KIWANIANS MEET

Boy Scout Week Observed by the Club

Boy Scout Troop No. 348 of Taneytown was honored at the Kiwanian meeting held at Taney Inn last Wednesday evening.

In the absence of president, Lewis Crumpacker, vice-president, David Smith presided. Group singing was directed by Raymond Wright with Mrs. Stella Yingling at the piano.

After a few preliminary remarks Kiwanian Dave Smith, who also had charge of the program, introduced the following guests: Paul Koons of the Westminster Club; Scout Master, Wilbur O. Thomas; Assistant Scoutmasters, Stanley W. King and Stanley Frock and Patrol leaders, Philip Lawyer, Francis McNair and Fern Bachman, all of the Taneytown Troop. Those present were privileged to hear a splendid informal address as presented by Dr. Earl H. Furgerson of the Theological Seminary of Western Maryland College, who is also affiliated with Cub Scouting in Westminster.

Dr. Furgerson began by stating that the Boy Scout movement was one of, if not the greatest, character building movements in this country and perhaps the world as a whole. He stated that the primary means of attaining this goal in scouting is to take the natural interests of the boys and direct or channel these interests in ways in which they can accomplish the greatest good. He mentioned that the great financier, John Pierpont Morgan, had once said that the best collateral for any investment is character, that is, the character of the individual in which the investment is made.

There are but two pre-requisites, according to Dr. Furgerson, for any sponsoring unit of a Boy or Girl Scout Troop, those being that its individuals must believe in God, and secondly, must be citizens. Such organizations as the Rotary, Lions, and Kiwanis Clubs, as well as Parent-Teachers Associations and churches are the principal sponsors of scout troops.

Dr. Furgerson challenged those present with the thought that, should any one of them be called upon or have the opportunity to share in this movement, they should do all in their power to cooperate since it is a very worthwhile endeavor. He cited that seldom do we find juvenile delinquents or criminals ever having been associated with the scouting movement. It is his feeling that gang spirit prevalent in boys of scout age can be satisfied more satisfactorily by having them affiliated with a boy scout troop.

At the conclusion of his remarks those present were given an opportunity to ask questions. The Taneytown Troop has approximately 30 members.

Next week's meeting will be a ladies' night, the program being in charge of the music committee, Wallace Reindollar, chairman. At the invitation of Kiwanian Robert Smith it was decided to hold this meeting at the Woodsboro Lutheran Church and that the time would be changed from 6:30 to 7:00 P. M. All present were urged to attend this meeting.

BANQUET AT PINEY CREEK PRESBYTERIAN CHURCH

A unique feature of this occasion was that a committee of men from the Brotherhood served the tables, while the mothers and daughters enjoyed the delicious food. All the men were aproned; a variety of styles, some domestic, some frilly, several in crisp white coats lent a professional air to the service.

It was generally conceded that food was never before served so hot nor so quickly. After the tables were cleared, ice cream and cake were served, the men retired to the kitchen, ate their well-earned dinner and—believe it or not—washed the dishes.

There were three special guests, Mrs. Chas. Cluts and Mrs. J. Miles Neidig, Keysville, and Miss Ruth Stambaugh, Taneytown. Mrs. Neidig, the speaker of the evening brought a very thought provoking message regarding the problems and opportunities of the youth of rural communities. Mrs. Neidig's bits of humor and charm of manner added interest to her talk. Miss Ruth Stambaugh, in her inimitable manner kept all laughing over her two amusing readings.

After a period of singing, all joined hands singing "Blest Be the Tie that Binds."

"GOLDEN RULE" SUNDAY SCHOOL CLASS MEETS

The "Golden Rule" Sunday School Class of Grace Reformed Church met Tuesday evening, Feb. 7, at the home of Mrs. Lewis Reifsnider.

The attendance is steadily growing which is very gratifying. Mrs. Mohney the president, presided and conducted the usual business meeting. It was decided to pay for the birthdays a penny for each year of age. Many more worthwhile topics were discussed and approved. Miss Ruth Stambaugh gave a very humorous reading which was thoroughly enjoyed by all present.

The group participated in the games with much enthusiasm after which the hostess served delicious refreshments. Everyone had a delightful time and looking forward to next month which will be with Mrs. Jacob Stambaugh, York St., on March 7th.

ANNAPOLIS LETTER FROM SENATOR HOFF

Plans of the First 30-day Session Outlined

To the Editor:

Dear Sir:

The Maryland Legislature is now meeting in the first 30 day session of the State's history. This even-year session was authorized by the voters of Maryland when the Constitutional Amendment providing for the session was approved in the election of 1948.

The Constitutional Amendment also provided that the Legislature, during such thirty day sessions, shall consider only legislation pertaining to:

1. Budgetary, revenue and financial matters, or
2. Matters of an 'acute emergency' or
3. Matters pertaining to the 'general public welfare.'

These restrictions have the effect of prohibiting local legislation (legislation applying to one county only) unless the subject of the legislation can be classified as an acute emergency.

State-wide legislation, known as "public general laws" can be considered at this session if the subject matter can be qualified as being in the "general public welfare."

The exact meaning of "general public welfare" is still a matter upon which there is considerable diversity of opinion. Some claim that any "public general", (state-wide) laws may be considered. Others claim that "general public welfare" as used in the Constitutional Amendment has some special and more restrictive meaning than the words "public general", as used in the Constitution in referring to state-wide legislation.

Final determination of the meaning of the words of the Constitutional Amendment rests with the Court of Appeals of Maryland.

THE BUDGET

It was hoped that annual sessions of the Legislature would be of some benefit to the taxpayers of the State. With annual sessions state revenues are estimated for only a single year and it was felt that revenues and expenditures could be more nearly balanced than under the bi-annual system of estimation of revenues and budgeting. In other words taxes could be more exactly fixed to meet the financial requirements of the State for a single year than for two years, the more conservative estimates of revenue requiring less taxes for long range contingencies.

This was the "theory" prompting the adoption of the system of annual, rather than bi-annual, sessions of legislature.

Overlooked was the fact that annual sessions provided twice as many opportunities for increasing appropriations and for opening new fields of governmental expenditures. And unfortunately for the taxpayers, that is exactly what is happening.

At this session the largest budget in the history of the State was presented.

\$143,601,115.00—for the cost of operation of this State for one year.

Compare this with \$112,115,635.42 in 1949; \$107,035,822.99 in 1948; \$52,048,660.00 in 1945; \$46,952,486.00 in 1941 and \$30,839,190.00 in 1937.

TAXES

The fact that tax reductions have been recommended for the current year should not lead anyone to believe that these reductions will continue for another year. This temporary tax relief will be accomplished by the use of accumulated surplus funds only, and not because of any new economics. The figures show 1950 Expenditures...\$143,601,115.00 1950 Estimated Revenue 137,619,937.00

1950 Deficit\$5,981,177.00 This deficit will consume all but \$500,000 of the surplus accumulated over past years.

Even if the 1951 budget does not show an increase of expenditures over 1950 it will be necessary to increase taxes in 1951 to obtain an additional 5½ million dollars that will be required to meet the current expenditures.

The moral, if any, is that the taxpayer wins only in election years, and elections being four years apart, this fixes the odds against him at 3 to 1. Until next week, I am

Sincerely,
STANFORD HOFF.

AROUND THE TOWN

With all my heart, I wish you every morning
A smile that shall last until the next day's dawning.
I wish you health—life's greatest wealth!
I wish you always near so that I may help to cheer
Each future day and in some way—help to bring you happiness!

Did you know that if you drive rusty nails around the roots of a cherry tree which has not been producing will make it thrive the following year as though it is born all over again and cherries will be larger than ever?

That reminds me there was really a rose budding in the month of January in 1950 'around the town'. A couple who recently celebrated their fifth wedding anniversary believe it or not that lover in the old days used to walk the heavy mud roads (and I heard they were some awful roads) from Keysville to Hanover.

A lady told Your Observer recently how very much she admired the goodness of that little Minister around the town and how very much like Christ this Minister is. Why can't individuals say those nice things to and for whom they are intended? She is a grand person herself just like that honest little lady whom I admire over Keymar way.

Did you know that there is only one colored family in the entire town of Hanover? It is a known fact that when other colored families have moved there they do not remain long.

There is a lady who still owns her wedding dress and slippers after 45 years of marriage. The blouse came from Joel Gutman's in Baltimore and the skirt came from Strawbridge & Clothier Co. in Philadelphia.

So, we have a florist in our town at last. Here's best wishes and more power to you. And here's to all of those 'around the town'—Always boost your town as you can increase it's size by so doing if you really want to. Don't be afraid to venture into anything big just like that old saying, "No riskee, no gainee." Dress up your store, Mr. Merchant—give it a new 'front do'. You surely have heard that story about the M. D. with the beautifully furnished office and the M. D. with the poor little office so it calls for all things the same in everything in life.

The Opera House now, too, is all dressed up and rarin to go. It will be a pleasure to hold affairs in that room so if you desire to engage it for the evenings, contact the owner far in advance.

Make yourself proud of your town for you alone can do it.

Now this is to any man or boy who enjoys wrestling matches. A young girl and her beau from Carroll County went to see the wrestling matches at the Coliseum where she is a frequent spectator on Tuesday nights. That made me think of the little when I used to take my three little sons once monthly to the wrestling matches as I do think every boy should see such sport. I went so far as to purchase three pairs of boxing gloves for them and many an hour of fun we all had. Tuesday night, several weeks ago, I turned the TV on to the Coliseum to see two women wrestlers which was the first time I ever saw women wrestlers. The body slams continuously of these women were beyond describing as I do think that this sport should be entirely turned over to the men. That same night the highlight of the evening was the Japanese wrestler who was educated in America and had just about the most wonderful speaking voice I ever heard. The opponent was Cordova from Madrid, Spain. What a confident air was displayed by the Jap as he entered the ring with his valet close at hand. The Jap wrestler had 'something up his sleeve' which was very evident to Your Observer and his thoughts were all deep as the ocean itself. As he walked around, taking a fancy fan from the pocket of his handsome glamorous Japanese needlework satin robe, he opened it and fanned in quick movements, eyeing the audience and his opponent. When the valet assisted him in removing the robe, there was a big mountain of a man with just about the most huge shoulders I have ever seen. In just six minutes the bout was over, that Jap giving that awful 'Japanese Torture Hold' which should be barred here in America. Your Observer does not call it wrestling as it is a tight hold of the opponent's neck with his knees causing the wind to be blocked off entirely. The fellow from Madrid fell backward from his sitting position, the Jap knowing all the while how long to hold in this position. He was boo-hoed plenty from the mass audience. To think Americans speak ill of bull fighters and it would not be allowed in America. That same should be applied about that kind of so-called wrestling from foreigners. The Jap walked to his copiers. The Jap walked to his copiers with that same defiant air, put on his fancy garb and again held the fan in a superior manner and bowed and flipped it to someone in the audience. There was standing room that night and betcha the fire underwriters will be closing in on that.

The following Tuesday night "Gorgeous George" that tremendous hunk of man with his handsome black satin robe highly trimmed with sequins which was yellow stained lined with the same hue of trunks appeared. His bleached blond hair done up in a permanent of many curls was greatly admired by the men as well as the women in the audience (although the women in his chest being jet black which was no doubt an oversight on (Continued on fourth page.)

QUO VADIS

Whether goest thou is the question asked, and none going seems to know the answer.

The world is in turmoil and the wonder is that things are not worse than they actually are.

Jesus once said: "I come not to bring peace, but the sword." Wars are inevitable. Peace treaties, peace proposals, the United Nations and all such schemes are alright to occupy the mind and postpone the day of reckoning but wars will come and continue to come until Armageddon, and that date seems far in the future.

There will always be a Stalin to make it unpleasant for the rest of humanity.

After all the joys of heaven will be the richer because of the wars of hell.

Once an infidel father was talking to his young son—a boy of six—and insisted there was no such thing as hell. The child after serious thought looked up into his fathers face and said, "but pop, wouldn't it be hell if you were mistaken."

I like to believe there is a hell, I am not going there if I can help it.

'I PRAYED OUT LOUD'

For 20 miles downhill, around curves, and through downtown Milwaukee the front section of a Diesel locomotive rolled at high speed without brakes or power after a collision with a trailer truck had freakishly cut it loose from its train and broken the compressed air hose.

"I prayed out loud," said the engineer, William Jordan. "I yelled to the fireman to pray out loud, too. And our prayers were answered. We came in on a wing and a prayer."

The engine finally came to a stop on an upgrade after dispatchers and a quick-thinking secretary to the general superintendent had worked at high speed to clear the track for it and set engines to catch it if necessary.

Men and women often turn to God for help when every material resource apparently has failed; many thousands can say with conviction that this course helps. It is equally important and equally a protection that, whether in emergencies or in everyday affairs, we consistently pray that God's will be done, that right steps be taken, and that we and others be protected from harm.—Christian Science Monitor.

CHANGING OVER TO GRASS LAND FARMING

Mr. Frank Parish, owner of a 277 acre farm located on Pipe Creek along Route 22 between Westminster and Taneytown is changing over to a grass land farming program in order to provide better roughage for his herd of Ayrshires and Cross breed cattle. This change over was made after a study of the Land Capability Map of his farm furnished by the Carroll Soil Conservation District. At present, Mr. Parish is milking

50 head of cattle. The milk is shipped to the Washington market.

The Penn Shale loam soil on his farm is thin. Therefore, they are best adapted to grass land farming. Orchard grass, Ladina, Alsike clover mixture are being used. The first cuttings are placed in the 3—12'x48' and 1—12'x36' silos on the farm. The average yields per acre is 8 to 10 tons of silage. These fields are then pastured, carrying 1 cow per acre or used for hay, making 3 to 4 tons per acre. Likewise, 25 acres are sown to rye for fall and spring pasturage. Then, the residue is disced and seeded to Sudan grass for July and August pasturage.

Manure and 0-20-0 fertilizer are spread on all fields at the rate of 10 tons per acre in rotation. 300 lbs. 0-12-12 fertilizer are spread on each acre every year.

Mr. Parish feels that by proper management, this new method of farming produces 100 lbs of digestible nutrients in the most economical manner. Harvesting of grass silage is also a favorable factor as it is not affected by weather as are other types of farm crops. Less man power is needed as a longer period of time is allowed for the work.

The overall program prevents erosion, slows run off, provides emergency pasture for fall and spring before Blue grass is available and allows pasturing of orchard grass and Ladina clover mixtures after the first cutting has been harvested for silage.

Mr. Parish is being assisted in the establishment of his program by the Carroll Soil Conservation District, Grover C. Zimmerman technician.

OLD BOREAS

Old Boreas with his fury
Has come out from the North
The snow-flakes are his fury
To proclaim his mighty worth.

He has lingered at the North Pole
Where he packed his pouch with ice
And to satisfy his soul
Has adopted this device.

He has sprouted his gray whiskers
To protect his hoary throat
From the cold that all the breezes
That is near or more remote.

We may not admire his visit
Or his sound born visage see
But we know he has been with us
By the aid of his decree.

He has piled on high the snow bank
By the side of every road
He has summoned every wind
To carry his great load.

A TRIP TO NEW YORK

Saturday morning at 8 o'clock. We (the Y. S. C.) left Baltimore and arrived in N. Y. at 1 o'clock. Going to the "Hotel Times Square" we washed and cleaned up a little, because a man always tapped us on the shoulder and said, "Please do not waste water." Then we left the hotel, going by Subway to Battery Landing, at the lower tip of Manhattan.

Here we got our ticket (70 cents round trip) by boat down the Bay to Bedloe's Island. Then one stands in wonder looking at this great statue. I read about it many times but I never dreamed of its size. The right arm is 40 feet in length. Twelve persons can stand in the torch.

Forty persons can stand in the head. Length of nose, 2 1/2 ft., width of mouth 3 feet. The tablet (Declaration of Independence) is 23-ft. 7-in. long and 13-ft. 7-in. wide. Total height, 301-feet, 3-in. The statue weighs 450,000 lbs. The structure is

divided into three parts, base, pedestal and statue.

The base, an 11-pointed star is entered through a tunnel which leads to the lower elevator landing. It is 10 stories to the top of the pedestal. You can ride for 5c each way or walk free. A 12-story spiral staircase leads from the top of the pedestal to the head of the statue. And what a view of the Manhattan skyline and activities in the world's largest harbor, from this observation point.

The statue was made in France was a gift to the people of the United States. It cost \$250,000 is 152-ft high. The plaster model was first reproduced four times its original size.

Then section by section the 36-ft model was enlarged to its existing scale. Copper sheets 3/32 of an inch thick were pressed into wood patterns and hammered into shape by hand. On July 4, 1884, in Paris the statue was presented to the United States.

In 1885 the American people finished the work on the pedestal and Grover Cleveland dedicated the statue on October 28, 1886.

The statue is floodlighted by ninety-six 1,000 watt lamps. The torch is lighted by thirteen 1,000 watt lamps. By all means visit this statue when in New York.

THE COST of our Nation's Security

...must be shared by **ALL!**

Unless all pay their fair share, you must pay MORE. Right now, Congress is considering increasing federal income taxes on present taxpayers to meet the terrific costs of paying for the last war ... guarding against another.

... yet some big business corporations pay little or **NOTHING**

Corporations engaged in commercial, profit-making business—such as Co-operatives, Foundations, even some colleges and universities—are permitted by law and outdated Treasury regulations to escape all or most of income taxes on business income and profits. The billion dollars a year that they are able

to dodge in income taxes is now added onto what the rest of us must pay. Now Congress is being asked to add still more to the tax burden you are bearing. Congress should **TAX THE UNTAXED FIRST** before increasing federal income taxes on anyone.

WRITE your Congressman and Senators—ask them to
tax the untaxed...now!

If Missouri Synod Lutheranism has sometimes been accused of conservative lag, at least by general admission it led Protestantism in radio with one of the three top programs on national networks: the Lutheran hour. On the January 1, broadcast for the first time since he founded it 17 years ago, Rev. Walter A. Maier, theologian from Concordia Seminary, failed to appear. Victim of heart attack, the colorful figure whose career has been compared to the late Rev. Billy Sunday's, died on January 11. His radio post will be taken by Lt. Col. Arthur C. Boy Scouts of Carroll County joined this week with the 2,300,000 boys and leaders throughout the Nation in observance of Boy Scout Week which will continue through Sunday. Citizens everywhere should recognize the unselfish, patriotic services

Maryland has 337,687 houses that are at least 30 years old and are beginning to suffer from old age. It costs between \$4,000 to \$5,000 to give an old house a new look but the increase in its value is worth every penny. While renovating costs naturally vary with the locality and the type of house, a typical modernization job would run something like this: modern kitchen including cabinets and sink \$700, modern bath room including new fixtures, \$1000, new roof, screens, windows \$575, insulation \$500, new electrical wiring \$150, modern heating plant, \$400, painting inside and out \$800. Old houses have character and dignity and when given the benefit of a little modern face lifting they radiate charm and gracious living that any house called "home" should give its occupants.

The groundhog did not see its shadow in our vicinity last Monday. So far we haven't as yet had any winter but there is still plenty of time.

The Elmer Wolfe School students received their report cards this week. Needless to say that there was plenty of disagreement with the teachers on the marks received. If the pupils were permitted to mark each other's report card how different things would be.

The depth of sorrow we cannot tell Of the loss of one we loved so well And while she sleeps a peaceful sleep Her memory will shall always keep.

A happy home we once enjoyed How sweet the memory still By death has left us loneliness The world can never fill.

AROUND THE TOWN

(Continued from First Page) his part.) As the robe was removed by his valet and carefully wrapped in a white sheet, Gorgeous George was flipping bobby pins to the audience which he removed from his curls. The real he-man from Madrid was disgusted and was determined to dishevel that hair immediately which made Gorgeous George plenty angry for it appeared as an old scrub mop. One would have dreamed this was the carefully groomed hair of a few minutes before. The Spanish fellow was one of the most honorable wrestlers which Your Observer has ever seen. He is well liked by the American sport lovers.

When the not 'altogether alert' referee was not looking Gorgeous came down with his fist three different times on the right kidney of Cordova with the audience screaming to the referee for help. It was most noticeable to the TV audience. That bout was over with Gorgeous George and Cordova using the same kind of body holds.

Your Observer is all for real sports but when it comes to dishonorable wrestling, it should be banned as in anything else and scratched out as far as the wrestlers in question. I have learned so much about this sport that I have the confidence that I could referee any wrestling match.

So long folks. Will be seeing you next week. Have a grand week-end and always remember it is the most honorable individual who wins in the ed in any game that we may play in life!

I remain faithfully, YOUR OBSERVER.

BOARD OF EDUCATION MEETS

(Continued from First Page) vacancies are taken care of in the summer.

The Board approved the appointment of Walter Warfield as a school bus operator for the colored bus from Mount Airy to Westminster. The Board received the resignations of Mrs. Fonda B. Randall, of New Windsor, Mrs. Virginia Saville, Uniontown Elementary. The Board took action to grant a leave of absence to two other teachers for the remainder of the school year. The superintendent was directed to proceed to secure working drawings for additional facilities at Sandmount and Charles Carroll as promptly as possible. A motion was made and passed that the preparations for the Johnsville and Winfield buildings be continued and that a well dug on the Johnsville school property as promptly as possible.

The Board approved the appointment of Margaret Brillhart to the 1st grade vacancy in the Uniontown Elementary School for the remainder of the year. The superintendent reported that an inspection of electric wiring in the schools of the county had been completed and action was being taken to take care of minor repairs indicated in this report. The Board members were given an attendance report in the Carroll county schools for the month of January as well as a breakdown of financial operations related to the building program. Action was taken on several additional matters related to equipment for existing buildings and new buildings as they are completed.

At 11 A. M. the Board considered the bids for the building of a two-room addition to include expansion of the cafeteria at the Winfield school and the building of a four room colored school on the Johnsville road near Eldersburg, for the accommodation of approximately 125 elementary pupils. Bidders on the general contract at Winfield were: Allen F. Feeser, \$32,244.00; Edward Stuller, Taneytown, \$31,121.00; Watkins Construction Company, Frederick, \$32,866.00; O. H. Hostetter, Hanover, \$33,800; Windsor Construction Company, Baltimore, \$34,203.00; Spradlin Construction Company, Washington, \$42,800. On the Johnsville building the bids were: Allen F. Feeser, \$58,422; Edward Stuller, \$50,019.00; Watkins Construction Company, \$56,047.00; O. H. Hostetter, \$54,000.00 Windsor Construction, \$56,611.00; Spradlin Construction, \$56,300.00. The bidders had also been asked to submit a combined bid and after consideration the Board accepted the bid of Edward E. Stuller of Taneytown for the construction of both buildings at his quoted price of \$81,140.00. The contract for the plumbing and heating at Winfield was awarded to B. C. Graybill & Son, Libertytown, Frederick County; their bid price was \$4,939.00. Other bidders for the heating and plumbing were, J. H. Alender & Son Company, Westminster Hardware, George Harner. Other bidders on the plumbing and heating were the Westminster Hardware Company, George Harner and B. C. Graybill and Son. The successful electrical contractor for the Winfield building was W. H. Louthan of Doubs, Frederick County at his bid price of \$2,539.00, and the electric contracts at the Johnsville building were awarded to the Mid-Town Electric Service of Taneytown at their price of \$4,059.00. Construction of these buildings is expected to get under way in the near future. Construction of the Winfield building will enable more pupils to be accommodated at the building thus relieving congestion in some of the neighboring schools. By the building of the Johnsville building a large number of colored children now inadequately housed will be accommodated in a satisfactory building.

The superintendent reported the results of the tuberculosis X-ray which had included the upper grades in the county high schools as well as teachers and school bus operators.

It is expected that working drawings will be available in the near future for an addition to the school at West End, and additions at the Charles Carroll elementary, and Sandymount elementary. The Board of Education is doing everything possible to insure the completion of buildings now under construction to accommodate a vastly increased enrollment in the elementary school

ST. VALENTINE

Very fine, St. Valentine— Today you bring good cheer— Your visit we think quite fine— So cheerful you appear.

The world needs much of you today— War's horrors still abound; Your cheerful smiles chase far away Such things where they are found.

Who e'er will know the debt we owe To you for what you've done? The years may come, the years may go, Your race is never run.

We like you much, you are so fine As Saint, your origin is divine, You bring good cheer when you appear, As you come hence from year to year

We each have us a valentine— You have yours and I have mine To wish us joy what e'er appear From new henceforth thruout the year.

So here's to you, fair one and true— May what you are and what you do Increase the fine things found in you The you conceal them off from view.

THE GROUNDHOG

The groundhog saw his shadow And returned into his hole Will his prophesy be completed Six weeks storm his final goal Winter now is fast upon us Yet the weather remains calm Suited to our lighter garments— Suited to the fresh shorn lamb Better not run low the coal bin Or the wood pile get too low For we have not yet discerned That the North winds still do blow, So we bow to wind and weather And we heed the weather man. He's the one who tries to tell us All we know of God's weather plan.

ONE GREAT HOUR OF SHARING

Gospel Goes West

Lesson for February 12, 1950

SO YOU DON'T BELIEVE in foreign missions? Then you can't read the New Testament with any comfort. Every book in it was written either by a missionary, or about missionaries, or to missionaries, or to be used in mission work. Chapters 13 and 14 of Acts tell us about the first organized foreign mission project in the history of the Christian church. It is the story of how the Gospel was taken out of the narrow strip of coastland along the eastern shore of the Mediterranean, where it was born, out into the western world.

Dr. Foreman

The Best They Had

THE FIRST missionary party were not raw untried men. They were Barnabas and Saul, the top leaders of Antioch. These men had done a great work in Antioch; their usefulness there was not at an end by any means. But the church sent them away to win souls elsewhere. It is a mistake to suppose that just anybody will do as a missionary.

Ignorant people who suppose that missionaries are only the "culls" of the church don't know the facts. A few years ago a scientist, Ellsworth Huntington, made a study of the graduates of Yale and Harvard who were successful enough to be written up in "Who's Who in America." He found that missionaries' sons furnished the largest proportion of those successful men.

The reason for this, he believed, is that only in missionary families do you find that both parents, and not just one, have to go through a rigid sifting process. Only the best—mentally, morally, physically—are accepted by the church today as missionaries.

Strategic Centers

SAUL, or Paul, who came rapidly to the front in the missionary team, was all for efficiency. He never did a thing the hard way if an easier way would save his energy. So we find him heading for the great centers of population.

In the synagogues he would find the most religious people in the city, people who already believed in the One God and who took seriously the Law and the Prophets.

Barnabas and Saul stuck to cities for another reason also. Not that they despised small-town folk, but they knew that cities are where the crowds are. For every dozen people they could reach in a village, there were hundreds to be reached in the cities. So today, mission work has generally concentrated first in the most heavily settled regions.

The Follow-Up

SAUL AND BARNABAS also set the example for later generations in their use of the "follow-up." They did not suppose that simply converting people was enough. There had to be second visits. Some churches Paul visited as many as five times. They would appoint officers in every church. They knew that organized religion is more likely to last than disorganized religion.

They were not fly-by-night evangelists, leaving behind them only an ebbing wave of emotional excitement. Every rose grower knows that it is better to put a 10-cent rose in a 50-cent hole than to put a 50-cent rose into a 10-cent hole.

So Paul did not stick little seedlings of new Christians into barren ground at random; he took pains to see that they were solidly planted in good rose-beds.

The Holy Spirit

THERE IS ANOTHER, and most important, way in which this first missionary effort has set the pace for all since: From beginning to end, they depended on the Holy Spirit. It was the Spirit who first suggested the idea; it was the Spirit who gave the power, and furnished the guidance. Not that the Spirit was or is a substitute for human effort.

But to this very day, if you want to find persons who know about the Holy Spirit at first hand, who know what it means to depend on the Spirit and to be used by Him, then get acquainted with your church's missionaries.

What to so many of us church-goers is only a name, to them is the deepest reality by which they live.

4-H CLUB NEWS

The Taneytown Agriculture 4-H Club held their monthly meeting on January 23, 1950 at the home of Mary and Vesta Null. We opened our meeting with our 4-H Pledge and the roll-call response with each member naming their favorite song. There were 20 members and 7 guests. We also had two new members to join us.

In our old business we had a report from the camera committee, that our club had just purchased. We are planning to have a square dance practice, February 3, at 8 at the Boy Scout Hall. The 4-H Club program was given to each member for 1950.

In our new business we had six club members to report on their pigs as their 4-H project in 1949. Had a demonstration on "Building a Farrowing Pen" by Michael and Mary Klein. We had an interesting talk by Mr. Merle Simpson on "Artificial Breeding."

Our meeting was then adjourned and games were played. Refreshments were served to all.

LINCOLN PRACTICED WHAT HE PREACHED

The Great Emancipator knew the power of thrift. He preached thrift and practiced it.

Abraham Lincoln's earnings were small, and so were his fees as a lawyer. Yet he saved \$2500 a year for twelve years before he became President. While he was President he saved half of his salary.

His life might well be a model today for both public and private expenditure.
