SENATOR HOFF SPEAKS

Address Made at Kiwanis Meeting

At the invitation of Kiwanian Bob Polley, chairman of the Publicity and Business Affairs Committee, State Senator Stanford Hoff addressed the Taneytown Kiwanis Club at its regular meeting on Wednesday evening. Due to the illness of President Lewis Crumpacker, Vice-President David Smith, presided.

At the conclusion of the usual fellowship of eating and singing the meeting was turned over to the committee in charge.

Kiwanian Bob then introduced Senator Hoff who delivered a most interesting address concerning state matters in which all present were interested. Some of the facts which he conveyed to those in attendance included the announcement that the 1950 session of the state legislature is to begin on February 1st, 1950 and is scheduled to last for a period of one month. He stated that early in 1930 a legislative council was established to serve as a screening agency for all proposed legislative matters to be discussed at the regular session of the legislature. This council has proved its worth since it has lessened to a great extent the cumbersome problem of processing legislation through the larger body. State Senator Hoff has been serving on this council during the past year and has, therefore, become quite familiar with the proposed legislation to be discussed at the next session.

In 1940 he stated the state had a budget of approximately \$20,000,000. It has been necessary to increase this budget to approximately \$80,000,000 in the year 1950. Quite naturally, therefore, taxes have been increased proportionately in order to meet the budget. Since this is an election year we can expect some forms of tax reduction to be passed during this session or at least promised for the next session. This reduction will come, no doubt, in the form of a greater exemption for dependents in connection with the state income tax regulations plus a substantial reduction in corporation taxes. He advised, however, that we should not be blinded by promises of permanent reduction in our taxes since by making the suggested up its accumulated surplus. It is quite natural to assume that further changes will be instituted in the tax rates in order to offset this deficit in later years. Commenting on the federal security and welfare measures which are at present being discussed in Congress, Senator Hoff stated that we, too, in Maryland should be attentive of the state legislation which might be proposed in this regard. Maryland ranks third as being the most liberal state so far as welfare is concerned, being topped only by the states of California and New York, respectively.

There is a likelihood that greater restrictions will be placed on motor vehicle operators between the ages of 16 and 21 years since it has been found from studies that this should be done in so far as from a safety point of view, both of the financial and humanitarian aspects. In concluding his remarks Senator Hoff stated that he would like some time in the near future to propose some form of a zoning law for the various municipalities of the county stating that it is felt that this type of restriction is deemed wise in order to protect the valuation of residential sections of a community.

Further consideration, too, is to be given to the periodical inspection of automobiles as was done back in the late thirties.

At the conclusion of his remarks Senator Hoff offered to answer any questions which might be in the minds of those in attendance.

Next week's meeting will be in charge of the Attendance and Membership Committee of which George Crouse is chairman, at which time we are expecting to have a representative of the Internal Revenue Department address the group.

Group singing was conducted under the direction of Wallace Reindollar with Mrs. Stella Yingling at the piano.

There was one guest in attendance namely, Robert McCarty, district representative of the Ford Motor Co. who was a guest of George Crouse.

The real purpose was to organize and set a definite goal to work toward in our class and church. Many topics of business were discussed. The class was well represented and we are hoping more will attend the next meeting, which will be with Mrs. Lewis Reifsnider, on York Street, Feb. 7.

After a contest and a period of fellowship, the hostess served refreshments.

CHAMBER OF COMMERCE MEETS

Officers Installed and Committees Appointed

The Chamber of Commerce held the January meeting in the Municipal Hall last Monday night with President Merwyn C. Fuss in the chair. David Smith, vice-president, reported for the Merchant's Christmas committee that 2200 posters and 264 circulars were sent out in preparation for the Christmas celebration. Rev. Charles S. Owen reported for the Community Christmas committee, that we enjoyed the most elaborate Christmas festivities on record this past season. Letters of appreciation were voted to those who had part in the success of the undertaking. Edward Reid reported that pictures of the Christmas festivities would be shown at the next meeting.

The new officers of the Chamber for 1950, properly charged and installed by Sam Breth, were as follows: President, Merwyn C. Fuss; First Vice-President, David Smith; Second Vice-President, Rev. Charles S. Owen; Secretary, Bernard J. Arnold; Treasurer, Charles Arnold. The treasurer reported that the cost per member for the annual banquet was \$5.60, which was paid for by the Chamber of Commerce. Thus by this one act alone each member received back nearly half of his annual dues. Chester Cartzenadner, new member, was introduced. He gave a good pep talk to the members present.

President Fuss reported for the Executive Committee about the special committee to be set up. On motion these special committees were set up as follows: Industrial Committee, Sam E. Breth, chairman, William B. Hopkins, and Arch Carpenter; Merchants Committee, R. M. Polley, chairman, C. G. Bowers, and Edly Reid; Public Relations Committee, Rev. Charles S. Owen, chairman, B. J. Arnold, and Raymond Perry; Program Committee, Merwyn C. Fuss, chairman, Elwood Baumgardner, and George N. Shower; Finance Committee, Charles Arnold, chairman, Murray Baumgardner, and Carroll Wantz; Membership Committee, David Smith, chairman, Merle Ohler, and Harry Dougherty.

Sam Breth, chairman of the Industrial Committee, reported on the new industries seeking to come to Taneytown. B. M. Polly, chairman of the Merchant's Committee, offered the following resolution:

"That the Retail Merchant's and Business Men's Association be merged with the Chamber of Commerce to be known as the Merchant's Division of the Chamber of Commerce. This Division to meet the 4th Monday of each month at 1:00 P. M., in the Taney Inn to formulate policies and make recommendations governing the retail trade of Taneytown. These recommendations and reports to be made to the Chamber of Commerce at their regular monthly meeting. All members of the Chamber of Commerce who are merchants or who have trader's licenses automatically become members of the Merchant's Division." On motion the resolution was adopted. The recommendation of the Executive Committee to give \$150.00 to the Taneytown Athletic Association, was adopted.

Mrs. Paul Wimert, Chairman of the Carroll County March of Dimes, was presented. She spoke about the great service being accomplished for Polio victims, and that it required about \$2800 to take care of one patient for a year. She likewise alluded in the question period, to what is being done for the polio victim afflicted in Taneytown last year, as a means of correcting the rumors to the contrary. She pointed out that there has been so many new cases of this dreaded cripple of children that the reserve funds have been exhausted, and that the present lag in the drive in Carroll County this year, is creating a shortage of funds to take care of present needs. The Chamber of Commerce went on record as supporting this March of Dimes and urging the community to get behind it with a generous response. An offering was then taken for the cause. In spite of the fact that many had already made their contribution.

LIONS CLUB NEWS

Rev. Morgan Andreas the Guest Speaker

With President Robert Feeser presiding the Taneytown Lions Club met in regular session on Tuesday evening at the Taney Inn. Following the prelude and the consumption of a tasty dinner prepared by the Taney Inn, President Feeser introduced a delegation of Lions from the Manchester-Lineboro Club. Those making up this delegation were Jacob Warehime, C. C. Mitten, R. B. Wink and Albert Warehime. Secretary, Don R. Webb read a letter of invitation from the President of the New Windsor Lions Club to a Valentine dance being held by that club on the evening of February 3. President Feeser congratulated our club on its goodly number of visitations made during the past two weeks.

Our guest speaker, a Godly man with power and meaning behind his words, Rev. Morgan Andreas, Pastor of Taneytown Grace Reformed Church, was introduced by program chairman Raymond Perry. Rev. Andreas message was the first words of our National Anthem—"O Say can you see". His first thought was "O say can you see" and appreciate the priceless heritage that has come to us as a result of skill, thoughtfulness and hardship of such great men as Columbus who discovered America, the land which is now so dear to our hearts; Our Pilgrim Fathers who braved death and dangers of coming and establishing themselves in a strange country never before inhabited by white men. Rev. Andreas also made worthy mention of five of the greatest men our country has ever known. First—Benjamin Franklin, a man of keen insight; second—George Washington, our first President and Commander-in-Chief during the days of the Revolution; third—Abraham Lincoln who was one of the most outstanding of all great men and a man with a sense of unity in his heart. He was a man with all vice toward none and charity for all; Fourth—Thomas Edison, a man who had a vision of things of supreme importance and for whom we can give credit for many of the resultant modern inventions of our day; Fifth—Franklin D. Roosevelt who has been claimed one of the most outstanding men in the past fifty years. A man who successfully directed a country through one of the greatest wars through one of the greatest "O say can you see" what the untiring efforts of these men have meant to us. "O say can you see" our great responsibility to our younger generation who will be our leaders to see that they have every possible opportunity for receiving the very best in education, recreation and social opportunities that are basically pure and sound. Of that importance should be our interest in the health of our younger generation with a first thought toward providing proper sanitary means in our communities. We should also be more concerned in the way we are disposing of our natural resources in order to assure this younger generation a continuous supply of these valuable minerals. Rev. Andreas brought to our attention our responsibility in doing all within our power in helping establish international peace. Plans are for this country to spend during 1950, in preparation for war, an amount equal to \$113,000 for every man, woman and child in the United States. If this amount could be spent in preparing for peace we can readily see the good that would be accomplished. We, as a people, must learn to be more of a God-fearing people. We cannot expect God to shower us with blessings unless we are mindful of Him. "O say can you see" the responsibilities placed upon us.

President Feeser announced our next meeting, February 14, as being, not only ladies night, but a meeting, assured by our Program Chairman, Raymond Perry, as one quite different from anything we have ever had. So every member is urged to be present.

TRAGIC DEATH

IN LITTLESTOWN

Eight-Year Boy Killed by Airplane Propeller

The (Hanover, Pa.) Evening Sun contained the following account of the tragic death of the little grandson of Mr. and Mrs. William E. Ritter, East Baltimore Street:

"A little boy, who would have celebrated his 8th birthday Saturday, was killed instantly Wednesday evening when his body was chopped by a whirling airplane propeller near his Littlestown home.

Richard Sharrer Ritter, son of Mr. and Mrs. Luther W. Ritter, 405 East King St., Littlestown, was the victim. The child's right forearm and left leg at the hip, were amputated.

Dr. C. G. Crist, Adams county coroner, reported that death was instantaneous. He also said that there will be an inquest into the accident which happened while a neighbor was repairing an airplane.

Leon H. Gage, Littlestown police chief, and the boy's father reconstructed the events leading to the accident as follows:

About 5 o'clock the boy's mother asked him to take waste paper from the house to an incinerator on the edge of the alley to the rear of their property. While so doing, he noticed a small airplane which Paul Luckenbaugh, next door neighbor, was repairing and joined a group of neighborhood children in watching the operation.

When Mr. Luckenbaugh started the engine, the rope with which the plane was grounded apparently broke and released the plane from its moorings. The children scattered, but Richard was caught by the churning propeller as he ran away. His brother Carl was in the group that escaped.

Richard was born Jan. 28, 1942, in the Annie M. Warner Hospital, Gettysburg. Invitations for a party in celebration of his 8th birthday on Saturday, had already been issued. He was in the third grade of the Littlestown public school, in the upper fourth of his class. He was a member of the Sunday School class taught by Mrs. Stanley M. Staub, at St. Paul's Lutheran Church, and also a member of the Junior choir of the church.

Surviving are his parents, two sisters and a brother, Mary, Martha and Carl; his paternal grandparents, Mr. and Mrs. William E. Ritter, Taneytown; his maternal grandfather, Newton O. Sharrer, Rocky Ridge, Md., and his maternal great-grandmother, Mrs. Clara Sharrer, York.

His father, Luther Ritter, is president of the Littlestown Joint School Board; Secretary-treasurer of the Littonian Shoe Company, secretary of the Littlestown Rotary Club and a trustee of St. Paul's Lutheran Church. His mother is the former Margaret Sharrer.

The funeral will be conducted from St. Paul's Lutheran Church, Littlestown, on Saturday afternoon at 1:30 o'clock, with the pastor, the Rev. David S. Kammerer, officiating, assisted by the Rev. John C. Brumbach, pastor of Christ Reformed Church. Interment will be made in Mt. Carmel cemetery. The viewing will be at the J. W. Little Funeral Home on Friday evening.

AROUND THE TOWN

With all my heart, I wish you every morning
A smile that shall last until the next day's dawning.
I wish you health—life's greatest wealth!

I wish you always near so that I may help to cheer
Each future day and in some way—help to bring you happiness!

The street car raise again in Baltimore is surely causing quite a rumpus. Betcha, that through this, the used car business will take a big jump!

Nineteen 49 was surely a great year for romances! "Cary Grant and Betsy" "Clark Gable and Lady Ashley", "Vice-president Barkley and Hadley", "Rita and Aly" and "O'Dwyer and Simpson".

A very attractive widow with three sons from Washington are living on a farm out toward Littlestown. Charming is the word.

In a recent newspaper on a Sunday there was quite a lengthy article, which was really a warning, stating, "Don't plan to come to live in California unless you have a position and a home to go to all prepared for your arrival" otherwise you will be going right back where you came from. That evidence was right around the town less than a year ago.

Now, here's to any telephone company. When work is to be done which would affect the usage of the subscriber's phone in either out or incoming calls why not notify the subscriber? On January 5 all contact was off until 4 in the afternoon and two most important and urgent calls did not get through.

If you missed that grand oyster and ham dinner last Saturday cooked and served by the men over at Middleburg Methodist Church, you sure missed a real dinner! This is the men's third season for such a feast! How very calmly they cooked! It was a treat to watch them. The men who served were all in white coats.

If Bert Parks calls you on "Stop the Music" Sunday night for the m-y-t-e-y tune, be sure the answer is "Alla" and you will win that Jack-pot!

Here's to our nice Mayor and City Council. Everyone seems pleased about the parking meters and the store owners stated now the customers can park their cars where otherwise out of town trucks would be parked all day.

Believe it or not, there is a real St. Nick's sleigh out the 71 highway. All it now needs is the horse. Plus the snow. The last time Your Observer rode in a sleigh was in Kansas City, Mo. Bells and everything.

Now, folks if you are contemplating a nice trip this summer follow the highway 58 from Chattanooga, Tenn., to beautiful Rock City gardens which is an enchanted trail a real fairyland. The folder and pamphlet was sent to Your Observer recently by readers of this column and there is really beauty in every picture. (Beyond describing) They say it is something out of this world.

Read in a magazine if you can't find slumber immediately to think of a delightful place of water. The thought of the water would relax you and you would sleep immediately. That would not be so with every individual as it might bring back some horrifying experience they may have had as it did with Your Observer. Thoughts of the time when I hired a row boat and went sailing down the river and that being your old nephew along and as we neared the falls at the Girard Ave. bridge in Philadelphia, the undercurrent was treacherous and pulling the boat down that way when suddenly there was a voice calling to me that he would be right there. That is the only time, Your Observer had fear before the stranger arrived as if dropped from the sky. He quickly jumped in his row boat and came quickly to the rescue.

Did you know that the Municipal Museum of Baltimore was the first building in the U. S. to be lighted with gas, a venture in showmanship which culminated in 1816 in the birth of gas industry in the new world? Rembrandt Peale, portrait and scientist erected the building as a museum. Its popularity was great but financial success did not follow and in 1830 it was sold to the City and served as Baltimore's City Hall for 45 years, until the present City Hall was built. It was restored in 1930.

The queeny lady over Detour way is coming along beautifully. Her fine daughters helped in every effort.

That nice little priest 'around the town' is always so very kind, thoughtful and considerate of everyone, regardless of denomination.

There will be a wedding reception after the knot is tied for a nurse from 'around the town.' Good luck. Harre de Grace is a grand place to reside.

Now here's to the state roads. To had the nice executive who stated he had never seen this column previously to the time he read of all the good things that were said about him as he would hear only the bad things. Why not place a fresh coat of white paint along the already marked lines on all the main highways for the treacherous weather? It needs it badly and is most essential at night which would mean every motorist remaining right on his own half of the road. That should be a must at all times.

That 'Frankie' boy is in the States and will soon be 'around the town.' Welcome back.

Will be seeing you next week, folks. Have a grand week end. Be good and be careful. Until then, I remain,

Faithfully,

WORLD PEACE

Jesus has many names, one of which is The Prince of Peace, yet Jesus himself said I come not to bring peace but the sword. The world could now be at peace if it were not for the gang that Stalin leads. They are scattered world wide. Too many of them are in our own land right now. To preach the overthrow of government by force is the privilege that not the right of every individual. If these fellows are citizens of the United States, native born or naturalized they should be interned and put at hard labor until they learned the errors of their way, and if they are foreigners they should be instantly placed aboard ship and sent to the land from which they came and be told emphatically to reform their own country before attempting to reform ours.

We do not fear these termites— we merely despise them.

A GRASS-ROOTS COUNTRY

The government of this nation is dominated by the small towns and the rural areas—not by the great city populations. That striking fact is developed in an analysis of the United States Congress published in the December issue of The American Press.

The analysis shows that 76 out of the 96 Senators—79 per cent—are elected by rural majorities, and that 54 per cent of the Representatives represent more rural counties than urban counties. For the purpose of the study, a rural county was considered to be one in which there is no community with more than 10,000 population.

The small number of Senators who represent predominately urban constituencies mostly come from states with very small land areas and concentrated industry, such as Rhode Island and Connecticut.

The study shows further that 42 Senators and 132 Representatives have a weekly newspaper as their home town paper. It then said: "All of those from rural areas depend on weekly newspapers as one of their chief barometers of the opinions of their constituents."

The point is that, in spite of the growth of the cities, this is still a grass-roots country. The people on the farms, in the villages, and in the small municipalities have the dominant voice when it comes to electing the men who make our laws. The future of America is in their hands. —Industrial News Review.

IS THERE ROOM IN THE POORHOUSE FOR 149 MILLION PEOPLE

In 1932 Franklin D. Roosevelt, then a Presidential candidate, had this to say about government spending:

"Any government, like any family, can for a year spend a little more than it earns. But you and I know that a continuance of that habit means the poorhouse."

Those words, important 17 years ago, have even greater significance today. Why? Because in every year since 1932 (with the exception of the two fiscal years immediately following the war our federal government has spent more than it has collected).

In 1932 our federal government spent 4½ billion dollars. For the fiscal year of 1950, it is estimated that our federal government will spend ten times that amount...45 billion dollars.

To give you an idea of just how much money this is, consider these facts:

1. If everyone in the United States

cash in all his life-insurance policies, the total would amount to 44 billion dollars. This would not be enough money to run the Government for one year.

2. If every urban home owner in this country sold his home, the total would amount to 30 billion dollars. That's just enough to run the Government for eight months.

3. If every farmer in this country sold his farm, farm equipment and livestock, the total would amount to 25 billion dollars. The Government could not run for seven months on that amount of money.

These facts put a new light on the staggering size of our federal government's planned 45-billion-dollar expenditure for the fiscal year of 1950. And remember, this excessive spending is in the face of a national debt of more than 250 billion dollars!

Isn't it as true today as it was in 1932 that "a continuance of that habit means the poorhouse"?

Just what are you doing to end excessive spending by our federal government? Have you written your Congressmen? Have you discussed the problem with your business associates, your friends, your employees?

Let's make sure our representatives in government know how we at home feel about the continuance of a habit that "means the poorhouse."

The time for action is NOW!—Condensed from an advertisement in Automotive News by Ross Roy, Inc., Detroit. The Reader's Digest Association, Inc.

OCCUPATIONAL THERAPY

In an article by Dr. Howard A. Rusk in the New York Times on Sunday, August 21, 1949, he defined occupational therapy as "an important phase of medical treatment using therapeutic medically prescribed activities such as woodworking, plastics, metal work, printing and ceramics. It may be prescribed for specific restoration of muscle and joint function, as in the case of fractures, burns, amputations and paralysis; for the development of general physical strength and work tolerance, as in the case of tuberculosis, heart disease and other long-term illnesses; for emotional readjustment and as a diagnostic aid in various mental disorders and for pre-occupational exploration in the convalescent stage of all illnesses."

Why Should a Dollar's Worth of Travel Continue to Cost You \$1¹⁵?

"IS THIS TRIP NECESSARY?" you were asked in 1941, when every inch of space was needed for troops and war supplies. To discourage travel then, a tax was added on your travel dollar, a tax that grew to 15% during the war. The Federal Government collected it through the railroads. The Government still collects it, though your travel need not be rationed now.

Today, the original purpose of this tax is as obsolete as an Air Warden's helmet. But, four years after the war's end, YOU are still paying the Government at the rate of \$250,000,000 a year in travel tax.

And, of the billion and three quarters collected since 1941, *over half* came out of your pocket after the green light on travel went on again.

You don't have food rationing today... you don't have gasoline rationing today.

Yet, a very real brake is still being put on travel. On a coach trip from New York to Chicago, for example, YOU are still paying \$4.61 in Federal tax.

And the same with the goods that are shipped to your home community. On every dollar you pay for freight, you pay the Government an extra 3 cents (4¢ a ton on coal). That means YOU are still paying over \$300,000,000 a year — *freight tax alone.*

This tax should be repealed NOW. There is no longer any reason you should pay \$1.15 for every dollar's worth of travel... \$1.03 for every dollar of railroad freight.

Dr. Powell Davies preaching at All Souls Church in Washington, D. C., Sunday talked of "Mercy Deaths" and said that religion requires that society face the question simply and honestly and not turn away from its realities. He urged that society relieve the medical profession of this dilemma, quoting Dr. Davies: "It is blasphemous to say that God intends that people shall linger in unbearable agony until they die of exhaustion because it profanes the love and mercy that religion is concerned with."

After many months of listening to volumes of evidence a jury finally convicted Alger Hiss of perjury. The conviction will not and cannot answer some of the questions still in the minds of those who read the testimony. There are many people including myself who will never believe Alger Hiss guilty of the things he was accused, even if twelve juries say he is guilty.

Mrs. Louisa Haugh, of Detour, who lives with her daughter, Mrs. M. J. Wilhide celebrated her 93rd birthday last Tuesday. If Mrs. Haugh attributes her long life to anything it's to eating anything she pleases. No fancy diets for her, in spite of the fact that 25 years ago she was warned against certain foods. If for 25 years she has proven some one was wrong, she has every right to keep on proving it.

The Boys' Alumni Basketball Team which has recently been formed, played its first game against the local high school team on Tuesday, Jan. 24. The Girls' team played the local high school team on the same night.

The date for the annual banquet was set for Saturday, June 17, to be held in the High School Auditorium. The Tones from York have been engaged to provide music for the dance which follows the banquet. This musical organization provided music for the Thanksgiving Dance which from the comments received from many people was thoroughly enjoyed and the best music ever obtained for a dance that was held in Taneytown.

It is hoped that all alumni will make plans now to keep the date of June 17 open and make this banquet a great success.

Delicious refreshments were served by Mrs. Robert Clingan and the next meeting will be held on February 20, at 7:30 P. M.

SHORT STORY
MOHS
**The Last
Cry**
By NORMAN FREILICH

HE STOOD outside his uncle's
room, and as he listened for a
brief moment to the labored breath-
ing coming from within, his fea-
tures became distorted by some
sinister emotion. For the physical
wreck within the room, his uncle,
stood between him and his inheri-
tance. Only upon Jason Stoneleigh's
death would he come into his
estate, and only yesterday he
learned from Doctor Phelps, his
uncle's physician, that old Jason
would perhaps live for years. It
was then he had made his decision.
Alex clenched his fists as he
thought how simple it would be to
strangle the life
out of the old man
—but there was an
easier way, one
which would never
throw an inkling
of suspicion his way. His uncle kept a
loaded gun in his room, eccentric
as he was, he lived in fear of his
life. He kept only one servant, who
would be away today.

Alex smiled to himself, deeply
satisfied with his plan, as he en-
tered the room. He greeted his
uncle with robust good cheer, but
his uncle, a dark scowl upon his
thin bony face, sat in his chair
silently. There was no movement
in his body.

"Aren't you feeling any better?"
he asked with feigned concern, and
then the eyes of the two men met,
and their glance seemed to sweep
aside all pretense between them.

"It's been a long wait, hasn't
it, Alex," the old man said with
biting contempt, "but I'm afraid
it will even be longer. Doctor
Phelps has been quite encourag-
ing."

Alex edged toward the desk in
which the gun would be. He opened
the drawer, felt the brittle coldness
of steel. He swept about to Jason
Stoneleigh, and the gun was in his
hand. "You miserable wretch," he
slurred, "I won't have to wait a
day longer."

The old man's eyes stared wide
with terror. His body did not rise
from his seat as though he might
be frozen with fear. There was only
a pitiful cry: "You'll hang for it,
Alex!"

A MOMENT later, with detached
calm, Alex wiped the gun clean
of his own fingerprints, and then
placed the weapon in the murdered
man's hand. He took one last glance
about the room assuring himself
there was no trace of evidence.

He was sleeping soundly that
night, happy in the thought that
in the morning he would be a
wealthy man. But it was almost
midnight when he was awakened
by the police. He was ordered to
get into his clothes at once.

"But I don't understand," he pro-
tested, his face white and drawn.
Then he succeeded in controlling
his fears, realizing, of course, that

Panic gripped him and his eyes,
wild with sudden fear, turned
desperately to Doctor Phelps.

this would be only a routine investi-
gation. Surely nothing could have
gone wrong. He hastened into his
clothes.

The police drove him to the house
of his uncle. It seemed all of them
were awaiting him—the state's at-
torney men, Jason's servant—and
in the background—Doctor Phelps.
"I'm here to give you gentle-
manly every help," he said, gravely,
and the sound of his voice gave
him sudden courage. "I'm terribly
upset to hear of my uncle's sui-
cide."

"Suicide? You're certain it
was suicide?" The question was
hurled roughly at him.

Panic gripped him, and his eyes
turned desperately to Doctor Phelps.
"Surely, Doctor Phelps, you can
tell them how absurd it is to think
otherwise. You can tell them of
my uncle's brooding over his
ill-health."

The doctor stepped toward Alex,
his face stern, almost menacing.
"I can only tell them the truth,
Alex—"

"Yes, the truth," Alex pleaded.
"Your uncle suffered a stroke a
week ago—and the gun which killed
Jason Stoneleigh was found in his
right hand"—the doctor paused—
"and that hand and the whole arm
were paralyzed."

You're right if your answer is

its low cost.

You've helped make electricity

DEVOTIONAL READING: Romans 3:21-30

Unto All Men

Lesson for January 29, 1950

"MARK TIME, Christian Soldiers," is not a Christian hymn. The word is "Onward, Christian Soldiers!" The command was given by no less a person than Jesus himself: "Go and make disciples of all nations, baptizing them . . . teaching them . . ." (Matt. 28:19, 20) Do you know some one in the church who says he doesn't believe in missions? Such a man does not take Christ seriously. If you do believe in Christ then his commands are for you to obey, not to ignore.

When Men Delay

UP TO NOW, the church has been playing around with Jesus' command. Very few denominations are actually putting any large amount of money or manpower into obeying Christ's command to go into all the world.

One fairly typical American denomination contributed last year to all benevolences, that is to all causes not in their own local congregations, the sum of \$9,137,065. That sounds like a lot; but divided by the total number of members it boils down to \$14.03 per member for the year, or less than five cents a day.

And of course not all that big sum of five cents went to missions of any sort. Yet that denomination gives more per capita to missions than most others do. When a man who gives less than five cents a day to carry the good news of Christ into the wide world sings "Onward, Christian Soldiers" or prays "Thy Kingdom come!" how much does he mean it? Not a nickel's worth!

Or take the question of manpower. The same denomination sends out as missionaries, every year, as many men and women as are sent by some denominations three times its size. And yet, even so, the total number of ordained ministers in that denomination who are foreign missionaries is only 4 per cent of their total number of ministers.

"Go into all the world," said the Master. "Four per cent of us will," we reply, "the rest of us will stay at home."

When Men Obey

AS A MATTER OF FACT, even the earliest church was slow to pay real attention to Christ's command. Forward! Men are strange creatures. And one of the strange things about us is that we often have to be scared into doing our duty.

It took the persecution set off by the death of Stephen to move the Christians in Jerusalem out along the roads south, north, east, anywhere to get away from the city of death. Everywhere they went, they told the story of Jesus.

But at first it was all rather breathless and informal. "Why are you here?" one of these DP's would be asked, as he was passing through Samaria or Antioch or Alexandria, perhaps in the bread-line, perhaps looking for a place to work and settle down. "I'm a refugee from Jerusalem," he would say. "But why?" "Well, I'm a Christian." "What's that?"

So the story would be told all over again, the good news about God's grace in Christ. So the church spread. Today, though an enormous part of the world's population is still unwon, there are Christians in so many lands that the Bible—all or parts of it—has had to be translated into more than one thousand different languages and dialects.

Unto All Men

ONE OF THE MOST interesting and surpassing little books of recent years is called "They Found the Church There," by H. P. Van Dusen. It is the dramatic story of how the American GI, to his great astonishment, found Christians in the most unexpected places.

It is a tremendous mistake to think that the Christian religion is only for English-speaking peoples, or for Europeans, or for white people. It began among people whom most readers of this column would set down as "foreigners."

Christ can be as much at home in an igloo or a wigwam as he is in an American farmhouse or in an efficiency apartment on the city boulevard. He comes to all men, and as Peter found out, the Lord is no respecter of persons.

CONDITION OF SOIL IN CARROLL AND FREDERICK CO.

The Triassic or Red Land soils of Carroll and Frederick counties have been a problem to the farmer and Soil Conservationist. Extensive progress has been made in their studies. The shallow phase, known as Penn Shale loam, has a top layer of soil 0" to 4" deep, then a coarse layer of shale particles 16" deep before the parent material is reached. Such soils have a definite tendency to dry out rapidly during dry spells, and to become waterlogged during the wet seasons. These extremes make the working and planting very unsatisfactory.

The inherent fertility is low. This can be seen in the light color and the manner in which the soil bakes and crusts. This is an indication of lack of humus and organic matter and is a fair index to its durability and productive capacity. Because of their low fertility they are better adapted to the growing of small grain and grasses with their shallow hair-like root systems. A rotation of small grain and 3 or 4 years of hay are best suited for the soil. Discing with heavy discs instead of plowing, along with the use of improved varieties of seed, both small grain and grass will help soil conditions. Orchard grass, Kentucky 31 fescue, timothy and smooth brome, Ladina and Alsike Clover should be used instead of Alfalfa and red Clover.

Proper liming at frequent top dressing with fertilizer containing high percentages of phosphate and potash (0-12-12) (0-20-20) will help replace the plant food used by the grasses. The addition of 200 lbs. of Nitrate of Soda every 4 or 5 years to help the legumes in supplying Nitrogen will improve the problem of fertilization.

These grasses have a multiple purpose in that they will yield 8 to 10 tons of grass silage or 3 tons of hay and will carry 1 cow per acre as pasture.

Additional information is available from the Carroll Soil Conservation District, Grover C. Zimmerman, Technician, Times Building, Westminster.

HISTORICAL SOCIETY MEETING	

The Historical Society of Carroll Co., held its January meeting at the home in Westminster on Thursday evening. It was well attended. At that time minutes of the last meeting were read and reports from committees were given. The nominating committee submitted for re-election the names of the officers and directors of the past year. They were duly re-elected. The certificate of merit awarded by the American Association for State and Local History was exhibited. The need for extensive repairs in the kitchen was presented to the group and it was voted that the necessary work be done.

After a brief intermission an interesting program was given. This was built around the late Miss Mary Hellman whose house the society now has as its home. It had been arranged by Miss Dorothy Elderdice and consisted of a biographical sketch of Miss Shellman, a paper giving a description of Monroe School which she had on, and the reading of two compositions which she wrote while a student there. These papers were very much enjoyed by everyone. The evening closed with refreshments served in the dining room.

CHILDREN'S VESTED CHOIR TO SING SUNDAY NIGHTS

The children comprising the newly organized choir in the Presbyterian church, have agreed to come and sing at the evening services which are held every other Sunday night. This is the only evening church service being held in Taneytown. In recognition of this offer by the children's choir the minister will introduce the popular Flannel Pict-O-Graph Stories as one feature of the evening service. These dramatic Bible stories, sketched on the board as they are told, have been proving most interesting and delightful wherever used in audio-visual education. The first one of these stories planned for the children who sing at the evening service next Sunday night.

CHAMBER OF COMMERCE MEETS

(Continued from First Page)
contribution, this offering amounted to \$25.00.
Felix Westine presented the fact that there was no side walk planned to the new elementary school expected to be opened next fall. And that the children would be placed in the hazardous position of having to walk in the unsafe highway from Baltimore Street at the Monument to the new school building. Mr. Westine said that the P.-T. A. had appointed a committee to look into the matter to see what could be done to correct the dangerous situation. He recommended that the Chamber of Commerce appoint a similar committee. On motion his recommendation was adopted, and the following committee appointed: Murray Baumgardner, chairman, John Skiles, and Robert Feeser.

Before adjournment President Fuss played a phonograph record of his appearance recently on the radio program at Chicago where he represented himself as "The Planter from Taneytown." Upon adjournment refreshments were served to all present.
