Union Bridge is to have a door knob and emery wheel factory. The people of that place should consider well before placing their hard cash, in such a hard business, these hard times.

The drought in this section was effectively broken by a continuous rain on Thursday, during the day and night, which did a great deal of good, and, it is hoped, may strengthen the wells.

At a meeting of the Board of Directors of the CARROLL RECORD COMPANY, on Monday night, it was decided to increase the size of the RECORD from seven to eight columns. The change will likely be made in December.

Both parties have made an active canvass of the counties during the week, covering places at which meetings had not been previously held. Both campaign headquarters claim the election of their candidates by good majorities.

Cards are out announcing the marriage of Mr. Arthur W. Coburn, of Gettysburg, to Miss Maggie E. Witt, daughter of Henry C. Witt of near Taneytown. The ceremony will be performed at the Witt home, Tuesday, Nov. 6th., at 1:30 p. m.

Burn out your chimneys, when it rains next, or better still, sweep them out. A good way to do this is to get a little pine tree, drop a rope down from the top of the chimney and fasten to the stem of the tree, then tie another rope to the top and pull up and down through the chimney.

John G. Hess, of the Hess Manufacturing Company, Hagerstown, writes us that his travels through West Virginia, he finds great numbers of cattle for sale. The drought has ruined all the pasture, and the farmers are compelled to dispose of their cattle before the cold weather sets in. The price is from \$2.00 to \$3.00 per hundred. Business is dull all over the state.

A typographical error occurs in the first paragraph of our editorial, "Carroll County figures." The vote of 1895 should be 3674. The table of figures states it correctly. Also in "How to vote;" the People's ticket may not have any emblem at head of ticket, and another ticket; Socialist Labor, has been added, which will be headed with an arm and hammer. There will be five printed tickets and one blank one on the ballot.

NOTES HERE AND THERE.

Since the 11th., of June, two hundred and fifty-two foreigners were naturalized at Towson, Baltimore county.

The McSherrystown Water Company has paid up capital of nearly \$10,000, with a floating debt of about \$4,800, the cost of the plant having been nearly \$15,000. An effort is being made to sell stock sufficient to pay the floating debt, when the company will pay a dividend of at least two per cent.

Next year, 1896, will be leap year. The girls will do well to make the most of the opportunity, for it will be eight years before another comes. The year 1900 will not be leap year. The year is 365 days and six hours long less eleven minutes. The eleven minutes amount to one day in 100 years, when leap year is dispensed with. The year 1900 will therefore not be a leap year.

A democratic mass-meeting was held in Westminster last Saturday evening, at which Messrs. John E. Hurst, John P. Poe, William S. Bryan, Marion DeK. Smith, Senator C. J. Faulkner and Isaac Loeb Strauss, made addresses. Senator Faulkner, Mr. Strauss, Judge Roberts, Collector Shaw, ex-Judge Bond, Senator DeK. Smith, and Dr. H. B. Hieshew, were entertained at supper by Postmaster Boyle.

Mr. Henry Shriver, of Westminster, met with an accident last Friday which resulted in his death on Monday. He has been for some time living, or roaming by himself, and as it was noticed that the curtains of his room were down all day on Friday, on Saturday his room was entered and he was found lying on the floor in an exhausted condition owing to loss of blood from an cut in his head. He had entered the room in the dark and in a fit of vertigo, fell out and his wrist in a glass door.

The Reformed synod adjourned on Friday. A number of reports were read, and the number of the members of the church, all of which were satisfactory. In the afternoon the synod entered into an election on members of the various boards and afterward reopened the report of the committee of education and passed resolutions commending the work of the Woman's College of Frederick. The synod, after adjournment, visited the Maryland School for the Deaf and Dumb, upon invitation of the principal, Mr. C. W. Ely.

Rev. Emanuel Myers, a German Baptist minister, fell dead in the pulpit of the East Codorus meeting-house, near Loganville, last Sunday morning. Rev. Mr. Myers had just announced his text when he sank slowly to the floor. The congregation hurried to his aid, but all their efforts to revive him were in vain. Mr. Myers was a farmer and resided in North Hopewell township. He had never preached before and his nervousness over his first attempt is supposed to have brought on heart disease, to which he was subject.

Mrs. John Domes, residing near Eicholtz Mill, a lady weighing about 200 pounds, broke through the floor of an unused well at the home of the late John Fick, one evening last week. Unlikely as it may seem at this dry season, the water was nearly full of water, which floated her to the top, from which two ladies were able to catch and hold her by the hair and afterwards her hands, until aid was secured from a distance of a quarter-mile. Just about a week previous Mrs. Domes was thrown from a horse, on, but she is not suffering any ill results from either mishap.—Clarion.

The sixth annual state Christian Endeavor convention met in Hagerstown during the week. According to the report of the secretary, there are 175 Christian Endeavor societies in the state, three hundred of which have sent statistics to the state officers. There are 78 Y. P. S. C. E. societies in Baltimore and 52 junior societies, 211 Y. P. S. C. E. societies and 35 junior societies in the counties. The Y. P. S. C. E. societies of Baltimore have a membership of 3,875 and the junior societies 2,103. The Y. P. S. C. E. societies in the counties 6,554 and juniors 1,289, making a grand total of 13,824. Estimating the unreported societies at the same average number, there would be a total membership of 17,458.

Recently Major J. P. Lowell had the bodies of W. H. and S. D. Huber, sons of Henry and Catherine Huber, and brothers of A. H. Huber, Westminster, removed from the old Lutheran graveyard at Waynesboro and sent to Westminster for burial. S. D. Huber was orderly sergeant of company A, 13th regiment Ohio Infantry, and fell in the battle of Stone River, 1862. His body was placed in a zinc-lined coffin and sent home for burial 33 years ago. The coffin was opened and the body and clothing were in almost perfect preservation. The uniform in which he had been buried was still sound, the stripes down the legs and the marks on his arms denoting his rank were also perfectly visible, and his hair and beard the natural color. Another peculiarity observed was that the ground under the grave a foot below the surface was not compact, but in the same condition as when it was placed there 33 years ago.—Gettysburg Star.

Echoes from the C. E. Convention.

Westminster, Oct. 17 and 18. [For the Record.] Convention Sermon by Dr. W. H. Dunbar. Text, "Not knowing the things which shall befall me there." Acts 20:23. Subject, "Christian Heroism," especially manifested in readiness for service. Be always ready and willing to do the Master's work, whenever and however it come to you.

Sunrise Prayer Meeting. Topic, "Working and Watching." Let us watch for the coming of Christ, not as the child at the window, with face pressed against the glass, eagerly, but idly, watches for the coming of his father, but as the workman on a building busying himself to have his task as nearly as possible completed at the coming of the master-builder.

The plan of redemption being wrought out, was given to the church, not only for its own benefit, but especially as a commission to be given to the whole world, and the responsibility for this work rests not only upon the church, as a whole, but upon each individual member of it, with equal weight.

There are many "spiritual tramps" professing to be anxious for work in the Master's vineyard, but ready to turn their backs and run if work is offered them to do.

We are saved as individuals, not as societies, or churches, or denominations, therefore it rests upon us not only to make sure of our own individual salvation, but also to do individual work for the Master. We must each one meet God alone at the judgement.

The disciples were not called Christians until after they became missionaries. (Acts 11:26.) Can we claim the title if we lack the missionary spirit?

We, in this free land of boasted christianity and civilization, forget when we deary foreign missions, that had it not been for the work of foreign missionaries who brought the gospel to our ancestors, we would today be living in heathen darkness and degradation. We are the subjects of foreign missions, and have been so blessed in order that we may bless others.

We would all be willing to be so endowed with power from on high, as to be able to accomplish the work of a Paul or a Peter in winning souls to God—we all covet such consecration and power as this—but not until we are willing to glorify God by lying still, or by suffering, if so it be that He would have us glorify Him, are we truly consecrated to His service.

We are to consecrate our bodies to God, that he may use them to work for him. "Consecrated to evangelize"—not to convert. We have nothing to do with results, that is God's part of the work. Our is to see that the knowledge of Jesus Christ, the Savior of sinners, is given to every creature; there our responsibility ends.

It costs us something to be wholly consecrated to God. We have to give up our own pleasure or ease, or perhaps some darling secret sin. Yes, consecration costs, but that small cost is as nothing compared to what our redemption cost the Son of God, and the price he paid for our salvation.

How to conduct a C. E. prayer meeting.

- (1) How to prepare for it. PREPARE. Study the topic. Read Bible readings. PRAY.
- (2) What to put in it. Pray for the Spirit's help and presence. Be earnest. Be sincere.
- (3) What to keep out of it. A critical spirit. Self-irreverent behavior.
- (4) What to get from it. A blessing, that we may bless others. We must do our part to make the meeting a good one, if we would gain this blessing; give and you will get.

ONE WHO WAS THERE.

W. T. Haugh's Car Fender.

The Gettysburg correspondent of the Sun had the following in Monday's issue: W. T. Haugh, of Waynesboro, Pa., formerly engaged in manufacturing at Taneytown, Md., is the inventor of a new life-saving car fender, which has been given a test for the first time here on the trolley lines. The test resulted very successfully. A distinctive feature of the fender is the revolving point, or nose, as it is generally called, which, when brought into contact with the trolley track, reels it into the net attached to the fender.

Dummies were placed on the track in every position, first that of a full-grown man and then that of a boy, and both were picked up and reeled into the net. The trolley was running at full speed. A large number of people, including a number of traction managers from distant cities, were present at the exhibition. The operation of the machine was pronounced a success by all.

A Good Horse.

Last Sunday's York Gazette says the following: The next race horse that had stepped the York race track this year is the black trotting mare Greendaleer Girl, 2:19, owned by Joe. A. Ocker, of Littlestown. At Hanover she beat the speedy Baltimore trotter Little Tobe, 2:19, in straight heats. Again over the York track she vanquished a field of pacers composed of Comet 2:17, Mary West, 2:19, and J. S. A. 2:18. The mare took the first heat in 2:19. The second was a dead heat with Mary West in 2:18, though at the instance of Mr. Ocker, Greendaleer's owner, the heat was awarded the pacer. The next two heats went to "Old Blackie" as the groom calls her, the time being better than 3:20. At Hagerstown last week in the 2:18 class she started against the fastest race horses of Philadelphia and Maryland and out-trotted the whole company, among them being the great racing stallion Monocacy 2:17, whose victory at Pimlico a week or so before made his name a household word. After her victory at this track she was sold by W. J. Roberts, of Taneytown.

Our local politicians are talking up their favorites with a vim and we presume it is only the absence of a "hoodle" that prevents some heavy betting. Don't get scared, no matter who is elected our country will be safe. No lion or tiger is able to destroy her.

DOUBLE PIPE CREEK.

We do not know what has become of our correspondent, and as our place is of some notoriety at times, it should surely be represented in your valuable paper.

Some of the little boys of our place are getting pretty rough in their ways; some of them are thumping one another over the heads, making the blood flow. The small boys seem to be getting more and more wild, than some of the big ones who seem to be pretty good on a run. A good run beats a sore head.

NEW WINDSOR.

Since our last writing, two aged residents of this vicinity have passed away, both of whom died on Friday afternoon, October 25th. The former was Mrs. Engelman, aged 79 years, who died at the residence of her son-in-law, Mr. James Richardson. Her remains were interred on Sabbath afternoon at Winters', of which church she was a member. She leaves one son, Uriah, of Miamisburg, Ohio, and one daughter, Mrs. James Richardson, of this place. The late Eden Engelman of Union Bridge, was also a son of hers.

The real estate of the late Harry E. Lambert was sold at public sale a few days ago, to Mr. Jno. W. Lambert for \$1500.

Mr. W. Alexander had a narrow escape from sudden death on Tuesday day of this week. He had hauled a load of wood to town, and was returning home with the empty wagon, crossing the railroad just as the 10 o'clock west bound passenger train was around the bend and crashed into his wagon, breaking it to pieces. Fortunately for Mr. A. he saw the train in time to jump from the wagon, on which he was riding, and save himself from injury. His horses also escaped unhurt, although they were badly scared, and ran some distance before being caught.

The weather still continues dry here. Corn husking, apple picking and electioneering seem to be the order of the day.

YORK ROAD.

Mrs. Florence Koontz paid a flying visit to Baltimore last week.

Grandma Barnhart of near Myers' Mill is spending a few days with Mr. and Mrs. W. W. Sweigart.

The farmers around the country are nearly done husking corn, which makes them all feel happy.

Owing to the dry weather and the water famine, several of the wells in our town have gone dry, and especially the one at the depot, which makes it very inconvenient to the traveling public.

There is a gatekeeper in our town who ought to wear a "high hat and a swallow tail coat," because of the position he expects to hold after the election, and we hope he will not be disappointed.

Mr. J. Ephraim Grimes spent Sunday and Monday near Good Intent, Frederick Co., Md.

HARNEY.

Mr. Henry Lynn, an aged and highly respected citizen of this place has been confined to his bed for some time; little hopes are entertained for his recovery. Old age is the only trouble.

No good citizen will deny that we are badly in need of a Justice of the Peace, and a good constable, in this place, after hearing the profanity and vulgarity that we have been compelled to hear for the past few months especially on Saturday evening. We would just say, remember boys we have a law that strictly forbids the kind of language that has so frequently been made use of, and some of the better class of people will not put up with this kind of conduct, very long. Your profanity is despised by all, and the ladies especially condemn your actions. What would your mothers think of you if they knew how you acted? All we can say is, shame! boys, shame!

On November 10th., the Young Peoples Christian Endeavor society of St. Pauls Lutheran church at this place will celebrate its anniversary with appropriate services.

The history of Bruceville will follow that of Keysville. Mr. E. H. Sharetts is writing it up.

The photograph of mixed schools which is being used as a campaign document by the democrats, made its appearance here this week and produced quite a sensation. It seemed to be deplored by all parties that it should be thought necessary to resort to such means to defeat the opposite party.

Mr. James Shriener's daughter, Belle, was severely bitten by a dog belonging to Mr. William Smith one day last week. Mr. Shriener with the aid of Mr. Smith promptly put an end to its life.

The pastures have become so short that it has become necessary in some cases to feed cattle hay or fodder. In several cases they have broken into corn fields and caused considerable damage. In one case a law suit was threatened, but it was finally settled without much trouble.

On last Wednesday evening, Mrs. Wm. Flickinger was hastily summoned to the bed side of her sister, Miss Jane Sell, daughter of Mr. Henry Sell near Bassett's church, whose end was near. She lingered till the next morning about one o'clock, when death came to her relief.

MAIDENSVILLE.

Eliza, wife of William Engelman, who formerly owned the mill at this place, was interred at Winters' church on Sunday afternoon, the 27th. At the time of her death she resided in New Windsor. Death resulted from general old age. Her age was about 79 years. Out of a large family but two children survive her; Uriah, who is a prosperous miller of Ohio, and Martha, wife of James Richardson of New Windsor. Funeral services were conducted at the home, Rev. G. W. Baughman officiating.

Mr. Jesse Myers, an aged farmer residing near New Windsor, whose death took place on the 28th., inst., was interred at Winters' church on Monday afternoon, the 28th. Although the funeral took place at the home, additional services were held at the church, Rev. G. W. Baughman officiating, assisted by Elder Solomon Stoner. Mr. Lewis Shuey and wife of near Uniontown, were guests of Robert Davidson on the last Sunday.

Politicians are getting wild and woolly. As usual both parties claim election of their respective candidates before hand. Somebody is going to get some of the "softness" taken out of them, that's certain.
