FIELD DAY

Elementary School Will Hold This Event May 23rd

On May 23, 1950, the Taneytown Elementary School will have its annual Field Day. There will be relays beginning at 12:45. Children from the first grade through the sixth will participate. At 1:30 the games will begin. There will be several dodge ball games between the children in the third and fourth grades. Beginning at 2:15 the softball games will be played off between girls and boys teams of Grades 5 and 6.

Parents and friends are cordially invited to attend. Refreshments will be sold after 2:15.

In case of inclement weather the activities will be held at a later date.

FINAL PLANS FOR ALUMNI BANQUET ARE BEING MADE

Final plans are being made for the Annual Alumni Banquet to be held in the High School building on Saturday, June 17, at 6:30 P. M., which will be followed by a dance, the music for which will be the Tones of Radio fame.

The class with the highest percentage of paid members by midnight May 31st will be awarded the Banquet dinner and dance free of charge. The five classes leading in the percentage of paid members follow in order: 1946, 1948, 1920, 1949, 1945.

The association wishes that the class Alumnus would get into the class spirit by backing their class, and send their dues which is only \$1.00 for one year to the deadline of May 31st. The competition is close and your dues may help your class to get into that first position.

The response from the Alumnus in regard to dues and other activities sponsored by the Association has been gratifying and we are looking forward to a record-breaking paid membership this year and a successful banquet.

The Association has decided to sponsor the sending of a local high school boy to "Boys State" which is to be held at Fort Meade from June 24 to July 2.

Delicious refreshments were served following the regular meeting, which was held on May 15th, by David Wilhide and Francis Myers.

TRIP TO THE MIDDLE WEST

On May 3, Mrs. G. Ray Wetling and Mr. and Mrs. Hubert J. Null, on their way to Upper Sandusky, Ohio, stopped to visit Swallow Falls, in the State Park, Garrett Co., Md., which is not advertised enough, and hard to find, but very beautiful.

In Washington, Pa., they stopped a few minutes at the home of Dr. and Mrs. Waltersdorf. After visiting with the Wettlings for several days Mr. and Mrs. Null went on to Nachusa, Ill., where an uncle of Hubert Null lives, George Null, 83 years old. Mr. and Mrs. George Null were found well and cheerful, although Mr. Null lives mostly in a wheel chair, and Mrs. Null is not able to travel around well.

On the way they stopped to see an antique collection owned by a blind man, at Warsaw, Ind.

Before returning toward home, Mr. and Mrs. Null visited the Mississippi River, Palisades Park and Wisconsin Dells. In Wisconsin the recent sand storms had drifted sand along the roads so badly that snow plows had to be used.

On the way home, they visited Newcomerstown, Ohio, to see the organ case in St. Paul's Lutheran Church there. This organ case was built by Adam Ault, of Hanover, Pa., in 1816, and donated by Michael Null to the German Lutheran Church in Taneytown; later sold to the church in Newcomerstown.

Mr. and Mrs. Null covered over 2000 miles on their trip.

DR. H. C. BYRD ADDRESSES KIWANIS

President of U. of M. Speaks on Education and Taxes

Dr. Harry C. (Curly) Byrd, president of the University of Maryland, favored the members of the Taneytown Kiwanis Club and guests by addressing the club at its regular meeting on Wednesday last. The meeting was convened in the usual manner with president Lewis Crumpler presiding and Kiwanian Clyde Hesson giving the invocation. Group singing was again under the leadership of Wallace Reindollar with Mrs. Estella Yingling accompanying.

The following guests were introduced, Mr. Norville Shoemaker and Mr. Landon C. Burns, County Agent; Kiwanian Herbert B. Anders of the Westminster Club; Kiwanian Samuel Jenness, Superintendent of Public Schools of Carroll County, also a member of the Westminster Club. There were four members of the Mt. Airy Kiwanis Club also in attendance, namely, Raymond Selby, Larry Stroh, Lester Lowman and James Windsor. The program for the evening was in charge of the Education and Fellowship Committee with Dr. Thomas H. Legg in charge. Dr. Legg introduced the speaker for the evening, Dr. Byrd.

Dr. Byrd confined his remarks within three realms—education, fellowship and taxation. In the course of his talk he attempted to show just how the three were inter-related. He began his talk by stating that in his mind the definition of education is that which is the process of teaching and training young people and adults in order that they might live together more agreeably. He stated that at the present time there were 14,000 students taking full time courses and working toward degrees at the University of Maryland and that in addition to this number there were approximately 11,000 others who in some way received part time instruction through the facilities of the University either in the form of night courses, seminars, or brief courses. He further enlightened the group with the statement that approximately 2300 students in Europe studying through the medium of twenty-three centers were receiving instruction through the facilities of the University of Maryland and that this portion of the University's program, despite what might be commonly be thought, was self sustaining. There are two major purposes of the University according to Dr. Byrd, first, the development of leaders in our communities of tomorrow and secondly, research. That is, research in many phases pertaining to life itself such as the improvement of farms, particularly dairy farms. He stated that as taxpayers we should, for our own satisfaction and that of our fellow citizens, want to look into the reasons behind taxes and analyze their ultimate use and thus become better advised of the function of not only our state but of national governmental bodies. As one of the tributes made by the University in the course of education in preparation for a useful life they endeavor to arouse within the students the need for more intelligent citizenship in fulfilling the obligations which are theirs, that is the University's. It is hoped, stated Dr. Byrd that the young people attending and being graduated from the University will have been given better and higher and bigger and more substantial ideals that have to do with the making of better homes, for it is the homes of America that make this country as great as what it is. With 6% of the world's population, the citizens of the U. S. own approximately 65% of the world's wealth. In concluding his remarks Dr. Byrd encouraged the backing of the efforts of the public school system since he stated that it was in the public schools that citizens of tomorrow are educated to the values of American citizens and are given the basis of our American way of life.

Next week's meeting will be in charge of the Board of Directors with Kiwanian George Shower handling the program. Approximately 9 members of the club and their wives are planning to attend the charter night meeting of the Mt. Airy Club of Mt. Airy, Maryland.

CHILDREN'S AID SOCIETY MEETS

Miss Custenborder Gives the Service Report

The quarterly board meeting of the Carroll County Children's Aid Society, branch of the Maryland Children's Aid Society was held on Monday, May 8, at 2 P. M., at the Historical House, with Mrs. Landon Burns, President, presiding.

Reports of standing committees were read and approved. The president introduced the following new district chairman, Mrs. Al Soreffat, Freedom District, and Mrs. Carroll Wilhide, Middleburg District.

The guest speaker, Dr. W. Ross Cameron, County Health Officer, was introduced by Miss Maude Manahan, County Nurse. Dr. Cameron outlined the health program for the county, and said that new nurses are being added to take care of the different territories.

Service report of Miss Bonnie M. Custenborder, Director follows:

Since January first eleven requests were made to the Children's Aid Society for placement of children needing care. Nine of these children are from broken homes while four were accepted by relatives. In one family the mother is ill with tuberculosis and the children are being given temporary homes while she is in a sanatorium.

Eight children were passed from care because one became self-supporting, one child was adopted and five were placed with their relatives. Many of the children have physical defects which are treated as recommended by the doctors. Four of them were fitted with glasses, one had special shoes to correct crooked ankles and three children had dental corrections; three children were given chest X-Rays and follow up treatment. In the child guidance clinic three children are being treated because of their mental behavior.

During the four months just passed twenty-four families were referred to the CAS for help with their problems which include financial needs as well as domestic difficulties; seventy-five children are in some of these homes. In some cases a few articles of clothing or shoes are all that are needed to tide a family over a period of unemployment or sickness; in other homes drinking and immorality threaten to cause the separation of parents and the child—ren to be put out among strangers. Much time is spent in doing preventive work in these homes in order to keep them intact. 290 visits were made to children in foster homes and to families needing our help with their problems. 327 office interviews were held in the interest of both departments in the Children's Aid Society.

THIS 'N' THAT

(Your Chatty Column)

With all my heart, I wish you every morning
A smile that shall last until the next day's dawning.
I wish you health—life's greatest wealth!
I wish you always near so that I may help to cheer
Each future day and in some way—help to bring you happiness!

The Cows Came Home! Doesn't that sound just chucked full of domesticity? That was really true! Those words from a grand and wise lady who was a former farmer's daughter and now residing around our town!

A lady who has been in the office and also assistant to a Doctor for twenty-nine years told Your Observer most sincerely that she always gives ten per cent of her wages to God!

Many New Yorkers are getting out of that famous city and purchasing farms in New Jersey and nearby states. I hear there are droves of them heading for God's country!

Hiss cannot practice his profession ever again in the State of New York UMP—In Russian he would have been shot immediately without any trial and no further questions asked! Eh?

Now this is for the country folks! First time Your Observer has ever seen a real "Skunk" and right on the lawn at that! He will know what a good shot I am if he continues to walk around as though he was a pet!

The Catholic Charities are making their wonderful appeal for Charity and you and you can help! There is no difference in religions in a cause like Charity and I think you know what I mean! That nice little Priest around our town has made plans to take all the children and mothers in busses to Washington for the day on Friday, May 19. Am sure it will linger in memories in years to come!

Excellent movies have been playing at the "EARLE". Take the little lady to the early show where she can and will relax completely after a full day. Why drive out of town when you can see "Super-Duper" pictures with their brilliant Stars shining right at the square of our little town!

That was truly most interesting to read of the old paper published many years ago—the Editor—the uncle of that nice grocery store family. How times have changed!

Here's a cute sign—"It will be Kisses from the Misses with a zelvinator! "Short, sweet and snappy! It pays to advertise! If the ad is of a different type of reading, it goes over with the public—always! Eh?"

Now this is something old and something new—"A FRESH AIR COCKTAIL"! Go to the window each morning regardless of the weather and take ten long deep breaths!

Ann Lawrence of New York, ladies, really make you beautiful! More of that in a later column for you!

The "Looking Glass" on 25th St. near St. Paul—I hear is doing wonders for the feminine gender. Must investigate that one for you, too, especially that it is so near our town. Called at the big stone house out the 71 Highway which is 131 years old. What a grand person and such a jolly one too, that little housewife. I'll be calling there soon again. This home was the home for thirty-five years of that Queenly Lady of Carroll County where she went as a bride and really loved it! And that reminds me, the correct name of that wonderful Convalescent Home is "Meadow View" instead of the name Mountain View. Sorry, I made the mistake! Nevertheless, it is the lovely place where you can get well overlooking the lovely meadows surrounding.

On the Ed Sullivan Show for Lin-wonderful voice of a thirteen year old wonder child and Mercury, heard the most girl from Italy—Anna Marie! Never have I heard such applause in any audience only for the big Operatic Stars. Over seven thousand letters poured in for the return of Anna Marie and last Sunday night she again was singing over that same Mercury-Lincoln program. She has actually been a BOMB SHELL to the American music audience lovers!

Faithfully,
YOUR OBSERVER.

THE CHANGING TIMES

Time to change. America (USA) is built upon a system of checks and balances. It is not good for the country to be too long under the control of one political party. We had a good illustration of that during the years following the Civil War. Considerable corruption accumulated during those years. Malfactors of great wealth grew and multiplied. The doctrine that a public office is a public trust gave place to the doctrine that to the victor belongs the spoils.

A lot of people believed in getting while the getting was good, and the tribe has not entirely died out yet. A fellow who later became Governor while yet a candidate used to say repeatedly "We are going places" but after he secured his election which I and my friends aided greatly, he didn't even know me. Well he is gone and peace to his soul. He had his day and used it doubtless as he deemed best. They used to call it the filthy cesspool of politics, and I guess they were not far wrong in their designation. But with all its attendant evils this good old United States is the best country in which to live made so doubtless by the mingling of the blood of almost every race and nation on the globe.

As Henry J. Taylor says in closing his radio talks "God Bless America."

Now that Mother's Day is over I feel free to express my opinion about all the sentimental stuff and nonsense handed out to us mothers without being accused of sabotaging Mother's Day. Of course I am in favor of a day for Mother! In fact any number of days as long as they aren't filled with poetic clap trap and silly platitudes. Mothers are human beings and incapable of living up to all the millions of words poured out by pen and tongue in an emotional cloudburst. Mother has done some wonderful things and some not so wonderful. If this were not true our prisons, orphanage and mental hospitals would not be overflowing. One cannot be a good mother by instinct nor does the pain of childbirth give any woman a sixth sense in how to raise a family or make a home. If she has been a good mother her knowledge is hers by the sight of her children being honest, worthwhile citizens and she needs no florid or candy manufacturer or greeting card firm to tell her so by commercializing on the name of "mother."

My ten year old sat down in tears

and poured out all her trouble. For though she had three packs of gum—she could not blow a bubble.

Americans will pay a big price for any invention that will help them to save time they won't know what to do with.

One of the stores we especially like to visit in Taneytown is the grocery store run by Mr. and Mrs. Curtis Bowers. It has the atmosphere of a friendly country store—the kind that is fast disappearing.

We shall miss Mrs. Bowers and we extend our sympathy to Mr. Bowers in his loss of a wife and partner.

Remember if today isn't what you hoped it would be, tomorrow will be better.

Wednesday, Mrs. Martin Conover was found lying in an unconscious condition on the ground in the chicken yard at her home near town. She was removed in the ambulance to the Annie Warner Hospital, Gettysburg. Mrs. Conover had been living alone since the death of her husband. A son Mervin, of Taneytown, stayed with her at nights.

Robert L. Zentz, local insurance agent, attended an all-day insurance meeting held at Carvel Hall, in Annapolis, on Thursday. A large group of Agents, District Managers and Officials from the home office in Chicago were in attendance. The meeting was held by the American Farmers Mutual Insurance Company, a division of Kemper Insurance, one of the world's largest insurance groups.

DARE TO BE A DANIEL

Dare to be a Daniel is a challenge. The challenge has come to generation after generation. Today, the call is louder than ever before. Weaklings do not hear the call. Only men of vision, courage, and faith hear, and obey the call.

There are people who believe they are Daniels when there is no king around. It is one thing to be a Daniel when there is no king around, and quite another thing to be a Daniel in the face of a king's edict. Daniel of the Bible "purposed in his heart that he would not defile himself with the portion of the king's meat, nor with the wine which he drank."

To be a Daniel means to be a Daniel and not someone else. None can afford to be a Make-Believe when there is so much at stake. Daniel's backbone contained marrow, and not putty; his blood was less than one-hundred per cent water. Millions of red corpuscles carried oxygen in his blood stream, Daniel was no anemic.

Daniel was a man of action. His action was backed by mental, moral, and spiritual purposes. His way of life separated him from men of less fortitude. His nature was foreign to the standards of the hoi polloi. He was an unswerving integrity in the midst of alluring temptations in high places, in the presence of unparalleled opportunities to grow rich over night, and in the company of men who walked in the counsel of the ungodly, stood in the way of sinners, and sat in the seat of the scornful.

To be a Daniel in a topsy turvy world requires steadfastness, fortitude, and moral stamina. Unless we are able to measure up to our physical, mental, social, moral, and religious capacities we are not Daniels. What a tragedy to grow into a derelict in a country like ours! What a calamity to become less than a Man in America!

If you want to be more than you are, to do better than you are, resort to the study of history. Strive to emulate the noble men and women of the ages. History is a record of men's failures as well as of their successes, of their blunders as well as of their wise decisions, of their defeats as well as of their victories. Therefore, history should guide you away from the chasms into which they fell, and lead you into the paths of their successes and achievements. Many stumble into failure because they fail to learn the lessons taught by others who have gone before.

Streams are crossed by those who have learned to swim; mountains are climbed by those with sound hearts, the kings are faced by those who dare to stand like Daniel. The spirit, the fearlessness, the ideals, the purposes, the faith, and the trust of a Daniel will bring men to goals never reached by those who are afraid of their fellowmen. Let us recall and profit by the adage of the late F. D. Roosevelt. The only fear to fear is fear itself.

"Lives of great men all remind us
We can make our lives sublime,
And, departing, leave behind us
Footprints on the sands of time.
Not enjoyment, and not sorrow,
Is our destined end or way;
But to act that each tomorrow
Finds us farther than today."

Dare to be a Daniel! Strive to be a Man!

WALKERSVILLE PLANS 200th YEAR FETE

With all local organizations participating plans were launched for the two hundredth anniversary of the founding of Walkersville, a five-day celebration beginning May 30, coincident with dedication of the Walkersville Volunteer Fire Company's new engine house and community hall.

The event will commemorate the founding of the little Glade Valley village now known as Walkersville in honor of John Walker, its founder. Philip H. Beard, the fire company president, said a committee to arrange for the event will include representatives from each of the community's four churches, the Cemetery Association, the Grange, town and fire company officials.

With plans now in the formative stage, it was tentatively decided to open the observance on Decoration Day, in keeping with the Memorial Day tradition.

Initial ceremonies will consist of services at the cemetery, following which the engine house and community hall will be dedicated. A parade is likewise being planned.

The two hundredth anniversary will continue over five days, with the celebration centering around the new fire and community building in a general carnival-bazaar atmosphere. The Volunteer Fire Company will hold its annual carnival as usual in July.

President Roosevelt's Board said—

President Truman's Board said—

Still the leaders of the Railroad

Firemen's
Union say—

NO! NO! "STRIKE!"

This ridiculous strike is an affront to every citizen of the nation. It's not for more money.

It's not because of hours. It's only for soft feather-bedding spots for additional unnecessary firemen to go along in diesel locomotives just for the ride. A leading liberal newspaper calls the demands of the union leaders "horse-feathers!"

• The reckless leaders of the firemen's union want to force down the throats of the railroads and the public a ridiculous "make-work" proposal which has been twice ruled out by Presidential Fact Finding Boards duly appointed under the provisions of the Railway Labor Act.

This demand of union leaders for additional and unnecessary firemen to ride in diesel locomotives was rejected—after months of hearings—by a Board appointed by President Roosevelt in 1943.

It was again rejected in 1949 by a Board appointed by President Truman.

Recent meetings with the National Mediation Board have brought no change in the attitude of the union dictators.

Union Leaders Defy Intent of Law

The union leaders helped write the Railway Labor Act. Yet in an attempt to jam through this scheme of pure

"feather-bedding" by leading the members of their union out on strike and threatening paralysis to large areas of the nation, they are defying the spirit and intent of the very law which they helped to create.

This strike is not for higher wages. It is a strike to force the railroads to employ many more thousands of firemen who are not needed! It would be indefensible waste. The railroads have refused to place this additional and unnecessary burden on the public.

But more important than any other consideration, is the action of these few irresponsible union leaders in seeking to force a crippling strike upon the

This strike is one of the silliest strikes in history!

What are these reckless union leaders trying to do? They seek to cause thousands of their members to strike, and throw hundreds of thousands of other employees on and off the railroads out of employment, with loss of pay to them and their families, plus a severe blow to industry and the citizens of the nation.

What's the strike all about? If the union has its way—what happens? The present members of the union won't get one cent more pay. They will merely have been assessed for a costly and indefensible drive in an attempt to provide more dues-paying members for the union by creating "feather-bedding" jobs for additional and unnecessary firemen. This is certainly one of the silliest strikes in history!

nation for their own selfish purposes. There is no other possible answer to such a demand but "No!"

The railroads in making such a reply believe they have the whole-hearted support of the people in whose interest they are willing to fight this out, despite the loss and inconvenience that all will suffer.

It is time to put an end to such un-American demands.

We are publishing this and other advertisements to talk to you at first hand about matters which are important to everybody.

ANOTHER INSTALLMENT OF REV. OWENS' TRIP

(Due to lack of space we were forced to omit several installments of Rev. Owens' trip but resuming this week, we hope to complete this series in two issues.—Ed. note.)

XIV
HOLSTON

The editor of this paper has suggested that we should get ourselves back home before ending this travelogue. So, after eight days in the Southern Mountains, we left Asheville, on August 16. We had to get back for a church wedding on August 20. That could not wait. The date had been set. In spite of insistent invitations to stay longer, we had to keep our promise to the waiting lovers.

Our exit from the Blue Ridge this time was through the pass cut by Cain River. This was the Daniel Boone Trail from N. C. to Kentucky. For many miles the highway follows the Cain River Gorge down to the famous Watauga-Holston Valley. It was this route that the Cherokee Indians used to make excursions into the happy hunting grounds of what is now the Blue Grass Regions of Kentucky. It was likewise over the same route that Daniel Boone traveled, following the Indian Trail, until he too, in amazement, looked down for the first time on the happy hunting grounds of the rich blue grass country of the Cumberland Mountains. Daniel Boone, whose trail is marked in many places, was the pioneer of an epochal movement in early American history. For later, thousands of pioneers swelled the Holston-Watauga Settlements.

For a long time this trail was the main artery of travel from the Blue Ridge to points west. First it was a foot trail only for men on foot or horseback. Later it was made into a wagon trail. Now it is one of the improved highways out of the Blue Ridge into the Holston Country. This section, formerly a part of N. C., now includes Washington and Sullivan Counties of Tennessee, located at the foot hills of the Blue Ridge Mountains.

On this highway down the Blue Ridge we saw the only accident during the whole trip. To travel that distance without seeing any motorist in any kind of trouble, is quite remarkable. As we were coming down the mountain, a car passed us traveling at a fast rate of speed. It was drizzling rain enough to make the road wet. A few miles further down, the car had failed to make a sharp curve around the brow of a cliff. The breaks had thrown the car into a skid. It struck the guard rails on the edge of the cliff, broke through, and plunged fifty feet straight down, landing on its wheels in the river bed below. By the time we arrived a crowd was gathering at the scene. Four women and the driver of the car, had been extricated from the wreck and hoisted to the top of the cliff. Apparently none had been hurt very much. How that car was ever hoisted back into the road, was the problem being faced when we left the scene. One tall and lank mountaineer, chewing tobacco and spitting the juice, said to me: "You flat country fellers don't know how to drive on our mountain roads."

DANIEL BOONE
We were glad to visit this area associated with the fame of Daniel Boone and filled with early historic lore. It was here that the first Declaration of Independence, was declared. And after the Revolution, Pioneers by the tens of thousands, pushed on through the Wilderness Road.

Another purpose of returning this way, was to visit a Niece who lived in the Holston section, and who was on the staff of the Centralized High School there. The contemplated visit of a few hours, stretched into two days. We visited for the first time the grave of the writer's sister. It was located in a beautiful cemetery on a hill overlooking Johnson City. Graves of loved ones always become as a sacred shrine on hallowed ground.

Around about are found numerous places of historic interest. One was Rocky Mount, an old mansion overlooking the countryside from the top of a hill. It was built before the Revolution, the home of distinguished pioneers, William Cobb and William Blount, lived there. It was one of the favorite haunts of Andrew Jackson. It was there that he received his license to practice law.

The old mansion, still well preserved, has not yet been taken over as an American Shrine. A farmer lives there. No visitors are allowed. But we took a chance and went to see it. There we learned why no visitors were allowed, and apologized for the request. The farmer's wife, who was there, was suffering from manic depressive, one of the most excitable forms of insanity.

KINGS MOUNTAIN
This mansion was an important center among the frontiersmen in colonial times. The old highway between north and south passed here. It was here also that the so-called backwoodsmen of the wilderness, became the first markers of American history. In the darkest days of the Revolution, when the American cause looked hopeless, the successful British ordered the mountaineers to capitulate. Else the men would be hanged, their wives kidnapped, and their property confiscated. But the British underestimated the Scotch-Irish anger of the mountaineer. These men were so incensed at the British order that they seized their muskets, mounted their horses, and rode in pursuit of the enemy. Under the leadership of Col. Isaac Shelby and Col. John Sevier, they started in pursuit of Col. Ferguson, the British leader. Patrick Ferguson's forces on by many others. They surrounded Col. Patrick Ferguson's forces on Kings Mountain. There they won a decisive victory, capturing the entire British force. That victory filled the American cause with new hope, and turned the tide of the American Revolution. Now, Kings Mountain is

a beautiful Military Park, that reminds one of Gettysburg.

The military strategy of these mountaineers from Holston was unusual. When Col. Ferguson would launch his bayonet charge against them, they would flee like wild horses. Then they would turn, rally, and pursue the British forces back up the mountain with withering rifle fire. This sort of tactics went on all day until Col. Ferguson was frantic, dashing about in anger, waving his broken sword in fury. A sharpshooter spotted him and picked him off. The British Colonel was buried where he fell. Later the Americans erected a splendid monument to the grave of this distinguished British soldier, in token of enduring peace between England and America. This is one of the many beautiful monuments adorning Kings Mountain, the Gettysburg of the Revolution.

At the same time the other pioneers from Holston pushed on west and took from the British the country north of the Ohio. In the old cemetery which we visited at the new Bethel Presbyterian church, organized during the Revolution, we found the graves of many of these soldiers. On most of these graves the stones are still legible with names, dates and epitaphs. Many of these soldiers had fought in the Battle of Kings Mountain.

We had not been in this area long when the news spread that visitors from the North had come, but that they could not stay long because of a church wedding back home. For in that section, Maryland is considered as in the North. Since the Northern and Southern Presbyterian churches have been talking about union, we were anxious to see the pastor of the New Bethel Presbyterian church. We were told that he was opposed to having anything to do with anything up north. But when we talked with him, he seemed to conclude that perhaps these people from the north are not so bad after all. In general we were very graciously received everywhere.

Our visit was most enjoyable. Our hosts begged us to stay longer. But the date of the wedding back home was at hand, just enough time left to get there. The last night some of the children wept all night because we were leaving the next morning. We were unaccustomed to such tears. Seldom have we seen a departure mingled with so many regretful manifestations. Before we left, a promise was exacted that we come again next summer, and let no wedding or any other creature set a time limit on the next trip.

INSURANCE AGAINST POLIO

A new insurance coverage providing financial protection to individuals and families against the dread disease, Poliomyelitis, has been made available to the public by the Farm Bureau Mutual Automobile Insurance Company. Bowman Doss, agency vice president, announced that the policy covers expenses for hospital care, iron lung, medical care, nurses' care, transportation and ambulance service.

In addition to these, the company has broadened the policy to include board and room expenses for a member of the family who wishes to be near the afflicted person during the period of hospital confinement.

The new coverage was instituted after results in a poll taken among the companies' 3,000-member agency force showed a need for such protection.

In an announcement to Field Personnel, Doss urged that the utmost cooperation be given to the national foundation for Infantile Paralysis and other local organizations in their public programs to combat the disease. Referring to recent developments in the scientific research being conducted to find a preventative Doss said that "Only through full public cooperation with scientific groups will we eventually dissipate this fear that plagues all of us."

The new polio policy is being offered locally by J. Alfred Heltenbride, Frizzellburg, local agent for the company. The Farm Bureau Mutual Automobile is associated with the Farm Bureau Mutual Fire Insurance Company and the Farm Bureau Life Insurance Company, maintaining home offices in Columbus, Ohio.

How to take the Work out of Housework

Wash beater and bowl of your electric mixer immediately after use. Lukewarm water is best. Never bang the beater against the bowl to detach particles. Dry thoroughly. Wipe off motor. Cover when not in use.

(Mixers are handy. You can run yours an hour for a cent's worth of electricity.)

Didn't finish your ironing today? Don't worry. You can keep sprinkled clothes from mildew by wrapping in wax paper, and placing in your refrigerator. They'll keep sweet and fresh for several days.

(Your refrigerator will work all week end for a nickel's worth of electricity.)

What's more welcome than a cooling fan these hot summer days? Be sure the blades on your fan are clean, and the wire and plug are in good order. Fans get thirsty in summer, too. When was yours oiled last?

(For only one cent, an ordinary sized fan will keep you cool more than 4 full hours.)

Before washing dishes that have held raw eggs, rinse in cold water. Hot water cooks the eggs on the dish, makes washing harder. Lucky you, if you have an electric washer. Simply put your dishes in and forget them!

(An electric dishwasher will wash and dry 6 loads of dishes for a penny! Less breakage, too!)

Electric bulbs give better light when clean. Regularly wipe off the bulbs with a damp cloth. You'll be surprised at the light-robbing grime they collect. Fluorescent tubes should be cleaned once a month.

(You can light a 100-watt fluorescent lamp for almost 3 hours for a single penny!)

Want to make a parchment lamp shade last longer, stay cleaner and look better? Wax it. Simply polish with a soft cloth and a colorless furniture wax. Makes shade easier to dust, too.

(Did you know a penny of electricity will light a 40-watt lamp bulb for 7 hours!)

Sprinkle clothes with hot water. It spreads through fibers quicker and more evenly. Make a sprinkler out of a ketchup bottle and a spray cork. Wrap colored clothes separately in wax paper, and they won't run.

(It's true you can iron 20 handkerchiefs for a cent's worth of electricity!)

Be kind to your washing machine. Never overload. Empty machine while suds are hot. Brush cylinder under the water that runs out. Let cylinder dry thoroughly before replacing.

(Two cents will supply the electricity to do an average family wash for a whole week!)

PENN.-MD. LEAGUE

After winning the first game of the current season in the Pen-Mar League from Blue Ridge Summit, and losing the second played to McSherrystown, Taneytown suffered the second defeat of the season last Sunday, losing to Littlestown on their home ground 5 to 1. Both Bob Weaver for Littlestown and Junior Unger for Taneytown pitched very good ball. Taneytown got off to an early lead when Motter lead off to second on a walk to Hitchcock, to third on a sacrifice of Stout, and scored on a fielder's choice by Shank. Littlestown tied it up in the second with a homer by Crouse over the right field fence. Unfortunate errors permitted Littlestown to score two unearned runs in the fifth inning, and they were enough to win, and they added two insurance runs in the 6th.

The continued wet weather this Spring prevented the completion and preparation of the splendid new playing field in time for the customary pre-season practice and drill work. Now that the field is in condition, as better weather permits some team practice, the local team will undoubtedly offer stiffer competition in the games ahead.

The Athletic Association has performed a very creditable job of providing and preparing a fine ball field and grandstand and necessary accountermments, and in this endeavor has been nobly supported by the sports advocates of the community; and with the continued loyal support of these same fans the same kind of earnest response can be expected by the ball club.

The schedule has Westminster playing here next Sunday.

God and Our Rights

Lesson for May 21, 1950

CIVIL RIGHTS are now a political football in the United States. Every legislator likes to be known as favoring them. Everybody seems to be all out for rights for everybody. Then why isn't everybody satisfied? The truth is, a lot of us just talk. When it comes down to political facts, the people who get their "rights" recognized first are the people with the most votes. The little people, especially if they haven't too many votes, are likely to be stepped on.

Dr. Foreman

Cannibal Country

THIS IS NOT a new problem. Long ago the prophet Micah faced it, said some brave words about it. He was a small-town man living in a village near the Judah-Philistine border line. Judah was at that time mostly rural.

The villages were made up of farmers, who did not live on their farms as we do but lived all together for protection, going out into the country by day to work their farms, coming back to the village at night. None of them owned very much land, and few indeed were rich.

There was just one big city in Judah, Jerusalem the capital. Compared with the rest of the country it was immense and enormously rich. Now it does not take two guesses to know how Judah, as a nation, was run. Jerusalem ran it. The big city was growing richer and richer while the country grew poorer and poorer.

The small farmers were losing their lands and becoming tenants or hired men (2:1-2). Micah even talks of the princes of Israel, the aristocracy, as cannibals, eating the flesh of the people.

Half Slave, Half Free

NO COUNTRY is a good country, no country is in a healthy condition, if one part of it is tearing the other part down. If the strong are living off the weak, the whole nation grows weak. Micah saw that exactly; indeed, he predicted that because of the kind of country it was, half opposed and half oppressing, it would be destroyed.

No enemy of his country, he did not enjoy forecasting its downfall. But he loved people, he loved his country neighbors; he could see what was happening to people who were being crushed down into the dirt, he knew that could not go on and on without a smash. (And it came!)

This has been the story over and over again in the history of nations. When the few grow strong at the expense of the many, when wealth is concentrated in a few cities, or in a few individuals or families, look out!

When this goes on for a long time and becomes a sort of national habit, the nation may not fall at once but becomes a pushover for anybody who wants to take it. Why, for instance, was the downfall of the "Nationalists" in China so swift? It was because the Chinese people had become convinced that the political leaders and their wealthy backers were in it for what they could get out of it.

Why did so many Nationalist troops fail to fight, why did they surrender repeatedly without striking a blow? Because armies are made of common men, and the common man has been taking a beating too long. There is very little patriotism in a beaten man.

We Have Our Own Problems

WE ARE FORTUNATE in that we live in more democratic times and lands. It should never be forgotten that democracy is a fruit of the Jewish-Christian tradition which the prophet Micah helped to form. It was the prophets who plowed deeply the soil out of which democracy has grown.

Many of the laws of our land are intended to keep the strong from eating up the weak. The farmer, the man out of work, the man with the small job, the man with the small business—they are protected under our government, whether in Canada or in the United States, as they never were in ancient Judah. To test whether we are treating others right, especially those who are weaker than ourselves, we need first to ask these basic questions: Do these people get their share of justice, and are we helping them get it? Do we treat them with mercy or do we only "use" them for our own benefit?
