DEMOCRATIC CONVENTION. County Ticket Nominated.

The democratic county convention met in Odd Fellows Hall, Westminster, on Monday, and nominated a county ticket. This convention was looked forward to with interest by both parties, owing to the fact that it was known that the primaries over the county on Saturday, would be hotly contested between what is known as the Cleveland and Gorman factions. It was presumed that whatever might be the result of this contest, that there would be considerable clashing of interests manifested in

The following resolutions were unanimously adopted;

We the democrats of Carroll county, in convention assembled, again reiterate our firm adherence to the principles of the great democratic party as expounded by Jefferson, Jackson, Tilden and Cleveland and set forth in the national democratic platform of 1892, We assert with all the emphasis in our power that "public office is a public trust," and the holder of office, after the discharge of the duties therewith, owes fealty to the party only—not to any one or two members of the party; that nominees of our party are pledged to a strict compliance with the wishes of the party as expressed through its platform. To accept our nomination is a pledge to the people of untiring efforts to accomplish their wishes thus expressed, and anything less we denounce as treachery to the party.

We accept and promise a faithful support to the nominees of the state convention on the platform and letters of acceptance, not unmindful that they are tainted with bossism to the extent of their being repudiated by many of our most worthy fellow-democrats. We greet our fellow-citizens of the democracy, county and state, with no excuse or palliation for this, their power being usurped and their rights shamelessly set aside, but see no remedy in the proposed desertion of party affiliation. The nominee for Governor, Mr. Hurst is a gentleman-distinguished for all the qualities of honor, ability and integrity, in his past record, which has made him eminent as a merchant. These qualities and facts are our warrant for the hope and belief that he will, when elected, remember that the same qualities and elements will be necessary to crown his political career with that honor which at present is vouchsafed him by his fellow-citizens; failing in these he will draw down upon himself the just contempt, visited upon those now who have nominated him.

We assert that Mr. Hurst is the peer of his republican opponent, and if party record is to be the criterion, as Mr. Lowndes says it is, there can be no

We piedge our Senator and members of the House of Delegates to use every effort to further the passage of a bill for the equitable reassessment of all property, to the end that all wealth shall contribute to the support of government in due proportion; and further, that they will vote for no man for the exalted position of United States Senator whose present or past record is contaminated by the suspicion that he is the choice of any one man or machine which has brought the party to its present distressed condition.

IT WAS incorrectly stated in these columns two weeks ago, that persons whose last voting place was Baltimore city, may register in the counties without a transfer. This is true every other year only, as Baltimore has biennial registration. As there is no new registration there this year, consequently those who voted there last year, must have a transfer to vote in the counties. Next year however, this will not be necessary, as the city will have new registration.

To Readers and Advertisers.

It has been the policy of the RECORD from the beginning to preserve the make up of the paper from the disparaging effect of the Patent Medicine advertisement, and it has refused contract after contract which carried with it a demand for reading notices in our local column, or at least on the first page.

This has, of course, resulted in a considerable loss of revenue to the Company, but, if it has led to a greater appreciation of the paper by our readers, we are amply repaid. Those who are observant, have noticed this feature of the RECORD, and have did the deed himself or knowingly possibly wondered why it does not contain a large number of the advertisements referred to, as most other small papers are not only full of them, but are practically ruined by their appearance.

We have not only refused many manent betterment of the highways contracts, which call for a special of the state, so that the means of position which would interfere with communication by private convey our conception of a fresh and newsy ance between the farms of the state paper, but have also refused contracts and the neighboring markets shall of every kind, which do not pay as be improved." much as our local advertisers. McKinstry's Mills.

Situated on Sam's Creek, two miles from Linwood, and on the boundary between Carroll and Frederick counties, is the village of McKinstry's Mills. The early history of the place, is largely the history of the flour mills located there. Previous to the building of the W. M. R. R., immense quantities of flour were manufactur-ed at these mills for the farmers who hauled it to the Baltimore markets. The first mill, a log structure, was built in 1797, and owned by George Pusey. The town derived its name Pusey. The town derived its name from the McKinstry's who came there

Samuel McKinstry, the great-grandfather of the late Samuel McKinstry, was born in Ireland in 1721; landed in Philadelphia in 1740, bent on seeking his fortune in the new world. He worked about Germantown for some time, then moved into Buck's county Pa., where he died in 1781, He had married a Miss Pearson, and Samuel McKinstry, was born of this mar-

About the year 1800, Evan, a son of Samuel McKinstry Jr. in company with John Lyons, started from their homes in Doylestown, Bucks county Penn., for Maryland. These boys were of Quaker descent and with their wordly possessions tied up in a small bundle, and a stout cane, they turned their faces southward for Ellicott's City, Md., which was at that time, a Quaker settlement. When they arrived at White Hall, Baltimore county, the site of the Mt. Vernon Cotton Mills, they obtained employment, and proceeded no further.

In 1804, tired of fighting life's battles alone, they returned to Doylestown, married each other's sisters, and then retraced their steps to White Hall. In 1814, Evan McKinstry made his way to Sam's Creek, and purchased the log mill of Pusey. The property is still kept in the McKinstry family. Evan improved the mill by weather-boarding it. His family ensisted of far and the street of the street family consisted of five sons; John, Samuel who succeeded his father in the milling business, Joseph father of the present Evan, Henry, Evan, and one daughter, Mary, who married Nicholas Norris. Dr. Norris a practice ing physician of Union Bridge is one

of their sons.
Samuel McKinstry erected the present commodious mill house in 1844; at that time it was regarded as the finest mill in the country. He also built the large brick dwelling, now occupied by W. R. Zumbrun, remodeled his late residence, and built the store room and residence now oc-cupied by C. F. Myers. The country was by this time becoming more thickly settled and Samuel conducted a prosperous business. His pleasant manner won for him a host of friends, and the mills earned a wide reputation. Though not strictly a public man, he was interested in the progress of the county and state. In 1858 he represented Carroll county in the Maryland legislature, THE POST OFFICE.

The first post office was established in 1837 with Samuel McKinstry as P. M., receiving his commission from Amos Kendall, post-master general, and continued in office till his death in 1883, being at that time the longest in office of any P. M. in the state, with the exception of Stabler of

Montgomery county. Samuel McKinstry married Mary est son, successor to the mill and living in retirement in Union Bridge, and Miss Sarah who resides on the homestead. Mordecai seems to have inherited the excellent business qualities of his father, and is widely known. He was for four years the honored president of the Board of County Commissioners for Carroll County. Recently he has equipped the mill with all the modern improvements for milling. W. R. Zumbrun &

TRADES.

During the ownership of Pusey, Michael Sponsler kept a store in a small building opposite the residence of Miss Sarah McKinstry, He con-tinued in business until 1826. George Wertz succeeded him, who also repaired watches and clocks. Following paired watches and clocks. Following in succession were John Ogburn, Geo. Pole, Ephraim Hiteshue in about 1845; Michael Smith, in whose time the present store room was erected, Jos. Roop, Jesse Anders, Samuel Wolfe, Albaugh Bros., who did an extensive business, and were also large manufacturers of ice cream:

September 20th. 1874, and Rev. W. also large manufacturers of ice cream; D. F. Albaugh, who afterwards built a fine residence and store at Linwood, John McKinstry, son of Samuel, who died in business, M. O. Myers, and the present owner, C. F. Myers.

The tailoring business has been represented by Charles Hiteshue, Henry Routson and Mr. Freeman. Isaiah Miller was a harness manufacturer for a number of years. The shoemakers were Christian Millard, A. J. Marshall, J. H. Shew, and John Keefauver who now conducts the business.

Among the early settlers in the immediate vicinity was the Sohms family. They came from Lancaster county, Pa., and were large owners of land. John Cronise, a descendant of this family, is in possesion of one of the farms. Other early settlers in the gration were the Bankerd Pusey.

While the neighborhood is prosperous in an agricultural way, and the people are not lacking in either intelligence or industry, neither the store or mill will likely ever do the immense business they once did, and the reasons for this are due to perfectly natural causes.

HISTORY OF HARNEY.

BY J. W. RECK, 1895. PART 1X.

(MT. JOY CHURCH, continued.) In November 1861 a joint meeting of both councils of the Taneytown charge being called, the following res-

olutions were passed.

Resolved, That the minister's salary shall hereafter be paid semi-annually.

Whereas every deacon is solemnly bound by his installation vow to see that the minister receives a just and

term of office, and to make settlement his church. with the council at, or within two months of the expiration of his term

The amount to be raised at that time as Mt. Joy's share toward the support

of the minister was \$150.00. The Rev. L. T. Williams served the congregation from 1858 to 1867; during all this time he labored faithfully, ever striving to win souls for the Master's Kingdom, by giving saint and sinner their portion in due sea-on. But Providence saw fit to lay the hand of affliction upon him, and ne was compelled to resign as pastor of the charge.

A short time after this, the Rev. P Bergstresser was called to the charge, and preached his first sermon at Mt. Joy on November 2nd., 1867. During Mr. Bergstresser's ministry at this place, he had quite a revival in the church; the meeting lasted for several months, and nearly one hundred permeaths. months, and nearly one hundred persons were converted, and quite a number added to the church.

On the 3nd. of June, 1870, it was decided to repair the church, by having it re-plastered and papered and papered.

it re-plastered and papered, and new coal stoves were to take the place of the old wood stoves. New matting was to be put in the aisles, and new carpet in the altar and pulpit, and the elders, John Mairing and Samuel Reck were appointed to solicit subscriptions for making the repairs.

These gentlemen thought proper to commence work promptly, and \$49.50 was subscribed at once, and after making a thorough canvass of the congregation, it was found that sub-scriptions to the amount \$210.95 had been taken; then it was decided to Ann Clemson, and out of a family of | make more extensive improvements six sons and two daughters, but two children survive; Mordecai, the olding around the altar, and a new puling around the altar, and a new palpit, and the entire church painted; but instead of having the walls papered they were frescoed. After serving the congregation for several years, he resigned the charge April 1st., 1877, thus leaving the charge without a pastor, it was, however, supplied by Rev. E. S. Johnston of Emmitsburg. On March 15th., 1878 a special coun-

cil meeting was called by the council of Trinity Lutheran church of Taneytown. Those present, were the Mt. Joy council, a committee of two from Taneytown, and Rev. E. S. Johnson. Mr. Henry Benner took the chair; the meeting was called to order, and opened by prayer by Rev. Johnson.
Mr. Reindollar and C. M. Hess of
Taneytown, stated that the object of could be satisfactorily brought about, Prior to this, however, and without giving Mt, Joy any notice of their intended action, the Taneytown congregation had taken a vote on the subject, and voted almost pranty movely in favor of savaration and McKinstry, grand-son of Evan Mc-Kinstry already mentioned.

Maryland Lutheran Synod.

The congregation of Grace English Lutheran church, Broadway and Gough street, Baltimore, Rev. O. C. Roth, pastor, is preparing for the annual convention of the Maryland Synod, which will meet in that church from October 10 to 15, inclusive. It will be the seventy-sixth session of anniversary of its organization.

Exercises commemorative of the

anniversary will be held on the evening of the opening day. A banquet will be served, and Rev. Dr. John C. Morris is preparing an historical paper to be read on that occasion. The synod comprises all the English Lutheran churches of the General Synod in Maryland and also those in

Lincoln as a Lover.

Abraham Lincoln's sentimental perplexities are to be shown in an article of singular interest which John dilmer Speed has written from unpublished letters of Lincoln to Joshua Speed, for the next issue of The Ladies Home Journal. The article will show that the great President was not steady in his affairs of the heart, that he floundered in his love, and finally induced his friend Speed to marry and tell him (Lincoln) whether marriage was a failure or not.

Preparing a Prescription.

"I noticed," said the druggist to his assistant, "that a gentleman came in with a prescription and that you took it and gave him the stuff in about three minutes. What do you mean by that?"

"It was only a little carbolic acid and water," replied the assistant. "I simply had to pour a few drams of acid into the bottle and fill it up with

THE POWER OF HOME.

The unit of society is the home. En-

rollment that assumes to be thorough is not a registration by individuals, but by families. If we were to say that the pleted and paid for.

The Rev. P. Bergstresser served as pastor of this congregation for seven that constitutes each separate cell. No man, however entire, is a cell. No woman, however complete, is a cell. by the ties of domesticity. A bachelor is a dislocated fragment. His female counterpart is in the same category. It may not be their fault. It may lie in the necessity of their case. Still, all in all, it is a condition foreign to divine intention.

It is to the family, therefore, that we shall have to look as being the prime point of concern in all that relates to the weal of our times and our kind. The strength and health of society are to be measured by the amount of affectionate emphasis that is laid on the home idea, and the wholesomeness of society is simply the sanctity of the home writ large. Homes are each of them the separate roots that carry their several contributions to the organized structure of the general life.

All of this holds whether society be considered in its religious relations, which we know as the church, or in its secular ones, known as the state. The home is the first church, and the home is the first state. There is nothing in either of the two that is not initially present in a small way inside the home circle. As regards the former there is a very important idea conserved in so arranging our church auditoriums as to combine the congregation without sacrificing the identity of its families. The pew system of worship is the deft way that our church architecture takes to head, and particularly in his heart, this of his congregation depends not on the
