated by reference and at-

tached hereto as a part hereof, marked "Plaintiff's Exhibit A."

SECOND: That your Plaintiff, through mense conveyances, etc. (which will more fully appear from the certified copies of deeds filed as "Plaintiff's Exhibit B" incorporated by reference and made a part of said Bill) derives her record title from the devise of Henry Gonso who died on or about October 12, 1915, and whose Will was duly probated and recorded among the Records of the Orphans Court for Frederick County, Maryland, in Liber S.D.T. 2, folio 102.

THIRD: That, however, a deed recorded October 3, 1883, among the Land Records of Frederick County in Liber AF7, folio 479, purports to grant in fee simple, subject real estate from Henry Gonso unto Charles E. Schaffer.

FOURTH: That your Plaintiff and her privies of record title have maintained actual, open, notorious, exclusive, hostile, and continuous possession of subject real estate under said claim of title or ownership from at least March 24, 1947, using said lot and improvements as a place of dwelling.

FIFTH: That your Plaintiff is in actual peaceable possession of subject lands but that the aforesaid deed constitutes a hostile outstanding claim, though not being actively asserted, against her title interfering with her right to absolute ownership and rights of disposition.

SIXTH: By that certain mortgage recorded among the Land Records of Frederick County, Maryland, in Liber 776, folio 204, your Plaintiff has mortgaged subject premises unto the Farmers and Mechanics National Bank.

The relief prayed in the Bill is substantially as follows:

"That the Court decree absolute title to and in the real estate described in paragraph FIRST herein, in fee simple with full rights of disposition of said lands and improvements and that the Court issue an injunction against the assertion by the parties named as parties defendant of any claims whatsoever by any action at law or otherwise, all subject, however, to the rights of the Farmers and Mechanics National Bank under that certain mortgage dated December 1, 1967, and recorded among the Land Records of Frederick County, Maryland, in Liber 776, folio 204.

WHEREUPON, it is ordered by the Circuit Court for Frederick County this 22nd day of May, 1970, that the Plaintiff cause a copy of this Order to be inserted in a newspaper published in Frederick County once a week in each of four successive weeks, before the 27th day of June, 1970, giving notice to the said Defendants of the object and substance of the Bill and warning them to show cause, if any there may be, on or before the 28th day of July, 1970, why a decree should not be passed as prayed.

BIRTHDAY PARTY

A birthday party was held for Vernie Harbaugh Sunday, June 7, at her home. Those present were: Mr. and Mrs. Thomas R. Harbaugh, Thomas C. Harbaugh, David Harbaugh, Nina Givens, Joseph Stahura, Hilda Hemingway, Mr. and Mrs. R. Maley, Mr. and Mrs. Clyde Knipple, Mr. and Mrs. Eugene Eyler, Johnny Hemingway, Charles B. Harner and Mr. and Mrs. A. G. Naugle. These people were from Baltimore, Lemoyne, Emmitsburg and Cashtown. Delicious refreshments were served.

SAVE TIME CLASSIFIED

Lois Hartdagen Heads Brute Ladies

The regularly monthly meeting of the Ladies of Brute Auxiliary, took place Monday evening in the Council Home with twenty-two members in attendance. President Lois Hartdagen presided.

The meeting opened with prayer led by the chaplain, Ruth Baker, and followed with the Pledge of Allegiance.

The secretary's and treasurer's reports were given. Correspondence was received with a thank-you note from Becky Ryan and an anonymous donation of \$1.00.

The Council and Auxiliary entertained the unit at Victor Cullen in May and a visit is planned for June 21. Nancy Danner, Lois Hartdagen and Joyce Rosensteel, volunteered cakes. The president urged the members to attend.

The president reported that the Parish Council had ruled out any particular group having a table at the forthcoming church Bazaar, therefore the president encouraged the members to help.

Elections for the coming year were then held and there being no nominations from the floor for the offices, the secretary unanimously endorsed the following as officers for the year 1970-71: President, Lois Hartdagen; vice president, Nancy Danner; secretary, Joyce Rosensteel; treasurer, Becky Stover; chaplain, Loretta Sprinkle.

It was decided to have the August meeting at Kump's Dam at the regular time, with the members bringing a covered dish and the auxiliary furnishing hot dogs, hamburgers and beverage. Ann Marie Koontz volunteered as chairman.

The monthly drawing was held and Joyce Rosensteel's name was

LEGAL

NOTICE TO BIDDERS The Board of Education of Frederick County, 115 East Church Street, Frederick, Maryland, invites bids from service stations located within the corporate limits of Frederick City on supplying gasoline, oil, and related services for the various cars, trucks, and buses owned by the Board of Education of Frederick County.

Specifications and proposal sheets may be obtained at the Board of Education Office.

Sealed bids will be received at the Board of Education Office until 3:00 P.M. (DST), June 25, 1970.

The Board of Education reserves the right to reject any or all proposals, and to waive informalities. BY ORDER OF THE BOARD OF EDUCATION OF FREDERICK COUNTY.

JOHN L. CARNOCHAN, JR. Secretary-Treasurer Bid #70-T-4 1t

called and was present. Refreshment committee for the July meeting is Judy LaCroce and Pat Zanella.

The business meeting closed and the Grand Knight, Eugene R. Rosensteel, was introduced and proceeded to install the newly elected officers. After the installation, refreshments were served in the social room. The next meeting will be held July 13, at 8:15 in the Council Home.

Rocky Ridge 4-H Members Active

The monthly meeting of the Rocky Ridge Progressive 4-H Club was called to order on May 18 at 8 p.m. Forty-two members answered the roll with their favorite car.

Under old business, eight members from the club participated in the McDonough School Fair. They were: David Bollinger, John Keilholz, Patty Keilholz, Stanley Gregg, Sharon, David and Charlie Goetz, and Paula Bollinger. Rural Life Sunday was reported on by Charlie Goetz and Cathy Wivell. Alex Peresada reported on the Broiler Contest which he and four other members from the club attended. Fred Keilholz then told of his experiences at the "Rocks". The progress of the Dairy Club was reported by Stanley Gregg, after which Cindy Long announced that the next meeting will be held on June 12.

Under new business, seven girls and eight boys from the club are planning to attend 4-H Camp at Greentop. Also our members are planning to participate in Demonstration Day. It was announced that the Beef, Sheep and Swine Workshop would begin on July 6. The meeting was then concluded with demonstrations by Charlie and David Goetz, entitled, "How to tell the Age of a Horse" and "Parts of a Hoof."

Gets Science Award

The annual Bausch & Lomb Honorary Science Award was presented to J. Calvin Chatlos, Jr., by G. William Greeg of Catoclin High School.

In announcing the winner, Principal Harper Long said, "The R&L Science Award is especially significant. It makes possible recognition of the outstanding senior students having the highest scholastic standing in science subjects."

The Science Award—a handsome bronze medal—is presented by more than 8,500 participating schools.

The Bausch & Lomb Science Award and Scholarship Programs have been officially approved by the National Association of Secondary School Principals.

Wins Home Ec Prize At St. Joe's

Kathleen Muir, daughter of Mr. and Mrs. William Muir, of Highfield, was awarded the Crisco Trophy for her outstanding work in home economics at St. Joseph's High School's annual Awards Day, May 21.

The gold trophy was presented to Miss Muir, a sophomore at St. Joseph's, by the principal, Sr. Marian. In presenting the trophy, Sister congratulated Kathleen on the excellence she has shown in her work.

Kathleen studied home economics for two years and plans to continue her studies on that subject after graduation.

Senior Citizens To Visit Library

The committee in charge of selling food at the Kraemer sale, Saturday, June 6, reports a clearance of \$50.00 for the Senior Citizens Club. The committee consisted of Mrs. Helen McNair, Mrs. LaRue Harmon, Mrs. Loretta Shuff, Mrs. Anna M. Martin and Mr. Louis Stoner. They are to be commended for doing an excellent job.

Tuesday evening, June 16, the Senior Citizens Club will take a tour of the Emmitsburg Public Library at 7:30 p.m. After the visit the group will retire for refreshments at the Club Center.

Many Receive Assistance More than two hundred persons from the Frederick County area received assistance from the Travelers' Air Association of America last year according to the annual report. Eighty-one affiliates of Traveler's Aid, providing inter-city social services to people finding themselves in difficulty away from home without resources, gave assistance to more than a million persons from eleven thousand cities and towns in the United States and Canada during 1969. Travelers' Aid receives limited contributions from the local United Givers Fund and is represented on the board by Claude DeLauter, Jr.

The tallest smoke stack in the world, towering 1,200 feet above grade at a power station in Cresap, W. Va., has its top 40 feet lined with 80,000 pounds of nickel stainless steel to provide corrosion resistance.

Wins Home Ec Award At St. Joe's

Miss Lynn Miller, daughter of Mr. and Mrs. Donald F. Miller, Emmitsburg, has been named top-ranking home economics student at St. Joseph's High School, Sister Marion has announced.

As the outstanding home economics senior, Miss Miller has received the Sterling Silver Homemaking Award for 1970. The award, a 6-piece place setting of sterling flatware, was presented to Miss Miller by Sister Marion at an honors assembly.

The pattern for the award sterling was selected by the home economics students as part of a special project in consumer education.

The award is made available by the Sterling Silversmiths Guild of America in recognition of the

fine work being done today in high school home economics education, and to stimulate student interest in the homemaking arts.

Urge Doctors To Prescribe Generic Drugs

Physicians and dentists participating in the Maryland Medical Assistance Program have been urged to prescribe drugs by their generic name so that pharmacists may "dispense a quality product, reasonably priced".

The request was made in a joint statement issued by the Medical and Chirurgical Faculty of Maryland, the Maryland Pharmaceutical Association, and the Maryland State Department of Health and Mental Hygiene. Along with the statement, the health organizations furnished the providers of professional medical services with a comparative drug price list.

Pharmacists were requested to stock and dispense one of the lower priced drugs from the list. The list, however, is intended as a guide and "not authorization for the pharmacist to substitute when the physician orders a drug by its brand name."

Judicious use of such drug price listings, by both prescriber and dispenser, it was stated, could reduce the cost of Medicaid to the State without sacrificing in any way the quality of service. The drugs listed meet the standards established by the State Formulary Committee. Such listings will be revised and expanded periodically as additional data pertaining to the listed and other drug products is received, the statement said.

The statement was signed jointly by Dr. Neil Solomon, Secretary of Health and Mental Hygiene; Dr. Russell S. Fisher, President, Medical and Chirurgical Faculty of Maryland; and I. Earl Kerpelman, President of the Maryland Pharmaceutical Association.

Additional information concerning the drug listings may be obtained by calling Harry Bass, Pharmacist, Division of Medical Services, Maryland State Department of Health, 383-3010, ext. 8871.

location. An offering will be received each night as part of the worship experience in every class, and will be used to defray the expenses of the school. Every child of the community is invited to participate in the fun, fellowship, learning, and crafts which are being planned by the various teachers of the school.

Girl Scouts Plan Williamsburg Trip

Girl Scout Troop 1316, under the leadership of Mrs. William Meredith, has completed its plans for the trip to Williamsburg, Va. They will go with the Cadettes from Thurmont.

The bus will leave early Saturday morning and return Sunday evening. The troop earned money from a bake sale, their cookie sale, and candy, to help with expenses.

Mrs. Meredith and Mrs. Robert Staub will accompany the girls from Emmitsburg.

Troop 1316 entered a float in the parade, and the girls enjoyed a delightful afternoon, being in the parade.

Plans are being made for the cook-out, and camping for the summer months.

RECEIVES DEGREE

Miss Marjory J. Richards, Emmitsburg, received a bachelor of arts degree, summa cum laude, and departmental honors in dramatic art, at commencement exercises held at Western Maryland College, Sunday. Miss Rich-

Catoctin High School Band made an excellent showing as it passed the judges' stand in Saturday's Parade which drew several thousand people here.

ards is the daughter of Dr. and Mrs. John Richards, Emmitsburg.

Never agree with a speaker or writer; agree with his facts and his reasoning.

June Proclaimed No Smoking Month

The Frederick County Tuberculosis and Respiratory Disease Association is participating in the Maryland Campaign on Smoking. Gov. Marvin Mandel has proclaimed the month of June as "Kick the Habit" month.

While it would be unrealistic to think that we can change the habits of all Frederick County residents during this concentrated "Stop Smoking" Campaign, I'm sure you will agree that TB-RD Associations have a responsibility to remind our citizens to again try to "Kick the Habit."

Literature on the Why and How to stop smoking is available at your local Tuberculosis and Respiratory Disease Association, 118 West Church St., Frederick. Speakers and films are also available—let us help you plan a meeting for your club or school program... just call 663-4593.

Vacation School Dates Set

The dates set for the Community Vacation Church School by the Parish Education Committee of the Emmitsburg Council of Churches, are June 17 to 26. The school this summer, as last year, will be held in the evenings from 7 to 8:30 p.m. The general theme will be "God and My Life", and is for all children and young people whose 4th birthday is in 1970 through those of Junior High School age. The various classes of the school will be as follows:

- Nursery (age 4), "Discovering God's World", teacher, Miss Jane Kooztz, assistant, Miss Patty Eyer; Kindergarten, "God's Children at Work and Play," I (5 year olds), teacher, Miss Margaret Franklin, assistant, Mrs. Thelma Fair; II (6 year olds), teacher, Mrs. Audrey Glass, assistants, Mrs. Carol Staub and Miss Vicki Saylor; Primary, "Loving Others," I (first graders), teacher, Mrs. Elizabeth Lindsey, assistant, Mrs. Nancy Andrew; II (2nd graders), teacher, Mrs. Larue Harman, assistants, Mrs. Evelyn Ohler and Mrs. Virginia Andrew; Lower Junior (3rd & 4th graders), "Lives that Praise God," no teacher as yet, assistants, Mrs. Anna Margaret Martin and Miss Sharon Kelly; Junior (5th and 6th graders), "The Ways of the Christian," teacher, Mrs. Bernice Hampson, assistant, Mrs. Pauline Watkins; Junior High (grades 7, 8 and 9), "Doing Our Part as Christians," teacher, Dr. William Meredith.

All parents and friends of those enrolled are invited to the Closing Program at 8 p.m. on Friday, June 26, in the Assembly Room of the Parish House of Elias Ev. Lutheran Church. The display area for all classes of the school in the basement of the Parish House will be open at 7:30 p.m., and light refreshments will be served at 8:45 that evening.

Mrs. Sheila Chatlos is serving as the Director and Coordinator of the school. All those children and young people desiring to attend are to register no later than Sunday, June 14. Completed registration cards may be given either to the superintendent of your Church School or to Mrs. Chatlos.

Classes will be held each night except Saturday and Sunday. The opening Service and Assembly will be held at Incarnation United Church of Christ on Wednesday, June 17, at 7 p.m. At that service, all enrollees will be assigned to their classroom areas in the various Protestant Churches of the community. Thereafter they will go directly to that particular church in which their class is held, and should be picked up at that
