These Fresh Air children are en-joying the country through a pro-gram sponsored by the Herald Tri-bune of N. Y. C. and the gracious hospitality of Mr. and Mrs. Shriner. We received the following letter

from the girls: "A teacher from the Hartley House took us to the Pennsylvania Station and we waited for the train to go to Maryland. We met Mrs. Shriner in Baltimore and Mr. Shriner met us after work and brought us up to Taneytown. We saw people swimming in the middle of the lake.

When we got to Taneytown we went over to see Mrs. Brower on Aug. 7; we saw Mr. Brower unmilking the cows and we saw the calf eating. We saw the 7 little pigs eating their dinner.

We saw hens and roosters flying away. We like it up here. We walk-ed to town. Mrs. Shriner cut three roosters heads off, we ate chicken on Saturday. We went for lots of rides with Mr. and Mrs. Shriner. We get Mrs. S., mail for her, we bring in her groceries, we do dishes. It would be nice if other folks would come down from New York City to Mary-land in the summer. Elizabeth Show. er is coming down to play with us.

FIRE CO. AUXILIARY Held its 1st Meeting on

Thursday, August 11th

ing on Thursday evening, August 11 with an excellent attendance. The president, Mrs. Ethel Garber

presided. Meeting opened by group singing "America the Beautiful" followed by the Scripture reading, and prayer offered by the chaplain, Mrs. F. T. Elliot. Reports of the secretary Mrs. Catherine Clingan and treasurer Mrs. Thelma Frock were read and accepted. Among communications read by the secretary was a letter of congratulation from Congressman William E. Bolton. A registration of new members was conducted. Mem-bers of the Firemen were present including Mr. Donald Tracy, president and Mr. David Smith, vice-president. They spoke briefly regarding State and County obligations, and made gracious offers to assist in meeting

them. The chair-women and committees previously appointed were called upon by the president for suggestions regarding the duties and regulations of each. Among other suggestions Mrs. David Smith proposed a sale of home-prepared foods to be held in the near future, and Mrs. Samuel C. Ott suggested graceful ways of remembering the sick.

It was discussed and decided that the Auxiliary comprise a community club, rather than to be confined only to the Firemen's families. All ladies of the district over 16 years are invited to join this most worthy and vital organization. Indeed the loyal Firemen have been much appreciated for many years, and now the womenfolk have an opportunity to show that appreciation in a practical way. The charter will remain open for at least 90 days from time of organization.

It was stated at the organization meeting by Mrs. Steitly one of the State organizers of Union Bridge, that Taneytown was one of the two remaining towns in Carroll County which was without an Auxiliary. That fact was not so good to hear.

The regular meetings are scheduled to be held on the 2nd Thursday eve-ning of each month at 8 o'clock Day-Night Saving Time and/ at 7:30 o'clock Standard Time.

The meeting was closed by the Lord's prayer prayed in unison.

BROTHERHOOD HOLDS MEETING

The regular monthly meeting of Trinity Lutheran Brotherhood met Thursday evening. Harry Dougherty chairman of the Stewardship Committee presided. Hymn singing was led by David Smith, James Fair accompaning at the piano. Scripture was read by Doty Robb; Prayer was presented by Franklin Fair. The topic for the month "The Christian Church in Leisure Time"

was presented by Harry Dougherty with added comment by Carroll Hess and Franklin Fair. President Franklin Fair had charge of the business meeting which

The The Board of Education is authorized by the State Department of Education to provide transportation within one and one-half miles of the residence of pupils wherever this is possible due to the condition of roads. Every effort is being made to reach within this distance of all pupils of the county when road conditions permit. The superintendent was authorized to proceed with adjustments and revisions in transportation arrangements to the school year 1949-50. Decision was made by the Board re-

garding the purchase of fuel oil from various firms in the county during the 1949-50 school year. The Board ratified the sale of the Robert Moton School building. The superintendent was authorized to meet with the Carroll County Historical Society in the preparation

of a Carroll County Directory in 1950. The Board visited the Robert Mo-ton School now nearing completion had

KIWANIS NEWS

The Taneytown Kiwanis Club met Wednesday evening at Taney Inn with President, John Skiles, presiding. Group singing was held by Kiwanian Raymond Wright with Mrs. Geo. L.

Harner at the piano. County Commissioner Walter V. Bennett was the guest of Dr. T. H. Legg.

President Skiles reported that the crab and shrimp feed was a financial success netting the club \$251.74.

A program was presented by Ma-rian Martin and Caroline Shriner who told of their recent attendance at the 4-H Club meeting held at College Park, Md. This meeting was of a 5-day duration, every hour taken up with certain activities. The young ladies very ably and in an interesting manner told of the fine work done by the clubs at the annual meeting at the University of Maryland. Carroll County had an attendance of seventy-three persons present and was third in registration for this meeting. Frederick county was first in attendance.

The meeting next week will be in charge of Kiwanian Robert Polley.

Judge Boylan sentenced the man on the charge of assault with a dead-ly weapon. Another charge of assault with intent to kill was not pressed.

In suspending the sentence, Judge Boylan listed three provisions Sin-clair must abide by if he wants to stay out of jail. They are: He must get rid of the gun used in the shooting; remain on good behavior during the three years; and abstain from intoxicants.

If Sinclair violates any of the three provisions, he will be sent to the Ma-ryland House of Correction to serve the full time.

BUS TRIP TO ORPHANAGE

The Taneytown E. U. B. Church s sponsoring a bus trip to the Quincy Orphanage and Home, this Sunday, Aug. 21, leaving the church after the Sunday School period. There will be the regular S. S. sessions. A basket lunch is to be brought along and it will be served at the Orphanage on the campus. There is a program being arranged to be given to the old folk, who are not able to attend the Quincy church service, in the after-noon. The buildings will be opened to the group for a visit by all who wish to see what the orphanage is doing for the children and the old

folk in the home. This trip is to take in the summer church camp for the people of the E. U. B. Churches of the Pennsylvania Conference at Camp Penn, at Old Forge. Some time will be permitted to visit the camp and then the trip will be finished by going through the grounds of the Mt. Alto Sanatorium and to Gettysburg, not visiting the battlefield, then home to Taneytown at the starting point. Several busses are chartered for the trip.

LADIES AUXILIARY HESSON-SNIDER POST

There was an interesting meeting of the Auxiliary on Tuesday evening with the president, Mrs. Anna Mae Otto presiding. After old business was taken care of much interest was displayed of the future activities for the members in their endeavors for the Legion Home.

The recent wiener roast was enjoyed by all and the atmosphere was delightful and cool at Big Pipe Creek Park. There were several out of town guests present.

There will be a special meeting held this coming Tuesday night at 7:30 and all members are requested to be present.

followed.

James Fair a member of the game committee reported on the much improved condition of the softball diamond which included recent grading; also of the numerous games of softball recently played and scheduled to

be played. Franklin Fair called to our atten-tion an invitation from St. Johns Brotherhood of Littlestown to meet with them Tuesday evening, August 23rd. Members will meet at the church at 6:15 P. M.

Trinity Lutheran Brotherhood will be host to York Brotherhood on Sept. 21st. It is the wish that our Brotherhood will display a fine attendance as a fine program is in assurance. The meeting closed with the praying of the Lord's prayer.

ACCIDENTS ARE COSTLY

A traffic statistical report from the Maryland Traffic Safety Commis-sion for the month of July 1949 shows 28 killed, 908 injured, \$1170 property damage accidents. During the same month last year, 40 persons were killed, 982 injured and property damage accidents \$1073. The Financial Responsibility Di-

vision for the fiscal year ending June 30, 1949 shows the total amount of property damage loss as reported to that division \$6,112,578.00. Add to this figure the loss of wagesdoctor's fees-pain and suffering for all those injured during a compara-ble period. It is estimated the citizens of the State of Maryland are out-of-pocket in an amount in excess of \$18,000,000.00. How can the irretrievable loss of the fathers, mothers and children be expressed in dollar value?

Britain has switched to Canadian lumber. Why? "One of the principal reasons for this is that Great Britain, using ECA dollars our American taxpayers give her, buys lumber almost exclusively in Canada."

The "proof of the pudding" is that in the first six months of this year British Columbia shipped 218,057,-217 feet of lumber to the United Kingdom, while in lumber mills in Oregon and Washington, America's two greatest lumber producing States, shipped a combined total of only 7,800,704 feet of lumber to the United Kingdom.

In terms of quality and new worksaving conveniences, leading electric appliances like our own Hotpoint Refrigerators, Ranges, Dishwashers and other products are far superior to prewar models.

But that's only the haif of it! In terms of today's cost of living and the price increases of other commodities such as automobiles and houses, our 1949 Hotpoint Appliances actually cost a lot less than the corresponding models of 10 years ago.

For example, you can buy a new Hotpoint Refrigerator now for just \$189.75-only \$10 more than the comparable 1939 model, which gave you far fewer advantages. When you stop to think that the dollar today is worth only 60 per cent of what it was ten years ago, you can readily see how low appliance prices really are now.

The appliance industry has done a great job of building new and better products; while still maintaining the low prices you want. Hotpoint, for example, has accomplished this by

careful planning-having completed the industry's greatest postwar expansion program to provide for more officient production facilities.

Because you get record quality at such low cost. we can say sincerely that now is the time to buy an appliance. In making your selection, however, be sure to look them all over, compare values and ask your friends who know from experience.

We think you'll choose Hotpoint, because we honestly believe that these appliances are as fine as technical fácilities and human skill can produce -and priced as low as any other make of comparable quality.

We invite you to inspect the latest models and see why we say you can "Look to Hotpoint for the Finest-First"-why you can get the greatest dollar-for-dollar values ever offered-right now!

the old time doctor had it all over these smart specialists. He knew Mary from the day she was born until she married and had a family of her own and he also knew what caused her emotional upsets. That is why so many patients leaving the modern doctor's office come away feeling frustrated and cheated. Most of our ills are caused by emotional maladjustments and often one needs not a doctor to give a pill or recommend an operation but a doctor to listen to the trials and tribulations that beset every human soul. I think its time the medical profession realized this and to give the patient a little of what he feels is due him in the way Mrs. Earl Vaughn, Emmitsburg; Miss of human understanding. THE WEST DESCRIBED

The Third Installment Written by Rev. Enfield

This week's reporting begins with Glacier Park, Montana. Montana is a very large state and it takes quite a while to cross it. Glacier Park village is the location of the eastern rail entrance to Glacier National Park. Thousands and thousands of tourists visit this most spectacular scenic area each year. The hotels and chalets operate from June 15th through September 15. While we can only skirt Glacier Park from the

car window, we are told that these parks contain 1,760 square miles of colorful, majestic mountains, 240 jade and sapphire lakes, countless crystal streams and hundreds of rainbowed waterfalls, 60 sparkling glaciers cradled on the sides of magnificent

Singing, Shining Lesson for August 21, 1949

EVERY ATOM of the universe, said Calvin, sparkles with the glory of God. That is our thought for this week: In the created uni-

verse we can see the God who is more wonderful than all his works. The selected Psalms express four different aspects of God's creative power. Psalm 8 brings out the dignity and the glory of man, made to be master of the

earth; Psalm 19: 1-6 listens to the majestic music of sun and stars; Psalm 65:9-13 sees nature as a farmer sees it. in terms of sun, rain and crops; Psalm 104, one of the noblest poems in exis-tence, celebrates God's glory in all things great and small.

Dr. Foreman

Mystery

THESE inspired Psalmists saw a high truth: Nature is for man's use, in part, but has also a value, a beauty and a splendor all its own; and it is one of the ways by which we can know God. What is true of nature is true, far more, of the God who created all things. One of the thoughts suggested to their minds was the mystery of nature.

Even today, with all that science has discovered, there is mystery in the most elemental facts of existence. What is light? What is life? What is energy? Where did it come from and what is the destiny of it all?

A common grass blade performs miracles that chemistry has not yet initiated. The mystery of nature suggests the deeper mystery of nature's God.

Power

1

WE ARE beginning now to realize, even better than the Psalmists could, how much energy there is in nature. We have seen tragic evidence of the atom's pow-Now we have also found that while energy cannot be destroyed, it cannot be created by us, though it constantly changes form.

As the water in a power station which has run through a turbine will not climb back up to turn the turbine again, so the whole universe (they tell us) is in the process of running down.

But how was "the universe born, how was energy born, in the first

Homa Frazan Pass, Roang Equal Commercial Quality

Home frozen neas and snap beans are as fine in flavor and color and as high in vitamin content as those frozen by more rapid commercial methods, savs Miss Mable Doremus, extension foods and nutrition specialist.

Vegetables in pound packages require two hours to freeze solidly by commercial methods, and as much as eight hours in home freezers, yet tests made at the New York state experiment station show no difference in appetizing qualities and nutritive value after cooking.

Many folk have felt that the more rapid commercial freezing makes a better product. It has been suggested that foods should be commercially frozen and home freezers used for storage only. However, the New York station reports, the homemaker need not hesitate to use her home freezer for freezing vegetables at home.

Miss Doremus emphasizes the importance of speed in handling and cautions against packing a large number of unfrozen and therefore relatively warm packages closely in the freezer, since this can slow up freezing enough to start spoilage.

Here Are Some Ideas on Vacation Fun for Children

Summer vacation time neeun't be a trying period for parents, or a time for children to get into mischief. There are many ways for children to occupy their time constructively and enjoyably without getting constantly underfoot—for the mutual benefit of all concerned. Here are a few ideas:

1. Building an outdoor oven or a tree house.

2. Going on a short camping trip in the car.

3. Entertaining grandparents or distant cousins.

4. Turning all meal planning and shopping over to the children, requiring them to budget the family's food money and to learn to cook the food they buy.

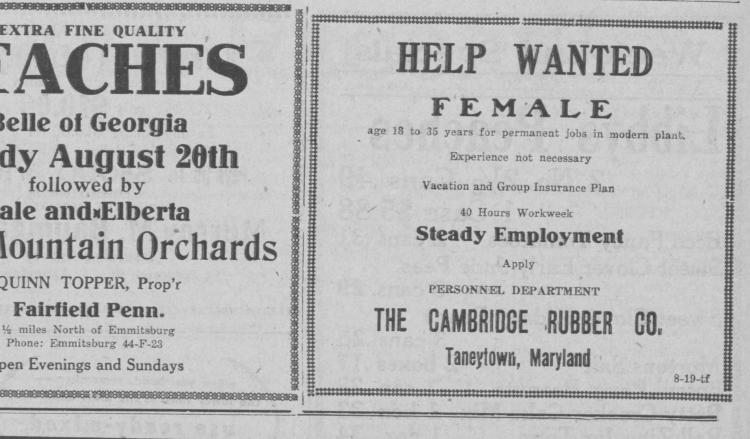

5. Inviting the children's playmates or school friends over for a house party.

6. Giving each youngster a little ground of his own and letting him plant what he wants to. If the children don't take to gardening, they may work like beavers at making a fish pool or bird bath.

7. Stepping up musical lessons to two a week.

place? How was the universe, so to speak, wound up? Science does not profess to know; but religious answers by faith: In the beginning, God . . .

Beauty

THE writer of Psalm 104 was well aware that some parts of nature are useless to man; but he rejoiced in them none the less. Few of his neighbors had any use for whales, for example, but he takes delight in the whale (he calls him Leviathan) just playing in the ocean. St. Augustine, in the same mood, says somewhere about things like wasps and spiders that if we could forget that they bite, we would be greatly awed by their beauty and the perfection of their mechanism. Indeed, St. Augustine, in one of his prayers, calls God "Pulchritudo," Beauty. Just as God is The Truth and The Good, so he is The Beautiful.

Law

THE writers of these nature-Psalms (especially 19 and 65) were impressed by another fact about nature: its regularity. You can count on the sunrise, you always know which order the seasons will follow. Even things like earthquakes and tornadoes, which seem pretty unpredictable, follow laws of their own. Science has now shown this to be true on a cosmic scale. The stuff of which the farthest stars are made is just the same (only a lot hotter!) as the stuff in the rocks under your feet at this minute.

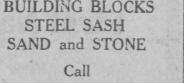

* * *

The laws that govern the fall of a leaf or the shape of raindrop are the same laws that can be seen in the whirling of star-dust fifty million light years away.

The Creator of all is not erratic, eccentric or capricious. He is the God of Law, for from his infinite Mind come all the patterns, known to us or yet unknown, by which the vast fabric of the universe is woven. Mystery, Power, Beauty, Law: All nature, not only the stars, shine with all these—and as Addison

says, 'Forever singing as they shine, The hand that made us is divine."
