FARMERS MEETING

The Fourth Annual Event to be Held in Hagerstown

It was announced this week that the fourth annual Four-State Farmers' Meeting will be held in Hagerstown, Md., Jan. 19, through the co-operation of local farmers, Agricultural Extension services, Agricultural Experimental Stations of four states, and the Rural Department of the Potomac Edison System.

A capacity crowd is expected to fill Franklin Court Auditorium as farmers from four states meet to hear distinguished agriculturists and leading farmers from this area. Questions and answer periods will also be held.

Over 450 farmers from this and nearby counties attended last year's meeting, and the 1949 planning committee stated this week that many more than that number are expected this year if weather conditions are good.

The program for the all-day 1950 meetings has been arranged by a committee of farmers from the counties of this area, assisted by local county agents and the farm supervisors for the Potomac Edison System. Through this three-way planning, a series of topics has been scheduled that will be of unusual interest to all farmers.

The first "Farmers' Meeting" was held in 1947 as something of an experiment. It grew out of the feeling expressed by a number of farmers that they would like to have a chance to get together and discuss local farming problems. They also desired to exchange ideas pertinent to local methods of farming and have qualified agricultural experts bring them news of the latest farming procedures of particular interest to them. These meetings are unique in that they are farmer-planned and directed.

Because of its central location to farmers in West Virginia, Virginia, Maryland and Pennsylvania, Hagerstown has been the meeting point for these winter meetings. Summer meetings take the form of farm tours and are held in various states so as to afford a chance for as many farmers as possible to attend.

Herman Stockslager, President of the Farmers' Committee, has announced that full details of the 1950 "Farmers' Meeting" program will be released in a few days.

Boston, of Taneytown, and the late Mr. Boston, and is a graduate of the Taneytown High School. Her nursing training was at Mercy Hospital, Baltimore, where she was graduated in 1929.

KIWANIS CLUB LOOKS TO ACTIVE NEW YEAR

First Meeting of 1950 Held Wednesday Evening

Under the leadership of immediate past president, John Skiles, the Kiwanis Club of Taneytown held its initial meeting of 1950 at Toney Inn on Wednesday, January 4, at 6:30 P. M. Due to the fact that the new line of officers will not be installed until the meeting on January 11, the immediate past president presided.

The meeting was convened with the usual festivities with almost a 100% of the club members in attendance in addition to the following visitors, Herbert Anders of the Westminster Club and Ed Thomas of the Greenwood Delaware Club.

Acting secretary, Miles Reifsnnyder presented those present with perfect attendance awards. Among those receiving these awards were Raymond Wright, charter member of the Taneytown Kiwanis Club who has achieved the enviable record of 11 years of perfect attendance. Others with outstanding attendance records are Dr. Chandos Bonner, 8 years; Norman Graham, 7 years; George Hainer, 7 years; Clyde L. Hesson, 7 years; Wallace Reindollar, 7 years; Charles Stonesifer, 6 years, and Samuel Breth 6 years.

The group singing was conducted under the leadership of Wallace Reindollar, chairman of the music committee for 1950 and accompanied by Mrs. Estella Yingling at the piano.

Sam Breth, chairman of the committee on laws and regulations for 1950 had charge of the evening's program and introduced Dr. Charles Williams, practitioner, Pikesville, Md., who spoke on the currently important topic of socialized medicine as provided under the "Wagner-Murray-Dingell Bill" which is now pending in Congress. Under the proposed legislation doctors, according to Dr. Williams, would lose their opportunity to make their own selection as to where they desire to establish their practice, thus much incentive would be lost for those young men who might be thinking of entering this profession. It would also lessen the incentive for doctors now practicing due to the fact that the all important competitive spirit which goes hand in hand with any free enterprise system would practically become nil.

He cited that the socialization of medicine, as one important statesman has expressed, is the "Keystone" to the Arch of a Socialistic State" cases under the law as handled by doctors would become public knowledge and thus all privacies would be lost and a doctor could no longer be held to keep an individual's condition in confidence as is now the case and is necessary under the ethics of the profession. Using England's experience under a program of socialized medicine as a guide it was found that the tax burden of each citizen was increased considerably, that industrial absenteeism had a sharp increase since doctors are obligated to care for all illnesses, whether actual or imaginary, and that employers can not in any way question the authenticity of any employee's illness. The death rate in England increased by some 72,000 and medical research has been reduced practically to a stand still.

Dr. Williams stated that under our present system needy families and individuals are provided for by various county, state, and national institutions and other welfare organizations. He also brought out the fact that in the recent past voluntary health insurance has been on the increase and those of the profession advocate this means as the correct method for assistance in regard to adequate protection should illness occur.

At the conclusion of the meeting a board meeting was held with president Lewis Crumbacker presiding and plans were further discussed for the year of 1950. Next week's meeting will be conducted by the Lt. Governor and the newly elected officers will be installed.

CONGRESS CONVENES

First Day Session, Jan. 3, Mere Formalities

President Truman delivered his State of the Union address to a joint session of both houses on Wednesday, January 4. All major radio and television networks carried the speech. Shortly before Congress convened, Mr. Truman gave his congressional command an advance look at his message.

The reactions to his message were mixed. Taxes raised, taxes reduced, socialized medicine, balancing of the budget, repeal of the Taft-Hartley law and other promises and demands will surely mean a stormy session when the law-makers finally get down to business.

CHORUS ELECTS OFFICERS

The Brotherhood chorus of Trinity Lutheran Church held a special practice and meeting Wednesday evening following the Week of Prayer service.

A special business meeting was called following a short practice with President Harry Dougherty in charge. The financial report for the past year was presented. While shopping hunt up one of these boxes and drop in your contribution for this worthy cause. AROUND THE TOWN

With all my heart, I wish you every morning
A smile that shall last until the next day's dawning.
I wish you health—life's greatest wealth!
I wish you always near so that I may help to cheer
Each future day and in some way—help to bring you happiness!

Things that happened during the holidays. Queen Elizabeth of England in diamond tiara and flowing green gown waltzing with the liveried footman and her daughter, Princess Margaret dancing with the clock winder in Buckingham Palace until the wee hours of the morning! This party is given yearly which is the household Christmas party. How Democratic!

A package arriving from Munich, Germany from the poor Jewish family who have written that they are now on their feet doing nicely by the Grace of God even to getting possession of their home which was taken from them during the war! There was beautiful hand work, and delightful fancy cookies—the like which Your Observer has never seen!

Of all the Christmas cards which arrived one touched me deeply and that from that wonderful aged Deaconess of the Methodist Church from her home in Elston who now is blind and remembering also our Taneytown!

Parsley which Your Observer planted early last Spring and bought from 'around the town' picked on Christmas day for the 'stuffing' of that huge turkey also bought in Carroll County!

Flour used in the pies and what-not from Middleburg. Just the best flour in any place!

The little infant spending his first Christmas at "Loves' Retreat" and enjoyed it all as he did not cry once! What is nicer than a baby in the house especially at Christmas?

The walk along Lexington Street just to be amongst the throng edging your way left and right—jostled along with the cheery crowd! Hundreds carrying Christmas parcels for eager children on Christmas morning. The same Salvation Army booth with the loud speakers facing East and West. Many children awaiting to shake hands with Santa in all the department stores to hear the same, "What's your name? Are you a good boy or girl? How old are you? Keep moving!" The expression on the faces of the parents should have their pictures taken instead of the children as they await their offspring in the big line!

The same frightfully deformed man laying on the sidewalk on Lexington St. with his cap in his lap which is already filled with coins by the passer-by. You recall the article which was written about him in the Baltimore papers a few years ago which read this man was wealthy and had a Chauffeur driven car. He places him on the sidewalk in the morning and calls for him around the hour of four in the afternoon. He has aged much since you last saw him. You wonder if that story is really true!

You come upon a lady who is trying to attract the taxi which she just left, with a loud whistle from her lips but he does not hear and drives away with the Christmas parcels she had forgotten on the seat as she jumped out! There is no way you can aid her but tell her quickly to phone the company of the store to do as you rushes into the store to do as you request and you hope she will be successful in the recovery of the parcels.

As you turn to go in the other direction you hear a burst of laughter and excitement which ran like this, "Oh—Mildred, I just saw Jean and I handed her the Christmas present which I discovered after was the wrong one. The one I gave her was for Grace and which was much more expensive than the one I was to give Mildred!" The girl was so excited and talking so loudly that everyone nearby laughed heartily!

You see the splendid Movie Titles as you pass them by with very few patrons entering those houses. Perhaps Television after all is taking the place and satisfying the public. The theatres will eventually, no doubt offer something quite interesting on the side to appeal to the disinterested individual. You feel it will come to that, anyway.

You enter another store and see quite a mob at one counter. Your curiosity is aroused and you venture nearer. All women buying the same thing—a brass and steel utility tool—a 6 in. item that has many uses for less than a dollar. You manage to get to the counter after the others have been handed the wrapped package and you say, "I would like one, too!" It should be in every household. Since the purchase you have shown it to dozens who say, "Where did you get it. Oh, I'll have to get one!" etc.

As you walk out of the store and a few paces up the street, you see the same Flower man with whom you have dealt for many years. You smile and he smiles and you say, "A Dozen White Roses, please this time!"

You border the street car in the direction where Lincoln is parked and as you enter a Continental arises to offer his seat to you. You thank him and smile again. As you leave the street car at your destination, he tips his hat and says, "Merry Christmas to you!" You reply, "The same to you, Sir!" As you drive slowly toward home, you are glad you again mingled with the throng and wish it could be just like that all year round. So, I, too, have a merry Christmas end. Try to hold on to that Christmas spirit! Will be seeing you. Until next week.

Faithfully,
Your OBSERVER

KEEP THEM SEPARATE

Church and State united have done pretty well in England but the idea doesn't seem to work very well here. We are made of different stuff. The average American is an independent thinker and he acts on his own thoughts and not that of another.

We are liberal people—too liberal I sometimes think. We are now called upon to feed a starving world and are doing our part nobly, but I sometimes wonder if it wouldn't be better to send ideas rather than dollars abroad.

The land in Europe is as rich and well watered as it is here. If Europeans spent as much energy in cultivating the soil as they do in begging from us both countries would be better off. It is alright to share our crust of bread but not quite right to give up the whole loaf.

W. J. H.

IS IT TIME TO SPEND BILLIONS MORE?

If anyone wonders why the cost of the Federal government is just about the most critical domestic issue we face, a tabulation recently printed by Reader's Digest will make the reason clear. It simply shows the amounts of money spent by each of the Presidents from the beginning of the nation up to September 30, 1949.

In the early days, Federal spending amounted to peanuts compared with modern standards. Washington and Adams each spent a little more than \$34,000,000. Lincoln had a war on his hands, yet his budgets totaled only \$3,252,000,000. Thereafter, expenses went down again. McKinley, for instance, spent just over \$2,000,000,000.

The first really big budget came with the first world war and the Wilson Administration—nearly \$47,000,000,000. Again expenses dropped, Coolidge and Hoover together spending around \$34,000,000,000.

Then came the depression, President Roosevelt and the New Deal. During the first eight years in office Mr. Roosevelt's administration cost some \$67,500,000,000. The grand total for all Presidents through 1940 was \$179,620,000,000. And that total, it must be remembered, covers more than 150 years of our history.

Reader's Digest leaves out the extraordinary expenditures of the World War II years—1941-45. It then lists President Truman's spending from the 1946 fiscal year to the end of September, 1949. It adds up to over \$191,000,000,000—nearly \$12,000,000,000 more than all his 32 predecessors spent except for the 1941-45 period.

Here is a very revealing picture of the way the nation has gone. It is true that conditions have changed over the years. But it is also true that the government has expanded in every direction to a point far greater than most of us realize. Mr. Truman is now a symbol of that expansion, but he is not the major cause. Pressure groups of every kind have grown infinitely more adept and powerful, and officeholders of both parties have fallen into line. The results are our huge budgets, with recurring Federal deficits in spite of these budgets.

A noteworthy development is the concern over our fiscal affairs which is being expressed by people who are not conservatives. Speaking of taxes and deficits, Dorothy Thompson says, "This appalling discrepancy between what is spent and what is raised occurs when the national income is near the highest in history. It is an absolutely reckless example of the spirit of 'after us the deluge.' A great deal more pressure to cut the

cost of government may be expected in the future than in the past.

Pigs Get Hemophilia

Hemophilia, the "disease of royalty" that causes victims to bleed to death from slight abrasions or other bodily injury, affects pigs and dogs as well as human beings. In dogs and people, it is known to affect only males. In pigs, however, both females and males may be stricken. It is reported only rarely in animals, but may be more prevalent than reports indicate, due to the inability of owners to recognize the condition. Hemophilic animals usually do not live longer than a few weeks because even minor injuries cause fatal hemorrhages.

Western Trees

West coast tree species put on their most growth during the second 50 years of their life. After that the volume of new wood added begins to decrease and the volume of decay increases. At the age of 300 years, volume of decay added begins to exceed the volume of new wood and the total volume of good wood in the old tree actually decreases each year.

National Forest Wildlife

More than two million head of deer, elk, and other big game animals—or about one-third of the nation's total big game population—live on the national forests. The forests contain 90,000 miles of unposted streams and one and a half million acres of fish-producing lakes. In 1948 they played host to four and a half million hunters and fishermen.

Does a neighbor help a little, as along your way you go, help to make your burden lighter? Then why not tell him so? Does a handclap seem to lift you from the depths of grief and woe, when an old friend shares your sorrows? Then why not tell him so? Do the home folks help to cheer you when your hopes are sinking low? Their own pathways will be brighter if you only tell them so. Does not Providence give you many blessings here below? Then on bended knee before Him, frankly, gladly tell Him so.

The Never Weary Class of Emmanuel Baust, Lutheran Sunday School held their regular monthly meeting on Tuesday evening at the home of Mr. and Mrs. Edward Hailey this place, with Mr. Delmar Warehime as leader. Every night around six, a tired-looking man would board the street car in New York City. Each evening he would remark that his feet hurt. One night the conductor asked him why he didn't buy another pair of shoes if the ones he had been wearing were uncomfortable. "Well, it's this way," the man said. "I have so little in life. A year ago my wife left me. My son is in jail. My daughter ran away from home. And the only comfort I have when I get home each night is to take off these shoes."

FEESERSBURG

Polio will hit again next summer—you can be sure of that! And money, as much or more than the 31 million dollars used to fight the disease in 1949, will be needed to help stricken boys and girls, men and women—very probably some from your community. That's why your gifts to the annual March of Dimes, January 16-31, conducted by the National Foundation for Infantile Paralysis, is so

important. When you think of the great need, you'll enjoy giving generously to the March of Dimes when it begins in your community. Contributions are spent by the Foundation in two principal ways: (1) Boys and girls hit by polio are helped back to health by the use of iron lungs, medical and nursing care and assistance with hospital bills; (2) Scientific research is financed and aimed at eventually stopping polio. The need is urgent. The average cost to rehabilitate a polio victim is \$24,000. Give generously to the March of Dimes, January 16-31.

The Dairymen's Transportation Co-operative, Inc., operating a milk and freight business between Union Bridge, Keymar and Baltimore has been sold to "Redlands" owned by William K. Unger, of Keysville. The Union Bridge Firemen were called to the home of George Eyer, in Middleburg to extinguish a chimney fire, Tuesday evening. It was only a matter of seconds after the alarm sounded until the firemen were on their way. Union Bridge and surrounding communities have every right to be proud of their fire company and ambulance service. It is to be hoped that in the future the public will be as quick to respond to the Fire Company's appeal for funds and support as the firemen are to respond to an alarm.

Rev. Donald Warrenfeltz of the Gettysburg Seminary was in charge of the church services at Mt. Union Lutheran Church, Sunday afternoon, at 2 P. M. The title of his sermon was "Faith in the New Year" using as the text the 13th and 14th verses of the 3rd chapter of Philippians—"Brethren, I count not myself to have apprehended; but this one thing I do, forgetting those things which are behind, and reaching forth unto those things which are before, I press toward the mark for the prize of the high calling of God in Christ Jesus." At the conclusion of the services the members voted to offer Rev. Warrenfeltz the Uniontown Lutheran Parish consisting of four churches, to fill the vacancy left by the Rev. Andrew Theisz, who left this week for his new charge in Baltimore. The Rev. Warrenfeltz will graduate from the Gettysburg Seminary in May.

Pillow Cases

When a bed pillow seems too firm
 and fails to cushion the head prop-

 for the trouble—a pillow case
 which is too tight. Homemakers will
 find their pillow cases will wear

Answer to Puzzle No. 9

Series K-48

No wonder they're calling them

"TOP CHOICE FOR 'FIFTY"

They're greater in power—higher in compression—a
 standout in styling—dreams to drive—and now there's
 a Buick beauty for 1950 to fit practically any budget

No, we just couldn't hold back the
 whole big Buick line for 1950.

They're too good-looking—too much fun
 to drive—too jam-packed with stepped-up,
 higher-compression, ready-to-ramble
 power—to be kept under cover.

So maybe you've already seen some
 1950 Buicks on the highway.

Maybe you've noticed the extra "git up
 and travel" they have—glimpsed the wide,
 curving windshields (one piece in most
 models)—noted, approvingly, that the
 typical Buick taper is now found in all
 Buick fenders.

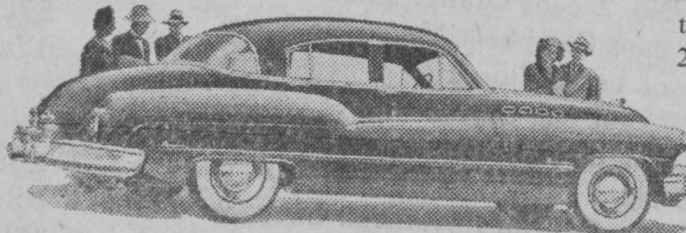

Maybe you've even heard some things...

That there are more than a dozen-and-a-
 half models to choose from. That there
 are three power plants in the Buick line
 —all of higher compression, all stepped
 up in power.

That all models are big and roomy inside
 —some rear seats are better than a foot
 wider than before!—yet in every instance,
 shorter over-all, so easier to handle, park
 and garage.

Above all, maybe you've heard of
 exciting news on price...

That Dynaflo Drive, for instance—
 standard on ROADMASTER models, op-
 tional on all others—now costs
 20% less than on 1949 models.

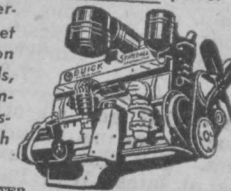

LOTS OF LUGGAGE SPACE, plus a high-fashion rear-end treatment, graces
 the Buick four-door Sedan models for 1950. This is the ROADMASTER, and
 above is the SUPER version of this much-wanted 4-door, 6-passenger Sedan.

Phone your BUICK dealer for a demonstration—Right Now!

POWER NEWS WITH A REAL PUNCH!

Here's just one part of Buick's three-way
 power story for 1950—the brand-new
 F-263 valve-in-head straight-eight. Pack-
 ing a wallop that makes the SUPER a stand-
 out performer of the season, here is still
 higher compression and still greater power
 in no greater over-
 all size. You'll get
 this new engine on
 all SUPER models,
 in 124 hp with Syn-
 chro-Mesh trans-
 mission, 128 hp with
 Dynaflo Drive.*

*Standard on ROADMASTER,
 optional at extra cost on SUPER and SPECIAL models.

That in the full line—SPECIAL, SUPER and
 ROADMASTER series—there is a Buick to
 fit practically every budget above the very
 lowest!

Pictured above is the 1950 SUPER 4-door
 Sedan, one of the new Buick body types
 for 1950. At your Buick dealer's are more
 actual models, the whole story on others.

Hadn't you better see him—right now—
 and see if you, too, don't find Buick "top
 choice for 1950"?

The Church Dynamic

Lesson for January 8, 1950

THE CHURCH is not meant to be a club, a lecture-hall, a debating society, a rest home, a music hall, an entertainment bureau or a burial association. It has something to do along all these lines, of course. But the Church is meant to be a place and channel of power. One of the last things Jesus, the Founder of the Church, said to his friends was: "Ye shall receive power when the Holy Spirit is come upon you." Not—you shall receive comfort, or wealth, or insight, or any other good thing, though all of them have their place. What Jesus highlights is power.

Dr. Foreman

Dr. W. M. Horton, in his little book on the Christian faith, asks: When is a church not a church? His answer is: When it has lost the Holy Spirit. That is a good New Testament answer.

The early Christmas could not have imagined a church without the Holy Spirit, because in fact there had never been one without him. It was the coming of the Spirit on that summer day in Jerusalem that actually made the church, in the first place. True, it was not made out of nothing.

But suppose the Spirit had never come? What would have happened? Sooner or later the little band would have grown tired of waiting, would have given up faith in Jesus' promise, would have drifted off one by one, and the Christian church would have died before it was born.

Tongues of Fire

THERE SEEMS to be something mystic, mysterious and unreal about the Holy Spirit, to most people's minds. We read in Acts about the flaming tongues of fire, about the rushing mighty wind, about Christians talking in strange languages; and then we go to our own church and find there no fire, no wind; only ordinary English is spoken by everyday people, the same people we have been seeing all week.

We get to thinking the Holy Spirit is just something in the Bible, some experience they could have away back yonder, but not here and now. After all, looking over the church from that day to this, and around the world at the present day, how many cases, authentic genuine cases of fire-on-the-head or storm-in-the-church-house, do you find? Not many! Does that show the Holy Spirit is not here any more?

We must remember that St. Paul met with much the same questions. Did a man have to speak in strange tongues to be sure he had the Holy Spirit? Fortunately, Paul stated in so many words what the fruits of the Spirit are: Love, joy, peace . . . Look up the rest of it in Gal. 3:22-23.

You may take St. Paul's inspired word for it: If you ever see a church, a Christian group, that is notable for love, joy, peace . . . gentleness, goodness, faith . . . you may be sure the Holy Spirit is there. We do not gather grapes from thorns nor figs from thistles, Jesus says.

You don't have the fruits of the Spirit without having the Spirit. And that is Power. Said a great Australian preacher: Show me a church where the members treat one another with more real love than the people outside the church treat one another, and you will find men crowding the doors of that church to get in.

How Can We Get the Holy Spirit?

WE CANNOT GET the Spirit by wishing ourselves back in the first century. We can have the Holy Spirit now, on the same terms as always. There are no new conditions, no complicated rules, no application blanks to fill out. Jesus said: God will give the Holy Spirit to them that ask him; Paul said: Covet earnestly the best gifts.

In any church, if there is even a small group who want the power of God in their lives, who want his power for the church, that little group can change that church and change the community. Power passes through a wire when one end of it is attached to a dynamo and the other end to a machine that is doing some work.

Prayer—that is the touch with God. Service—that is the link with man. So power will flow through the Church when at one end it is in touch with God, and at the other end it is doing something real for human needs.

The advertisement below was published in this paper some months ago. Since that time permission for its use has been requested by companies, organizations, and individuals all over the United States. It has been published in countless newspapers, and magazines and sent out as a mailing piece. It tells a story worth reading, or if you have seen it before, re-reading.

THE STORY OF TEN LITTLE FREE WORKERS

THESE ARE THE WORKERS

REDDY DOCTOR RAILROADER MINER STEELWORKER FARMER LAWYER GROCER SALESLER REPORTER

Ten little free workers in this country fine and fair.
But if you cherish your freedom—worker have a care!
Ten little free workers—Reddy was doing fine
Until the socialists got him—then there were nine.

Nine little free workers laughed at Reddy's fate
Along came federal medicine—then there were eight.

Eight little free workers thought this country heaven
But the government took over the railroads, then there were seven.

Seven little free workers—till the miners got in a fix.
Uncle said coal's essential and took over leaving six.

Six little free workers 'till the day did arrive
The steel mills too were federalized—then there were five.

Five little free workers—but the farmers are free no more
The farms have been collectivized—that leaves only four.

Four little free workers till the government did decree
All must have free legal advice—then there were three.

Three little free workers—the number is getting few,
But with government groceries selling food—then there were two.

Two little free workers—our story's almost done,
With clerks at work in federal stores—that leaves only one.

One little free worker—the reporter son-of-a-gun
Mustn't criticize government—so now there are none.

Ten little workers—but they are no longer free
They work when and where ordered, and at a fixed rate you see,
And it all could have been prevented if they'd only seen fit to agree
And work together instead of saying "it never can happen to me!"
