ATTENDED 4-H CLUB MEETING

Plans were Made for a Fair on July 27th

Eleven local leaders of the Girls 4-H Clubs throughout Carroll County attended a meeting in the Home Demonstration Office on June 28. The Assistant Home Agent, Miss Dorothy E. Haines, reviewed the 1949 4-H Fair exhibit list with the leaders for their comments, criticism, and recommendations. Miss Haines explained to the leaders the need for a 4-H fair book which the County 4-H Senior Council is sponsoring and plans were discussed for the distribution of the fair book to individual club members as soon as it comes from the printers. Each local leader agreed to be responsible for seeing that each girl in her respective club received a catalogue. The leaders very willingly responded to a request for assistance in registering and setting up exhibits for the fair on July 26th.

The following assignments were made: Registration of exhibits, Mrs. Francis E. Byers, office secretary, chairman; Mrs. Leonard Smith, Snyderburg Club; Mrs. Milton Lloyd, Snyderburg Club; and Miss Betty Jean Smith, Freedom Club. Arrangement of clothing exhibits, Miss Caroline Shriner, Taneytown Club, chairman; Mrs. Lester Wimer, Meadow Branch Club; Mrs. Danton Ensor, Sams Creek Club, and Miss Margaret Rodkey, Baust Club.

Arrangement of food exhibits, Mrs. Joseph Horn, Smallwood Club, chairman; Miss Ruby Young, New Windsor Club, and Mrs. George Leister, Jr., Hillsdale Club.

Arrangement of home furnishing exhibits, Mrs. Roy Graham, Warfieldburg Club. Arrangement of home management and handicraft exhibits, Mrs. Ernest Fleming, Woodbine Club. Arrangement of garden exhibits, Mrs. Lyle C. Stoddard, Meadow Branch Club. Records of placings, Miss Ruthanna Hoff, Sams Creek Club. Mrs. Lester Wimer, Meadow Branch Club, and Mrs. Francis E. Byers.

All girls exhibits must be entered by noon on July 26, and will be judged the same afternoon. A full program of activities, beginning at 9 A. M., including a judging contest, demonstrations, and a style show will be open to the public on July 27th.

The local leaders were reminded of the scheduled days for demonstration helps which are July 11 and 12, and the judging practice day July 14th. These days have been set aside to assist girls with demonstrations and judging practices preparatory to contest to be held at the fair. The leaders enjoyed lemonade and cookies, prepared and served by the office secretary, Mrs. Francis E. Byers.

SEEING THE WORLD

When Marco Polo was Patricia Ann's age he couldn't match her record for extensive travels. This young daughter of Captain and Mrs. Horace D. Worley will have traveled 3500 miles by the time she is four months old.

At the age of six weeks Patricia Ann took an airplane trip to Taney-

town, Md., to visit her grandparents Mr. and Mrs. John H. Harner, and in a few weeks she will be in a stateroom on a boat enroute to Germany.

Army life agrees with this young miss who, according to her parents, loves to travel. For the past three years Captain Worley, a Medical Service Corps officer, has been adjutant at the Station Hospital. He left recently for an overseas assignment in the ETO. It will be his second tour of overseas duty as he saw 27 months of combat in the Pacific during World War II.

AUTO THRILL SHOW

To be Held on Fair Ground Saturday Evening, July 9

Headed by three-time AAA auto racing champion Joie Chitwood, in person, a coterie of lead-footed speed way and dirt tracks pilots, augmented by a congress of Hollywood motion picture stuntmen, will strike up a flirtation with the grim reaper over the fast half mile speedway at the Carroll County Fair Grounds in Taneytown this Saturday night.

The first of 27 smashing speed and thrill events will get the starting bomb at 8:30 P. M. The Chitwood speed and thrill spectacle, which rated a three-page spread in Life Magazine recently, and is currently featured in a Paramount Pictures film release has a running time of two full hours of thrill-packed entertainment hardly designed for spectators with weak hearts.

Carrying and using an entire fleet of 1949 Ford automobiles in the presentation of Roman racing and hell-driving events, slide for life features, deliberate crash snap rolls with racing automobiles, aerial criss cross features in which a new car is hurled through space in a ramp-to-ramp leap while a second new car, racing at its side, is broadsided between the ramps and immediately underneath; blazing barrier crashes and other equally hazardous feats round out the speed and thrill spectacle.

A repertoire of stunts astride roaring motorcycles combined with the auto stunts offers a variety of action for the devotees to the two-wheelers as well as to the average auto stunt racing fan. Heading the list of motorcycle daredevils is none other than Ellis "Buttercup" Pierce, Jacksonville, Fla., who has held numerous national motorcycle racing championships and rates on the same high plane in the motorcycle speed (Continued on fourth page)

NATIONAL FEDERATION OF SMALL BUSINESS, INC.

Mr. Clyde L. Hesson, Cashier, First National Bank, has accepted for a two year period the position of local District Chairman for a group of Taneytown's independent businessmen who are members of the National Federation of Independent Business, Inc., a non-profit organization, which, during the past six years, has built the largest individual membership of any business organization in the Nation.

Mr. Hesson's interest in independent business in his community and in the Nation prompts his service as District Chairman without remuneration in the tabulating of the ballots of the Federation Members in the Taneytown area, and forwarding them each month to Congressman William P. Bolton, Second District, in order that the opinions of the members on national bills and issues pending in the committees of the Congress before Bolton casts his vote.

The Taneytown group of members is similar to other groups formed in the principal towns and cities in Representative Bolton's District which are, likewise, forwarding their opinions to him monthly. Such procedure is nationwide and its presentation of the beliefs of independent business and professional people to their respective Congressmen; and forms a necessary and valuable working counsel for our lawmakers in every congressional district in the United States.

KEYSVILLE-DETOUR HOMEMAKERS' MEET

The Keysville-Detour Homemakers held their regular monthly meeting at the home of Miss Mae Clabaugh. Our President, Mrs. Miles Neidig called the meeting to order. We had a most enjoyable time singing several very well known songs including rounds and two-part songs. Because so many of our members are farm women whose husbands and hands are making hay, we had an unusually small attendance there being only 8 members and one visitor present. However we received our recipe book-lets telling us how to prepare jams, jellies, etc. and discussed them.

We then continued our discussion for a fall entertainment project. Mrs. Gilbert Stine is in charge of gathering material to be submitted to a vote at a later meeting.

The meeting adjourned to meet at the home of Mrs. Ralph Dinterman, near Westminster in September. Miss Clabaugh served delightful refreshments.

BOY SENATORS RETURN FROM BOYS' STATE

Local Boys Instructed in Art of Civil Government

Andy Alexander and Bob Peterson, recently chosen to represent Taneytown at Boys' State held at Bainbridge, have returned from their 10 days stay as citizens of the project sponsored by the Md. Department of the American Legion. Boys' State is a program instituted to instruct junior and senior boys in high school the important principles of city and state government. Actual setting up of model city and state governments was a feature of the sessions. Leaders to fill the positions of mayor, city councilmen, governor, and state senators were chosen from the 222 boys who attended from all over the state of Maryland.

Boys' State originated under the auspices of the American Legion in 1935. Since that time 45 Boys' States have been held over the country. This program has been broad enough to reach 175,000 boys over that period of time. The first Boys' State in Md. was held in 1947 at Fort Meade under the direction of Earl R. Poorbaugh with 35 boys in attendance. Last year 105 boy citizens were sent to Boys' State by various organizations from the state of Maryland.

Upon their arrival, the boys were divided into mythical cities and political parties. Legion City and Key City then set up their own governments electing their mayors and city councilmen in regular manner. The mayors, after election, then appointed heads for the various commissions that are essential to city government. The two political parties, the Federalists and the Constitutionalists, held their own closed meetings for the coming state election. After each party had nominated their candidates and vigorous campaigning had been completed, a general election was held when a governor, attorney general, comptroller, and an 11 man state legislature were put into office by popular vote.

The Taneytown delegation did itself proud by garnering two important seats in the state legislature. Alexander and Peterson, as boy senators took office immediately and proceeded with their legislative duties. Alexander received 185 votes out of the 222 cast to be elected by the greatest majority of votes of any candidate running for office. He was then elected president of the Senate by that governing body. Senator Peterson was appointed Chairman of the Ways and Means Committee, a very important fact finding board of the legislative body.

The boys followed a strict Navy schedule during their stay at Bainbridge. Lectures by outstanding public officials concerning the relation between citizenship and their various fields were highlights of the daily assemblies. Excellent facilities in the way of basketball courts, tennis courts and swimming pools plus other planned recreation were enjoyed by the boys. Graduation exercises held during the program on Visitors' Day and the election of two U. S. Senators officially closed the program of the 1949 Boys State.

Alexander and Peterson, sponsored by the American Legion Post and the Kiwanis Club, respectively, learned the principles of good citizenship and government through their participating in actual lawmaking situations. They both have appreciated very much the great opportunity of attending this worthwhile and enjoyable camp made possible by the two local organizations. Feeling that the direct results of attending Boys' State are educational as well as helpful in building character, the boys are very enthusiastic in the furthering of this program in this section of the state.

FOUNDRY ROW

Several weeks ago, I spent the week-end in the mountains. First driving to Cumberland driving over the following mountains the elevation at the highest peak was 1695. First was the mountain Fairview then Polish Mountain and then Martins Mountain (small ones in between). At the highest peak which is Martins Mountain, cars are parked from all states gazing upon the full beauty at this point which is indeed a wonderful sight to behold. I arrived at my destination where I have visited about a half dozen times or more in the little home right in between the mountains. Living right in between the mountains would never appeal to me as it always causes me to have the sensation of being "Hemmed in" The street of which I am writing and the home in which I remained is called, "Foundry Row" which is named after the Foundry, that was previously operated for many years at the foot of this little hill. The street is about twelve feet wide and the houses are the same distance apart. The houses are small some larger than others and although many are old, they are modernized to every detail. One house is a duplicate of the William Penn Period of 1682. Evening came on as we sat on the front porch of the home of "Alice" my hostess. The mountains in the rear and front of us. I sat there in silence being thankful for the wide open spaces that surrounds "Loves' Retreat". One night is about all that I desire to remain up in those mountains.

Many called upon us and after the visitors left, I was wishing that my hostess would suggest a walk and no sooner than the thought came to me it that quickly was transferred to Alice who suggested a walk and immediately and gladly I accepted it.

We walked up the hill first to the very top, my hostess who had resided in the same little house for thirty years knew all the neighbors as though they were relations and all very kind to one another.

Alice told me the story of each little house just as though it was part of her life. Other troubles were her troubles and the entire community holds my hostess in the greatest of esteem.

"My next door neighbor died today in the hospital and the family did not bring her body back to the home but sent it to a funeral parlor. I don't think that I could do that to any member of my family!" I quickly looked at Alice who appeared very much disturbed at that idea but I quickly assured her it was being done regularly in the big cities and nothing is thought of it in fact the individuals who are left behind prefer it that way for more reasons than one. The real big reason, I think is the sentimental one—so as those left behind can always feel the life still with them instead of remembering the "still body" laying there in the familiar room in repose.

"This house holds two sisters who lived together many years. They could not get along and decided to separate each taking their half of the house and the one sister finished her half in stone. They have never spoken from the day they parted although the walls only separate them!"

"Now, this house is unoccupied at the present time and has been for the past six weeks as the lady who lives there alone is in the hospital. There is her dog lying there waiting on the low porch and he never moves away from that place unless the neighbors throw food to him. He guards the house night and day and no one would attempt to go near that wall surrounding as Spot is most vicious!"

I moved away from Alice and walked toward Spot and talked to him as I stood beside the low stone wall on the outside. Presently, he ran toward me and jumping the wall stood there wagging his feather like tail and talking "Dog Talk" to me telling me of his lonely hours. He knew that I understood and my love for dogs and as I continued to tell him that I understood, I glanced over my shoulder and there was Alice standing like a statue with her hands pressed to her cheeks muttering, "Oh! I gave Spot another pat "Goodbye" and offered a little prayer that his mistress would soon return again in health to this faithful animal and then walked toward Alice. "You are the only one who has ever attempted to touch that dog! I'll never forget it as my heart actually stood still!" I am confident that Alice is telling all the neighbors about my secret visit with Spot!

"This is the old homestead!" Alice said beckoning to a tremendous house on the left with much ground around. "It was built many years ago by my husband's father where he lived with his large family." We then turned to walk down the hill and as we walked along Alice pointed out the two houses next to each other which belonged to her two married sons each having one son. The houses were opposite her home. As we neared the corner at the foot of the hill, I noticed a lovely home recently built and exactly the type of the California home of today.

FRIDAY JULY 8, 1949

COMMUNISM AND SOCIALISM

These two "isms" are alien to our soil, and should never be permitted to gain foothold.

We care not what kind of government others may choose to adopt. That is their concern. We will steer clear of their kind of ideology because it is not suited to our free soil.

The United States will not in the foreseeable future turn communist because too large a percentage of our people are home owners and attached to the soil.

Those who preach the overthrow of our government by violence, if American citizens should be arrested and imprisoned at hard labor until they mended their ways; if Aliens they should be deported and denied the privilege of ever returning to this free land. We do not fear them but we do despise them. We worship God, they worship self and their own self importance.

Perhaps if they were given the silent treatment and never mentioned in press or pulpit or platform they would wither and die in their own selfish shell.

RETAILERS CONDEMN WASTEFUL GOVERNMENT

A large retail association, which represents 7,500 merchants in this country and Canada, has appointed a committee to oppose waste and extravagance in government, and to "arouse all retailers to the advantages of the Hoover Commission's report on reorganization of certain government agencies".

The resolution went on to say, "With a probable decline in Federal revenues, the terrific waste and extravagance of government are cause for serious alarm. Therefore, we call upon all members of our trade to insist upon a policy of rigid economy in government".

Retailers know that the kind of waste which characterizes government activity would be fatal if it were allowed to exist in their own business. Competition is getting tougher the pennies. Instead of shortages, we have surpluses in many lines. So the retailer must practice strict economy if he is to supply goods at an acceptable price, maintain his standards of service at a high level, and so hold his trade.

It is often argued that government cannot be operated on a business basis. That just doesn't hold water. There is no excuse for having half a dozen costly agencies when one would suffice to do a given job. There is no excuse for the size of the Federal payroll. And there is no excuse for the incredible amount of duplication of effort that is found throughout government in all its branches.

Every retailer—and every other businessman as well—should take part in the fight for efficient, economical government. Only public pressure can bring it about. No bureaucrat will economize unless he is forced to. Billions of our tax money can be saved—if we demand it. Only by cutting down inflated government can we save a free nation and ourselves from destruction by taxation. —Industrial News Review.

It is a tragedy to be less than a man.

We used to teach subjects and did pretty well; now we teach boys and girls and what a mess we're making of it!

More Cows Needed for Population

In 1870 there was an average of four persons per cow in the United States. In 1900, four and one-half persons were served by each cow. In 1920, each cow served five persons; and by 1940, 5.3 persons. The present figure is 5.8 persons per cow. The amazing thing is that in spite of the increased number of persons being served by each cow, the supply of milk products per capita has remained fairly stable. Production of milk per capita in 1947 was greater than the average for either the 1935-39 or 1925-29 periods.

Dawn Redwoods to Be Preserved

Steps to preserve the dawn redwoods of China, the "living botanical fossils" of the Valley of the Tiger, have been announced simultaneously in Nanking and at the University of California. Announcement by the Chinese government of a Metasequoia conservation committee composed of some of China's most eminent men was reported by Dr. Ralph W. Chaney, professor of paleontology, whose recent expedition stimulated the conservation movement. Prior to discovery by two Chinese scientists, the dawn redwoods were believed to have perished 20 million years ago.

How To Cook Asparagus

Asparagus should be cooked quickly in a small amount of boiling water until just tender, then served promptly. To prevent tips from overcooking, tie the asparagus stalks into bunches and stand them in boiling, salted water in the top of a double boiler. Cover and cook until the stems are just tender. Or, cook the asparagus in a regular pan by propping the tips up out of the water.

Sylvester Says:

"Do you believe I'm Santa Claus?
I'd like to deliver this house to you at low cost, but—
About \$2500.

of this \$10,000. house is tax costs. Since 1939 about \$1,250. in taxes have been added to the cost of this house."

Senator Byrd of Virginia suggests some places to cut government costs that will save you some money.

Salaries for Federal employees—now 7 billion dollars; grants in aid 2½ billion dollars; in public works underway or proposed—30 billion dollars; yearly interest on trust fund reserves—1 billion dollars.

Meaningless, isn't it, except that it's your money that's being spent, and it's your living costs that are going up.

Oh yes, if all low-income families are housed in public units under present social planner recommendations, it will cost an additional 150-200 billion dollars.

Do you still believe in Santa Claus?

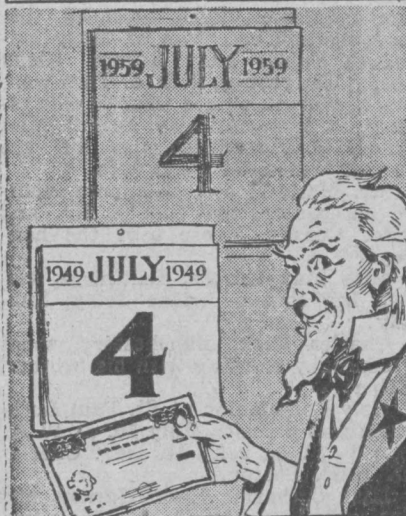

"Eye" With Supervision

There's a cold, calculating and synthetic "eye" that can see 1,000 feet. It's an "electric eye" which engineers have developed to see nearly four times as far as present equipment. It is not affected adversely by snow or rain, or outside light, and it has many uses. These engineers see applications of the "eye" in the automatic counting of automobiles on highways, operation of traffic signals upon approach of a vehicle, and the "fencing" in of restricted locations where intruders would be discovered and reported. The beam is broken by an object, and the relay sets into operation alarms, signals, counters and other electric equipment.

U. S. Flag Merchant Fleet

Of the total fleet, 1,948 vessels were in active service; 1,084 privately owned, 833 government owned vessels under bareboat charter, 29 government-owned vessels under G.A.A., including nine C-4 "austerity" vessels temporarily in passenger service, and two Panama railroad vessels. Uncle Sam Says

July 4 is the day when we as a nation celebrate Independence. Though the going, at times, has been rough we have persisted in upholding the ideals of freedom and security. And you can maintain individual independence, the freedom from financial worry, if you are investing regularly in U. S. Savings Bonds. With half of 1949 already gone how much money have you salted away? There is but one way for you to celebrate future independence—and that is by saving your money today. In ten short years you will receive \$4 for every \$3 you put into them.

MORE THAN **7351** STACKS OF SILVER DOLLARS...
EACH AS HIGH AS THE EMPIRE STATE BUILDING

That's a Billion Dollars in Revenue Lost by the Federal Treasury Because of Tax-Exempts Engaged in Business

Hard to believe? Well, it's true! An estimated billion dollars is LOST each year to the United States treasury because certain commercial businesses are given special tax exemptions by law and regulations.

CO-OPERATIVE CORPORATIONS, for example, are estimated to avoid close to half a billion dollars in taxes annually. Other tax-exempts, such as government businesses, "trusts," universities, etc., actually owning and operating commercially a wide variety of enterprises for profit are able to escape paying income taxes on the big profits they make.

CO-OPS and other tax-exempts should pay federal income taxes on their profits just like other business. **SPECIALLY**, they should pay full federal income tax **BEFORE** Congress loads any additional tax on present taxpayers. In other words—Congress should **TAX THE UNTAXED FIRST!**

• Tell your Congressman you want him to tax the untaxed first: before he asks YOU to pay any more income tax.

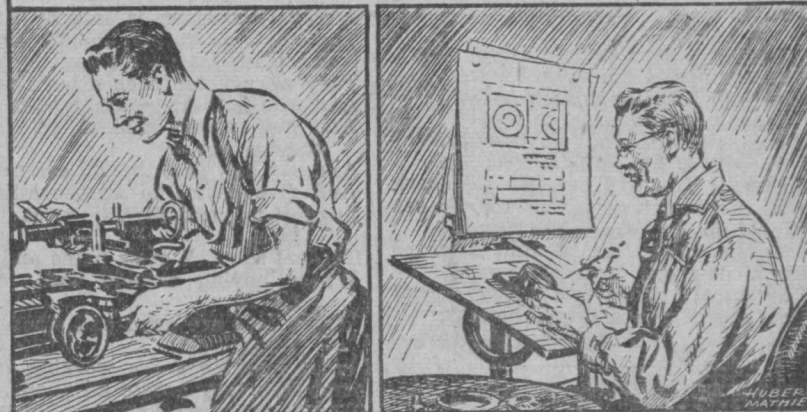

CO-OPS AND OTHER TAX-EXEMPTS SHOULD PAY FEDERAL INCOME TAX *like Other Business*

FEESERSBURG

Consider your family fortunate if no painful accident has happened to any member during the last 12 months. In 1948, accidental injuries cost farm people more than 36 million dollars. And that was only the amount spent on medical, dental and hospital care. Inconvenience, suffering, and lost time are important matters, too. Every farmer, if he was wise would take up in his house and major barns and sheds, safety posters like those found in factories, mines and railroads. Such signs as "Be Careful," "Safety First" and "Always be Safe." Such signs do help for all but the most foolish, being reminded, would ignore them. The modern farm has more hazards than most factories. If this was not true, Life Insurance Companies would not list farming among the most dangerous occupations. Until a few years ago, no organized effort had been made in behalf of farm safety. If you doubt that such a plan is needed just watch farmers using their mechanized equipment for one day. Yesterday a hay baler broke down in the field in front of our house and the man got down off the tractor to tinker with it while it was still in motion. There should have been a sign planted in front of him saying—"Be Careful or you will not live to be sorry."

Guests of Mr. and Mrs. Cleon Wolfe, Thursday evening were: Miss Edna Sauerhammer and niece, Mrs. Dorothy Gross, of Littlestown, Pa.; Mr. and Mrs. Emmert Miller and daughter, Linda, of Keymar, and Mrs. Irene Huff and daughter, Sharon, of Frostburg.

An 80 year-old Swiss carefully recorded each day's activities. He found in his 80 years, 27 years were spent in sleeping and 22 years in working; 6 years waiting for people; 27 days scolding children; 19 days tying neckties; 2 1/2 days telling dogs to be quiet and 6 years in eating. I wonder how many years of her life the average woman spends in preparing meals?

Mr. and Mrs. Paul Leister and daughter, Caroline, spent the past week in Atlantic City.

Mr. and Mrs. Roger Sentz and son, Stewart and daughter, Sharon, of Alexandria, Va., are visiting relatives and friends in Taneytown and Union Bridge.

Miss Margaret Roelke left Monday for Detroit, where she will visit her brother, Laurence and his family for several months.

Success is getting what you want; happiness is wanting what you get. The Japanese Beetles have arrived in full force. Hot weather is their delight and so merrily night and day they chew away on our beautiful Chinese elms and pine trees. We spray and kill one army but another arrives the next day to take their comrades place. Maybe at that they are better than grass hoppers. Their states in the West have called out their best brains and resources to combat the pests.

Sylvia Roelke spent Monday with her cousin, Nancy at Mt. Vernon.

The wedding of Miss Arlene Grindler and Mr. Calvin Hoy took place Saturday afternoon at 6 P. M. in the Methodist Church, in Middleburg. The beautiful church ceremony was witnessed by several hundred relatives and friends. A reception was held in the Parish Hall immediately following the ceremony. After a wedding trip the couple will live in their newly furnished home in Middleburg.

You can't buy loyalty, they say I bought it though, this very day You can't buy friendship, firm and true;

I bought sincerest friendship, too, And truth and kindness I got, And happiness—oh, such a lot! So many joyous hours to be Were sold with that commodity. I bought a life of simple faith And love that will be mine till death And two brown eyes that I could see I would not be long in knowing me. I bought protection. Bought a guard Right now and ever afterward. Buy human friendship? Maybe not! You see it was a dog I bought.

"A family reunion is lots of fun, The relatives gather one by one And tell life's histories page by page They always tell each other's age— And who is married and who is not; And how many children (if any) they've got. And say how fast the old are failing And give advice to all the ailing. Suggesting treatments, cures and pills, To heal the sick one's pains and ills. Whose having trouble with their child— Whose kids are good and whose are wild. What marriages are working out— And then they gossip all about. And in the meantime they have told The 'fortys' that they're looking old. And to the plump ones they will state That They'll 'have to watch their weight' And tell the skinny ones they're 'thinner' Until the call is heard for dinner. Tables are filled with food galore What family reunions are noted for. But thru all the noise and clatter, All the gossip and the chatter A deep warm undercurrent lies Of loyal tender family ties. And a really sincere interest in their flesh and blood, their kith and kin And what a grand day this has been. So friends may come and friends may go, But here's one thing we learn to know, That when we're sick or sad or broke We always turn to our own folk."

Harner; Mr. and Mrs. Claude Dorr; Mr. and Mrs. Percy Putman; Mrs. Roy Phillips; Mrs. Ralph Hess and Truman Bowers. LETTER FROM GERMANY

Blankensee, June 12
Capiwista 17

My Dear Mrs. Derr:
Received your dear letter and also the big package, many thanks for all. We enjoyed your letter and pictures very much, you and your husband look extra good to me. Your house is wonderful and the cattle looks very nice, I am glad now that I know your personality, it seems that we are about the same size, only I am somewhat thinner. In your big package there were so many nice things which we can use. The blue summer dress fits exactly, the black dresses I will have to take in a little; the shawls and handkerchiefs are beautiful, the brown cap is also pretty and fits me perfectly. I also can very much make use of the under clothes and the elastic of this I can also give my daughter some but the nice shoes all are a size too small, were very sorry as they are so pretty, and new yet.

Dear Mrs. Derr do you probably have a few old stockings which don't wear any more for shoes size 6 or maybe a pair of men's old socks. All the nice things you sent me as lard, coffee, tea and cocoa is now gone it certainly did help us a lot as the past have been very bad. My husband isn't earning much either since people are out of work and cannot afford to go to the theatre. The theatre was forced to close and so my husband is also out of work now. We see all the nice things in the store windows but cannot buy them, it makes it so much worse now as before we didn't see these things, and now they are here and we have no money to buy with. I am asking you Mrs. Derr to please if you can and wish to send us some food again, we will be thankful and happy as we can use most anything. The butter was very nice and fresh, the bacon and coffee wonderful also the

We have not been able to pay our rent or electric bills and there is very little money in the house, it is not nice to live as we only have worries and what to eat the next day of other things we dare not ever think of. Of all the clothes, linens, towels everything the Russians took our clothes, are now hanging on the wall as we do not have a cloth cupboard. We live in one room and have one electric plate to cook on here in our town is very beautiful, as Blankenese was not bombed during the war.

For Newlyweds and About-to-be-Weds Only!

We had the other a went off in a huff. I was a sorry cook so I had to marry a man who loves food. Was I scared! But now he thinks I'm Oscar of the Waldorf. Sometime I'll tell him it's due to my electric range but until then his ignorance is my bliss. You're a lot like me sis, so here's a tip. When you marry insist on an electric range. Automatic time and temper- ature controls assure perfect results everytime. It's beautiful, smokelessly clean and saves loads of time. Safe too—nothing to leak, spill, burn or explode and, when we have children that will mean even more. If I'm talking a lot about my stove, it's because it's my greatest help in being a good homemaker.

Marching Songs

Lesson for July 10, 1949

WE did not win all the battles we fought with Japan. The day of a certain naval defeat near the Philippines, an American "baby" carrier, left to its fate, was doing its best to get away from the pursuing Japanese. All afternoon it dodged and twisted. Enemy destroyers and planes were hot on its trail, and it was a "sitting duck" in case they really got the range. No one on board expected to live. The only question in anybody's mind was: How soon will they get us? But late in the afternoon, for some reason never explained, the enemy gave up the chase, and the American ship slipped off into the protecting night. The next day, as the men gathered for a special service of thanksgiving, the chaplain read the 124th Psalm. It came as a new Psalm altogether to those men, even to those who had known it by heart:

Dr. Foreman

"If it had not been the Lord who was on our side, when men rose up against us, then they had swallowed us up quick, when their wrath was kindled against us; then the . . . proud waters had gone over our soul. Blessed be the Lord, who hath not given us as a prey to their teeth."

"Let Me Write A Nation's Songs"

THE POWER to thrill has not been lost by the Psalms, as the men on that carrier found out. The group numbered 120 through 134 in our Bibles are known as the "Pilgrim Marching Songs," and were originally used by the Hebrews as they went year by year up to their capital city of Jerusalem and to the Temple which was the center of their religion. Then as now, the Hebrews were a singing people. A nation that cannot sing, a nation without songs, is a dismal country indeed.

Difference among various countries is symbolized by their songs, or the lack of them. The Chinese, for instance, have no song that draws them all together in the same way that Englishmen are united in "God Save the King" or as Frenchmen once were by the "Marseillaise."

When it comes to pass, as once it did in the United States, that one part of the nation will sing one song (say, "John Brown's Body") while another part will not sing that song but another one (say, "Dixie"), then civil war is at the gates. Only people who will sing together can be trusted to live together.

Singing Church

IN the long caravans, marching up the rocky hillside trails to Jerusalem, the ancient Hebrews put their faith into stirring words set to music. So it is always. All over the Christian world, wherever and whenever the singing is good, religion is warm and vigorous.

Where the heart is full, there will be song. Revivals of religion are revivals of singing. To this day a stranger in a strange city, looking for a church home, is most likely to settle down in the church where the singing is the best.

It is not an accident that the Moravian church is at the same time the church that makes more of Easter than some other churches, it is the church where at funerals the music is never sad but joyous, not mourning-songs but triumphant hymns of Christian faith.

Patriotism and Religion

READ these marching Psalms through—the reading time is only a few minutes—and see for yourself how the ancient Hebrew men of God united their praise of Him with love for their country. To this day, in our Christian hymns, patriotism and religion are often combined. The English national anthem, "God Save the King," is a prayer; so is "America the Beautiful." National hymns have a rightful place in a book of public worship. For while patriotism, by itself, is a poor substitute for religion, still a man who will not love his country lacks something of being a good Christian, and on the other hand a man without faith in God makes a very poor citizen.

AROUND THE TOWN

(Continued from First Page)
there is no means of support for them!"

Thoughts carried me quickly back to the movie "The Best Years of Our Lives" with the man minus his arms and right then I thought he was not as helpless as this man without his legs.

As we neared the turn of the corner, we came upon a very busy and beautiful restaurant which was built last year opposite the "Movie" and doing a thriving business. I looked up at the large sign brilliantly electrified as night now was casting its deep shadows between those mountains and I saw a name, "SHINE'S!"

"This is my eldest sons place and that name has always stuck to him since childhood as a nickname. We entered. The interior was as lovely as the exterior. "People laughed at my son when he was having the foundation dug but at the rate the business is going, my son will retire at fifty years of age which he always said he would do when he was a youth."

His pleasant wife was his sole partner although there were several waitresses. We then walked up the hill after having a chat with Shine and his wife and sat down on the porch again. Suddenly the husband of Alice said, "Do you know the history of the chair in which you are seated?" I then grasped the arm and got up looking at the chair with the light from the living room falling full upon it. It was a very old chair—a real Windsor low back spindle affair which sometimes in Grandmother's Day was called just, "The Old Man's Chair" (now they are most valuable and rare). I replied to the question that I had heard the story several times but never thought I would be sitting in that very chair in which a Great Grandfather was killed by an order which was called, "The Molly McGuire" members. Grandfather was a Foreman of the Coal Mines in that locality of West Virginia and there was jealousy and the shot that was fired as he sat upon his porch killed him instantly.

There you have it, folks. Just plain every day life in the houses on Foundry Row way out there in between those mountains So long. Will be seeing you next week. Have a grand week-end. Until then,
Faithfully,
Your

OBSERVER.
